SHIPPING NEWS

The Norwegian steamer Ura, 1500 gross tons, is ashore on Serrana Bank, a shoal patch in the Caribbean near Old Providence Island. The salvage steamer K[illegible] is standing by. Details of salvage prospects are lacking.

The yacht Speejacks, which was here about a year ago on a round the world cruise with Mallomee Gowan and party on board, is eight days overdue at the Canary Islands from Gibraltar.

The movement of tank steamer tonnage through the Canal still increases as the low price of oil in California continues firm, and reports indicate a further lessening of the output of Mexican fields. Meanwhile intensive drilling and exploration are proceeding in Mexico; and the bringing in of a new gusher or two of the Casiano or Cerro Azul type should operate to curtail or terminate this trade that now contributes handsomely to Panama Canal revenues. The price of oil in California plus transportation cost just about equals the present fuel oil price at Eastern delivery points as governed by these factors applied to receipts from other sources. A raise of oil prices in California or increased production and shipments from Mexico would make the coast to coast haul too unprofitable for continuation.

TROPICS NOW BECOMING GOOD CUSTOMERS OF U. S.

Washington, Nov. 7. (By the Associated Press.)—The United States foreign trade for the fiscal year ended June 30, suffered in common with the general world depression, but the great decline in value from the previous year, was due in a large measure to a fall in prices rather than in quantities, according to an analysis by the Commerce Department. The increasing ratio of imports from tropical countries is noted as pronounced shift in the country's foreign trade during the last few years. The commerce Department declared that the balance of trade in tropical countries was heavily against the United States, as more than half the country's imports are now from tropical origin such as rubber, coffee and sugar.

WHAT WOULD YOU GIVE TO BE WELL?

How often we hear the expression: "I would give anything to be well."

We can't have happiness without good health.

Have you ever thought that your kidneys may be the cause of your trouble?

Excessive eating and drinking, irregular hours, a strain or sickness may leave the kidneys in a weakened condition and prevent them from properly performing their duty of filtering the blood.

Neglect allows uric acid to form from impurities which should have been passed through the bladder. Rheumatism, urinary irregularities frequently accompanied by painful bladder indamation are sometimes the result.

At the first twinge of backache, give the kidneys help and avoid the more serious diseases.

DOAN'S BACKACHE KIDNEY PILLS has been the most successful aid to weak kidneys and the bladder for more than half a century.

BASEBALL GAME AT MOUNT HOPE SUNDAY.

Sunday, Nov. 12th, is the date set for the opening of the baseball season on the Atlantic side, when the boys from Fort Sherman will meet the fast playing Cristobal Reds of Cristobal, C. Z. These two teams have already met, with the Reds coming out on the long end, so the boys from the fort have a score to settle with the Reds and they will sure have to travel some to lick these colored boys, who have won their last six games played.

Both teams are working hard so as to be on the best possible condition to contest this game, and to prove for once and for all which is the better bunch of ball tossers. Manager Jarrett will pitch his old war horse "Smokie" Wallace who has always been a jinx to the soldiers, while it is rumored that the Sherman team is bringing over one of their latest slab artists from the States, who will make his debut against the Reds. This game has been a long time hanging fire, and now that final arrangements have been made, a record-breaking crowd is looked for.

GATUN COLORED CLUBHOUSE.

The Community Night on last Thursday was attended by a large audience. The main item on the program was the speech on Racial Hindrances by Secretary T. B. Neely, of Cristobal. This speech was well rendered as well as very instructive, and it is hoped that some of the things he said will greatly benefit the thinking men and women of Gatun.

Song Service on Sunday was led by Mrs. L. E. Williams, who demonstrated very clearly what the women are capable of doing. The program was excellent and witnessed by an appreciative audience.

Next Sunday's Song Service will be led by Mrs. J. Laurie. These Sunday evening services are not conducted simply for killing up time but we hope to see tangible evidences of a better Gatun in the near future.

The Globe Trotters' Company will appear here on Thursday, November 16th. This company has been secured to play especially for the benefit of our Christmas picnic fund. It is therefore necessary for everyone to attend this performance.

The Secretary is firmly convinced that with the aid of the Boy Scouts, the Girl Reserves, the monthly community meetings, the weekly song services and other high class events, Gatun will soon be the leading community on the Isthmus.

The Gatun public school teachers are showing a wonderful spirit of co-operation in these matters pertaining to the uplift and education of the community. We know by experience when we can make those above us see our needs, their co-operation is assured, especially when we have gone to the limit to help ourselves.

UNIQUE SINGING CONTEST AT LIBERTY HALL.

A very unique singing contest will be held at Liberty Hall, No. 29 "H" Street, on Sunday, Nov. 12th, 1922, between the Red, Black and Green, White and Blue and U. N. I. A. choirs. There has been much dispute among the colored element as to which is the greatest of these three choirs. They are all noted for their ability to satisfy the hearers, but the matter as to which is the leading one of the three has never been satisfactorily decided. This dispute will however be finally decided on Sunday, 12th inst. when they meet at the famous Liberty Hall. They will all sing the same anthems so as to facilitate a correct decision.

Competent judges have been engaged, and we feel sure everybody will be satisfied. Contest will commence at 5:00 p.m. precisely.

LETTER TO THE EDITOR.

Balboa P. O., C. Z., Nov. 4, 1922.

Mr. Editor—

Sir: Through your columns, will you please permit me, as one, who having been employed on the Canal Zone for over 16 years, and having a deep experience in the three grades of work, of which alien labor consists, that is to be: laborer, an artisan or foreman, to most now, although I am employed and seeing around me the multitude of men all unemployed, and in distress, I cannot pass this opportunity without expressing myself through these columns, so that one and all who may have any sympathetic opinion about the present conditions now existing in this country, amongst the poorer classes, may now express himself to the public at large, as I am now going to say that peace and harmony will ever continue to exist among men and that the discrimination between human power and physical power will be forever abolished, and that men will then begin to understand that, neither one is the greater, and that if any is greater the physical power is, for the simple reason, that the brain is useless, without the physical power which chiefly enables the brain to act.

Now, let us look around, and what do we see? Behold, I see, as it appears, an ugly figure a great mass of humanity in its three forms, and each form a class, or party of men, all disabled, helpless, hopeless and distressed from every angle, and from same is heard that continuous dreadful, mournful cry, help, help. Now let me suggest to the employed how best we can help our fallen brothers who at present and for many months were unemployed from lack of work on the Panama Canal, and if possible place the majority back in employment.

I presume the public at large will ask themselves what is that fellow thinking about, and further more Canal employees will say I have a wrong opinion, but after you shall have read my suggestions, I am asking the most reasonable of men if my suggestions are not right, according to what I shall now place before you.

Suppose in a silver city there resided 2,720 laboring men of which 1,200 were paid at the rate of 20 cts. per hour, and 1,220 at the rate of 23 cts per hour, and an addition al 150 men at the rate of $60.00 per month, and 25 men at the rate of $75.00 per month, and it happened that 220 men were not employed for several months; how best would you replace that number of the unemployed? Well, I would place all the laboring class at one flat rate and those of $60.00 to another flat rate, and the others at another rate, and then I would call in the 220 to work at the lowest rate; now it is for you to calculate what would you be paid at, no matter what it be, so long you see the 220 starving men earning his bread

[illegible] home will and smiles [illegible] show themselves again, and the little babies will stop their yelling when papa comes home with the cream, sugar, and cakes. Yes, this is a happy solution in replacing the city back in an employment condition, yet many may not care to hear of it; but Charity is the mother of Mercy. Now, trying to polish one figure to the best of my ability, and leaving it for your discussion, I must now proceed to polish the second, which is none other than that I would suggest, that every silver employee on the Canal Zone who is now employed permit the deduction of 50 cts. U. S. C. per month from his monthly earnings for the period of three months consecutively, and that same be divided equally amongst destitute West Indians that be repatriated from this country to their homes, and that same gift be given with their transportation papers only to the responsible parts, providing the opportunity is grasped within the limit of the third month, when said agreement shall be closed. Now, having tried to polish the second figure of the distressed who are willing to be repatriated, I now leave it to the thinking public, and employees for their discussion, and to render their appreciation on same through these columns, so that further steps be taken. So I must now proceed to touch upon the third figure, which is also an ugly one, but I believe it is a very helpful one to those who are desirous of grasping same, according to many statements made and also [illegible] from those I come in contact with every day. So, I therefore beg to suggest that in the repatriation, that if it be possible that all wives who are desirous of leaving their husbands here and returning home with their children, same be done, which will decrease the distress in our midst, and let that unhappy feeling of thinking how to get our families out of here be lost because they have gone. And now with all I have suggested for the benefit of my race, and people, and can think of nothing better, I must need stop here, trusting that these few lines may meet the approval of the general public, and that all employees of the Panama Canal may consider on these suggestions to the best of their ability by rendering their assistance to the same, and that it become effective for the period of three months, commencing Dec. 1st, 1922, and ending Feb. 28th, 1923.

I also suggest that our readers pay strict attention to the motto that I shall place before their minds eye that is,

"Help the poor that is down today. You give something for his sorrow. For this world is a queer old world. You also may be down tomorrow."

Yours truly,

L. C.

The guests visited the Pedro Miguel Locks and witnessed some ships transit the locks. Later they returned to the Crooks' home, where the party was entertained with games of cards. They returned to Panama at 8 p.m. jubilant over a happy day spent in the country.

CONTROLLING COCAINE.

A correspondent of our esteemed contemporary the "Diario de Panama," who signs X. Y. Z. calls attention to the need for stricter control of the habit forming drugs in Panama and the Canal Zone with all of which we heartily agree though we must call the anonymous writer's attention to a few errors. We do not [illegible] the writer [illegible] anonymity against him as the drug ring is dangerous and will stop at no end to fight any opposition.

It is true that the [illegible] to stop the trouble [illegible] the source and [illegible] the importations, but that is easier said than done. [illegible] officials and [illegible] the Canal Zone and Panama have been making special [illegible] to end that thing and with no little success considering the number of arrests and convictions that have resulted. The District Judge of the Canal Zone has in all cases given excellent support and has inflicted punishments that will do much to discourage the drug smugglers and peddlers. Recently, too, the courts of Panama have inflicted severe penalties and added deportation.

The writer in the "Diario de Panama" says, "There have been ordered two or three deportations of individuals who repeated the offense and, however, there is not a single case among them in which the order given has been carried out." We happen to know that only last week a cocaine peddler named Charles Gallimore was deported to Jamaica after he had been convicted and fined and imprisoned by Panama court. This is only a start but a good one in the right direction.

It is true that the government could make stricter and more severe the laws regarding the importation and sale of [illegible] but such action will have to be followed by equally stringent and severe enforcement if proper results are to be obtained. The smuggling can never be completely [illegible] but that is no reason why every effort should not be made to make smuggling dangerous and [illegible] the control of [illegible] the government [illegible] [illegible] we believe that the best [illegible] government control [illegible] declare a monopoly by the government on the importation of [illegible] [illegible] and habit-forming [illegible] Perhaps the President [illegible] directly to declare the monopoly [illegible] decree but, if he has not the power, to have the necessary law passed during the sessions of the present Assembly.

It is good for children's delicate throats, protects the lungs, relieves the phlegm, and gives quick relief. More Summer Shows In New York.

(By J. B. M.)

Our last show was "Kiki" at the Belasco. It was the first time we had ever been in a Belasco theatre and we were rather annoyed at the hocus-pocus proceeding there. It seems that Belasco is not content to have the building pass as a theatre, he evidently wants it to take on the atmosphere of a Buddha temple and a New York church. Before the curtain rose a Chinese gong sounded several times and then some church chimes began. And all this as a prelude to a most modern and frank and obvious play. Enter a [illegible] hussy.

But Kiki! Well, Lenore Ulric is Kiki, the little street gamin and [illegible] wild, slangy, capricious, [illegible], pathetic, winsome, and altogether charming. Miss Ulric [illegible] all out of the character that [illegible], we suppose, acting with verisimilitude, and on the stage practically all the time. She even [illegible] to steal from us our [illegible]. After living some with a bachelor in his apartment for weeks, she came before the footlights in the end and exclaimed "[illegible]" And we were [illegible] a shocking suspicion that had J. B. B. been present he would have [illegible] a [illegible] a stroke of disbelief.

There were more shows to see of course but there was no more money. This trip to the States is a long one. And poker, [illegible] they say it is a game of bluff ... we say it is a game of loss. The Canal Zone [illegible] a bad place after all [illegible] down there! [illegible] The prodigal sons always return [illegible] coming home.

Dr. George A. Miller delivered a highly interesting address on social conditions in Latin America at the Balboa Union Church last Sunday evening. An appreciative audience greeted the speaker, who was for a short time acting pastor of this church. Dr. Miller is an eloquent speaker, and a keen observer and possesses the happy faculty of presenting in a cogent form practical deductions from the facts. He is a great admirer of the Latin American and paid a splendid tribute to his inherent good qualities and capacity for appreciation of the ideal, and for his [illegible] Possessed of a happy fund of humor, which was well proportioned among the facts, the address was a timely addition to the forces which should more and more be emphasized in the development of a better understanding and appreciation of the Latin American by the United States. Dr. Miller returns to Santiago, Chile, the latter part of the week, where his headquarters are located.

(JNO. Q. CRITCHLOW.)

(Dedicated to Emily May Wilson.)

While [illegible] one day [illegible]
In the jungles of Old Chiriqui
I saw a little brown monkey
In the top of a tall rubber tree.

It looked bewitchingly cunning
And human as human could be
A-scratching its head with its fingers
And making faces at me.

I thought, as I picked up my rifle,
What a wonderful trophy I've found
I fired and the poor little monkey
Cried out and fell to the ground.

I thought I had done a great wonder
And was more than proud of my aim
But pride lasted only a moment
My cheeks were soon burning with shame.

For I saw a few minutes later
A sight I shall never forget
When its poor terrified mother
Leaped and picked up her pet.

And the jungle silence was broken
By a cry of anguish and pain
From the very soul of the mother
When she found her baby was slain.

And since that day in the tropics
In the jungles of Old Chiriqui
I've thought of the crime I committed
And the picture is still haunting me.

And I've wondered: Did I commit murder?
Shall I always feel the disgrace?
And I wonder [illegible] the hereafter
I [illegible] face those monkeys to face?

A. S. BOYD RE-ELECTED TO PRESIDENCY OF AUTO CLUB

At Meeting Held Monday It Was Decided That Club Would Undertake To Secure Tires and Oils For Members At Wholesale Prices

A. S. Boyd, of Pedro Miguel, will continue as President of the Panama Automobile Club for the ensuing year, following his re-election to that office at the annual meeting of the Club at Pedro Miguel Monday night. Major E. A. Baco was elected first vice president; J. W. Pickel, of Cristobal, second vice president; E. F. J. Goldsmith, of Ancon, third vice-president.

Those elected as members of the Board of Directors were Albert Lindo, of Panama; F. A. Hess, of Cristobal; R. A. Curtis, of Pedro Miguel, and R. G. Taylor, of Ancon. R. N. Norris was elected as secretary and treasurer and E. F. J. Goldsmith as publicity representative.

Of Benefit to Members.

It was decided that the Panama Automobile Club would accept the agency for the [illegible] of motor tire manufacturers in the United States who have agreed to supply casings and inner tubes at jobbers' prices to all members of the club, thereby saving them an average of ten dollars on each cord tire purchased.

The proposition of securing oil for the use of the club members was taken up and the secretary instructed to take immediate steps to secure the fuel at wholesale prices.

The present membership of the club is about 150 and an active campaign is to be conducted to bring in 200 other automobile owners.

Arrangements now existing between the Municipality of Panama and the Panama Automobile Club exempting holders of membership cards from arrest upon surrendering their cards to police officers when detained for violating traffic regulations will be continued in effect during the forthcoming year, it was announced.

Members' Family Not Exempted

Attention of club members was called to the fact that members' [illegible] family are not protected [illegible] membership cards from [illegible] they also may [illegible] members of the club, upon [illegible] and upon payment of [illegible] yearly dues.

GEORGE M. COHAN SUCCESS AT CECILIA

Long Looked Forward To Broadway Play "A Prince There Was" To Be Shown At Last In Panama Today

Patrons of the silver screen in Panama will have the opportunity today of seeing at the Cecilia theatre the great George M. Cohan success "A Prince There Was."

Known in the world of amusements as one of the leading playwrights, actor managers and composers in the country, George M. Cohan is author of "A Prince There Was," a brilliant stage success which has been picturized by Paramount with Thomas Meighan as star and which will be the feature at Cecilia theatre this afternoon and evening. Mildred Harris, a charming actress who scored in Cecil B. De Mille's great production, "Fool's Paradise", is Mr. Meighan's leading woman in this picture.

Miss Harris is seen in the role of a young girl, who after her father's [illegible] suicide, seeks to make her way as a short story writer, but with poor success. Her plight is discovered by Charles Martin, played by Mr. Meighan, a wealthy [illegible] young man, who falls in love with her and then poses as an assistant magazine editor in order that he may buy her stories. He buys a controlling interest in a metropolitan magazine so that he may publish the girl's story which the magazine had previously refused. His broker, who is in love with the girl, jealously denounces Martin as the man who caused her father's ruin. The ensuing complications, however, are all cleared up in a happy finish which makes the picture most pleasing.

It looks like a busy time this week at the Cecilia for on Sunday Wallace Reid will be here in "Don't Tell Everything."

THE 25 YEAR BILL

CRISTOBAL, Nov. 7.—Mr. and Mrs. Lea Ward and Mr. Herbert Ashton spent a busy time today taking the departure of the Transport St. Mihiel and other army views for the movie picture in behalf of the enlisted men's retirement bill.

Mr. Ashton is the star but it is, of course, an all-star cast.

ATLANTIC SIDE PARS

CRISTOBAL, Nov. 7.—The All America Cable is to connect up Port Limon with Puntarenas overland, and Puntarenas is to be connected up with Balboa. Cable wire will be sent to Limon on Wednesday from Cristobal.

The further arrests made this week at the Cristobal docks of alleged carriers of opium show that the Canal police and customs officers are ever on the alert and are putting into effect the Governor's order with every vigilance.

The practice of bringing in opium from Colombia will be a very dangerous risk in future.

Miss Ruth Robinson was an arrival from New Orleans on the Turrialba yesterday.

Saturday will be Armistice Day and Legionaires on the Atlantic side will go over to Balboa to attend the exercises at the unveiling of the tablet in memory of those from the Canal Zone who fought and fell in the World War.

The Elbert S. Waid post has chartered a special train to take the members of the post over and back, and Mr. G. V. McCorkell of Eleventh street, will be pleased to give a pass to all who propose making the trip.

One of the new steamers flying the Panama flag, the Ida, arrived yesterday. She is American owned, has a Chinese crew, and has German officers. She was one of the German ships taken over by the United States during the war, and is on the way to San Francisco from New York.

The Marimba band delighted a large audience at the Army and Navy Y. M. C. A. last evening, and will play this evening at the America Theatre. They are shortly leaving for Guatemala again.

To the list already published of officers of the Colon Bomberos who received the silver bar from the hands of Governor Arosemena for services well performed during the past year, are to be added the names of Captain Daniel Odubur and Captain A. C. Da Costa Gomes, both members of the ambulance corps and both in every way deserving of this honor.

Dr. Odubur as well as Dr. Da Costa Gomes is a most popular member of the Colon Bomberos and it will not soon be forgotten that it was Dr. Odubur who presented the handsome Italian chandelier which adorns the center of the Salon at the new fire headquarters on Broadway.

Both officers have had lengthy service in this most efficient corps.

The Tivives is due in today from New York via Kingston with passengers, mail and 120 tons of general cargo for Cristobal. She will sail again to-morrow for Colombian ports and be back at Cristobal again on November 16, sailing that day for Kingston and New York once more.

To-morrow the Carrillo arrives from Colombian ports and sails again that same day for Kingston and New York.

Secretary F. N. Whittaker announces another enjoyable program for Tuesday evening next at the Cristobal Army and Navy Y. M. C. A., when Mr. McCoy's orchestra with Charles Wolf's string players will give a concert for the service men of the Atlantic side.

Inquiries at the Ancon hospital today found that Mr. D. W. Haselwood was very much better and would be soon out and about again.

The Mexican [illegible] Band will be in Isthmian waters again in a week or so, and Atlantic siders will look forward to another musical evening by the splendid orchestra which passed through on its way to the Centennial festivities at Rio de Janeiro a short while ago.

At this week's gathering of the Y. P. S. C. E. of the Cristobal Union Church, the leader, Miss Susie Harrison gave a most interesting address on "The meaning of Church membership."

Miss Harrison is the very pretty daughter of Mr. and Mrs. William T. Harrison and her mother does much good work as president of the Ladies' Aid Society.

Much interest is being taken in the coming Thanksgiving Day trip to the wonderful Chucunaque River which is to be made in the steamer Agusta Victoria on November 29 for a four day excursion to the Darian country.

Mr. A. H. Kingsbury of Cristobal, is making the plans with Mr. A. I. Scott of Balboa, and it looks as if it will not only be an interesting, but a very enjoyable party.

MARIMBA BAND AT AMERICA TONIGHT

Famous Guatemalan Blue Ribbon Orchestra Added Attraction With Goldwyn's Famous Picture "The Branding Iron"

Tonight will be a big one at the America Theatre, for in addition to the Goldwyn picture "The Branding Iron" the management has engaged for one night only the famous blue ribbon Marimba Band which has arrived from Guatemala and those who have never heard this wonderful music so typical of Central America will have indeed a treat in store.

There will be a complete orchestra of seven pieces and the program will be one which will not soon be forgotten and will include several of those soothing and luring melodies which have placed the Marimba music in a class entirely by itself.

There will be no increase in prices for admission and the usual two performances will be given commencing at 7.15 and 8.45.

Together with "The Branding Iron" will be shown Pathe's newest news, so that tonight's program at the America promises to be one of the best in a great many months.

The Branding Iron.

The branding iron has long offered foundation for stories of the great west. Now it returns to the screen but this time not as the weapon of the cattle rustler. In the hands of a jealous husband it becomes the brand of ownership, searing its cruel design into the fair white flesh of his terrified young wife. Such, in a paragraph, is the underlying theme of the powerful Goldwyn film, "The Branding Iron." Around it revolves a story in which brawny men of the great west reveal their hates and their loves for poor little Joan Carver, while intrigue has its champion in the person of a wealthy New York playwright. Smashing snow scenes beautifully portrayed, action of the sort that holds, and romance of the good old fashioned kind offer effective settings for the splendid art of fascinating Barbara Castleton as Joan. "The Branding Iron" will brand itself on your memory long after other pictures are forgotten.

DOLLS FOR SALE

CRISTOBAL, Nov. 7.—The Cristobal Woman's Club will have on sale this week commencing to-morrow, a number of very pretty dolls, and the proceeds are to go towards the club's of late much depleted funds.

Mrs. Peterson invited the Star and Herald man to call and get a doll, but the offer was declined. There are, however, many on the Atlantic side who probably need dolls.

BANQUET HONORS CHINESE BABES

Large Gathering At Hall of National Party To Celebrate Christening of Little Children of Mr. and Mrs. Henry Yee Yepui

CRISTOBAL, Nov. 7.—No greater tribute could be paid to the high esteem and respect in which the Isthmian Chinese colony is held than the gathering last night at the hall of the Chinese National Party on Broadway, when not only the leaders in commerce and social life of their fellow-countrymen on the Atlantic side, but banking, shipping and the business world of both Colon and Cristobal turned out en masse to honor Mr. and Mrs. Henry Yee Pepui, who as the proud parents of a baby boy and girl, gave a banquet following the christening ceremony.

Horatio Irving and Amy Evangeline who arrived on October 5, 1922, and April 12, 1921, yesterday entered the Christian Faith, having been baptized by the Rev. Fisher of the Cristobal Union Church and in the evening the happy parents, whose joyous family now numbers six of the brightest little citizens on the entire Atlantic side, entertained to a dinner and dance and the hall of the Chinese National Party has never looked better or held a more representative or happy throng, for everybody who is anybody was certainly present, and all brought along the wife or wife to be.

The hall was decorated with the flags of a score of nations, a tribute from China to the people of the world, a reciprocation of the great respect with which this great nation is held by all and alongside on the walls were the pictures of the George Washingtons, the Lloyd Georges and the Bolivars of the Republic with its emblem covering the colors of half a dozen soon to be united Chinese peoples.

Mr. Eustace Lee and Mrs. Maria T. de Wong were the God-parents for little Horatio, and Mr. Lee and Mrs. R. B. Vaz filled this important position for Amy and with Mr. Lee in the chair, supported by the proud parents and God-parents, a banquet was served which will not soon be forgotten by those who were present, for it was a Chinese dinner from the word go, and a dish after dish was passed around from wonderful eggs to ancient vintage to chop suey a la carte, enjoyment reigned supreme.

Those present included Chin Pofat, Ng Len, H. Chenalloy, A. Chenalloy, William Sun, S. Kam, A. Kam with their ladies, Mr. and Mrs. Frank Ledgett, Mr. and Mrs. R. C. Heslop, Mr. and Mrs. R. B. Walker, Mr. Gerald Martin, Mr. and Mrs. Bernard Marcuse, Major and Mrs. Ouin Gray, Mr. and Mrs. M. C. O'Hearn, Mr. and Mrs. I. J. Jackson, Mr. and Mrs. Johnson, Mr. and Mrs. Vernon Pinto, Mr. James E. Lewis, Mr. and Mrs. William Harrison, Claud Vaz, Mr. and Mrs. Anderson, Mr. and Mrs. Courtney Page, the Misses Campbell, Mr. and Mrs. Luis F. Lee, Mr. Clifford Byrne and Mrs. Byrne and a host of others.

There were over 200 guests in all and each received a very pretty favor from the very charming host and hostess.

During the evening the health of the little ones as well as their happy parents were toasted and drank in the sparkling wines of France and in speech after speech tribute was paid to the Republic of China, the sterling qualities of its citizens and the good wishes for the members of the colony in Colon and Panama.

Among those who [illegible] request of Chairman [illegible] Lee were Mr. Frank Scott, who wished well of the little ones; Mr. [illegible] who said how pleased [illegible] to be there; Mr. Jackson, who spoke of his travels in China years ago and said wherever he went he found nothing but industrious and progressive people; Mr. Johnson, of the International Bank; Mr. Frederick Martinez an English travelling salesman visiting the Isthmus; Major Ouin Gray and many others, and [illegible] Mr. Yepui thanked them [illegible] bottom of his heart [illegible] he and his wife would [illegible] ber that day as one of the happiest in their lives.

LEGION TO PROVIDE NURSERY TO INSURE RECORD ATTENDANCE

Mothers of Children Who Cannot Be Left At Home May Attend Legion's Banquet and Entrust Babies To Care of Maids In Attendance

Each year it has been the custom of the American Legion to celebrate the arrival of the anniversary of Armistice Day with a banquet. Heretofore, on the Isthmus, each Post has held this dinner separately but, this year, the Department of Panama of the American Legion has taken over the arrangements and the dinner will mark a big get together event as well as a celebration of the signing of the armistice.

Saturday evening, at 7.30 o'clock the ceremony of unveiling the bronze tablet in memory of those from the Canal Zone who gave their lives in the big war, will take place at the head of the Prado in Balboa at the foot of the hill on which stands the Administration Building. Members of Elbert S. Waid Post Cristobal and Nathaniel J. Owen Post of Gatun together with many visitors will com[illegible] cific side by spe[illegible] part in this ceremony.

Nursery for Kiddies.

The committee has thoughtfully arranged for a nursery at the hotel where maids will be in attendance to take care of children who could not be left at home. As soon as the committee learned that some of the members were unable to attend because of small children for whose care arrangements could not be made, plans were immediately perfected to provide a nursery for these little ones. It is the earnest desire to have as near a hundred per cent attendance as is possible and nothing will be left undone to obtain this result.

The Century Club has notified the American Legion that their rooms will be open all day and night of November 11th. to members of the Legion and their friends. In fact, it will be American Legion Day at the Century Club. All the boys are invited to partake of the privileges of the Club.

The United Spanish War Veterans have been invited to participate and will [illegible] in front of the Balboa Fire [illegible] at 7.00 p.m. They will pass the memorial tablet as an organization, placing a tribute of flowers before it as they file past.

ANOTHER PANAMA BOOST

CRISTOBAL, Nov. 7.—In a recent number of "The [illegible]" there is an excellent article by Mr. A. Hyatt Verrill on the Indian life of Panama. It is given first place in this very excell[illegible] [illegible]can monthly and is profuse[ly] illustrated, with views of the Chucunaque River and other parts.

Mr. Verrill tells the usual story of his being the first white man to visit these parts, but he might have added that a party of Americans is making the trip during Thanksgiving, and that Mr. F. A. Mitchell-Hedges has probably the finest collection of photographs in existence of this country.

The publishers also announce a new book by Verrill called "Boys' Book of Whaling." It was not, but it might have been, dedicated to Captain Jack Weishofer and Captain Sterling P. Miller.

Theatrical Party On Board S. S. Colon.

Cable advice from the New York office of the Panama Railroad Company received yesterday by S. W. Heald states that the steamer Colon left New York at 3 o'clock Saturday afternoon and should reach Cristobal November 12. The Colon is coming via Port-au-Prince, Hayti, where she will stop to discharge cargo.

Miss Wickshire and the [illegible] Chance theatrical party consisting of 33 people, are aboard the Colon the cable states. Special passengers on the Colon are First Lieutenant Paul L. Harter of Fort Amador, and Mrs. Harter, Captain and Mrs. Ackerman, Lieutenant Christy and Miss Butler and two children.

The Colon is bringing 164 bags of mail for the Isthmus.

She came to Panama yesterday to lunch with Mr. and Mrs. C. H. Calhoun, who also had a number of friends to tea to meet the charming young artist.

It was hoped that Miss Paggi would be able to give a [illegible] but feeling that she has [illegible] consented to sing at the Red Cross Benefit at the National Theatre tonight. Her numbers "Una Voce Poco Fa", from Rossini's "Barber of Seville", and "La Perla del B[illegible]", an old French song, are excellently suited to her beautiful, lyric coloratura voice, and should prove a great treat to music lovers.

Miss Paggi had decided to leave the Bracale Company to join the Chicago Opera Company later in the season there, but at the insistent request of Empresario Bracale and a number of prominent Colombians she has consented to join the company again for the season of six weeks in Bogota. Five cablegrams were sent to the Colombian Minister in San Jose, Costa Rica, urging Miss Paggi to come to Bogota with Bracale, and remembering the cordial appreciation she had received here on previous occasions, she could not refuse. She will sail for Colombia from Cristobal tomorrow.

DAUGHTER BORN TO OLD GATUNITES NOW IN U. S.

Word has just reached the Isthmus announcing the birth of a daughter to Mr. and Mrs. R. W. Grabhorn, at the Deaconess Hospital, Milwaukee, Wisconsin, October 12.

ANCON AND BALBOA

The Balboa Bridge Club enjoyed a pleasant evening Monday regardless of the numbers being limited. The first prize, a very pretty bed spread, was won by Mrs. W. W. White, Mrs. Connor receiving a pair of bath towels for second prize.

Mr. Courtier held high score among gents, winning an umbrella. The second prize, a necktie and handkerchief went to Mr. Kahler.

The Service Club of Fort Amador did themselves proud on Hallowe'en and it is safe to say that no more beautiful hall was featured at any camp or place of amusement on the Isthmus, and great credit is due to the service men who did this beautiful work. Look which way you would, the decorations were unique and unusual, and displayed good taste and energy. All around the hall bales of hay furnished most inviting seats, and shocks of corn stalks were visible all about the walls; golden pumpkins claimed their rights with black cats; hobwitches, owls and all other tribe from the weird land of Hallowe'en. About a hundred and fifty were present, mostly in costume and masked, and under the glowing lights made a wonderful picture. Real trees from the jungle were used, being stripped of their green leaves and autumn foliage as if by magic taking their place. One could almost believe they were in the zone of U. S. A., so real was the rustic setting. We have not learned just to whom the credit for this work should be given, but feel sure that many willing hands must have been busy [illegible] boys who do this work [illegible] Mrs. Wm. Butler is matron of the Service Club and shows much interest in the entertainments and general amusements. A big [illegible] been planned for Thanksgiving Eve, to which the public is invited.

Letters have been received from Miss Marguerethe Geist (the Globe trotter), who during her stay on the Zone made many friends, all of whom will be glad to know that she has passed through the San Blas country safely, but did not enter the unexplored territory. However she endured many hardships, such as wading through rivers up to her waist for more than a day with [illegible] in the lead and on [illegible] with no food, but was treated with great kindness by the tribes, being served hot chocolate and food, and shown much respect, much of which she thinks was due to letters she carried from Mr. T. Gabriel Duque, of Panama, to the leaders and officials, to whom she wishes to extend great appreciation and thanks. Her last letter, dated Oct. 12th and written at Puerto Obaldia, states that she is at the last stop of the great Republic of Panama, and that herself and [illegible] Fritz are in the hospitable hands of some very nice American Navy boys "Radio operators" and a physician, the latter accompanied by his pleasant wife. Miss Geist states that she will [illegible] the 15th of Nov. She sent greetings and kindest regards to all friends. For the benefit of any who wish to write to Miss Geist, her address will be, "Miss Margeretha Geist, c/o Consulado Aleman, Bogota, Colombia," where she will receive mail.

A five cent stamp should be used.

Mrs. Marie Clark entertained most delightfully Saturday evening in honor of her son Horace. The dining room was cleared for dancing, the porches being set with cozy corner effects, which afforded splendid seating capacity. Bouquets of brilliant flowers added to the attractive rooms. Among the quaint decorations were bracket candlesticks bought in the Philippines by Mrs. Clarke while there, which were attached to the sidewalls, being over one hundred years old they were quite a novelty and very unique. The globes gave a very pretty glow to the room, also kept the candles from flickering. The young people enjoyed the novelty of dancing by their soft glow, all electric lights being turned off.

Most delicious refreshments were served, consisting of assorted sandwiches, fruit salad served in green cups, which were set off by crushed orange colored crepe paper doilies. This little attraction brought forth many comments of delight; nothing could have been prettier. The salad had as a crowning glory marshmallow whip tipped with a red cherry. Delicious cakes and home made candy kisses and almonds completed the menu. Mrs. Clark is a royal hostess and the charming evening was a joy to the young guests, who were Miss Winquist, Miss Gerrans, Miss Graff, Miss Wright, Miss Rathbone, Mr. George Winquist, Mr. Theo Knapp, Mr. Wallace Bain, Mr. Fred Newhard, Mr. Dudley Sanburg, Mr. Lyle Womack, Mr. and Mrs. Benz, Mrs. Howe, Mrs. Rathbone and Mrs. Winquist, Horace Clark and his mother Mrs. Marie Clark.

With the movies tonight: At Balboa Leah Baird in "Don't Doubt Your Wife". At Ancon, Dustin Farnum will be featured in "The Devil Within". At the Cecilia, Thomas Meighan in "A Prince There Was". At the Army and Navy "Y", Alice Joyce in "Slaves of Pride".

Fransen and Mr. Holzapfel.

The next regular meeting will be held on next Monday evening.

GOULASH

The remarks of "The Nation" concerning the American Legion, New Orleans, and Brother Jack Hilkene deserve a little more local publicity than San Cocho gave them in yesterday's paper. Here is what "The Nation" said:

"'Rum, rowdyism and riot' was one description of the Kansas City convention of the American Legion last year. This year the Legion met at New Orleans. As a prelude to the convention an injunction was issued against forty-odd alleged drinking places. But, the correspondent of the New York Times reports, the injunction is only a memory. . . . Now and then a policeman would suggest that the imbibing be accomplished in discreet fashion whereupon, as a rule, the legionaire would offer the policeman a drink. John Hilkene invited the delegates to meet at Panama next year. 'I can assure you,' he said, 'that we have no prohibition down there, and that Panama is almost as wet as this wonder city of New Orleans.'"

After this dry dinner at the Tivoli which the local chapter of the Legion is planning for Armistice Day seems more than ever unfortunate. It runs counter to the authentic Legion tradition, and if the news of it penetrates to the Great American Desert, it will spoil all of Jack's propaganda.

More details of the "Bisenti-Memory" incident have come to light. Bisenti, it seems, still belongs to a lady at Ancon and was entered without her knowledge. It is said that A. Williams who entered him at Juan Franco, got temporary possession on the Third by telling her that he wanted to show the pony to a prospective buyer. It may be assumed, therefore, that the change of name was intended to deceive the owner as well as the public. Such ingenuity deserves its reward. The Jockey Club, desiring to confer some suitable distinction on Mr. A. Williams, has issued to him a permanent invitation to keep away from the track, and the purse in last Friday's race has been awarded to Mr. H. Douglas, the owner of "Wild Life."

The October issue of the "Engineering News-Record" is ornamented by an erudite article from my pen on the Water Supply of the Panama Canal. As I have always found it extremely difficult to concentrate on anything as insipid as undiluted water, the writing of this article cost me great effort. In it I have attempted to show that we have enough water in sight to run the Canal for the next thirty years. If gentlemen will only learn to take their liquor straight instead of in the form of a highball or with an excessive chaser, our water supply might be made to last even longer than that.

Any Wynne-Wangers or Wang-Wynners who have not already sent in their nomination ballots to the F. E. U. should attend to this before the tenth of the month. Nominations close on that date. We expect a landslide, for this is undoubtedly a Wynne-Wang year. Get on the band wagon.

Joe Williams wants to match his "Ace of Trumps" against some of the thoroughbreds in a twelve furlong race. That might be a popular attraction, but what the public would really like to see is a race between Joe's Lizzie and the Toonerville Trolley that meets all the trains.

If you can believe Gerald Martin, the next issue of the "Pulse of Panama," which by the way, is dedicated to the American Legion, will be out on November 11th. It will contain cartoons of various celebrities, including President Porras, Governor Morrow and Fred Sill.

I heard yesterday from a lady in New York to whom I sent a copy of the first issue of the "Pulse." She wrote: "Your magazine came also this week. It is a feeble effort, isn't it? Some one once said, 'Of all sad words of tongue or pen, the saddest are these, Vol. 1, No. 1.'" They are sort of stuck up in New York, and don't know how to appreciate small town stuff.

HOW IS THIS FOR A SPORTING RECORD?

There are records and records but when it comes to increasing the population, Old Man Scott and his wife have established one that ought to stand for some time. The following account is clipped from a States paper:

LAPORTE, Ind., Oct. 25. Mr. and Mrs. Frank Scott today laid claim to the record family of the Middle West in ten years of married life, announcing that in that time three sets of triplets and two sets of twins, all boys, had been born to them. The Scotts, with their thirteen living children boarded a train today bound for the West in search of land to provide sustenance and employment for the family.

When the mother proffered one fare for herself, as the children are all under five years of age, the conductor remarked:

"We can't carry a Sunday School class, madam."

"But they are my children," she replied.

Then the family Bible was produced from the luggage and it showed there were Ashbel, Archer and Austin, each four and a half years old; Arthur and Arnold, each three and a half; Alfred, Albert and Adolph, each eighteen months and Abel and Abner, each six months.

The two Chilean thoroughbred mares [illegible] and [illegible] are offered for sale by their owner, CARLOS DE LA CERDA.

MYSTERIOUS RED CROSS SHOW

Our star reporter left the following note on the editor's desk last night:

"Wednesday night the big Red Cross show is on at the National. So far, I have hunted all over Hades to get hold of one of the programs, but they are scarcer than dental parlors operated exclusively for roosters. Will have another try, however, and expect to be down with it to-night if I can find one. Those Red Cross guys are the cat's vest when it comes to boosting their show. Even a mixed jury would acquit them of advertising. They talk a lot and don't say nothing. They ask me to advertise the show for them and expect me to guess what the program will be after being a free swinging liar for the past week writing imaginary interviews about their damned show. They win the Peruvian nutmeg grater."

From the above we gather at least, that there will be a show, and that to-night is the night.

TOMMY BURNS GROOMING NEW "WHITE HOPE"

LONDON, Nov. 7. Tommy Burns, ex-heavyweight champion, claims to have found a new "white hope" in Robert Read, a gigantic Irish youth who has lived in Scotland since he was 12 years old. Read is now 21. He is 6 feet 4½ inches tall, weighs nearly 200 pounds, and has a reach of 81½ inches, seven and one-half inches more than Dempsey's.

In a photograph sent to The Daily Mail, the British veteran's find towers above him; Burns' head reaches only to Read's shoulders. Read has a good appearance, an athletic build, and is gaining fight experience in the rough and tumble life of the English travelling boxing show, a familiar sight at any small town carnival or country fair.

Burns says that he has tried Read out and that he is not disappointed in him. "Last year Read won the amateur western district championship in Scotland," said Burns. "He is a quiet gentlemanly boy and of course, he needs a lot of experience. Only time can tell whether he will develop into a real champion. The experience with the travelling boxing show, which he joined after winning the amateur championship, certainly won't do him any harm."

RACES NEXT SUNDAY

The Panama Jockey Club is arranging a card for next Sunday. It was intended originally to hold a meet on Saturday, Armistice Day as well, but since it is understood that Armistice Day will not be observed as a holiday in the Canal Zone, this has been abandoned.

It is probable that several good thoroughbreds will be entered next Sunday for the first time on the Isthmus, including Mr. de la Cerda's "Portoalegre," which he has renamed "El Chileno." Three of Mr. de la Cerda's horses, "La Fumee," "Infierno" and "Bambalina" have been brought by Mr. de la Paz, who is taking them to Costa Rica. In addition to "El Chileno," Mr. de la Cerda still owns "Sonrisa."

It is probable that the program for Sunday will be ready for publication to-morrow.

PUG PARAGRAPHS

Commenting on Kid Kelly's request for a return match, Panama Carpentier told the Sporting Editor of the Star and Herald that he would be glad to meet Kelly again at any time provided the latter will make 118 pounds. In the meantime Panama Carpentier is matched with Kid Gallardo at the Excelsior for next Saturday night. Gallardo has a decision over Kid Coffon to his credit, and he is reported to have done well in Peru, where, among other achievements, he fought several draws with Troncoso.

At this same show next Saturday night the fans will have an opportunity to get a line on Sailor S. O. Herwick and Sailor Lusser, both of the "Cleveland," who have challenged Ramon Arosemena and Jose Lombardo, respectively. On Saturday, Herwick will be matched against Soldier Sloe, and Lusser with Jose Ramos. According to the "Diario de Panama," if they win, they will be signed up at once with Ramon and Jose. This latter is important, if true.

The majority of the fans who witnessed the Solomon-Brathwaite fight last Sunday will probably agree that Solomon is now ripe to meet Jim Briggs. The sooner they sign articles, the better.

The Dancing Ghost wants a fight with Kid Papito. Arrangements can be made with his manager, N. S. Alende, c/o Hotel Tivoli.

PRINCE PROVIDES NEW VERNACULAR FOR GOLFERS

LONDON, Nov. 7. The Prince of Wales established another great bond of sympathy with thousands of his countrymen recently when he duffed a shot that was heard around the golfer's world. It happened the latter part of September at St. Andrew's as he was "playing himself in" as captain of the Royal and Ancient Golf Club.

Today thousands of duffers at golf are rejoicing at the enrichment of the golfing vernacular by a phrase used on a course near London, shortly after the news had been received of the Prince's ordeal at St. Andrews. A player sclaffed his shot and remarked: "Ah! that was a Prince of Wales!"

This phrase is likely to be generally applied to a drive which moves a considerable amount of turf as well as the golf ball.

MOST PITIFUL SIGHT IN LIFE

is a man or woman who has no "will-power" as a result of nerve force exhaustion

All the physical suffering which may be caused by nervous irritability, headaches, backaches, indigestion, heart palpitation, etc., as a result of nerve force exhaustion, are nothing as compared with its awful effects upon the mind and "will power."

The most pitiful sight in life is a man or woman who has "no will"—who has noble impulses and desires but not enough "will power" to carry them through. The memory also fails, the judgment is bad and everything therefore seems to go wrong.

In such cases, do not take mere stimulating medicines nor narcotic drugs which only further injure your delicate nervous system, but what you need is something to put more nerve force into your nerves and more iron into your blood to help make new nerve force with which to feed your starving nerve cells. This is most effectively accomplished by the free use of Nuxated Iron. This valuable product contains the principal chemical constituent of active living nerve force in a form which most resembles that in the brain and nerve cells of man. It also contains strength-giving organic iron for the blood and may therefore be said to be both a blood and a nerve food. Over 4,000,000 people are using it annually. Satisfactory results are guaranteed to every purchaser or the manufacturers will refund your money. Beware of substitutes. Look for the word "Nuxated" on every package. Sold by all druggists.

PACIFIC ENTRANCE OF CANAL RID OF BIG 'GATOR

An alligator which had been giving much trouble to the bathers on the Pacific side of the Canal, was [illegible] the other day by members of the crew of the U. S. S. Cleveland, basking in the sun at a distance of several hundred yards. One of the Cleveland's expert riflemen, a marine sergeant, J. C. Sydenstricker, took deliberate aim and fired. Apparently the point of impact, the 'gator's brain must have been the most vital spot for the saurian just wig wagged three times with his tail and rolled over into the water.

This is to be considered a very good shot but it is not surprising that it was so in so much as ninety-four per cent. of the Cleveland's crew qualified as marksmen at the rifle range, Guantanamo Bay, Cuba.

The Cleveland is commanded by Captain J. K. Taussig, U. S. Navy, who will be remembered as being the Division Commander of the first American destroyers to reach Queenstown in the last war and when asked by Sir Lewis Bayley when he would be ready to chase submarines, replied: "We are ready now."

AQUATIC MEET IN LAGOON CITY

Fourteenth Infantry Has Gala Time In Panama Canal—Physical Director Homer Baker Planned Another Successful Gathering

CRISTOBAL, Nov. 7. The Fourteenth Infantry held an aquatic meet which was the first of its kind ever held in the Panama Canal. Because of the swimming arena being unfinished at Gatun Lake, Col. Wm. Goodale decided to conduct the meet in one of the chambers of the great Gatun Locks of which Mr. E. D. Stilwell is superintendent.

The idea of the monster aquatic meet in the locks was at the suggestion of Homer Baker, Atlantic side physical director for the Bureau of clubs and playgrounds. The meet was directed splendidly by Captain H. K. Kupfer and other army officers.

The meet was by far the greatest ever held in Panama from the competitive point of view. Five hundred soldiers started in various events, and close to 2,000 people witnessed the meet from the great concrete sides and massive gates of America's greatest waterway. The chambers of the Panama Canal locks are 110 feet wide and 1,000 feet long, and makes an ideal swimming pool. It was not necessary to stop the sports on one occasion to let a ship pass through the locks. However three northbound ships passed through the opposite chambers.

All Showed Speed

No expert could not be amazed at the speed the soldiers displayed, but they did well, taking in consideration that most of them had only recently learned to swim. The Commander of the Fourteenth Infantry intends to have aquatic meets regularly for his men.

FIGHTS SATURDAY NIGHT

A good fight program has been arranged for Saturday night, in which Young Carpentier, who defeated Kid Kelly and was proclaimed bantamweight champion, will be pitted against one of the best native bantams, Young Gallardo.

Gallardo was a member of the Peru expedition of native fighters and is anxious to show how much he has progressed. His showing in Peru judging by Press reports are creditable and a great scrap is expected by all.

Again we will have the opportunity to see a rugged hard hitting slugger against a clever and shifty boxer.

Young Carpentier is at present a favorite on account of his recent showing when he surprised his friends by putting up one of the brainest and coolest fights ever seen on the Isthmus.

Gallardo has been training hard ever since he got back so as to have a chance to fight the topnotchers of his division, and now that the chance has been offered he will undoubtedly go in and put up a hard fight. He is known as a fighter from bell to bell and he promises to be in there trying for the knockout till the end.

The promoters have arranged to have two semi-finals in which two new arrivals from the U. S. S. Cleveland will show their wares so as to receive permission to fight in a main event if their abilities deserve it.

In the first eight round event Sailor Herwick, who has the intention of meeting Ramon Arosemena for the lightweight title, will meet Soldier Sl[illegible]e, from Fort Clayton, and who made a host of friends by his gameness displayed in his last fight with Joe Salgado at the Bull Ring.

The other eight round semi final will be between a very promising local featherweight who is meeting success in all his fights and Sailor Johnnie Lussier, who also hails from the Cleveland and would like to accomplish what Sailor Wanger of this same boat failed to do.

Sailor Johnnie Lussier has the intention of fighting José Lombardo, the present featherweight champion, but as there is a just rule of the Panama Boxing Commission where he has to show his wares in a semi-final before he can be entitled to a main go he has gladly consented.

The fight fans of the Pacific side will have a chance to see if these men are really entitled to fight for the title now held by these two great fighters and will also witness great fights on a great day.

FIRE SCARE Y'DAY WORK OF FIRE BUG OFFICIALS BELIEVE

Fact That Blaze In House No. 20, West 12th Street, Started Among Oil Soaked Rags Leads Firemen To Suspect Incendiary's Work

A fire of probable incendiary origen was discovered in the entrance to No. 20 West 12th street yesterday afternoon at about 3.30.

The firemen who were almost immediately on the scene had but little difficulty in extinguishing the blaze and found that a number of oil or gasoline soaked burlap bags had been placed in the closet under the stairway leading to the second floor.

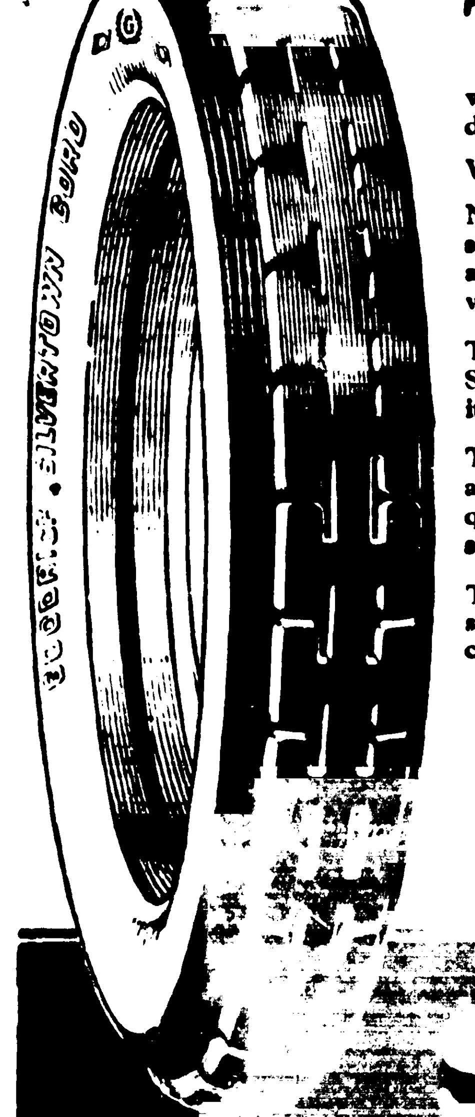
To the rear of the closet there is a solid door which affords access to the patio, the front is protected by a lattice door, secure by a padlock which it appears was broken from its fastenings.

The fire authorities assumed that some one had descended the stairs, forced the lattice door set fire to the bags and effected his escape by retracing his steps. There appears to be no reason why the act could not have been committed from the street provided the main door was open as usual.

Pedro Egea, an occupant of the house was arrested on suspicion but subsequently discharged by the Bureau of Safety for lack of evidence or motive and because of the good character given by the owner of the building. The Bureau admits the possibility of spontaneous combustion but will continue its arson investigation.

The house adjoins the Imperial Ice Cream Parlors, is a part of the Aurora Theatre and the property of Ricardo Arias. There was but little damage from fire or water.

The Most Widely Copied Tread in America



The Silvertown safety tread is the most widely copied anti-skid device. The thick rib, the cross bars, the fingers—in some way or other you will see them suggested in dozens of instances.

Why?

Not only because the *principle of the tread* is scientific and has proved itself over and over and over, but because that tread is the outward evidence and sign manual of *quality*.

There is a *quality* designed and built into Silvertown Cord Tires which cannot be imitated—except in appearance.

There is no such thing as imitating service and satisfaction. These are *fundamentals* of quality and value which must prove themselves "in the long run."

These form the foundation upon which the splendid reputation of Silvertowns has been created and maintained.

LA ALOCUCION DEL DR. B. PORRAS A LOS NIÑOS EL DIA 3 DE NOVIEMBRE

LA ALOCUCION HA SIDO MUY ELOGIADA POR CUANTOS LA ESCUCHARON

El problema de la felicidad humana está en la educación

He aquí la hermosa alocución que el Excmo. señor Presidente de la República, doctor Belisario Porras, dirigió a los niños de la Capital el pasado 3 de Noviembre. La publicamos como una nota simpática que debe constar en nuestra hoja y que seguramente han de saborear nuestros lectores:

Niños! Con qué viva simpatía me dirijo a vosotros en un día como hoy, tan memorable para los que en esta tierra bendecida por Dios se meció su cuna arrullada por el rumor de todos los vientos y por el vocerío de los dos grandes océanos que besan amorosos sus costas y en cuyas ondas nos llegan los anhelos, los estímulos, las palpitaciones, las alegrías y los triunfos de la civilización de todos los pueblos del globo.

Hoy es, en efecto, el día de la Patria y nos congregamos en esta Plaza de la Independencia a conmemorar el suceso imperecedero de la emancipación que hizo de nuestra vieja comarca, que sintió la mirada de Colón y las pisadas férreas de Balboa, de Almagro y de Pizarro, un país, todo un país libre, independiente y soberano. Vengamos en tal día en todos los aniversarios, a jurar solemnemente que lo mantendremos así —así como lo tenemos hoy— libre, independiente y soberano!

Todos nos alegramos de verlos oh niños! de verlos desfilar por nuestras calles —ágiles, contentos y risueños, firmes y apuestos como el otro cantar, en inmenso coro nuestro himno, cuya música inmortal, llena de dulzura y de ritmos, parece cadenciosa [illegible] ... los trinos de [illegible] ... al trabajo redentor a los esfuerzos pacíficos al progreso que da la abundancia y a la libertad que eleva.

... Todos os amamos, oh niños! Todos ... [illegible] ... divino, dulce maestro de Jerusalén: "Vivid y vivid a ... otros" ... [illegible]

[illegible]

Cómo me pesar cuál ha pesado muchos, cuán melancólico mundo es ... [illegible]

Vosotros sois, oh niños! los futuros ciudadanos. ... [illegible] ... PARAISO PERDIDO "la infancia muestra al hombre como la mañana al día." Por eso la educación debe comenzar con la vida ... [illegible]

El problema de la felicidad humana ... [illegible]

... viarse, ni retardarse, ni perder tiempo, sino llegar sano y salvo y pronto, y ese camino es el camino RECTO, el más corto, el más amplio y el más seguro.

Rectitud es lo que principalmente necesita el hombre para ser feliz. La gran ciencia es la que enseña eso: ser recto y lo que se deriva de la rectitud: ser honrado y probo, sincero y leal. Debemos creer lo que han dicho los grandes pensadores y los grandes educadores, que la educación no consiste en enseñar gente, niños y jóvenes a conocer lo que no conocen: geografía y gramática, aritmética, francés e inglés, álgebra y geometría, física y química, sino enseñar gente, niños y jóvenes a conducirse como no saben conducirse, a andar calmadamente, concienzudamente por el camino recto, el más corto y el más amplio y el más seguro.

Educadores! Cómo enseñarles a los niños esa rectitud y esa probidad y esa disciplina del deber y ese honor? Yo lo he visto en casa. Una mañana experimenté gran sorpresa cuando advertí al desayuno. Mi esposa, que me ve siempre antes, había venido ordenando a mis hijos a medida que entraban al comedor que me saludaran y uno a uno el niño y la niñita se acercaban obedeciendo el precepto a besarme ... [illegible] ... denaño así; pero cuando llegó a habitar con nosotros mi suegra, mi esposa solía levantarse a saludarla besándola con amor, y mis hijos, sin que nadie lo ordenara, se levantaban del propio modo a saludar a su abuela besándola con igual cariño. Descubrimos así mi esposa y yo que la orden el precepto de ella no valía nada ante su ejemplo, y desde entonces no ha tenido ella que mandar nunca más a los niños que me besen. Callada... se levanta ella y me saluda y los niños hacen otro tanto. Séneca y Cicerón y Franklin y Channing, Horacio Mann y Spencer lo dicen: "el ejemplo es de más fuerza que el precepto." "Sed modelo para los otros y todo irá ... [illegible] ... con vuestra vida que con vuestros consejos." "La raíz no predica mejor que la hormiga, y ella no habla." "El precepto es una instrucción escrita en la arena de la playa, que la ola de la marea borra y el ejemplo es ... [illegible] ... en la roca y la lección de él nunca se pierde." En fin, el gran educador Samuel Smiles, el autor del CARACTER y del DEBER, dice sin haber plagiado a Séneca ni a Cicerón que el ejemplo enseña más que el precepto, que es el modelador del carácter del hombre y de la mujer, y que dar un alto ejemplo es el más rico legado que un hombre puede dejar de tras de sí.

Yo no puedo olvidar, oh educadores! lo que uno de vosotros dijo en una ocasión feliz, en un banquete dado en honor de uno de nuestros conciudadanos que había servido mucho, con tesón, en alto puesto al país. Le pidieron al Profesor que hablara en honor del huésped que se festejaba y dijo: "Me llego con placer, me levanto para hablar en honor de este hombre, porque yo soy un Profesor y se honra hoy en esta fiesta a quien es un Profesor también; un Profesor que no enseña en las escuelas con lápiz en mano sino en la plaza pública con el ejemplo. Es un Profesor de trabajo, de esfuerzos, de altos ideales, de constancia y de grandes hechos."

El ejemplo! dadlo a los niños oh educadores! Cada ejemplo se infiltra en nosotros como una sugestión mágica que nos habla en secreto, y nos dice: Oye! si lo quieres y tienes lo ... [illegible] ... bellos ideales producir tales maravillas.

Jóvenes alumnos y señores todos! Para conservar esta Patria amada y bendecida por Dios, para fortalecerla y hacerla rica y dichosa, fundemos escuelas que sean inspiradas y gobernadas con el buen ejemplo, que esas escuelas marcarán, como decía el gran educacionista norteamericano Horacio Mann, las líneas de fortificaciones de la República. El padre de la Filosofía, el gran Aristóteles, lo había dicho antes: Todos los que han meditado en el arte de gobernar a la humanidad están convencidos de que la suerte de los imperios depende de la educación de los jóvenes. La educación de los jóvenes es en realidad la garantía más segura del país. Rodeemos los hogares de niños y de jóvenes con sentimientos bien disciplinados, con razones sustanciales, inspirados en motivos verdaderos y dignos; con profundo sentimiento religioso y con una sumisión a toda prueba, serán los ... [illegible] ... del nuestro progreso y los guardianes celosos de nuestra dicha y de nuestra gloria.

LOS ALIADOS TOMARAN MEDIDAS PARA QUE SE MANTENGA EL ORDEN EN CONSTANTINOPLA

UN PERIODISTA ES AHORCADO POR LOS NACIONALISTAS EN CONSTANTINOPLA

Las aduanas quedarán regidas por las autoridades británicas

París, Noviembre 7. Se ha anunciado que los altos comisarios aliados en Constantinopla han pedido a sus gobiernos autorización para tomar todas las medidas que sean necesarias para el mantenimiento del orden en Constantinopla. Se dice que los altos comisarios llegarán al extremo de declarar la ley marcial si lo consideran necesario.

Conferencia

Constantinopla, Noviembre 7. Los altos comisarios aliados conferenciaron hoy con Rafet Pachá, el representante del Gobierno de Angora en Constantinopla; discutieron la nueva crisis que se ha desarrollado y durante la discusión los representantes aliados manifestaron francamente su intención de conservar la autoridad suprema en Constantinopla hasta que se haga formal entrega de los poderes a los turcos.

Rafet Pachá declaró que no podría aceptar el control aliado en ninguna forma, pero prometió pedir instrucciones al Gobierno de Angora, después de lo cual se suspendió la discusión sin haber llegado a una decisión.

Constantinopla, Noviembre 7. Las autoridades británicas dieron órdenes para que se cierre la aduana y anunciaron que desde el ... continuarán el servicio de las aduanas rigiéndose por el viejo convenio de aduanas. Se cree que esto provocará la oposición de los kemalistas, quienes es muy probable que establezcan su propio régimen de aduanas.

Se retiran los ingleses

Constantinopla, Noviembre 7. El cuartel general nacionalista anuncia que los británicos se están retirando de Mosel, en el Norte de Mesopotamia, y que los kemalistas están entrando a la región evacuada.

Un periodista ahorcado

Constantinopla, Noviembre 7. Se informa que el periodista antinacionalista Ali Kemal Bey, Editor del periódico Sabah, fue ahorcado en Ismid después de haber sido ... de una pandilla enfurecida que quería lincharlo.

Este informe ha causado gran alarma, pues al tener conocimiento de que Kemal Bey había sido sentenciado a muerte los comisarios aliados notificaron a Rafet Pachá, el representante del Gobierno de Angora, que se les daba a los nacionalistas 48 horas para que pusieran en libertad al periodista sentenciado.

El orden

Constantinopla, Noviembre 7. Los altos comisarios aliados han recibido instrucciones de sus gobiernos para que tomen las medidas que consideren necesarias para mantener el orden en Constantinopla, aun al extremo de declarar la ley marcial.

NOBLE GESTO EN PRO DE LOS BOMBEROS

EL SR. OSWALDO CHAPMAN RECONOCE LA BONDAD DE UN SERVICIO

El señor Oswaldo Chapman, en nombre de Chapman y Cía. Ltda. envió al Comandante del Cuerpo de Bomberos señor Juan Antonio Guizado, una atenta carta con un cheque de B. 25.00 para recompensar el valor de dos bomberos. El gesto de Chapman y Cía. Ltda. es un gesto nobilísimo que debería ser imitado. Por otro lado los bomberos lo merecen por su espíritu realmente altruista y heroico.

He aquí la carta aludida:

Panamá, 7 de Noviembre, 1922.
Señor Comandante Primer Jefe del Cuerpo de Bomberos de Panamá
Presente
Señor:

Como un acto de agradecimiento al Benemérito Cuerpo de Bomberos y como estímulo para los que en momentos difíciles saben exponer su vida por la salvación de propiedades ajenas, le incluimos nuestro cheque número 4010 por B. 25.00 para que usted en nuestro nombre los distribuya, con suma mayor al primero, entre los bomberos Manuel Dutary y Rufino Azprúa, que sobrellevando el peligro el primero, sacó de nuestra Farmacia el domingo ... un tanque de Bisulfuro de Carbón ardiendo, que podría hacer explosión en esos momentos, tirándolo a la calle, salvando de ese modo de un fuego seguro a nuestra farmacia y el segundo por haber sacado la parte que contenía también Bisulfuro ardiendo.

Aprovechamos esta oportunidad para felicitar al Cuerpo de Bomberos en general, que siempre sabe cumplir con su deber, pues a pesar del fuego y del mucho humo que había, no hizo uso de su manguera sino que apagó la candela con extinguidores químicos, logrando así evitar la ruina de nuestro negocio que de una u otra manera habría sido casi completa.

De usted atentos y S. S.,
Chapman y Cía. Ltda.
Fdo. Oswaldo Chapman.

Las peleas del Sábado

Young Carpentier, quien hace pocos días logró ganarle a Kid Kelly, quien era considerado como el mejor bantam weight del Istmo, se batirá de nuevo el próximo sábado 11 del presente en un encuentro de diez rounds con Young Gallardo, boxeador bantam de rara habilidad.

Young Gallardo uno de los boxeadores panameños que hicieron la excursión al Perú, está deseoso de presentarse ante el público de esta ciudad y demostrar lo mucho que ha progresado en los meses que ha estado fuera. Se le ha presentado la ocasión de batirse con el rey de su división y entrará al ring con el firme propósito de salir avante en su empresa bastante ardua.

Actualmente Panamá Carpentier es favorito ante los fanáticos. Sus habilidades desplegadas en el último encuentro en que tomó parte y en el cual sorprendió a los concurrentes lo han colocado en puesto envidiable en el corazón de sus simpatizadores.

Se presenta de nuevo un boxeador de ciencia y calma contra un peleador en todo sentido de la palabra, es verdad que Alfarito usa su cabeza en todo tiempo de la pelea y que boxea como un experimentado boxeador, pero está por ver si puede contrarrestar los ataques incesantes de Gallardo.

Young Gallardo durante su estadía en Lima demostró tener habilidades de boxeador, sus encuentros con Troncoso de los cuales la prensa de esa ciudad han comentado con brillantes han probado que es de los valientes y que posee una resistencia extraordinaria.

Para semi finales se han arreglado dos peleas, la primera será entre Sailor K. O. Herwick, del Cleveland, quien se dice ha venido al Istmo con el único objeto de pelear con Ramón Arosemena actual campeón de la división de peso liviano. Herwick quiere, antes de encontrarse con nuestro Kid Mac Coy demostrar que tiene habilidades suficientes para batirse con él, y ha aceptado presentarse en un semi final con Soldier Sloe, quien no hace mucho tiempo se ganó la admiración general en su encuentro con Joe Salgado en la Plaza de Toros, será de ocho rounds.

El otro semi final es entre otro marino del Cleveland quien parece ha querido sustituir a Sailor Wanger en la pelea de revancha con el ídolo nacional José Lombardo.

Se nombre es Sailor Johnie Lussler, y encontrándose en iguales condiciones que su compañero Herwick se presentará en un semi final antes de atacar a nuestro campeón peso pluma.

El contendor escogido a ver si reune las cualidades suficientes para un encuentro principal, es José Ramos, conocido por Caballito y quien ha estado derrotando a todos sus contenedores con relativa facilidad.

Ramos ha demostrado ya que sabe pelear y que tiene un punch bastante respetable, su apelear con los soldados de la Zona del Canal, han demostrado esto, pues el que no lo ha ganado por K. O. lo ha tumbado varias veces dejándose la victoria por decisión.

El sábado veremos como resultan estos dos marineros en caso que así sea muy pronto tendremos los encuentros de Arosemena con Herwick y Lombardo con Lussler, respectivamente.

Prosigue la audiencia en el caso de los ex-pesquisas

Ayer fue reanudada la audiencia ... bien conocido proceso ... algunos miembros de la ... de Investigaciones y de la ... audiencia que ... mucha espera, ... defensores y procesados ... a principiarse a las tres y cuarenta minutos de la tarde. Los ... Manuel ...

... por el ... y además comunicó ... de Investigaciones que quedaban incursos en veinticuatro horas de arresto.

El señor Secretario dió lectura al acta de la penúltima sesión, la que fue aprobada y firmada previa tres observaciones que le fueron hechas.

En virtud de la no asistencia de los defensores Valdés (Leopoldo y Antonio Alberto) y López el señor Juez nombró a los Licenciados Velarde y Fábrega para que se encargaran, durante dicha sesión, de la defensa de los procesados Bermúdez, Paredes, Cock, José María ..., ..., Máximo Vásquez y Luis Leo.

El único testimonio de la tarde fue el del agente de policía Remigio Rivera quien fue interrogado por el Licenciado Ferrari en relación con una declaración no jurada que rindió ante el Capitán Bermúdez y además para averiguar lo cierto que hubiera en los dichos del Subteniente número 38 y los agentes 231, 318 y 40. Rivera, después de dar algunas explicaciones relacionadas con los puntos de su declaración, dijo que la rendida ante el Capitán Bermúdez era en gran parte no verídica pues lo que él dice allí lo motivó la oferta que le hizo el Capitán Bermúdez de una plaza de Subteniente en la Policía Nacional y además dijo que Bermúdez había ejercido presión para dicha declaración, lo cual le comunicó a algunos de sus camaradas a quienes además manifestó que en la audiencia daría explicaciones.

Siendo las cinco de la tarde el señor Juez suspendió la sesión para hoy a las ocho de la mañana.

AL REDEDOR DE UNA QUINTILLA DEL GRAN POETA JULIO FLOREZ

... de la bien conocida quintilla que en días pasados publicamos en este diario y que se ha achacado a Julio Flórez como su primera producción poética, trae el cronista Alonso Ballesteros de Medellín una historieta de la cual recortamos lo siguiente:

La quintilla en verdad, es ingeniosa pero de preciosa no tiene nada, y viene a ser casi una ofensa atribuírsela así de adulterada y enmendada al querido poeta Julio Flórez. La culpa la tiene el autor de la mixtificación, porque los versos no son así, ni son de Flórez, ni fué él el protagonista del asunto. El origen de estos versos es el que voy a referir:

Valerio Escobar era estudiante de la Universidad de Antioquia, cuando Julio Flórez no había nacido. Era Escobar un muchacho inteligente pero travieso y de muy poca aplicación. Lo castigaron una vez por cualquier trastada de las que acostumbraba, y lo condenaron a dormir en una pieza que servía de calabozo y en que estaban los útiles de Geografía. Al ver que no le levantaron la clausura, y muerto de sueño, resolvió acostarse en el suelo y arregló una cama, como pudo, con los mapas que allí había. Al día siguiente, al levantarse, escribió en el tablero los siguientes versos bien distintos como se verá, y mucho mejores que la pobre quintilla que el respectivo le atribuye a Julio Flórez:

La América del Sur tuve por techo
y la del Norte fue mi cobertor,
reclinó mi cabeza en el Atlántico
y arrullóme, al dormir, el dulce (cántico)
de las olas del Niágara al rumor.
Yo las tablas pisé del Aconcagua
y sus rugidos íntimos oí;
la lumbre del Pichincha fue mi lumbre
y la sublime incandescente cumbre
del Chimborazo majestuoso vi.
Y al ver mis pies y brazos descubiertos
sentí inmensas fruiciones de placer,
porque ese mundo que Colón
y que a Fernando un Papa
sólo a mí no me pudo contener.

Alonso Ballesteros.

Juan Corona debuta mañana en el Nacional

UN GRAN ARTISTA

¿Cuándo debuta Juan Corona? Nos ha preguntado ayer un buen amigo nuestro recién llegado de Caracas que admiró al artista por aquellas tierras.

El caballero habla, y no acaba, de Juan Corona, el director de **Los Tres Bemoles**.

Como maquietista, como filarmónico, como artista, en fin enciclopédico, formidable.

Juan Corona es algo excepcional.

Nosotros hemos podido satisfacer la curiosidad de nuestro amigo. Juan Corona debuta mañana en el Teatro Nacional.

Todo está dispuesto y el artista preparado para hacer demostración de sus habilidades.

Juan Corona triunfará en el Nacional. Se le aplaudirá a rabiar. Es un artista fino, selecto, sin chabacanerías ni gestos de mal gusto, es un legítimo artista para paladares delicados.

El día de su debut lo demostrará.

El HH. DD. Vidal

...e, de notable conveniencia para la patria; pide voto afirmativo.

Dutari se muestra de acuerdo con la proposición Vidal; pide voto afirmativo.

Se aprueba.

Antes de que se de cumplimiento a la proposición Vidal,

Martínez propone: Suspéndase lo que se ... hasta la sesión de mañana y cítese al señor Secretario de Hacienda y Tesoro para que tome parte en la discusión, expresa el fin de su proposición dice que nada se pierde en discutir el asunto en la sesión de hoy estando presente el señor Secretario de Hacienda y Tesoro, considera que no es grande la urgencia que hay para legislar sobre el particular.

Arias no se muestra de acuerdo con la proposición presentada; dice que el proyecto sobre el cual se va a legislar entraña reformas de carácter administrativo, considera que nada, absolutamente nada tiene que hacer la Secretaría de Hacienda y Tesoro con esta fase del Banco Nacional; agrega que si fuera justificada la conveniencia de la proposición daría voto afirmativo, pero está seguro que la presencia del señor Secretario de Hacienda y Tesoro en nada ayudaría el fin del proyecto.

Valdés considera que la proposición trae demora para la discusión del proyecto, ruega se le dé voto negativo.

Vidal manifiesta que su propósito al presentar su proposición era de que se le diese segundo debate a dicho proyecto; dice que el criterio de la Asamblea debe estar perfectamente de acuerdo con la Ley; agrega que el proyecto solamente envuelve intereses nacionales.

Martínez dice que no ve la razón por la cual no se pueda esperar hasta mañana para discutir el asunto en presencia del señor Secretario de Hacienda y Tesoro; no ve esa urgente necesidad; no quiere decir con esto que serán sus ideas las que prevalecerán sobre los HH. DD. de una manera decisiva. El (Secretario de Hacienda y Tesoro), al igual que sus colegas de la H. Cámara ayudarán a ilustrar el debate; no desea que este proyecto corra la misma suerte que corrió el proyecto sobre los seis millones de la posteridad cuyo autor es el D. Dutari de haber sido vetado por el Poder Ejecutivo, y esto tal vez se hubiera evitado si en la tarde que se dispuso darle tercer debate se hubiera hecho comparecer al recinto al Secretario de Hacienda y Tesoro.

Vidal dice que de lo expuesto por Martínez se desprende que la Asamblea no puede hacer labor meritoria sin la presencia de los Secretarios de Estado; de ahí mismo se deduce también que el proyecto correrá igual suerte que el del Dr. Dutari; dice que el Diputado Martínez manifestó además que él le pidió al Dr. Dutari que hiciera comparecer al recinto de la Asamblea al Secretario de Hacienda y Tesoro en la tarde en que se consideró en tercer debate el proyecto de Ley sobre los seis millones de la posteridad.

Martínez niega haber emitido tal concepto.

Vidal: 'entonces el D. Martínez se contradice a sí mismo.'

Dutari hace aclaraciones sobre lo sucedido entre él y Martínez referente a su proyecto de Ley, dice que él, (Dutari) le manifestó a Martínez que el proyecto había sido vetado porque no había sido presentado por el Presidente Porras o por el Secretario de Estado Morales, considera que el proyecto sobre el decreto del artículo 138 de la Constitución es el de mayor importancia que se haya podido presentar hasta ahora en dicha Asamblea.

Papi Alzpuru manifiesta que únicamente dará su voto afirmativo a la proposición que se discute porque considera que los DD. que integran la mayoría se hallan incapacitados para legislar sobre el particular ... se hace necesario que los Secretarios de Estado vengan hacerlo.

Martínez dice que él reconoce en su colega Papi Alzpuru competencia para legislar sobre tal asunto; hace notar ... su impopularidad en la Provincia de Colón; hace hincapié de que Papi Alzpuru adolece de grandes defectos políticos, ayer nada más pertenecía a la Mayoría y hoy a la Minoría; a una ... que no necesita de sus servicios.

... Martínez enérgicamente dice que ... los seis años que tiene de ser ... tratado de conseguir favores ... y que ojalá el D. Vidal pue... decir lo mismo; continúa su peroración refiriéndose a Vidal.

Vidal le interpela diciendo que falta a la verdad al decir que él haya tratado de obtener favores y honores, protesta enérgicamente.

Martínez continúa en peroración ....

En las barras se habla en alta voz no podemos oír las expresiones de Martínez.

Vidal continúa protestando y grita 'Atrevido, desmiéntase de lo dicho'.

Las barras vociferan estrepitosamente....

Se forma el alboroto.

Vidal accionando se acerca cada vez más hacia Martínez.... Toma uno de los tinteros de la Mesa Presidencial y lo arroja a Martínez; toma otro y otro.

Arias, Alvarado y Arjona contienen a Vidal.

Los demás DD. se levantan de sus asientos.

Algunos están nerviosos.

... está en su apogeo.

... a la Presidencia suspende ... para entenderse con Martínez.

Pueden suspender la sesión a las 6 p. m. ... todos intervienen en el asunto ... calman los ánimos.

--HIPICAS--

El inteligente y laborioso Secretario del Jockey Club, don Enrique de la Guardia, ha tenido la amabilidad de informarnos de que ayer a medio día se reunió la Junta Directiva de dicho Club y dispuso separar en grupos los caballos importados de carrera actualmente inscritos.

Se acordó también fijarle peso a cada animal a fin de que a partir del próximo "meeting" funcione de manera automática el "handicap" convenido, a saber:

Canchas de 4, 5 y 6 furlongs

5 libras de aumento al ganador; 3 libras de reducción al segundo y 5 libras de reducción al tercero y siguientes.

Canchas de 7 furlongs

4 libras de aumento al primero; 2 libras de reducción al segundo y 4 libras de reducción a cada uno de los otros.

Canchas de una milla

3 libras de aumento al vencedor; 1 libra de reducción al segundo y 3 libras de reducción al tercero y siguientes.

Los caballos inscritos hasta ayer son:

Grupo A. — Chileno y Cortez, 130 libras. — Avispa y Sonrisa, 128 libras.— Niágara 124 libras.— Long Shot, 122 libras. — Quien Sabe, 116 y Chomba Loca 114 libras.

Grupo B.—Plaudellia, Chagres, Water Boy, Lady Peerline, 105 libras.—Doris Merton, 90 libras.—Chancellor, 122 libras.—Glorita 116 libras. — Estrella, Oh Pah', No 86, 116 libras.

Grupo B. — Devotion y Super Gloria, 112 libras. — Merry Maker, Alta Mae, y Flapper, 90 libras. — Merry Morton, 90 libras.

Interesantísimas son las carreras para el próximo domingo 12.

Ya se decidió que no las haya el sábado 11 por no ser día festivo.

Serán 7 las del domingo.

Dos de caballos del país. Una de la Cruz Roja (vulgo "sálvese quien pueda") y cuatro de importados.

Detallaremos las de importados.

El Panamá handicap. Cinco furlongs. B. 182.50 para el primero y B. 17.50 para el segundo. Inscritos.

Sonrisa, 128 libras.
Avispa, 128 libras.
Chomba Loca, 114 libras.
Doris Morton, 105 libras.
Chagres, 105 libras.

El Sweepstaken. Cuatro Furlongs. B. 160 al primero y B. 15.00 al segundo. Inscritos:

Devotion, 122 libras.
Super-Gloria, 132 libras.
First American, 125 libras.

El American Handicap. Siete furlongs. B. 205.00 al primero y B. 20.90 al segundo. Inscritos:

Sonrisa, 123 libras.
Estrella, 122 libras.
Long Shot, 122 libras.
Plaudellia, 105 libras.
Water Boy, 105 libras.

El Juan Franco Handicap. Una milla. B. 225.00 para el primero y B. 20 al segundo.

Chileno, 130 libras.
Cortz, 130 libras.
Quien Sabe, 116 libras.

¿Quienes serán los favoritos? Mañana discutiremos eso. Por hoy aseguramos que Chileno no es Portoalegre. Que Chileno es Dempsey. Adelante.

Se reunió ayer mañana el grupo de Jueces y decidió multar al Jockey Myton en cinco dólares y prohibirle correr en dos reuniones por sus excesivas habilidades.

También descalificó por "in ... rnum" al amigo que inscribió con el nombre de 'Memory' al 'Biscuit'..... Y 'Memory' no puede correr más en el Track.... y además pierde su premio del día 5 que pasa al Wild Life y el 20. a Pegaso.

¡Mañana seguirán los comentos que hay muchos!

Conflicto de Límites Darién-Chimán

Tanto hemos oído hablar sobre este asunto, y tan inconformes son las opiniones al respecto, que un espíritu de entera justicia nos mueve a emitir nuestro concepto quizá de algún valor, ahora cuando el problema está a punto de resolverse en nuestra Cámara Legislativa.

Desde las épocas departamentales, es verdad, el territorio de "Río Congo" perteneció al Darién, hasta hace pocos años, en que por una resolución ejecutiva fué segregado de aquella jurisdicción para agregarlo a la circunscripción del Distrito de Chimán.

UNA VISITA SIMPATICA

Antier tuvimos ocasión de acompañar a dos caballeros de esta localidad, don Juan A. Ríos, Ministro de Chile en Panamá, y don José E. Lefevre, Ministro de nuestra República ante el Gobierno de la Moneda, a una visita efectuada por ellos en el Instituto Nacional, la cual resultó de lo más simpática, como es dable suponer. Hay que adelantar que en el primero de nuestros planteles oficiales se recibe siempre con gran cariño, que todas las atenciones del caso, a cualesquiera personas, nacionales o extranjeras, que se dignen acercarse a sus reales, para nosotros los panameños, venerados, casi sagrados: ¿cómo no ha de ser esto último así, desde luego que a su amparo protector y amigo vamos formando año tras año generaciones cultas y distinguidas, en quienes cifra la Patria halagadoras cuanto legítimas esperanzas para lo porvenir? Sin embargo de esto, la llegada de los caballeros referidos había de suscitar especiales simpatías entre educadores y educandos, de lo cual pudimos darnos cuenta inequívoca.

Respecto del señor Ministro de Chile no debemos olvidar que él representa un país hermano, el cual se merece todos nuestros afectos en Panamá, por lo mismo de marchar a la vanguardia, juntamente con la República Argentina, en cuanto hace al desenvolvimiento material y a la cultura intelectual. Además, buen número de los profesores panameños, de quienes más nos enorgullecemos como exponente de sólida preparación profesional en el Instituto, la Normal de Institutoras y la Escuela de Artes y Oficios, han sido educados en Santiago de Chile, abrevando su ciencia en el Instituto Pedagógico de dicha ciudad siendo esto así la llegada del señor Ministro de Chile debía ser como lo fue, en efecto, acogida en nuestro gran plantel con cariño especialísimo, verdaderamente vivido y sentido. En fin, a estas consideraciones objetivas en cierto modo, es preciso añadir que todos los panameños simpatizamos con don Juan A. Ríos, por el empeño asimismo simpático que él se ha tomado varias veces en cuestiones locales: por ejemplo, en cierta ocasión escribió notable artículo, que hizo eco en nuestra prensa, con el objeto de estrechar más fuertemente las relaciones comerciales entre Chile y Panamá; y al mismo se le debe la formación del cenáculo literario, que hasta la fecha va teniendo algún éxito, con perspectivas talvez mejores más adelante.

En cuanto a nuestro Representante Diplomático en Chile, conviene recordar que a él le tocó hace como doce años aprobar los planos del Instituto Nacional, cuando desempeñaba la Cartera de Secretario de Fomento. Entonces se decía, con máxima estulticia, que tal plantel constituía lujo que no debíamos pagarnos en Panamá; especie de "elefante blanco" demasiado grandioso para nuestras necesidades; el señor don José E. Lefevre no hizo caso de tales criticas absurdas, hijas de la ignorancia, y prosiguió con fe los trabajos preliminares que se imponían para emprender luego la construcción del gran edificio, y hoy le cabe la satisfacción de saber por experiencia personal que sus aulas, dormitorios, etc. no corresponden en lo absoluto a las necesidades presentes. Conociendo de todos estos antecedentes, los alumnos del Instituto dispensaron a dicho caballero, en asocio de su colega el señor Ministro de Chile, la más cordial acogida, cuando sucesivamente se dirigieron éstos en conceptos muy atinados a aquéllos.

Libre cambio y Proteccionismo

Un distinguido escritor español don José Ortega y Gasset, en una de sus luminosas producciones, ha dicho:

"Triunfa con Cobden el libre cambio, porque Cobden gritaba en las plazuelas [illegible] imagen con [illegible] conceptos exactos".

Fuera de la Inglaterra, la tierra clásica del libre cambio no existen hoy sino países pequeños como Holanda, Noruega, Dinamarca que hayan quedado fieles al libre cambio, porque su extensión es limitada y por todas partes, hasta en Suiza las barreras de Aduana se han levantado y las guerras de tarifas han reemplazado a los tratados de comercio.

Inglaterra no había sido proteccionista sino para asegurar el comercio marítimo el monopolio con sus Colonias.

La fe en el libre cambio ha sido extenuada desde que el ejemplo de los Estados Unidos y Alemania ha demostrado que el proteccionismo podía llevar al país a la supremacía industrial.

Cromwell en Inglaterra y Colbert en Francia, fueron los primeros hombres de Estado que crearon el verdadero sistema proteccionista. Colbert lo hacía consistir en estos tres puntos: le rechazar con derechos protectores la importación de los productos fabricados, [illegible] favorecer por una reducción [illegible] de [illegible] las materias primas y por todo lo que sirve a las fábricas, favorecer a los manufactureros o productores, y por medio de primas en la exportación de los productos del país.

El sistema de Colbert duró hasta que los fisiócratas, que pretendían que toda la riqueza está fundada sobre los productos de la tierra acaban con las ideas de mercantilismo y enarbolaron la divisa laissez faire, laisser passer. Pero la Revolución Francesa, que hizo triunfar su doctrina en lo que concierne a la libertad del trabajo, no la hizo triunfar en lo que concierne a la libertad del comercio.

Alemania tuvo una política muy oportunista en materia comercial y en 1833, por la unión aduanera entre los diferentes Estados alemanes, reparó su unidad política; y cuando vino el período librecambista, se unió a él. Pero, cuando su unidad política se realizó, tuvo la ambición de ser una gran potencia industrial y volvió al proteccionismo.

Preciso es que haya causas generales para explicar la epidemia irresistible del proteccionismo, que según autores modernos de Economía Política, todos lo siguen, desde que una una nación lo ha adoptado.

Cuando los derechos no tienen un carácter de protección, como los que Inglaterra impone a los productos exóticos, que ella no produce, como café, té, azúcar tabaco vinos, cacao, etc., es interés del Gobierno producirlos suficientemente para desenvolver la importación de los productos taxados; el rendimiento del impuesto aumenta en razón de la modicidad del importe y puede obtener para el tesoro una fuente considerable de entradas. Por eso, David Wells, en su opúsculo "Reforma de la Tarifa", dice: "un derecho de 20 por ciento, equivale a un mal camino pantanoso e infecto; un derecho de 50 por ciento, a un río largo y profundo; sin los medios necesarios de atravesarlo; un derecho de 70 por ciento, es un vasto lago que se extiende a ambos lados del río; un derecho de 100 por ciento, es una cuadrilla de ladrones que despoja al comerciante de casi todo lo que tiene lo obliga todavía a sentirse feliz de escapar con vida".

El objetivo más generosamente altruista de la cultura moderna, es el bienestar humano. Por eso todos los gobiernos se esfuerzan en el aumento de la riqueza pública; por eso España, en su gloriosa tradición de haber descubierto al Nuevo Mundo, ha firmado tratados con muchas de las repúblicas hispano americanas y con Francia Suiza y Noruega; ha establecido el modus vivendi con Italia, estando a punto de firmarse con Inglaterra y tramitándose otro con Alemania para proteger los numerosos productos de su industria y de su suelo. La Ley Tributaria, recientemente [illegible] por las Cortes, eleva [illegible] contribuciones sobre [illegible] viajes, transportes terrestres, fluviales y marítimos, embarcaciones [illegible] contribución industrial y comercial, y el impuesto de grandeza, títulos y honores, dejando un exceso de gastos de pocos millones de duros, suma insignificante si se toma en cuenta que España posee bosques en una extensión de 8 millones de hectáreas con más de 42 millones de árboles, dominando el pino y la encina; y si se considera que la fortuna mobiliaria según dijo Cambó en las Cortes, el 22 de Mayo de 1922, es de treinta millones de pesetas.

La quiebra del Panama Banking en la República de Panamá, que dicho sea de paso, devolverá a sus depositantes el 50 por ciento, ha alarmado a los Gerentes de los dos grandes Bancos americanos que existen en Panamá y Colón; y para conjurar la crisis han propuesto que se [illegible] al libre cambio o a puertos francos, cobrando 3 por ciento (no sobre la importación, sino sobre la venta de las mercancías en vez del 10 y 15 por ciento que se paga hoy por derechos de introducción y cuyo producto no pasa de un millón de pesos, oro americano, que es la moneda circulante en Panamá.

Meritoria es la idea, pero la técnica es irrealizable. "Qué hace usted allí?" preguntaron a Dulcenes que castigaba severamente a un negro. "Le lavo la cabeza, respondió, para hacerlo blanco".

Si tomamos en cuenta el estado rentístico de Panamá, bajo cualquier punto de vista, y analizamos la riqueza de su suelo, encontramos que no hay motivo de alarma y que no ha llegado todavía, ni llegará, la época calamitosa, si se mantiene una organización social que garantice al capital y al trabajo.

El Perú, tan conocido por su riqueza proverbial, vió su medio circulante, después de la guerra con Chile, reducido a dos y medio peniques el peso. En la República Argentina acontecieron numerosas quiebras en 1900 por la versatilidad del cambio; pero ambas Repúblicas se han rebelado virilmente, siendo ho la Argentina una de las naciones más favorecidas por la Providencia. Su producción en 1916 fue de 775 millones de dólares en cereales, frutos y productos industriales, y hoy ocupa en materia de ferrocarriles el primer lugar entre las naciones suramericanas y el tercero entre las del continente americano. A esta situación han contribuido 2 millones y 53 mil inmigrantes italianos y un millón y 200 mil inmigrantes españoles.

En lo que se refiere a pueblos libres, sólo diré que en las Islas Canarias (España) se pagan, como en Panamá, fuertes derechos de entrada sobre tabaco, alcoholes, azúcar, etc., pagando las demás mercancías un derecho de consumo, que creo no llega hoy a 1 por ciento.

Bremen, puerto libre desde 1888 tuvo un déficit en 1913 de 800,000 libras esterlinas, porque el Income tax sólo llegó a producir 65 por ciento y el resto de las entradas 35 por ciento.

El puerto libre de Hamburgo ocupa 2,500 acres de la bahía de la ciudad, donde los buques cargan y descargan en sus diques, bárcenas y muelles, construidos al costo de tres millones de dólares; pero conviene saber que el presupuesto de la ciudad de Hamburgo, declarada ciudad libre en Enero de 1882, tuvo en 1915 entradas por ocho millones y cuarto de libras esterlinas debiendo hacer frente a gastos ocasionados por la guerra por valor de trece millones y medio de libras esterlinas, cuando la contribución directa apenas llegó al 5 por ciento.

Precisa tener en cuenta que los puertos de Panamá y Colón pertenecen a la Zona del Canal y que los buques cargan y descargan en los diques, muelles y almacenes del Gobierno americano.

Existe la errónea creencia de que en los llamados puertos libres el consumo interno está exento de impuestos.
