DESTROYING THE DEFENCE

Representative Mondell, republican leader in the house, says there will be no action on the army and navy pay bills. Both services have been losing their younger officers at a demoralizing rate for months for the simple reason that the pay is inadequate for decent living under conditions imposed upon army and navy officers and for the added reason that the attitude of congress toward defense offers little encouragement for ambitious young men.

The policy of republican leadership in this matter is as stupid as our past history on defense. During the war republicans were attacking the democrats for not preparing for war and for shortcomings of administration in war. But nothing done by the democrats before or during the war was less desirable than the proposed action on the pay bills. It is not economy. It is waste, criminal waste, and if it is persisted in the men responsible should be pilloried. Chicago Tribune

Mr. Mondell has evidently determined to inaugurate a session of economy. He announced recently that the coming session in congress would keep down appropriations to the lowest limit possible. That is one reason for the opposition of the present congress to a larger standing army and that is the reason for refusing also to increase the pay of the men in the

There are to be no pork barrels and no river or harbor improvements. But it is understood that policy is to hold good only for the year 1929.

The Panama Canal has asked for a very large appropriation for the coming fiscal year. The "cuts" in the appropriations for the present year have forced many of the employees to forgo increases in pay that they are entitled to according to law. But the Canal appropriation is not so large on account of increases in wages as on account of necessary building that was deferred during the war. All building and maintenance work was cut to a minimum during that time and funds were not furnished for the present year.

The Panama Canal is about four years behind on appropriations so the next one asked for is correspondingly large.

PEACE TREATY DOOMED

Big Bill Thompson, mayor of Chicago, who refused to invite "Papa" Hitler to visit this city, because it might offend some of his German-Americans, and proudly announced that he ruled over the fifth German city in the world, is out after the Peace Treaty. There follow excerpts from a letter he has written to all United States Senators.

"In my opinion the covenant of the league of nations, with reservations, is equally as vicious and tyrannical as it is without reservations, without reservations the covenant of the league destroys American sovereignty in the open, with one blow, with reservations, the covenant of the league destroys American sovereignty under cover, by premeditation.

"A vote for the adoption of this cunning contrivance is, I firmly believe a vote to barter away the rights of the American people.

"As an American whose ancestors fought in the revolution for American independence and whose father fought on the side of Admiral Farragut in the civil war to preserve the Union, as mayor of Chicago, a city containing one-fourth of the population of the United States; as a citizen who fervently hopes that this country will be spared from further financial burdens which the speculative interna-

tional bankers are seeking to impose for the purpose of impoverishing the American people and in the name of the mothers of Chicago, who are beseeching me to aid them in securing the return of their sons who are still performing military service in foreign lands, I appeal to you to use your power and influence as a United States senator to have congress declare that we are now at peace, without making it dependent upon the approval of this hellish scheme to deprive us of our freedom and our independence.

"While the senate, under the constitution has a voice and a vote in the ratification of treaties, the right to transfer or surrender the people's sovereignty, in whole or in part, is vested solely in the people.

"I therefore respectfully petition you to give the people the opportunity which so rightfully belongs to them to vote on this an American proposition.

Mayor Thompson also says that the approval of the treaty and League of Nations would be a shameless violation of the wise foreign policy established by President Washington.

Surely there can be no hope now if Mister Thompson and all of his Germans are against it. If it is killed, as it no doubt will be now, a separate peace with Germany should be arranged by Mister Thompson, Victor Berger, and George Sylvester

"DETECKATING AND DETECKATIVES"

There are at present two members of the city detective force who should forsake the gun-shoe and teach "detteckating" by correspondence for when it comes to excellence at bagging criminals they have Philo Gubb backed off the boards.

For quite some months now a powder bandit has been at work in the city. The police say he effects entrance to a residence and renders himself safe from detection by shooting sleeping powder, through the keyholes and lattice-work, that stupefies the inmates while he appropriates their watch, trousers or other articles to which he takes a fancy. This is a deduction that would do Conan Doyle, Sherlock Holmes' father honor even if the police have never been near enough to verify even a part of their deductions.

The work of the detectives who have been assigned to catching the powder bandit is even coarser than that of the bandit and as long as this proportion holds good the sneak-thieves are going to have easy pickings.

The other morning at 2:30 as we were wending our way homeward the two sleuths spotted us and suspected us of being a suspicious character, as many others no doubt have done, because we pass the same spot at precisely the same hour every morning, by itself a suspicious act.

Both of the sleuths were made up a la Philo Gubb. One was swarthy, portly and eagle-eyed, wearing mustaches that would make a movie bad-man turn green with envy. The other was diminutive, chubby and innocuous of face. An ideal pair for a custard pie comedy, they were.

As we say, they spotted us by showing their faces into ours and looking into our eyes as a ravening wolf would gaze upon a plump and unprotected lamb.

We were wearing no collar and hence we were a "loft mug" subject to surveillance and shadowing.

They shadowed us to our door and then, when we entered through the portal instead of going through a window, they left us in disgust and went to the post-office where they arrested a diligent clerk who was working over-time.

In the meantime the sneak-thieves were getting on their good work unobserved and unafraid.

We must congratulate Captain Sols on his wonderful "detteckatives" and suggest to him, that the make-ups that we have seen on his sleuths, stamp them as "challs," as denizens of the most loutest underground term policemen as far as the eye can see.

They could do only one thing to better warn victims of their presence and that would be by wearing a bell.

SANCOCHO

Sam Sandfly's Sore

"Dear S. C., I notice that a pink post which says Wilmer is jealous of me. That means of his own publishing the other day was a libel on the faces of Ancon and an insult to the memory of the immortal Shakespeare. Really I think there ought to be a post-office prohibition against such a thing."

Wilmer's Wilmer, we'll never get on. That thing of his called Sam's Girl was some poem. Just to show you that I can beat him at his own game, try this on your next copy.

THE buyer who considers only initial costs defeats his own purpose to save. It's the long distance performance compared to the first cost that gives a dependable basis of economy.

Most miles per dollar is the reason experienced motorists stick to Firestones exclusively, and Firestone Gray Sidewall Tires are giving new and stronger proof of economy day after day.

The liberal adjustment basis for both Fabric and Cord Tires is a conservative indication of the least that may be expected.

THE BIG GAME TO-MORROW

Hawkins, Klebos, Burgoon and Ridge Ready to Twirl.— Choice Uncertain

Fans looking for odds. Fans looking for inside dope. Fans drinking and fans soliciting votes for Violet Ray

Yes, indeed this is the Pacific side. And just before the battle.

Much jabber. Much walking up and down. Much walking back and forth and scratching of heads. More excitement than when Sen. Baker said we ought to pay rent and have our salaries raised.

Baseball magazines. Baseball players. Baseball writers and newspaper men also are busy with the subject. A curious question mark can be seen on the faces of the spectators. Some of them are looking at the figures of the players. Who's landed themselves in the show. And thinks that his knowledge would fill a big gap.

It's a great life in the bank roll don't you think?

These favors Colon. That gives Anon a chance.

GAME TO-DAY

Balboa Vs Fort Amador

The Balboa and Fort Amador teams will play this afternoon at the Balboa stadium the game starting promptly at 4:15 o'clock.

This is the first Saturday afternoon game scheduled in the Panama Canal League and the officials are anxiously awaiting the outcome to see whether the fans desire the Panama Canal League to stage games on Saturdays afternoon.

There have been many requests from the fans in the past that one present schedule of twenty-one games that are played on Sundays and holidays be increased so as to include a mid-week game. The officials have always given deep thought and consideration to these requests and the consensus of opinion seemed to be that it would not pay. It costs considerable to stage a game now-a-days owing to the high cost of everything connected with the same. The game this afternoon should be patronized by those who are in favor of mid-week games in order that comparisons may be made and data available when the subject of lengthening the schedule is presented again.

The brewers are going great at the present time an dare considered as many as the team that will upset the dope of many who are picking other teams to win the pennant. Fort Amador owing to the limited number of men they have from which to build up a team, are doing remarkably well under the circumstances. The game should be a good one from start to finish. Ensign and Usher will probably be the battery for Balboa while Brown and Boyd will twirl for Amador. This party will accompany the Fort Amador team. Remember the game starts at 4:15 sharp.

Violet Ray in the Race

Violet Ray, the charming idol of James S. Whitelorn, has secured the zone regularly scheduled for Saturday at the Ancon Clubhouse. James Whitelorn that has been well paid a wage that will show the boys.

Hoblick Wins from Beckler in Sensational Mill

Balcom, Ott and Doyle Win Their Bout

The Knights of Columbus War Veterans, Comm. No. 5428, the best boxing carnival last evening. The Santa Ana Athletic Club, given on the ninth degree. Every bout was a hammer from start to finish. A powdered nose of service men and civilians enjoyed the great program.

A battle royal between Isaac Hammond, McVey, Boney and Marshall. Kid Boney was the winner. The first preliminary was won by Dezz Doyle, who put Kid Johnson to sleep in the first round.

Young Ott, the star base ball player of Corozal, had very little trouble in knocking out a local champion on 14th Street in the second round. Soldier Balcom won the sensational bout of the night on 14th Street. Tafe had all the best of this game and had no respect of Lightning Ted.

THE MUNGO

The Mungo, a new and exciting film, is the greatest of the best ten-minute shorts ever staged in an 11th Street hall. The boys went out at a terrific pace from the top of the first until the end of the ninth. The boys were clever in his eyes, but the ring generalship of Hobbes saved him many a hard blow. Hobbes administered terrific punishment to the blonde boy from the seventh round to the end and won a well-deserved decision.

The Proven Asthma Remedy. Since asthma has been cured there has been a lack of much heralded remedies, but they have proved short-lived and worthless. The ever-growing reputation of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicine which no other can approach. It has never been pushed by sensational methods, but has simply come on effective relief and making new converts.

WRONG DOPE

(By WAGGIE) Of things that are tough there are more than enough. But the fun who fans it too well. Is our private notion of a spy in an ocean. Of embarrassment too deep to tell. He has jugged with figures concerning the players. Who've landed themselves in the show. And thinks that his knowledge would fill a big gap.

These boxing arrivals at last—everybody's favorite every month. Pat McKenney, referred to as the "Big Boy" who has been fighting Bobby Zeigler, every month. The next attraction announced by Harry Wolf for the Casey's is a dance at Corozal of the dance.
