POLITICAL ETHICS.

The Punta Gorda Herald says:

"According to Editor L'Engle's system of political ethics any man who is opposed to any or all of Governor Broward's policies is 'the heirling, agent or representative of 'the interests,' otherwise the trusts and corporations.

"The gist of the argument seems to be this: All of Governor Broward's policies are designed for the good of the people; those, therefore, who oppose them, are against the people.

"Now, let us apply this principle and see how it works. Editor L'Engle has repeatedly condemned the editor of The Times-Union, The Tampa Tribune and The Gainesville Sun because of their opposition to gubernatorial policies, and has branded them as the tools of the corporations. According to his view, whatever they advocate is for the benefit of 'the interests' and against the good of the people.

"Ergo, the McCreary bill for State uniformity, which was prepared and introduced by the editor of The Gainesville Sun and embraces the views of the Governor, is against the interests of the people and designed for the benefit of the American Book Company, which is trying to defeat it. Here we have quite a contradictory state of things, but doubtless Editor L'Engle's ethics cantain something to reconcile them.

"At the same time, we find that The Times-Union is opposed to State uniformity, while The Tampa Tribune favors it. As Editor L'Engle seems ready with an explanation for everything, it will be interesting to read his explanation why these three alleged corporation organs do not unite and come to the aid of the book trust in its efforts to defeat uniformity."

"Fort Myers," says The Times-Union, "is full of the spirit of improvement. Its people are proud of their city and alive to its opportunities. They are taking steps to build a seawall and boulevard along the river two miles in length. The owners of property abutting on the proposed boulevard, to be made by filling in behind the seawall, have agreed to pay two-thirds of the total cost, the town to pay the remaining third by bonding, borrowing or otherwise. In return the town will be deeded a 65-foot boulevard." This generous emulation among Florida towns and cities to deserve the crown of beauty is a good thing for the people in many ways. Not only does it serve to leave a lasting impression on the winter visitor and thus advertise the State abroad, but it makes an environment of beauty for the resident which refines the spirit and leads to the forming of nobler ideals, which again react on the environment by inducing residents to pay still more attention to improvements which are meritorious from either a sanitary or esthetic standpoint.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
