OUR SCHOOL TEACHERS

The following named teachers will compose the teaching force for our schools this season, namely:

John H. Workman, principal; Miss Sarah McCreary, assistant, and Miss Anna L. Richardson, who will compose the faculty of the high school department. Miss Georgia Borger, 8th grade; Miss May Turnley, 7th grade; Miss Elizabeth Mizelle, 6th grade; Miss Shelton Souter, 5th grade; Miss Ettie Carn, 4th grade. Miss Nellie Stevens, principal primary department; Miss Fannie Clark, 3rd grade; Miss Margaret Taylor, 2nd grade, and Miss Corinne Williams, 1st grade.

The faculty contains three new teachers. Miss Richardson, of Summerville, S. C., who has taught in the Charleston High School, the Peabody Normal at Nashville an dtaken post-graduate courses at both the Chicago and Columbia universities and is splendidly equipped for the work. Miss Mizelle is from Orange Lake and is a graduate of the East Florida Seminary, at Gainesville, supplemented at other institutions of learning. Miss Williams is a sister of Mrs. R. S. Hall. She taught last season at the Fellowship school and took a course this summer at the Knoxville normal.

The teaching force of our schools, which open next Monday, is splendidly equipped for the work and good results can be expected.

Mr. Charles Leitner, one of the trustees of the Dunnellon school, was in town today and saw Mr. Brinson about school work and reported a very auspicious opening for his school with the following teachers, namely. Frank H. Ellis, principal, of Alachua, where he taught successfully the last two terms; Miss Nannie McGahagin, of Lake Weir; Mrs. Nellie Gordon Martin, also of Alachua, and Miss Agnes Zetrouer, of Rochelle.

Mr. A. M. Lansford, the piano man, returned from Dunnellon yesterday, where he closed a contract for three new pianos. He said he could easily see signs of business picking up in the Phosphate City and anticipates a fine winter's trade for the business firms in that city, as the phosphate mines are resuming operations and employed labor means good times.

Sam Anthony is home from a visit to his friend, Mr. Alfred, collector of the port at Port Inglis. He had a great time fishing and visiting the tramp steamers, four of them, in the port, which were taking cargoes of phosphate. He said one of the steamers was a 7,000-ton Lloyd liner, a passenger boat that carried a fine band and orchestra and a wine list worth $5,000. When the captain reported and found he was to take a cargo of phosphate was very much disgusted.

The verdict in the Oak assault case before Judge Bell yesterday in which John Loose was the complaint, was "not guilty."

The Times-Union struggles heroically, yea, desperately, with the drink question. Its editor on "Publicity and Drink," presents a strong compound of illogical reasoning. According to its theory you must not mention any evil subject or forbid it by law, for if you do, mankind will instantly become desperate and crave the very thing forbidden. We did think the T.-U. believed in publicity as a correction of evils, no matter what their motive.

Rev. J. J. Cloar of Owensboro, Ky., was recently installed as pastor of the Baptist church of Gainesville. The pastorate of the town united in extending to Rev. Cloar a cordial welcome. The house was packed.

The Gainesville High School opened Monday with an attendance of 451, just 75 more than last year's enrollment the first day of the term.

That was a timely cut yesterday in the Times-Union about the folly of attempting to foist green oranges on the public. They soon find they were handed a lemon.

Alex Moorhead, county surveyor, went to Croom this afternoon to run some lines for the Holland phosphate company, of which Mr. D. S. Woodrow is manager.

The Woodmar Sand & Stone company has the contract for laying the cement and tile floor in the Montezuma lobby and Mr. G. A. Smith, an experienced workman, is laying the mosaics, which will present a very inviting appearance when completed.

Will Marlow, proprietor of the Ocala Pressing Club, has had his room neatly papered and it presents a very inviting look.

Mr. C. W. Hunter, the gas man, is installing four Welchbach globe lights in Jake Klein's store.

Mr. J. M. Liddell of Santos, brought a load of cotton to town today.

The Marion Hardware company is having the front of their store and the awning painted.

Jake Klein's dry goods establishment received 560 ladies' coats yesterday, which his clerical force is now busy arranging on the counters.

Mr. W. W. Whithurst and Mr. Max Strauss of Tampa are guests of the Ocala House.

Mr. Will May left today for Kansas to join his wife. They will remain there several months.

Joseph Stanaland of the Lake Bryan settlement, was in town this forenoon with a load of early oranges.

Jesse E. Burtz, the directory compiler of Gainesville, has completed his work on the city directory of Orlando. He gives the Phenomenal City a population of 5,127; whites, 2,785; colored, 2,342.

Mr. Tom Livingston returned today from a business trip to Fort Myers.

Mrs. C. G. Phillips of Fulford, Fla., who has been visiting her sister, Mrs. Geo. L. Taylor and brother, Dr. L. F. Blalock, returned home today.

Eagles meet this evening.

THE WRATH OF THE TEMPEST

Wreaked Death and Destruction on the Gulf Coast and Hundreds of Miles Inland

Washington, Sept. 22.—Central in Mississippi and sweeping north at the rate of 200 miles a day, the hurricane which devastated the Gulf coast and left a trail of wreck and ruin through four states, continued on its course with unabated fury. Of the ruin that it has wrought, no one can give an estimate. In New Orleans, alone, five are known to be dead and a million dollars will not repair the damage to the beautiful Crescent City. It is said that the plate glass alone will cost $100,000 to replace.

From the little and aristocratic summer colonies on the Louisiana and Mississippi Gulf coast come vague tales of frightful devastation, and fears that many lives have been lost. The wealthy summer tourists, who own pleasure craft are wont to spend much time upon them, and it is possible that many have been lost. Biloxi, the mecca of the wealthy, is still isolated, and what its fate is is still clouded in mystery. Jackson, Miss., the capital of the state, is cut off to coast points.

The dome of the new capitol at Jackson was wrecked, and the old capital unroofed. The streets were a tangle of live wires, and the fallen trees and debris made the highways impassable.

At Vicksburg two vessels were sunken and a third driven ashore. Their passengers were rescued. One vessel lies across the channel and has blocked navigation.

At the pretty harbors of Pascagoula and Bayou St. Louis many slips are empty and the torn moorings tell of the fury of the wind and waves.

Bath houses, pavilions, yacht slips and pleasure resorts that were nightly brilliantly illuminated and rendezvous for those who sought relaxation and amusement upon the famous Gulf coast are washed away, and not a timber remains to mark their locations. And the story in its hideous entirety has not yet been completed.

The only route of message to New Orleans yesterday and last night was by an improvised service via Hattiesburg, arranged by the Associated Press, which organization has secured a telephone line into New Orleans and was able to relay by telegraph to Atlanta.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive *free* booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

HOUSE FOR RENT

A splendidly located six-room house near high school in good condition, bath and electric lights. Apply at Star office.

KILLS WOULD-BE SLAYER

A merciless murderer is appendicitis with many victims. But Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing that clogging that invites appendicitis, curing constipation, biliousness, chills, malaria, headache and indigestion. 25c at all druggists.

The Proof is in the BREAD

If you are not using it now, it's a good time to begin. We sell it exclusively in Ocala.

MARTIN & CARN

WORD RECEIVED FROM WHITNEY

Young Connecticut Sportsman Supports Dr. Cook

New York, Sept. 22.—Harry Whitney, the young New Haven sportsman, upon whose testimony the north pole controversy largely hinges, has been heard from and in effect supports Dr. Cook's contention that he reached the north pole, is a story published here today is correct. According to the New York American this morning, Mrs. Whitney, his mother, received a letter dated September 5, in which Whitney says: "I saw Dr. Cook at Etah. He has accomplished a great thing. He is bound to become a great man. He claims to have reached the pole, and from evidences I believe he has."

LOCAL LEGISLATION

All members of the council were present last night except Messrs. Carmichael and Gates.

Mr. T. E. Bridges, representing the S. A. Rawls Co., appeared and requested the use of the city jail for transfer purposes. The privilege was annulled because the company failed to keep the jail in a sanitary condition, but Mr. Bridges said they had fully complied with the agreement by paying at sight all bills presented for keeping the jail clean. The matter was refered to the police committee with power to act.

Mr. J. H. Taylor appeared and requested council to put a fire hydrant on Osceola street between Masters' warehouse and Meffert & Taylor's mill.

Councilman Gates requested a 100-candle power light be placed near Faiana's store. Granted.

The electric light committee was requested to inspect and report where nine 100-candle power lights could be placed to the profit and comfort of the people, and also to ascertain were arc lights could be discontinued.

Mayor John D. Robertson submitted a message to the council urging that a contract be let for sidewalks. The mayor also mentioned the fact that the special committee appointed some time ago to ascertain where a water supply could be had for the city had not yet reported and urged them to do so. The mayor requested the council to secure the opinion of the city attorney as to the liability of the A. C. L. railway to pave Osceola street, which is occupied by its tracks. It was also suggested that the city attorney act with the street committee on the sidewalk proposition. He stated that said ordinance could be enforced.

McIver & MacKay were granted a permit to unload brick for the new opera house at John Dozier's warehouse.

It was ordered that the street sweeper be put in commission three times a week from the hours of 9 p. m. until daylight.

Alderman Duval brought up the matter of an inspector of meats and milk, as the city has no inspector at the present time. Referred to sanitary committee, said committee to consult with the board of health and report to council.

The special committee appointed to secure bids for the cage in the zoo, reported one bid of $20, which was laid on the table.

The special committee appointed to get up estimates of the remodeling of the city market, reported. The committee was continued.

An ordinance relating to hack drivers was passed.

The police committee reported on the pool room opposite Tompkins & Cobb's stables, which had been complained of. The committee recommended that no further license be issued them, as all licenses expire October 1st.

The city assessment books were presented to the council by the clerk and assessor and accepted. The books will be opened Oct. 1st to Dec. 1st, for the payment of city taxes.

WARNING

Do not be persuaded into taking anything but Foley's Honey and Tar for chronic coughs, bronchitis, hay stops the cough and heals the lungs, fever, asthma, and lung trouble, as it Sold by all druggists.

WHERE IS WHITE?

Mysterious Disappearance of a Sarasota Man and Three Hundred Dollars

Sarasota, Sept. 22.—Considerable mystery attaches itself to the disappearance of T. C. White, up to a short time ago engineer at the local ice plant, who has not been heard of since September 5, when he spent Sunday with his wife at Starke. On that date he left ostensibly for Plant City to have some papers signed, but as to where his destination really was, no one knows. His wife, who is now in this city, is nearly prostrated with grief and anxiety, as she fears that he is either in a hospital or an asylum. White suffers from discharges from one of his ears, which causes him to use a good deal of morphine.

At the time of his disappearance, White was at work on a Fort Myers phosphate deal and had $300 belonging to local capitalists in his possession. This, and some unpaid bills which he leaves here, are believed by some to be reasons for his disappearance, as it is alleged that his travels have extended over a good many portions of the country already.

HAVE YOU A BABY

Then watch it closely. And above all things don't let it suffer for any length of time with worms—that if fatal. If its complexion gets yellow and pasty, if it is listless, cross or peevish, gets thin, suffers with flatulence give it White's Cream Vermifuge. The only cure that never fails and has no bad effects. Sold by all druggists.

R. C. Davis & Co., of Jacksonville, handle silk typewriter ribbons, 75c. each; $7.50 per dozen.

THIS season you're going to have an unusually fine lot of rich colors and patterns in clothes to make your choice from. As usual, the

Hart Schaffner & Marx

line offers a greater variety than almost any other half-a-dozen lines; and we've picked for you the best and smartest of them.

In suits the prevailing colors are grays and blues. Grays of many shades, and in many very attractive patterns; blues in self stripes, and herring-bone weaves; or plain serges, soft and hard weaves; many decorative patterns are shown.

In overcoats much the same general plan of coloring; oxfords, grays, or dark mixtures. Better choose yours early.

When buying goods from this store, remember you are getting no shoddy, left-over goods, odd and ends of last season, but the very latest, best and newest up-to-date in goods and workmanship. Remember, we are not connected in any way with any other store or firm in the city. New arrivals daily.

This store is the home of Hart Schaffner & Marx clothes

Leaders of style, quality and workmanship.
