

Can and democracy? Or is HOY making Castro appear to be a slow learner, although his career offers more evidence of treachery than of stupidity.

The only person who can really clarify the question: "Did Castro betray the Castro revolution? - Is Fidel Castro himself. The 26th of July would be an appropriate occasion for him to do so - if he dares.

FIRST WEST INDIAN IMMIGRANTS TO ARRIVE AFTER NEW ACT.

The first immigrant liner to reach Britain from the West Indies since the Commonwealth Immigrants Act was introduced, the 9000 ton Spanish vessel Montserrat, anchored off the Isle of Wight last Thursday and landed 85 West Indian passengers by tender at Southampton.

This compares with about 240 on the ship's recent voyages. All those arriving were allowed to enter Britain.

The ship was met by four immigration officers and two doctors who carried out medical examinations.

Afterwards Mr. J.H.B. Sanders, Southern District Inspector of Immigration said: "Everything went very smoothly and there were no difficulties. This was chiefly due to the fact that everybody had been properly documented with the necessary papers before their departure for this country".

GAIRY ALLOWED AN EXTENTION

The application of deposed Grenada Chief Minister Eric Gairy for an extension of time in which to file a record in the Caribbean Court of Appeals in connection with his squandering case has been granted by Mr. Justice Bernard.

It is reported that Mr. Gairy is trying to have the appeal heard in Trinidad and should he be successful in this, he would be going to Port-of-Spain for the hearing.

UN GROUP VOTES TO HEAR JAGAN

United Nations, New York July 18 (Reuter): A U.N. sub-group today decided to recommend that Dr. Cheddi Jagan, Premier of British Guiana, be permitted to protest personally to the 17-nation Colonialism Committee against Britain's postponement of a constitutional conference until September.

The seven nation Petitions sub Committee also decided to recommend that Mr. Felix Cummings, Jagan's New York representative, also be granted a hearing.

Only Australia lodged any objection to the requests.

Delegates of Poland, India and Ethiopia agreed that Jagan should be granted a hearing immediately both out of courtesy to his position as Prime Minister and because of "the extremely serious situation" in British Guiana.

Mr. Peter Curtis (Australia) said he could not support Jagan's request because the memorandum the British Guianan Prime Minister had sent the Committee on Colonialism did not make out a "prima facie" case that his appearance was a matter of "urgency and necessity."

The sub-group had already decided this "heavy bonus" rested on petitioners from non-self governing territories outside those which the main group was considering at the moment - all African territories.
