

and demonstrate our sentiments towards our slave-wages. We will have our revenge taken on that day and it will never be forgotten in the history of the working man.

Just as the French population celebrate the 14th. of July, we Antillian Labourers will celebrate the 4th. of June - Just as the French revolutionists stormed the "BASTILLE", so we Antillian Labourers will storm our "Bastille" The Voting Bureau, and show our oppressors what we mean.

Our storming will not be similar to the French, it will be without the shedding of blood. We will storm our Bastille by casting our votes for the Windward Islands' People's Party which will be working for the interest of the working man.

So fellow labourers in the Windward Islands, vote that justice be done to you, vote for the higher wages, vote for the Windward Islands People's Party. LONG LIVE THE PEOPLE! LONG LIVE THE LABOURERS!

LETTERS TO THE EDITOR

(Not the responsibility of the Editor)

Dear Mr. Editor:

Please allow me space in your widely read paper, the Windward Islands Opinion, to write the following:

In accordance with the cries of the people of St. Martin, Statia and Saba; we as people from these same little islands have found it very much appropriate when we learn that the people of these little islands have joined whole heartedly in battle against the strong men of these islands that apparently care but very little about the poor people of these same little islands.

For this reason we the Windward Islanders residing here in Aruba are very much concerned about your decisions to set up a new energetic government, which would be more concerned about the welfare of the poor class of people in these islands. For instance, if we should look back through our records of time and deeds, our hearts would surely burn and ache anew when being reminded of the way in which our hurricane relief fund had been distributed. Next to be considered is the government low wages, and very poor consideration for the poor obligated labourers of the islands.

For the above reasons, we would appre-

ciate very much, an answer to these few questions:

Why should in our days of autonomy; when we are flying an Antillian flag with six (6) stars, of which are the symbols of the six sister islands of the Antilles under the Brotherhood of one Central Government, should the people of these three Windward Islands, St. Maarten, St. Eustatius and Saba be paid by the Government fls. 4.75 per day as labourers in comparison to that of the other three sister islands?

If no answer can be given to these questions, then I will conclude that this is the fault of your government; and if these are the faults of your government, it also means that we have all rights to vote them out of power; and elect a new board of representatives that would take more interest in the welfare of our poor class of people.

So now is your time to know whether you should free yourself from all these unjust and unkind actions, or whether you would prefer to continue your everlasting crying from the heat of fire that you yourself continue to promote for your own disadvantage.

For example, let's take in consideration Aruba, the natives of Aruba have now found it necessary to make a change in their government; and there is no one that can stop this change from taking place, because the Arubans are the majority of voters in their country, and it is them to decide, and they have also decided.

The Arubans have also decided that their list of candidates should be comprised of all Arubans, to take over the government as representatives of the Arubans; so it is for this reason we the Windward Islanders in Aruba have also decided to form a slate of Windward Islanders, the Windward Islands People's Party (W.I.P.P.) with the hope of electing one or even two candidates to the Staten.

DEAR WINDWARD ISLANDERS LET US ALL JOIN AS ONE AND ON JUNE 4th. VOTE FOR THE W. I. P. P.

Yours truly

A Windward Islander residing in Aruba.
