GEORGES GREAUX BACK AFTER THREE WEEKS IN UNITED STATES

Georges Greaux, one of the pioneer pilots of the Windward Islands Airways, returned from the U.S.A. after a three week stay, on Tuesday last.

Georges even though on vacation did quite a bit of flying while in the U.S., most of which was done in new and modern aircrafts.

Mr. Greaux told our reporter: "If one wants to be a good pilot, one has to keep up-to-date, with all the modern inventions in aviation. Every day better and more modern planes are being built."

The Windward Islands' Opinion welcomes

Mr. Greaux back.

PAN AM JET CRASH KILLING 81 PERSONS

Pan American World Airways, Jet Boeing 707, flight 214 en route from San Juan to Philadelphia crashed on Sunday morning minutes after taking off from Baltimore, killing all 81 persons aboard.

It was reported that the pilot of the ill-fated aircraft last message was:

"214 out of control, coming down in flames."

Pan American World Airways has one of the best safety records in the aviation industry and has flown 712 million revenue airplane miles without a passenger fatality.

The airline was the first to fly American made jets and has flown nearly 11,000,000 persons without a fatality since its inaugural jet flight more than five years ago.

The Pan American fleet consists of 117 aircrafts of which 64 are jets. Pan American has nearly 500 flights each week including more than 90 a week between New York and Puerto Rico at this time of the year.

Pan American had flown 11 years without any passenger fatality. The last fatality was in Brazil in August 1952.
