BALLAST FOR CITY HALL YARD

350 Tons of Clay Has Been Secured and Will Fill In Front Yard.

The work of filling in the grounds around the new city hall is to commence Monday morning. Mayor Goodman has secured from a ship 350 tons of clay ballast, which will serve most acceptably in filling in the ground in front of the hall, and a contract for moving and spreading the clay is to be awarded today or tomorrow, so that the successful bidder can commence the work Monday morning.

It is the intention to use the clay for the front portion of the grounds, or those facing Jefferson street, and to fill in the rear portion of the grounds with stand, which can be secured about the city.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

HOT ROAST SERVED FOR BANNER EDITOR

tinction otherwise; McDuffie to whom you refer as from Georgia was a United States Senator from the State of South Carolina; Cass, whom you incorrectly state achieved distinction from Missouri, was a United States Senator from Michigan; Hendricks and Voorhees, whom, with inexcusable inaccuracy, you likewise state were Senators from Missouri, were never any such thing but, as any schoolboy knows, were senators from Indiana. To cap the climax of your absurdly ignorant article, you mention Fillmore as being a senator from the state of New York, which of course he never was.

You refer to me as "fresh," "young," "youthful." I will warrant that there is not a "fresh," "young" or "youthful" schoolboy a dozen years of age in any public school in Marion county, who in the course of one essay on any historical subject will display the same lack of historical information, the inaccuracy and general all-round ignorance, that you have done in the course of your "profound contribution," maliciously critical of me.

Wants to Frank Him.

The United States Government does not allow me as a Senator from Florida any United States histories to send to my constituents. If I were so allowed I would send you one, but I respectfully recommend to you, the next time you undertake to learnedly and lovingly discuss me, or anyone else, from a historical standpoint that you call in some barefoot schoolboy, not exceeding twelve years of age, and he will give you more correct information than you have evidenced you possessed when you mounted the tripod to attack me.

Fortunately the people of Florida are sincere lovers of fair play and are not as ignorant nor, although you pride yourself on being the Nestor of the Florida Press, are your brethren, in my judgment, so inadequately equipped, so illy informed, nor so apparently ready to do even a "young" man an injustice as you evidently are.

Yours very truly,
W. J. BRYAN.

room has been all of the social interchange that has taken place.

The latitude of the evidence has revealed to Harry Thaw and his wife that this plan was approved by his mother and the information of the insanity taint in the Thaw and Copley families was given by her. In thus baring the family skeletons to public view, she has sacrificed the pride of her whole family. In doing this she gave no heed to the wishes of the girl-wife, and it is said that Evelyn did not even know that her husband was to be proved insane.

TAX COLLECTIONS ARE FAIRLY GOOD

Tax collections by the city have been fairly good since the books were opened by Collector Whiting, and up to last night he had turned into the city treasury the sum of $74,000 which, for this date, is considered a good showing.

With the end of January interest will be added at the rate of three-fourths of one per cent. Heretofore taxpayers received a discount, but in January the discount ceased, and with February interest is to be added.

WORKS BOARD OUT OF FUNDS

Account is Overdrawn and Hired Teams are To Be Let Out.

The Board of Public Works has overdrawn its account by about $3,000 according to a communication from Comptroller Morgan, which was read to the board at its regular semi-monthly meeting last night. As a result of this notification the street superintendent was instructed to discharge all hired teams in the employ of the city, while Chairman Daniell was requested to appear before the council and request additional funds with which to continue the work.

Many other matters were considered at the session of last night at which there was a full attendance. C. F. Zeek was named as chairman of the Granada Park commission, while portions of Palafox street were granted to the ladies of the Methodist and First Christian churches for use during Mardi Gras.

Lighting Contracts.

The contract for lighting the city during the year was not awarded last night, excepting for an additional 25-series incandescent lights, which the Pensacola Electric company is endeavoring to introduce. These are quoted at $25 per light per year. The bids of both the gas and electric companies were opened, the Pensacola Electric company agreeing to furnish arc lights at $80 per year each, and series incandescent at $25 per year each. The Pensacola Gas company offered gas lights at $27 per year for 100, or less, and $26 per year each for more than 100 and less than 200. Neither bid was accepted, as both companies requested that they be allowed to make a demonstration of street lighting, and this was granted. The clerk was also instructed to communicate with other southern cities and ascertain the price being paid for both characters of lights.

Other Business.

The council was requested to pass an ordinance establishing a shade tree line for each of the various streets, and also to name the distance to separate each tree planted.

Street Superintendent Burns was instructed to commence the work of placing a drain on West Gadsden street and continue at work on it until completed.
