THE STATE EXECUTIVE COMMITTEE TO MEET

WILL CONVENE AND ACT UPON RECOMMENDATIONS FOR CHANGES IN PRIMARY LAW.

The State Democratic Executive Committee will convene on March 23rd, in Jacksonville, when recommendations for a change in the state primary laws will be received and considered. The meeting will be a most interesting one, and of it the Jacksonville Times-Union says:

"A meeting of the Democratic State Executive Committee of Florida has been called by Hon. D. U. Fletcher, chairman, to convene in this city, Thursday, March 23, at 10:30 o'clock, in the parlors of the Everett Hotel.

"Chairman Fletcher has written to Secretary Herbert L. Dodd, of Lake City, directing him to issue the call for the committee to meet on the above date and at the place specified. The object of the meeting is to receive and act on the sub-committee's report on changes in the primary election law.

"It is expected that the sub-committee will get together and agree upon changes to be recommended in the primary election law, so as to report at the meeting of the state committee.

"There were so many charges of alleged fraud and so much dissatisfaction with the law, as it is at present, at the last primary election, that the state committee, last July, authorized Chairman Fletcher to appoint a special committee to recommend changes in the law to the full committee and the committee will act upon the same. The state committee will adopt resolutions and recommend to the state legislature any changes that may be agreed upon by the committee as a whole.

"The sub-committee is composed of the following members: From the First Congressional District: J. M. Young, of Inverness, William Hocker, of Ocala, and L. E. Dozier, of Leesburg. From the Second Congressional District: Charles D. Tuten, of Jasper, W. W. Farmer, of Yulee, and D. U. Fletcher, of Jacksonville. From the Tihrd Congressional District: Charles E. Davis, of Madison, E. A. Crawford, of Midway, and W. T. Hendry, of Perry.

"Chairman Fletcher is a member of the committee by resolution adopted by the state committee."

The Coast Line of the Pacific.

Although the Pacific covers more than half the surface of the globe and has an area estimated roughly at 90,000,000 square miles, yet its coast line, even including that of the Indian ocean, is but 47,000 miles, or about 8,000 miles less than that of the Atlantic. The shores of the Atlantic are very deeply indented by large seas, of which the Baltic and Mediterranean are the most remarkable. Besides these, the greatest lateral seas and gulfs in the Atlantic are the gulf of Mexico, Caribbean sea, Hudson bay and the bay of Biscay. If we take from the Pacific the Red sea, Arabian sea and bay of Bengal, which are part of the Indian ocean, we leave it with a remarkably straight coast line, with the exception of a few deep indentations on the coast of Asia.

It is owing to a free impenetration of land and water and consequent ease of communication between one country and another that the most civilized nations of the world, with few exceptions, have lived and now live on the shores of the north Atlantic and its lateral seas.

Bob Toombs' Way.

General Robert Toombs was as impulsive as he was courageous. Once, in the midst of a hot political campaign, a stump orator said something about the general's arrest by Robert E. Lee for insubordination, frightfully distorting the incident. Toombs wrote one of the hottest letters of his life and was about to seal it when a friend entered his office and, seeing him much agitated, inquired the cause. The letter was handed to him to read, and when he had finished it he remarked, "You don't intend to send that to him?" "I do," said Toombs. "Better wait till tomorrow and think it over, general." "Never, sir! I have known him to be a liar, a blackguard and a thief all his life, but never before had cause to tell him so. The opportunity is now offered, and I wouldn't miss it for the senatorship. Wait till tomorrow? Think it over? That is to throw away the chance of a lifetime. Strike while the iron is hot, sir! Bob Toombs is the iron! Bob Toombs is hot! Toombs will strike!"—New York Press.

RE-UNION WAS A BIG SUCCESS

LARGE NUMBER OF VETERANS ATTENDED THE RE-UNION AT DeFUNIAK.

The Confederate re-union at DeFuniak Springs on Saturday was a decided success, notwithstanding the inclement weather, there being in attendance about one hundred of "the old Vets," who were able to keep step to the strains of "Dixie," and to cheer most lustily every mention of the names of Confederate leaders.

The adjutant's report showed the First Florida brigade to be in a flourishing condition, three new camps having been added during the past year, and increased enthusiasm manifested all along the line.

The brigade sent greetings to General S. G. French and General Wm. Miller, and passed memorial resolutions on the death of Hon. John H. Reagan, post master general of the Confederate states, and of General J. J. Finley, a distinguished officer in the Confederate service from the state of Florida.

Brigadier General W. L. Wittich was re-elected commander, and resolutions of thanks to the members of the Florida Chautauqua, the officers of the Louisville and Nashville railroad and the sheriff of Walton county for courtesies extended during this re-union.

COUGHED ALL NIGHT

But Got Quickly Cured by Chamberlain's Cough Remedy.

"A few mornings ago Mr. J. G. Smitherman, a good citizen of this place, came to the store for a cough medicine," says Dr. C. N. Parnell, of Maplesville, Ala. "He was so hoarse that he sould hardly talk and said he had coughed all the night before. I sold him a bottle of Chamberlain's Cough Remedy and told him that if it did not relieve him he might bring the bottle back and get his money. I saw him the next morning carrying the bottle to the store where he works, and he told me it did him more good than any medicine he ever used." For sale by all druggists.

REAR ADMIRAL DICKENS TO COMMAND COAST SQUADRON.

Rear Admiral Dickens, who is well known in Pensacola, where he commanded the local navy yard, is soon to assume command of the Coast squadron, of which the Texas is flagship. Speaking of Captain Dickens, and his successor at the League Island navy yard, the Army and Navy Journal, says:

"No announcement has been made regarding the successor of Rear Admiral F. W. Dickens as commandant of the League Island navy yard, when he goes to command the Coast squadron, but is is learned unofficially that the Chief of the Bureau of Navigation is considering the name of Capt. Edwin Longnecker in this connection."

NAGGING PAINS

Newport News, Va., July 22, 1903.

Last summer while recovering from illness of fever, I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of linaments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than for years, and I cheerfully recommend S. S. S. to any one suffering from Rheumatism.

613 32d St. CHAS. E. GILDERSLEEVE.

Rheumatism is caused by uric acid or some other acid poison in the blood, which when deposited in the muscles and joints, produce the sharp, cutting pains and the stiffness and soreness peculiar to this disease. S. S. S. goes directly into the circulation, all irritating substances are neutralized and filtered out of the system, the blood is made pure and the general health is built up under the purifying and tonic effects of the vegetable remedy. Write for our special book on Rheumatism which is sent free. Our physicians will advise without charge all who will write us about their case.

WHY WOMEN LOOK OLD

ILLNESS AND SUFFERING LEAVE DEEPER MARKS THAN AGE.

A CERTAIN HOME CURE FOR ALL WOMEN'S TROUBLES.

Many—very many—women look old long before their time. Wrinkles, crow's feet, hollow cheeks, sunken eyes, gray hair and other marks of age come years before they should. They are the direct result of the suffering caused by diseases peculiar to the sex. They can be gotten rid of only by removing the cause.

G. F. P. (Gerstle's Female Panacea) cures every form of female weakness and restores health and youth and beauty. It will make any jaded, run-down woman look from five to ten years younger. All misplacements, irregularities and weaknesses are cured safely and quickly by this wonderful remedy in the privacy of the home. It is purely vegetable, absolutely harmless and certain in its cure.

Many women have been restored to life and health by this great remedy after all others had failed and doctors had given them up. Leucorrhea, falling of the womb, and all troubles of the ovaries are cured permanently by G. F. P. It is for sale by druggists at $1.00 per bottle, and if you are not benefitted by its use your money will be returned to you at once and without question by the druggist from whom you purchased.

If not kept by your druggist, will be sent to you prepaid on receipt of same price and on same conditions.

If you feel that your case needs especial attention, write to Ladies' Health Club, care Gerstle Medicine Co., Chattanooga, Tenn., and your letter will be answered in confidence by intelligent and sympathetic women, write to-day and be relieved of all your troubles and suffering.

Stopped the Rain.

In the sixteenth century, it is alleged, there was a successful effort made to stop rain by the use of gunpowder. Benvenuto Cellini tells us in his memoirs that when Margaret of Austria entered Rome it rained heavily. "I pointed several large pieces of artillery in the direction where the clouds were thickest and whence a deluge of water was already pouring; then when I began to fire the rain stopped, and at the fourth discharge the sun shone out."

Would Have Use For His Eyes.

"Want to get off again, do you?" roared the boss. "This will be the sixth time you've been off this week. What's the trouble now?"

"I want to get my eyes examined," sullenly replied the clerk.

"Well, get 'em carefully examined while you're about it. You'll be looking for work after Saturday night."—Pittsburg Post.

RUSSIANS SURRENDERING IN LARGE NUMBERS.

New Chwang, March 13.—Japanese officials arriving here from Mukden say that Russian soldiers are surrendering in constantly increasing numbers, and that great bodies of kneeling men beg mercy of the victors. Starving, wounded and half-frozen Russians, officers say, are hiding in the country side, and, as their escape is impossible, they must either surrender or perish. The country being entirely out of provisions, the job of transporting and caring for thousands of Russian prisoners is now engrossing the attention of the Japanese authorities. It is said some forty thousand will be sent to Japan by way of Dalny and large numbers shipped from Yin Kow as soon as the Liao river opens.

May Compel Peace Proposals.

Washington, March 13.—It is learned that a Russian official has expressed the opinion that Russia will be forced to ask for peace in view of Kuropatkin's defeat.

Berlin, March 13.—The opinion that peace between Russia and Japan is near at hand is gaining ground here.

Talk of Peace Negotiations.

Washington, March 13.—Becoming convinced that Russians and Japanese will both succeed to financial strain from the war, a diplomat connected with a neutral power most interested in the final issue, has within the last two days sent a confidential message to his government warning it to be on the lookout for a secret agreement between Russia and Japan direct, providing for preliminaries for a settlement of their differences. The belief that when peace negotiations begin they will be conducted between St. Petersburg and Tokio, finds much credance. It is declared that the United States, Great Britain, Germany and France are keenly on the alert for such a development and would promptly demand that the terms for such an agreement be submitted for their inspection. It is learned that China is prepared, when the hour of peace comes, to call the attention of the powers to the principle that "China's administration entity must be maintained."

SECOND PACIFIC SQUADRON RECALLED.

Washington, March 13.—The Associated Press has high authority for the statement that the Russian Pacific squadron has been recalled by the Russian government. While not regarded as a sure sign of peace, recall in the opinion of European chancelleries is regarded as a hopeful sign that peace is close at hand.

Internal Dissention.

Warsaw, March 13.—Reports from trustworthy sources are to the effect that many reserves have been called out, causing considerable uneasiness in view of the critical situation, especially in outlying villages where peasants are growing uneasy. Farm laborers have struck in many places in the government of Lubin demanding higher wages and nine hours as a day's work.

Printers Strike.

St. Petersburg, March 13.—The strike inaugurated in the printers' trade is almost general to-day and it is feared that newspapers may not be published to-morrow. Authorities have notified all of the strikers of state factories belonging to army or navy reserves that they may be immediately drafted to Manchuria unless they resume work at once.

Resolutions For Russia.

New York, March 13.—At exercises held in the Academy of Music, in memory of Robert Emmett, the Irish patriot, resolutions denouncing Europe were adopted among great enthusiasm.

"We extend to the government and people of Russia," said the resolution, "our heartfelt sympathy in the struggle they are now carrying on with England's ally, Japan, for the natural right of expansion to the sea from which they have been barred for a hundred years by England."
