Philipsburg.

Dear "Mr. Labourer";  
In last week's issue of this newspaper you were selected as "Windward Islands Man of the Week", and the horrible truth of your pitiful condition was revealed to the world. But do you know that you and you alone are to be blamed for your present miserable condition?  
It is your fault that your little daughter must walk the streets barefooted. It is your fault that you wife must break her pretty head trying to make ends meet because you have failed her as a husband. It is your fault that you as a son has failed to provide your old parents with the comforts that are essential to the aged. It is your fault that you as a parent have robbed from your children (who are tomorrow's leaders of St. Maarten) the opportunity to arm themselves with the powerful weapon called education. It is your fault that you as a brother has barricaded your brothers' way to prosperity. YOU ARE THE STUMBLING BLOCK IN THE PATH OF YOUR OWN PROGRESS.

And worse of all, you have failed your country as a man. And do you know why? Because in 1959 you stifled the voice of your conscience and placed into the hands of a few heartless dictators the power to trample you and your loved ones as they please. Yes, you became the traitor of your country by allowing a bunch of parasites to cunningly steal your vote from you with a few vain promises and a few drinks. You proved that you were immature of bearing the responsibility of the vote that was entrusted to you.

Perhaps you did not know better at the time but today the shield of ignorance can no longer protect you. It can no longer form an excuse for you.

Thanks to the editor of this newspaper you are today wide awake and conscious to the diabolical activities that are forming your destiny. Thanks to the manly courage of this "bearded patriot" who dares defy the powers that be, you are today alerted to the egoistic schemes and false pretext that smother your welfare daily. The ugliness and filth that lie hidden under the smiles and "greatness" of your so-called representatives is now revealed to you and the world.

Again the time is approaching when you will have to decide your fate and that of your children. But this time you are prepared to meet the challenge. This time you will make use of the privilege to throw from your backs that bunch of parasites who feast on your labour and throw the crumbs to you. Now is the chance to rid yourself of these so-called protectors of the poor. (Laugh). Free yourself of these demons who, in order to materialize personal interest and egoistic princi-

BASEBALL

(Continued from page 4)

The Dodgers came back from the bottom of the league (thanks to two imported players from the U.S.A. - a pitcher and a catcher) to defeat Marigot on Sunday at Marigot sport field.

Pitcher Frank Peterson just from the States had no trouble in controlling the game from start to finish. Marigot scored from a Home run in the second by R. Baly and one more in the ninth, off two singles and a walk.

F. Peterson was the winner while E. Brookson took the loss.
