WORLD'S NEWS CONDENSED

The great textile strike at Manchester involving more than one hundred and fifty thousand workmen, was settled Monday. The mills will resume operation Monday. The government and the Board of Trade forced both sides to make concessions until an agreement was reached.

Mayor Maddox, of Atlanta, states that Col. Roosevelt told him Saturday as the party were riding through the streets and commenting upon the royal welcome he was receiving in the south. "If I thought I could carry a single southern state, I would run for the Presidency." This remark is considered rather significant and it is believed that as a result of his trip through the South and the cordial reception given him, Colonel Roosevelt may decide to make the race in 1912.

A report issued by the department of commerce and labor, called the August Bulletin of that branch of the government, has been published. It shows that between the dates of July 1, 1908 and June 30, 1910, Florida received more immigrants than any other southern state except Texas, Florida has more than Alabama, Georgia, or either of the Carolinas. Immigrants to Florida, 12,096; Georgia, 1,038; Alabame, 1,697; North Carolina, 679; South Carolina, 444; Texas, 36,196.

An old apple tree for which $20,000 has been offered and refused is the property of an Eastern Washington nursery. The tree grew from seeds planted twenty years ago by an Indian and produces a peculiar variety of golden yellow fruit, remarkable both for taste and keeping qualities. For several years grafts have been taken from the tree and planted, the "offspring" of the tree now covering a thousand acres. Both the parent tree and the youngsters are carefully guarded night and day by armed guards.

The Supreme Court of the United States re-assembled Monday. The Standard Oil and Tobacco Trust cases were reassigned to November 14th. Three employers' liability cases and the corporation tax cases were set for January. Application made by W. W. Flournoy of DeFuniak, Florida, for the reassignment of the peonage cases from West Florida was overruled, Attorney General Wickersham objecting on the ground that the government is ready to proceed and that there has already been too much delay. The case of the Buck Stove Compony versus the officers of the American Federation of Labor was reassigned to January 16th despite the objections raised by counsel for the company.

Seven thousand square miles of territory in northern Minnesota and southern Ontario is a smoking funeral pyre. Fire driven fast by high winds still surges on, taking its human toil and destroying property everywhere. Over one thousand are dead and from three to four thousand are missing. Twelve towns and villages have been wiped out and eight thousand men, women and children are homeless. The property loss will exceed one hundred million dollars. Ghouls and looters are adding to the terror of the situation. Soldiers have been ordered to shoot the looters on sight. The terrible flames are sweeping on and only a heavy rain can slow the awful inferno scourge. Supplies, tents, food and clothing are being rushed in from St. Paul, Minneapolis, Duluth and other places.

A special from Millbury, Mass., says an alleged scheme for the assasination of President Taft was unfolded to Miss Della C. Torrey, aunt of the president, by a stranger who called at her home. The man, who refused to give his name claimed to have overheard the plotters while in Boston. As he departed he threatened to return and kill Miss Torrey if the matter got into the newspapers. The man went away from Millbury as suddenly and as mysteriously as he had come and there is no clue to his whereabouts, although Miss Torrey immediately reported the facts to the Millbury authorities and they in turn asked the assistance of the Worcester police. The matter has been reported to the secret service authorities. In telling of the man's visit Miss Torrey said. "He told me he had been in Boston and had heard some men say they were going to kill the president and he thought I ought to know about it. He did not tell me his name or leave his card, and altogether he was a queer acting man. He said not want anything to get into the papers about it, and if it did he would come back and kill me. As soon as he had gone, I got word to the secret service men, for he was such a queer acting man that I did not know what might happen."

Lieut. Governor Horace White was sworn in as chief executive of New York succeeding Governor Charles Hughes who left last Friday for Washington to assume his duties as associate justice of the supreme court.

Frank M. Lupton, the millionaire publisher, killed himself Thursday by cutting his throat with a razor. The cause was despondency, due to ill health. Mr. Lupton was probably the best known publisher of books in the United States.

Hoke Smith was elected governor of Georgia by a majority estimated at ninety-five thousand votes. Governor Jos. M. Brown received twenty thousand votes and carried two small counties. Brown's candidacy was pushed by Tom Watson. Brown was not an avowed candidate and cast his own vote for Smith.

Evidence before the coroner's jury at Lake Charles, La, seemed to prove that Dr. Temple Smith, president of the Board of Health, was killed by his wife in a duel. The two had quarrelled and parted, with threats to kill on sight when next they met. The woman proved to be the quicker with her gun. As the doctor fell mortally wounded, he exclaimed, "For God's sake, finish me; it was a fair fight." The woman is charged with manslaughter.

It is believed the men who carried out the plot to wreck the Times building and attempted to destroy the homes of Harrison Gray Otis and F.K. Zeehandelaar, at Los Angeles, were expert quartz miners from the gold districts of Northern California. The theory is based on the fact that the men who purchased the dynamite used the names J. L. Bryson, the Placer County miner, and that of Bryson's neighbor, Morris, and it is supposed that detectives are trying to trace them back to the mining districts. The labor unions have been refused permission to assist in the investigation, though they have offered a reward for the apprehension of the guilty parties.

EDEN

C. A. Robinson spent last Saturday at the county seat.

Mrs. R. R. Ricou spent Tuesday at Pine Grove the guest of Mrs. John Miller.

Mrs. Schofield, our teacher, is making preparations to go to house-keeping in the parsonage.

J. H. LeTourneau has received a fine Whitney player piano for the use of himself and family and friends.

E.H. LeTourneau and C. E. DeMouth did some much appreciated work on our new shell road last Saturday.

Miss Barbara Miller who is teaching at Jupiter spent the week end at home, returning to Jupiter on Sunday evening's train.

We are shipping a few pines, limes and guavas but alligator pears are a thing of the past and guavas too scarce to be considered.

Last Sunday the beach claimed a good percentage of visitors who took advantage of the first fair day we have had in some time.

Riverside Drive was gay last Sunday with vehicles of all description. Among the automobilists flashing by we noticed Mr. and Mrs. A. K. Wilson and family, of Fort Pierce.

Our neighbor, R. R. Ricou, of Jensen, seems to get more solid satisfaction from his auto than any body we have seen. He looks perfectly happy and at peace with all the world as he rides along.

Mrs. Float, mother of C. E. Edason happened to quite a serious accident recently, having fallen on the stairs and broken her wrist. We hope she will have a quick recovery and no bad effects from the fall.

F. G. McMullen came in on Thursday's evening train last week. He was very welcome especially as his father-in-law has been leading a very lonesome existence since his wife and daughter left for the north.

Miss Maud Miller and William Wolfe Jr., and Charles Phillips have entered Jensen High School and enjoy their daily trips to and from school very much as they have a choice between land and water, sometimes going by launch, and sometimes by carriage and occasionally by foot or by automobile.

We are very sorry to hear of our good friend, Dr. Holmes, being on the sick list. He writes from his sick bed that he has "a few cracked ribs, and is recovering from a severe attack of lagrippe." We hope he will soon be about again looking after his sick friends who can ill afford to spare him.
