OCALA ORATORS AT INVERNESS

Messrs. Hocker and Sistrunk met with a royal reception at Inverness Tuesday evening. Col. Zimmerman acted as master of ceremonies and introduced the speakers, but gave them "the shivers" in expressing an opinion that Ocala didn't seem to have much show if what Jacksonville claimed was true and the speaker admitted he was Jacksonville inclined. The result was, Ocala's young speakers determined to give the audience the best ammunition in the shop and when Hocker had applied his keen analytical mind and unanswerable logic to the question and Sistrunk supplemented the remarks of his co-worker by his stirring eloquence for the equities of the case, Chairman Zimmerman, before dismissing the audience, said he had been made to see the other side of the question and anounced that he was convinced that Ocala presented irrefutable arguments and from now on he could be counted for the Brick City, which announcement awakened the echoes in the crowd by their cheering.

A POWDER MILL EXPLOSION

Removes everything in sight; so do drastic mineral pills, but both are mighty dangerous. Don't dynamite the delicate machinery of your body with calomel, croton oil, or aloes pills, when Dr. King's New Life Pills, which are gentle as a summer breeze, do the work perfectly. Cures Headache, Constipation. Only 25 cents at all drug stores.

FRESH CANDY

No other pills can equal DeWitt's Little Early Risers for promptness, certainty and efficiency. Anti-Monopoly Drugstore.

LOCAL LEGISLATION

Meeting of the City Council Tuesday Night

A Street Will Be Improved for the S. S. & W. R. R.

The Dog and Waste Paper Ordinances Will Be Revived

The council met Tuesday evening in regular monthly session. The minutes of previous meeting were read and approved. Following members were present: Chairman McConathy and Aldermen Scott, Carmichael, Edwards, Helvenston and Delouest. Ben Rheinauer appeared for the hospital, as treasurer of that worthy institution, and explained that the treasury was depleted and asked for help. The council gave the hospital $25 temporarily and when the assessment books are examined and the city's resources are estimated and the expenses of the city for the coming fiscal year are apportioned, the hospital will be remembered.

H. L. Anderson as receiver for the Silver Springs railroad presented a petition asking the council to have the street paved from his depot to Main street, a distance of one block, that the merchants might haul their freight out with more convenience. A similar petition was read signed by the S. F. & W. railroad. Considerable discussion ensued and two members were in favor of refusing to pave the street on account of the action of Mr. Anderson in fencing up the Ocala and Silver Springs hard road, which is being paid for in part by the city of Ocala. But the wishes of the majority prevailed and the matter was referred to the street committee with power to act. They rightfully thought that if this road was giving the merchants a lower freight rate, regardless of any other action of Mr. Anderson, it should be assisted by the city.

J. F. Williamson was allowed to redeem a tax certificate against his property for the face value thereof.

J. E. Bailey complained that a big stump stood in the middle of Orange street, between Fifth and Sixth streets, and asked that it be removed. Referred to street committee.

Mrs. C. A. Haines petitioned to be allowed to redeem tax certificates against her property for the 1897 and 1898 at face value. The request was granted.

The electric light pay roll, $236.66, was ordered paid. Superintendent Englesby was allowed $25 for his petty cash account. Numerous other bills were ordered paid, among them one for building a room at the electric light plant, $108.50.

Several insurance premiums were paid and $300 for a pair of mules for the streets, bought of T. H. Johnson, and the city employees' pay roll, $491.33. The bill of $64 for rent of two of B. H. Seymour's mules for sixty-four days was discussed and a motion prevailed to pay Mr. Seymour $50 and the clerk was instructed to draw a warrant for that amount.

The reports of city officers were read and referred to their proper committees.

Sanitary Inspector James Duffy presented a written report, showing improvement in the city sanitation. He condemned the present system of closets and strongly urged the bucket system and the removal of garbage at night.

The report of the cow man was read showing $19 collected for pound fees. His salary is $40 and the council thought he needed stirring up. Judge McConathy thought if he would work a little at night he could make money for the city.

The council instructed the street committee to desist from buying waste lime from the lime company to put on the streets and ordered the bill of $47.25 paid. Mr. Carmichael was of the opinion that there was plenty of good gravel to be had out at the Taylor Pond, on the east side, which was better than lime, and suggested that Mr. Anderson haul in at least enough of it to pave the section of street in which he was interested.

Judge McConathy opened the book of ordinances and read therefrom an ordinance requiring the payment of a tax of $1.25 on each and every dog in the city limits and requiring a suitable tag to be suspended from the neck of the said pup. This ordinance had never been repealed and will be enforced. It will be advertised for a period, after which, if not complied with, all dogs will be impounded and after a limited time, notice having been given, will be slain by the cruel marshal. This met with popular approval, as every one present had some grievance against a cur that was not worth the price of the saving tag.

The Judge also produced an ordinance prohibiting the throwing on the streets and sidewalks of waste paper, and other matter, calculated to litter and obstruct the streets. This long dormant ordinance will be revived, advertised also and promptly put into effect.

The matter of the city buying 1600 feet of new hose was discussed and so urgent and important was the matter, that a special meeting was called for Wednesday afternoon at 3 o'clock, when the different agents with hose for sale were to meet the council and the best bid to be accepted. Messrs. Tom Harris and Frank Reagan, of the Ocala Fire Department, were present and spoke of the hose dryer that is being built, and stated that a tower would be much better. After some discussion the work was ordered held up until after the special meeting of the council, when the matter will be discussed and the dryer finished or a tower built, as may seem best. The council then adjourned.

BOARD OF PUBLIC INSTRUCTION

A New School District—The November Meeting Will Be on Wednesday the 7th

Ocala, Fla., Oct. 1, 1900.

The Board of Public Instruction in and for Marion county met this day in regular session with the following members present: B. A. Weathers, chairman; M. S. Moser and B. I. Hull.

Minutes of last meeting were temporarily read and deferred for final approval until written in the new minute book, which has been ordered, but not yet received.

Mr. T. N. Davis, supervisor of Charter Oak school, apeared and reported that Miss Belle Stroble, the teacher of his school, was sick and asked that her sister be allowed to teach the school until the regular teacher is able to resume work. The request was refused, as the board could not pay any one not holding a certificate, or under contract with the board.

The superintendent reported that he visited Reddick in the interest of the proposed special tax school district and met and discussed matters with a number of the Reddick citizens, and it was agreed that it would best to have two districts, for Reddick and Fairfield, rather than having both places in one district, and that the board be asked to cut the territory asked for in the original notice, and call an election to be held the 6th day of November to create a special tax district for Reddick alone in the territory described as follows: Commencing at the northeast corner of section 1, township 13, range 21, running west to the northeast corner of section 5, township 13, range 21, thence south to a point half way between the northwest and southwest corners of section 21 in the S. Fernandez grant, township 13, range 21, thence east to a point half way between the northeast and southeast corners of section 24, township 13, range 21, thence north to point of beginning.

On motion, an election was ordered to be held at Reddick on November 6th, 1900, for the purpose of creating a special tax school district and to elect three trustees and to fix the rate of millage to be levied and collected for the next two ensuing years.

The superintendent was instructed to make the necessary advertisements and prepare tickets and other required papers.

The superintendent made his report on the bill of the Ocala subdistrict and the matter was deferred for some further investigation before taking final action.

It was ordered that in order to prevent further complications in the process of creating special tax school districts, and to assist citizens in petitioning for such, that the superintendent is instructed to district the entire county into different school districts and to submit the same to the Board of Public Instruction for its approval.

The supervisor of the Jerusalem colored school asked that they be allowed to shorten their term and use the money in buying doors, windows, etc. On motion the request was granted.

Mr. C. I. Grace resigned as supervisor the Kendrick school and the superintendent was instructed to fill the vacancy.

J. M. Kinsler, supervisor of the Bethlehem colored school, resigned, and N. N. Patterson was appointed to fill the unexpired term.

Mr. R. B. Ervin applied for permits to send his children to the Higley school in Lake county. The board refused to grant the permits, as Mr. Ervin lived as near the Linadale school as he did Higley.

Mr. Henry Proctor, teacher of the Mill Creek school, applied for transfers for two of Mr. Cade Proctor's children, claiming that the distance was equal and a better road to Mill Creek than to Eureka, and they would have the advantage of going with him to school. The transfers were granted.

A bill of W. R. Baker for $71.25 against the trustees of the McIntosh sub-district, was examined and found approved by the said trustees. It was ordered that said bill be paid out of the first money in the treasury of the McIntosh sub-district not already appropriated.

In view of the fact that general election day comes on the first Tuesday in November, it was agreed that the board will meet on Wednesday, November 7th, to hold its regular meeting for November. The board calls
