WEATHER FORECAST

Washington, D. C., July 22.—For East Florida: Fair tonight; Wednesday, scattered showers and thunderstorms.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

While throwing ball in front of the fire station today, one of the firemen missed the outstretched hand of his vis-a-vis and sent the strenuous sphere through the big plate glass in the rear door of the post office. The missile made a crash like a young cannon shot, and for a minute Hugh Haycraft thought the past few years were a dream and he was once more conducting a Sunday excursion on the west coast line. It is tall treason to bombard a government building and we suppose the offender will be given the water cure or banished to Guam. He may get off with paying for the glass, but that will be no joke, and it will at least be more than the Star could ever get out of the breakers of glass in our building, some two dozen cases having occurred in the eight years of our existence.

The best is NUNNALLY'S, because it is always fresh. We keep it fresh because we order it every week. The Postoffice Drugstore.
