Learning Resources

- [Expert TA](#) Expert TA is committed to building a dynamic online homework grading software for Introductory physics classes with a comprehensive library of original content to supplement a range of texts. Expert TA provides an integrated suite that combines online homework and tutorial modes to enhance student-learning outcomes and meet physics instructors' assessment needs. Expert TA is used by universities, community colleges, and high schools.
- [Sapling Learning](#) Sapling Learning is a leading independent online homework that has been used by hundreds of thousands of students. Sapling learning is a powerful tool for physics and provides content for algebra- and calculus-based introductory physics courses. In addition to numeric and equation based questions, conceptual understanding is measured using sorting, labeling, ranking, multiple choice, and multiple select answer types.
- [WebAssign](#) WebAssign is an independent online homework and assessment system that has been available commercially since 1998. WebAssign has recently begun to support the physics community by creating a high quality online homework solution

for selected open source textbooks, available at an affordable price to students.

- **Student Solution Manual** The Student Solution Manual is a free download for students. The SSM will have full stepped out solutions for: every third conceptual question and every sixth Problem. Answers to all odd Problems will be displayed in the online version of the SE when the student clicks the "Answer" link under an odd problem.
- **Free! Veritas Tutors and How to Succeed In Physics Guide**
Veritas Tutors is a premiere provider of educational products and services Veritas Tutors is also pleased to provide a free and open study guide "How to Succeed in Physics" to teach you essential concepts, provide essential math review, and demonstrate problem solving techniques to help you master physics.

- **Instructor Solution Manual** (faculty only) The instructor solution manual contains the detailed solutions to all the end of chapter problems in College Physics. This is a restricted item requiring faculty registration.
- **Powerpoint Slides** (faculty only) The PowerPoint slides are based on the extensive illustrations from College Physics. They can be edited, incorporated into lecture notes, and you are free to share with anyone in the community. This is a restricted item requiring faculty registration. NOTE: This file is very large and may take some time to download.
