Three rescued after boat sinks

Vessel went down in shallow water a mile from shore

By ANNE EASKER
STAFF WRITER

Three people were rescued by Charlotte County Fire & EMS after their boat sank in the vicinity of the Elkcarn Waterway Sunday morning.

Marine 2 responded to a call from the boat owner regarding the sinking vessel, according to Fire & EMS spokesperson Todd Dunn. The three individuals were wearing life jackets and standing in about two feet of water a mile from shore.

The Fire & EMS personnel maneuvered into the shallow water and pulled the individuals from the water, transported them to Grassy Point Yacht Club, where they met the Florida Fish and Wildlife Conservation Commission and the Charlotte County Sheriff's Office to document the incident.

None of the three required medical attention, but they were all thankful to make it back to solid ground, Dunn stated in a Facebook post.

The FWC was investigating the incident as a boating accident, but the report was not yet available Monday, according to Public Information Officer Brian Norris.

'Wes died a hero'

Family, firefighters remember retired emergency responder killed in crash

By VICTORIA VILLANUEVA-MARQUEZ
STAFF WRITER

NORTH PORT — Wesley H. Weysham Jr.'s family remembers how much he loved cracking jokes.

They remember how silly he could be. How big his heart was.

The Sarasota County Fire Department remembers the retired firefighter/paramedic as an unassuming guy.

Weysham, a 59-year-old North Port resident, was giving medical care to an alleged drunk driver Sunday when he was struck and killed by a vehicle on Interstate 75 in Hillsborough County.

In a news conference Monday afternoon, Sarasota County Fire Chief Mike Regnier said Weysham would have stopped to help someone in need,

BOWLING ALLEYS AIM TO KEEP THE FUN ROLLING

Bowling 'centers' evolve to stay relevant

By STEVE REILLY
STAFF WRITER

ENGLEWOOD — Bob Karbach may not strike it rich at Englewood Bowl, but he hopes to bring back bowlers who will want to roll a strike or two.

"My goal is for it to be an inexpensive family-oriented business," Karbach said of Englewood Bowl. "We want families and kids to come back and bowl."

Karbach is likely on the right track. For decades, leagues have been the bread and butter for the bowling industry. But league play has been slowly declining every year. Bowling centers have closed in many communities, but the ones that are still profitable are the ones that have drawn younger people. Bowling is still the top participation sport in the country, a title it has held for years.

Karbach, originally from Illinois, first bought Englewood Bowl in 1987. He owned and operated it until 2007, when he found a buyer to take it over. But after seven years, Karbach took back ownership of Englewood Bowl in 2014.

"I'm glad Bob's back again," said Al Brown, who has been bowling at Englewood Bowl since 1988. Brown likes the camaraderie he enjoys with the other bowlers.

But the business Karbach returned to wasn't what he'd left.

When Karbach sold it, 20 leagues, generally with four players per team, regularly

SUN PHOTO BY STEVE REILLY

Bob Karbach wants to invite families, leagues and other bowlers back to Englewood Bowl. After a seven-year hiatus, Karbach has taken over ownership and operations at the bowling alley.

bowled on the 12 lanes each week at Englewood Bowl. When he returned, only four leagues remained. Karbach has been able to attract back some leagues. He's also trying to make as many improvements, as he can afford, including repaving part of the parking lot. His next big investment will be a new sign, as the old one is mostly gone.

Karbach spent much of his working career in bowling industry since 1970. He loves the sport, and wishes more young people would pick it up.

"Video games and (smart phones) have been the worst thing for bowling," Karbach said. "The trend now is to remove lanes and put in game rooms and laser tag. Some even have indoor miniature golf."

But Englewood Bowl doesn't have the space to allow Karbach to diversify very much. Compared to other local bowling centers, Englewood Bowl is

BOWL | 4

BOWLING TRENDS

The U.S. bowling industry currently generates about \$6 billion in revenues annually.

Outside of the US, the bowling industry is quite popular. The Federation International des Quilleurs has estimated that 100 million people in 150 countries go bowling on a regular basis.

From 2011-2016, the bowling industry achieved 0.6 percent annualized growth, employing about 67,000 people in the United States, according to IBIS World.

From 1998-2013, the number of bowling alleys in the U.S. fell to 3,976 from 5,400, or by about 26 percent.

From 2011-2016, the bowling industry achieved 0.6 percent annualized growth, employing about 67,000 people in the United States, according to IBIS World.

Although the number of people who say that they go bowling has increased by 10 percent, the number of people who actually join leagues at a bowling alley has

dropped by 40 percent.

The census of certified league members has declined by an average of 5 percent to 6 percent annually over the past 10 years.

Industry observers believe that only about 75 percent of all leagues now certify their members, which means as few as 1 million people bowl in leagues today.

Older bowling centers are not seen as attractive to younger consumers.

Bowling centers are repositioning themselves to appeal to a more diversified and younger clientele that has upscale expectations, including high-quality food and beverage options.

Approximately 25 percent of the commercial centers are 32 lanes or larger in size.

Between 30 and 50 new facilities featuring bowling have been built annually in this country over the past few years, many in vacant big-box store buildings.

Man rode stolen bike out of Walmart, cops say

Store security manager later saw him riding it

By ANNE EASKER
STAFF WRITER

An Englewood man was arrested after allegedly riding a stolen bicycle out of Walmart's garden center Saturday afternoon.

According to the Charlotte County Sheriff's Office, the loss prevention manager at the Englewood Walmart came to work Sunday and was told a white male had ridden a bike out of the garden center around 3:30 p.m.

She pulled surveillance video,

RICHARDS

bike rack, then walked back to the garden center, passing all points of sale and rode the bike out the door, according to the arrest affidavit.

Around 5:10 p.m., as the loss prevention manager was driving

home, she spotted the same white male from the surveillance video riding the same black and green Schwinn bicycle south on South McCall road.

She immediately called the Charlotte County Sheriff's Office to report the stolen bike and followed it until law enforcement arrived on scene.

A corporal conducted a stop on the suspect, who identified himself as Brian Norman Richards, 44, of the 7400 block of Rosemont Drive, according to the arrest affidavit. Richards reportedly denied the bike was

stolen and instead said he had borrowed it from a friend.

Another deputy responded to Walmart to view the surveillance video and was able to identify Richards as the subject in the video, wearing the same shoes and black eye glasses worn on the day of the theft, the affidavit stated.

Richards was charged with petty theft. At the jail, he "admitted he made a stupid mistake," according to the arrest affidavit. He remained at the jail Monday with a \$2,500 bond.

Charlotte's indoor-outdoor office building gets a thumbs down from consultants

The octagonal pods are hard to work with: county facilities director

By **BETSY CALVERT**
STAFF WRITER

An eccentric architectural feature of Charlotte County government keeps showing up on the hit list of future space needs.

Known only as Building B, the first government building at Murdock Circle was dedicated in 1981, said county spokesperson Brian Gleason. Consulting architects today are recommending demolition in the next three to five years.

"It's a unique building from an architectural standpoint, but very challenging," consulting architect John Bryant told commissioners on Feb. 19. "We would really advocate replacing that."

The building is made up of connecting octagons — two stories of them. In between the octagons run wide indoor-outdoor corridors. Tropical air from outside flows through the hallways, blowing over small corner gardens in narrow light wells.

Along with the tropical air, and downpours onto the plants comes high humidity. The tile floors

in the hallways become slick with moisture. The county has outdoor rugs to prevent falls.

Finally, fitting offices in octagons is not easy, the county's Facilities Manager David Milligan said.

Consultants also stressed the difficulty in maintaining security in an indoor-outdoor building. "That building is right out of Frank Lloyd Wright," Commissioner Joe Tiseo said.

Local architect Richard Terwilliger of Pier 76 architects took a look at the building, after an interview with the Sun.

"I kind of enjoyed walking through it," he said, but added, "I can understand why they're thinking of taking it down."

Terwilliger does not think the county will lose anything of architectural significance.

"It almost comes across as a freshman project," he joked politely.

The indoor-outdoor corridors don't do a good job of bringing in sunlight, he said, and they take up a lot of space that can't be used for offices.

"The square foot cost

SUN PHOTOS BY BETSY CALVERT

Consultants are recommending the demolition of Building B, because its indoor-outdoor style is inefficient. You can see the connecting octagons here that had people scratching their heads when it was built in the late 1970s.

to build that had to be atrocious," he speculated, due to all of the outside walls.

Of the original designers, he said, "They probably had good intentions, but they just fell short."

Today, consulting architects are recommending several scenarios for rebuilding the Murdock Circle complex in the near future. At the Feb. 19 meeting, commissioners did not object to the fact that all the recommended options include removing Building B. They balked at removing building A, however.

Building A is the face of county government — a five-story glass-fronted building that faces the street. Building B is behind it. As you leave Building A and enter B, the temperature goes up, as does the humidity and there is a light breeze.

"It's unusual

that you have such disparate structures," said Commissioner Christopher Constance of buildings A and B. Building A was finished in 1989.

"We were all scratching our heads back in those days as to what the architect came up with," Commissioner Ken Doherty said of Building B.

For Building A, however, Doherty said, "It would take a lot of analysis for me to support taking that building down."

"I don't see this building coming down," Constance said of A. "We just redid the bathrooms."

The consultants agreed with renovating Building A, but said it's difficult to renovate a building with staff still in it.

The cheapest option was to renovate Building A, demolish both B and one in the back called D, and then build a new,

The hallways and stairwells seen here are open to the outside of Building B. The building was completed in 1981.

two-story, 40,000-square-foot building. The most costly was to demolish A, B and D and build a new five-story 115,000-square-foot building. The in-between option also removes buildings A, B and D, but replaces them with two smaller buildings.

Milligan agreed with the consultants' appraisal of Building B, but called their proposed timing "premature."

"There's a long way to go before that even would come up as a final decision point," he said.

Mosquito task force recommends town meetings, spot spraying

By **ELAINE ALLEN-EMRICH**
COMMUNITY NEWS EDITOR

SARASOTA — Scheduling town hall meetings, improving rapid response and adding new staff are some things that could improve Sarasota County Mosquito Control, according to members of a task force established to examine the department.

The task force, made up mostly of mosquito control professionals from other counties, has been learning how Sarasota County's department works, and have begun discussing possible improvements. County Commissioners created the task force late last year and have asked for a report by this spring.

The task force consists of Mark Latham, Manatee County Mosquito Control director; Ron Montgomery, Hillsborough County Mosquito Control operations manager; Lyman Roberts, retired longtime manager of the Sarasota County Mosquito Control

SHUTTERSTOCK PHOTO

Aedes aegypti Mosquito

District; and Angel Lara, greenhouse manager at Selby Gardens in Sarasota.

At the latest meeting, members learned that for the past 10 years, the district has had nine full-time spray technicians covering 100 countywide zones. North Port, Venice and Englewood zones each have a technician, and there are several in Sarasota. For the past two years, North Port residents have told the district the city is the fastest-growing in the region with more than 100-new homes built primarily in West Villages and the eastern end of town.

Wade Brennan, Sarasota

County Mosquito Control manager, said the district doesn't regularly spray in North Port's 85-mile canal and ditch system. Instead, a technician responds to citizen complaints. If a problem is found, the tech can ask management for a truck or airplane spray mission. North Port mostly gets air missions to control mosquitoes.

Montgomery said that might be the issue with North Port residents.

"Sometimes residents just want to see those trucks in their neighborhoods," Montgomery said. "They want to know their neighborhood has been sprayed. They grew up seeing these trucks. If you are only doing a couple of areas with a

plane mission, then others in North Port may question why they aren't seeing any mosquito control activity for years in their neighborhood."

Brennan said truck missions in concentrated areas don't generally work in North Port because it's such a large land area at 105 square miles. North Port is the fourth-largest city in land mass in the state. He said airplane missions are generally done if the trap counts yield high amounts of mosquitoes.

"You are not treating every part of the county with the same threshold, are you?" Montgomery asked. "If you have a mangrove swamp, historically you will have a high threshold. But North Port shouldn't have to live by the same standards. There are completely different habitats in the county."

Members suggested the district could hold a public town-hall meeting with a question-and-answer session and presentation about how mosquito control is done.

Staffing could also be an issue, members said. Chuck Henry, who oversees the district, said a new spray technician may be in the 2020 budget. The last employee, a biologist, was added several years ago in the lab.

Latham said two new spray techs were added to his staff after excessive growth at Lakewood Ranch in Manatee County.

Responding to complaints

Some members questioned why the district responds to each citizen complaint, including multiple ones in the same neighborhood. Currently, a technician goes to the home. If the tech finds standing water or other source of mosquitoes, he or she can do a spot treatment. If nothing is found, the resident can request a three-hour trap set, and the tech will come back the next day. If that trap catches mosquitoes, the technician can ask management for a truck or airplane mission within 24 hours.

There may be a better way to handle that, Montgomery said.

"If you've got (mosquito) traps in an area and you know you are going to take care of it, than why send a technician out to every home to respond?" questioned Montgomery. "If we get 20 complaints in a neighborhood, we just take care of it. We spray. We stopped sending techs to knock on doors."

In Hillsborough, residents are asked to kill a few mosquitoes and put them in a bag from the district, so technicians can tell what species of mosquito is causing the problem.

"If we do a property inspection and don't find anything, it may just be because the mosquitoes don't come out until the nighttime," Montgomery said. "We ask our homeowners to bag a few of them and we pick the bag and tie it back to a service request. We do it to simply emphasize efficiency."

The next meeting is 1 p.m. March 14 at 5531 Pinkney Ave., Sarasota. Email: eallen@sun-herald.com

North Port commission to revisit Warm Mineral Springs improvements

By **TOM HARMENING**
STAFF WRITER

NORTH PORT — The North Port City Commission is scheduled to revisit the proposed improvements to the Warm Mineral Springs site tonight.

The topic was last addressed at a commission workshop on Jan. 8.

At that time, the City Commission nixed proposed horse trails, an RV park and other minor site improvements and sent the design firm of Kimley Horn of Fort Myers back to the design table to redraw plans.

The firm will update its concept of the part at the meeting Tuesday night.

The city is investing in the facility in order to make it more

appealing and attractive to the public.

Also slated for discussion are an update on body cameras for the police department and fence height requirements.

Tonight's meeting begins at 6 p.m. in the city commission's chamber in City Hall. The meetings can be viewed online at www.youtube.com/user/NorthPortFL or www.cityofnorthport.legistar.com/Calendar.aspx.

SUN PHOTO BY SCOTT LAWSON

Right: Urban legend that is often retold in North Port is that Ponce de Leon discovered Warm Mineral Springs and deemed it his longed-for Fountain of Youth. While de Leon was known to have been in the region, there's no evidence he knew of Warm Mineral Springs.

regardless of whether he was on or off duty.

"Wes had that type of heart," Regnier said. "He would stop no matter what, no matter the situation, no matter what was going on, there was an emergency he was going to get out and help that individual or those individuals at that accident, no doubt about it in my mind. Wes died a hero. He definitely died a hero."

Weysham was a husband. A stepfather. A grandfather. A friend.

As a first responder, his integrity drove everything he did, his family remembers.

"He would give the shirt off his back and go out of his way to help others, even if that meant being the first one in to face danger," the family said in a statement Monday afternoon.

Weysham was a decorated member of the Sarasota County Fire Department for 10 years.

He retired from the department in 2017.

"You work your whole career waiting for retirement," Regnier said. "You do the things that Wes did that morning through your whole career and to have that cut short is just a tragedy that I can't even put words to. It's devastating. I feel for his family and for the fire department family as well."

Weysham dedicated his life to public service.

He served in the United States Navy from 1977 to 1982 and then served in the Navy Reserve.

Weysham joined the Sarasota K-9 Search and Rescue in 1998 as a volunteer K-9 handler and most recently served as a land navigation instructor.

The Sarasota K-9 Search and Rescue posted a tribute to Weysham on Facebook on Sunday evening.

"Wes Weysham died this morning in the truest form of selflessness; he was killed when he stopped to help a motorist on I-75 in Riverview," the post read. "Rest in

PHOTOS COURTESY FLORIDA HIGHWAY PATROL

Wesley H. Weysham Jr., 59, of North Port, was killed in a crash on Interstate 75 early Sunday morning.

peace Wes. You will be in our hearts forever."

Regnier said Weysham would have done anything to help the community.

"I know that Wes

would've stopped again," Regnier said. "I know he would've."

Weysham's family is asking for donations to the Sarasota Search and Rescue in lieu of flowers.

Donations may be sent to PO Box 51446 Sarasota, FL 34232.

A GoFundMe account has also been set up to help Weysham's wife with expenses. To donate, visit

<https://www.gofundme.com/dqbx-in-memory-of-wes-weysham>.

Details on Weysham's celebration of life are expected to be released today.

BOWL

FROM PAGE 1

small, 15,000 square feet, while Treasure Lanes in Port Charlotte is nearly twice that with 28,000 square feet and double the bowling lanes at 24.

Englewood Bowl is destined to remain Englewood Bowl, although some improvements can be made.

"People think bigger is better, but bigger is more expensive," he said.

Trending with the trends

Don't ever let Robin Shopa hear you call Port Charlotte's Treasure Lanes "a bowling alley."

"We're not a bowling alley," Robin said. "You walk into a 'bowling alley,' I think about smoke, I think about darkness. We are a bowling center — a family

ENGLEWOOD BOWL CHARGES

entertainment center."

Her husband's family has owned and operated Treasure Lanes since 1980. Dan Shopa said his parents thought a bowling center would be a "fun business." At one time, bowling alleys counted on leagues as their bread and butter, making up 90 percent of their customer base, but that was in the heyday, and that number peaked in the 1960s. The

industry has seen a steady decline of bowling leagues. Nowadays, more people now bowl as individuals than in leagues.

"And there are so many other things you can do now, any form of entertainment," Dan said.

The Shopas do what they can to keep Treasure Lanes relevant. There's the game room with updated skee-ball games and other electronic arcade games where players earn tickets they can trade in for prizes.

"We are very family orientated — not only with those who come through our door, but with our staff as well," Robin said. "It's all in how you market to entice children to come in. You have to make it inviting. You have to stay in tune with the young folks."

Among the enticements, Treasure Lanes has coaches on hand to help novices, and children learn and enjoy special group rates for birthdays and other party events.

For adults, Treasure Lanes includes an indoor and outdoor lounge, billiards and darts. The Shopas have recently upgraded the restaurant.

"It's a whole experience for everyone," Robin said.

While Englewood Bowl and Treasure Lanes are owned by individuals, Bowland on Harbor Boulevard in Port Charlotte is part of a corporation. But like Treasure Lanes the goal is to keep up with entertainment trends.

The biggest challenge for Bowland now, said assistant manager Rosie Gassera, is the road work on Harbor Boulevard. Especially at night, motorists drive by and don't realize Bowland is still open. Which it is, seven days a week.

But when the road work is done, Bowland will be ready with some improvements inside.

"We have a lot of changes coming," Gassera said. "We're going more to the entertainment side."

Bowland also has a

SUN PHOTO BY STEVE REILLY

Robin and Dan Shopa want Port Charlotte's Treasure Lanes to be inviting to families and bowlers of all ages.

game room — which will be upgraded and bigger in the coming months — a lounge, an expanded restaurant menu, billiard tables, darts, karaoke two nights a week, a pro shop and other amenities.

"We offer quite a few specials for families, birthday and family packages," Gassera said, citing the Sunday "Pizza Bowl Special" that includes two hours of free bowling, four pairs of shoes, a large cheese pizza and pitcher of soda.

Keeping young people interested in bowling may depend on how young they start.

"If young people come up as junior bowlers, they will usually continue to bowl," she said. "Now my men's leagues and adult leagues have many of my (former) junior bowlers."

Gassera also dislikes the term "bowling alley."

"We're a bowling center," she said. "We're more lit up, brighter. We're welcoming to families."

CHARLOTTE

Millie Davies

Millie Davies, 79, of Punta Gorda passed away Sunday, February 24, 2019. She was the daughter of George and Helen Fletcher, born March 6, 1939 in Weymouth, MA. Millie and her husband, Thom, came to Punta Gorda on 2004 from Scituate, MA where she was the Assistant Tax for 30 years. They have enjoyed living in Windmill Village. Millie was a member of St. Mary's Catholic Church in Scituate, and Sacred Heart Catholic Church in Punta Gorda. Millie enjoyed boating and dancing, but her greatest joy was spending time with her family.

Millie will be greatly missed by her husband of 60+ years, Thom; daughters, Linda, Sue, and Pam; six grandchildren; and many great-grandchildren.

No services are planned. Memorial donations may be made to Tidewell Hospice. To express condolences to the family, please visit www.LTaylorFuneral.com and sign the online guest book. Arrangements are by Larry Taylor Funeral and Cremation Services.

Carolyn Anne Houser

Carolyn Anne Brenner Houser, 59, died Friday, February 15, 2019 from

unexpected complications of the lung cancer which she had been valiantly fighting since 5/18.

What an incredibly happy, friendly and giving person she has always been. Her sparkling eyes and smile just made your day better and if you had any kind of problem, Carolyn could be counted on to go WAY out of her way to be of unrelenting help. She was a fierce defender of the weak and stood up for whatever she believed was right: Carolyn was no shrinking violet!

She leaves behind her beloved husband Michael Wayne Houser, devoted sons James Joseph Sieg and Michael (Mick) Brenner Houser, cherished grandchildren Taylor Jane Sieg and Colin John Sieg and last but not least Cooper the Cat. Her loving family includes her mother, Jane Segrest Brenner, sisters Mary Elizabeth Brenner and Beverly Jane Brenner, brother Douglas Alan Brenner and many treasured nieces, nephews and cousins. She has moved on to be with her deceased father, Edward John Brenner, mother-in-law Ellen Coleman, grandparents Doris Spradley Serrett and Cleveland Serrett, aunts Cynthia Hamilton Dunn and Edna Segrest, uncles Ben Segrest and Jack Hamilton and cousin Cabel Hamilton.

During her life she had been a resident of New Jersey, Maryland, Virginia, Louisiana and Florida since 1981 – first Cape Coral, then Punta Gorda and Deep Creek. She loved being a homemaker, but also had other jobs. For many years she provided vital administrative aid to her mother as they served the Punta Gorda and Charlotte County communities in so very many fund-raising, political and community development initiatives. Carolyn also shared her

effervescent personality with patrons of Ruby Tuesdays, Laishley Crab House and Bill Buck Chevrolet. Carolyn's incredible creativity and organizational skills were of much benefit wherever she went.

Donations in her honor may be made to the Lung Cancer Foundation of America. Personal expressions may be made on her Facebook page following the Obituary Post there. Memorial arrangements to be determined.

Patricia L. Miller

Patricia L. Miller, 90, of Fort Worth, Texas, formerly of Port Charlotte, Florida, passed away on Thursday, Feb. 21, 2019. Charlotte Memorial Funeral Home, Cemetery, & Crematory is handling arrangements. To send condolences, please visit www.charlottememorial.com.

Betty Lou Sanders

Betty Lou Sanders, 79, of Punta Gorda, Florida, passed away on Friday, Feb. 22, 2019. Charlotte Memorial Funeral Home, Cemetery, & Crematory is handling arrangements. To send condolences, please visit www.charlottememorial.com.

ENGLEWOOD

Everett Gabriel Lines

Everett Gabriel Lines, 89, of Englewood, Florida, died peacefully on Saturday, Feb. 16, 2019. He was born on June 21,

1929 in New Castle, Indiana to Mary (Miers) and Everett G. Lines, Sr. Mr. Lines served in the U.S. Army from March of 1951 to March 1953. Everett retired from G.M. in the skilled trades after 39 years. He owned and operated the John Deer Dealership in Davison, MI for 16 years. Everett was a life time member of the Gulf Cove Moose Lodge #2554.

He is survived by his children, Mary Jo (Brady) Butler, Michael Lines, Paul Lines; five grandchildren; and eight great-grandchildren. He was preceded in death by his devoted wife, JoAnn in January 2008.

A Committal Service will be held at Sarasota National VA Cemetery at a later date.

The family requests memorial contributions to the Suncoast Humane Society 6781 San Casa Dr. Englewood, FL 34224.

Englewood Community Funeral Home, Inc. has been selected to make arrangements. You may share a memory with the family at www.engagewoodfh.com

OBITUARY POLICY

Obituaries are accepted from funeral homes and crematories, and from families if accompanied by a death certificate. Full obituaries, notices of services, remembrances and death notices are subject to charges. Email the item for publication to obits@sun-herald.com; it must be accompanied by a phone number. For more information, call 941-206-1028.

Crash shuts down eastbound lanes of State Road 776

POLICE BEAT

The information for Police Beat is gathered from police, sheriff's office, Florida Highway Patrol, jail and fire records. Not every arrest leads to a conviction and guilt or innocence is determined by the court system.

Port Charlotte. Charge: DUI. Bond: \$2,500.

- John Thomas Csejka Jr., 71, 200 block of Bambo Drive, Port Charlotte. Charge: DUI. Bond: none (supervised release).

- Jason Christopher Koder, 35, 2200 block of Lee Terrace, Port Charlotte. Charge: out of county warrant. Bond: \$1,690.

- Joshua Edward Robinson, 22, 1100 block of Beacon Drive, Port Charlotte. Charge: breach of peace disorderly intoxication. Bond: \$1,000.

- Travis Scott Emery, 24, 600 block of Dalton Blvd., Port Charlotte. Charge: knowingly driving while license suspended or revoked and two counts off bond/forfeiture/revocations. Bond: none.

- Chad Allen Ackermann, 35, 4500 block of Falon Circle, Port Charlotte. Charges: possession of not more than 20 grams of marijuana and possession of drug paraphernalia. Bond: \$6,000.

- Chloe Danser Maris Kennedy, 24, of Oregon, Ill. Charges: possession of drug paraphernalia, possession of cocaine, municipal ordinance violation, and possession of a controlled substance without a prescription. Bond: none.

- Gregory Nathan Dudley, 58, 3400 block of North Salford Blvd., North Port. Charges: leaving the scene of a crash involving property damage, DUI, and DUI damage to property or person of another. Bond: \$2,000.

- Derrick Tyrone Muse, 36, of Arcadia. Charge: driving with license expired more than six months. Bond: \$1,000.

A serious injury shut down eastbound lanes of State Road 776 near Woodstock Road Monday afternoon, the Charlotte County Sheriff's Office reported around 4:15 p.m.

Motorists were encouraged to avoid the route while the vehicles were cleared from the area. The Florida Highway Patrol responded for the investigation.

The Charlotte County Sheriff's Office reported the following arrests:

- Marcelino De La Cruz Vincente, 41, of Tampa. Charge: driving without license revoked habitual offender. Bond: \$5,000.

- Alec Last, 29, of Sterling, Ill. Charges: municipal ordinance violation, possession of a controlled substance without a prescription, and possession of drug paraphernalia. Bond: \$9,000.

- Michael George Bogsted, 33, homeless of Punta Gorda. Charges: out of county warrant, DUI, refusal to submit to testing, and knowingly driving while license suspended or revoked. Bond: none.

- Krista Lynn Daniels, 30, 2000 block of Willowhammock Circle, Punta Gorda. Charges: possession of a controlled substance without a prescription, possession of drug paraphernalia, and possession of cocaine. Bond: \$12,000.

- Ashley Elizabeth Legrand, 33, 2200 block of Rochester Ave., Port Charlotte. Charges: possession of a controlled substance without a prescription and possession of drug paraphernalia. Bond: \$12,500.

- Lakin Tayler Bontjes, 18, 14100 block of Chesswood Lane,

COMMUNITY NEWS BRIEFS

Troop 26 benefit

The next Charity Quarter Auction will benefit Boy Scout Troop 26 of Englewood. It's set for 6 p.m. Feb. 27 at American Legion Post 113, 3436 Indiana Road, Rotonda West. Games start at 7 p.m. There will be vendors, prizes and drawings. Paddles are \$3 or three for \$6. You must be 18 or older to play. Bring lots of quarters.

Orchid show this week

The Englewood Area Orchid Society will host its annual Orchid Show and Sale Friday and Saturday at the Englewood United Methodist Church, 700 E. Dearborn St., Englewood. The show is from 10 a.m. to 5 p.m. both days in the Fellowship Hall. There will be more than 9,000 square feet of sales and exhibits, retail orchids and supplies. There is plenty of free parking available. Admission is \$4.

The Englewood Area Orchid Society meets the second Monday of each month at 7 p.m. at Christ Lutheran Church 701 N. Indiana Ave, Englewood. The society is always looking for new members.

Englewood Democrats

The Englewood Democratic Club will meet at 5:30 p.m. Wednesday at the Elsie Quirk Library, 100 W. Dearborn St. Members will elect officers and board members for 2019

and vote on club bylaws. Democrats registered to vote in Florida are eligible to join as voting members. Any U.S. registered voter, regardless of affiliation, may join the club as an associate (non-voting) member. Members will meet the fourth Wednesday each month at the library. The group will perform community service, track local, state and federal issues, and work to ensure we are "of the people, by the people and for the people," poor and rich alike. For more information, contact Peter Imhoff, Muriel Glaim, or Pam Nolan at Precinct527dems@gmail.com or call 941-475-4607.

Elton John Tribute

Rus Anderson, Elton John Tribute artist will perform at 7:30 p.m. Saturday at the Englewood Elks Lodge, 401 N. Indiana Ave. Tickets are \$25 plus tax with an optional dinner starting at 5:30 p.m. for \$15-20. For information call 941-474-1404.

Buchan Fly-in

The 13th Buchan Airport Fly-in Breakfast is set for 9 a.m. to noon Saturday at the airport grounds, 1390 Old Englewood Road. Enter at Osceola Drive. Parking and admission are free with donations accepted. The French Artisan will again cater a breakfast, which includes a choice of quiche, plus pastries, orange juice and coffee for \$6. Organizers expect about 40 aircraft, including antique, experimental

and aerobic plans to be on hand for viewing and discussion with pilots, plus exhibits including radio-control aircraft, historic displays, information booths and raffles. Proceeds benefit local college scholarships. No pets. For information, contact Bill Bond at 941-475-4854 or billandtinabond@yahoo.com.

Plant Native Day

The Mangrove Chapter, Florida Native Plant Society will hold its 16th Annual "Plant Native" Day from 9:30 a.m. to 1 p.m. March 9 at Cedar Point Environmental Park, 2300 Placida Road, Englewood. This half-day event is free and open to the public. The theme this year is "Shade: Planting for it & Planting in it." Learn about the various native trees, palms and shrubs that can be used to create shade in your sunny yard. Find out which native shrubs, ferns, groundcovers and wildflowers do well in a shady landscape.

suspended, violation of driver's license restrictions, DUI. Bond: \$3,120.

- Jesse Dudash, 25, 5500 block of Taneytown Street, North Port. Charges: contempt of court, drug violation. Bond: \$15,000.

The North Port Police Department reported the following arrests:

- Andre Schaefer, 52, 4800 block of Chicopa Street, North Port. Charge: aggravated assault with a deadly weapon, without intention to kill. Bond: none.

- Reggie Adam, 43, 8400 block of Alam Avenue, North Port. Charges: aggravated assault with a deadly weapon without intention to kill, battery, touch or strike (domestic). Bond: \$5,000.

- Glenn Hoffer, 25, 1100 block of South Nackman Road, North Port. Charges: two counts of contempt of court, larceny, theft of more than \$300, less than \$5,000, false ownership information for pawned items, fraud, illegal use of a credit card. Bond: \$15,000.

- David Hoose, 59, 900 block of Citrus Road, Venice. Charge: DUI. Bond: \$500.

The Venice Police Department reported the following arrest:

- Thomas Diodoroll, 41, 11000 block of Battello Drive, Venice. Charges: drugs, possession of a controlled substance without a prescription, drug equipment, possession or use. Bond: \$2,000.

The Sarasota Police Department reported the following arrest:

- Patricia Burch, 57, 1300 block of Pine Needle Road, Venice. Charge: aggravated assault with a deadly weapon (domestic). Bond: none.

VIEWPOINT

OUR VIEW

Update laws for felony theft charges

OUR POSITION: *It's time for Florida to move forward into the 21st century with a realistic monetary threshold for felony theft crimes.*

We're familiar with the case of one teenager who, years ago, made the very bad decision of trying his hand at shoplifting.

His friend worked part-time at a department store. Mr. Inside convinced his pal he could fill up a shopping bag with stuff and simply walk out the door. Easy.

Hoo-boy.

Both were dopey teenage boys — not venal or stupid, but mid-teen dopes. It happens. Teenage boys seem particularly vulnerable to mental lapses of this sort.

But, said teenager filled shopping bag with clothing, video games and electronic items, then strolled out the door.

Only to be busted by store security, of course.

It was only just before the initial court appearance that he found he'd be charged with a felony: The stuff in the shopping bag exceeded the value threshold for a felony charge. A serious mark on the permanent record.

He got lucky: For various reasons, the charge was reduced on condition of participation in a diversion program. Apologies were written, community service done. The official record was erased and, as far as we know, there were no further legal infractions. The teenager went to college, graduate school, raised a family, enjoyed a distinguished career and contributed to the well-being of his community.

It might have been otherwise.

That situation is common in the court system. Youthful offenders are rightly given a chance to redeem themselves for indiscretions.

Prosecutors may deal charges down to misdemeanors, or they may not.

One big problem in Florida, though, is the low monetary threshold for felonies: \$300.

The law setting the minimum for felony grand theft was established three decades ago, in 1986. Ronald Reagan was president. The price of gas was 85 cents a gallon.

Since then, consumer price index has more than doubled. What cost \$300 when Chernobyl exploded now costs \$650.

As a recent story by *Sun* staffer Anne Easker noted, Florida now has the second lowest felony threshold in the nation. Bills filed in the Legislature aim to raise the figure to either \$1,000 (in the House bill) or \$1,500 (in the Senate.)

Pick a number. But, from our vantage point, it makes sense to raise the threshold above the level of inflation. It makes very little sense to fill jail or prison cells for what are, relatively speaking, minor offenses. What should be misdemeanors.

According to a Pew Charitable Trust study, 38 states have raised their felony theft thresholds since 2000. The Pew analysis showed those actions "had no impact on property crime or larceny rates." Those states have seen roughly the same decrease in crime rate as states that did not raise thresholds. In fact, the study saw no correlation between the felony trigger number and crime rates.

As for the impact on the level of crime, it just didn't matter. However, for individuals — especially young people — a felony rap can be a life-altering deal.

"It makes it much more difficult to protect their future," local attorney Scott Weinberg told Easker. "The major difference is if it's a felony ... a lot of jobs are precluded to you. A misdemeanor is easier to resolve. Those people learn their lesson and they can still have a future."

Add to that the savings in court costs. As another attorney aptly put it, this is also a matter of "judicial economy and judicial efficiency."

All in all, time to adapt and update.

MUELLER REPORT WATCH PARTY

LETTERS TO THE EDITOR

Democrats against all Trump policies?

Editor:

A Charlotte *Sun* article on the immigration crisis in the Saturday, Feb 16, edition quoted Charles Schumer as saying the wall was an "unlawful declaration over a crisis that does not exist."

However, I'd like to quote from Charles Schumer's 2009 speech to Georgetown Law School: "Illegal immigration is wrong, plain and simple. American people are convinced until we stop future flow of illegal immigration we will make no progress dealing with the millions of illegal immigrants who are here now. People who enter the United States without our permission are illegal aliens and illegal aliens should not be treated the same as people who enter the United States legally."

I, for one, find it amazing how his stance on illegal aliens rights — once against and now for, and the wall, once for and now against — have flip flopped. Could the reason be because he and the Dems are just against anything Trump supports?

Angela Wade
Punta Gorda

Coping skills needed in schools

Editor:

We all want to make our schools a safe place to learn. Teaching emotional self-management skills is the most effective way of making all places, including our schools, safe.

My first book on teaching emotional coping skills, "Thought Power," was published around the time of Columbine. When presenting this program to teachers you could feel their fear. Everyone agreed that the need to teach emotional coping skills had never been greater, and that the stresses facing students were enormous.

Teachers were excited about teaching emotional coping skills but dismayed that it could fit in with all the other curriculum demands. While students' emotions affect every subject they study, teaching this has been a low priority that continues to this day.

With the repeated tragedies of school shootings, it is time to use tax dollars to teach

emotional coping skills along with values of kindness, generosity, compassion, community and forgiveness. The skills would be life long and used everywhere.

Call your school and tell them to make schools safe by teaching emotional coping skills.

Robert F. Chapman
Englewood

Have a dream of different world

Editor:

I have a dream. If dreaming is still allowed?

In my dream, babies are afforded the same rights as Guantanamo Bay detainees, war criminals, animals in shelters, snail darters, manatees and unauthorized trespassers into our country.

I dream that a life conceived will be loved, sheltered, nourished, humanely treated and protected from murder. I dream that we will one day soon accept responsibility for the unborn child.

I dream that we will have the courage to talk to young people about the rights and responsibilities of being sexually active and that we will help them through difficult times with compassion so that they don't feel they have no option except abortion.

I dream that soon we will understand that abortion, certainly after the first trimester, cannot be called anything except murder.

I dream that we will become the people we pretend to be, a people who live their human rights not just spout words.

Alice Vann
Englewood

Don't cherry-pick for slanted viewpoint

Editor:

When the *Sun* is going to write articles, I wish they would print everything, rather than cherry-picking to give them a slanted viewpoint.

I'm speaking about the article covering the vandalizing of "The Kiss" statue in Sarasota.

While I certainly support the goals of the MeToo folks, I don't think it's necessary to resort to SJW terrorism, skewed news or character assassination. In the *Sun* story, the quotation that

is prominently shown superimposed on the front page photo and the other quotes on the subject, one by her and one by the sailor, seem to have been used intentionally to support the idea this was a drunken sexual assault.

Very convenient slant on the news, but let's tell the whole story here.

Among other things the lady said on the subject were, "Suddenly, I was grabbed by a sailor. It wasn't that much of a kiss. It was more of a jubilant act that he didn't have to go back." She added, "He was just holding me tight. I'm not sure about the kiss. ... It was just somebody celebrating. It wasn't a romantic event. It was just ... 'Thank God, the war is over.'"

The sailor added, "The war is over! I remembered what those nurses did out there (in the Pacific)."

To try to link this spontaneous response to the end of the war to the MeToo movement is disappointing at best. World War II veterans will certainly remember the emotions involved at the end of the war.

John Street
North Port

The US needs gun control now

Editor:

There were nearly 40,000 gun deaths in America last year according to the New York Times Dec. 18, 2018. The third year of increased American gun deaths. Guns for hunting are fine, but those specifically designed to kill people are not and should be illegal.

The NRA lobbies against gun control and cites our antiquated Second Amendment to increase gun sales. The Second Amendment, written back in muzzle-loader days, reads, "A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms, shall not be infringed."

According to many, it means citizens have the right to carry guns as militia, not necessarily for self-defense. In 1939, the Supreme Court unanimously held that Congress could prohibit the possession of a sawed-off shotgun because that weapon had no reasonable relation to the preservation or efficiency of a "well regulated militia."

Over the last few decades,

however, gun industry lobbyists manipulated weak-willed legislators into systematically dismantling gun control legislation and safety laws. Now, as we watch America begin to devolve into a gun-toting wild west-type culture, the backlash to reestablish gun control grows stronger day by day.

A safer and saner America is possible. Most developed countries have many times fewer gun deaths than America because of thoughtful legislation. Our representatives need to hear from us, and our demands for firearms regulation.

Harry T. Barnes
Englewood

People can be held for their protection

Editor:

Many seniors visiting Florida do not realize that there is a law here that allows an ill, frail person to be transported to an unfamiliar place and be held there indefinitely against their will and the will of their family. But it appears that the Baker Act in Florida mandates this.

Yesterday morning I drove my husband to the VA clinic in Cape Coral because he was confused and feeling bad. He told the doctors there that he had no intention of hurting himself or others. They sent him by ambulance to the hospital in Punta Gorda at 10 a.m. (They wouldn't let me drive him.)

There, they discovered he had a urinary tract infection. This is something that often makes an elderly person act strangely. But they wouldn't let him leave. Apparently, the VA doctor "Bakerized" him. They confined him in the emergency room until 11 p.m., when they took him by ambulance to a hospital in Fort Myers.

I called there the next morning, and they had no idea when he would be released. He was able to phone me crying and begging to come home, but there was nothing I could do.

This is cruel and unusual punishment for a confused elderly person. Even criminals are treated better than this.

Beware when you take a love one to the clinic. This could happen to you too

HOW TO SUBMIT A LETTER TO THE EDITOR

Letters are welcome on virtually any subject, but we do have some rules. Please keep them to less than 250 words. Letters will be edited to length as well as for grammar and spelling. All letters must be signed with full name — not initials. An address and telephone number must be included. The phone number and address are not for publication, but must be provided. Due to the number of letters received, we are able to run only one letter per person per month.

The Letters to the Editor section is designed as a public forum for community discourse, and the opinions and statements made in letters are solely those of the individual writers. The newspaper takes no responsibility for the content of these letters. Please send or bring correspondence to the Sun, Letters to the Editor, 23170 Harborview Road, Charlotte Harbor, FL 33980. Readers may email Letters to the Editor at letters@sun-herald.com. Further questions or information, call 941-681-3003.

Amazon blow-up shows AOC is an economic illiterate

The left complains that conservatives are “obsessing” over Alexandria Ocasio-Cortez. Well, there is a reason for that: Ocasio-Cortez is driving the agenda of today’s Democratic Party — and her economic illiteracy is dangerous.

Washington Post
Marc A. THIESSEN

Case in point: Last week, Ocasio-Cortez celebrated the tanking of a deal negotiated by her fellow Democrats in which Amazon promised to build a new headquarters in Long Island City, New York, right next to her congressional district. Amazon’s departure cost the city between 25,000 and 40,000 new jobs. Forget the tech workers whom Amazon would have employed. Gone are all the unionized construction jobs to build the headquarters, as well as thousands of jobs created by all the small businesses — restaurants, bodegas, dry cleaners and food carts — that were preparing to open or

expand to serve Amazon employees. They are devastated by Amazon’s withdrawal.

Ocasio-Cortez was not disturbed at all. “We were subsidizing those jobs,” she said. “Frankly, if we were willing to give away \$3 billion for this deal, we could invest those \$3 billion in our district, ourselves, if we wanted to. We could hire out more teachers. We can fix our subways. We can put a lot of people to work for that amount of money if we wanted to.”

No, you can’t. Ocasio-Cortez does not seem to realize that New York does not have \$3 billion in cash sitting around waiting to be spent on her socialist dreams. The subsidies to Amazon

were tax incentives, not cash payouts. It is Amazon’s money, which New York agreed to make tax-exempt, so the company would invest it in building its new headquarters, hiring new workers and generating tens of billions in new tax revenue.

As New York Mayor Bill de Blasio explained, the Amazon deal would have produced “\$27 billion in new tax revenue to fuel priorities from transit to affordable housing — a nine-fold return on the taxes the city and state were prepared to forgo to win the headquarters.” Unlike Ocasio-Cortez’s imaginary \$3 billion slush fund, that is real money that actually could have been used to hire teachers, fix subways and put people to work. With Amazon leaving New York, that \$27 billion leaves with it. Genius.

Ocasio-Cortez does not seem to understand that by helping to drive Amazon away, she

did not save New York \$3 billion; she cost New York \$27 billion. There is a difference between having bad ideas and not grasping basic facts. Reasonable people can disagree about whether New York should have offered Amazon \$3 billion in tax incentives — or anything at all — to build its headquarters in the city. But that is different from not understanding that New York is not writing a \$3 billion check to Amazon.

Sadly, Ocasio-Cortez doesn’t learn from her mistakes. She made the same kind of error in December when she tweeted, “\$21 TRILLION of Pentagon financial transactions ‘could not be traced, documented, or explained.’ \$21T in Pentagon accounting errors. Medicare for All costs ~\$32T. That means 66% of Medicare for All could have been funded already by the Pentagon.” But, as Pentagon spokesman Christopher

Sherwood told The Post, “DoD hasn’t received \$21 trillion in (nominal) appropriated funding across the entirety of American history.” Once again, Ocasio-Cortez did not grasp that the Pentagon did not have a magic pile of \$21 trillion in cash sitting in a vault somewhere.

Her economic illiteracy matters because she is the principal author of the Green New Deal, which has been endorsed by most of the leading Democratic candidates for president. From this unschooled mind has sprung the most ambitious plan for government intervention in the economy since Vladimir Ilyich Lenin’s train pulled into Petrograd’s Finland Station.

If Ocasio-Cortez doesn’t understand how tax subsidies work, how can she be trusted to plan the federal takeover of the health-care, energy and transportation sectors

of our economy? Think she and her allies have any idea how to, as her now infamous talking points put it, upgrade or replace “every building in America” ... or replace “every combustible-engine vehicle” ... or connect every corner of America with high-speed rail ... or replace all fossil-fuel energy with alternative energy sources — all in 10 years’ time? Apparently, they think we just have to find all the magic pots of cash the government is hiding.

When this kind of ignorance is driving policymaking in Washington, America is in profound danger. Amazon left New York because Ocasio-Cortez and her fellow democratic socialists created a hostile environment in the city.

And if Ocasio-Cortez has her way, Democrats are going to do to the rest of America what they just did to New York.

At Lemon Bay High, education takes a community

Last spring, Lemon Bay High School participated in their five-year accreditation through the AdvancED organization. AdvancED is a nonprofit, non-partisan organization that conducts rigorous, on-site reviews of educational institutions. We received the final report and once again Lemon Bay is accredited for five more years. A big thank you goes out to all the students, staff, admin, parents and community members that took part in the process.

One major benchmark Lemon Bay scored exceptionally well in was community involvement within the school and the school involvement within the community. This relationship is nothing new to residents who have lived in Englewood over the years. However, I think this rewarding

SCHOOL NOTES
BOB BEDFORD

partnership needs to be recognized again.

When I moved to Englewood with my family in the early 1970s so my father could be the assistant principal for Lemon Bay Junior High, the community involvement in and with the school was already evident. At that time, Englewood students who attended Lemon Bay Junior High, which was a 7th grade to 9th grade junior high, had to attend high school at either Venice High School or Charlotte High School, depending on whether they lived on the Sarasota County side of Englewood or the Charlotte County side of Englewood.

The Englewood community members had a dream that

students that lived in Englewood would also graduate high school in Englewood. In 1978, with community support and the addition of a new cafeteria and 26 classrooms, Lemon Bay Junior High became Lemon Bay Junior/Senior High. The community dream was realized when Lemon Bay celebrated its first high school graduation in 1981.

In the 1980s, the community support was not just about having a high school. The Englewood community saw the importance of supporting the students as they graduated from high school and either attended college, vocational school or joined the workforce, so a community senior awards/scholarship night was created. Although senior awards night in the early 1980s started out with a handful of local scholarships for

students, the community and school expanded the program each year. Last year, the Englewood community awarded 395 scholarships in excess of \$650,000 of locally raised dollars to the graduating class of 2018.

Starting in the early 2000’s the community had another goal. Rebuild Lemon Bay High School. Lemon Bay was originally built in 1962 as an elementary school and the infrastructure was drastically outdated, especially in the area of technology. The community, school district and high school met many times to plan what the new Lemon Bay would look like. In the summer of 2010, that goal became a reality as the high school rebuild started. The school was completed in January of 2016 and the community should be proud of the results and opportunity it provides the students of

Lemon Bay.

The community involvement is not limited to buildings and scholarships. The community supports the students through various programs such as Decisions to Win, Alateen, Take Stock in Children, Kid’s Needs, Project Graduation, Young Life, student tutoring, classroom volunteering, coaching, sports boosters, band boosters, drama boosters, ROTC boosters, academic boosters, the school advisory committee, and the list goes on.

In return, the students of Lemon Bay give back to the community of Englewood through community service. Even though community service is not a graduation requirement, serving others and giving back is part of our Manta Ray culture. The senior class of 2015 volunteered 33,116 hours

of community service, the senior class of 2016 volunteered 29,054 hours, the class of 2017 volunteered 36,663 hours and the class of 2018 volunteered 40,686 hours. Combined, the last four graduating classes have volunteered a total of 139,519 hours to the Englewood community. The partnership between the high school and Englewood community is indeed very special.

On behalf of the 110 staff members and 1200 students of Lemon Bay High School, I would like to sincerely thank the Englewood community for the overwhelming support of our students. It is a sincere pleasure to work and live in a community that understands that it does take a village or, in this case, a community to raise a child.

Bob Bedford is the principal of Lemon Bay High School.

Hurricane victims in Panhandle need, deserve federal aid

Congress and the White House avoided another debacle with this month’s budget agreement that averted an impending government shutdown. But the deal failed to address one key need — the slogging effort by residents and businesses in the Florida Panhandle to recover from Hurricane Michael.

This disaster cannot escape the nation’s memory — or from its list of priorities. Lawmakers in Washington and Tallahassee need to speed much-needed recovery aid and help the area guard against future storms.

The bipartisan deal may have spared both parties from the political fallout of another government impasse, but it didn’t include disaster

ANOTHER VIEW
TAMPA BAY TIMES

relief for the Panhandle. Just weeks ago, Senate Republicans voted for \$12.7 billion in disaster aid for victims of 2018 natural disasters. The Democratic-led House approved \$14.2 billion for victims of hurricanes, wildfires and other disasters in its 2019 spending bill. But in the measure signed by the president, Congress provided no disaster aid, which Florida Sen. Marco Rubio criticized as a deliberate bid to use hurricane victims as “pawns” in a future legislative fight.

These survivors deserve better. Michael struck the Panhandle last October as a vicious

and deadly Category 4 storm, making landfall as one of the strongest on record to hit the United States. The devastation was widespread and the cleanup will take years. As the Tampa Bay Times’ Steve Contorno reported, the storm generated 20 million cubic tons of debris between Mexico Beach and the Georgia state line. The region lost a level two trauma center, and one-third of residents are still homeless. Cell service and utilities are spotty. Along with sustaining damage to buildings, the Bay County School District has shuttered three schools because of a sharp decline in students as vast areas of housing remain uninhabitable. As of Feb. 8, the state Office of Insurance Regulation reported that more than

144,000 claims had been filed from the storm, with nearly \$5.6 billion in estimated insured losses.

The recovery will be a long, expensive and monumental effort for residents, businesses and the public sector. Yet many local governments in the impacted areas don’t have the budgets or the tax base to get their communities back on their feet. Aside from the sheer physical challenge in cleaning up and rebuilding, many residents, businesses and government agencies lack the up-front money it takes to get recovery efforts going. “Everybody is struggling with cash flow, they’re struggling with debris removal,” said U.S. Rep. Neal Dunn, R-Panama City. “It’s tough to make contracts to rebuild when we don’t

have the money.”

Dunn said he expects Congress to take up the disaster package when lawmakers return at the end of the month. The state budget Gov. Ron DeSantis proposed for the coming year banks on at least \$1.5 billion in federal money for hurricane relief — a total that could rise as damage estimates continue to mount. The state also expects to spend tens of millions of dollars on helping people displaced from damaged homes, and it has been pushing Congress to craft a relief package that also addresses an estimated \$1.5 billion in damage that Michael caused to Florida timber and other agriculture in the rural northwest. This week,

Florida House members filed nearly \$500 million in budget requests for storm recovery and facility hardening projects.

Delivering the aid the Panhandle needs will require a sustained effort by Florida lawmakers and the state’s entire congressional delegation. Beyond providing residents, businesses and local governments more resources up-front, lawmakers also need to make smart investments in planning and infrastructure to mitigate the impact of future storms. They are an increasing threat in a warming climate, and a graver risk to coastal communities that can least afford them.

Charlotte looks to past for library's future

Commissioners consider historical groups for decades-old facility

By DANIEL SUTPHIN
STAFF WRITER

PUNTA GORDA — With the new Punta Gorda Charlotte Library on Shreve Street set to open in July, time is running out for Charlotte County Commissioners to determine what to do with the old one.

Demolition would be the cheaper route for the decades-old library.

County staff estimated that would only cost around \$56,000.

The old Punta Gorda Library on Henry Street was built in 1974 and is in need for basic but crucial renovations, an estimated cost of around \$500,000.

Despite that expense, commissioners asked county staff at a workshop last month to meet with three local historical groups interested in the facility.

The idea would be to create a multi-use facility that would benefit historical groups in the area.

"It would seem to me that it makes sense to have staff get together and get with (these) groups and see if it's feasible to go the history route with that building," said Commissioner Ken Doherty.

Three local historical groups were mentioned at the workshop.

The Charlotte County Historical Center Society wants to use the facility to replace its old center — formerly of 514 E. Grace St. in Punta Gorda — that was closed down by the county in July 2018.

"I think this is a good first step," said Frank Desguin, society president, "the society's goal is to have the historical center reestablished at the Henry

PHOTO PROVIDED

The Charlotte County's Historical Advisory Committee, History Center Committee and the Punta Gorda Historical Society have all shown interest in using the Punta Gorda Library building, which is slated to be replaced at another location.

Street location within the next 12 to 18 months."

Desguin said the Historical Advisory Committee, a group interested in the facility, is seeking the same goal as the society, a local non-profit supporting historical and educational programs in the Charlotte.

The Historic Advisory Committee is part of the county, tasked with approving and reviewing historical projects in the area.

The Punta Gorda History Center, a local nonprofit that oversees a collection of historical documents, has also shown interest in the building. Representatives were unavailable for comment.

Deputy County Administrator Kelly Shoemaker said staff budgeted the \$500,000 cost as necessary renovations regardless of the facility's future use.

"We were not sure of the usage but for it to be a safe building, we would still have to make sanitary sewer, carpet, paint and electrical renovations," Shoemaker said.

Regardless of what group might move into the building, commissioners will also have to consider charging lease

payments for use of the building, as well as costs for maintenance of the facility, according to County Administrator Ray Sandrock.

A timeline for county staff to meet with these organizations is still being determined.

Nothing is set in stone yet. Proposals have ranged from boat and sailing clubs, the YMCA of Charlotte County, a community center and even a chapel.

Punta Gorda Council Member Jaha Cummings thinks the Cultural Heritage Center of Southwest Florida would be a good fit. Not only do they have multiple grants in the works, but it has also grown beyond its current space at the Florida Gulf Coast University Punta Gorda Campus on Herald Court.

"The CHC's mission is to celebrate the human diversity and heritage of the region," said Cummings, a representative of the group. "I feel that with the library located in the Historic District and in close proximity to the History Park, that it continue to be used in manner that promotes the heritage of the city and county."

Sarasota County School Choice applications closing soon

By VICTORIA VILLANUEVA-MARQUEZ
STAFF WRITER

SARASOTA — The deadline for Sarasota County School Choice applications is fast approaching for parents and guardians.

All applications must be submitted by March 4 for the 2019-20 school year.

School Choice allows parents and guardians residing anywhere in Florida to send their children to public schools outside of their local school district.

Potential students cannot be subject to a current expulsion or suspension.

Parents will be notified of choice assignments in April

and will be responsible for providing transportation.

Available seats at some schools may be limited to certain grade levels if those schools are near enrollment capacity.

To view the complete list of schools participating in school choice, visit www.SarasotaCountySchools.net.

COMMUNITY NEWS BRIEFS

Dinner fundraiser to benefit Homeless Coalition

The Homeless Coalition will host an Italian Dinner Fundraiser from 5:30 p.m. to 7:30 p.m. on March 7 at the 24 Twenty One Event Center, 2421 Tamiami Trail, Port Charlotte. Tickets are \$15 in advance and \$20 at the door. Dinner includes a variety of Italian style dishes, salad, bread, choice of dessert and beverages or two glasses of wine. All proceeds will benefit the programs and services at The Homeless Coalition. For tickets, call Darcy at 941-627-4313, Ext. 134 or email: events@chomelesscoalition.org.

Hook Kids on Fishing planned

In partnership with Fishermen's Village, Anglers for Conservation (AFC) is coordinating AFC's Hook Kids on Fishing program from 10 a.m. to 2 p.m. on April 13 at Fishermen's Village 1200 West Retta Esplanade Punta Gorda. Kids ages 6 to 16, are welcome

along with their parents. The first 100 kids registered will receive a free rod and reel. Registration is mandatory by visiting anglersforconservation.org/events. If you are interested in volunteering for this event contact Mike Conneen at mike@anglersforconservation.org or visit the website, www.anglersforconservation.org.

Last 'Behind the Notes' with Maestro Ponti scheduled

The Lifelong Learning Institute (LLI) will host Maestro Raffaele Ponti of the Charlotte Symphony Orchestra for the last "Behind the Notes" of the 2018-2019 season from 4 p.m. to 5:30 p.m. on March 8 on the Charlotte campus of Florida SouthWestern State College at 26300 Airport Road in Punta Gorda. Pre-registration can be made online at www.lifelonglearning-charlotte.org or by calling the LLI office at 941-637-3533. Admission is \$20 per person and it can also be paid at the door with credit card, cash or check.

Phishing for fraud

Scams trick web users, lead to identity theft

Fishing for tarpon, snook or redfish? Shrimp and mullet are said to be some of the best bait lures.

Phishing for fraud? That's when online scammers send out bogus emails or text messages impersonating a trusted source. The prized catch? Stealing valuable personal information.

Many scammers play a numbers game, casting big nets pretending to be large, well-known companies. But they still need tempting lures.

Like a Bank of America alert that it's locked your account due to unusual activity. Or Verizon notifying you that your \$932 bill is available to view online. Or American Express confirming a change of address. Or Comcast advising that it's unable to process your payment. Or Amazon telling you a \$50 Prime Reward balance will expire shortly. Or Apple confirming a recent purchase.

If you received one of these emails from a company you do business with, what would you do?

"Think you'll never click on a link or download an attachment in a phishing email? Think again," warns the Identity Theft Resource Center. "An attacker sending 10 phishing emails has a 90 percent chance one person will fall for it. What makes phishing emails so effective is that they look like normal emails from organizations you're familiar with or people you know."

Other phishing imposter scams include bogus emails from FedEx, UPS or the U.S. Postal Service regarding package delivery problems. Clicking a directed link installs dangerous malware.

"Phishing scams trick web users into downloading an infected file, clicking a toxic hyperlink, or giving up private information, which can lead to identity theft," explains thestreet.com. "The most common types of attack result in a hacker gaining access to sensitive information (like the password to your online banking site or your email account), access to the information you store on your laptop or mobile device, or even control of your device."

So, keep your guard up. Especially with impersonal emails addressed to "valued customer," "client," or "cardholder." Other telltale signs include spelling and grammatical errors.

In addition, be particularly suspicious of emails requesting urgent action.

"In general, companies will provide adequate warning and give ample time for users to respond to potential issues. Take a few moments to breathe and calm down if you receive an email demanding an immediate response," cautions business technology website TechNative. "If an email is designed to cause panic, there's a good chance it's not genuine."

The website also suggests developing a habit of hovering your cursor over links in emails to see where the URL actually points.

To make matters worse, Wombat Security warns of a huge surge recently in phishing sites using HTTPS encryption. That "s" stands for secure and should be trusted.

"The problem this trend poses is that many people wrongly assume that a site with HTTPS encryption is safe to use," cautions Wombat. "While HTTPS does indicate a site is secure — any data exchanged with it is encrypted — that doesn't mean it's safe. Attackers are taking advantage of this confusion and using it to fool victims."

So, take some time and think before you click.

If something smells fishy, self-initiate verification by typing in the suspected company's URL address or calling a customer service number you know is legitimate.

And never provide personal information, send money or give access to your computer to anyone unknown contacting you.

Always remember, when you're online — using email or social media — you're a potential prized catch.

Think you can spot when you're being phished? Google has a short online quiz. Take it at <https://phishingquiz.withgoogle.com>. It's an eye-opener.

Finally, the Federal Trade Commission requests forwarding any suspected phishing emails to spam@uce.gov as well as the organization impersonated in the email.

Entrepreneur is having a gas

Balloon Excitement lifts off in Port Charlotte

By SUE WADE
SUN CORRESPONDENT

Robbyn Taylor was full-time Army National Guard in 2004, deployed to NATO headquarters in Kosovo, when she met dashing Portuguese army man Jorge Santos da Silveira.

When he went on a UN peacekeeping mission to the Southeast Asian nation of East Timor, he asked her to come along.

"It's not so bad there," he said, embellishing the truth a little, in order to manage marrying her. "I'd never lived in a country that poor, where there's a security problem and you don't know who's following you down the street," Taylor remembered. "But when he got me a pet pig that I wanted, I knew he really loved me."

Except the pig liked to bite.

An operations guy who can assess any situation at once, Jorge wasted no time giving the pig to their housekeeper.

Between Jorge's UN assignments, the couple bought a seasonal condo in Port Charlotte, where Taylor's parents live. But with Jorge often out of the country, Taylor had time on her hands.

"I went to the gym a lot, took drumming and Zumba classes."

Then she realized it would be nice to have an income-generating seasonal business.

"I thought, 'People are happy when they get balloons. I won't have cranky people to deal with. You get the job, set 'em up, pop 'em and it's done.'"

What could be more uplifting than balloons?

"It's actually very calming," she said, but balloon artistry also involves a lot of training and has become big business worldwide. There's even a World Balloon Convention, the Oscars of inflatables, where a 15-foot Taiwanese tiger snagged first prize last year.

The Carter and Obama inaugurations involved relatively inexpensive balloon décor — a few thousand dollars for decorations that were laughably easy to take down afterwards, with pins.

It all starts simply, explained Taylor. "There are two basic kinds of balloon artists: stackers and twisters."

Twisters whip up dogs and

PHOTOS PROVIDED

An "Under the Sea" theme, Robbyn Taylor learned, involves multiple balloon-art techniques.

giraffes with a few squeaky twists and turns. Taylor defines herself as a stacker.

To become one, she took a four-day, 12-hour-a-day class in Fort Lauderdale with US Art Balloons.

Even though she had a background in logistics and a Cal Poly degree in computer science, "Balloon art was a lot more work than I'd thought."

"At first it was way over my head," she deadpanned.

But gradually it became easier. She invested in a \$400 compressor, took even more training and business began to take off.

Last November, Balloon Excitement created a proscenium arch out of thin air for The Rock Box Music School & Stage's "Attack of the Nineties" concert stage in North Port.

"It totally set the vibe for the event," said Rock Box co-owner/music teacher Angel Bartolotta.

SCORE Small Business Talk: Hone your communication skills

Most business owners know how to create revenue for their business. Painters know how

to paint, landscapers know how to install and maintain plants, salespeople know how to sell.

Business owners also know how to manage their business, how to market their product or service and how to track the income and expenses. They know how to read and understand financial statements.

These are considered hard skills and are taught in most business workshops, see portcharlotte.score.org.

Communication skills are often referred to as "soft skills." Sometimes called people skills, interpersonal skills or social skills, they allow business owners to relate to other people and their needs. Effective communication helps a business deal with;

customers, suppliers, employees and shareholders, and in most every other aspect of business.

There are three basic types of communication; verbal communication, nonverbal communication and visual communication. Let's look at each one and how it can affect our business.

Verbal communication is the most obvious of the three types of communication. When talking with someone, ask questions. By asking questions you give them the opportunity to talk and that allows them to relax.

The key here is to listen to what they have to say.

Listening is one of the top communication skills business people need to perfect. People love being listened to. Listening is particularly important when it comes to dealing with customers.

By listening to customers or clients, you can quickly and effectively determine their specific problem and show how your products or services can solve that problem.

Many folks feel non-verbal communication is as important, if not more important, than verbal skills. If you understand nonverbal communication, you have an advantage.

Facial expressions, posture, eye contact, voice, and hand gestures all fall into this category. Learning the art of nonverbal communication for business relations is not easy, but it can improve your communications with customers, clients and colleagues, as well as friends. Use it to supplement verbal communication.

When you can't meet with customers or clients to ask questions and listen, you rely on visual communication. In fact, visual communication is what we use the most to transmit our message to our market. Visual communication is the transmission of information and ideas using symbols and imagery. It can include signs, drawings, brochures, pictures, graphic design, animation and several electronic resources.

Your logo and some of your branding tools are examples of visual communication. This is an area where mis-communication can easily take place. It is important that when your market interprets your visual communication, they receive the message you intended.

Good communication skills can make a good business person into a great business person. When you communicate more effectively, you're more aware of potential problems and better able to implement solutions.

You become more informed about every aspect of your business and your customers. You can discover potential pitfalls and problems early and take steps to correct them before they become an issue.

Let me know your thoughts at eddavis@scorevolunteers.org. Sharpen the saw: Thursday, Feb. 28, Englewood Lunch and Learn workshop on Networking to Grow Your Business; Tuesday, March 5,

Insurance and savings

Dear Dave, I just realized our insurance has a health savings account (HSA) option. We've considered dropping this insurance soon and going to a cheaper Christian medical sharing program. We've got about \$19,000 in debt between credit cards and a car payment, and we're on Baby Step 2 of your plan. Our thought was to fund the HSA for a period of time as a means of saving, cancel that policy, then go over to a medical sharing program we found that

Dave RAMSEY COLUMNIST

costs \$600 a month less. After that, we would start paying down debt again. What do you think?
— Amy

Dear Amy, There are two components to an HSA, the insurance component and the savings component. You don't have to participate in the savings component. The insurance component is simply a large deductible, 100 percent coverage after the deductible, cheaper-premium health insurance plan. If I were in Baby Step 2, I would not do the savings component. I would only do the insurance component, or I'd do the medical sharing program.

I'm not sure why you'd need to jump back and forth if you're going to permanently move to a medical sharing program. I get the idea of saving money, but what you're talking about isn't something I'd recommend for someone who's in debt. I wouldn't fund a savings account of several thousand dollars only for medical when you're not even on Baby Step 3, which is saving an emergency fund of three to six months of expenses. That money needs to be used to pay off debt first.

It's not the end of the world if you don't fund the HSA portion of your current insurance plan. If you went with a medical sharing program, and just saved up a large emergency fund, the only thing you'd really lose out on is the tax deduction associated with an HSA.

Good question!

"They also added to our Halloween décor, as well as our award-nominated Christmas display. Balloon Excitement is amazing!"

In collaboration with Balloons by Gayle of Fort Myers, Taylor set up two mammoth Valentine's hearts that stood for three weeks in the pools at each end of Port Charlotte Town Center mall. Each heart was made in two pieces, placed in the pool and then joined.

"I was blowing up balloons for days in advance," said Taylor. "We finished setting up around 4 in the morning, and I got in those pools every few days to replace balloons that were deflating. It took 70 person-hours to put up and only an hour to pop."

As a rule, Balloon Excitement doesn't use helium-filled foil (Mylar) balloons or metallic ribbon outdoors.

Not only is there a helium shortage, but runaway metallic balloons and ribbon can take down a power line and aren't biodegradable. Taylor prefers environmentally responsible, air-filled balloon décor and never does outdoor balloon releases.

Classic balloon decor (arches, columns, walls) normally requires a generous amount of balloons and labor. Balloon party packages start in the \$200 range, but Taylor also does custom balloon bouquet deliveries and

Charlotte Harbor zip codes turn up silver for residents

Sealed Vault Bags full of heavy silver bars are actually being handed over to the first Florida residents who find their zip code listed in today's publication and call before the 48 hour order deadline ends to claim the bags full of valuable silver

NATIONWIDE – Operators at the National Silver Hotline are struggling to keep up with all the calls.

That's because Silver Vault Bags loaded with a small fortune of .999 pure Silver Bars are now being handed over to everyone who beats the 2-day order deadline.

"It's like a modern day Gold Rush. Florida residents will be hoarding all the silver bars they can get their hands on for the next 2 days. This comes as no surprise after the standard State Minimum set by the Federated Mint dropped 42%, going from \$50 per bar to just \$29 making these Silver Vault Bags a real steal," said Mary Ellen Withrow, the emeritus 40th Treasurer of the United States of America.

"As executive advisor to the private Federated Mint, I get paid to deliver breaking news. And here's the best part. This is great news for Florida residents because it's the lowest ever State Minimum set by the Federated Mint," said Withrow.

The only thing residents need to do is find their zip code on the Distribution List printed in today's publication. If their zip code is on the list, they need to immediately call the National Silver Hotline before the 2-day order deadline ends.

Residents who do are cashing in on the record low State Minimum set by the Federated Mint. This is a real steal for residents because each Silver Vault Bag loaded with 10 Florida State Silver Bars is normally set at \$500 which is the standard \$50 per heavy half ounce bar State Minimum set by the Federated Mint. But here's the good news. Residents who call today get the lowest ever State Minimum set by the Federated Mint of just \$290 for each Florida Silver Vault Bag which is just \$29 per bar as long as they call the National Silver Hotline at; 1-866-874-7770 EXT. FMM1310 before the deadline ends.

Phone lines open at precisely 8:30 A.M. this morning and are expected to be flooded by Florida residents looking to cash in on the lowest ever State Minimum set by the Federated Mint to date. That's why Charlotte Harbor area residents who find their zip code on the distribution list today are being urged to call immediately.

Since this special advertising announcement can't stop dealers and collectors from hoarding all the new 2019 Edition Florida State Silver Bars they can get their hands on, the Federated Mint had to set a strict limit of three Jumbo Silver Ballistic Bags per resident – these are the bags everyone's trying to get because they contain 10 individual Silver Vault Bags each. Everyone who gets these will feel like they just hit the jackpot.

"Residents who want to cash in on the lowest ever State Minimum set by the private Federated Mint better hurry. That's because in 2 days, the State Minimum for these heavy half ounce Florida State Silver Bars returns to the normal State Minimum set by the Federated Mint of \$50 per bar," Withrow said.

"We're bracing for all the calls and doing the best we can, but with just hours left before the deadline ends, residents lucky enough to find their zip code listed in today's publication need to immediately call the National Silver Hotline," Withrow said. ■

■ **SILVER HITS ROCK BOTTOM:** Everyone's scrambling to get the Silver Vault Bags each loaded with 10 solid .999 pure Silver State Bars before they are all gone. That's because the standard State Minimum set by the private Federated Mint dropped 42%, going from \$50 per bar to just \$29, which is a real steal.

■ **FLORIDA RESIDENTS CASH IN:** It's like a modern day Gold Rush. Everyone's scrambling to get their hands on the heavy, Jumbo Silver Ballistic Bags pictured above before they're all gone. That's because residents who find their zip code printed in today's publication are cashing in on the lowest ever State Minimum price set for the next 2 days by the Federated Mint.

► **Who gets the Silver Vault Bags:** Listed below are the U.S. zip codes that get the Silver Vault Bags. If you live in one of these areas immediately call: **1-866-874-7770 EXT. FMM1310**

33821	33947	33952	33955	33982	34224	34275	34287
33921	33948	33953	33980	33983	34229	34285	34292
33946	33950	33954	33981	34223	34266	34286	34293

► **I keep calling and can't get through:** Keep trying. Right now everyone's looking to cash in on the lowest State Minimum ever set by the Federated Mint. In fact, tens of thousands of residents are expected to order up as many Silver Vault Bags as they can get their hands on before the deadline ends. That's because the State Minimum set by the Federated Mint has been slashed from \$50 per heavy half ounce to just \$29 for the next 2 days. And since each Silver Vault Bag contains 10 valuable State Silver Bars for just \$290 nearly everyone is taking at least three bags before they're all gone. But all those who really want to cash in are taking the Jumbo Silver Ballistic Bags containing 100 State Silver Bars before the State Minimum set by the Federated Mint goes back up to \$500 per Vault Bag. So if lines are busy keep trying.

► **How much are the Silver Vault Bags worth:** It's hard to tell how much these Silver Vault Bags could be worth since they are highly collectible, but those who get in on this now will be the really smart ones. That's because the State Minimum set by the Federated Mint goes back up to \$500 per bag after the deadline ends. So you better believe that at just \$290 the Silver Vault bags are a real steal for everyone who beats the deadline.

► **Can I buy one State Silver Bar:** Yes. But, the lowest ever State Minimum set by the Federated Mint of just \$29 per bar applies only to residents who purchase a Silver Vault Bag(s). That means only those residents who order a Silver Vault Bag(s) or the heavy, Jumbo Silver Ballistic Bag(s) get the \$29 per bar State Minimum set by the Federated Mint. All single bar purchases, orders placed after the 2-day deadline and all non-state residents must pay the standard \$50 per heavy half ounce Bar State Minimum set by the Federated Mint.

► **Why is the State Minimum set by the Federated Mint so low now:** Thousands of U.S. residents stand to miss the deadline to get the silver at the lowest ever State Minimum set by the private Federated Mint. Now all residents who find their zip code on the Distribution List above are getting the Silver Vault Bags for themselves and all the solid .999 pure State Silver Bars found inside. The price for each Silver Vault Bag is normally set at \$500 which is the standard \$50 per bar State Minimum set by the Federated Mint, but residents who beat the 2-day deadline only cover the lowest ever State Minimum set by the Federated Mint of just \$290 for each State Silver Vault Bag which is just \$29 per bar as long as they call the National Silver Hotline before the deadline ends at: **1-866-874-7770 EXT. FMM1310**. Hotlines open at 8:30 A.M.

Amazing Pill Reverses Memory Loss Used In Italy For 31 Years Goes On Sale Nationwide

Tested and approved by U.S. doctors; studies show active ingredients reverse years of memory loss and work even in severe cases of mental decline; make users sharper and smarter; relieve stress; improve memory and brain function in days with no harmful side effects

By J.K. Wiley
National Media Syndicate

NMS—A pill that reverses years of memory loss and triggers enhance brain function without side effects has been used safely in Italy for 31 years. It is now available in the United States without a prescription.

The remarkable pill contains a key ingredient, which was first developed by Italian Pharmaceutical scientists in 1987, not only reawaken mental function... but also... speed up thinking and reaction times in the brain.

It also works to restore healthy brain cells within the brain's neural network; this is what improves memory and learning functions.

Now an improved version of this pill is being offered in America under the brand name Poxelin.

With daily use, the powerful compound in Poxelin is able to get inside your brain, and give the brain an invigoration energy boost by producing key chemicals that 'wake up' healthy brain cells, which improve memory, enhance cognitive function and thinking power," explains Jeremy Williams, President of the parent company behind the Poxelin.

"This is what the clinical studies have shown and is why so many U.S. doctors are now recommending Poxelin to patients," he added.

Exciting Discovery of Memory Loss Reversed

Poxelin contains an amazing compound that has a known ability to improve memory and enhance brain function within days.

The compound is not a drug. It is the active ingredient in Poxelin.

Scientists believe that Poxelin's active ingredient works to block the enzyme responsible for breaking down a neurotransmitter.

The vital neurotransmitter, called acetylcholine (or AC), in the brain plays an important role for memory, thinking speed, reaction times and mental activity.

AC helps our brain cells communicate. Transferring information from one area to another. Without it our thoughts become "stuck" and we can't access information and memories.

Research shows that as we age, the healthy levels of AC in our brain begins to break down, which causes the brain cells gradually die.

The results can be delayed reactions, slower thinking, memory loss, and eventually a complete breakdown in brain function.

Well, that's where Poxelin comes in and why it seems to be so effective.

"I took Poxelin and felt fabulous. My speech has improved, my hands are shaking less. I even notice that my "senior moments" are becoming few and far between," said Loraine Sheldon from Austin, TX.

All this positive feedback makes it easy to understand why there is so much excitement and optimism surrounding this amazing new memory pill.

Clinical Results That Are Wowing The Medical Community

The clinical studies were conducted by top scientists

MEMORY LOSS REVERSED: Doctors are now recommending new Poxelin to seniors suffering from symptoms of memory loss and mental decline. Initial users in U.S. report improvements in memory, speech, thinking and learning functions without side effects.

here in the United States. The results were published in the prestigious medical journal Neurology.

The studies included both men and women who were suffering from age related memory loss. First, they had patients perform various memory tests. Then, they gave half the patients Poxelin's active ingredient. They gave the other half a placebo (dummy) pill. After 12 weeks they had the patients do the test again.

The results were astonishing.

The participants who took the pill as directed reversed their mental age by nearly 12 years according to researchers conducting the studies.

They also saw a huge improvement in their memory, learning and thinking ability. They could remember the names and faces of people they never met... find misplaced objects quickly... and recall telephone numbers easily.

Another study conducted in Italy produced similarity outstanding results, where user experienced a 44% improvement in mental function in just 90 days. Nothing like it has been seen before.

In fact, the FDA awarded Poxelin's active ingredient with a rare "Qualified Health Claim for both Cognitive Dysfunction and Dementia."

"All I did was take Poxelin daily like the instructions said and within days I noticed improvement. Everything seems so much clearer now. It's like a fog has been lifted from my mind," said Robert P, from Sedona, AZ.

The Way It Works Is Extraordinary

Poxelin is a one-a-day pill that's taken after breakfast. The pill is small. Easy to swallow. There are no harmful side effects. And it does not require a prescription.

Actually, the only 'side effect' is that the active ingredients in Poxelin boost your mood and can even help you sleep better. Researchers believe the Poxelin's active ingredient reduces cortisol, the brain's stress hormone. Resulting in less stress, which leads to better sleep and a more positive mood.

Scientists also believe the key ingredient in Poxelin works to block the enzyme destroys a vital neurotransmitter called acetylcholine, or AC.

How important is AC? VERY. If you're able to read this, you can thank your healthy levels of AC.

As we age, our AC levels go down naturally. But in people suffering from

age-related memory loss, something goes horribly wrong, which causes our brain cells gradually die. If brain cells fail, so does memory.

The results can be lapsed in concentration, forgetfulness, and mental decline; and that's where Poxelin comes in and why it seems to be so effective.

"I had severe memory problems," said 69 year old David S., of Henderson, NV. "But I can already concentrate and remember details better after only one month with Poxelin. This pill is easing my fear of dementia," he added.

What Doctors Are Saying

"Poxelin is the first real solution to come along for mental decline that is both side-effect free and supported by clinical trials. If you suffer from an age related memory loss, try this product immediately," said Dr. Peter Grossman, from Philadelphia, PA.

"In all my years as medical doctor, there is nothing else quite like Poxelin when it comes to supporting memory, concentration and healthy brain function. The product even relieves anxiety and stress without side effects," said Dr. Kimberly Langdon, from Columbus, OH.

"I recommend Poxelin to seniors who find it difficult to remember the events, people and names of their lives. The evidence shows it is especially effective for those who suffer from "brain fog" and "senior moments"," said Dr. Jenny Reategui, from Los Angeles, CA.

Special Opportunity To Get Poxelin

This is the official nationwide release of Poxelin in the United States. And so, the company is offering a special discount supply to any memory loss suffers who calls within the next 48-hours.

A Regional Order Hotline has been set up for local readers to call. This gives everyone an equal chance to try Poxelin.

Starting at 7:00 AM today, the order hotline will be open for 48-hours. All you have to do is call TOLL-FREE **1-800-488-5867** and provide the operator with the special discount approval code: **BB762**. The company will do the rest.

Important: Due to Poxelin's recent media exposure, phone lines are often busy. If you call and do not immediately get through, please be patient and call back. Those who miss the 48-hour deadline may have to pay full price for Poxelin.

Prizes galore at Business & Community Expo

Prizes galore will be offered to the community at the 33rd Annual Business & Community Expo to be held from 9 a.m.-2 p.m. Saturday, March 9, at the George Mullen Activity Center in North Port.

Bill GUNNIN
COLUMNIST

The theme of the 2019 Business & Community Expo is "The Art of Business" and will be held in conjunction with the city of North Port's "Arts on the Green" on the same day, which will attract additional participants to attend the expo.

The chamber is pleased to announce that Worksite is once again the title sponsor of the Business & Community Expo and will be giving away a door prize every hour at the expo.

Every vendor participating in the Business & Community Expo will be giving away door prizes to the public. The Tampa Bay Rays will be giving away two tickets to a Tampa Bay Rays baseball game every hour. There will be an opportunity for the public to win two grand prizes at the expo: Two tickets on the Key West Express and four tickets to the inaugural Atlanta Braves Spring Training baseball game against the Tampa Bay Rays — which is sold out.

The North Port Area Chamber of Commerce has limited number vendor booths and sponsorship opportunities for businesses and organizations available and will be secured on a first-come/first-served basis.

The Business & Community Expo is designed to allow our chamber members and local businesses/

organizations to showcase their products and services to the community and to encourage residents to shop and support local businesses/organizations. The expo is open and free to the public and the first 300 participants will receive a complimentary goodie bags full of wonderful items provided by chamber members.

Business & Economic Development Committee

The Business & Economic Development Committee will hold its monthly committee meeting at 8:30 a.m. today in the second floor community room at the Sarasota Memorial Emergency Room, 2345 Bobcat Village Center Road, North Port.

Representatives from the city of North Port, Sarasota County government and the Economic Development Corp. of Sarasota County will provide updates on economic development issues and topics that affect the city of North Port and Sarasota County.

This committee meeting is open to all chamber members and to the public. Doughnuts, fruit, water and coffee will be provided.

Government Relations Committee

The Government Relations Committee will hold its monthly committee meeting at 8:30 a.m. Thursday, Feb. 28, at North Port City Hall, Room 244, in North Port.

This committee discusses legislative issues and topics that affect the city of North Port and Sarasota County. North

Port Mayor Chris Hanks, along with representatives from the Sarasota County government, Economic Development Corp. of Sarasota County and the Sarasota County Tax Collector's Office, will provide updates on issues and topics that affect the city of North Port and Sarasota County.

This committee is open to all chamber members and to the public. Doughnuts, fruit, water and coffee will be provided.

Marketing & Communications committee

The Marketing & Communication committee will hold its monthly committee meeting at 9 a.m. Friday, March 1, in the conference room at Charlotte State Bank & Trust, at 4300 Aiden Lane, in North Port. The committee discusses and implements efforts to promote the chamber to chamber members and to the community.

Marketing and promotional efforts include the chamber's website, Facebook page, social media, publications, events and activities, etc. Individuals with marketing and promotional backgrounds and interests are invited and encouraged to attend this committee meeting. This committee is open to all chamber members and to the public.

For more information, please call the North Port Area Chamber of Commerce office at 941-564-3040 or visit the website at www.northportareachamber.com.

Bill Gunnin is the executive director of the North Port Area Chamber of Commerce and can be reached at 941-564-3040 or email at wgunnin@northportareachamber.com.

Visitors become residents, and they start at the Englewood chamber

We welcome approximately 6,000 visitors to the Englewood Chamber of Commerce each year. Last week, one of our guests reminded me of topic that is mentioned within the circles of tourism-related

Ed HILL
COLUMNIST

discussions, but not often talked about by the general public.

Apparently, he and his family have been visitors to our community for several years. They liked the area so much that they decided to move here. They recently bought a lot and are doing their homework before building.

The purpose of this gentleman's visit to the chamber was to gather information regarding general contractors and other businesses that would be involved in building a house. He was looking for plumbers, electricians, roofers, flooring and tile companies, painters and more.

This is your classic example of a "visitor becoming a resident," and it's probably happening more than we all know. I suspect there are a number of people reading this column right now who followed a similar path to Florida.

What does this mean to our community's economy? Take a moment to think about all of the products

and services you purchase each month. There's the banking services, insurance, auto repairs, maybe pool and landscaping services, the grocery and drug store.

A new resident contributes to the local economy by buying products and services, just like you do. This now allows local business owners to support their families and to grow their business.

That growth might take the form of hiring additional employees, which helps them support their families.

Sometimes it might be easier to understand the resulting consequences if people did not move to our area. Businesses would close, or at least need to reduce the services they provide. Maybe that favorite restaurant would shut its doors. Families would need to move out of the area as they search for another source of income.

Needless to say, the quality of life for those remaining would be reduced.

Impact of the chamber

It was interesting to hear this future new resident say his personal preference is to do businesses with those who belong to the local Chamber of Commerce. Unless you are a member of the chamber, there's a good chance this gentleman was not introduced to your business. How many other people might feel the same?

A business that belongs to the local chamber has an

advantage over a business that doesn't belong. If you would like to learn more about what the chamber can do for you, please don't hesitate to contact me or Kim Parks.

Visit with Capt. Marian

Capt. Marian Schneider has written a book, "There's a Captain in You." You'll have the opportunity purchase the book and have her personally sign it today, beginning at 11 a.m. at the chamber's office, 601 S. Indiana Ave. If you have an interest in learning of the many environmental friendly exploration opportunities of our community, you should plan on attending this event.

Upcoming Events

- **Lunch n' Learn,** 11:30 a.m. to 1 p.m. Thursday at the Chamber's Community Room. The topic is "Networking to Grow Your Business." The event is free thanks to the generous sponsorship of Xpertech Auto Repair. An online registration is appreciated at www.PortCharlotteSCORE.org
- **Ribbon-cutting and open house,** 4-6 p.m. Thursday at Amazing Tails Dog & Horse Boarding, 1000 Morningside Dr., Englewood.

Ed Hill is executive director of the Englewood Florida Chamber of Commerce. He can be reached at ed.hill@englewoodchamber.com or 941-474-5511.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease. All doctors mentioned are remunerated for their services. All clinical studies on Poxelin's active ingredients were independently conducted and were not sponsored by the Maker of Poxelin.

Is the Punta Gorda chamber right for you?

Operating any small business can be lonesome, scary and unpredictable,

John WRIGHT
COLUMNIST

as well as invigorating, exhausting and hopefully profitable. A good chamber will be there to be your business network, to connect you to fellow business owners with whom you can both do business and gather support and information.

The business-to-business connections that are generated through chamber networking can be invaluable. The chamber will also promote any and all information you share with them to its very wide

network of connections, through social media, email marketing, the office and the WWW.

If you are looking to widen your network and generate new business, a chamber should be your very first port of call to see what they can offer you. However, don't expect your doors to burst open with new business if you have no information to share.

Those who engage will for sure reap the benefit many times over. It takes only a little financial investment and a couple of productive hours of your time each week to make sure you are benefiting from your membership to its fullest. The Punta Gorda Chamber enjoys a vibrant and strong network, so don't be a

naysayer without knowing what's on offer. Call 941-639-3720 to set up a time we can meet you and discuss what we do and how we might help you. Membership is as little as \$23 per month!

Ribbon-cuttings

Tonight at 5:30 p.m., we gather at Comfort Storage, 3811 Tamiami Trail, Punta Gorda, to celebrate their ribbon-cutting.

On Thursday, we visit Eric Catron & Co's latest model at 25439 Barinas Drive, Deep Creek, with the ribbon-cutting at 5:30 p.m. and open house from 5 p.m. to 7 p.m. Everyone is welcome to attend and support these new businesses and projects. Kindly RSVP your attendance to 941-639-3720.

Networking

Wednesday is our February Networking Luncheon, hosted at Charlotte High School. We love our now annual visit to the school, to see what an amazing set of students we have in our city. For last minute reservations (\$15), you will need to call today, 941-639-3720.

On Saturday, our friends at Gator Wilderness Camp are hosting a special Chamber Members and Friends Luncheon at their facility, 44930 Farabee Road, Punta Gorda. Tour of their beautiful 250-acre property, where they serve troubled adolescent boys of Charlotte, DeSoto and surrounding counties. Bring your family and friends along to see for

yourselves the great work they undertake. Tours start at 11 a.m. Lunch is served at 12:30 p.m. and 1:15 p.m. There will be a short program and singing by their campers. Please RSVP today by calling 336-577-9039.

Join the tours

This Thursday through April 4, in conjunction with the Punta Gorda Historic Mural Society, we invite you to join us in a guided walking tour of our beautiful city, stopping at historic murals along the way. The two-hour tours start at 9:30 a.m. We begin at the chamber office, 252 W. Marion Ave., Punta Gorda. To purchase your tickets, please call 941-639-3720 during office hours. Tickets are only

\$15 per person, benefiting the Mural Society.

Our trolley and boat tours, in conjunction with King Fisher Fleet, will operate every Wednesday and Friday afternoon throughout February and March. Give us a call and we'll be happy to discuss the various options with you for these ever-popular trips 941-639-3720. These tours are an excellent way to visit our city in a relaxing yet informative way, aboard a King Fisher Fleet cruise bat as well as the Olde Time Trolley.

John R. Wright is President of the Punta Gorda Chamber of Commerce jrwright@puntagordachamber.com Charlotte Sun is a proud Platinum sponsor of this Chamber.

Lots going on at the Charlotte Chamber

We're looking forward to a fun Business Card Exchange at the Frohlich, Gordon & Beason Law Firm from 5 p.m. to 7 p.m.

Julie MATHIS
COLUMNIST

Thursday at 18401 Murdock Circle. Remember to bring plenty of business cards and a small gift to promote your business.

And, then it's March and we start with

Networking at Noon at Angela's Café Italiano at 258 W Marion Ave., Punta Gorda. Please make your reservation in the chamber store or by calling 941-627-2222.

Our March Third Wednesday Coffee will feature a presentation by Travis Mortimer, assistant county administrator, who will discuss the progress of the sales tax projects. The Coffee sponsor is Around the Clock Fitness.

We hope to see you at 7:15 a.m. for coffee, networking and great information on March 20 at the Event Center. And, the Business Card Exchange is March 28 at Chapman Insurance Agency I Port Charlotte.

March 22 is the Chambers Day at the Rays when members of the Charlotte, Englewood, North Port and Punta Gorda chambers will gather for game watching, networking and (shall I write it) beer drinking. Watch this column or read Business Online to get details about specially-priced tickets.

The Junior Leadership Charlotte

class will graduate March 26 after spending at least one day a month since October together learning about the community. The 25 students from the high schools, Community Christian and Florida Southwestern Collegiate were on the radio, visited an operating room, did an art project, waded in the Peace Rive, enjoyed a fresh lunch prepared by the Technical College's Culinary Department at Worden Farms, did a scavenger hunt, toured the jail and visited the air traffic control tower ... just to name a few of their many activities. One of the goals of the program is to make the students to aware of our community so that they consider living, working and playing here following their post-secondary education. Applications for the JLC class of 2020 will be available in August.

Our colleague, Bob White, is leaving the chamber this week to start a new position as manager of the Sunseeker Resort Welcome Center. It's been a real pleasure working with Bob. His enthusiasm for all things Charlotte County Chamber is contagious and he's been our number one cheerleader for the past three years. The good news for all of us is that he's staying right here and will continue to be active in with our chamber. Thanks, Bob, and congratulations! You'll be missed.

Julie Mathis is executive director of the Charlotte County Chamber of Commerce. Email her at jmthlis@charlottecountychamber.org.

Find frames, art, supplies and more at Frames By the Thousands & Gallery

Beverly Hess knew what she was doing when she named her store Frames By the Thousands & Gallery. I've never seen such a vast assortment of frames in my life.

The frames are displayed all over the place in every color, shape, size, design, motif or look you could dream of. They are available in painted, unfinished or in kits, so you can create your own look.

There is a lot more to the store than just frames, though. Beverly has a true art center with every form of art and creativity you can ask for. As for art supplies, she has everything an artist needs and uses, and at discounted prices. The supplies include oil and acrylic paints, watercolor paints, canvasses, easels, palettes, brushes. Whether you are a budding Picasso or someone just starting out, she has everything you

need to make your work a piece of art.

Beverly and her husband are world-class photographers, and you can see their work throughout the store. Many are framed photos, and others are their works in a giclee presentation.

Giclee is a way of making fine digital prints on inkjet printers. Simply put, it's a process for making a photo look like a painting on canvas. The ones Beverly has on display are simply beautiful, and many of the pictures were taken by her or her husband. The ones on the lighthouses of Boca Grande would be a tribute to any room of your house. Frames By the Thousands has been in Englewood since 1980, and Beverly has owned it since 1991. That is 30 years of quality art restoration, photo copy, and giclee works in all forms.

Frames and art supplies are what have made her and her store famous around town, but she carries quite an assortment of exclusive giclee artist note cards. The quality

and look of the cards will make you want to buy on the spot. They look and feel like original art works and some are photos taken from around the area.

The cards are designed by her sister-in-law and are available only at Frames By The Thousand. Once you see them, you may be more apt to keep them rather than send them to someone else.

This is truly a place for artists whether they are an old pro or just starting out. By the way if you are just starting out, there is a host of "How To Art" books there for your perusal.

Beverly through the years has won and earned many "Best Of Englewood" plaques for her work in framing and artist supplies. If you have any art inclination or have the itch to start, you have to visit her at 110 W. Dearborn St. The phone number is 941-474-4413. Beverly will be happy to answer any of your questions and spend the time to help and advise. I think you need to drop in and see all that is offered though.

The Man, The Music, The Legend...
Mickey Gilley
The Original Urban Cowboy

MARCH 26, 2019 AT 7:00PM

CHARLOTTE HARBOR EVENT & CONFERENCE CENTER

With **17 No. 1 hits** and soundtrack credits for the 1980 hit film 'Urban Cowboy' starring John Travolta, some country boy balladeers might see fit to hang up the saddle — so to speak — but Mickey Gilley keeps on riding. It's not about the money for Gilley; it's about the music and connecting with the fans, young and old.

NOTICE OF POLICY DEVELOPMENT

The following policies are scheduled for review at the March 12, 2019, School Board Workshop to comply with FL Statutes.

- Independent Referendum Oversight Committee (IROC) New Policy
- P05136.01 Technology Resources and Other Electronic Equipment - New Policy
- P07544 Use of Social Media - New Policy
- P08315 Information Management - New Policy

The School Board's legal authority is per F.S. 120.74, which is to make changes to policies as often as necessary so policies are legally correct, as well as to make the District's policies informative to staff and constituents.

Any person who is affected by a proposed policy, policy revision, or the repeal of a policy, may within twenty-one (21) days following notice of the proposal to adopt, revise or repeal such policy, file a written request with the Board for a hearing on the proposed action.
Steve Dionisio, Superintendent of Schools and Executive Secretary to the School Board of Charlotte County

COMMUNITY NEWS BRIEFS

Shave-A-Thon fundraiser for Children's Cancer

The Celtic Ray, 145 E. Marion Ave., Punta Gorda, will host "St. Baldrick's," a shave-a-thon for children's cancer from 2 p.m. to 6 p.m. on March 9. The fundraiser includes a silent auction and 50/50 raffle. For more information, call 775-220-1644 or visit www.stbaldricks.org/events/puntagorda.

Concert band performance scheduled

The Charlotte County Concert Band, under the direction of Bob Miller, will present, "From Bach to Broadway" at 7:30 p.m. on March 8 in the Charlotte Performing Arts Center, 701 Carmalita St., Punta Gorda. Tickets are available online at www.charlottecountyconcertband.com or at the Charlotte Performing Arts Center the night of the performance.

NARFE monthly meeting scheduled

National Active and Retired Federal Employees Chapter 2194, Peace River, will meet at 11 a.m. on March 5, at the Elks Lodge 2606, 25538 Shore Drive, Punta Gorda. This month's program will feature the Director of the C.A.R.E., Linda Lusk, who will present "Human Trafficking in SW Florida - A Humanitarian Crisis." Attendees are reminded to bring toiletries and personal items for collection and donation to C.A.R.E. This meeting is open to all Active and Retired Federal Employees, Survivor Annuitants and their guests. For more information call 571-259-4280.

PRAS annual banquet and fundraiser set

Peace River Audubon Society will host its annual banquet and fundraiser at 5:30 p.m. on March 21 at Twin Isles Country Club, 301 Madrid Blvd, Punta Gorda. Everyone is welcome to attend this once a year event which raises funds to support environmental education. This year's speaker is Charles Sobczak with a talk titled: Alligators, Sharks, Panthers or How To Avoid Being Eaten. For reservations or information, contact Sandy Artman at 717-880-3341, or email: banquet1@peacriveraudubon.org or visit PeaceRiverAudubon.org. Reservation deadline is March 7. Tickets not available at the door.

Isles Yacht Club fundraising month planned

The Isles Yacht Club, 1780 West Marion Ave., Punta Gorda is sponsoring a number of fund raising events in March to benefit the National Leukemia & Lymphoma Society. In 2018 the yacht club raised over \$78,000 for LLS. For a complete list of events visit www.islesyc.com or call 941-639-1369.

Therapy dogs visit Sheriff's Office

The PGI Therapy Dog Club in Punta Gorda recently visited the Charlotte County Sheriff's Office to show some love to law enforcement officers and civilian staff.

Lt. Christopher Williams took the group of therapy dogs to various offices in the Utilities Road headquarters.

Some of the dogs are registered therapy dogs, while some are still in training. Trainer Marylynn Caruso oversaw the group. Anyone interested in having a therapy dog visit their office or with a dog who might be a good candidate for therapy work can contact Caruso at pgitherapydogclub@gmail.com.

Trump downplays summit expectations

President on his way to meeting with Kim Jong Un in Vietnam

By JONATHAN LEMIRE
ASSOCIATED PRESS

WASHINGTON — Redefining success, President Donald Trump headed to his second meeting with North Korea's Kim Jong Un on Monday, determined to tamp down expectations that he'll achieve big strides toward

denuclearization. Yet he was still eager to claim an attention-grabbing victory to offset the political turmoil he faces at home.

Trump is set to land in Vietnam late Tuesday and will have meetings with the host country's president and prime minister the next day before the president and Kim greet

one another and sit down Wednesday for a private dinner.

Trump will be joined at the dinner by Secretary of State Mike Pompeo and White House chief of staff Mick Mulvaney, the White House said Monday. Kim also will have two aides with him, and there will be translators for both sides. Trump and Kim, who

is traveling to the summit by train and car, will have a series of official meetings Thursday.

Trump laid out ultimate goals for both the U.S. and Kim in an appearance before the nation's governors Monday before boarding Air Force One to fly to Vietnam: "We want denuclearization, and I think he'll have a country that will set a lot of records for speed in terms of an economy."

Worries abound across world capitals about what Trump might be willing to give up in the name of a win, but there seems less mystery about his North Korean counterpart. Survival of the Kim regime is always the primary concern.

Trump was the driving force behind this week's summit, aiming to re-create the global

This Wednesday photo, shows a first lab-grown steak during a presentation by the Israeli company Aleph Farms. Several Israeli start-ups have joined a handful of companies around the globe trying to develop lab-grown meat.

Israeli startups join firms making lab-grown 'clean meat'

By ILAN BEN ZION
ASSOCIATED PRESS

NES ZIONA, Israel — Several Israeli start-ups have joined a handful of companies around the globe trying to develop lab-grown meat, something they see as a solution to the needs of the world's ever-growing population and burgeoning demand for food.

The product has been known under different names, including cultured meat, in-vitro or artificial and "clean meat" — a term advocates say underscores its environment-friendly nature. It's basically made

of animal muscle cells grown in a culture in a lab, a technology similar to stem cells.

And while "synthetic steaks" are perhaps not a candidate for everyone's favorite dish, they could someday compete with conventional chicken or beef, an affordable price tag permitting.

"Producing meat is very inefficient," said Yaakov Nahmias, a bioengineering professor at Hebrew University and founder of Future Meat Technologies. Cultured meat, by comparison, consumes "10 times less water, less land, less

energy than the current meat production."

Advocates say lab-grown meat is flavorful and better for the environment than conventional meat. They say it consumes less water, energy and land, produces less greenhouse gases and reduces animal suffering.

Agriculture is estimated to generate around 13 percent of global greenhouse gas emissions, with livestock alone responsible for two-thirds of those emissions, according to the United Nations' Food and Agriculture Organization.

For Israel, the advances are a far cry from the

country's early decades, when meat was rationed.

In fact, Israel is quickly becoming "the leader in the space, or (is) side-by-side with Silicon Valley" in cultured meat technologies, said Alex Shirazi, co-founder of the Cultured Meat and Future Food podcast and a founder of the Cultured Meat Symposium, an industry gathering in San Francisco in November.

Israel has a thriving high-tech scene, so the pursuit of lab-grown meat was a natural avenue for its entrepreneurs, experts

Ex-campaign worker for Trump sues over unwanted kiss claim

By CURT ANDERSON
AP LEGAL AFFAIRS WRITER

MIAMI — A former worker on President Donald Trump's 2016 campaign claims in a lawsuit filed Monday that he abruptly grabbed her by the hand and planted an unwanted kiss on her face during a Florida meeting with staff and volunteers.

Alva Johnson, who lives in the Huntsville, Alabama area, contends in the federal lawsuit that Trump made the nonconsensual advance in August 2016 in Tampa, Florida. She says he "grasped her hand and did not let go" and kissed her on the corner of her mouth as she turned slightly away.

"The forced and unwanted kiss was deeply offensive to Ms. Johnson," the lawsuit says, adding that she suffered "emotional distress, psychological trauma, humiliation, embarrassment, loss of dignity, invasion of privacy and other damages."

The lawsuit, also reported earlier Monday by The Washington Post and The New Yorker, seeks unspecified money damages and an order preventing the president from "grabbing, kissing or otherwise assaulting or harassing women without prior express consent."

White House Press Secretary Sarah Sanders called Johnson's allegations fabricated and said other people who were there say it did not take place.

"This accusation is absurd on its face. This never happened and is directly contradicted by multiple highly credible eye witness accounts," Sanders said.

At the time, Johnson's main job with the Trump campaign was to manage a fleet of recreational vehicles that served as traveling offices throughout Florida. According to the lawsuit, Trump visited one of these RVs in Tampa before a rally there when the unwanted kiss took place.

Among those who allegedly witnessed the incident was Pam Bondi, at the time Florida's attorney general and a Trump supporter. The lawsuit contends that Bondi "glanced at Ms. Johnson and smiled" after the alleged unwanted kiss.

Bondi did not immediately respond Monday to an email seeking comment.

Johnson's lawsuit also recounts at least a dozen similar allegations made by women against Trump and notes that she realized

US stocks close higher after tariff increase postponed

Trump willing to meet with Chinese for negotiations

By DAMIAN J. TROISE and ALEX VEIGA
AP BUSINESS WRITERS

Stocks closed modestly higher Monday after shedding most of the gains from an early rally spurred by the Trump administration's decision to hold off on increasing tariffs on imported Chinese goods.

Investors welcomed the move, which averted an escalation

in the damaging trade war between the world's two largest economies. The fight is over U.S. complaints that Beijing steals technology or pressures companies to hand it over.

Traders have been growing increasingly optimistic over the last two weeks that the U.S. and China are moving closer to a resolution of their dispute. That's helped lift stocks in

recent weeks, gains which some analysts say suggest the market is already viewing an agreement as a done deal.

"You can attribute much of today's gains to trade," said Lindsey Bell, investment strategist at CFRA.

Technology companies and banks accounted for much of the market's gains, outweighing losses in consumer goods

stocks and other sectors. Oil prices fell sharply after President Donald Trump said they were getting too high. On Friday, oil closed at the highest level since mid-November.

The S&P 500 index added 3.44 points, or 0.1 percent, to 2,796.11. The benchmark index has finished higher the past four weeks in a row.

The Dow Jones Industrial average gained 60.14 points, or 0.2 percent, to 26,091.95. Earlier in the day it was up more than

209 points.

The Nasdaq composite rose 26.92 points, or 0.4 percent, to 7,554.46. The Russell 2000 index of smaller companies dropped 1.26 points, or 0.1 percent, to 1,588.81.

Progress in the U.S.-China trade talks also helped lift markets broadly in Europe and Asia, where China's main index, the Shanghai Composite, jumped to an eight-month high.

Pence announces new sanctions on Maduro

US planning new ways to pressure him to give up power

By **BEN FOX**
and **JOSHUA GOODMAN**
ASSOCIATED PRESS

BOGOTA, Colombia — The Trump administration announced new sanctions Monday on allies of Venezuela's Nicolas Maduro as it struggles to find new ways to boost his opponent after an effort to deliver humanitarian aid to the economically devastated nation faltered amid strong resistance from security forces loyal to the socialist leader.

Vice President Mike Pence arrived in the Colombian capital for an emergency summit of regional leaders to discuss the deepening crisis and immediately met with Juan Guaido, the opposition leader the U.S. and 50 other nations recognize as Venezuela's rightful president.

In a speech, Pence urged regional partners to freeze oil assets controlled by Maduro, transfer the proceeds to Guaido and restrict visas for Maduro's inner circle. He said the U.S. was imposing more sanctions on four pro-government governors, including a close Maduro ally who negotiated the release of an American jailed for more than two years.

Pence's appearance before the Lima Group comes at an important crossroads for the coalition of mostly conservative Latin American nations and Canada that has joined forces to pressure Maduro. A month after Guaido declared himself interim president at an outdoor rally, hopes that support for Maduro inside the military would quickly crumble have faded.

Over the weekend, security forces on the borders with Colombia and Brazil fired tear gas

and buckshot on activists waving Venezuelan flags while escorting trucks with emergency medical and food kits. Four people were killed and at least 300 wounded, although only a few were hospitalized.

While Colombian authorities said more than 160 soldiers deserted their posts and sought refuge across the border over the weekend, the highest-ranking among them was a National Guard major. No battalion or division commanders have come forward to challenge Maduro despite almost-daily calls by Guaido and the U.S. to do so.

The Lima Group, in an 18-point declaration signed by 10 nations and Guaido, reiterated their call on the Venezuelan military to recognize the opposition leader as their commander in chief, urged the International Criminal Court to declare Maduro's aid blockade a crime against humanity and pressed the United Nations to play a bigger role in resolving the crisis.

For now, the U.S. is showing no signs it is considering a military intervention to remove Maduro.

During his visit, Pence repeated President Donald Trump's threat that "all options are on the table" but gingerly avoided talking about the potential for military action.

Instead, he stuck to traditional policy tools that so far have only hardened Maduro's resolve. Foremost among them was the addition of four governors to a growing list of more than 50 Venezuelan officials under sanctions and blocked from doing business or having accounts in the U.S.

For many, 'Green Book' win was a confounding Oscar climax

AP PHOTO

Peter Farrelly, center, and the cast and crew of "Green Book" accept the award for best picture at the Oscars on Sunday.

Awards sparkled with more women and African-American winners than ever before came

By **JAKE COYLE**
AP FILM WRITER

LOS ANGELES — An Academy Awards that sparkled with more women and African-American winners than ever before came to a screeching halt with the night's final honor. Some would even call it a "Crash."

In a twist ending that shocked many of the Dolby Theatre attendees and those watching at home, Peter Farrelly's hotly debated buddy road-trip dramedy "Green Book" triumphed at the 91st Oscars, complicating the story line on a night that had, until that moment, belonged to cultural milestones like Ryan Coogler's "Black Panther" and Alfonso Cuarón's border-breaking Netflix release, "Roma."

It's not unusual for the announcement of an Oscar winner to provoke a grimace or two. It's less ordinary to see members of the crowd leap to their feet, wave their arms in disgust and nearly stomp out of the theater.

The cameras missed it, but that was how Spike Lee responded in the Dolby Theatre. After all, Lee has seen it before. Almost exactly 30 years ago, "Driving Miss Daisy" — a movie with a similarly simplistic view of race that is often compared to "Green Book" — won best picture in the same year Lee's incendiary

"Do the Right Thing" came out. Backstage, Lee joked on the win for "Green Book" that "the ref made a bad call."

Lee, who won his first competitive Oscar for the script to "BlackKkklansm."

Lee was far from alone in his reaction. "Green Book" is the most divisive, and by some measure, most critically derided best-picture winner in more than a decade. Its win was greeted by many as a sign that Hollywood may have changed enough to honor the second and third black female non-acting Oscar winners (as it did Sunday with costume designer Ruth E. Carter and production designer Hannah Beachler for "Black Panther"), but it hadn't progressed so far that it didn't hand the industry's top award to a movie criticized for portraying a retrograde view of race as seen through a white protagonist's eyes.

Los Angeles Times film critic Justin Chang called it "the worst best picture winner since 'Crash.'" According to the review-aggregation website Metacritic, not since 2004's "Crash" — another movie about race relations made primarily by white men — has there been a winner with worse reviews.

But the backlash to "Green Book" — a film about the erudite jazz pianist Don Shirley (Mahershala Ali, who won best supporting actor) and the Bronx-native bouncer-turned-chauffer Tony "Lip" Vallelonga (Viggo Mortensen) — goes much deeper than that. Though the film's fans see in Farrelly's film an often funny, feel-good odd-couple tale, critics of "Green Book" see a movie that trades on racial stereotypes and crassly capitalizes on the Green Book — a segregation-era travel guide for African Americans in the Deep South — with little interest in dramatizing its important history.

"Green Book" was also fiercely criticized for not consulting with Shirley's family: his last living brother Maurice Shirley and niece Carol Shirley Kimble. Kimble. "It's once again a depiction of a white man's version of a black man's life," Kimble told Shadow and Act.

It was noted, too, that in neither acceptance speech did the film's makers — Farrelly, Nick Vallelonga and Brian Currie, who together also won best screenplay — thank Shirley. Asked about that backstage at the Oscars, Vallelonga, the son of Tony Vallelonga, added his thanks to the pianist and addressed Kimble's point. "I wish I could have reached out to Don Shirley's family," said Vallelonga. "I didn't even

know they really existed until after we were making the film, and we contacted his estate for music; and then the filmmakers, we invited them all to screenings and discussions. But I personally was not allowed to speak to his family, per Don Shirley's wishes."

Later, at the Governor's Ball, Vallelonga defended his film.

And "Green Book" had its boosters. Kareem Abdul-Jabbar praised it in a column for The Hollywood Reporter, arguing that discrepancies that irk family members didn't matter, and that "filmmakers are history's interpreters, not its chroniclers." Ali, who became the second black actor to win two Oscars after Denzel Washington, called the film "a legitimate offering" in a November interview with The Associated Press, saying: "I'm getting some crap from people saying it's a rosy picture of race, but, you know, it's just a rosy picture of that relationship, not all race relationships."

The movie's win also wasn't a complete shock. "Green Book" triumphed at the highly predictive Producers Guild Awards, which, like the Oscars, uses a preferential ballot. And it won one of awards season's first telling trophies: the Toronto International Film Festival's audience award, besting "A Star Is Born" and "Roma."

Okinawa referendum rejects relocation for US military base

By **YURI KAGEYAMA**
ASSOCIATED PRESS

TOKYO — The residents of Japan's southwestern island region of Okinawa rejected a relocation plan for a U.S. military base in a referendum, increasing pressure on the national government to change its stance that the facility will be built no matter what.

The results of Sunday's vote showed 72 percent opposed the plan for the Marines air base being built on a landfill in coastal Henoko. Support for the relocation plan totaled 19 percent.

The referendum is not legally binding but underlines Okinawans' sentiment on the relocation plan.

Henoko is to replace another base on the island in Futenma that is in a more residential area and has long been criticized as noisy and dangerous. The U.S. military, while declining comment on the referendum, has said the Henoko agreement is needed for regional security.

Critics of Henoko say sealife such as the manatee-relative dugong and coral reefs will be hurt. Many people in Okinawa

want Futenma closed but think the rest of Japan should help by sharing in the burden of hosting U.S. troops.

Okinawa Gov. Denny Tamaki, who spearheaded the referendum, said the results must be respected.

Prime Minister Shinzo Abe told reporters early Monday that the government accepted the feelings of Okinawa's people but stressed the Henoko plan won't get changed. The government has repeatedly said the relocation plan will move ahead, regardless of the referendum. Nevertheless, the

referendum will add momentum to Tamaki's renewed efforts against the U.S. bases. The sentiments have resonated not only with the residents of the subtropical islands of Okinawa but also the rest of Japan and internationally.

Tamaki has said he hopes to deliver the results of the referendum to President Donald Trump.

Government spokesman Yoshihide Suga reiterated Abe's view, telling reporters that Futenma remains dangerous and the relocation is needed to close Futenma. He said

he hoped to discuss with Tamaki what he might have in mind for Futenma.

Suga also said the government will step up efforts to win understanding from Okinawa residents.

The relocation plan has its beginnings in 1995, when outrage erupted against U.S. service members over the rape of a 12-year-old girl. Washington also agreed to transfer some personnel to the U.S. territory of Guam.

Nearly 1.16 million residents were eligible to vote in Sunday's referendum. Although Okinawa

makes up less than 1 percent of Japan's land space, it has about half of the 54,000 American troops stationed in Japan, and is home to 64 percent of the land used by the U.S. bases in the country under a bilateral security treaty.

Complicating matters is the historical suffering of Okinawa, where huge civilian casualties were recorded in the closing days of World War II. The bloodiest battles were fought on Okinawa. Okinawa also remained under U.S. occupation until 1972, much longer than the rest of Japan.

HEADLINES AROUND THE STATE

Driver killed when speeding Tesla crashes into tree, burns

DAVIE (AP) — The driver of a Tesla Model S was killed when his car crashed near Fort Lauderdale, Florida, and erupted in flames.

Witnesses tell police in Davie, Florida, that the car was traveling 75-to-90 miles per hour (120-to-145 kilometers per hour) Sunday afternoon when it left the road for an unknown reason. The driver over-corrected and the car slid across three lanes and into some trees in the median.

A police officer arrived almost immediately after the crash but wasn't able to rescue the driver before the car was

engulfed in flames. Officers identified the driver as Omar Awan. The crash remains under investigation.

Police say the car battery reignited early Monday after being towed from the scene.

2 stabbed at gay pride festival

FORT LAUDERDALE (AP) — Police say two people were stabbed at a gay pride festival in Florida.

Fort Lauderdale Police did not say what caused the altercation at Sunday's beach bash, but said the two victims are expected to survive.

Two people are in custody but neither the suspects nor victims have been identified.

The beach bash is part of the city's annual gay pride festivities which includes a Carnival-style parade featuring marching bands and floats and a block party and live music.

The Sun Sentinel reports the stabbings took place near the event's main stage on Fort Lauderdale's beach.

Off-duty sheriff's deputy injured in attack at home

LAUDERDALE LAKES (AP) — Authorities say an off-duty Florida sheriff's deputy was injured in an apparent domestic violence incident.

Broward Sheriff's officials said in a news release that

the ex-boyfriend of a woman attacked the off-duty deputy at a home in Lauderdale Lakes early Monday.

The news release says deputies went to the scene around 3:30 a.m. and found the off-duty deputy with serious injuries. He was taken to a hospital where he is listed in stable condition.

The names of the deputy, the woman and the suspect have not been released.

Snake in dryer gives woman 'near death experience'

SAFETY HARBOR (AP) — A Florida woman says she "about had a near death experience"

when she opened her dryer and saw a snake curled up in her laundry.

Tampa's Fox 13 News reports Amanda Wise was almost finished unloading the dryer in her garage on Sunday when she saw what appeared to be a corn snake.

She described the startling discovery in a Facebook post. She says her husband used a broom to coax the snake out of the dryer and outside.

Wise told the TV station the dryer vent cover on the side of the house has fallen off and they believe that's how it got inside the dryer.

Corn snakes eat rodents and are generally considered harmless. They are sometimes mistaken for copperheads.

TRUMP

FROM PAGE 1

she was not alone after the infamous "Access Hollywood" tape emerged in October 2016 in which Trump brags about groping and kissing women without asking permission. Trump has denied any wrongdoing.

A Florida lawyer who she contacted not long after the incident, Adam Horowitz, said Monday that "she was definitely in distress and not just about her job." She also told Horowitz she was seeing a therapist.

Horowitz said what they didn't know at the time was that October 2016 was also the month Stormy Daniels and Karen McDougal were being paid off through then-Trump lawyer Michael Cohen, according to Cohen's sworn statements. Horowitz ultimately did not take the Johnson case.

Johnson, who is African-American, also claims in the lawsuit that she was paid less than her Trump campaign counterparts because of her race and gender.

"The campaign knew that it was underpaying Ms. Johnson relative to her white counterparts," the lawsuit claims.

Trump campaign spokeswoman Kayleigh McEnany denied that claim.

SUMMIT

FROM PAGE 1

spectacle of his first meeting with Kim last year. But that initial summit in Singapore yielded few concrete results, and the months that followed have produced little optimism about what will be achieved in the sequel.

MEAT

FROM PAGE 1

say. The government's Innovation Authority has also sought to stimulate food-technology companies through grants and the financing of a \$25 million food-tech incubator.

Israel currently imports much of its meat and the government is invested in creating food security.

For observant Jews, several prominent Orthodox rabbis have already expressed approval for lab-grown meat being kosher. Because it doesn't come from a slaughtered animal, some rabbis have even said cultured meat could be consumed as a cheeseburger — a combination of meat and milk otherwise forbidden in Jewish tradition.

China faced a March 2 deadline when the U.S. would have increased punitive duties on \$200 billion worth of Chinese imports.

Trump, who did not set a new deadline Monday, said there had been "productive talks" on some of the more difficult issues and added he's willing to meet with Chinese President Xi Jinping if negotiations progress.

The trade war and its hefty tariffs have already raised costs for businesses

He once warned that North Korea's arsenal posed such a threat to humanity that he might have no choice but to rain "fire and fury" on the nation. However, in the leadup to the new summit, he's proclaimed himself in no hurry for Pyongyang to prove it is abandoning its weapons.

"I'm not in a rush. I don't

In February, the Good Food Institute, a Washington-based non-profit promoting the development of meat alternatives, announced a series of research grants "for the benefit of the entire scientific community and good food industry."

One of the six \$250,000 grants for "clean meat" researchers went to Israel, and a second Israeli researcher received funds for "plant-based" meat alternatives.

The industry still faces some significant hurdles, including astronomical cost, developmental challenges, regulatory issues and questions about whether people are ready to eat lab-grown meat.

Until now, most companies involved in the effort have only managed to

and consumers. Any additional escalation could shake investor confidence as an economic slowdown looms over China and Europe.

The U.S. election cycle is just around the corner, giving the president an incentive to pursue deals and keep the economy and markets stable, he said. Even so, markets may be too optimistic about what's possible in any China deal, as negotiations over intellectual property concerns will likely take more time.

Beyond trade, investors had their eye on the latest corporate news and

want to rush anybody, I just don't want testing. As long as there's no testing, we're happy," Trump told the governors on Sunday.

In fact, he is ready to write himself into the history books before he and Kim even shake hands in Hanoi.

"If I were not elected president, you would have been

produce fleshy granules.

Future Meat Technologies, a company based out of Jerusalem's Hebrew University, and SuperMeat are among those combining animal cells and plant proteins as a potential alternative to processed meats.

Aleph Farms, an Israeli start-up launched in 2017, announced in December it succeeded in producing a lab-grown "minute steak" made from bovine cells that closely resembles the texture and flavor of its cow-borne counterpart.

For now, the tiny steaks are just 3 millimeters (a tenth of an inch) wide — roughly the size of a very thin strip of roast beef.

Each Israeli player has raised several million dollars in early investment, including from major food

earnings reports.

General Electric rose 6.4 percent after the industrial giant announced plans to sell a biotech unit to Danaher for \$21.4 billion. The sale is yet another step down in size for GE, which has been divesting businesses since getting hurt in the financial crisis a decade ago.

U.S. crude lost 3.1 percent to settle at \$55.48 a barrel in New York after Trump criticized rising oil prices in an early morning tweet.

Prices are up about 20 percent so far this year. On Friday, oil ended at \$57.26 a barrel, the highest

in a war with North Korea," Trump said last week.

While Trump was airborne, Kim's armored train was on the move in China, bound toward Vietnam's capital. Vietnamese officials promised security at "the maximum level." Reporters from 40 nations were expected to transmit the story to the world.

manufactures such as U.S. giant Tyson Foods.

Before it can hit the shelves, lab-grown meat will face regulatory obstacles. The U.S. government's FDA and USDA announced in November they would "jointly oversee the production of cell-cultured food products derived from livestock and poultry."

Even if the industry can overcome obstacles, the technology necessary to make these synthetic sirloins commercially viable remains years away.

The biggest challenge may be convincing consumers to eat a steak essentially grown in a petri dish.

Nonetheless, researchers and environmentalists agree the need for sustainable, lab-grown alternatives to industrial farming is essential.

level since Nov. 12, when it closed at \$59.93.

Bond prices fell. The yield on the 10-year Treasury note rose to 2.67 percent from 2.65 percent late Friday.

Gold fell 0.2 percent to \$1,329.50 an ounce. Silver lost 0.5 percent to \$15.83 an ounce. Copper dropped 0.2 percent to \$2.95 a pound.

In other energy futures trading, wholesale gasoline slid 4.1 percent to \$1.55 a gallon. Heating oil declined 2.8 percent to \$1.97 a gallon. Natural gas climbed 4.4 percent to \$2.84 per 1,000 cubic feet.

ALMANAC

Today is **Tuesday, Feb. 26**, the 57th day of 2019. There are 308 days left in the year.

Today in history

On **Feb. 26, 1904**, the United States and Panama proclaimed a treaty under which the U.S. agreed to undertake efforts to build a ship canal across the Panama isthmus.

On this date

In **1616**, astronomer Galileo Galilei met with a Roman Inquisition official, Cardinal Robert Bellarmine, who ordered him to abandon the "heretical" concept of heliocentrism, which held that the earth revolved around the sun, instead of the other way around.

In **1987**, the Tower Commission, which probed the Iran-Contra affair, issued a report rebuking President Ronald Reagan for failing to control his national security staff.

In **1993**, a truck bomb built by Islamic extremists exploded in the parking garage of the North Tower of New York's World Trade Center, killing six people and injuring more than 1,000 others. (The bomb failed to topple the towers; both structures were destroyed in the 9/11 attack eight years later.)

Today's birthdays

Game show host Tom Kennedy is 92. ctor-director Bill Duke is 76. Singer Mitch Ryder is 74. Actress Marta Kristen (TV: "Lost in Space") is 74. Rock musician Jonathan Cain (Journey) is 69. Singer Michael Bolton is 66. Actor Greg Germann is 61. John McDaniel is 58. Actor-martial artist Mark Dacascos is 55. Actress Jennifer Grant is 53. Rhythm-and-blues singer Rico Wade (Society of Soul) is 47. Olympic gold medal swimmer Jenny Thompson is 46. Rhythm-and-blues singer Kyle Norman (Jagged Edge) is 44. Actor Greg Kinnear is 42.

Bible verse

"For I am the Lord: I will speak, and the word that I shall speak shall come to pass." — **Ezekiel 12:25**.
It is a refreshing thing to know that in a world of broken promises, there is the sure word of God remaining faithful forever. "Thou remainest."

The facts regarding identical twins and sexual identity

DEAR DR. ROACH: I read your recent column regarding identical twins where one of the two was balding while his twin was not. Within my extended family, there are identical twin brothers, who also were almost impossible for family members to differentiate. If their DNA genes are "identical," now that they are adults, how can one be homosexual, while his twin is married with children? — Anon.

ANSWER: Sexual identity defies a simple, single explanation and even categorization. As time goes on, scientists have recognized that not everybody fits into the clear-cut categories of "straight" and "gay." Some people are attracted to both sexes; some to neither; some feel that traditional gender roles don't really fit them. As such, trying to identify a single cause of sexual identity, genetic or environmental, is not going to be successful. With increasing recognition that people do not fall into binary categories, we can see the limitations of studies that

Dr. Roach

have attempted to answer your question. Nonetheless, the data is useful to look at.

Studies have shown that in identical twins, if one twin is gay, then 30 percent to 66 percent of the identical twins also will be gay. As this is much higher than the overall rate in the population, this suggests some, but not absolute, genetic influence.

However, an adopted sibling of a gay person is also more likely to be gay (11 percent in one study), suggesting that the familial environment also plays a significant

role. My opinion is that there are both genetic and environmental predisposing factors that help determine sexual orientation.

As for the case you are describing, there are many things to consider. Some people who are attracted to the same gender can be so afraid of, or put off by, the social stigma against same-sex couples that they marry and have children with a person of the opposite sex despite being primarily or uniquely attracted to those of the same gender. Some people have found that they may be attracted to a person of either gender; their choice of life partner depends more on the partner's personality and their unique situation than on his or her biological sex. Sexual identity is not a choice. We cannot choose to whom we will be attracted.

Human beings are wonderfully complex, and I hope you look at the twins in your family not merely with acceptance for who they have chosen to spend their life with, but with appreciation for the diversity that can enrich our lives.

DEAR DR. ROACH: Why does drinking one small glass of wine make me spacey and sleepy now that I'm over 55? What physical change has occurred in my body, and should I be concerned about that as regards other functional changes that might not be as obvious? — C.C.

ANSWER: Your ability to metabolize alcohol generally decreases as you get older. This means the same amount of alcohol will have a greater effect, assuming you are the same size you used to be. The liver is also responsible for getting rid of medications and their metabolic byproducts, so sometimes doses of medicines need to be adjusted for people as they get older. This effect becomes more prominent in a person's 70s and 80s. A wise person will adjust their dose of alcohol accordingly.

It is possible, but unlikely, that there has been a change in your liver not due to age, so mentioning it to your doctor will allow him or her to consider whether any testing may be necessary.

7 LITTLE WORDS

Find the 7 words to match the 7 clues. The numbers in parentheses represent the number of letters in each solution. Each letter combination can be used only once, but all letter combinations will be necessary to complete the puzzle.

Dad with baby daughter is questioned by security

DEAR ABBY: I am a working stay-at-home mom with a successful career. I am also the primary breadwinner. My husband doesn't work so he can take care of our baby girl full time.

To give me quiet time, my husband often takes her to the mall or someplace fun so I can concentrate. A problem has arisen, though. Since he's alone with our daughter, he's run into problems with security guards who think he's kidnapping her or doing something suspicious. We're not sure what to do about this.

I obviously don't want there to be problems for him, especially since I am not physically able to drive and come to meet him if there's a misunderstanding. Can you tell me the most reliable way to prove that he's our daughter's father and holds no nefarious intent? — Concerned Wife And Mama

DEAR CONCERNED W&M: While this scenario seems incredible to me, if he isn't already doing so, your husband should start carrying family pictures of the two of you and your daughter when he takes her out. That way, if there is any question that

Dear Abby

your husband is her father, it can be quickly resolved.

DEAR ABBY: I'm a 23-year-old senior in college. I came out as gay at 21, but still haven't found a boyfriend. I had a crush on one guy and thought he liked me back, but a few weeks ago he told me he has a boyfriend. I was heartbroken.

People have always told me it's great to be single, but the truth is I'm just not happy. I'm lonely and I want a boyfriend. I'm having no luck, and I don't know what to do. Help, please. — So Ready In Texas

DEAR SO READY: Look around and scope out what opportunities there are for an LGBTQ person in your college town. Get out and be sociable. Join an activity group if you have the time. If nothing suits you, go online and research dating sites and apps.

Take heed of road speed

Dear Readers: SPEEDING is a big factor in automobile accidents. According to the National Highway Traffic Safety Administration (www.nhtsa.gov), excessive speed was a factor in 1 out of 4 fatal accidents in 2017. The problem? Speeding reduces reaction time, making a collision more likely.

Wet or icy roads, glancing at a cellphone, not wearing a seat belt and alcohol and/or drug use also contribute to dangerous driving.

Driving within speed limits is safer — a good habit to practice. — Heloise

P.S. The posted speed limit is for ideal road conditions.

Hints from Heloise

Bad weather? Slow down more, and drive in the right-hand lane of the highway.

Dear Heloise: After brushing and flossing, a solution of salt and water can be as effective as alcohol-based mouthwashes. It's almost free, and not harmful for the environment. — Sam S., via email

HOROSCOPE

ARIES (March 21-April 19). In the morning, you'll have the courage to blast past what held you back yesterday. Do it like the ram that is the symbol for your sign. Put your head down and run.

TAURUS (April 20-May 20). This is not about talent. Rather, it's a matter of gaining skills. The universe seems to be pushing you toward the skill you need most. Hone in on this; it's worth your focused time.

GEMINI (May 21-June 21). There's a juicy challenge coming your way, like an assignment you've been waiting for or one you've feared but are completely ready for. The endeavor will grow you in the perfect direction.

CANCER (June 22-July 22). Family will support you, though you may have to be explicit in your directions about how best to do this, otherwise, you get what you get. It may be obvious to you but other people just won't see it unless you lead them there.

LEO (July 23-Aug. 22). You know where you're going, and that gives you a distinct advantage. The confidence and natural-

ness that goes along with this knowledge is something people sense and yield to.

VIRGO (Aug. 23-Sept. 22). One way you show your love is to kid around a bit, bring a little levity to the picture and relate to people in a way that lets them know they are on the inside, close enough to you that the relationship can bear a little good-natured ribbing.

LIBRA (Sept. 23-Oct. 23). It's easy enough now, but this is only the beginning. At some point, you'll need to apply the sort of gritty stamina and white-knuckled form of courage that the Finnish call "sisu." Don't worry; it will be there when you need it.

SCORPIO (Oct. 24-Nov. 21). Go ahead and air your feelings, but do it the way you'd air a slightly shaken bottle of club soda, half a cap twist at a time. Otherwise, an unpleasant surprise will be had by all.

SAGITTARIUS (Nov. 22-Dec. 21). You wisely realize that standing on the precipice of something dangerously grand doesn't make you the master of all that's below. Do not let your position mesmerize you from your firm footing.

CAPRICORN (Dec. 22-Jan. 19). You'd gladly let go of what was holding you

back, if only you knew what it was. Don't ask your friends. Their answers come with baggage. An admired mentor has your answer.

AQUARIUS (Jan. 20-Feb. 18). Even when you're mad at someone, you find it much easier to be nice, which usually leads to eventually forgetting all about why you're mad at someone. However, some slights are better to remember, just to avoid a repeat.

PISCES (Feb. 19-March 20). Is fickleness a mood, or is it a sign that it's time for you to move on? Both. The mood is inspired by a sneaking suspicion that you've opened all the doors that can be opened in this endeavor and new challenges await elsewhere.

TODAY'S BIRTHDAY (Feb. 26). This solar return sees you ambitious, powerful and ready to take on the world. What's even better is that you're thoughtful about your challenges and choose to step back to understand them better. You'll gain comprehensive knowledge, formulate a vision, bring together a team and be truly unstoppable. Aries and Gemini adore you. Your lucky numbers are: 6, 20, 4, 44 and 19.

GOOD DECISION?

North-South vulnerable, North deals

NORTH		EAST	
♠ 7 4 3	♥ A 5 3	♠ A J 10 9 8 5 2	♥ Q 7 6
♦ K Q 7 6	♣ K J 10	♦ 10	♣ 8 7
WEST		SOUTH	
♠ K	♥ 10 9	♠ Q 6	♥ K J 8 4 2
♦ A J 8 4 3 2	♣ 9 6 5 2	♦ 9 5	♣ A Q 4 3

The bidding:
NORTH 1♦
EAST 3♠
SOUTH Dbl*
WEST Pass
 *Negative

Opening lead: Ace of ♦

Today's deal is from a match between world-class experts representing England and Poland. What would you have bid as North over partner's negative double? There is no comfortable bid, so an expert will choose the bid that is least uncomfortable.

My grandmother, sitting West, would have defeated four hearts by

leading the king of spades — her singleton in partner's suit. She would surely have shifted to the ace of diamonds and led another diamond, giving her partner a ruff and an entry to cash the ace of spades. But these were world-class experts, remember. West led the ace of diamonds and continued with the eight of diamonds as a suit-preference signal for spades. East was no guppy, reading the situation perfectly. East ruffed the diamond and under-led his ace of spades to West's king. West, on lead with the king of spades, could no longer defeat the contract. This would have been a great defense had West started with a doubleton king of spades and only five diamonds, but it wasn't the right defense here.

What happened at the other table? North decided to pass his partner's negative double and the defense prevailed by one trick. This was a good decision, in theory, as four hearts can be beaten, but it didn't work out that way. North had bragging rights in the postmortem, but his team lost a game swing despite his "good" decision.

■ **MLB: Tampa Bay Rays**

TAMPA BAY TIMES

Rays outfielder Austin Meadows is all grins in the dugout during Monday's game against the Marlins in Port Charlotte.

Meadows can hit, but improving defense key to meeting five-tool tag

Team hopes allowing the 23-year-old to establish himself defensively in rightfield will pay dividends

By **EDUARDO ENCINA**
TAMPA BAY TIMES

PORT CHARLOTTE — The stage is set this spring for Austin Meadows to graduate from heralded prospect to full-time big-leaguer.

The path for Meadows, the 23-year-old former first-rounder acquired from the Pirates as part of the Chris Archer trade at last year's trade deadline, to make the Rays' opening day roster has been cleared. He even received a late-season callup to help acclimate him to his new surroundings.

And while you don't have to watch Meadows too closely to see why he's been so highly regarded, it's clear he can hit, he has rare speed and the ability to play all over the outfield.

"That kid is unbelievable," said Rays right-hander Tyler Glasnow, who came over from Pittsburgh with Meadows. "I know he's going to contribute a lot to this team this year and I'm just pulling for him."

The left-handed hitting Meadows holds the inside track to play rightfield on most days, with free-agent signing Avisail Garcia also seeing time there against left-handed pitching.

"It's a good feeling to have walking into the clubhouse and knowing you are going to have the opportunity to be an everyday player for a big-league ball club," Meadows said.

Meadows appears to have shaken a history of hamstring and oblique injuries that have slowed his progress. His 128 games played last season — including 59 at the major-league level between Tampa Bay and Pittsburgh — marked his most in a season since 2015.

He is also no stranger to spring competition. This is his fourth year seeing Grapefruit League at-bats, and he has been a spring training wonder at the plate. He's already off to a hot start

■ **NHL: Tampa Bay Lightning**

Lightning remain quiet at trade deadline

By **DIANA NEARHOS**
TAMPA BAY TIMES

The 3 p.m. trade deadline came and went without any noise from the Lightning.

Trades have a way of coming out of the woodwork late as details are approved and announced, but that doesn't appear to be the case for Tampa Bay.

General manager Julien BriseBois will speak at 5:30 p.m., before the Lightning's 7:30 p.m. puck

drop against the Kings.

"I'm sure whatever happens, it will be a good thing for us," coach Jon Cooper said before the deadline, "and that could be nothing."

Steven Stamkos expressed faith in the Lightning's management to do what was best for the team. He said everyone would like to add a piece, but that this team had been assembled over the past few years to be what it is now.

TAMPA BAY TIMES PHOTO

The Lightning team that has skated to the league's best record appears to be staying in tact with no word of a trade. Team GM Julien BriseBois will meet with the media at 5:30 p.m.

■ **MLB: Tampa Bay Rays**

Brandon Lowe impresses, Poche makes adjustments in Rays loss

By **JACOB HOAG**
SPORTS WRITER

The comfort level is rising with Rays infielder Brandon Lowe, but there is still a few intricacies of playing first base that he needs to get down.

Though Tampa Bay lost 5-1 to the Miami Marlins on Monday, Lowe played seven innings, impressing both at the plate and in the field.

"I feel good out there," Lowe said. "Hopefully I get put in as many different situations as possible just to get them under my belt and get some experience of what I'm supposed to do. It's coming along pretty well."

Lowe played second base and outfield last year, but has been working his way around the infield to become more versatile.

Though it's a different position on the field, it carries the same general concept, "make the play and don't drop the ball," Lowe said.

Some plays were good, fielding a few pop flies out in foul territory and a couple of hard ground balls. Some were not, like a missed connection between himself and shortstop Daniel Robertson, which allowed Miami's Austin Dean to score from the third.

"I have to sprint over to first base and turn around in time to get the fast guys that make the plays close," said Lowe, who also went 2 for 4 at the plate. "That was my first experience with that. That made me realize how far away I really am in that shift."

Lowe said he's been working on positioning and footwork around the base. He enjoys as many reps as he can steal and Rays manager Kevin Cash agrees.

"He looked good, another good day," Cash said. "Not reading into too much, but day by day he's getting more and more comfortable. Today it worked out that we could get him another inning. We'd like him to get

SUN PHOTO TOM O'NEILL

as many reps as possible over there."

The Marlins plated five runs in the win, but none came off starter Colin Poche, who got an early try at the "opener" spot.

Poche pitched a 1-2-3 inning and said he took a couple notes from Friday's appearance and tweaked them coming into Monday.

"Last time I was missing a lot of fastballs and missing them to my glove side," Poche said. "The result of that is not getting that drive line straight to home plate. Just a big focus on getting the ball to the other side of the plate. I worked on that in

■ **NASCAR**

New NASCAR rules package gets early passing grade

By **JENNA FRYER**

AP AUTO RACING WRITER

HAMPTON, Ga. — The verdict is still out on NASCAR's new competition package following its innocuous debut at Atlanta Motor Speedway.

The race was not the best in NASCAR history, nor was it unwatchable.

It was, if nothing else, better than last year's race at Atlanta and that is a win for NASCAR right now. Series officials finally conceded last season that the on-track product was failing to attract new fans and needed an overhaul.

The result was a package that reduced horsepower and increased downforce, efforts to bring the cars closer together and present more passing opportunities. What that actually meant on the track was a mystery before Sunday's race at Atlanta, won by Brad Keselowski following his brief bout with a stomach virus.

The trouble with the debut is that Atlanta is unlike any other intermediate track in NASCAR and the asphalt on the 1.54-mile quad-oval is the oldest in the series. The track is rough and

bumpy, passing is always difficult and the racing is not likely to be replicated again this season.

So Atlanta was really just a sneak peek of what NASCAR hopes will dramatically improve over its upcoming three-week West Coast swing.

"I'd have to say a solid B. No one gets an A on their first exam, I don't think," winning team owner Roger Penske said.

From his vantage point high above the track on the spotter stand, Penske said, he twice watched Joey Logano pick his way

■ NHL: Trades

West goes wild at NHL trade deadline; Columbus keeps adding

The NHL's Western Conference teams go wild in making series of moves at trade deadline, while the Columbus Blue Jackets kept adding to keep pace in the East

By JOHN WAWROW
 AP HOCKEY WRITER

The West just got wilder and the Columbus Blue Jackets are going all in on their late-season NHL playoff push.

The Blue Jackets followed up last week's addition of Ottawa forwards Matt Duchene and Ryan Dzingel by acquiring New York Rangers defenseman Adam McQuaid and New Jersey goalie Keith Kinkaid as Monday's NHL trade deadline arrived — moves overshadowed by a series of trades made by some of the top contenders in the Western Conference.

A year after reaching the Stanley Cup Final, the Vegas Golden Knights not only acquired Ottawa forward Mark Stone but also reached an agreement to sign the pending unrestricted free agent to a contract extension.

The Central Division-leading Winnipeg Jets completed six trades, most notably acquiring center Kevin Hayes by sending forward Brendan Lemieux and a first-round pick to the retooling Rangers. Hayes has topped 40 points in four of his five NHL seasons, and is initially projected to take over the second-line center spot alongside Patrik Laine.

"It's obviously tough to leave New York, but I'm excited to join the Jets," Hayes said. "I mean, everybody knows how good they are and the

type of players they have on their team."

And the Nashville Predators, one point behind Winnipeg, refused to stand by and watch. Nashville acquired forward Mikael Granlund in a trade that sent Kevin Fiala to Minnesota, and then added power forward Wayne Simmonds in a deal with Philadelphia. "It's really competitive," San Jose Sharks general manager Doug Wilson said, assessing the transformed landscape. "You look at the top of the food chain in the West, each team added some players. It will be a challenge going forward."

Wilson improved his lineup a day earlier by acquiring Gustav Nyquist in a deal with Detroit. And then there were the blockbuster moves he made last summer by acquiring Ottawa defenseman Erik Karlsson and re-signing forward Evander Kane.

The Colorado Avalanche, who began the day ninth in the West and a point out of contention, attempted to fortify their playoff chances by acquiring forward Derick Brassard from Florida. Brassard is a 12-year-veteran who is switching teams for the second time in three weeks after being dealt to Florida by Pittsburgh.

Aside from Columbus, the most notable move in the East involved the Boston Bruins. They acquired forward Marcus

Johansson from the New Jersey Devils.

Blue Jackets GM Jarmo Kekalainen was initially considered a seller leading up to the deadline. He instead continued a buying spree by shoring up Columbus' blue line and goaltending depth.

"I think Jarmo — and that's what I love about him — I think he's got some jam. He wants to win," coach John Tortorella said. "He's letting the team know, and the team has heard it loud and clear, that he's worked hard to upgrade our roster."

Just as notable, the Blue Jackets didn't trade forward Artemi Panarin and goalie Sergei Bobrovsky, two players eligible to become unrestricted free agents this summer.

The additions come at a time the Blue Jackets have won seven of 10 and jumped into third place of the Metropolitan Division standings, a point ahead of Pittsburgh, which is currently ninth and out of the playoff picture.

Washington Capitals GM Brian MacLellan was intrigued by how Kekalainen approached the deadline.

"He got put in a difficult situation with two of his real high-end players that weren't willing to commit to re-sign," MacLellan said. "I think you've got to give him credit for going all in on it and seeing what happens."

The defending Stanley Cup champion Capitals

AP PHOTO

Philadelphia Flyers right wing Wayne Simmonds (17) moves the puck ahead of Nashville Predators left wing Kevin Fiala (22), of Switzerland, during the first period of an NHL hockey game in Nashville, Tenn.

didn't make any moves Monday, after upgrading their roster last week by acquiring forward Carl Hagelin from Los Angeles and defenseman Nick Jensen from Detroit.

The Penguins made two moves in shoring up an injury-depleted defense. They acquired Chris Wideman in a trade with Florida, and Erik Gudbranson in a deal that sent Tanner Pearson to Vancouver.

The league-leading Tampa Bay Lightning were among the teams standing pat. Others included the Metropolitan Division-leading New York Islanders and the Carolina Hurricanes, who are attempting to snap a nine-year playoff drought — the NHL's longest active streak. Carolina currently holds the conference's second and final wild-card berth.

The rebuilding Senators added to their haul of prospects and draft picks by acquiring defenseman Erik Brannstrom, center Oscar Lindberg and a 2020 second-round selection in trading Stone to Vegas.

The 19-year-old Brannstrom was the key to the deal. He was selected with the 15th pick in the 2017 draft and currently has seven goals and 21 assists as a rookie with the AHL Chicago Wolves.

"Erik Brannstrom is the top defense prospect in the game; simply a dynamic talent who will be a major component of our future," Senators GM Pierre Dorion said. "He was undoubtedly the best prospect available at the trade deadline and in addition to his talent, he is a natural born leader."

Maple Leafs' 4-goal 2nd period sinks Sabres 5-3

TORONTO (AP) — John Tavares, Auston Matthews and Frederik Gauthier scored three quick goals in the second period and the Toronto Maple Leafs held

off the Buffalo Sabres for a 5-3 win on Monday night.

Tyler Ennis had the eventual winner in Toronto's four-goal second period and Kasperii Kapanen added some insurance with a short-handed goal in the third period.

Matthews is the first player in Maple Leafs history to score 30-plus goals in the first three seasons of his NHL career.

Frederik Andersen made 31 saves for his 100th win for Toronto.

Jack Eichel scored twice for Buffalo, while Sam Reinhart added a goal as the Sabres' playoff hopes took another hit.

Carter Hutton started in net for Buffalo, stopping 9 of 12 shots in 25:52 of work. Linus Ullmark replaced Hutton in net, turning aside 19 of 21 shots.

Maple Leafs general manager Kyle Dubas was fairly quiet on the NHL's trade deadline, only sending Par Lindholm to the Winnipeg Jets for Nic Petan in a swap of forwards. Toronto's big move came on Jan. 29 when the Leafs acquired veteran defenseman Jake Muzzin in a trade with the Los Angeles Kings.

Buffalo also swung a deal with Winnipeg on Monday, sending defenseman Nathan Beaulieu to the Jets for a sixth-round pick in the 2019 draft.

The Sabres had acquired veteran defenseman Brandon Montour from the Anaheim Ducks on Sunday for defenseman Brendan Guhle and a first-round selection in this summer's draft. Montour had not joined the team in time for Monday's game in Toronto.

Eichel buried a wrist shot from the slot past Andersen with 53 seconds left in the first period for his 20th goal of the season. The goal came just 7 seconds into a penalty for too many men on the ice that Tavares served for the Leafs.

The Maple Leafs were lucky to escape the first period down just 1-0. Buffalo outshot the hosts 16-6 as Toronto's defense looked disorganized and sluggish for most of the period.

That changed in the second period when Toronto reeled off three quick goals in just over two minutes.

Tavares redirected a slap shot from Muzzin past Hutton to tie the game 1-1 at the 3:48 mark of the period, 9 seconds after a Sabres' penalty expired.

Matthews then gave Toronto its first lead of the game while the announcer was still giving details on Tavares's goal. Matthews' shot from behind the net had rebounded off Hutton and deflected off the skates of a Sabres defenseman right back to the Maple Leafs forward. He made no mistake, swatting it into the net for a 2-1 lead.

Gauthier piled on just 28 seconds later, taking a pass from Jake Gardiner and, with his back to the net, slipping a backhand past Hutton. That ended the Sabres' goalie's night, with Ullmark coming on in relief.

It was Gardiner's 200th assist.

Ennis made it 4-1 a little over seven minutes later when Gauthier threaded a pass between two Buffalo defensemen, giving Ennis a breakthrough from the blue line. He made the most of the opportunity, putting

the puck over Ullmark's shoulder.

The Sabres answered with 2:35 left in the second when Reinhart completed a tic-tac-toe passing play while Buffalo held the man advantage.

Eichel scored 9 seconds into the third period, cutting Toronto's lead to 4-3.

Andersen kept the Leafs in the game during a late power play, sliding across his crease to stop Rasmus Dahlin's attempt at a tap-in and then smothering the rebound with his glove.

Kapanen got a breakaway for his 19th goal of the season and some insurance for Toronto with 2:18 left in the game.

Devils 2, Canadiens 1

NEWARK, N.J. (AP) — Nathan Bastian scored his first NHL goal, Kurtis Gabriel got his second and the last-place New Jersey Devils continued to be a thorn in Montreal's playoff hopes, beating the Canadiens 2-1 on Monday night.

Recently acquired defenseman Connor Carrick set up both goals and Cory Schneider made 34 saves as the Devils swept their three-game season series with the Canadiens.

Montreal had a lot more at stake. It came into the night with a one-point lead over Carolina and Pittsburgh for the top wild card in the Eastern Conference. The Hurricanes and Penguins now each have a game in hand.

Not only did the Devils win, they did it with a lineup that included seven players who spent the

majority of the season with New Jersey's AHL affiliate in Binghamton. They also did it with forwards Miles Wood and John Quenneville missing most of the final two periods after being hurt. Earlier in the day, the Devils traded goaltender Keith Kinkaid to Columbus and forward Marcus Johansson to Boston.

Paul Byron scored a short-handed goal for Montreal, and Carey Price made 20 saves.

Trailing 2-0 and with the Devils on a power play, the Canadiens got back into the game on a great individual effort by Byron, who recently returned to the lineup after missing six games with an arm injury.

Byron picked up a loose puck near his own blue line, outskated defenseman Damon Severson into the Devils zone and beat Schneider with a shot to the top corner at 6:30 of the third period.

Montreal threatened in the final 13 minutes but Schneider made excellent saves on Max Domi and Brendan Gallagher on a power play in the last 10 minutes. Schneider's best save might have been a stop on a short-handed breakaway by Artturi Lehkonen in the first period.

Bastian, recalled from the minors Sunday, tipped Carrick's shot under Price's pads at 12:35 of the first period. He made his NHL debut on Jan. 19 and this was his second game.

Gabriel, who scored his first NHL goal against Ottawa last week, got his second with a backhand off a shot from the point by Carrick at 3:06 of the second period.

BOYS BASEBALL: Tarpons 5, Pirates 0

Machado, Tarpons take care of Pirates 5-0

By JOHN VITTAS
SUN CORRESPONDENT

PUNTA GORDA – Kyle Machado and Charlotte lived up to the hype on opening night, using a dominant pitching performance and one fateful inning to take care of Port Charlotte 5-0.

Machado did the heavy lifting in the Tarpons' (1-0) four-hit shutout, fanning eight batters over six innings while only allowing three hits.

"I was just trying to come out and experiment with all my pitches and see what would work for me the best this season," Machado said. "I was trying to work on my mechanics more than overpower. Their lineup is pretty solid and our defense did excellent tonight."

Machado delivered strikes on 75% of his pitches (77 pitches, 58 strikes) without walking a

single batter. With a fastball that reaches the upper 80s, he used his long stride to shorten the distance to the plate while mixing in a curveball, change-up and cutter.

"He's pretty consistent," Charlotte head coach Lavell Cudjo said. "He works fast and he keeps your defense moving and into the game. He's locating real well and the velocity is where we want it to be."

Other than leaving six men on base, Cudjo was pleased with his team's defense and how his ace performed against a local rival.

"It's always good to win this game," he said. "The kids came out and competed. Kyle pitched well. We got work to do, but for the most part it was clean baseball."

Both the Tarpons and Pirates (0-1) boast deep and experienced rosters this season

and are expected to be much improved from 2018. With four Division I commits in the lineup and a true ace in Machado, there's no doubt Charlotte can compete for a state championship after falling in the regional semifinals last year.

"We're going to have to hit," said Cudjo. "The competition is going to get greater. Everybody is going to throw their best at us because of the D-I commits we have. We have arms, but we're going to have to hit and do a better job in situational hitting."

After both starters cruised through the first 2.5 innings Monday, Charlotte rallied for five runs in the bottom of the third to decide it.

After Jonah Bourque led off the inning with a walk, Michael Thomas and Cade Reich both reached on bunt singles in which Port Charlotte

starting pitcher Ryan Lomski was unable to get the ball to first base in time. With the bases loaded and nobody out, Kevin Conway singled to right to score Bourque and make it 1-0. Bryce Hayse then drew a walk to extend the lead to 2-0 before Aaron Martins singled to right to bring the count to 3-0. With two outs and runners at second and third, John Dominguez delivered a line drive single to center to cap the rally at 5-0.

"It startled Ryan (Lomski) a little bit and he got out of his groove," Port Charlotte head coach Rodney Taylor said about the bunts. "Then it got back to the top of their order and they got a couple timely hits."

Lomski did not allow a hit in his other three innings of work, striking out two over four innings. Right-hander Will

Hepner turned in two scoreless frames in relief, fanning two and walking two.

"He came in and did the job we asked him to do," Taylor said of Hepner. "We can take a lot out of this game tonight. They could have folded, but we held them the rest of the night. We hit the ball hard here and there, just right at them."

Port Charlotte will host Booker on Tuesday before taking on North Port on Thursday. The Tarpons return to action at 7 p.m. on Wednesday at Lemon Bay.

the bullpen and then took it out on the mound and felt pretty comfortable with it." The Rays' lone score came on an RBI-single from Jake Smolinski to left field to score Thomas Milone in the bottom of the ninth. Tampa Bay (0-4) travels to Sarasota for its first road game of the spring. They take on the Baltimore Orioles at 1:05 p.m. at Ed Smith Stadium. *Email Jacob Hoag at jacob.hoag@yoursun.com and follow him on Twitter @ByJacobHoag.*

Robert Kraft was at spa hours before AFC title game

By PETE GRATHOFF and BROOKE PRYOR
THE KANSAS CITY STAR

When the news came Friday that New England Patriots owner Robert Kraft had been charged with soliciting sex at a spa in Jupiter, Fla., police said he made two visits to the Orchids of Asia Day Spa.

On Monday, court documents say Kraft was at the spa fewer than eight hours before the AFC Championship Game between the Patriots and Chiefs on Jan. 20 at Arrowhead Stadium.

New England won 37-31 in overtime and advanced to Super Bowl LIII, which it also won.

A Palm Beach State Attorney's office probable cause affidavit ends with this sentence: "Based on the aforementioned investigation, I have probable cause to believe Robert K. Kraft did solicit, induce, entice, or procure another to commit prostitution, lewdness, or assignation, contrary to Florida Statute 796.07(5) (a)1."

Palm Beach County state attorney Dave

AP FILE PHOTO

In this Jan. 20, file photo, New England Patriots owner Robert Kraft, right, arrives on the field before the AFC Championship NFL football game. Patriots owner Robert Kraft visited a Florida massage parlor for sex acts on the morning of the AFC Championship Game.

Aronberg has charged Kraft and the 24 other men in the case with a first-degree misdemeanor or for soliciting prostitution, which is punishable up to a year in jail. Ben Volin of the Boston Globe reported that it was believed that the men would be charged with second-degree

misdemeanors.

The NFL released this statement on Monday about Kraft: "Our Personal Conduct Policy applies equally to everyone in the NFL. We will handle this allegation in the same way we would handle any issue under the Policy. We are seeking a full understanding of

the facts, while ensuring that we do not interfere with an ongoing law enforcement investigation. We will take appropriate action as warranted based on the facts."

After his alleged visit to the spa, Kraft was at Arrowhead at least an hour before kickoff, walking down the sidelines.

■ MLB: New York Yankees

Aaron Hicks, Yankees agree to \$70M, 7-year deal

By MARK DIDLTER
AP SPORTS WRITER

NEW YORK — Making another move to keep their core of players together, the New York Yankees agreed to a \$70 million, seven-year contract with outfielder Aaron Hicks.

Hicks' agreement adds \$64 million in guaranteed money over six seasons and club option for 2026 that could make it worth \$81.5 million over eight seasons.

"This is the organization I want to stay with," Hicks said during a news conference Monday. "The team here is a team that I want to be with. I think it has a bright future."

A 29-year-old switch-hitter, Hicks took over as the Yankees primary center fielder last year and set career highs with 137 games, 27 homers and 79 RBIs. He agreed on Jan. 11 to a \$6 million, one-year contract and would have been eligible for free agency after this season.

"I'm thrilled," Yankees manager Aaron Boone said. "He's just really an elite level player."

His new, superseding deal calls for a \$2 million signing bonus and keeps the \$6 million salary this year. He gets \$10.5 million annually from 2020-23 and \$9.5 million in each of the following two seasons. The Yankees have a \$12.5 million option for 2026 with a \$1 million buyout.

Hicks would get a \$1 million assignment bonus the first time he is traded. He receives a hotel suite on road trips.

"There was a lot of people questioning if he'd ever cross into being the player that his draft card said he was capable of being," Yankees general manager Brian Cashman said. "He was hungry to prove otherwise and we were hungry to work with him on it."

Acquired from Minnesota in November 2015, Hicks has been on the disabled list in all six of his big league seasons, nine trips in all for hamstring strains (three times), oblique strains (twice), shoulder, forearm and intercostal strains, and a concussion.

With a \$4 million increase in Hicks' average annual value this year, New York's raised its projected luxury tax payroll to about \$229 million, well above the \$206 million threshold and past the first surtax level. The Yankees would pay a 20 percent tax on the first \$20 million above the threshold and at a 32 percent rate on the next \$20 million.

"Those are real dollars that have taxable consequences because we're already in a tax threshold, but it's an example of an owner trying to walk that line of the present and the future," Cashman said. "We're lucky that ownership is directing their blessings on a lot of things."

New York didn't pay luxury tax in 2018, the first time the Yankees were under the threshold since the tax started in 2003. By falling under, the Yankees reset their tax rates, which had been 50 percent on the first \$20 million over and 62 percent on the next \$20 million.

"The last few years because of our efforts to get under the luxury tax and reset that clock prevented us from having any conversions like this with anybody because it was prohibitive," Cashman said. "Since we reset the clock, now we're in a position to be opened minded and try to work through opportunities that may exist."

New York has not given many multiyear contracts to players under its control in recent

AP PHOTO

New York Yankees' Aaron Hicks smiles during a news conference before a spring training baseball game against the Toronto Blue Jays, Monday, Feb. 25, 2019, in Tampa, Fla. The Yankees announced that Hicks signed a seven-year contract Monday.

years, but the Yankees gave right-hander Luis Severino a \$40 million, four-year deal on Feb. 15.

Shortstop Didi Gregorius and reliever Dellin Betances remain eligible for free agency after this season. In addition, right fielder Aaron Judge and catcher Gary Sanchez become eligible for salary arbitration next winter.

Hicks received just the fourth multiyear contract this offseason among more than 175 players eligible for arbitration after Severino, Philadelphia pitcher Aaron Nola (\$45 million for four years) and Minnesota right fielder Max Kepler (\$35 million for five years).

MENTORING

Hicks acknowledged the role his former teammate with the Minnesota Twins, Torii Hunter, played in his career. "One of my mentors for believing in me and getting me started on the right track to becoming a better player," Hicks said. "I owe a lot to him."

STAYING PUT

Former Yankees pitcher Andy Pettitte has been hired as a special adviser to Cashman. Pettitte, 46, said he did talk recently with former teammate and Miami CEO Derek Jeter about a similar role with Marlins. Pettitte was a five-time World Series champion and three-time All-Star with New York. He pitched for the Yankees from 1995-03, spent three years with his home-state Houston Astros, then pitched for the Yankees from 2007-13. Former Yankees' catcher Jorge Posada is at spring training as a special adviser to Jeter.

MORE MOUND

Pettitte watched reliever Adam Ottavino sailed through his second simulated game by getting a strikeout and three grounders. The right-hander has struck out five of eight batters over two sim games. Closer Aroldis Chapman, slowed by knee problems last season, threw 20 pitches during his first batting practice session.

RAYS

FROM PAGE 1

offensively this spring as the Rays experiment with him in the leadoff spot.

But in order to break through in the Rays outfield, you have to be sound defensively, and showing the club he can hold his own in rightfield will determine how ready for a regular role Meadows is.

"We know he can hit," Rays manager Kevin Cash said. "We put a premium on defense and with Austin, it's been made very clear to him that he has all the factors to be a good defensive player. We've got to see him go out there and do it."

Over the past two years, the Rays have had the best defensive outfield in terms of defensive runs saved, according to FanGraphs. Their 105 defensive runs saved over the 2017 and 2018 seasons topped the majors by 21 runs over the No. 2 team.

While the Rays value defensive flexibility, they believe putting Meadows in rightfield and allowing him to exclusively work there will help his defensive acumen. He's played all over the outfield, but most of his time in the minors was in centerfield.

"Maybe it will help Austin a little bit — I think he's played everywhere in the outfield the last couple years — if he's just in rightfield where he can focus on one spot," Cash said.

The Rays had 36 defensive runs saved from the rightfield position last season, and the players who mostly accounted for that are now gone. Mallex Smith (42 starts in right) was traded to the Mariners, and Carlos Gomez (88 starts) is a free agent who remains unsigned.

By comparison, Meadows posted minus-9 defensive runs saved in 39 big-league outfield starts with the Rays and Pirates last season. That included a minus-4 mark in 15 starts in right. That number is mostly attributed to converting batting balls into outs compared to average fielders at those positions.

Meadows clearly has the speed to be a plus outfielder, but needs better jumps to take advantage of his speed, Cash said.

"I think the biggest key for me is (making) those first two or three steps hard, whether it's a ball behind you or a ball that's decently far away," Meadows said. "I think it's a matter of just putting your head down and going to get it and having the confidence that you're going to be able to go get that ball instead of being hesitant and kind of starting off slow and then trying to speed up."

Cash said Meadows playing more next to an elite defender like Kiermaier should help him gain more confidence and anticipation.

"He's a really good runner from home to first," Cash said of Meadows. "I know he's aware of it and he's going to work on it. We're working on his first step breaks, running to the ball, not looking at the ball, basically get a read on it. You look at K.K., K.K. turns and he goes and then he finds the ball again. That's just different comfort for different outfielders."

Have a sports event planned? Send us the info at sports@sun-herald.com and we'll list it in our community calendar.

NASCAR

FROM PAGE 1

through traffic to the front of the pack. He saw drivers using the preferred top lane slip to the bottom going into Turn 2 and stay there down the straightaway, and the cars generally just seemed under control.

"You didn't see any accidents, which maybe the fans like that, but I thought overall the package showed well," Penske said. "It wasn't a crash-fest, which everybody said it was going to be potentially. It looks like there's a lot of equal cars running out there. It's going to come up to the drivers and the strategy, which is what we want."

The Atlanta race was better than it had been the last several years because the leader did not pull out to an enormous and uncatchable gap.

The 25 lead changes were more than the last three Atlanta races and Martin Truex Jr. was in a legitimate chase for the lead in the closing laps. Truex lost to Keselowski by 0.21 of a second, but even Keselowski admitted he wouldn't have been able to hold off Truex if the race had been any longer.

Restarts bunched the field and led to drivers fanning out three- and four-wide as they jockeyed for position. Eventually they ended up in a single-file line, as is the norm at Atlanta and many other intermediate tracks, but Kyle Larson and Kevin Harvick managed to trade the lead several times in a spirited battle at the midway point of the race.

NASCAR was pleased with Sunday's show. Chief racing development offer Steve O'Donnell declared it a "fairly entertaining race."

But everyone understood that this weekend's race at Las Vegas will be a closer indicator of how the racing will be this year.

"When you looked at this race going in, I think for us, this was the biggest question mark as to how it would play out," O'Donnell said. "Ultimately, we wanted cars to run closer together, we wanted a battle to play out for the lead at times, which we saw during the race. Some things certainly to work on, but ultimately I think it was the direction where we wanted to go."

NASCAR will use a complete version of the rules package in Las Vegas, where featured aero ducts will likely encourage drafting. It could make Las Vegas look a bit like the crash-filled Daytona 500, where pack racing leads to spectacular multi-car accidents that always change the dynamic of a race.

Teams won't have a clear idea for weeks on how to attack this rules package because the next three races are at wildly different venues that present their own challenges. Drivers are adapting to different handling and lower horsepower while crew chiefs are tinkering with setups.

NASCAR remains optimistic the fans will be the ultimate winners.

■ **NBA: Roundup**

Nets shut down struggling Spurs in 101-85 victory

Brooklyn Nets forced the San Antonio Spurs into perhaps their worst offensive performance of the season

NEW YORK — D'Angelo Russell had 23 points, eight assists and seven rebounds, and the Brooklyn Nets forced the San Antonio Spurs into perhaps their worst offensive performance of the season in a 101-85 victory Monday night.

A night after their defense was absent in a loss to the Knicks, the Spurs went across town and couldn't get their offense going. San Antonio was held to its lowest point total of the season, and the NBA's leading 3-point shooting team was a season-worst 16.7 percent behind the arc.

San Antonio came in shooting a little better than 40 percent behind the arc.

That sent the Spurs to a third straight loss and a 1-7 finish on their annual road trip when the San Antonio Stock Show and Rodeo takes over their arena.

Joe Harris and Caris LeVert each added 15 points for the Nets, who made 19 3-pointers.

LaMarcus Aldridge had 26 points and 10 rebounds, and DeMar DeRozan added 23 points for the Spurs.

The Spurs have made

21 consecutive playoff appearances, tied for the second-longest streak in NBA history. But they entered tied with the Clippers for the final two playoff spots in the Western Conference, just ahead of ninth-place Sacramento, heading into their final 20 games.

The Spurs had turned to a zone in the second half against the Knicks, and coach Gregg Popovich said it was an effective defense because teams often stopped moving when faced with one. San Antonio went to it in the first quarter Monday, but the Nets move the ball well, with nine assists on their 11 baskets in the period.

San Antonio gave up at least 30 in every quarter Sunday in its 130-118 loss as New York snapped its franchise-worst home losing streak at 18 games. San Antonio then surrendered 28 in the first quarter in Brooklyn, falling behind by eight.

The Spurs tightened up in the second but this time couldn't get their own offense going, missing all six 3-point attempts in the period and getting outscored 15-4 to end the half as Brooklyn opened a 52-38 advantage.

It grew to 72-51 when Russell hit a deep 3-point-er from just in front of the Spurs bench and the Spurs couldn't mount a serious comeback and finished the night at 36.5 percent shooting.

Trail Blazers 123, Cavaliers 110

CLEVELAND (AP) — CJ McCollum scored 35 points and the Portland Trail Blazers hung on after nearly squandering a 23-point halftime lead to defeat the Cleveland Cavaliers 123-110 on Monday night.

The Blazers needed a 14-0 run late in the fourth quarter to finally put away a game that looked like a rout in the first half.

Cleveland cut the lead to 88-84 going into the fourth and was behind 105-102 with 4:42 left, but Portland's backcourt duo of McCollum and Damian Lillard took over from there.

McCollum scored 11 points in the fourth quarter and finished the night hitting 12 of 18 shots, including 7 of 8 3-pointers. Lillard scored eight of his 21 points in the final period.

Cedi Osman scored

AP PHOTO

Brooklyn Nets guard D'Angelo Russell (1) drives around San Antonio Spurs guard Bryn Forbes (11) during the first half of an NBA basketball game, Monday, in New York.

27 points for the Cavaliers, who were attempting to win three straight for the first time this season. Kevin Love, playing his fifth game since returning from foot surgery, had 18 points and 12 rebounds in 28 minutes.

The Blazers, coming off road wins over playoff contenders Brooklyn and Philadelphia, seemed to be on their way to a

comfortable win against the Cavaliers, who have the league's third-worst record.

Portland scored the game's first 14 points and continued to pour it on in the second quarter, taking a 71-48 lead into halftime.

Cleveland rallied in the third quarter, and Matthew Dellavedova's 3-pointer with a second left cut the lead to 88-84.

Cleveland appeared to tie the game early in the fourth, but Larry Nance Jr.'s 3-pointer was waved off after the Blazers were charged with a common foul on a screen set by Dellavedova.

Seth Curry hit all five 3-point attempts and finished with 15 points for Portland, which is in fourth place in the Western Conference.

Gonzaga reclaims No. 1 in AP Top 25; Wofford debuts at 24th

By **AARON BEARD**

AP BASKETBALL WRITER

RALEIGH, N.C. (AP) — Gonzaga's first stay atop the AP Top 25 this season ended following a pair of losses to highly ranked nonconference opponents. Now back at No. 1, the Zags look like they could stay there through the rest of the season.

Gonzaga moved up a spot Monday to begin a second stint at No. 1, both times replacing Duke at the top.

It spent two weeks at No. 1 after beating the Blue Devils to win the Maui Invitational in November, but Mark Few's team fell out after a December loss to Tennessee. Then came a loss at North Carolina, marking the first time the Bulldogs had lost back-to-back games since February 2014.

But Gonzaga (27-2, 14-0 West Coast Conference) hasn't lost since. And the Zags are a national powerhouse rolling through

a league ranked as the eighth best in the country by KenPom.

The Zags have won 18 straight games with no opponent coming closer than a dozen points, the last game being Saturday's 102-68 victory over BYU. They play their final two regular-season games on the road at Pacific on Thursday and Saint Mary's on Saturday in rematches of games Gonzaga won by a combined 79 points.

For the record, the final AP poll of the season runs March 18, the day after Selection Sunday.

ACC'S TOP TIER

The Atlantic Coast Conference is hoarding spots in the top five.

Virginia (24-2) moved up one slot to No. 2 and had 15 first-place votes, while the Blue Devils (24-3) slid from No. 1 to third. That came after Duke lost at home to rival North Carolina in a game that saw freshman star Zion

Williamson go down with an injury to his right knee in the opening minute — complete with the image of his left foot tearing through his shoe as he fell to the floor.

Duke, which earned a bounceback win at Syracuse without Williamson, still earned three first-place votes.

Virginia and Duke are in a three-way tie atop the ACC with UNC (22-5), which jumped three spots to a season-high fifth behind Kentucky after the victory over Duke followed by a home win against No. 18 Florida State.

The Tar Heels have won 10 of 11, with the loss coming to the Cavaliers — whose only two losses have come to Duke.

THE TOP 10

Michigan State jumped four spots to No. 6 after winning at rival Michigan. Next came Tennessee, which spent four weeks at No. 1, followed by

Houston — which at No. 8 has the program's highest ranking since Hakeem Olajuwon was starring for the Cougars in 1984.

Michigan and Marquette rounded out the top 10.

KANSAS' SLIDE

Kansas started the year at No. 1. Now the Jayhawks have their lowest ranking in more than five years.

Kansas fell to No. 15 for the program's lowest ranking since January 2014. That followed a blowout loss to No. 11 Texas Tech, which was the program's most lopsided loss in any game since November 2014.

The Jayhawks' run of 14 straight years with at least a share of the Big 12 regular-season championship is in serious jeopardy.

RISING

No. 16 Kansas State and No. 17 Maryland had the biggest jumps of the

week, each vaulting seven spots. No. 21 Buffalo joined Michigan State in rising four spots, while UNC, Texas Tech and No. 19 Wisconsin each climbed three.

In all, 12 teams moved up in the new poll.

SLIDING

Nevada (25-2) had the biggest tumble, sliding six spots to No. 12 after losing at San Diego State. Kansas slid three spots, while five other teams fell one or two spots.

PROGRAM DEBUT

Wofford checked in at No. 24 for the first AP poll appearance in program history. The Terriers (24-4) are 16-0 in the Southern Conference and their only losses have come against power-conference teams UNC, Oklahoma, Kansas and Mississippi State.

HELLO AGAIN

While Wofford was a first-timer, the other two

new additions to this week's poll are familiar faces.

Cincinnati returned at No. 23 after spending a week at No. 25 earlier this month. And Washington claimed the final spot at No. 25, the same ranking the Huskies had in the preseason poll before falling out.

Still, that was significantly more change than last week, when no new teams joined the Top 25 for the first time all season.

FALLING OUT

Reigning national champion Villanova (No. 17), Louisville (No. 18) and Iowa State (No. 19) fell out of the poll.

This marks the third time this season the Wildcats have fallen out of the poll. They were No. 9 in the preseason before falling out for a week in November. They returned for three weeks, fell out for four, then returned for a six-week run.

UCLA enters Top 25; Baylor unanimous No. 1

By **DOUG FEINBERG**

AP BASKETBALL WRITER

NEW YORK — A win over the No. 2 team in the country earned UCLA its first ranking of the season.

The Bruins entered The Associated Press women's basketball poll on Monday at No. 25 after rallying from 22 points down to upset Oregon on Friday night. UCLA lost a close contest against Oregon State on Sunday.

The Ducks lost to the rival Beavers on Monday and fell to No. 6 in the poll. Oregon State moved up to ninth.

Baylor garnered all 28 first-place votes to remain No. 1 in the Top 25. The Lady Bears clinched their ninth consecutive Big 12 championship this past

week. They host No. 18 Texas on Monday night.

UConn, Louisville, Notre Dame and Mississippi State round out the first five teams in the AP Top 25. Stanford, Maryland and N.C. State are the other three teams in the first 10.

South Dakota fell out of the rankings after losing to rival Summit League rival South Dakota State over the weekend. The Coyotes spent two weeks in the poll after getting ranked for the first time in school history earlier this month.

UCLA had a nice run in the Top 25 over the past few years reaching as high as fifth last season. The Bruins lost stars Monique Billings and Jordyn Canada to graduation and the WNBA.

Vassell leads No. 18 Florida St.'s late run past Notre Dame

By **BOB FERRANTE**

ASSOCIATED PRESS

TALLAHASSEE, Fla. — Freshman Devin Vassell scored 13 points, sparking Florida State's second-half charge with a dunk and a 3-pointer on consecutive possessions, and the 18th-ranked Seminoles held off Notre Dame 68-61 on Monday night.

Trent Forrest made 4 of 6 six free-throw attempts in the final minute to help the Seminoles (22-6, 10-5 Atlantic Coast Conference) hang on.

D.J. Harvey scored 18 points and Prentiss Hubb had 17 for Notre Dame (13-15, 3-12), which has dropped four straight games.

The Fighting Irish went scoreless for nearly five

minutes late in the game and made just one of their final 10 field-goal attempts.

Vassell shot 5 of 6 from the floor, draining all three 3-point attempts, and had seven rebounds. He scored more points than he had in 14 prior ACC games.

Christ Koumadje added 12 points, the fourth time in the last five games he has scored in double figures.

John Mooney added 14 points and eight rebounds for Notre Dame, which had won three straight in the series — none of which were played in Tallahassee. The Seminoles are 44-3 at home in the last three seasons.

Florida State had the rebounding edge, 40-26.

Tokyo and Japan offer tradition, expectation to Olympic golf

By **STEPHEN WADE**
AP SPORTS WRITER

TOKYO — Golf returned to the Olympics three years ago in Rio de Janeiro after a 112-year absence. But few play golf in Brazil, which kicked up problems from the start when a top-notch course had to be built amid protests from environmentalists and ensuing court cases and charges of corruption.

Unlike Rio, Tokyo and Japan offer golfing tradition. Golf is popular in the country and the Olympic venue northwest of Tokyo — the Kasumigaseki Country Club in Kawagoe City — has been around for 90 years.

Hiromi Kobayashi was the LPGA's rookie of the year in 1990 and she knows Japan faces high expectations.

"As a player I was representing myself," she said Monday, guiding reporters around a few holes with two other senior Japanese players — Tsuneyuki Nakajima and Masahiro Kuramoto. "But this is a different kind of pressure. It's on our shoulders."

Kasumigaseki is one of Japan's most exclusive clubs. Opened in 1929, it was briefly taken over after World War II by American forces. It held the Canada Cup in 1957 with Sam Snead and Jimmy Demaret playing for the United States in an event that became the World Cup a decade later.

The Olympics will be played on the East Course, which has been stretched out to 7,466 yards — including the 640-yard fifth hole. Part of the West Course will be turned into a practice ground for the Olympics.

"I'm frustrated because now that I come to think of it, I wanted to participate in the Olympic Games when I was younger," said Nakajima, who won 48 times on the Japan Tour and had top-10 finishes in all four majors in the 1980s, including third place in 1988 at the PGA Championship.

"Golf returned as an Olympics event, but I personally think that it didn't heat up much in Rio," Nakajima added. "I believe that the true value of golf as an Olympic event will be judged after Tokyo."

The only drawback could be the location, although Japanese Prime Minister Shinzo Abe and U.S. President Donald Trump found their way there to play a round together in 2017.

The course in Kawagoe City is 65 kilometers (40 miles) from Tokyo, almost hidden away in a partly rural area of Saitama prefecture. It's commutable, but travel by train or car will take at least an hour, putting a dent into organizers' wishes that golfers stay in the athletes village in central Tokyo.

There have also been a

But this is a different kind of pressure" for the country and its golfing community.

few hiccups.

Under pressure from the International Olympic Committee, the club has allowed women to upgrade to full membership status. It has also removed some weekend restrictions that did not apply to men.

"I believe there is no problem with this any longer," Kobayashi said. "I'm happy that we will have a chance to promote Japan through hosting Olympics golf and show how great this golf club is to the world."

Journalists walk on the golf course during a media tour of Kasumigaseki Country Club golf course, one the venues of the Tokyo 2020 Olympics, in Kawagoe near Tokyo, Monday.
