

not a criminal act has been committed against me by "Hechos"

However, "Hechos" could be of some assistance in this, by stating in its next issue:

- 1- Whether the "services" meant are the same sort of "services" which Mrs. Blanca Jbnokheer, wife of the Prime Minister, has so often rendered;
2. Or whether these "services" are the same kind of "services" which Miss Jewel Wathey, sister of deputy Claude Wathey, so willingly has rendered to Mr. Hyacinth Conner;
3. Or if it perhaps means by "services" the "services" which Sam Casseres cannot render and which Japa Beaujon is always so eager to render;

"Hechos" cannot be any means have meant by "services" the kind of services which have caused so many divorces among democrats, as in that case "Hechos" would have insulted a very large portion of Windward Islanders, besides the fact that the writer would in this last case have to face a criminal charge.

I therefore patiently await the answer from "Hechos" with an explanation as to whether it means by "services" immoral acts or just some other service, so that I may determine if I can lodge a complaint against "Hechos" or not.

Thanking you for the space allowed

I am, dear sir,

Yours,

Wallace Peterson, (ex-detective)

To The Windward Islands' Opinion:

Dear Sir,

For your "Information Please" this week I'll like very much to bring forth this question to you, rather its more like your opinion. As you have lived in Aruba for a long time and have seen baseball in that island.

DO YOU THINK THAT A SELECTION OF OUR BOYS FROM HERE IN ST. MAARTEN - ST. MARTIN CAN PLAY AGAINST A "AA" TEAM FROM ARUBA? Such as Hoinekens or Zenith or any of the other teams? DO YOU THINK THE BOYS FROM HERE WOULD HAVE A CHANCE TO WIN SUCH A TEAM?

I know that in Aruba there are very good teams and that they have more ex-

perience in baseball than we do. But I feel that with a good selection in my opinion anything could happen.

My opinion is that the boys would play better in Aruba because of the field there being much better. Here for example the field has plenty of little stones and grass patches, which make the ball difficult to field at times.

A couple months ago there was a scout from the U.S.A. assisted by two others from St. Thomas. One of them remarked: "I really don't know how these boys can field the ball here".

In Aruba's sport-park the field is smooth, no holes in the ground to look for that unexpected hop. You'll be able to collect the ball much better. That's what I mean by having a good chance in beating Aruba.

I have seen baseball in other countries and our boys have just as much hitting power as any I have seen - We have here in St. Maarten good Batting good Pitching and good enough fielding to do anything. I'll like very much for you to print this Mr. Lake and also have your opinion on this issue.

Thanking you in advance,

Your truly

D. Cannegieter.

Ed. note: It is my honest opinion that in three years the boys here have improved a great deal; and that to-day a selection from this island would be able to give a good account of itself against any "AA" baseball team from Aruba. I cannot say who would win; and I am sure that the writer will agree with me that the result of the recent Island Baseball Series has clearly shown that in baseball, anything can happen.
