

## Welcome

Welcome to THATCamp Gainesville, a Digital Humanities unconference.

THATCamp (The Humanities and Technology Camp) is an informal and free unconference where you can discuss digital projects, learn skills, and brainstorm DH initiatives.

Browse through the list of session THATCamp Gainesville proposals below this post! If you are ready to propose your own session, please go to the [Propose page](#), and follow the link included there. After you publish your post through that link, your session proposal will appear below. Session proposals don't have to be sent to the organizers for review. Each session lasts for an hour, and usually involves a short presentation and then a group discussion. If you are not yet ready to propose a session, please feel free to comment on other posts here. Comments let session organizers know that others are interested in that conversation.

### **You don't have to propose a session in order to attend THATCamp Gainesville.**

If you are attending THATCamp Gainesville to learn about something, please use the link on the Propose page to let others know. THATCamp is about pooling together our resources and skills. Fellow THATCampers have expressed an interest in learning or talking about these topics. Please post a proposal if you can facilitate a session on these topics!
