Our $15 Suits

Fill the Average Want.

They are unusually good this year, due to the spirit of progress which inspired the designers and makers. The styles are full of snap while the patterns are beautiful in the extreme. Suppose you drop in and examine the new Serges, Worsteds, Thibets, Cheviots and Fancies.
The workmanship and finish of these Fall Suits surpass any previous season's offerings. Better grades if you wish them, at $15.00, $20.00 and up to $35.00.

COOPER TO BE MONTH IN ST. LOUIS

Young Man Talks of His Medicine Which Caused Sensation East.

St. Louis, Sept. 26.—L. T. Cooper, or the "Great Cooper," as he is called was seen in his hotel this morning by a reporter and proved to be a comparatively young man, as he is little over thirty years of age.

Mr. Cooper is the man who is said to have created a sensation in eastern cities by his extensive charitable work and the enormous sale of two preparations of which he is the owner. While talking his face lights up with a smile, almost boyish in its expression, and he seems very young to have acquired the enormous fortune he is said to possess. When asked about his plans for his visit to St. Louis, he said:

"I shall remain in this city about four weeks. I have come here to introduce my preparations in my usual way and I will give the public ample opportunity to ascertain whether the claims I make for these medicines can be verified.

"It is one of my beliefs that every successful man should devote a part of his resources in aiding the unfortunate. I rely to a great extent on the public for information concerning families, or individuals who are in need, and I will, therefore, be very grateful to all who will send me the name and address of people who are destitute."

Upon being asked about the public removals of deafness, which he has made in Pittsburg and other cities. Mr. Cooper said: "I have appeared each night in the cities I have visited, before audiences that ranged from two to ten thousand people, and have stated that I would remove in less than three minutes' time, deafness of years' standing."

"I have treated in public in this manner over a hundred people each night. I shall do this work in St. Louis to some extent, and I will then prove whether I am successful or not. It will be time to discuss this work after I have given one of these demonstrations as my claims would now seem extravagant.

"The preparation with which I give these demonstrations is not the one to which I owe my success, as my New Discovery is my principle remedy. This preparation is for the removal of all forms of stomach trouble.

"I have not yet decided where my headquarters will be while here, but will know within the next twenty-four hours."

BEULAH

Special to The Journal.

Beulah, Sept. 26.—No hay weather yet, that anyone can bet on. I never will say we have good hay weather till after we have had it, then I know I will be all right.

Rev. Netherlands is building a house for himself, and, if nothing prevents, will have it ready to move into in another week. He and his wife are at present staying at C. B. Bushy's.

Mr. John T. Wilson, who came home from the county convict camp sick, has gone back to work again.

Mrs. Fannie Netherlands spent part of last week at Muscogee, the guest of her sisters, Mrs. Paul Shelby and Mrs. Will Garrett.

Mrs. P. C. Dawkins was on the sick list part of last week.

Mrs. James Snowden celebrated her birthday last Thursday evening by a supper and flinch party. By invitation, a number of friends were present to enjoy the happy event. All had a good time, and at parting wished her many happy returns of the day. Miss Tedie Hanna, her neice, from Quintette was one of the merry party.

The friends of Mr. Henry Davis will be pleased to learn that he has so far recovered from the effects of the accident by which he had a leg broken, that he has dispensed with his crutches, but still has to use a cane. He expects to be able to throw that away in a couple of weeks.

The school house in the new district near Klondyke, is completed and school will commence there October 1.

Supervisor of Roards, Captain George Davis, did a lot of good work on the hard road, before he was let out. In fact, he did the best job of grading the road ever had since it was built.

Somebody has blundered, either in putting him in, or in putting him out. At least, this is the opinion of a good many in this community.

Mr. John B. Hirst killed a fine beef Monday, and found a ready sale for all he wished to dispose of. There is good money in beef cattle in this country.

Pain from a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists.

OPENING OF THE FLA. FEMALE COLLEGE

Term Opens With Every Prospect of a Successful Year.

Special to The Journal.

Tallahassee, Sept. 26.—The Florida Female College opened for the college year of 1906 and 1907 yesterday, with an enrollment of about 175 students. There were the usual opening exercises in the morning.

The college opens this year with extremely bright prospects. The faculty is that of last year, with one or two exceptions.

Under President Murphree the college—which was organized under the provisions of the Buckman Law—at its first session attained a marked degree of success. The students and faculty enter upon the second year with every prospect the brightest.

The Florida Female College is primarily a college of liberal arts, with which are associated a school of industrial arts, a school for teachers, and a school of fine arts. The aim of the institution is, in the course of time, to provide every facility for the higher education of women and to render the college a university for women in fact, it not in name.

The Leon High School, with Hon. W. N. Sheats as principal and a full corps of efficient teachers, opened Monday.

The Kindergarten department of the High School also opened Monday, in charge of Miss Butterick.

A BIG ARCH FOR THE WONDERWAY

The Jacksonville Carnival Association has just let the contract for the erection of the majestic arch at the entrance to the Wonderway of the carnival which will be held November 5 to 10. The arch is to be erected near Market and Eighth streets, and is to cost more than $600. It will be electrified.

The contract was awarded to the Jacksonville Plastic Art Company, and the work of wiring the arch was placed in the hands of the Standard Electric Company.

A drawing of the arch was submitted to the Carnival Association by the Plastic Art Comany along with the bid, and it shows a handsome structure with an Arabian coat of arms at the zenith, under which two dragons are supporting a blazing sun, and below this supended on gilded ropes is an immense sign, "Wonderway."

TEMPERATURE OF 79 DEGREES

The maximum temperature in Pensacola yesterday was 79 degrees at 10.10 a. m., while the minimum was 76 degrees at 3 a. m. The rainfall up to 5 p. m., was .11 of an inch.

Last year on the same date the maximum was 85 degrees, and the minimum 74 degrees.

MAYOR BLISS TO RETURN HOME SOON

Has Been Having Fine Visit And Leaves To-day For Blount Springs.

Mayor Chas. H. Bliss, who left the city about two weeks since for his old home in Auburn, Ind., has been having a fine visit, and is to leave there to-day for Blount Springs. It was reported that the mayor, who had a very bad cold when he left the city, was seriously sick in Indiana ,and The Journal Telegraphed there to learn the truth of the report. The mayor's reply is as follows:

"Auburn, Ind., Sept. 26, 1906.
"Pensacola Journal, Pensacola, Fla.
"Cough developed into hay fever, but nothing serious. Leave for Blount Springs, Ala., to-mororw.
"CHAS. H. BLISS."

It is expected that the mayor will reach home about Sunday unless he changes his present plans.

COUNT'S NOVEL MANSION.

Cool Retreat Built by Frenchman Under the River Seine.

Society in Paris has just awakened to the fact that one of its leaders has completed a magnificent and costly mansion under the river Seine, where one can enjoy the most delicious coolness during torrid days, says a cable to the Chicago Record-Herald. Count Victor de Larnau is the proprietor of the novel mansion, which he had built secretly between Melun and Sens in order to surprise his friends.

Recently he sent out invitations and automobiles to convey his guests to the strange habitation and on arrival every one was surprised to find a most luxurious abode under the water. The entrance is through a grotto on the river embankment and adorned with many statues. An elevator takes the guests below the level of the river and then an entrance is made to a magnificent reception room in the center of which a marble fountain adds to the coolness of the surroundings.

A complete dining room, library, bedroom and kitchen constitute the other apartments of the novel house. The count is besieged with requests for invitations to visit his abode under water.

Result of Wearing High Collars.

That high collars tend to produce nervous headaches among both men and women is the most recent discovery of a well known Viennese physician. Quite accidentally the doctor's attention was directed to the very high and very tight style of collar worn by a patient who was always complaining of headaches and giddiness. The collar was laid aside, thus removing the compression of the neck, and the patient's headaches and giddiness disappeared. Struck by this result the doctor paid particular attention to the kind of collars worn by his "headache patients," and in very many instances the change to lower and easier fitting collars brought immediate relief. In the case of women wearing high stiff neckbands it was found that doing away with these had a similarly beneficial result. The doctor declares that nobody with a tendency to headache should wear high collars.

Marksman Button Won by Woman.

Officials of the recent national shooting tournament at Sea Girt, N. J., are in a quandary as to whether to certify a woman to the war department as an expert marksman, says the New York Herald. The woman is Mrs. Elizabeth Topperwein of San Antonio, Tex., the only competitor of her sex on the range. She earned a marksman button and got it, but the question of certification must be settled by the national board for the promotion of rifle practice. Mrs. Topperwein was excluded by their conditions from the big matches, but she entered the national marksmen match, a continuous competition, which entitles those making 50 points out of a total of 75 to be enrolled in the war department as a national marksman. She shot with an automatic rifle and made a total of 50. She was congratulated on all sides.

COUNCIL WILL MEET NEXT WEEK

Adjourned Last Night For Lack of a Quorum to Next Wednesday Night.

No session of the City Council was held last night, due to the lack of a quorum when the hour for convening the session arrived. Those present at that time were Mayor Pro Tem Maura and Alderman Reilly and they adjourned the meeting to next Wednesday night at 7 o'clock.

A number of the aldermen are absent from the city, as is also the mayor, and one or two are confined to their homes by illness. It is thought that by next Wednesday night, however, a quorum can be obtained. By that time the mayor is also expected to return to the city.

Some very important matters are to be acted upon by the aldermen at the session next week, including the receiving of the budgets of the various boards from the finance committee, and making appropriations for these boards for the coming fiscal year.

The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and so natural you can hardly realize that it is produced by a medicine. These tablets also cure indigestion. For sale by all druggists.

REMEMBER THE EAGLE'S SHIRTWAIST BALL THURSDAY NIGHT, SEPT. 27.

GOOD ADVICE FOR THE JEWELER

The following which is clipped from The Jeweler's Circular-Weekly, one of the foremost trade papers of the present age ought to be a hint for the live jewelers of Pensacola, because every word of the clipping is true:

Never in the history of the jewelry trade has the fall season opened so auspiciously as has the present one. It is such times as these, when money is plentiful, that most people think of buying jewelry, precious stones, silverware, watches and similar articles, and the bulk of sales in this trade this year will create a ne wrecord. Learning from experiences of the past, manufacturers are now working to their fullest capacity, and the retail jeyelers are buying earlier than ever before. The fall season has already been most active, and from now to the holidays there is every reason to believe that the demand for wares in the jewelry and kindred trades will far exceed the supply.

The Land of "I Forgot."

Little Trit Trot was a poor little slave
In the land of "I Forgot."
He ran and he ran the livelong day,
Did little Tritity Trot,
Who lived with his mamma just over the way
In the land of "I Forgot."

It was "Where is my hat, and where is my cap,
And where is my brand new ball?
And where is my bat and my catching glove?
I cannot find them at all."
And he hunted and looked upstairs and down,
In kitchen, chamber and hall.

The hat was found in the top of a tree
By the side of a tattered kite;
The cap was left in old Blackie's nest
When he gathered the eggs at night.
The hat was wet, and the cap was torn,
And both were a sorry sight.

The ball and the bat and the catching glove
Were down in the pasture lot,
And the slate and sponge and strap and books
Had hidden under the cot.
For this is the way things lose themselves
In the land of "I Forgot."
—Mary Morrison in Youth's Companion.

Short Talks on Tailoring

Front puckered? The cutting has nothing to do with this. Puckering of the edge of coat may be caused by the tailor drawing the edge too straight. Or failure of the tailor to promptly shrink the canvas. Sometimes it is too much 'mercerized," but not often. Puckering at the seams is caused by improper handling by the tailor and is excusable.

Puckering of the fibers is due to uneven shrinking of the material by the tailor or simply "bum goods." Our garments don't pucker anywhere.

Fit, finish and fabric. Three features of tailoring which we watch and properly care for.

If one's wrong the rest don't count.

We make 'em all right by combining careful hand work with good head work.

Our tailoring mirrors the Fashions from the hour they are created.

Fall assortment acts like a magnet on discriminating dressers. Something good for every good taste.
