U.S. PREPARING TO ABANDON STO. DOMINGO

INTERFERENCE WITH MOVEMENT OF U. S. MAIL IS MOST SERIOUS DEVELOPMENT IN THE STRIKE OF RAILWAY SHOPMEN Y'DAY.

CHICAGO, July 11.—(By the Associated Press.)—Interference with United States mail became a serious development in the railway shopmen's strike today. Troops and United States Marshals were in charge at numerous points throughout the country where trouble threatened to become serious. At Bloomington, Illinois where state troops are guarding railroad property, snipers were reported to have fired on the guardsmen with machine guns, to which the troopers replied. No casualties are reported but the guardsmen have been heavily reinforced.

Union leaders today expressed satisfaction with the progress of the strike declaring that the workers in other departments are striking sympathetically, further affecting the railways.

TENTATIVE WITHDRAWAL PLAN IS AGREED UPON

Program Will Be Carried Out As Soon As It Can Be Ascertained Whether It Meets the Approval of the Majority of the Dominican People—U. S. Commissioner To Sto. Domingo With Rank of Minister Will Leave Immediately To Ascertain People's Wishes

WASHINGTON, July 11.—(By the Associated Press.)—The State Department announced today that a tentative program for the evacuation of Santo Domingo by the American military forces has been agreed upon with a group of Dominican leaders who have been in Washington conferring with State Department officials. The program will be carried out "as soon as it can be ascertained whether it meets the approval of a majority of the Dominican people," the statement said.

Commissioner Appointed.

WASHINGTON, July 11—(By the Associated Press.)—The State Department announced that Sumner Welles, ex-chief of the Latin-American Division of the Department of State, has been appointed Commissioner to Dominica with the rank of Minister and that he would leave immediately to ascertain the views of the population regarding the plan to withdraw American troops from the country. The program provides for the establishment of a provisional government composed of Dominicans which will conduct general elections without intervention by the American authorities and the installation of the subsequent permanent government. As soon as the [illegible] al president and congress [illegible] ed and installed, the American forces will be withdrawn.

GIRL SLAYER OF DEPUTY LLORCA MAY GO UNPUNISHED.

MEXICO CITY, July 11.—(By the Associated Press).—Maria Del Pilar Moreno, the fifteen year old girl who killed Deputy Francisco Tejada Llorca yesterday, in avenging the slaying of her father by the Deputy, two months ago, probably will not be prosecuted as the shooting was done with a tiny pistol given her by her father as a Christmas present. Deputy Llorca claimed the immunity of his office and was not tried for the killing of Moreno.

CANTON FORTS AGAIN UNDER BOMBARDMENT.

CANTON, July 11.—(By the Associated Press).—Doctor Sun Yat Sen, former President of the South China Government, arrived in the harbor today aboard a gunboat escorted by two destroyers, after bombarding the forts two miles below the city. Doctor Sun said that he has no intention of bombarding the city.

HEAVY WIND AND RAIN STORM SWEEP U. S. CENTRAL STATES.

CHICAGO, July 11.—(By Radio).—Heavy wind and rain storms swept through many towns in Illinois, Wisconsin, South Dakota, Nebraska and Kansas yesterday, causing heavy property damage and the loss of a few lives. Rivers in Wisconsin and Nebraska have overflowed and are flooding the country side.

C. Z. BOYS SCOUTS OFF TO CAMP TODAY

Hour of Departure To Be At Four O'Clock Instead of Five—Troop Assembles At Balboa Clubhouse At 1 p.m. Today

Departure of the Canal Zone Boy Scouts for Chiriqui this afternoon has been advanced an hour, E. F. Attaway announced yesterday afternoon at the Balboa Heights Administration Building.

Instead of the steamer Cobre sailing from Panama at 5 o'clock this afternoon as was at first planned the boat will sail at 4 p.m.

The Scouts who have signed up with Mr. Attaway's troop should be at the Balboa clubhouse at 1 o'clock this afternoon for inspection.

4 PEARL FISHERS ARE STRUCK BY LIGHTNING

Electrical Storm Which Isolated Point Mala Monday, Injured Four Men Seeking Shelter on Beach—No Lives Lost

Four pearl fishers were struck by lightning which felled a tree they were sitting under and cut off Punta Mala from both telegraphic and radio communication with the rest of the Isthmus for approximately 24 hours.

No other damage was done, according to reports reaching here yesterday after communication was re-established and the four men are still living.

Static Too Heavy

A terrific electric storm which raged beyond Pedasi Monday, tore down telegraph wires. Electrical conditions of the atmosphere were so disturbed that wireless messages could not penetrate the static and the radio station at Punta Mala was unable to communicate with Balboa.

Shortly before noon yesterday, Balboa Radio was again able to communicate with Punta Mala. The telegraph wires were promptly repaired and telegraphic communication re-established.

Sought Safety on Beach

As far as could be learned, the pearl fishers were sheltering from the storm under a tree on the beach. One of them was badly burnt but the other three are not too badly hurt.

They were carried to Pedasi and are reported to be recovering.

DELEGATIONS IN FAVOR OF MORE PRECISE DESIGNATION THAN JUST U.S. GOVERNMENT

Opinion In Some Quarters Favors United States Supreme Court or Commission Named By President Harding—General Protocol Providing For Arbitration of Article Three of Treaty Virtually Completed At Yesterday's Conference—Second Document Started

WASHINGTON, July 11.—(By the Associated Press).—It is indicated that President Harding probably will be specifically designated as the arbitrator of the Chile-Peru dispute. Up to the present the agreement merely named the United States Government as the arbitrating agency but the delegates are understood to be in favor of a more precise designation. Opinion in some quarters however, favors the United States Supreme Court or a commission named by President Harding.

Protocol Almost Complete.

WASHINGTON, July 11.—(By the Associated Press).—A general protocol providing for the arbitration of the controversies arising out of the non-fulfillment of Article Three of the Ancon Treaty is understood to have been virtually completed at today's conference. Progress is also said to have been made on the supplementary agreement setting forth the specific questions for the arbitrator to decide. The delegates meet again on Wednesday and it is indicated that both documents might be ready for signature before the end of the week.

The joint sessions were resumed this morning to complete details of the arbitration agreement and was the first to be held since June seventh. Besides the question of the exact phraseology of the protocol a few remaining points which were considered as of collateral importance were said to have been discussed.

The present plan is to sign the two documents at a final public session which the delegates predicted tonight, might take place before the week end. The documents will be submitted to the Chilean and Peruvian congresses for ratification and when the parliamentary approval is completed they will have full force as treaty agreements.

C.Z. SANITARY OFFICIALS FIGHT AGAINST MOSQUITOES DESCRIBED BY C. H. BATH OF ATLANTIC DIV.

All Night Vigil To Determine Flight of Mosquitoes Not Infrequent—Inspector at Gatun Giving Saturday Evening Talks on Mosquito Control and Also Objective Lessons At Breeding Areas—Mosquito Problem Is Community Affair and Merits Community's Co-operation

CRISTOBAL, July 11.—What the health department of the Panama Canal has done in the past to tackle the mosquito is now a matter of history but what this great body of workers is doing today is not so well known, and many have been thinking that the army of sanitary inspectors is resting on its oars and allowing the wily 'skito to again do its darndest.

The Star and Herald man on the Atlantic side has taken this matter up with the health officials and with the approval of Dr. J. L. Byrd, the health officer for Cristobal-Colon, Sanitary Inspector C. H. Bath, one of the old timers in that band of health workers gave out the following statement regarding the work of the health squad on the Atlantic side today.

Co-operation with the health department is the keyword.

Here is Mr. Bath's statement:

Bath Makes Statement.

"Much interest has always been manifested on the Isthmus by Employees of the Panama Canal and others in the relationship of mosquitoes and other insects to disease of the human race.

"The interest is a healthy one and should be encouraged by health department officials to the extent of freely giving instruction to such of the public as will accept it, and also welcoming such assistance as the public can give to the health department in the way of co-operation and reporting any condition apt to cause ill health, naturally the better informed a person is the greater the value of his observation.

"The Sanitary Inspectors of the Panama Canal frequently hold evening or even all night observations of mosquito flights and from their observations on these occasions many valuable deductions have been made and much effort saved by directing attention to the breeding areas needing intensive control.

"The activities in curative medicine are centered around the individual to be cured by the administration of various medicines and processes of treatment ready to hand, but preventive medicine especially in connection with mosquito borne diseases, is comparatively a new art, its application involves numerous still unknown conditions in vast areas surrounding communities that are to be protected from annoyance and di

RICE SHORTAGE REPORTS ARE UNFOUNDED

General Opinion Is That There Is Sufficient Rice Stored Here To Amply Provide For At Least Next Two Months

The rumors current during the past few days that rice is about to become so scarce as to cause hardship are apparently not founded on fact.

A careful survey of the situation was made together with a canvass of the largest dealers in this almost indispensable commodity and the consensus of opinion is that the supply for the present is ample and no fears are entertained for the next two months.

It is said that there are more than 250 tons of rice in Panama today, and one of the largest dealers ventured the opinion that perhaps this amount alone might be found in the storehouses of two dealers, apart from that held by others.

It seems that the San Francisco market is somewhat short but this condition does not materially affect the local market for, it is stated rice can be obtained in New York at a somewhat higher rate due to handling and freight.

Colon Bringing More

According to reports, the "Colon" will arrive shortly with 30 tons, on July 23, the "Seiyo Maru" with 300 tons, on July 29, the "Nagato Maru" with 200 tons and during the latter part of August, the "Rakuyo Maru" with 250 tons. This means that by September there will have been received at least 780 tons or 15,600 sacks of rice.

Dealers concede that the spoilage is negligible and when handled with ordinary care, rice is as stable as other grains. There has been no advance in price neither wholesale nor retail for the past two weeks when a New York shipment made a rise necessary. The best index for the man in the street who buys a sack or less at a time is the daily market report.

PANAMA BUSINESSMEN DECIDE DEFINITELY TO BOOST PANAMA

Association of Commerce Pledges Funds Necessary To Conduct Extensive Publicity Campaign In United States and Other Tourist Centers—Plan Outlined By E. W. Mitchel, Unanimously Accepted—Association's Financial Condition Sound

At the meeting of the Panama Association of Commerce held at the Central Hotel last night, it was unanimously voted to allot sufficient funds to the Publicity Committee for propaganda until April.

All members of this committee were present and Messrs. Duque and Cordua addressed the assembly on the necessity of publicity and the advantages to be derived, after which E. W. Mitchel presented a tentative plan which was accepted by the body.

Plan Seems Suitable.

The plan appears to be suitable for the purpose, but the real work commences now and the assistance of the organization was requested in order that success may be assured. This is the first time the Association has taken definite steps toward advertising the Republic and great results are expected.

Mr. Dales requested that the Publicity Committee be augmented by two members, this was acceded to and Messrs. Thomas [illegible] and Alcibiades Arosemena were appointed.

PARIS, July 11.—(By the Associated Press).—The French Government opposes the immediate meeting of the Allied powers to discuss the reparations situation, and will only consent to such a meeting as a final step. This was made plain in official circles this morning following a long conference between Premier Poincare and M. Dubois of the Reparations Commission.

THIEVES FROM CUBA COME TO GRIEF IN HANDS OF PANAMAN POLICE LOSING $19,850 LOOT

Sub-Inspector Arango Spots Booty's Cache In Woman's Bosom After All Efforts To Locate Same By Searching Male Companion and Pumping Them Both Had Failed—Are Accused of Robbing $25,000 From Havana Firm of Zaldo & Cia.—Held For Extradition

Jose Guerra, alias Alfredo Gonzalez, and Maria Gonzalez, who arrived Sunday on the Spanish steamer Montevideo, are facing extradition to Cuba, to stand trial for the theft of $25,000 from the firm of Zaldo & Co., of Havana, Cuba. The Panama police authorities yesterday recovered $19,850 of this sum, which had been cached away in Maria's bosom.

Guerra is charged with the theft by the Havana Police and though no charge is known to have been brought against Maria, indications are that she will be called to account also as an accomplice.

Both Guerra and Maria are in the Central Police Station pending instructions from the Havana Police authorities and the fulfillment of the usual extradition procedure.

Police Authorities Notified.

On July seventh, the Canal Zone and Panamanian police were notified to be on the lookout for Guerra and his companion and explained his presumed connection with the robbery.

On the arrival of the "Montevideo" Sunday at one o'clock, Guerra and his companion were taken in charge by the Cristobal police and

When Baby Cries and Cries and Cries—try Kora-Konia

There are so many things to make a helpless baby cry and wail—prickly heat, rashes, scalding. Involuntary habits expose the little legs to really painful irritations. Damp diapers chafe the skin and make it all sore.

Kora-Konia does two things. It really heals and soothes—dries up sore spots—makes them disappear. But it also protects the skin. It forms a velvety film which clings to the skin for hours, preventing friction—a waterproof film which is not readily washed away.

Try it. Watch the angry [illegible] go. See how quickly the skin becomes normal. Baby's cries are hushed because baby no longer suffers. Can you [illegible] a minute to bring this wonderful relief to your unhappy, helpless little babe? Your nearest druggist has Kora-Konia, the wonderful powder that heals.

HOLY CONFIRMATION AT LAS CASCADAS

Last Sunday, after Morning Prayer, the Rev. J. T. Mulcare, Priest in Charge of St. Bartholomew's Church, Las Cascadas presented a class of six candidates to the Right Rev. Jas. Craik Morris, D. D., bishop of the Canal Zone who duly laid his hands on them and preached a stirring sermon from the words "If any man will come after me, let him deny himself and take up his cross and follow me."

In his preamble the bishop said he was highly pleased with the churchly appearance of the building and complimented pastor and people alike on the success of their united efforts and wished them still greater success.

Eight years had passed since the last Confirmation Service was held at Las Cascadas, and so our people were indeed happy to look into the face of their new bishop.

Quite a large number of the members of St. Barnabas' Church Empire together with friends from other religious bodies, attended the service. A very inspiring anthem was rendered by St. Barnabas' Church Choir.

DEATH OF MRS SUSAN J. SMITH

It is regretable to chronicle the death of Mrs. Susan J. Smith wife of the well known Mr. J. R. Smith of Gorgona school. She departed this life on the 11th of June after a few months' illness. She was a member of the B. W. I. Her Christian life was remarkable. She was a member of the Baptist Church for many years and was very faithful, upright and energetic. In her home town she was both a mother and sister to everybody and gained the affection of all. She was much respected and honored. Her last words were "Thank God it is all over. I am going to dwell with Him above."

The funeral ceremony was very impressive. She has left behind a husband, five sons, two daughters, brothers, nieces and nephews, grand children, numerous relatives and friends to mourn her loss.

Reparation Commission decided this evening. The German Government has been relieved of the balance through deliveries of dyes and coal.

Moratorium Probable.

PARIS, July 11. (By the Associated Press). A moratorium on Germany's cash payments for the remainder of this year was thought in circles close to the Reparations Commission to be quite probable as a result of the conference this morning between Chairman Fischer of the German War Debts Commission and the Reparations Commission. Herr Fischer told the Commission that the German Government will present a formal request for a moratorium at the meeting of the Commission on Wednesday. It is understood that majority of the Commission see no way out of the present crisis and are therefore prepared to vote for a temporary moratorium, particularly because there is the general realization that an immediate loan to Germany is not possible and the relief for the present conditions must come quickly.

To Visit London.

LONDON, July 11. (By the Associated Press). The Cabinet council arrived at no decision at its meeting this afternoon on the question of the German moratorium, beyond an agreement to invite Premier Poincare to visit London, which is now expected within a fortnight, according to reports. The two Premiers will probably discuss the questions of moratorium or an international loan to Germany.

TRADE OPTIMISM.

This steady diet of optimism is beginning to pall. Are living for months on cream puffs and the latest dish is that of Director Klein of the Bureau of Foreign and Domestic Commerce regarding the trade between the United States and Latin American countries. We are just as anxious as Director Klein for this trade to increase and grow, but we are not nearly so optimistic.

He calls attention to the fact that during the last fiscal year the total trade of the United States with Latin-America was forty-four per cent. greater than for the fiscal year ending June 30th, 1914, presumably taking that year as normal because it just preceded the great war. For purposes of comparison it was far from normal as it was the end of a year in which European trade, and especially German, was strongest in Latin America. Germany had been loading up on raw materials for the war and clearing out stocks in expectation of reduced production.

Along comes the war and practically turns all of the Latin-American trade over to the United States, Germany being prevented from holding such as its exporters could supply by the Black Lists and the blockade. England, France and Italy soon found themselves too much occupied with munitions and war essentials to bother with Latin-American trade to any great extent. The United States had almost a monopoly.

It would be more interesting if Director Klein would tell how much Latin-American trade with the United States has fallen off from the peak reached in war times. How much of the trade that came to the United States as a result of the war has been held? Certainly that trade at the peak was more than forty-four per cent. greater than the year previous to the outbreak of hostilities in Europe. Conditions have not changed very much since the armistice.

Director Klein says that a study of his figures gives an idea of the recuperative powers of North and South American countries. Possibly, prosperity has at last got "around the corner" in North America, but it is still beyond the direct line of vision in the majority of the countries of this half of the continents. It is possible that the trade is forty-four per cent. greater than in 1914, because the European countries that formerly competed with the United States in Latin America are still in the helpless and almost hopeless state of economic ruin which they were left after the armistice.

Optimism is all right as an [illegible]

ARGUMENTS IN CRIMINAL ACTION AGAINST DEPUTY F. ARIAS P.

The following are the rebuttals by the prosecution and the defense in the hearing of the case against Deputy Arias P., on the charge of calumny and slander which it is alleged he perpetrated against the person of Dr. Belisario Porras, President of the Republic:

zer, but plain facts are best for a steady diet.

The cable tells us that John Shell of Louisville, Kentucky, died at the age of 131 years. There was something in that Shell. Might have been a Kentucky colonel.

The other half of that bonus could come in handy in helping canal employes to pay the cost of the Congressional rider on the appropriations bill does not keep them from getting it.

Incidentally that limiting rider on the Canal appropriation bill is a bad precedent and it might become a bad habit with the appropriations committee. If it is carried in future bills it will transfer to Congress authority that rightly belongs to the Governor and Secretary of War. After all fooling with Congress is like playing with a buzz saw.

Look for bloody news from Ireland as today is Orange Day.

SENATE APPROVES THIRTY CENTS DUTY ON WHEAT

WASHINGTON, July 11.—The Senate approved by a vote of [illegible] to 12 the thirty cents duty per bushel on wheat. The Democratic leaders declared in the debate which preceded the voting that this single item in the tariff bill would cost the American people $100,000,000.

Senator McCumber, in charge of the bill stated he did not believe the proposed duty would reach the consumer, but even in case it were to it would only mean an extra expense of $2 yearly per capita.

[illegible] that the above [illegible] [illegible] to Paris by All America Cables, Inc. [illegible] on May 28th, 1922 [illegible]

PARIS, May [illegible] Panama [illegible] [illegible]

[illegible] Award [illegible]

Possibly I wrote reply in [illegible] do not remember [illegible] Andreve.

"I certify that this cable was received in the office of the All America Cables, Inc., Panama, at [illegible] a.m., May 31st, 1922, from Paris. M. L. Cardoza, Manager.

"The defense wishes to make it apparent that Dr. Belisario Porras is a persecutor of Mr. Arias P. only because he says he has paid [illegible] of [illegible] similar offenses [illegible] by Mr. Valdes and others [illegible].

"Mr. Lewis ought to know that our Penal Code in its Article 47 [illegible] authorizes the Citizen [illegible] to pardon the penalty which may have been imposed on the calumniator or slanderer for the offense committed and this demonstrates that [illegible]

[illegible] which [illegible] Dr. Belisario [illegible] whom I [illegible] we were in [illegible] of a political agitation in which no effort was stated regardless of whether it was correct or not, to besmirch the clean reputation of Dr. Belisario Porras. Deceit and deception were employed in efforts to attain the political ends pursued. The persecuted man, however, triumphed and with the unanimous vote of the country, including that of Mr. Lewis, Dr. Belisario Porras was elected in 1912.

"His triumph naturally dissipated completely any desire for vengeance as he believed it convenient to pardon the offenses committed against him because his adversaries were sufficiently punished with his victory.

"Today in the case of Mr. Arias P., things are entirely different. Dr. Belisario Porras does not wish to bother him and has not tried to persecute him. But Arias P., a deputy to the National Assembly establishes a newspaper and in his journalistic capacity declares the President a traitor for the unworthy manner, according to Arias, in which he handled the boundary dispute with Costa Rica and his attitude during the armed revolt which we all witnessed at the time when the children of our neighboring republic invaded our territory. The President had to give due consideration to the position in which he was placed as Minister and as President, the charges made against him, the standing of the persons that made them and his unavoidable duty of defending himself against said charges. In order to effect this defense, all that was necessary was to have Mr. Arias prove his charges and for this purpose Dr. Porras denounced the act before the Judicial power.

"No President, certainly, does such a thing because before the Supreme Court of Justice and before the entire universe there appears two accused. If Arias P. proves his assertions the situation for the President must be horrible. Therefore, there is no other way out but prove the truth of his charges and this is the work on which the counsel for the defense, Mr. Lewis, should waste his energies. To do otherwise must be an acknowledgment of ignorance regarding the duties that he voluntarily assumed or proves his impotence.

"The defense finds it strange that the Honorable Supreme Court of Justice should charge Mr. Arias with being a calumniator and slanderer.

"The judicial decision mentioned, demonstrate an act of justice inasmuch as Mr. Arias P. has failed to present proof that justifies his [illegible] accord with the opinion which the public has already formed regarding the paper established in this city by Mr. Francisco Arias P. Even the Panamanian clergy has found it necessary to express its opinion regarding the paper in question, as follows:

"'Fifth Year, Panama, R. P. June 4, 1922. No. 314
'THE CATHOLIC SHEET
'Readings for Christian Families.
'Publication of the Ecclesiastic Authority.

"'Farce and Calumny

'The Diario Nacion, which is edited in this city, a periodical whose tendencies are well known to all, in its 165th edition, published under date of April 7, 1922, reproduces an article said to have originated in one of the papers forming the Press of Bogota, in which is divulged an alleged crime attributed to a Parish Priest, named Victor M. Restrepo, of the Parish of Filadelphia, diocese of Manizales.

'The purpose of said publication can escape no one, neither good nor bad. To discredit and dishonor the clergy at the same time if possible, to keep the faithful away from the reception of one of the most necessary sacraments.'"

Mr. and Mrs. Heald and son will attend the International Women's meet in Paris in August.

ATLANTIC SIDE PARS

CRISTOBAL, July 11.—The 25th Squadron has settled down at France Field and seems to be very pleased with life on the Isthmus of Panama. Over fifty per cent. of the enlisted men who fired the record pistol shoot have qualified as experts, sharpshooters or marksmen.

Then many of the boys of the squadron have been given the opportunity of getting their first "joy hop," and only through lack of planes has the rest been prevented from taking a spin.

Sergeant Crevier, the athletic director at the post, has organized a number of activities which seem to please the new arrivals and everything at France Field is today going strong.

One of the most welcome visitors the Atlantic side has had for many a day was Mr. Joseph Wynne, of the Bureau of Payrolls at Balboa Heights, who came over to see Mrs. Wynne and family away to the States on the Panama, and spent the week-end on the sunny side.

Mr. Wynne was struck by the many fine improvements in both Colon and Cristobal since his last visit and proposes to pay a return visit in August.

Mr. W. F. Foster will arrive from New York on the Colon tomorrow.

Yesterday it was found that a nest of bees had made its home in the telephone box at the Cristobal docks gate office. The policeman on duty, Patrolman Alexander Kunz discovered the hive when using the telephone and steps were at once taken to have the bees let out.

Last evening the Knickerbocker Jungle of the Woodmen of the World held an enjoyable smoker at the Stag on Market Street.

Richard O. Semmat, the new manager for the War Department motion picture service on the Canal Zone, was formerly in charge of the middle west territory with headquarters at Kansas City and covered no less than 22 States from Ohio to Colorado and from the Canadian border line to Kentucky.

He is stationed on the Atlantic side at Fort de Lesseps and said today that there were eleven War Department theatres on the Zone.

Mr. Schmidt is in touch with the latest releases and the army can look for a real line of snappy service. He has the latest ideas of the service and said today that the big successes in the States, Get Quick Rich Wallingford, Foolish Wives, The Three Live Ghosts, and The Storm, would soon arrive on the Isthmus.

One of the new innovations at Fort de Lesseps is a band concert with movies on Friday evenings.

There will be another community dance in the lobby of the Cristobal clubhouse on Friday evening. The clubhouse orchestra will again provide the music.

Mr. L. L. Wilhite is sailing for New Orleans on Thursday on the Atenas.

Last evening a pleasant time was spent by the Fourth of July committee at the new headquarters of the Elbert S. Waid Post of the American Legion on Battery Beach.

This fine corner building which has been the residence of Captain and Mrs. McNair and was originally the Isthmian home of the Superintendent of the Panama Railroad, has been leased to the American Legion Post on this side, and after a great many repairs have been carried out it will be used as a clubhouse.

From the tower a very fine view of the harbor and Gatun locks can be had.

Sergeants E. P. Fielder, Joseph Rose, Edward McAleer and J. P. Mooney of the 25th Squadron at France Field have been promoted staff sergeants, and Privates J. Seers and H. Tupper of the 7th Squadron have been promoted sergeants.

If Cyclone Clifford and Ramon Arosemena are to fight again the bout should be held on the Atlantic side at the new pavilion of the Colon Athletic Club on Broadway. This is the largest fight pavilion on the Isthmus and the ball ring being out of the question during the rainy season leaves our pavilion as the best place for the battle.

Colon provides big gates as well. We have a pavilion which will hold 4,000 fans but what is more important we have the 3,000 fans to put in the seats.

A wonderful booklet sent out by the Tampa Board of Trade and called "The Charm of Tampa" has been received. It refers to the Floridan port as the "Gateway to Panama." We always thought that Colon was the Gateway to Panama.

Tampa is making a fuss of its golf all the year round. Several pages of the booklet are devoted to the fact. We in Panama, have an outside the finest golf in the world the year round and we are not making a fuss about it.

Tampa has nothing on Panama except its tarpon fishing.

CRISTOBAL - COLON SOCIAL NOTES.

COLON, July 11.—The Cristobal Woman's Club held its regular monthly board meeting Monday afternoon at Gilbert House. It was decided, among various other things, to thank the ladies who donated so generously to the Woman's Club Booth on the pier on the Fourth of July thereby contributing to the comfort of many by allowing the good things to be sold at a very small price and also enhancing the success of the undertaking. Cristobal women are noted for their generosity in standing behind good works of this kind and giving generously of their justly famed culinary achievements.

Mrs. Swansch, under whose able direction the Woman's Exchange has been run for the past six or eight months, passed in her resignation much to everyone's regret. At the request of the President, Mrs. J. J. Henriquez, Mrs. Swansch agreed to keep the Exchange under her charge until the [illegible] of the Club year in October.

Word has been received from Mrs. Thomas Waters, formerly Miss Lucy Robinson, of Colon, that she and Mr. Waters are spending their vacation at the old homestead of Mr. Waters' family at Narragansett Pier, after touring through a large part of the state of Pennsylvania.

The already small British colony in Colon has become still smaller through the departure of Mr. and Mrs. Woods and their three boys who sailed for England last week.

We are pleased to state that Col. and Mrs. Cloke are not leaving the [illegible] as early as was supposed [illegible] expect to remain until about the first of August.

The management of the American Theatre decided to be generous with their patrons on Monday evening and gave a very large performance consisting of two good feature films and a number of extremely good comedies at the usual price. The crowd which responded to [illegible] in spite of the very bad weather would seem to prove that this method of advertising is a good one.

Speaking of movies, will somebody please request the management of the America the [illegible] promised a [illegible] of the famous film made from Blasco Ibañez's novel The Four Horsemen of the Apocalypse.

It is announced that the [illegible] Gilbert House are to make a special feature of catering for parties and will endeavor to [illegible] supply of fresh made cakes and [illegible] on hand [illegible] Mrs. Bavage [illegible] anything [illegible] several days in advance. Wedding cakes and birthday cakes are becoming a specialty.

Here and There

"Nightfall," Anthony Pryde ... Mead and Company ... ratives of the English ... in 1920. It is a book in which are no turtles, a remarkable example of literary self restraint, people of literary ... sex twaddle and no great mystery. The characters, with ut exception, are gifted with brutal frankness to the nth power. Bernard Clowes, a paralytic of the Great War, subjects his very loyal lovely wife to the most exquisite torture and coarseness, and she and the other people in the book submit to a sadistic brutality which finally ends in murder. It rather outrages the reader's sense of the fitness of things that in this instance British justice did not act with its reputed surety and celerity. A great deal of capital is made of the then nineteen year-old Val Safford's temporary loss of nerve under a terrifically heavy enemy fire in Flanders, and this is tactfully held to justify in a measure his being stalked to death by the insanely jealous, brutal Clowes. It is indeed curious that even in literature such a flimsy defence should be brought forward since, from all accounts, even the bravest of soldiers felt many qualms when a heavy barrage was performing in his immediate vicinity. Perhaps an imbecile or a comatose moron might be expected to preserve an absolute imperturbability under such ... certainly not a ... youngster. Mac Val Clowes is portrayed in a way to make an appeal to the student of present-day psychiatry and at most deserves a place in "THE MANNER OF MAN THAT KILLS," J. Vernon Briggs, M. D. Richard G. Badger, Boston, 1922. Val's sister Isabel, is a beautiful picture of rustic innocence, and the character of Hyde, the English Greek Jew, is pitilessly drawn. He has many good points, but is a selfish, egocentric prig who receives beyond his deserts when he marries Isabel. As a piece of excellent character drawing and atmosphere creation the book is worth while. It does not attempt a moral and is far cleaner than the average run of books nowadays. It is full of interest and thrills, of which Hyde's encounter with a homocidal moron and a Great Dane dog will make the reader forget the congenitally tone deaf neighbor who is sure to be torturing the bugle night with a saxaphone. On the whole, Pryde, who is also the author of "Marquery's Duel," has done a good piece of work and his subsequent novels should also be worth while. The Canal Library has the book.

If you are not going to eat, drink, ... on the Fourth of July, what are you going to do to celebrate the day? The ... topic of conversation is now the big dinner dance at the Union Club on the Fourteenth. It gives promise of being the most festive affair that the Club has seen for ...

Mr Gilberto Brid, the Vocal de Fiestas, has the success of the dinner dance very near at heart and is doing everything a Vocal can do to make the affair a huge success and we need ... it will be. Already the tables are being reserved with aeroplane rapidity and so that you will not be up in the air as to who is to be there we can tell you that already the Club can count on two hundred and forty-six covers. Among those who have tables reserved are the Honorable Ricardo J. Alfaro, Messrs. Raul Espinosa, Ramon Arias F., Gilberto Brid, J. M. ... Julio Heurtematte, Enrique ... Arturo D... Eduardo Icaza A., Lorenzo ... W. K. Howe, Felix Maduro, Jack Watkins, K. D. Garcia, ... J. M. Arias, De W... Captain H. S. Evans, and Miss Hilda Maria Valdeimo.

Besides those named above twenty couples have banded together for a Dutch treat dinner. The menu is going to be "ex-celentisimo" ... musica "pepisimo", and the whole affair "indiscriminadisimo".

UNION CLUB.
On the 14th of this month a Grand Dinner Dance shall be given to commemorate the FRENCH NATIONAL DAY

J. A. ZACHRISSON
Secretary.
July 11th, 1922.

Since the return of Colonel and Mrs Peck more than often the remark, "Isn't it just fine having the Pecks back again?" has been made. They are a very popular couple, one of the most popular on the Heights. Popularity seems to run in the family, for their niece and nephew, Miss and Mr. Drechsel have come in for many pleasant remarks from those who have met them. There were a vast number who met them on Monday evening when Colonel and Mrs. Peck entertained in their honor at a dance at the Quarry Heights Club.

There is nothing that adds more ... to a dance than having something original and out of the ordinary. This the Pecks had planned for by placing the music on a bandstand in the centre of the room. The music sounded better than ever before and besides the stand was so very prettily decorated with palms and foliage and flags that it also added to the attractiveness of the scene. The perspective was really lovely, in fact, and as the dancers whirled round and around the stand to the Shock and other fascinating dance music. Near the stand Colonel and Mrs Peck and Miss Daelah Drechsel and Mr Drechsel stood to receive their guests as they arrived. It would have been difficult to have found anywhere a handsomer group than they made. For Colonel and Mrs. Peck are a stunning pair, both tall and slender, and Colonel Peck in white dress uniform of the tropics, and Mrs. Peck beautifully gowned in all black. Miss Drechsel an unusually handsome girl, tall, was very lovely and girlish in all white, her gown being fashioned of white Georgette with ... of lace. We would like to say what we thought of Mr. Drechsel, but we are afraid he would be overcome by the many compliments that passed his way.

The greater part of the evening was passed in dancing, but during the intervals between the dances there were ices and cakes to be enjoyed. A list of all who were there would include about everybody in army and navy, and many in Canal Zone circles, on this side of the Isthmus. The nice thing about the ball, outside of the fact that it was the Pecks who gave it, was that it was a ball for all ages and where the young and the less young for we have no old ages here met together and danced each with the same and unof enthusiastic pep and everybody had a delightful time.

The Pecks' dance was the inspiration for a very delightful dinner given by Commander and Mrs Henderson before the dance at their quarters on Balboa Heights. The house, and also the table, were ... unusually attractive by a large number of American beauties that were used in decorating ... the rooms but the table ... the dinner was served ... and Mrs Henderson entertained as their guests Admiral ... General Sturgis, Captain Ken... ...tleman, U. S. N. and Mrs. ...an, and Colonel and Mrs. Winton Brown. Afterwards they all motored to the dance which was then in full and delightful swing.

One of the very pretty and much admired girls at the Pecks' dance was Miss Elmore, of Kentucky, who ...

... the house guest of Captain and Mrs. Tully at Amador. Miss Elmore wore a most attractive gown of crimson velvet that was most becoming.

Miss Ella Miles Beckham, one of the loveliest of the maidens of the younger Set, is going to be very much missed when she leaves in August to remain away the whole of next season at school. Already her many friends and admirers are beginning to give going away parties in her honor for fear her evenings will be all taken later on. Last evening Miss Beckham was the guest of honor at a swimming party, and supper afterwards given by Miss Law McBride.

The swim which was taken from the beach on the Fortified Islands came first, and the supper afterwards at Colonel and Mrs. McBride's quarters at Amador. The supper a buffet one was one of those delightfully informal affairs where everybody helps themselves and then goes off "twoeng" on the porch to enjoy it "a deaux". Later there was dancing, and a perfectly good time was had by Miss McBride's guests, who were Misses Ella Miles Beckham, Daelah Drechsel, Edith Morris, Hamilton, Hazel Nelson, Bertha Kenworthey, Lee Stoots, Louise Ladue, Margaret Baird, F... nore and Bickmore; Captain Theo... Captain Conway, Lts Curtis, Flora, Kilbourne, Winslow, Palmer, Mitchell, Watters, and Horn, and Messrs. Charles and William Kenworthey, Charles Palmer, Maxwell Tracy, Lawrence Ladue, Bob Sturis and Bob McBride.

The many friends of Miss Margaret ...rostow of Washington made when she was here two years ago will be delighted to know that she is expected to arrive today. She is a sister of Mrs. Ryan and will be the house guest of Mr and Mrs Ryan we hope for some time.

CUBAN MINISTER DUE BACK TODAY ON "ORITA"

Dr. Carlos A. Vasseur, Cuban Minister Plenipotentiary and Extraordinary before the Republic of Panama, will arrive today on the S. S. Orita. He is expected to reach the capital during the evening. Dr. Vasseur has been on leave for about a year and spent his vacation in the Pearl of the Antilles.

ANCON AND BALBOA

Mr. James H. Hout, of Terre Haute, Indiana, arrived on the Isthmus Monday on the United Fruit boat "Heredia" and is the welcome guest of Mr. & P. Ferguson, of Balboa.

Mr. Hout is very much pleased with the beauties of the tropics, especially the wonderful Panama Canal, which he says was one reason for his making the trip. He is enjoying all the historic places he can during his short stay, and would be pleased to make a trip through the Canal. America's triumph.

War... ... a graduate of 1922, ... the Isthmus from the States on the last boat and immediately entered Ancon Hospital where he is quite ill at the present time.

Vivian Hutchings, who has been spending the past two weeks with his parents, Mr. and Mrs. R. N. Hutchings, of Balboa, has returned to his position in the interior.

Viola Bewley and Kathrine Lucky, who graduated in June, are now filling positions in the accounting office at the building.

Hubert Langlois, who arrived from the States in July, is on the accounting office force, arriving on Friday. He took the position on Monday.

Mr. H. J. Grieser is over at Morro Island assisting in the swimming events of the Girl Reserves. During his absence the Balboa pool is being looked after by Robert Engelke.

Mrs. E. L. Wood and family, of Balboa, will sail for the States Thursday on the "Atenas". They will make their home in Alabama.

Mr. E. M. Keysweather has at last secured leave of absence and will sail the 19th on the "Colon" for a visit with his mother in Quincy, Mass. He will return to the Isthmus after four months' vacation.

Mrs. J. M. Foster and daughters Edythe and Ruth will sail on the "Colon" July 19th, leaving the Isthmus permanently. They go to their new home near Morristown, Penn., a two story bungalow with all modern accommodations, and are looking forward to a fine winter across the sea, with snow and ice for scenery instead of flowers and fruits. Miss Edythe, who graduated with this year's high school class, will enter the Manchester College of Pennsylvania for girls, expecting to fit herself for a teacher and will attend the Morristown high school to finish her high school course. The girls will both be much missed. They are among the Zone athletes and swimmers and will carry with them some of the medals for which the Isthmus is noted. Also social favorites and splendid companions. A host of good wishes follow them to their new home. Their names will often be mentioned, and they will not soon be forgotten. Mr. Foster, who has been in the States for the past two months will remain to get his family nicely settled, returning to the Isthmus the last of August.

Although the crowd was not as large as usual at the Balboa Bridge Club Monday evening at the clubhouse, the enjoyment was the same, and everybody played with pep to win the lovely prizes which were given the lucky winners. Mrs. Aughenbaugh was fortunate in holding high score for ladies and won a lovely ivory hand mirror. Mrs. Christ as second high receiver of a bottle of Flor-de Amour toilet water. A. J. Fraser won a beautiful sterling silver tooth brush holder as first prize for gents, and Mr. R. L. Wilhite, who stood second high, was the lucky winner of a fancy silver ash tray inset with pearl. As Mr. Wilhite never smokes it was decided by the awarding committee of ladies that it would make a beautiful jewel tray for the future and much look... of for Mrs. Wilhite. Mr. Wilhite accepted the suggestion with a knowing smile. Punch was served. As a number of the faithful members and players of the club have gone to the States a special invitation is extended to all game lovers to come and join in the evening's sport and win some of the beautiful prizes.

Board meeting of the Ancon Morning Musicale Club today at 10 p. m. at the home of Mrs. A. P. Lloyd, Balboa.

MANGLED CAT SUFFERS FOR 48 HOURS

A cat which had been run over by a passing vehicle was permitted to remain in the street near the President's residence from Saturday until Monday.

The horror of this is that the wheels had passed over the cat's hind quarters but did not kill the animal and it was suffered to remain alive for over 48 hours.

The police in the vicinity, when questioned, stated that they hesitated to kill the cat for fear that the authority of the Humane Office would be usurped.

When Inspector Carprow of the Health Department discovered the mangled cat he caused it to be removed and chloroformed.

GOULASH

I mentioned once befoe in this column that my name in some way had been entered on a patent medicine sucker list. The enterprising mail order boys have now got it into their heads that I am an M.D. with family complications, and here is a sample of the letters that clutter up my mail:

"Dear Doctor: Through the courtesy of John Carle and Sons, makers of Imperial Granum, I am advised that you and Mrs. Baxter will be blessed with the precious gift of a little one. We are in hearty accord with their suggestion that you, as a physician, is entitled to a reduced price on the articles you will need in this connection. Outside of the mercenary motive involved, Dr. Baxter, we feel we are doing a real service to the mothers of today, and if Mrs. Baxter's burden will be lightened through the Baby Bathinette, we will feel repaid ---"

I suspect that Lovely Lynn is responsible for all this. He would be capable of it. I shall retaliate by sending his name, address and photograph to a matrimonial agency.

Ramon Arosemena says that I am conducting a systematic campaign against him. He is especially aggrieved because, although when he fought Stevens, I remarked that he outweighed the sailor and even exaggerated the difference, I failed to emphasize a similar difference of weight last week in favor of Clifford. On this particular count I plead guilty, and my excuse is that the exact weights were not announced on either occasion. Ramon says tha he had five pounds on Stevens and that Clifford had five pounds on him. So be it. I deny that I am attempting to belittle Ramon. He is my favorite author, and I also entertain a very high opinion of his abilities as a fighter. I wish that he would fight oftener, and a trifle harder than on his last appearance. I shall always go to see his bouts, even if it should cost me real money. If Ramon imagines that my supposed hostility is due to a partiality for the firm of Duque and Sol as opposed to rival promoters, I can only refer him to So! That distressful young man considers me a more than doubtful friend, and accuses me of conspiring to suppress advance notices of the Lombardo-Cook fight.

It is to be hoped that there is no truth in the rumors that Dr. Valerino and Commander Patterson have resigned from the Panama Boxing Commission. They have done excellent work and enjoy the confidence and respect of the fans. Some of their official acts have been panned here and elsewhere, but they are the kind of men with whom one can have a beautiful row without loss of temper on either side. It would be difficult to replace them.

On his recent trip to Costa Rica, John Mitchell appeared at the American Minister's Fourth of July reception wearing a monocle. Jack Dempsey's bad example in this particular appears to have corrupted a lot of good roughnecks.

PANAMA GOLF CLUB

Age and experience would not be denied at the Panama Golf Club on Sunday. In the two competitions for which liquid prizes were hung up by two esteemed members, the bald and the gray headed laddies took the youths in camp by five matches to two. It was quite pitiful to see such inform members a Bob Martin and Curly Davis struggling to complete 18 holes in one day against Campbell and Hiter and then beating them badly. Similarly those two old tars, Taylor and Jessop, cleaned up young Jesop and Commander Patterson. It was all old man Holloway and Bob Glaw could do to toddle around, but young Elwyn Greene and John Westman couldn't prevent them from winning, nor could young Bardelson and Morris keep the Governor and the Duke from scoring. Almost the only pair of antiquities that finished with their tongues hanging out were the ancient doctors, Janney and Hysock, who came in a mile or two behind Boore and Roberts on. It was a great day and there wasn't enough left in the containers for the winners to carry home.

Sunday was also the first of four medal play days in the July tournament, where all entries play against a card composed of the average of six cards. Three of the members of the Tournament and Greens Committee. Fifty members entered this and went the first 18 holes. Owing to the fact that the committee's cards were pretty rotten the field looked good. The leaders at the quarter post were as follows:

8 up: Glaw, Capt. Jessop, Kennedy, Tomlin.

7 up: F. Arias P.

6 up: R. A. Martin, Rognoni, D. Westman, M. J. Diez.

4 up: R. K. Morris, D. F. Patterson, Grant, Ed. Jesson, Davis, Poole, Prather, Louis Martin.

This competition will continue during the succeeding three Sundays, and the order above will doubtless change considerably as the play proceeds.

CHICAGO BLACK SOX PLAYING IN THE EAST

NEW YORK, By the Associated Press. Local major league baseball officials today condemned the employment of former members of the Chicago American League team debarred for connection with the 1919 World Series scandal, by semi-professional clubs of the Metropolitan district. While they explained that organized baseball had no jurisdiction over such teams, they believed that when the fans realize these players are appearing under assumed names they will refuse to patronize these games.

President John A. Heydler, of the National League, said that he was astonished to learn that the banished players could find employment in the East, even on semi-professional teams.

"I have not the slightest doubt," he said, "that their shrift in the East will be short, once the fans spot them. The major league have no jurisdiction over such small town teams but the fan who pays to see these games is a keen lover of baseball and the clean reputation which is part of the game. Once they spot any of the debarred players I am sure that sentiment will prevent their further appearance on any eastern diamond. Similar sentiment among the fans of the West prevented their playing with success in that section."

Commissioner K. M. Landis, who is in this city, refused to discuss the situation, saying that he was not familiar with the facts.

Joe Jackson was recognized by fans last Sunday in "Josephs," center-fielder of the Westwood, N. J. Club, who made several spectacular plays and long hits that defeated the Hackensack-Bogota team on which much money is said to have been laid. There is intense rivalry between the teams and about 2,000 spectators looked on.

"Josephs" made a single, a two-bagger and a home run, threw out a runner at the plate from deep center field and ran all over the outer gardens. Others of the Black Sox are understood to be itinerant players on the Westwood and other teams in the Metropolitan district, all appearing under fictitious names.

Swede Risberg, Buck Weaver and Jackson are understood to have played together under noms de field at Long Branch the previous Sunday, Jackson winning the game with a home run. Jackson is declared to have played in Utica last Wednesday and to be scheduled to appear in Philadelphia today.

FEATHERWEIGHT FACTS AND RUMORS

Jimmie Stewart announces that he is leaving Panama for the Atlantic side, where he will train for a fight on August 6th with Young Joe Walcott. That persistent ringsider Frank Martin, saw Walcott knock out Soldier Robinson last Saturday night, and reports that he is good, good enough to fight Lombardo and good enough to beat him. Other accounts of Walcott are also favorable. It appears that Jimmie will have to exert himself.

Lombardo, it is rumored, will fight Tony de Oro in Panama on August 5th. He will then meet the winner of the Stewart Walcott fight, provided he remains on the Isthmus but there is a further rumor that he will leave for the States on or about September 1st, chaperoned by that veteran sportsman, Augustus Eisenmann, Esq.

There is no place in this program for those two mysterious Cubans who were supposed to be on their way to Panama to fight Lombardo, Like Midget Smith and Young Sharkey, they must have been unavoidably detained.

DEMPSEY AND WILLS HAVE SIGNED ARTICLES

NEW YORK, July 11. By the Associated Press. Jack Dempsey, heavyweight champion of the world and Harry Wills, colored, the leading challenger for the title, through their respective managers today signed articles, thus complying with the orders of the New York State Boxing Commission, which ruled some time ago that Dempsey must meet Wills. The date and place of the fight have not yet been announced.

BALBOA GUN CLUB

Kirkpatrick got in such a state that he needed felt boots on account of Dr. Townsend's new shot gun so he left the Isthmus for a few days in order to give Doc. a chance to find his level. Anyhow, with Kirk out of it, Dr. Townsend won two spoons on the pistol range Sunday, while Davis won the other. Doc. says he is going to refuse to shoot whenever Kirkpatrick is around because he thinks some one must have the Indian sign on, although he steadily refuses to say who it is.

However, in spite of the fact that the "boss" shooter was absent some very good scores were made Sunday, and from the looks of things the Major will have to keep his weather eye trimmed, or some other zink will be leading the procession from the top end.

Next Sunday his nibs will be on hand, and the U. S. Army qualification matches will be continued.

I have been promised the complete scores made by the trapshooters at the second annual trapshooting tournament of the Canal Zone Trapshooting Association, and as soon as they come you will be able to feast your eyes on some new champions. Several of them intend to take in the Grand American Handicap at Atlantic City. J. R. Strauss left on the Panama last Sunday for that purpose in addition to his avowed intention of taking a vacation. What we want to know is "How can anyone take a vacation and do a lot of trapshooting at Atlantic City?"

A CHALLENGE ACCEPTED

The Filipino Kid of Colon, telephoned the Star and Herald last night that he accepted the challenge published several days ago by Soldier Hancock of Fort Clayton.

BALBOA PLAYGROUND

Now that the vacation months are here, the kindergarten at the Balboa playshed will have a vacation program. The work will be under the direction of Miss Ruth Robinson the senior directress of all Zone playgrounds. One of the interesting new features will be the story hour from 9 30 to 10 30 for all children up to 10 years every Monday, Wednesday and Friday. The story hour will be conducted by Mrs. Lou Shigley. Other things for the little kiddies will be clay modeling (see if your child is an embryo artist), and swimming in the big pool.

Although Miss Robinson has been at work at Balboa since April, she brings many new plans to the children and anticipates a full and active summer, as she has had such wonderful success at Ancon, Cristobal, etc. Watch for the announcement for girls' summer camp.

LETTERS TO THE SPORTING EDITOR

Sporting Editor, Star and Herald
Dear Sir. Please publish ... sporting column that I, Frank ... accepts the challenge of Soldier Krouse.

I am awfully sorry that I had to disappoint the public with my fight with Sailor Meek, but owing to the weight we could not agree. My weight at 11 o'clock was 130 lbs. Sailor Meek's weight was 153 lbs.

Thanking you in advance,

I remain,

THIEVES FROM CUBA

(Continued from Page One)

the investigation started.

Guerra it is said was submitted to a rigorous search by the Zone police and also the luggage which he and his companion carried, but nothing was found except a relatively small sum. Apparently the woman was not searched. The Panama sleuths are said to have also tried their hand at pumping and searching the supposed thieves, but without any success.

Brought to Panama.

Charge d'Affaire Osvaldo Lama then asked that Guerra and his companion be passed over to the Panaman police, and this was done yesterday. The investigation was continued in the Central Police station up to about seven o'clock last evening, when it seemed that Guerra and his companion would have to be released as nothing incriminating could be found against them.

At this juncture, Sub Inspector Ricardo Arango, suggested that the woman be searched. She protested, claiming that she was an honorable woman and would not permit anybody, except a woman, to search her. She was informed that there were no Police Matrons here and would have to submit to being searched. Sub Inspector Arango suggesting that the search be conducted in the presence of her companion and the Cuban Charge d'Affairs. Realizing the determination of Sub Inspector Arango, to search her, she finally agreed, but proposed that the search be conducted alone by the sub Inspector in the presence of her companion.

A Bolt From the Blue.

Once they were alone, Sub Inspector Arango, in the face of this embarrassing situation, endeavored to convince both the man and the woman that it would be best to make a clean breast of the whole affair and avoid what for him was a most disagreeable task. They were both obdurate and continued to deny all knowledge of the affair. Then Sub Inspector Arango who had observed that the woman's bosom seemed abnormally large, suddenly pointed at it saying, "The stolen money is concealed there."

The sub-Inspector's words came like a bolt from a clear sky. The woman paled and fell to her knees before the Police Officer imploring leniency and suggesting that he "take all the money but don't denounce us." Taking this as a confession of her guilt, the sub Inspector without any further scruples slipped his hands into the woman's bosom and pulled out a small sack in which there was a bundle containing the bills which totalled $10,580.

Sub Inspector Arango explained afterwards that he had become suspicious of the woman, as during the entire interview she never stooped once and seemed to be exerting a tremendous effort to maintain a straight posture even while sitting. This together with the fact that the size of her bosom was absolutely out of proportion with her general slender build, led him to the conclusion that if the money was hidden anywhere, Maria's bosom was the cache.

CHOOSE AMERICAN

CAIRO, July 11. French colonial authorities have selected an American engineer to report on a project of irrigation in the Niger valley, in West Africa. He is Dr. Herbert H. Forbes, former dean of the College of Agriculture of Arizona and lately agronimist of the Royal Agricultural Society of Cairo.

The work on the Niger contemplates an irrigation dam similar to the Assouan dam of the Nile and it will be carried out under the direction of the Governor General of French Occidental Africa.

Old age is a condition, not merely a matter of years. Some folks are young at 60 while others are old at 40.

Weak kidneys and uric acid poisoning cause many of the discomforts of those past middle age.

Lame, bent backs, stiff, achy joints, bad eyesight, deafness and urinary irregularities are too often the result of neglected kidney trouble.

TROPICAL BREEZE EDITOR MISSING

Furlough Which Enabled Him To Live In Panama For Past Month Expired Saturday and To Date He Has Failed To Report

Military Police as well as the Panama police department yesterday received orders to arrest Corporal Hugh A. Johnson of Fort Amador, editor and general manager of "The Tropical Breeze," who has been missing since Saturday.

Johnson, who has been running the paper with funds put up by another Army officer, has been living in Panama City for the past month on furlough.

Saturday his furlough was up but he failed to return to camp. He is believed to be in Colon.

Yesterday the Panama police were notified and a description of Johnson given out. Likewise, the M. Ps. were given instructions to arrest him.

sence, conditions that involve expenditure of large sums of money and no end of time for investigation, neither of which are ever available to the fullest extent desired.

"A middle course is therefore necessary which can only be applied through the hearty co-operation of the communities and local health officials.

Work At Gatun.

"Here at Gatun all who are interested and boys especially, are invited to meet at the Sanitary Office every saturday afternoon, talk on the subject of mosquito control and accompany the District Sanitary Inspector on tours of inspection over the mosquito breeding areas inside and outside of the usually controlled sections of the district.

"These talks and trips have resulted in a better understanding by all concerned of the facts bearing on the mosquito and its relation to Malaria and Man.

"The appearance of a small boy at the sanitary office with mosquito larvae in the palm of his hand, collected from a ditch near his home and the voluntary spending of most night hours by an employee after his day's work was done, to accompany the Sanitary Inspector on a mosquito flight observation covering miles of travel on foot, is proof of the interest manifested by the community in the local problems of mosquito control.

"The mosquito problem in every community is everybody's business. Early reports to the District Sanitary Inspector of actual numbers of mosquitoes seen in quarters or elsewhere along with specimens if possible are of great aid to the Sanitary Inspector in affording relief and possibly in locating and destroying the source.

Don't Exaggerate.

"Exaggerated reports of ill informed persons are misleading, confusing and do no good.

"It is as much the duty of each individual in a community to learn the methods of protecting themselves from the bite of the mosquito and to learn its habits as it is the duty of the Sanitarian to dispense this information as one of the important phases of his anti-malarial work.

"The non malarial species Culex and the fierce biting Aedes taeniorhynchus and Mansonia titillans to which species a flight of eight or ten miles is a mere trifle, as they travel with the wind, the hope of the elimination of the breeding grounds of these species can only be entertained after several years through Commercial development of the country involved.

"These things considered we are brought to face the fact that we must do the best we can with the tools we have at hand.

"BUT ENGLAND WILL BE DRY"—PUSSYFOOT

LIVERPOOL, July 11. "There is secret drinking and hypocrisy in the United States as the result of prohibition, but that is unavoidable", declared William "Pussyfoot" Johnson, famous United States dry leader, who arrived today from New York on his way to India. He continued: "I do not intend to butt in on England this trip, but mark my words, England will be dry within ten years."

GOLF IS A QUEER GAME

Here is another clipping about the nuts' favorite pastime:

At one time it was supposed to attract only the Scotch. It was then the simple game of the proverbial penurious Scotchman, but oh how it has changed. Especially since the ladies by their long drives and low scores are demanding consideration. And with the ladies come the powder puff, the vanity mirror and everything that tends to make the landscape picturesque and beautiful.

Why not? Why shouldn't a person learn to be an artist as well as a golf player? Why should a golfer, especially a woman golfer — a young woman particularly and unattached, come in from a round of golf with her face blazing red and looking as if she had been through the place to which the men golfers consign many of their bad shots.

It is a secret, so they say, why the knowing ones can play, why even holes in the hot sun and still have that beautiful brown tan that looks so becoming, and not burn or blister, or anything so common as that. Cold cream, that's the magic. If a man used it he probably would look like a greased pig. But the ladies, God bless them, they will apply it with the deftness and daintiness of an artist. And it will not show. And it will protect their complexions against the blazing sun.

One rude man was no gentleman. He was recently bragging around the clubhouse of a famous country club nearby, that his wife though weighing nearly 200, could keep cooler in hot weather than anybody he ever knew. Finally he blurted out that she took a cold cream bath every night and then he went on to explain that some well known skin "em-alive" specialist had told her that cold cream opened all the pores of the skin so that the whole body could breathe. He got awfully mad when some wag said, "Just like a 'Poroskuit' eh?"

But then there may be something to this cold cream stuff. For how can a man keep his eye on the ball if his face is burning and smarting and if he is so hot and uncomfortable that his glasses are all misty, and who is thinking thoughts that would set fire to an asbestos curtain.

GOLF A BREEDER OF CRIME

A States paper publishes the following under a Crookston, Minn., date line:

Golf, long considered innocuous to the morals of its many devotees is a breeder of crime, according to S. B. Qvale, federal director of prohibition enforcement for Minnesota.

The game was not intended for any one under 55 years old Mr. Qvale told the League of Minnesota Municipalities here yesterday. Any one who follows the recalcitrant pellet about the field is encouraging idleness and shiftlessness.

Men shirk their family and business duties and young men, to play the game which they cannot afford, are frequently led to commit crimes, he said.

The healthful results attributed to the game, Mr. Qvale said, could be obtained by a corresponding amount of activity with a good hoe. Just what relation golf had to prohibition, which was the subject Mr. Qvale started to speak on, he did not explain.

Annually use organic Nuxated Iron to build up red blood, strength and endurance.

There are thousands of people who are ageing and breaking down at a time when they should be enjoying that perfect health which carries defiance to disease simply because they are not awake to the condition of their blood. Without organic iron your blood carries no oxygen, and without oxygen there is nothing to unite with the carbon in your food so what you eat does you no good. It is like putting coal into a stove without fire. You can now obtain organic iron like the iron in your blood and like the iron in spinach, lentils, and apples from any druggist under the name of Nuxated Iron. Nuxated Iron also contains the principal chemical constituent of active, living nerve force. It is, therefore, a true blood and nerve food. It helps create and rebuild new and stronger red blood cells. It supplies the body the substances which nerve force must have to give it that vital, electro-magnetic power which is stored in the nerve and brain cells of man. Nuxated Iron often increases the strength and endurance of weak, nervous, rundown men and women in two weeks time. The manufacturers guarantee successful results to every purchaser or they will refund your money.

NECESIDAD DE DARNOS A CONOCER ESPECIALMENTE EN EL EXTRANJERO

Panamá necesita capitales y unos buenos elementos de inmigración

Después de haber recorrido varios países de Sud América ha llegado últimamente a Panamá un representante de la gran Empresa Intes America, el culto señor Arturo Prado, periodista notable: la empresa está domiciliada en Santiago de Chile, y sus fines primordiales son los de dar a conocer en forma oficial en Europa y Estados Unidos todas las Repúblicas e hablar latina del Continente en su grado de riqueza, prosperidad comercial y económica y sobre todo, en las especialidades que ofrecen para la inversión del capital extranjero. Hemos tenido oportunidad de conversar algunos momentos con el representante citado quien se sirvió darnos los antecedentes que exponemos a nuestros lectores.

Una consecuencia de la guerra europea

Después de terminada la guerra europea nos dijo—los países de Europa y Estados Unidos se apresuraron para la reconquista de los mercados perdidos por el trastorno mundial o la adquisición de otros nuevos que fueron el futuro campo de acción de sus actividades comerciales y económicas. La anarquía producida por la gran catástrofe, era aun sigue siéndolo, absoluta respecto de ciertos países. Con este motivo los cónsules o representantes de los gobiernos del viejo continente y de Norte América acuden continuamente a las oficinas de los ministerios en demanda de informaciones comerciales obtenidas oficialmente respecto de las organizaciones o firmas más importantes de todos los países de habla latina especialmente de los que como Chile, Bolivia, Ecuador, Colombia, Venezuela, Panamá, los de Centro América, etc., no son conocidos en el extranjero.

Entonces se ideó en Chile realizar el Censo Comercial de estas Repúblicas haciendo la exposición de todas ellas, exposición precedida de un decreto de cada uno de los gobiernos afianzando la actuación oficial de su propaganda.

EN NUESTRA EDICION DE MAÑANA OFRECEREMOS RESPUESTAS IMPORTANTES

Nuestro paseo por las oficinas públicas buscando noticias y más noticias

Ayer a las dos en punto de la tarde abandonamos la oficina y nos lanzamos a la calle en busca de personas de recto criterio que nos dieran sus pareceres respecto a la Oficina de Investigaciones.

El Coronel Arango

En el camino formulamos nuestro plan y así la primera persona que se presentó a nuestra mente fué el Coronel Ricardo Arango, Subinspecto del Cuerpo de Policía Nacional. Lo encontramos en su Oficina: el Coronel Arango siempre sabe cumplir con su deber; penetramos a su despacho privado y allí ante la indulgencia y simpatía de este buen Jefe, hacemos saber el objeto de nuestra presencia. El Coronel Arango reflexiona breves momentos y luego nos manifiesta que con gusto dará su opinión en el asunto de que se trata: pero para ello necesita de más tiempo, pues ocupaciones urgentísimas solicitan su presencia rápida en otros lugares. El Coronel Arango hablará mañana y sus razonamientos serán de mucho peso: él conoce el asunto muy de cerca; sabe de sus deficiencias, de sus inconvenientes, de la organización que le es necesaria para que llene satisfactoriamente su misión y por eso sus conceptos serán de mucho valor.

En la Pesquisa

Pasamos a la Oficina de Investigaciones, no sin cierto temor aun cuando vamos de incógnito. "El Capitán Conte está?" es la pregunta: — todavía no ha venido, es la respuesta:—el reloj de la oficina marcaba las dos y cuarenta de la tarde. Por un estrecho pasillo llegamos a la Gobernación, el simpático Secretario Ayala nos recibe como siempre, amablemente, hacía tanto tiempo que no pasábamos por ese Despacho, que el empleado de que hablamos nos lo hace notar. Echamos una ojeada por el pupitre del señor Estripeaut y no lo vemos desierto, el señor Gobernador trabaja: pasamos allí y él tan absorto está en su labor que ni siquiera nota la presencia de quien va a interrumpirle. El saludo le hace levantar la cabeza: estamos frente al amigo sincero y simpático; no frente al alto funcionario que aún siéndolo deja de ser amable: el señor Estripeaut como Gobernador o como ciudadano particular es el mismo en todo tiempo y en todo lugar. Y allí va, pues, nuestro deseo, condensado en breves palabras. El Gobernador sonríe, medita un momento y da la contestación: expondrá sus ideas al respecto, pero mañana; el asunto le parece hasta cierto punto delicado y necesita reflexión. Como el Coronel A-

INTERESANTE SESION DEL CONSEJO MUNICIPAL: LA CUESTION DEL GAS SOBRE EL TAPETE: MAS ASUNTOS

UN PROYECTO SOBRE LA COMISION DE BOXEO PASA EN PRIMER DEBATE

Hasta las once menos cuatro de la noche estuvo laborando el Consejo

El Honorable Consejo Municipal celebró anoche una sesión del mayor interés, en la cual se consideraron y resolvieron algunos asuntos de importancia vital para la comunidad; desgraciadamente, la falta de espacio no nos permite hacer un relato detenido de todos y cada uno de ellos.

Dos actas

Fueron aprobadas, bajo la Presidencia del doctor Carlos L. López, dos actas, una ordinaria, de 6 de Junio próximo pasado, y otra extraordinaria, de 26 del mismo mes.

Informe favorable

Se leyó un informe del H. Concejal Castro U. recaído a cierta solicitud de don Ismael Luzcando, Presidente de la Federación Obrera de Panamá; y se aprobó una resolución por medio de la cual se autoriza al Personero Municipal, para celebrar con aquél un contrato de comodato.

El gas sobre el tapete

Fué leído un informe sumamente interesante, de los HH. General Nicanor A. de Obarrio y Rodolfo Tejada P., sobre solicitud anterior hecha por el Gerente de la Compañía del Gas, en solicitud de una prórroga de veinticinco años a favor de la empresa. Alrededor de este debate se trabó una discusión de mucho alcance, en la que los HH. Munícipes todos hicieron galas de grande cordura sin excepción, todos se mostraron dispuestos a ayudar a la empresa, en sus dificultades actuales, sin descuidar los intereses de la comunidad, que les están encomendados. Participaron de la discusión los HH. Obarrio Duque, Méndez Pereira y Clément.

Fueron aprobados casi todos los puntos del informe; y a la postre se resolvió asimismo lo que sigue: "La Compañía del Gas pagará el 5 por ciento de sus ganancias netas, cuando por el exámen de los libros se evidencie que puede hacerlo, este pago lo hará la empresa a la Tesorería Municipal, por liquidaciones trimestrales.

La Comisión de Boxeo

El General Obarrio presentó un proyecto de Acuerdo, por el cual se aumentan a cinco el número de los miembros de la Comisión de Boxeo; y, por petición del Honorable Concejal Duque, se dió primer debate a tal proyecto, que resultó aprobado.

La sesión terminó a las once menos cuarto de la noche, después de haber laborado todos nuestros Munícipes con la buena fe y el fervor público que les es peculiar. Una vez más, bien por el actual Concejo.

19.580 dólares envueltos en un trozo de calzonario: el doctor Lamar y el señor Rigal diplomáticos cubanos contaron la cantidad hallada

—Un hurto de 25.000 dólares.

Así un hurto de 25.000 dólares. La casa robada la Zaldo y Compañía de la Habana. El autor del robo José Guerra, cubano, que viajaba con el nombre de Alfredo González de la Habana a Panamá y que llegó a Cristóbal en el Montevideo el domingo pasado como a la 1 de la tarde. La cómplice María González, española, que era la portadora de la plata. El hábil, habilísimo desenmascarador de Guerra y María González, el Subinspector de Policía Coronel Arango. El Coronel Arango en dos horas de observación descubrió lo que la Policía y la Pesquisa de Cristóbal, lo que la Pesquisa y la Policía de Panamá, con su Jefe Capitán Conte, lo que el Inspector Coronel Lamb no supieron descubrir trabajando en ello desde el domingo a la llegada del barco cuando fueron detenidos los protagonistas al arribar el Montevideo a Cristóbal.

Pero hagamos historia que el hecho lo merece.

Las ocho serían....

Serían como las ocho de la noche estábamos en nuestra oficina trabajando cuando se nos llamó por teléfono. Era el Coronel Arango.

—Es preciso que venga usted acá, a la Inspección General, hay un suceso sensacional. Fuimos. Ascendimos la escalera vieja y sucia del feo caserón.

En la Inspección General estaban el señor Encargado de Negocios de Cuba, doctor Lamar, el Canciller de la Legación, señor Luis F. Rigal, el Coronel Arango.

El Canciller señor Rigal contaba billetes y más billetes. Los miles de dólares se amontonaban sobre un escritorio. Los billetes estaban empapados de sudor...

Nos quedamos asombrados... Contamos... cinco, seis, ocho, diez quince mil dólares. Seguía la cuenta. Green hacía de 1000 dólares, de cien, de cincuenta, de veinte, (estos los más abundantes) de diez.

Dice el doctor Lamar

Comenzamos a indagar. El doctor Lamar fué nuestra primera víctima a nuestras preguntas respondió.

—El viernes, día 7, como a las 11 de la noche recibí 2 cables, uno del Gobierno el otro de la casa Zaldo de la Habana, en los que se me informaba que en el vapor español Montevideo llegarían a Cristóbal José Guerra, que viajaba con el nombre de Alfredo González y María González, sindicados de un hurto de 25.000 dólares a la casa mencionada, y pidiéndome que procurara su arresto inmediato. A la mañana siguiente, la del sábado, me dirigí a la Secretaría de Relaciones Exteriores. Hablé con el Secretario señor Garay, hice las diligencias de rigor, me entendí con el Subinspector Arango y quedó todo arreglado. Los viajeros fueron detenidos el domingo a la 1 de la tarde al llegar a Cristóbal el Montevideo.

Fueron registrados José Guerra y María González por la policía de Cristóbal y nada grave se le encontró sus equipajes nada extraordinario contenían, viajaban en segunda clase; se le tomaron 472 dólares como todo capital y negaron que tuvieran más dinero. Se cerraron en las negativas a toda otra indagatoria.

El Subinspector Arango tras de unas pocas dificultades logró que la Policía de Panamá tomara cartas en el asunto. Se envió al Capitán Conte, Jefe de la Pesquisa, el propio Capitán Lamb fué a Colón. No se descubrió nada.

Hasta que hoy en tren de 12 se decidió traer a los acusados por cables contundentes a Panamá.

El Coronel Arango habla

Aquí la palabra del Coronel Arango, él nos explica.

—Llegaron a la Central y yo los hice conducir a las celdas de este piso. Hablé con ellos. Todo lo negaban. Todo. Nada... Registré su equipaje. La propia María González sonreía y me decía: "Busque usted bien." Pero yo empecé a observar que no quería ella agachar. Se. María es delgada y el pecho era demasiado abultado, observé. Agotados todos los interrogatorios sin conseguir nada práctico, me decidí a ir a buscar al doctor Lamar. Encargado de Negocios de Cuba, serían como las cinco de la tarde, el doctor Lamar y el señor Rigal, Canciller de la Legación, vinieron conmigo a la Policía. Ante ellos seguí la indagatoria. Hasta que me decidí a plantear a María González la necesidad de registrarla. Ella protestó, esto me hizo afirmarme en que iba por el camino directo.

Yo insistí en la necesidad del registro, que haría en presencia de su marido y por fin me decidí: me quedé sólo con Guerra y con la González. Hablé unos minutos con ellos y de repente me quedé mirando fijamente a la González y señalándole el abultado seno la dije:

—Aquí tiene usted la plata de Zaldo y Cía. No disimule usted... Mi dedo tocaba algo duro en el pecho de la González.

Fué un momento...

Ella se desplomó, me agarró las rodillas, clamó con voz ronca:

—No me delate señor... Toda la plata es de usted... No diga nada... Yo introduje la mano en el seno y saqué un bulto blanco como una almohadilla.

José Guerra quedó sin pronunciación espantado...

Seguí el registro no encontré nada más.

Llevé a Guerra a su celda y fuí a reunirme al doctor Lamar y al señor Rigal.

Aquí está la plata.

La plata estaba bien guardada: la envoltura interior era un sarguito de hilo blanco (una lo mostró) de las que usan en Cuba para azúcar... Dentro estaba esta mitad de calzonario de mujer que contenía la plata...

Un gran golpe

Aquí calló Arango. Y aquí hablamos nosotros. El éxito del Coronel Arango, su perspicacia, su habilidad, merecen más que un voto de aplausos.... ¡Esa es una lección de la policía! Jefes así honran un cuerpo.

REPARASE POR FIN LA VACUACION DE S. DOMINGO POR LAS TROPAS DE LOS STADOS UNIDOS: DICESE

UN GOBIERNO DE DOMINICANOS PROVISIONAL DIRIGIRA LAS ELECCIONES

Cuando se haya elegido el Presidente y el Congreso se irán las tropas

Washington, julio 11. El Departamento de Estado anunció hoy que un proyecto de programa para la evacuación de Santo Domingo por las fuerzas militares de los Estados Unidos fué acordado con un grupo de representantes dominicanos que han estado conferenciando en Washington con los funcionarios del Departamento de Estado.

Se dice que el programa en cuestión será cumplido tan pronto se haya asegurado que cuenta con la aprobación de la mayoría del pueblo dominicano.

Al mismo tiempo se anunció que Sumner Welles, ex-jefe de la división latinoamericana del Departamento de Estado, ha sido nombrado Comisario en Santo Domingo con el rango de Ministro y partirá inmediatamente para Santo Domingo con el fin de asegurar cuál es la opinión de la población con respecto al plan para la retirada de las fuerzas norteamericanas.

El programa acordado contiene cláusulas que ordenan el establecimiento de un Gobierno Provisional formado por dominicanos que estará encargado de la dirección de las elecciones sin la intervención de las autoridades americanas y más tarde de la instalación del Gobierno permanente. Cuando ya se hayan elegido e instalado el Presidente y Congreso constitucionales se retirarán las fuerzas norteamericanas.

SE TERMINO EL PROTOCOLO POR MEDIO DEL QUE AYER HABAMOS CUENTA

En la semana que corre se cree terminará su labor la conferencia

Washington, Julio 11.—Se tiene por entendido que en la conferencia de hoy de los delegados a la Conferencia peruano-chilena quedó virtualmente terminado el protocolo general para someter al arbitraje de los Estados Unidos las controversias que resultan de no haberse cumplido el Artículo 3 del Tratado de Ancón.

También se ha progresado en el acuerdo suplementario en el cual se formulan los puntos concretos que tendrá que decidir el árbitro.

Los delegados se reunirán nuevamente mañana y se ha indicado que antes de que termine esta semana es probable que estén los dos documentos listos para ser firmados.

Al reunirse esta mañana para completar los detalles del acuerdo de arbitraje, los delegados a la Conferencia de Ancón celebraban su primera sesión conjunta desde el 7 de junio.

Se ha indicado que es probable que se designe específicamente al Presidente Harding para que actúe de árbitro. Hasta ahora meramente se ha nombrado en las negociaciones al Gobierno de los Estados Unidos como el agente de arbitraje, pero se dice que los delegados favorecen una designación más precisa. Sin embargo, en algunos círculos todavía se favorece a la Corte Suprema de los Estados Unidos o a una comisión especial nombrada por el Presidente para que actúe como árbitro.

Comentarios

Washington, Julio 11.—En los círculos latinoamericanos de Washington se considera que el acuerdo chileno-peruano hará desaparecer uno de los más difíciles y molestosos problemas de la política latinoamericana. En todas partes parece prevalecer la opinión de que habiéndose restablecido las buenas relaciones entre Chile y Perú, se presentarán buenas perspectivas de realizar algo útil en el próximo Congreso Pan-Americano que se reunirá en Santiago de Chile. Chile ha indicado ya su deseo de iniciar durante este Congreso un movimiento para la limitación de armamentos en la América Latina y los diplomáticos que se encuentran en esta capital opinan que será más fácil la realización de ese proyecto después de eliminado el problema de Tacna y Arica.

La sesión de ayer

Washington, Julio 11.—Al reanudar hoy sus sesiones formales después de un lapso de cinco semanas la Conferencia peruano-chilena progresó materialmente hacia la terminación del acuerdo para someter al arbitraje la disputa sobre Tacna y Arica.

Un protocolo redactado con términos muy amplios y que incluye la decisión de dejar la controversia al fallo arbitral de los Estados Unidos, fue completado después de una discusión corta y fue aprobado en principio por los dos delegaciones. Además, se comenzó la preparación de un segundo documento en que se detallarán los puntos precisos que serán decididos por el arbitraje.

En adelante la Conferencia chileno-peruana celebrará sesiones diariamente hasta que estén listos los dos documentos para ser firmados.

Según el plan que se sigue actualmente, los dos documentos se firmarán en la última sesión pública de la Conferencia que, según pre-

CAFETEANDO

Hace seis meses el Honorable Consejo Municipal nombró una Comisión de Boxeo, y vemos ahora por la prensa local que dos de sus miembros han renunciado por algún motivo u otro.

Es cierto que esos miembros que acaban de renunciar se han interesado mucho por el mejoramiento y buen conduct de ese deporte entre nosotros formularon reglas, tenían reuniones frecuentes, etc. todo por el bien general, per mientras esos señores laboraban por el bien general, ese público por quien laboraban n hacía más que atacarlos en toda manera posible. Si hacían alguna cosa palo porque lo hacían, y si no l hacían, palo porque lo dejaban de hacer. E ensamente se puede recordar alguna persona que haya dicho algo en favor de la Comisión de Boxeo pero en contra sí, todo el público; ahora que la comisión muere, aún joven, cansada de aguantar golpes que no tenía por qué y otras cosas... ahora salen algunos amigos en el "Diario de Panamá" y **La Estrella de Panamá** lamentando la renuncia, como cuando se está cafeteando a alguno solamente entonces sabe la humanidad mesquina decir del que antes había majarado "qué lamentable" tan bueno que era."

El público en todas partes es muy exigente pero parece que aquí es más, y esa exigencia tiende ya a abuso.

"Hay que ser sport" y reconocer el bien cuando se debe reconocer y no Post mortem.

Ya firmaron Dempsey y Harry Wills

Nueva York, Julio 11.—**Jack Dempsey, campeón mundial de peso completo, y Harry Wills, famoso boxeador de color, firmaron hoy por medio de sus empresarios respectivos un contrato para un match de boxeo por el campeonato mundial.**

Por qué renunció el Dr. Vallarino.

Interesados como estamos en el desarrollo y la popularización de los deportes, en especialidad el boxeo que parece estar ahora en su época de apogeo en Panamá y preocupados por la amenaza que consideramos constituyen los rumores que han circulado durante los últimos días sobre la renuncia de dos miembros de la Comisión de Boxeo de Panamá, nos preparábamos para investigar el asunto, confirmar o desmentir los rumores, cuando se presentó a visitarnos a nuestras oficinas el doctor J. J. Vallarino miembro de la Comisión, quien a la sazon llegaba con el fin de informarnos de su renuncia.

En efecto, el doctor **Vallarino** nos indicó que muy a su pesar se ha visto en la necesidad de tener que presentar su renuncia irrevocable como miembro de la Comisión de Boxeo de Panamá. Interrogado sobre la causa de su renuncia nos dijo que ésta obedecía a diferencias en el seno de la misma comisión.

Sin embargo, nos dijo el doctor Vallarino, su afición al boxeo continúa la mismo, no ha decaído en lo más mínimo su interés por este deporte, por el contrario, ahora que está más enterado de las posibilidades de los boxeadores locales y que los conoce mejor, su interés es más grande.

Es lástima verdaderamente que el doctor Vallarino haya tenido que recurrir a esa medida extrema, pues su permanencia en la Comisión de Boxeo era una garantía para los deportistas en general. Es el uno de los elementos más apropiados para ese puesto y son pocos los que en Panamá podríamos escoger que reunieran las ejecutorias que él ostenta; su conocimiento profundo del pugilismo, su serenidad en los momentos de llegar a una decisión importante y su inteligencia en la solución de los problemas más difíciles los dejo demostrado claramente en más de una ocasión.

El doctor Vallarino debe de quedarse en la nueva comisión de boxeo que se elija por el Concejo conforme al nuevo acuerdo.

Las vacaciones de que aparentemente disfrutaban tanto el estimable amigo Luis Fortich, nuestro Panamá Tex Rickard como los **amateurs** del pugilato, han cesado, y mañana en la noche se renovarán las faenas pugilísticas en el conocido local del Club Atlético Pan-Americano.

El programa que se les tiene preparado a los múltiples aficionados al arte de Corbet es sumamente interesante. Darán comienzo a la función **Kid Powell vs. Kid Tacoma**; a un peso de 118 libras; seguidamente subirán al ringlado a cambiar de golpes de la mejor manera posible, Batting Stevens y Kid Francés a un peso de 126 libras; estos dos encuentros preliminares serán de 4 asaltos cada uno. En los semi-finales figurarán, primeramente, a un peso de 118 libras Kid Chango y Kid Clarence, Kid Denver vs Kid Grimaldo. No está demás decir que esta pelea creará gran sensación entre los espectadores, debido a que ambos muchachos les gusta atacar igualmente son de los que pierdan, empaten o ganen, siempre pelean y dejan satisfecho al público. Los semi-finales durarán 5 asaltos cada uno. Santa Ana Kid vs Kid Taboga figuraran en el encuentro final de ocho asaltos. Ambos principantes poseen un buen record, con especialidad Kid Taboga, quien últimamente ha cosechado muchos triunfos. Dada pues la índole de la pelea final no se duda que los fanáticos no dejarán de darse cita en la noche de mañana en el P. A. A. C. Santa Ana Kid y Kid Taboga están dispuestos dejar satisfechos a los espectadores.

(No olviden señores aficionados 26 rounds de puro **boxeo**).

Así como los principiantes han disfrutado de cortas vacaciones, de igual manera, nuestros boxeadores disfrutaran tambien de las suyas a partir desde la fecha. No habrá más peleas grandes sino hasta el 13 del entrante, fecha en que se llevará a efecto la más grande y sensacional pelea de la época, Lombardo y Tony de Oro serán los contendores. Probablemente este encuentro se efectuará en la plaza de Vista Alegre.

DOS ERRORES DE BULTO

"El diablillo travieso que se complace en enredar las matrices de los linotipos para dejar las palabras mal feridas cojas o mancas", hizo que en la vista del señor Procurador que publicamos ayer se deslizaran los errores que con gusto corregimos: Donde dice "No quiero tratar sobre el Ministerio Público", debe leerse: "No quiero tratar sobre el Jefe del Ministerio Público". Donde dice: "Aquí autoridad no se entiende por completo" léase: "Aquí autoridad no se entiende por empleado."

La propaganda...

(Viene de la página 9.)

sienten todos los países extranjeros, altos precios y seriedad de su. Ante esto surgieron numerosas publicaciones, muchas de ellas bien concebidas pero ninguna ideada como la de Norte America conforme a un plan técnicamente comercial, inspirada en los datos que se necesitan para efectuar cualquiera transacción y que tenga el mérito de ser publicada con un cierto que sirva de introducción al material de propaganda.

Objetivos principales que se persiguen

Los objetivos principales que se persiguen por medio de esta propaganda conjunta de los países son los siguientes:

1—Procurar la atracción de capitales por medio de la exposición de las riquezas naturales diseminadas en el territorio, especialmente en la agricultura, industrias etc. etc.

2 Hacer el Censo Comercial de todos los habitantes q' ejercitan sus actividades dentro de la República, con el objeto de facilitarles las transacciones entre todos ellos dentro y fuera del país. Con éste fin se anotan ciertos datos esenciales, tales como el año de su iniciación en el comercio, el ramo a que se dedican, las representaciones especiales con que cuentan y muchos otros más que les sirvan de utilidad práctica para el desarrollo de sus negocios. Se nota especialmente el dato de las referencias comerciales, que en la generalidad de los casos es en el Bando donde se tiene la cuenta de depósito.

Las instituciones de crédito, grandes industrias y otras organizaciones necesitan una demostración más avanzada, generalmente con gráficos demostrativos de su importancia.

Actuación de los gobiernos

Persiguiendo dichos fines, la mayoría de los gobiernos han concurrido a la realización de esta obra de propaganda. El representante de Inter America tiene en su poder copias de los decretos de los principales países de Sud América que han ingresado en la combinación. Se procura que ella esté formada por todos los países de habla latina y con éste objeto ayer el representante citado celebró una entrevista con el señor Ministro de Relaciones Exteriores habiendo sido presentado por el Encargado de Negocios de Chile, con el objeto de obtener la concurrencia oficial de **Panamá**.

Importancia que esta obra tiene para Panamá

La obra de Inter America constará de unas 2,000 páginas y estará comprendidos en ella todos los países latinos más importantes. De este modo al hacer Chile su propaganda se la hace indirectamente a Bolivia, ése país a Ecuador, Ecuador a Mexico, Argentina a Colombia etc. Del esfuerzo de uno se aprovechan todos los demás.

Es un hecho, que todas las personas que han viajado por el extranjero corroboran, que los países de América no son conocidos sino muy vagamente. Es necesario darlos a conocer. Argentina y Brasil han gastado muchos millones de pesos en su propaganda y los beneficios han sido para ellos inmensos. El capital extranjero afluye a aquel país donde se le ofrezcan garantías por la bondad y seriedad de sus leyes y por las espectativas de riqueza de sus territorios.

Panamá necesita hacer mucha propaganda para atraer al turista, que seguramente acudirá a conocerla siempre que se le demuestre que hay aquí absoluta higiene y buenos hoteles y se le exponga en forma gráfica cuales son sus mejores paseos y sitios de esparcimiento y recreo. Además, Panamá no es solamente una lonja de terreno por donde atraviesen los viajeros que recorren el mundo. Encierra dentro de su suelo riquezas incalculables que solamente esperan su explotación para producir y esto se obtiene con la concurrencia del capital extranjero.

El representante de Inter América nos ha ofrecido darnos en el transcurso de los días que permanezca en Panamá algunos detalles interesantes referentes a la labor de propaganda que le ha sido encomendada que con gusto expondremos a nuestros lectores por estimarla de gran importancia para nuestro país y para los demás que forman el Continente americano.

La Douglas es absuelta en el juicio que le segía don Tomás Arias

DETALLES

El juicio ordinario que ante el Juzgado Cuarto Municipal de esta ciudad inició Tomás Arias contr Emily Dowglas, por suma de peso- provenientes de alquileres, fué des atado por el Juez nombrado en sen tencia que conlleva fecha 27 de a- bril último, en el sentido de con- denar a la demandada al pago de la suma reclamada, más los intere- ses legales y las costas, estimadas en derecho. Uno de los fundamen- tos de que se sirvió el juez a quo para condenar a la Dowglas, fue la manifestación que ésta hizo en la diligencia de secuestro, de que "no podía pagar ahora mismo la suma por la cual va a practicarse el se- cuestro; pero como el representan- te de la agraviada apeló del fallo de mérito, el tribunal respectivo, como superior jerárquico, revocó la sentencia recurrida, absolviendo a la demandada de los cargos con- tra ella formulados y eximiendo al demandante al pago de costas por considerar que no ha habido noto- ria injusticia o temeridad en la pre- tención por él deducida.

Uno de los razonamientos del su perior están basados en que la con fesión de la demandada carece de expresión formal y de ningún mo- do dicha confesión se puede esti- mar expresa y determinada para que dé fuerza de plena prueba se- gún la ley de procedimiento toda vez que un reconocimiento impli- cito de la deuda, por la misma ra- zon de ser implícito, de nada sirve que se haya hecho ante Juez com- petente y en un acto judicial. Tam bién se agrega que, en materia de confesión judicial, la ley no deja al arbitrio del juzgador la aprecia- ción de esa prueba, porque aquella tiene establecido de modo claro y terminante cuando es que la con- fesión constituye prueba plena o perfecta y cuando no la constituye. Quiere decir, que la convicción de esa prueba se deriva, ante todo, de carácter legal y no se presta a ca- vilaciones o futilezas.

CASOS DEL CONSEJO DE CALIFI- CACION Y DISCIPLINA

Bien sea en el sentido de absol- ver o de castigar, el Consejo de Ca lificación y Disciplina sigue ade- lante la labor que desde hace al- gunos días se ha trazado, y de la cual hemos venido dando constan- temente cuenta: de investigar y fallar las faltas cometidas por los miembros de la Pesquisa Nacional.

Damos a continuación cuenta de algunos casos fallados, privándonos de publicarlos todos, por no haber obtenido, como los siguientes, la a- probación del Inspector General de la Policía.

La señora Ermelinda Bernal a- cusó ante el Consejo de Disciplina y Calificación al agente Joaquín Gue rrero el día 11 de Junio último ha- ciéndole ante dicha entidad los si- guientes cargos: Que a las 8 de la noche del día cinco del mes nom brado, el citado Agente se subió al cuarto habitación de la señora Ber nal, casa 80, situada en la Avenida Norte, con un revólver en una ma- no, con el fin de quitarle la vida a su hijo Manuel del R. Guerrero y como no lo encontró, resolvió po- nerle el revólver en la cara a la hermanita de nombre Delmira y después se lo puso en el pecho a la denunciante, diciéndole que no servía para nada y luego el Agente se fué para el cuarto onde dis- paró el revólver.

La señora Bernal dijo además que el motivo era por un dinero que el Agente debía a Manuel, hijo de la denunciante quien presentó como testigos de todo lo ocurrido a Gregoria de Guevara, Mercedes A- mador, Florencia Guevara y Lo- renzo Díaz.

El Concejo después de una exte- sa información levantada, llegó a la conclusión ayer, de que el nego- cio corresponde su conocimiento a los jueces de Circuito y por lo tan to manda archivar las diligencias sin perjuicio de que la señora Ber- nal, recurra a la autoridad com- petente.

Alejandro Hall denunció ante el mismo Consejo a los Agentes Ana- tasio Pinilla M. e Hilario Amor porque habiendo puesto en conoci- miento de dichos Agentes en ... de Junio, que un muchacho le ha- bía hurtado un libro magazine, de un almacén, el agente Pinilla le dijo que eso no era suficiente prue- ba y que si no las tenía suficientes lo ... a Chiriquí por calumnia; que además de haber cogido preso, ... hecho y luego que fueron al ... el Agente citado arrestó al denunciante a presencia del Agente Carlos Solano.

Con fecha de ayer ... de- claró a Pinilla absuelto ... car- gos que le fueron hechos en vir- tud de informe del Juez de Policía señor Amador Ponce quien hizo las averiguaciones del caso y sacó en conclusión que no hubo tal atrope- llo ni maltrato de parte del Agen- te.

EL MERCENARIO

A EL FUSTIGADOR DE LOS PANISTAS

Lo vemos alzarse del montón a- nónimo; sus estudios son limita- dos; lo expulsan de toda escuela por indisciplinado y rebelde; lo despiden del taller por atrevido; y luego, anda a la aventura sin casa y sin cuartel. Se forma sin saber hacer nada útil. Todo lo que hace es mentira.

Este ente especial vive de los desperdicios ... del jornalero y del candoroso joven que tiene un empleo y explota con ar- tera hipocresía, correspondiéndole el alma. Está en constante acecho de un ser, hombre o mujer a quien a- rrancarle lo que tenga para miti- gar ansias ... Las dádivas le encantan; una peseta realiza su fortuna momentáneamente, y por ella, ahorcaría con impavidez al primero que pasa por la vía, si el gendarme no lo llevara a la cárcel, que a veces es su último templo de refugio. Petardea con habilidad hasta al mendigo, y, su espíritu a- tronado lo lleva a todas las bajezas, a todas las imposturas que le de- jen utilidad.

Recorre después toda la gama de la ociosidad, de la vagancia, y cae en el infierno de los vicios. Des- pués, no tarda en oírse allá a lo le- jos la voz de na víctima que le gri- ta: homicida! El mercenario co- rona la primera cima del bochorno a los veinte años.

Realiza esa vil jornada, el mer- cenario, que no es otra cosa que un querub suelto del presidio que im- punemente nos ofende a todos; os- tenta bigote como un animal abrió y en su orfandad, en esas horas fa- tídicas en que el desprecio público lo estigmatiza y la sociedad le nie- ga sus favores porque la cabeza, como tocada por Perseo, se le ha convertido en un nido de víboras, jadea sin embargo, por alcanzar un puesto público en su patria, o fue- ra, donde ignoran sus lacras y des- arrolla inmediatamente sus artes ma- lévolas. A fuerza de subir escalo- nes de Palacio y emplear sonrisa- de Cirineo, el generoso Goberna- te que ha pesado ya los quilates del alma de ese depravado mercenario, intenta regenerarlo, se lo quita de encima, le abre un porvenir y lo marcha galoneado de diplomático.

De súbito, y allá en el ostracis- mo que pudo ser su salvación, fin ge desdichas, regresa, exige de nue- vo y no le dan, y entonces se aco- ge a la bandera deshecha de to- das las oposiciones, decanta amor a la libertad en los antros donde a breva su sed de ambiciones mons- truosas la mugre social, y, el mer cenario, decide vivir en el prosti bulo y en la taberna, como si fue- ran su trono; y sueña aspirando a que el Gobernante le dé empleo que no puede ejercer por falta de moral, una vez que tal mercenario está en el mecho de una corrupción de oficio.

Desairado así, salta de la ola su cia y se sumerge en una marejada asquerosa. Invoca la fraternidad de la bohemia para explotar con el cinismo a los alegres camaradas que no saben ... sus instintos perversos y de etapa en etapa, instruyéndose con novelas románticas y los libros de autores pornográficos y saca lo berlinos, resuelve, ... asumir el aspecto de rábula.

En ese asalto a una profesión honrosa, no cosecha lo suficiente para satisfacer sus ansias de oro, y enfocado por el odio a los Tri bunales de Justicia a quienes juz ga venales; engreído así en la di famación, se hace un escriba, y se alquila a un trust de plutócrata- que predican falsas ideas de liber tad y que amarran impenitentes la borg de explotar al pueblo norte- ... sus rameras, y, entregarl después aniquilado a un pretorian extranjero.

El mercenario anima de ven ... insensatas se presta a la ta- rea, cuyas tendencias positivas tal vez no mediría, y rompe contra el Jefe del Estado, y después... con- tra aún os caballerosos que cono- cen el mundo y lo tratan con caute- la.

Los productos sobrantes de su hosca pluma los vende el merce- nario; y, cargado el bolsillo de oro, pasa a ser el ídolo de las meretri- ces y de los bandos a quienes pre- dica el conato anarquista que lle- va por objetivo el sacrificio san- griento de un Presidente inofensi- vo.

Y ya sin dignidad, ni respeta el hogar ajeno ni el propio, ni la a- mistad, ni la ley, ni a la autoridad constituida, ni los deberes sociales, ni la doctrina de Cristo. Es la bes- tia siniestra, desenfrenada y loca que corre por el monte gamonso y a la cual solo contendrá el abis- mo.

En ese desorden de ideas y com- pletamente relajado el carácter, re- cibe la consigna de gritarle traidor a quien sirve bien al pueblo; pla- giario a un maestro que apoya sus tésis en las autoridades de la ma- teria que enseña; dictador a un ciu dadano probo y recto; panista a empleados pundonorosos cuyas fi- nezas prudentes estima como con- temporizaciones y esbirros a quie- nes detienen con valor a ese reo del presidio suelto que anda como un campesin triunfante por los ba rrios oscuros de la ciudad, a la ma nera de un Ternadier furioso que recoge el fango del albañal, se re crea en el y lo arroja contra todas las reputaciones.

¿Lo conoces? Plus minusve, es el mercenario que pertenece a la serie de los miserables pintados a maravilla por el inmortal poeta del Año Terrible. El pasquín es pa- ra ellos arma favorita de combate y el que vive en el ambiente de e- sos seres, su padre.

No los imitéis juventud.

NOBLEZA OBLIGA

La carta que, con fecha 8 de los corrientes, nos dirigió el señor Alcalde del distrito, respecto a editorial anterior nuestro en que recomendábamos ciertas medidas de indiscutible conveniencia pública, se merece algunos comentarios que fuera de pésimo tono no poner de relieve, lo contrario daría acaso a que espíritus reflexivos y bien pensantes, se dijesen que gustamos de sugerir indicaciones, cuidándonos muy poco del concepto ulterior que éstas despierten en las personas interesadas. Ahora bien, nosotros que a fuer de optimistas creemos que nuestro país no está tan corrompido como algunas gentes dicen por allí, desde el punto de vista ético nos mostramos siempre respetuosos de la sanción moral; y, por ende, en cuanto está a nuestro alcance no vacilamos en [illegible] [illegible] don Leonidas Pretelt [illegible] tenido para con nuestras palabras [illegible] insignificante, aparentemente no lo es en realidad, en mérito a que en Panamá los más de las autoridades a quienes se formulan indicaciones o consejos pendientes y de interés comunal prestan a ellos oídos de mercader. La actitud del señor Alcalde del Distrito constituye una excepción simpática que no debe pasar inadvertida. Nobleza obliga, según reza el decir.

De otra parte, pensamos en justicia que don Leonidas Pretelt nada tiene que agradecernos, con relación al Decreto número 19 de 15 de Julio actual, por él dictado: aplaudimos con efecto su gesto o actitud, por probidad periodística, no de otro modo que censuraríamos un proceder que conceptuásemos impropio en cualquier funcionario público. Sobre este particular, bueno es que nuestros lectores nos hagan el honor de creer que en cuanto decimos desde este sitial respetable no entran para nada intereses personales; el único interés que sí tiene cómo y por qué movernos, es el de la comunidad, y así, al aplaudir, o por el contrario al criticar a algún empleado de la administración, oficiamos ante el ara de la justicia social, la cual no entraña ni favores ni disfavores. Conserve don Leonidas Pretelt el aplauso justiciero nuestro, con motivo del referido Decreto número 19 y esté firmemente convencido de que no le cargamos en su debe, la más insignificante nonada en punto a reconocimiento.

Al público le satisfará saber que la primera autoridad del Distrito no sólo se muestra obsequioso acerca de las sugestiones que se le formulen por medio de la prensa en términos generales; sino que, en el caso concreto en que nos hemos ocupado de la conducción de carnes, ya se habían tomado por aquélla las cartas más activas. Ahora sólo es de desear que las promesas hechas por el señor Gerente de la empresa del tranvía sean llevadas al campo de las realidades. Con la extensión de la línea hasta el Matadero y la Zabuela de una parte y en dirección al sitio donde funciona la balanza oficial de otra, se conseguirán dos objetivos: el traslado de las mismas carnes en carros convenientemente cercado; y acabar, de una vez por todas, con el tránsito del ganado mayor por un sitio tan pasajero como es la llamada CALLE DE CALIDONIA a las ocho y hasta a las nueve de la mañana, espectáculo grotesco, e impropio que aún contempla en la actualidad nuestra capital.

Indagando...

(Viene de la página 9.)

[L]uego hablará también mañana, y dejamos la oficina.

No ha llegado aún

Volvemos a buscar al Capitán Conte y aún no ha llegado, son las tres de la tarde.

El Alcalde Pretelt

El señor Alcalde Pretelt es la [illegible] El secretario está rodeado de personas de toda clase. El Alcalde amablemente y con palabras persuasivas resuelve las consultas a contentamiento general. Cono[illegible] de nuestra misión [illegible] por que cree que yo aspiro a ser Jefe de Policía y no [illegible] por mi [illegible] pasado tal idea. Si doy opinión sobre el asunto de que me habla se podrá creer que trabajo en el sentido de obtener la Jefatura nombrada y a la verdad que como dije antes, no aspiro a ella.

Después de algunas palabras persuasivas de parte nuestra, accede, porque comprende que eso va en beneficio general y que si se [ata]ca a la mencionada oficina no es propiamente en la persona de sus miembros sino a la institución en conjunto. En compañía de los señores arriba nombrados, el señor Alcalde expondrá sus opiniones.

Otra vez el Capitán

Por sí o por no, volvemos a preguntar al Capitán Conte, es que estamos en la firme creencia de que este Jefe hablará claro y tal como lo esperamos, pero se nos dificulta verlo y optamos por salir.

En la Secretaría de Gobierno

El señor Secretario de Gobierno sí que nos daría buenos datos sobre el asunto de que venimos tratando pensamos, y sin más y a pesar de la lluvia nos dirigimos a su Despacho situado en el Palacio Nacional. Al pasar por el Parque Central interrogamos con una mirada al reloj de la Catedral: las agujas marcan las tres y treinta y cinco; cómo se pasa el tiempo, pensamos y rápidos llegamos al Palacio. Subimos las dos primeras escaleras de mármol, tan elegantes como costosas y henos aquí frente a frente con el portero de la Secretaría de Gobierno y Justicia. ¿Se puede hablar con el doctor Alfaro? No ha venido todavía. ¿El señor González estará muy ocupado? Tampoco ha venido. Falta un cuarto para las cuatro, ¿a qué hora vendrán? y el portero, un viejecito bonachón, no sabe decirnos la hora precisa; balbucea unas palabras para su interior y nosotros decepcionados abandonamos el edificio. Cómo es de triste caminar, trabajar y afanarse inútilmente. ¿A qué hora estará el señor Secretario de Gobierno en su oficina? nos preguntamos ya en la calle y nuestra pregunta no tiene contestación concreta, queda el interrogante.

Habla el Juez Superior

Don Francisco de la Ossa, Juez Superior de la República, no tiene inconveniente alguno en expresar su opinión. Siéntese usted a una máquina y escriba lo que voy a dictar: es lo que verdaderamente siento y lamentaré que haya de herir susceptibilidades, pero se trata del bien general. Escriba, y estamos escrito lo siguiente:

"Mi opinión es la de que tal como está hoy organizada la Oficina de Investigaciones, debe suprimirse en lo absoluto, puesto que ha llegado a tal grado de descrédito que el público en lugar de tener confianza en ella más bien la tiene como una amenaza. Sí creo necesario que el Gobierno organice con personas capaces y competentes un ramo de Policía Judicial para el asunto de investigaciones como asesinatos, homicidios, robos, etc. y ayudará a los Jueces en la investigación de estos delitos. Por lo demás la Policía regular puede servir perfectamente para los servicios comunes en la ciudad, como recolección de meretrices, fumaderos de opio y delitos de policía de poca significación, que es en la actualidad en lo que se ocupa la Oficina de investigaciones. Además, creo que la mencionada oficina no puede ni debe tener nombres propios y que si los tiene ha dejado de ser oficina de tal naturaleza y por la misma razón debe suprimirse."

Conformes

Volvemos a leer y el señor Juez está conforme. Nosotros estamos más conformes aún. Si el señor de la Ossa, que era nuestra última esperanza nos hubiera despachado con vientos frescos, ¿qué hubiéramos de decir a nuestro jefe? Sin duda que no creería que habíamos trabajado y tenía razón puesto que no teníamos comprobantes.

El señor de la Ossa nos ha dado el comprobante que necesitábamos y agradecidos doblemente hemos salido gozosos de su despacho.

El Coronel...

(Viene de la pág. 9.)

[le]gal siguen contando billetes y más billetes. El Coronel Arango está tranquilo.

Aun indagamos nosotros: Entre el doctor Lamar y el Coronel Arango nos explican:

José Guerra y María González viajaban en segunda clase en el Montevideo. Se dirigían a Buenos Aires, según dicen. Se cerraban en la más lamentable negativa. Ellos nada sabían, ellos no comprendían por qué se les perseguía. En Cristóbal salvo los 472 dólares no encontraron nada más. 60 dólares más tenía la María González.

Los autores del hurto

Quisimos ver a José Guerra y a María González, los héroes de este hurto de mayor cuantía.

María González está sentada ante una mesa de la celda. Llora. Representa 25 o 26 años. Es regular de estatura, delgada, blanca, pálida, el pelo negro bien peinado, los ojos grandes y obscuros. Habla con voz débil. No quiere comer.

A José Guerra o Alfredo González lo vemos por la reja de su celda. Es blanco, estatura baja, rostro vulgar, pómulo saliente, la color blanca y tostada. Habla tranquilamente y se le ve apenado.

19.800 dólares

Cuando hemos salido de la Inspección acaban de contar el señor Rigal y el doctor Lamar: 19.580 dólares. ¡Nada menos!

Saitsfechos

Nos hemos marchado de la Inspección satisfechos: la labor del Coronel Arango merece algo más que un voto de aplauso repetimos. ¡Esa es una labor!

ARCHIE O. MALLEY LLAMADO A JUICIO

Juzgado Sexto del Circuito. Panamá, diez de Julio de mil novecientos veintidós.

Vistos: Como a las cuatro y media de la tarde del nueve de Marzo de este año venía el chófer Archie O. Malley de Las Sabanas para la ciudad manejando el automóvil número 1071 y en sentido contrario iban montados en sus caballos Clifford Smith y José de la Cruz Ríos cuando en el trayecto comprendido entre la cantera de Ga[illegible] y Tumbamuerto el chófer Malley arrolló con su carro a Ríos quien junto con su cabalgadura fueron derribados al suelo donde quedó muerto el caballo y gravemente herido el jinete.

De resultas del accidente ha permanecido Ríos incapacitado por cinco meses y diez y ocho días y ha quedado lisiado parcial y permanentemente de la pierna derecha.

Tanto Smith como Ríos atribuyen a Malley responsabilidad en el hecho de que se trata por no haber hecho funcionar la bocina de su carro que llevaba a mayor velocidad de la permitida y tomar su derecha en vez de la izquierda que era la que le correspondía en su marcha.

Como el hecho imputado está erigido en delito y hay en el informativo los elementos de derecho que para el enjuiciamiento del acusado exige el artículo 4º de la Ley 52 de 1919, el suscrito Juez 6º del Circuito de Panamá, administrando justicia en nombre de la República y por autoridad de la ley, abre causa criminal contra Archie O. Malley por infracción de disposiciones contenidas en el Título XV, Libro II del C. Penal.

Como el enjuiciado se encuentra en libertad bajo fianza solicítesele al fiador Theodore Mac. Guines para que lo presente dentro de cuarenta y ocho horas, sea notificado de este auto y provea a los medios de su defensa.

Dentro los cinco días siguientes a la notificación de este auto presenten las partes las pruebas de que intenten valerse en el juicio.

Señálanse las dos de la tarde del primero de Agosto venidero para la audiencia oral de esta causa.

Notifíquese y cópiese.

LA VISTA DE AYER

Tal como lo habíamos anunciado anteriormente, en el recinto de audiencias del Juzgado Superior de la República, ayer, a las ocho de la mañana, se dió principio a la audiencia pública en la causa seguida contra Fabio Espinosa, Juan de Gracia y Francisco Rodríguez, acusados por el delito de asesinato en la persona de José Guerrero. Los Licenciados José Isaac Fábrega y Horacio Velarde fueron los curadores de de Gracia y Espinosa, quienes son menores de edad; y J. M. Puerta Gómez, defensor de Francisco Rodríguez.

Previas las disposiciones de rigor, el jurado integrado por los caballeros Crispulo Ruiz F., Manuel Alvarez W., Carlos W. Muller, Alfredo Andrión y Roberto Vallarino dictó su veredicto en el sentido de no considerar a Francisco Rodríguez culpable de ningún delito, mas sí a Fabio Espinosa por el delito de homicidio, y a de Gracia como su cómplice.

LA CUESTION DE GRECIA Y TURQUIA

París, julio 11.——Los aliados finalmente han decidido convocar cuanto antes una conferencia para discutir el problema de las nacionalidades turcas y griegas con el fin de restablecer la paz en el cercano Oriente, según un informe publicado hoy por el Ministerio de Relaciones Exteriores.

UN EMBARQUE DE ORO ALEMAN PERDIDO

Ginebra, julio 11.—El Neue Zuericher dice que un embarque de oro en barras, que se asegura fué avaluado en varios millones de libras esterlinas, desapareció después de haber llegado hasta Chiasso. El embarque fué enviado desde Alemania a Italia y las autoridades postales suizas lo habían entregado en la frontera italiana, entregándoseles un recibo.

UN ARTICULO SIGNIFICATIVO DE "LE TEMPS"

París, julio 11.—El diario semioficial 'Le Temps' publica hoy en lugar prominente un artículo en el cual dice que las naciones europeas deben tomar la iniciativa para la cancelación de las deudas de guerra entre ellas mismas en lugar de esperar la acción de los Estados Unidos para con ellas.

El periódico propone que se convoque inmediatamente una reunión del Consejo Supremo o de Ministros de Hacienda con el fin de discutir no la moratoria alemana sino la cancelación de las deudas de guerra aliadas, entre los mismos aliados, lo cual, dice, es el problema más importante ahora.

CONDENADO

En el juicio seguido contra J. J. Prescott, por abuso de confianza, se ha dictado sentencia por la cual se le condena a la pena principal de seis meses de prisión.
