LETTERS TO THE EDITOR

(Not the responsibility of the Editor)

Ladies and Gentlemen of the Island of St. Maarten, French and Dutch, I hereby wish to call your special attention to the Island wide International Agricultural, Horticultural, Industrial exhibition, that will be kept at Marigot, French St. Martin on that beautiful school play ground on the 12th. of next month. It is the first time, in our Islands history we are having such an exhibition; backed and supported by our French and Dutch government. Now it is to us the people to make it what it ought to be, and we can only do so by exhibiting civic and community pride.

Fellow citizens of the Island of St. Maarten, our Island is moving by leaps and bounds and we too must move tantamount to its progress - Old ways will always remain the same, if someone don't invent a new way; then live and die for it.

The proposition is prodigious undertaking, but there is nothing impossible to those who have the power to will. Secondly, our Governments, pledged their moral and financial support, as far as lies in his power. And have granted permission to solicit all business places, Hotels, Guesthouses, Utilities, Snack Bars, all civic and religious organizations, private individuals ect., etc.

This collection of funds - will start from the French Side, where the initiative and the first incentive began. After the contribution from Authorities. We shall cover from Lowlands to Point Blanche. Our French Government has already promised to inclose the ground. Money collected will help defray ex-

pense on the various exhibits.

There will be all kinds of exhibits, cattle, horses, donkeys, goats, pigs, sheep, All kind of birds, chicken, turkeys, peacocks - Rabbits - monkeys dogs, Cats. Handy craft work, all kind of games played, all kind of provision, all kind of fruits, cakes, there will be all kinds of Games played, all kinds of refreshments, eats and drinks - Control on the indise. The Exhibition will be opened with the French Anthem, Dutch Anthem, and then "Sweet St. Maarten", A supper for the dignitaries.

Everyone is welcome, We would like to make all the strangers in the Land feel happy. There will be around five thousand rosettes - French and Dutch color.

Every one who enter the gate must have one. Music by the various bands -

If Guadeloupe, Saba and St. Eustatius can make it convient. They can also participate.

Ladies and Gentlemen, last but not least, you can just call for what you want. And if you dont get it, you will know that we don't have it.

There is nothing like holding up lofty tradition to the eyes of our people, to inlist their affection and inspire their imitation. And the most enduring monument is that which has been erected in the minds of our people. Nothing would please me more than to see, four or five thousand children, French and Dutch, Amuse themselves on that most beautiful school playground.

A. Th. Illidge.
