PURE WATER

Will Distilled Water Cure Disease?

At the World's Congress of Medico Climatology at Chicago, May, 1893, the following trite facts were stated:

"First—Pure water is the greatest solvent in nature.

"Second—Pure water in sufficient quantity is the hardest thing to find in nature.

"Third—Water is the largest single factor in healthy digestion, assimilation and excrements.

"Fourth—Most diseases arise from and depend upon defective solution, distribution and elimination of matter soluble in pure water, from which it follows that most diseases not characterized by secondary pathological conditions, should be cured by the proper exhibition of pure water.

"Fifth—Mineral water is water spoiled except for an exceedingly small number of special uses."

As you care for your own and others' health and happiness, the following will interest you:

F. L. Tileston, San Jose, Cal., writes: "My health has been greatly benefited since using the distilled water and I would not do without it for any amount of money."

Myron Leonard, Chicago, writes: "All tendency to kidney trouble that I had before using the water has entirely disappeared."

Mrs. Minnie W. Casper, Woodlawn Ill., says: "I give it to the children exclusively and find it relieves them in constipation."

B. M. McLean, Norway, Iowa, writes: "My wife was in delicate health. After using the distilled water a little over a month she is greatly improved."

Mrs. Emma Ostenburg, Mead, Neb., writes: "I recommend it as worth its weight in gold to those suffering from catarrh of the bladder."

Attorney I. L. Albert, Columbus Neb., writes: "For a year prior to getting the Still I used mineral water exclusively, owing to derangement of the stomach. I find the distilled water equally beneficial and use no other."

D. D. Wilkins, Medford, N. J. writes: "I recommend it to any one who wants relief from constipation."

Mrs. Hattie Spangler, Utica, Ind. writes: "Distilled water has brought me from having lain in bed for ten months with nervous prostration, to the ability of assisting in the household duties."

Chas. W. Thomson, St. Clair, Mich., writes: "The distilled water helps to preserve the good health we all enjoy."

C. H. Cannon, St. Paul, writes: "I lent my Still to a friend whose aged mother was so badly crippled with rheumatism and lime deposits in the joints, that her hands were half closed and her toes were turned in under her foot. She could not, nor could anyone else, bend her hands or toes without breaking them. By using distilled water, inside of four months she could walk on her feet and put the palms of her hands so close together that you could not see between them."

S. B. Robbin, Malta, Mont., writes: "It has already straightened out two cases of diarrhoea caused by drinking bad water here."

M. J. Brimberry, Olla, La., writes: "Since using distilled water, I haven't been troubled with chills and fever, or malaria in any of its forms."

R. C. Loveridge, Agt.

BEWARE OF A COUGH

A cough is not a disease, but a symptom... Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by the Anti-Monopoly Drugstore.

"I had a running sore on my breast for over a year," says Henry R. Richards, of Willseyville, N. Y., "and tried a great many remedies, but got no relief unti I used Banner Salve. After using one-half box, I was perfectly cured. I cannot recommend it too highly." Anti-Monopoly Drugstore.

MRS. M. C. NEWSOM

A Brief History of the Long and Useful Life of a Mother in Israel

The subject of this sketch was born in Blountsville, Ala., July 5, 1830, where she grew to graceful and beautiful womanhood and by her bright, gracious, cheerful, sunny disposition and noble young womanhood won the heart and hand of Mr. William V. Newsom, to whom she plighted her troth and gave her hand in the holy bonds of matrimony February 22, 1848.

The couple continued to reside in Blountsville, Ala., until 1884, when they moved to Summerfield, Marion county, Fla., which was their home up to a few years ago, when their advancing years and declining strength brought them to Ocala, to be under the immediate eye and watchful care of their noble hearted and generous minded son, Dr. W. V. Newsom, so that every wish and want of the aged couple could be administered to.

Here several months ago Mrs. Newsom was taken with la grippe and although everything that tender hands, sympathetic hearts and medical skill could devise for her relief and restoration to health was done, she gradually sank into "that sleep that knows no waking" this side of the grave and passed from the transitory joys and pleasures of earth to "the everlasting and unending bliss beyond."

Deceased was a devoted and consistent Christian all her life and joined the Methodist church in her native town at the age of thirteen years.

Four children were born to her, namely, Mrs. Tillman, wife of Captain Tillman, of Henderson, Tenn., whose husband at one time was honored with a seat in the United States senate. This daughter died several years ago. Mrs. Potter, wife of J. W. Potter, Esq., who died a number of years ago at Summerfield; Dr. W. V. Newsom, a citizen and skilled practitioner of Ocala, who lives to do reverence to the memory of his sainted mother; and Mrs. S. N. Dillard, of Summerfield, who in the graces of mind, heart and person is largely a counterpart of her departed mother.

Besides the living son and daughter of the deceased, there are a number of grandchildren who survive her, as does her aged husband, who, bent with the weight of over fourscore years, remains to mourn the departure of a most loving and dutiful wife.

Mrs. Newsom requested that her remains be interred beside the ashes of her daughter, Mrs. Potter, in the Oxford cemetery and her wish was lovingly though sorrowfully complied with.

During the past few years of her life she made the acquaintance of a young student of the Conference College at Leesburg, Mr. Fletcher, who was studying for the ministry, and having heard him preach on several occasions, took such a deep interest in his welfare and such a liking for his manly and Christian character, that she desired, in case of her death, that he should preach her funeral sermon, with which request Mr. Fletcher complied.

Mrs. Newsom was a most pleasing woman, entertaining in her conversation, of a cheerful and sunny disposition, always evincing great interest in the young people, whom she loved to have around her, and in many ways contributing to their amusement, and welfare.

She was a firm believer in the efficacy of schools to train the minds of the young and of the discipline and teachings of Christ to soften their hearts and turn their footsteps into the ways He would have them go.

Gentle, affectionate, kind, generous and hospitable, she made a model wife, a devoted mother and a staunch friend and through the long, eventful and useful life she lived, she demonstrated that true Christian charity and benevolence that lead to better thoughts.

The subject of this memoir died April 22 and was interred the following day.

Pretty

Is an adjective which seems to have become monopolized by the young lady at the typewriter. It is astonishing what an array of beautiful women are found in stores and offices. In fact, the typical American beauty will be found sitting at the typewriter rather than lolling in a carriage in the park.

And yet this pretty young girl needs always to be reminded that "beauty is only skin deep," unless it roots in health. When the health is undermined by womanly diseases, the luster soon passes from the eyes, the cheeks grow thin, the body loses its plumpness.

Dr. Pierce's Favorite Prescription cures diseases which weaken women and which destroy their strength and beauty. It establishes regularity, stops weakening drains, heals inflammation and ulceration and cures female weakness.

"Several years ago I suffered severely from female weakness, prolapsus and menorrhagia, and used Dr. Pierce's Favorite Prescription with splendid effect," writes Fannie Shelton, of Washington, Iowa. "Glad I have not needed it for a few years past, but if I should ever have any return of the old trouble would surely try 'Favorite Prescription.' I have recommended it to a number of my lady friends. I always tell them to try a bottle, and if they are not benefited by it I will pay for the medicine. In every case they have spoken in praise of it."

FLORIDA TO BE REPRESENTED

The bill appropriating $5000 to make a Florida display at the Pan-American Exposition, Buffalo, passed both houses of the legislature Tuesday.

The Tampaites are having a redhot time in Tallahassee over the charter for Greater Tampa.

Broward, of Jacksonville, insists his bill shall be a substitute to Zewadski's redistricting bill, which will put Tampa and Miami in the same congressional district. In support of it he made a speech of an hour. Zewadski and Fulton spoke against it.

When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. HERBINE has a direct action on the liver and excretory organs, and a few doses will cure any case of biliousness. Price, 50 cents at the Anti-Monopoly drug store.

THE SEABOARD'S LIMITED

SCHOOL NOTICE

Application of Teachers

The trustees of the Ocala Sub-school District will meet May 30 and 31 in Judge W. S. Bullock's office, Union block, to consider applications for positions as teachers in the Ocala Graded High School and Howard Academy for the term of 1901 and 1902. Also to receive and hear such endorsements or protests as patrons may wish to present or delegations of patrons that may desire to be heard on these questions.

The meetings will be open at 3 o'clock p. m. Thursday, May 30, for colored and Friday at the same hour for the white teachers.

The Jacksonville Relief Association has made an appeal for further aid. Their task is a herculean one, to take care of ten thousand people turned out of house and home, and we trust we will not be unmindful of their crying necessities.

The number of Jacksonville sufferers applying for food has greatly decreased. Less than four thousand applied on Sunday. There are now nearly 500 persons fed by the labor committee.

F. J. Lapenotiere, a well known citizen of Tampa, committed suicide Monday. He was tired of life. He was a learned man and an attorney.

Miami has shipped over 70,000 crates of tomatoes so far this season.

Mercury AND Potash

Everybody knows that Mercury is a dangerous medicine even when administered in very small doses, and few constitutions can stand it for any length of time.

Potash produces inflammation of the stomach and bowels, and a dangerous form of dyspepsia and often chronic diarrhœa follow its use.

Now, the doctors will tell you if you have Contagious Blood Poison you must take these minerals for two years or longer; first, a course of Mercury, and when your teeth get so sensitive and sore that you can't eat, and the gums have a spongy, unnatural appearance, you are told to stop and a change to Potash is made. When the stomach rebels you are put on Mercury again, and so on *ad infinitum*, or until the system becomes so thoroughly saturated with these poisonous drugs that the most disgusting sores break out on the body, the bones become diseased, and the muscles and joints are racked with the most torturing pains. Mercury and Potash drive the eruptions and blotches from the skin, but the virus remains in the blood and the reappearance of the old symptoms and the occasional sore mouth show that the poison is still active, and you can never hope to completely eradicate it by this method of treatment.

When I was about twenty-one years of age, or eighteen years ago, I contracted Blood Poison in a bad form, and am satisfied that the rapid progress the disease was making would soon have made me a life-long invalid or ended my life. As my system came under the influence of S. S. S., the sores, splotches and pimples gradually disappeared and soon no evidence of the disease was left. I am now thirty-nine years old, and have seen no signs of it during the past eighteen years. S. S. S. does all you claim for it. WM. EMERSON, Pevely, Mo.

S. S. S. is the only antidote for this destructive virus, and an infallible remedy for this peculiar poison. It destroys and eradicates every particle of the poison, and makes the blood as healthy and pure as before the disease was contracted.

S. S. S. is the only purely vegetable blood purifier known, and we offer $1,000 for proof that it contains any mineral ingredient whatever. The general health improves as the Specific purges the system of impurities, and as new, rich blood begins to flow in the veins the unsightly sores and other evidences of blood poison disappear; strength returns and you are forever rid of this loathsome disease.

Our Home Treatment Book on Contagious Blood Poison tells you all about the symptoms, different stages, etc., of this disease. We will mail you a copy free.

If you need advice or special directions, write our physicians; it will cost you nothing and may hasten your cure. THE SWIFT SPECIFIC CO, ATLANTA, GA.
