Sun 'n Lake had a heated six-hour meeting on Aug. 31. Board of Supervisors President Mark Camp presided over the discussions.

SNL holds heated 6-hour meeting

District Board to meet again Friday

By MELISSA MAIN
STAFF WRITER

SEBRING — A heated six-hour meeting on Aug. 31 at Sun 'n Lake Special Improvement District began at 9 a.m. and was finally adjourned at 2:47 p.m. Residents expressed their concerns about a variety of topics, including increased golf fees, drainage, assessments and the extension of Pebble Beach Road.

Due to the length of the meeting, the minutes were not available until the evening of Sept. 11.

Supervisor Michael Glipin expressed his delight in seeing the meeting so well attended. However, he expressed concern that public comment was exceeding the five-minute limit. This contributed to the excessive length of the meeting.

New golf rates for the upcoming fiscal year 2019 were adopted by the Board of Supervisors. The board unanimously passed the resolution, which increased rates for golfers. A full family membership for people over 50 years old, including trail, was increased to \$4,570.65. The golfing fee for a family under 50 years of age, including trail, was \$2,513.86. A youth membership for people under 18 years of age is still a bargain at \$319.95.

Gilpin wanted to make changes moving forward. In the future, he would like to see citizens be ejected from the meeting if they become disrespectful and degrading. He expressed a willingness to hear from

Longshore: 'Be a builder'

Blessing of Businesses lunch focuses on legacies

By PHIL ATTINGER
STAFF WRITER

SEBRING — Superintendent of Schools Dr. Brenda Longshore posed the question Wednesday of whether we want to be builders or wreckers.

She asked the 208 attendees of this year's Blessing of the Businesses Annual Prayer Luncheon what kind of legacy they want to leave for their children and grandchildren. It's a message that hit home when she recently attended a funeral for a 89-year-old man who had served her church whenever help was needed.

He was always available, had keys to every room and left a legacy of servant leadership.

She now faces 60 years of age, she said, and recently celebrated both 40 years of marriage and the arrival of a ninth grandchild.

"Legacy is on my heart," Longshore said.

Quoting "The Builder," a poem by Charles Franklin Benvegar, she told how men in town quickly tore down a building. The author asks the foreman if the same men would be used in construction, and he said no. They didn't need that skill.

"I can easily wreck in a day or two, what builders have taken years to do," the poem reads. "And I thought to myself, as I went my way, which of these roles have I tried to play."

"Am I a builder who works with care, measuring life by rule and square?" the poem asks in one passage, later asking, "Or am I a wrecker who walks to town content with the labor of tearing down?"

Longshore said she had a legacy from her family of spending time with others, from her mother who always impressed on her children to love God with all their heart, to sharing faith with the next generation, as her family did at breakfast and dinner, as her in-laws would do well into the night.

She's participated in Take Stock in Children for Highlands County students. Her middle-school student to mentor had blue hair and piercings, and Longshore spent time with her every week, seeing her grades and behavior improve.

When the student reached high school, Longshore was running for superintendent.

Six weeks into the school year, the program organizers called and asked if she had seen her "mentee" lately.

When Longshore said she hadn't,

organizers said, "We noticed."

The young woman's grades were "falling apart" and she was "disrespectful to teachers," they said. Longshore cleared her calendar and met with the teenager.

Between the two of them, they pledged to be there: Longshore for the girl and the girl at class.

"My 30 minutes, one day a week, didn't save her life," Longshore

SEBRING — Police Chief Karl Hoglund said his department didn't have to do much revamping of procedures after Hurricane Irma.

"Those were time-tested in 2004, unfortunately," Hoglund said, referring to the season

that saw four storms hit Florida, three of them crossing Highlands County.

Since then, he said, the Sebring Police Department has made improvements in social media alerts and ancillary services like fuel delivery.

FILE PHOTO

A line of cars waits for gas at Love Bugs in Sebring on Tuesday, Sept. 12, 2017. Gasoline ran out quickly after Hurricane Irma struck Highlands County.

Everybody had fuel, he said, but without generators at every pump, it was hard to get it out of the ground.

So far, however, there have been no sit-down conferences with other government

LAKE PLACID — Devastation — that's what many residents of the Town of Murals woke up to on Monday, Sept. 11, 2017 after the howling winds and punishing rains stopped. Hurricane Irma charged through Highlands County the night before.

Looking about, most homes had some form of roof damage;

siding and shingles littered the streets and yards. An intact roof was a rare commodity, especially on the west side of Lake Placid. Pool cages were found by neighbors on other streets. Several roads in Placid Lakes were washed out, including Catfish Road, Aleutian Street, north and southbound roads on Island Parkway and Lincoln

Duke sending crews to Carolinas

One bucket truck crew rolling north from Highlands

By **PHIL ATTINGER**
STAFF WRITER

SEBRING — Duke Energy Florida crews left early Wednesday morning to support Hurricane Florence storm response in North and South Carolina.

Company officials said via email on Tuesday the company will send more than 1,100 employees and contractors from Florida to support power restoration for what is expected to be widespread power outages in North Carolina and South Carolina from the storm. At least one bucket truck

will head north from Highlands County, said Ana Gibbs with the Duke media relations division.

Florida crews will initially be staged in Darlington, South Carolina to deploy into areas where they're needed, according to press releases from the company.

An additional 1,000 personnel resources from Duke Energy's Midwest region will also travel to the Carolinas.

Also, the company will work with the Southeastern Electric Exchange to secure additional crews from

other energy companies to assist.

Right now, forecasts increasingly predict Hurricane Florence to cause significant impact to North Carolina and South Carolina. Duke Energy officials expect widespread damage and power outages from Florence's fierce winds and torrential rainfall.

Historical data and company experience indicate that total power restoration from a storm of this magnitude could take several days to several weeks, depending on the extent of damage and conditions after the

storm, such as persistent high winds and severe flooding.

"Hurricane Florence continues to strengthen and poses a significant threat to the Carolinas, possibly surpassing the damage seen from Hurricane Matthew in 2016 because of the potential for inland hurricane-force winds and a substantial amount of rainfall," said Duke Energy senior meteorologist Max Thompson.

"All Duke Energy customers in the Carolinas could see impacts from this storm and should make plans now to

prepare their homes and families," Thompson said. "We join state officials in asking everyone to take this storm seriously. We also ask our customers for their patience ahead of what will be a lengthy period of power restoration and recovery from this major storm."

The governors of North Carolina and South Carolina have declared states of emergency in advance of the hurricane, while Duke Energy has a detailed storm response plan.

Before power can be restored, crews first must

assess the extent of damage — which can take 24 hours or more — to determine which crews, equipment and supplies they will need before repairs can begin.

Meanwhile, Duke Energy power restoration crews will have already moved in from Indiana, Ohio, Kentucky and Florida to be ready to help Carolinas-based crews restore power as soon as it is safe to do so.

Line technicians and workers will also check equipment, supplies and inventories to ensure they have adequate materials available.

Caregiver charged with theft Ferguson arrested again

AVON PARK — A woman from Alabama came to Avon Park to care for her mother who was ill, but while providing assistance she allegedly cashed checks at Walmart without her mother's permission.

Highlands County Sheriff's Office arrested Leslie Lynn Williams, 51, of Alabama, on Sept. 7. Williams was charged with grand theft of more than \$300 but less than \$5,000, fraud to obtain property under \$20,000 and the use of identification without consent from a victim

WILLIAMS

60 years old or older.

On July 5, 2018, the victim filed a report with HCSO regarding approximately 70 checks

that were fraudulently written, according to authorities.

The victim provided bank records showing the transactions and listed her daughter as a possible suspect since the checks disappeared when her daughter was staying at her residence and providing care for her, the victim stated.

Authorities examined banking records from MidFlorida and 47 of the transactions were confirmed to have been made at the Avon Park Walmart, according to the report.

These transactions reportedly took place during 12 different days in June 2018 and totaled \$3,194.33. Walmart's asset protection provided records for all 47 of the transactions and photographs of the suspect, the report states.

The victim also confirmed that the photographs of the suspect were indeed pictures of her daughter, according to the report.

LAKE PLACID — Bo David Ferguson, 28, of Belvedere, Illinois was arrested and charged with simple battery on Aug. 9. Ferguson divides his time between Illinois and Lake Placid, Florida. Ferguson's alleged victim was Kasey Coggins, 44.

According to a Highlands County Sheriff's arrest report, Ferguson entered Bo David's Restaurant at about 9 p.m. Aug. 9. Ferguson does not own the restaurant that bears his name, located at 131 S. Sun N Lakes Blvd.; his father, Brett Ferguson, does.

During the investigation, the Sheriff's deputy spoke with two female employees who were witnesses to the alleged altercation.

One witness said that Bo David Ferguson was "heavily intoxicated" but continued to drink alcohol. The report stated Ferguson began trash talking to patrons

FERGUSON

at the bar outdoors and verbally sparring with one. The girlfriend of one of the patrons got the customer to walk

away.

According to the report, personally derogatory expletives were yelled at a female employee. The employee's boyfriend, Kasey Coggins, told Ferguson to "watch his mouth."

The report says Ferguson became mad and started verbally attacking Coggins while he stood up and walked toward him, trying to get Coggins to fight him. The report notes that Ferguson is 6 feet tall and over 300 pounds and that Coggins was half his [Ferguson's] size.

Coggins backed up and told Ferguson to back off. Ferguson took off his watch and lunged forward at Coggins striking him and the fight

commenced, according to the report. Coggins later told the deputy he was defending himself.

When deputies arrived, Ferguson had no injuries but Coggins presented with several scrapes on his elbows and fingers and with a ripped shirt. Witnesses corroborated Coggins' story.

Ferguson has faced charges in Highlands County before. He has an open case for DUI and failing to sign a citation in June 2018. In April 2017, he was charged with domestic battery and has other misdemeanors in between.

In Illinois, Ferguson has been charged with two DUIs. He was convicted of one; for the other, the judge rendered a not guilty, directed verdict. Ferguson has also faced had charges of driving an uninsured motor vehicle as well as having an order of protection against him.

Ferguson had a \$5,000 bond on the simple battery charge.

Starter gun startles students

By **KIM LEATHERMAN**
STAFF WRITER

SEBRING — An automated call from Principal Jon Spencer alerted parents and guardians to a tense situation involving a starter gun at Woodlawn Elementary School on Monday morning.

A third-grade student at the school scared his fellow students when a starter pistol fell out of his shorts and onto the ground during his physical education class.

Sebring Police Chief Karl Hoglund said the pistol fell out of the youngster's shorts in P.E. and another student saw the pistol and notified the school's Student Resource Officer, Brennan Warren. The starter pistol and the child were taken to have a conference with the parents.

Hoglund said the child told two different stories and officials are trying to figure out which scenario is the truth.

"The third-grader got a starter pistol from his brother or found it on the way to school. We have not yet narrowed either one [scenario] down," Hoglund said.

Hoglund had a hard time calling the starting pistol a weapon because "he couldn't kill anyone with it" but could be tragic in a different situation. "The parents came to the school," Hoglund said. "They have no knowledge of it or of the fact that the student had it. We think there could be some plausibility in the story that he found it but he has given both stories."

"We are running both leads to see where

this thing came from," Hoglund said. "He had a jacket from home that his brother had worn. When he got on the bus, he got cold, put the jacket on and put his hand in the pocket because he felt it. He said he was scared and didn't want anyone to know about it, so he just kept it in his pocket."

"The other story he had when confronted was that he found it on the way to school and he showed it to other students before it fell out in gym class," he said.

The student was wearing a jacket, despite the heat.

Hoglund did not want to comment on what the school's administrative actions would be. The school could not be reached by press time Monday.

1. A waterfall is an area of a river or stream where the water flows over a steep vertical drop, often landing in a plunge pool below.

2. Waterfalls themselves contribute to erosion. Stream velocity increases as it nears a waterfall, increasing the amount of erosion. The movement of water at the top of a waterfall can flatten rocks at the edge. The plunge

pool at the base gets bigger as rushing water and sediment erodes it and the area behind the waterfall is worn away, creating cave-like shelters.

3. Other process that form waterfalls include earthquake, landslide, glacier, or volcanoes.

4. The tallest waterfall in the world is Angel Falls in Venezuela where the water falls 3,212 feet.

5. The valley of Lauterbrunnen in Switzerland is a deep glacial formed valley that contains 72 waterfalls.

Sebring High honors those lost in 9/11 attacks

By **MARC VALERO**
STAFF WRITER

SEBRING — Sebring High School participated in the 9/11: Never Forget Project Tuesday morning to honor and remember the victims of the 9/11 attacks on the United States, which stunned and united the nation on Sept. 11, 2001.

Sebring High's Young Americans for Freedom organized the remembrance effort at their school in collaboration with the Young Americans Foundation's nationwide campus activism project.

Students at schools across the country annually display 2,977 American flags to remember those who lost their lives more than a decade ago.

Sebring High School's Young Americans for Freedom President Caleb Cooper spoke to the students who assembled in the school's gymnasium.

"The terrorists who committed this act of violence thought they could bring the United States to its knees," he said. "But, Americans rose in times of darkness as one united people to look evil deep into its eyes and say that we will never surrender."

"We raised the Stars and Stripes in New York and Washington, D.C. to show that we would never

fall, but we would fight to protect the freedoms, liberties and rights of every citizen and that will not stop or rest until we find those responsible."

Cooper said our nation's military stands ready on behalf of all Americans to defend our nation against terrorists.

"Every family grieved for the loved ones who were lost that day," he said. "It is important that we never forget their lives and what happened on that day and that we never forget the ones who gave their life serving to protect their nation and the American people."

"We will never forget 9/11 and those who were lost," he said.

U.S. Army veteran Robert Gillmore, who served in the late 1950s, attended the 9/11 observance.

After the program he viewed the nearly 3,000 American flags that were placed in the courtyard near the school's cafeteria.

Gillmore noted he did not see one student who did not have their hand over their heart during the national anthem nor did he see any students who did not bow their head during the prayer.

"That made me feel good," he said.

After the program, Cooper said the

observance wouldn't have been possible without the help of those who donated to the effort.

This was the first 9/11: Never Forget Project at Sebring High and was an amazing thing to do to honor those who lost their life, he said.

The Young Americans for Freedom, with 15 members, is a newly formed club at the school.

Cooper explained the school had a "Teenage Republican Club," that he rebranded as the Young Americans for Freedom as a "conservative values" organization.

Irma impact leads to aviation grant

Highlands, Polk to see improvements, diversification

By **PHIL ATTINGER**
STAFF WRITER

SEBRING — A grant from the U.S. Economic Development Administration (EDA) may help Highlands County overcome some aviation challenges.

This month, the federal agency awarded a \$300,000 Disaster Supplemental Grant to the Central Florida Regional Planning Council, to help bring in more "resilient, higher-wage jobs" to the area in the wake of Hurricane Irma, particularly jobs associated with aviation.

"It was identified as an emerging industry," said Highlands County Development Services Director Benjamin Dunn.

He pointed out that Lakeland Linder Regional Airport has been getting commercial passenger service, and Highlands County's facilities have been expanding. He also said Sebring Airport Authority Executive Director Mike Willingham has always been looking for ways to improve the facilities there, especially to accommodate larger aircraft.

"Sebring Regional Airport has done a great job. It's a job creator there," Dunn said. "The airport in Avon Park is wanting to move forward."

All over the two counties [Highlands and Polk], aviation facilities managers have looked for ways to make it self-sustaining for job growth, Dunn said.

"My staff works closely with CFRPC for growth and planning. CFRPC is the one that actually put this together."

"Aviation is currently and will continue to be a positive force in economic [growth]," Dunn said.

Pat Steed, executive director of the CFRPC, said in a press release

that aviation has been identified as an emerging industry in the most recent five-year regional economic development plan for Highlands and Polk counties.

"And so this grant opportunity from the Economic Development Administration (EDA) is coming to us at the perfect time," Steed said in her email. "It will allow us to foster the growth of the aviation industry, diversifying the economy and providing stable long-term job growth."

Dunn also said in the same press release that the grant would continue Highlands County's efforts to diversify the local economy and enhance job possibilities in the aviation sector.

"This work will support

other grants we are partnering with CFRPC to secure, which will provide strategic economic vision as we look to the future," Dunn said.

The CFRPC will use the grant to develop an Aviation Action Plan to support growth of the aviation industry in Highlands and Polk counties by identifying the region's assets and opportunities, building on those assets and creating a collaborative network to support aviation growth.

The CFRPC will create an Aviation Task Force, including local and regional partners in aviation, economic development and education.

More details are available through the Central Florida Regional Planning Council at 863-534-7130.

More about John A. Roebbling II and the alligator

Last week's article was about Donald Roebbling and the amphibious vehicle he invented that took him eight years to build that was much needed for the upcoming World War II in the Pacific by the U.S. Marine Corps and the Navy.

I mentioned that Mr. and Mrs. Roebbling were staying at their 1,050 acre estate during the hurricane of 1928. Fred Lohrer, Librarian Emeritus at Archbold Biological Station in Venus, sent me an email saying that from all the research he has done, the Roebbling's did not stay at their Red Hill Estate during the hurricane, because there was no home there.

Lohrer believes the Roebbling's were friends of Melville Dewey and spent their winters at

continued the construction of the support storage buildings, but not the mansion. The Red Hill estate construction was his way of providing jobs for all the working men in the area.

Roebbling at his Red Hill Estate employed about 100 men and insisted that all work be done by hand, no mechanized labor saving machinery whenever possible so that he could employ as many men as possible to give them jobs. He was his own WPA — Works Progress Administration.

During the Roebbling era (1930-1941) his son, Donald, of Clearwater, used the Red Hill Storehouse buildings; machine shop, engine repair, carpenter shop

OBITUARIES

Richard T. Dean

Richard Twain Dean, 44, of East Palatka, passed from this life unexpectedly from natural causes on Saturday, Sept. 8, 2018 at Putnam Community

DEAN

Medical Center. Born in Palatka, Twain had lived in various places throughout North Central Florida including Hilliard, Callahan and St. Cloud before returning to Putnam County a few years ago. Over the years, Twain had worked a number of places including Publix, Disney World and at Moose Haven

Retirement Community in Orange Park.

He was a member of the College Road Church of Christ in Palatka. An avid Gator and bluegrass music fan, Twain also enjoyed fishing, bowling, mowing, singing and playing Wheel of Fortune on his Wii. Twain was a very loving husband. Each night Twain and Elizabeth would say to each other, "I love you to infinity and beyond ... forever and forever, Amen!"

He was preceded in death by his grandparents, Alton and Eileen Dean, and Arnold and Lura Haddock and his stepfather, L.J. "Jack" McMath.

Twain is survived by his wife of just over a year, Elizabeth Tubbs

Dean of East Palatka; his mother, Helen Haddock McMath of Palatka; his father and step-mother, Donald Lamar Dean and Brenda Dean of Lawtey; a stepdaughter, Holly Elizabeth Bencun of Madison, Alabama; two brothers, Lamar Dean and wife Christa of Middleburg and Patrick Aaron "Pat" Dean and wife Dawn of Kenansville; his father-in-law and mother-in-law, Mike and Lydia Tubbs of East Palatka; his grandparents-in-law, Leon and Amy Tubbs of Sebring, and numerous aunts, uncles, nieces, nephews, cousins and other extended family.

A service celebrating Twain's life will be at 11 a.m. Saturday, Sept. 15, 2018 at the College

Road church of Christ with Bro. C.L. Overturf, Jr. officiating. The family will receive friends Saturday from 10 a.m. until the time of services at 11 a.m. The interment will be at 4 p.m. Saturday at Haddock Cemetery in the Kings Ferry Community in Nassau County.

Flowers are gratefully accepted or memorial donations may be sent to the Mount Dora Children's Home, 301 W. 13th Ave., Mount Dora, FL 32757.

Memories and condolences may be expressed to the family at Twain's Book of Memories Page at johnsonoverturf.com. Arrangements are entrusted to Johnson-Overturf Funeral Home in Palatka.

BLESSING

FROM PAGE 1A

said. "I do believe it made a difference."

Longshore had hopes, because the girl is the kind who "lights up when you walk in the room," but it did not last.

As a freshman, the girl dropped out of school to help her neighbors and parents deal with problems.

"It broke my heart that day and today," Longshore said.

She believes her young woman has a chance to return to school, with some help.

Meanwhile, Longshore has started a mentor program this past school year — 60 people to start — for students who didn't have parents asking at dinner, as her parents did, "What did you do good today?" and "How did God bless you today?" Longshore asked luncheon participants to pray for the program to grow to 170 people — 10 in every public school.

She ended with passages from "A Bag of Tools," a poem by R.L. Sharpe: "Each is given a bag of tools, a shapeless mass, a book of rules; and each must make — ere life is flown — a stumbling block or a stepping stone."

"I pray you will be a stepping stone," Longshore said.

AT RIGHT: The First United Methodist Church Praise Team, led by Worship Minister David Cleveland, left of center, sings "Do It Again" as part of Wednesday's Blessing of the Businesses Annual Prayer Luncheon.

PHIL ATTINGER/STAFF

From left, Emerald and Eternity, daughters of Edrick and Shekita Lockett, join Highlands Habitat for Humanity Executive Director Sarah Creekmore on stage at Wednesday's Blessing of the Businesses Annual Prayer Luncheon. Last year, Chef Mac of the Palms of Sebring donated his catering fee back to the event organizers who donated it to Habitat. Among the families helped are Emerald and Eternity, whose parents and siblings hope to have a new house by December.

EFFECT

FROM PAGE 1A

Avenue, just to name a few. The county spent tens of thousands of dollars replacing drains and rebuilding the roads.

After the sun came up and neighbors had ventured out, they grabbed shovels and rakes and began the long and slow process of putting their properties back together. Neighbors helped each other chop, saw and haul trees away. They went door to door to check on others. Highlands County prisoners were seen with chainsaws cutting trees off of roads to clear them.

It wasn't too long before one heard the sound of gas generators kick in by those who had the means and ability to procure one before the storm. The generators worked well for some though others, like Kelly Mitchell of Placid Lakes, found them to be more of a hassle than they were worth.

"I got the generator to be prepared," she said.

"It takes a lot of gas to run the one I had. I kept running out of it. Then it became hard to find any gas and my food ended up going bad anyway. The next big storm I see, I am evacuating. With all the money I spent in gas, I could have taken a trip and gotten out of here."

Chelsea Thorpe also lives in Placid Lakes and decided to evacuate with her three children ages 1, 3, and 4, and their father. Originally the family went to Gainesville but left there once the storm started to head in that direction.

"We went to Georgia and stayed in a hotel," Thorpe said. "I knew we didn't have power at home and that meant no internet. I work from home and need my laptop and internet. I had to go back home to get it. We headed to Tampa where my company, Capital One, is headquartered. We stayed in FEMA housing and I worked onsite for two weeks."

Thorpe found out her employer had funds set aside for all of its Florida

employees who lost power. She said she would have left sooner if she had known her company was going to help with everything.

"I found out what a great company I work for," Thorpe said. "They covered my insurance deductible, which was very helpful because the new fence I put up before Irma had to be replaced. The same thing happened with my roof."

Thorpe was happy there was a hitch in her plans for replacing the roof because she was going to use Wells Roofing. The owner of Wells Roofing, Robert "Jimmy" Wells, is charged with accepting down payments on roofing jobs that were not completed. His daughter, Christina Wells, who worked for him was also arrested because of alleged fraudulent business practices. While Jimmy Wells may have the most counts of fraud against him, he is not the only roofer/contractor arrested for scamming people. Thorpe said that she

would leave earlier next time because she is not afraid of losing her job.

Mitchell said that she would definitely evacuate next time. She urges people to take warnings of tropical storms and hurricanes seriously. Mitchell said to video everything in the home and send it to someone you love who is not in the path of the hurricane. Stocking up and having cash on hand are all lessons she said she would pass along to friends and neighbors.

The aftermath of Irma did bring out the best and worst in people. There was some price gouging and unsavory characters who are, even now, sitting in jail for fraud. Neighbors shared food, generators, energy and labor. There have been fights with insurance companies and contractors and difficulties trying to get reimbursed by the Federal Emergency Management Agency.

There has been much progress in getting back to normal, but it is hard with a blue roof.

READY

FROM PAGE 1A

entities and agencies to prepare for coming storms, Hoglund said.

That may change as Hurricane Florence is expected to strike the Carolinas by the end of the week while Hurricane Helene and Hurricane Isaac are out in the Atlantic, according to reports from AccuWeather.

The next names on the 2018 hurricane season list for the Atlantic are Joyce, Kirk and Leslie.

"We take every one of those storms very seriously," Lake Placid Police Chief James Fansler said about any threat that may develop.

Irma took off 60 percent of the police department's roof, he said. The town replaced it with a metal one.

In addition to preparing the police station with water, food and propane for the generator, the department also takes part in countywide meetings to coordinate with other agencies.

Every now and then, they will have periodic meetings where they update strategies.

Scott Dressel, public information officer for Highlands County Sheriff's Office, said Irma was a learning experience, especially securing generators for gas stations.

Most local gas stations are required to have generator hook-ups, but do not have onsite generators, he said.

Having that fuel flowing will help, because many residents who needed to get to distribution stations didn't have the fuel to make it there.

Dressel also said the Everbridge alert system — essentially reverse 911 text alerts — helped keep the public informed. He hopes the Sheriff's Office can develop its own app for mobile devices before the next storm.

The Alert Highlands system that Dressel mentioned was launched just a month before it was to go live to the public, and started taking registrations for alerts on Aug. 28, 2017. Almost 10,000 people registered

their devices, Highlands County Emergency Manager LaTosha Reiss said.

"Now that this system is fully operational, residents can sign up to receive alerts via phone, text, email and landline," Reiss said. "This system also allows users to subscribe to a variety of messages."

Since Irma, Reiss said, the county has increased training and exercises for staff and partner organizations, plans for additional distribution sites and community and volunteer involvement, as well as updated internal and external communication plans with a more coordinated response with other local agencies.

Highlands County Emergency Management has an initiative to find more shelter sites, Reiss said, and has asked the State of Florida about retrofitting additional facilities to meet wind compliance.

Besides that, she said, her office has had representatives give preparedness speeches throughout the county to residents and civic organizations, along with developing more information materials and holding public workshops and presentations to ensure county residents are prepared.

Dressel hopes everyone has learned a lesson from Irma.

"Everyone get ready," Dressel said. "Don't wait until the last minute."

That way, he said, officials won't need to bring in and distribute so much in water, food and other supplies after a storm.

Preparing for rising waters along the coast

A gigaton is a lot: 1 billion tons. That's 1,000,000,000 times 2,000 pounds. Big number.

Multiply that big number by 75 to get the amount of ice now thought to melting in the glaciers of Alaska every year. Give or take estimating errors, that's 75 gigatons in one relatively small spot on earth. Every year.

Each gigaton of water has a volume equivalent to 400,000 Olympic-sized swimming pools. So that, times 75 in the state of Alaska every year.

Consider also that, in all of Antarctica, an estimated 159 gigatons of ice is melting per year. The rate of ice loss has spike also.

Scientists say Greenland lost 34 gigatons of ice per year from 1992 to 2001. Then, from 2002 to 2011, the annual ice melt multiplied to 215 gigatons annually.

It's a lot of ice; a big number. But Alaska, Greenland, Antarctica are very, very big places, and the oceans are even bigger places. Which is why the overall rise in sea level globally may seem very small.

But it is happening. The overwhelming consensus in the scientific community is that global warming is a natural fact, and that rapid climate change is linked to man-made activity. That activity is why glaciers are melting at a faster pace and why the sea is rising by a tiny but steady rate annually.

The National Oceanic and Atmospheric Administration cites two reasons for sea level rise: melting glaciers and ice sheets, and the expansion of ocean volume due to ocean warming. (A third and lesser factor, according to NOAA, is the decline of water storage on land.)

As a recent story by Sun staffer Steve Reilly noted the level of Charlotte Harbor is rising by 3 millimeters a year. A millimeter isn't much; there are 25 to an inch.

But the state has estimated the water level in Charlotte Harbor could rise by at little as two inches or as much as a foot by 2025 – seven years from now. And by the end of the 21st century, the harbor could rise as little as 7 inches or as much as four feet.

Much of the difference depends on the rate of global ice-sheet melt. It is happening, though, and it will continue to happen unless the warming trend can be reversed.

Nationally, the American military has identified global warming and sea level rise as a real threat. Last year — despite the Trump administration's decision to roll back Obama administration rules to combat climate change — the Defense Department continued preparations to protect military bases from flooding in coastal areas.

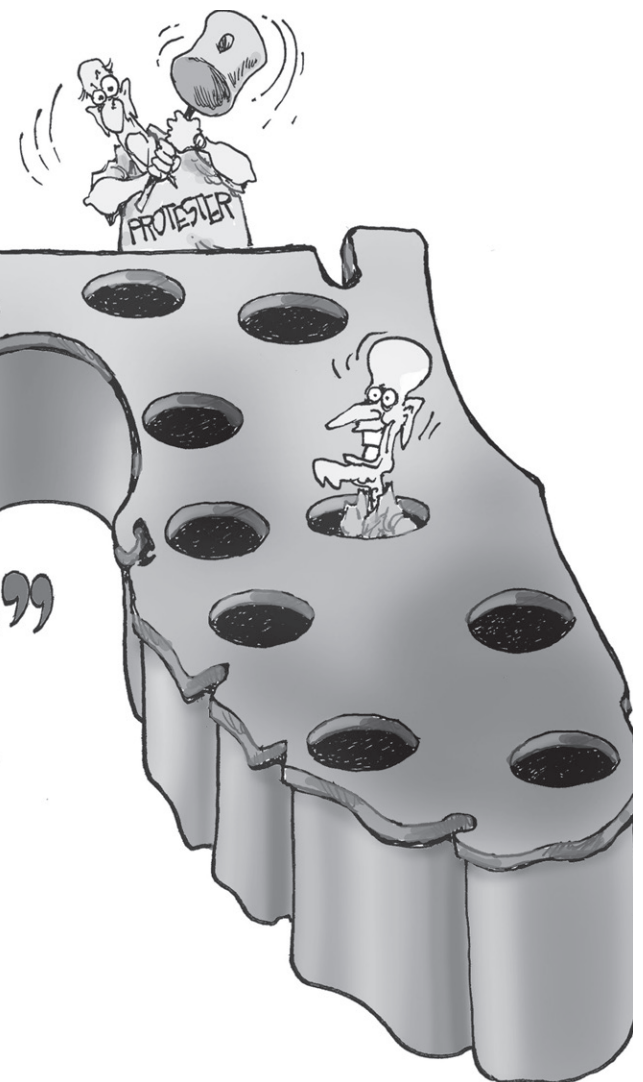

Here, local governments are also adjusting.

Both Charlotte and Sarasota counties address the problem in their comprehensive plans, the documents that guide future land use. The city of Punta Gorda has updated its codes, too, and is working with the Nature Conservancy on environmental projects that could relieve flooding, if only a little: planting mangroves and seeding oyster beds.

It's a start, and the likelihood is that more will need to be done to mitigate the effects of climate change. Within 20 years, the millimeters will add up.

An editorial from the Charlotte Sun.

FLORIDA POLITICS.com

WHACK-A-SCOTT" BUS TOUR

Here we go as hurricanes blow

Watching the extended forecasts for Florence, the pit in my stomach seemed to get deeper by the day. This would be one seriously nasty weather system and I just couldn't fathom the storm surge predictions. Family residing where ground zero is predicted has made this one personal, even though we hopefully won't be directly affected. Knowing they have never weathered the punch of a storm, followed by the grueling recovery afterwards, I tried to share suggestions without being histrionic.

How do you explain the heat, humidity, pounding rain, ripping winds and the exasperating duration of the whole darn thing? When it's been decades since a storm of this magnitude has been through a region, collective memory is dim. I recall when Charley was forecast to spin near our section of Florida, no one seemed really concerned. Recalling photos I

HARRIS & CO

Dorothy Harris

had seen of Hurricane Donna's aftermath in the downtown area, I bought some canned goods and bottled water on a whim. It turned out to be the smartest thing ever, even if people laughed at me as I checked out.

After enduring those three monsters in 2004 and then spending 10 days without power following Irma's blow through Central Florida last year, I shared with family to flee before Florence came ashore. Evacuating isn't always possible, but in this instance it was feasible and seemed prudent. As I type this for submission, they weren't planning to leave. I'm praying it

dissipates like the last storm that threatened their region or they change their minds in time.

Around here we are watching several others lining up behind Flo. Making a plan and then prepping supplies is smart advice we've been hearing since this whole season started. While the first 72 hours are a good beginning, we are focused on 7-10 days because Mr. Harris will be too busy working to worry about foraging for food or fuel.

Being vegan is a surprising challenge when there is no electricity. I'm stocking canned veggies because I learned last year after a couple days of no power, fresh produce quickly rots. Until stores can restock, I plan to pop open cans of beans, potatoes and peas. For variety, there are diced mushrooms and canned sweet corn. Not the most exciting gourmet ingredients, but

easy to store and prepare for sure. Mr. Harris will hopefully be fed wherever he is at the time so I'll be dining alone.

Bottled coffee is also on my list because brewing on the gas grill in oppressive humidity following the storm made me cranky and that was even before the Day Three phenomenon.

When life gets disrupted due to a storm we struggle to do our normal things despite the obstacles. After three days of this, there is a breakdown. Whether you pick a fight with your family, brawl your eyes out or throw a temper tantrum, once you get past Day Three, it all goes smoother. It's like you realize, OK, this sucks but here I am. I can do this.

I'm still hoping all this is something none of us will have to deal with, but with the tropics heating up, getting prepared and having a plan should be a priority. See you in the canned food aisle soon.

YOUR VIEW

The politics of personal destruction

A recent letter shows how various methods are employed to bring home a point against views we disagree with. The letter suggests Democrats are soldiers of Satan and that they are bent on imposing Communism in America. If that were true, we would be under communist rule. To emphasize, the letter employs the Bible in his quest to tear down other political views.

That's desperate but seems to be where our divided nation has gone. If you can't make a valid point, just belittle and dehumanize those whose views disagree with yours. We hear it every day as elected public servants and candidates spend their time bashing opposition rather than

laying out a viable plan of their own to benefit the nation, their state or a local community. "Fake news" is a popular but tiresome term that denigrates some fact that doesn't suit the echo chamber. Conjuring the Bible to reinforce "alternative facts" is nothing new, nor is it very effective except to those who need something to make fantasy tales more believable.

I hold no hard allegiance to any political party as I believe George Washington was right to condemn them. We've divided as a nation and have turned to juvenile practices for political gain. You're entitled to your own views but not your own facts. When everything else is a lie, only the truth is beautiful.

Warren Pender
Sebring

Some theories stronger than others

Before the modern era relieves us of the traditional meaning of yet another English word, let me question the understanding of "theory" put forth in a Sept. 10 letter. I don't fault the citation from Scientific American that in proper science a theory is "substantiated through repeated experiments or testing." Substantiated means it is reasonably reliable, but not necessarily proven; once proven, it becomes a fact. While some theories can and have been substantiated, others have not. In either case they are theories, and not facts, until proven.

The examples of theories given in my Sept. 4 column

(evolution and man-made climate change) are theories that have yet to be substantiated by repeated testing or observation. Even individuals that want to insist evolution is fact acknowledge it is dependent on a theory of a missing link that is needed for substantiation. And while climate change is real, those that insist it is man-made cannot account for the climate changes that occurred before man had created the means theorized to be the cause today.

Some theories are stronger than others, but words have meanings and theories and facts are different. I reassert that we should not teach theories as facts.

people who disagree, but he said there was a way for people to communicate their differences of opinion.

Road construction

Sun 'n Lake had a lively discussion about the possibility of extending Pebble Beach Road. "If approved, the District will construct the road and the special assessment will be paid back to the District by only those property owners benefited by the road," General Manager Tanya Cannady said. "If the project is approved, then the District will assess each lot along the road a special assessment."

The total cost for the project is estimated at \$693,000, and special assessment would have to be \$18.750 per property at terms of 15, 20 or 25 years.

Property owners voiced objections to this idea at the meeting. Rick Hulbert suggested if the developer wants the roads constructed, then he should pay for it. Hulbert pointed out the board has never agreed to pay for roads on the behalf of developers in the past.

Tom Kosty agreed with Hulbert. He told the board that Maronda Homes funded their own road construction. He cited examples such as Manor Hill (built by E.O. Koch Construction and W.S. Randall Construction), Woods N Iron Street (built by Hornick Homes) and The Preserve.

Bill Norcross also voiced his belief the developer should take full responsibility for the cost of the project.

This project will affect 37 properties, but only nine plots are owned by individual citizens.

The minutes stated, "Upon conducting research, they determined the district can assign a special assessment to county-owned properties." However, "the county will more than likely not pay."

Due to concerns expressed by citizens, Board President Mark Camp announced that David Schumacher will reach out to the developer.

Short on public input
Dave Halbig requested the email he wrote to the board be read into the minutes of the meeting and added to the packet as correspondence.

In Halbig's memo to Cannady, the board of supervisors and Schumacher, he stated,

"During the second budget workshop on June 22, certain residents were allowed to make comments. President Camp also opened public comment during the workshop. He then allowed comment at the end of the meeting.

"My request was not acknowledged nor was any public comment allowed until the workshop was concluded," Halbig stated. "If no public comments are allowed as the meeting progresses and only allowed at the end after decisions are made, input from the public will be disregarded.

"I do not know why, but there has been a concerted effort on behalf of the board of supervisors during the last two years or so to reduce as much as possible the input from the people," Halbig stated.

"As mentioned earlier," Halbig stated, "there were votes taken on most of the major issues of importance with no public input as the issue was being discussed and finalized. There will shortly be a public hearing to finalize the budget and public comment will be allowed. Sorry it's too late. The decisions have been made. The die is cast and public input will be useless.

Camp responded to the situation, saying the board's desire was to ensure an openness for communication. He welcomed the community to respond to the different issues that arise and affirmed the board is receptive to feedback from the public.

Bill Norcross suggested the board hear from the public after each item is deliberated rather than waiting until the end.

Lot assessments
Vacant lots in Sun 'n Lake of Sebring have a high foreclosure rate, and a consultant told the board in a July 20 meeting that lowering the assessments on these lots would improve the ability to collect the taxes and help stem delinquencies.

In the July meeting, Steven McDonald, chief economist with GAI consultants, said the assessment should more closely match the lots' market value. The vacant lots are not using the community center nor the playground. They are not accessing the same level of benefits as the homes in the area, he explained.

In fact, McDonald estimates the lots are only accessing 10 percent of the benefits that

Sun 'n Lake provides to residents. People who own a vacant lot are not driving back and forth to their homes every day and using the roads. They are not using the parks or the recreation that are offered, McDonald said. He came up with the proposed changes in the assessments on the vacant lots based on this 10 percent value.

Since the assessments are considered high on vacant lots, many homeowners have let them go.

Based on McDonald's recommendation, the assessments on unimproved lots were lowered. The rate change would decrease from \$295 on unimproved vacant land to \$140. Lots with roads and drainage would receive a \$150 decrease and be lowered to \$350.

Lot owners are to receive decreases in the amounts they would now owe, but residential and commercial properties would receive an overall increase of 3.8 percent.

Although most residents will only experience a 3.8 percent increase, some residents will receive hefty increases due to changes in the rate categories. For example, Jose Martin will experience an increase of approximately 75 percent in his bill and Chester Dodd will have a 100 percent increase.

Fifteen property owners spoke during that portion of the meeting and expressed their concern with the new assessment fees.

Camp asked the speakers with concerns to submit their request thought the assessment appeal process. Schumacher agreed and said that he would meet with Cannady and DeJesus to consider each unique case and to develop a procedure for addressing them.

Drainage problems continue

Drainage issues remain a problem at Sun 'n Lake. Jeff Winkler said the right of way near his home had become a swamp.

However, Sun 'n Lake has designated \$350,000 in the upcoming budget to address drainage issues. "Drainage issues continue to be a top district priority," Cannady said.

In addition to the \$350,000 budgeted for next year, the District has outlaid \$300,000 this year in maintenance and repairs.

The next board meeting is scheduled for 9 a.m. Friday at the Community Center, 3500 Edgewater Drive.

Center in Tampa to the U.S. Marine Corps at Quantico, Va. Following an extensive restoration and put on display in 1997 at the United States Marine Corps Air-Ground Museum. A unique machine that used the paddle-tread propulsion system that made it a true

amphibian.

LOCAL SPORTS

Don Panoz made a difference

Transformed Sebring Raceway and founded ALMS

COURTESY PHOTO

Don Panoz helped to transform Sebring International Raceway and he also founded the American Le Mans Series.

Special to Highlands News-Sun

The IMSA community is profoundly saddened by the news that its Vice Chairman, Don Panoz, passed away from cancer at the age of 83.

A lifelong entrepreneur, the charismatic Panoz is best known to race fans as the founder of the American Le Mans Series (ALMS) and creator of the famously loud and uniquely styled front-engined Panoz LMP1

racecars.

Panoz fell in love with the unique atmosphere at the 24 Hours of Le Mans after experiencing it himself for the first time. Panoz aimed to replicate the spirit of Le Mans, its unique rules and regulations while adding his own fan-friendly atmosphere, first through the creation of a "one-off" event at Road Atlanta, the 10-hour or 1,000-mile Petit Le Mans, which debuted on

Oct. 11, 1998. The overall winners of that inaugural race were co-drivers Eric van de Poele, Emmanuel Collard and WeatherTech Championship Prototype champion team owner Wayne Taylor.

Buoyed by the success of Petit Le Mans, Panoz founded the ALMS, a series of races throughout North America on world-class racetracks, including three that he owned: Sebring International Raceway,

Road Atlanta, and Mosport — what today is known as Canadian Tire Motorsport Park. Panoz became a driving force for sports car racing in North America at a time when the sport was badly in need of direction, vision and leadership.

Under Panoz's watchful eye, the ALMS was the first motorsports sanctioning bodies to open the pre-race starting grid

Low scores on the golf links

Special to Highlands News-Sun

The golfers at Lake June West were in action on Sept. 5 with the Men's League: The first place team with a score of 43 was the fivesome of Mike Rogers, Pete Otway, Lee Maule and Jack Clegg, while the second place team with a score of 48 was Bruce Myers, Bill Fowler, Larry Heath, Tom Molloy and Ken Raub.

Closest to Pin winner was Larry Heath on hole No. 4 with a shot that was within 23 feet of the cup.

Sun 'n Lake Golf Club

The Saturday McCullough Couples Group played the Sun 'n Lake Golf Club Deer Run course. The format was a four-person alternate-shot format.

The winners with a score of 68 was the team of Gary Johnson, Diana Johnson and Dick Sutton and Joann Sutton. Second place with a score of 70 went to Ken Ross, Judy Ross, Wally Edgell and Jennifer Munro. Third place with a score of 73 was the foursome of Ron Cottrill, Cynthia Cottrill, Dan Reece and Pam Bailey.

Mezza Golf Group

The Monday Mezza golf group played at Golf Hammock Country Club on Sept. 10. The group will return to Golf Hammock on Sept. 17 for a 7:45 a.m. shotgun start.

The Mezza Group also plays Harder Hall on Wednesday and Friday at 8:00 am. Newcomers are welcome. This is a great way to meet other golfers in your community! Come out and join us!

Group A had a three way tie for the first three places! Wow this is an unusual happening here! The tie was between Al South, Don Brewer and Frank Davis. They all had a plus two for the day.

Group B had Paul Doud and Noris Ellison tie at plus four for the first two places in this group.

In Group C, David Mulligan and Jim Hammond tied for the first two places in this group with plus three.

Group D had Caude Cash for the first finisher with a score of plus one. Second place at a minus one was Ken Porter.

Group E had Jim Daigneault in first place

Hal Polhill (3.14) has a great start to the season in the GP Twin Class with a pair of wins on Saturday.

last Saturday with several new drivers entering the fray and making an immediate impact as last year's champions were served notice early that repeating this year will not be an easy task.

It was also a night of sweeps as the winners in each class won both the heat and feature races, except in the Kart class.

Last year's points champion Christian Galan was not present as newcomer Jaccon Wallace won the heat race with an inside pass on the final turn of the last lap.

Wallace was not able to repeat that performance of Tom Boddy edged out Wallace in the feature to take the checkered flag.

In the youngest group, again last year's champion Reed Wallace did not race as he moved up to the next class of youth drivers, which opened the door to another newcomer in Blaine Pollard, who won both the heat and feature races. Rylee Wallace, who finished second in points last year, finished

third in the heat and second in the feature.

In the FX-Lite class, last year's champion Sam Foster finished third in the heat and was unable to finish the feature as the racing Granny, Becky Kuhfeldt, took the checkered flag in both races, quickly serving notice that this class in going to be highly competitive this season.

In the GP class, Ken Wayman, who finished third last season quickly took the points lead with a pair of wins over last year's champion Randy Gandy.

The GP Twin class also saw an early switch as last season's runner-up in points Hal Polhill jumped to an early points lead over last year's champions Tom Hodge. Polhill won both races as Hodges finished in both.

Gandy may have finished second in the GP Class races, but this year Gandy moved

Bengals look for second win

Cincinnati takes on Baltimore in battle of unbeaten

PHOTO BY JOHN MINCHILLO/ASSOCIATED PRESS

Indianapolis quarterback Andrew Luck is hit by Cincinnati's Carlos Dunlap (96) during Sunday's game. The Bengals play Baltimore tonight.

By JOE KAY
ASSOCIATED PRESS

CINCINNATI — Safety Shawn Williams lowered his shoulder and hit Andrew Luck in the head as he was tackled, drawing an ejection.

End Carlos Dunlap went for Luck's legs and got a penalty for roughing the passer. He was flagged again when he landed hard on the quarterback after taking him down.

The Bengals' defense spent a lot of time self-destructing before holding on for a 34-23 win at Indianapolis in their opener. Fixing the egregious penalties is at the top of their list as they get ready to host Baltimore (1-0) on Thursday night.

"You're just trying to

do your job, get after the quarterback," Williams said, referring to the penalties on him and Dunlap. "Like me, he has to find a way to do what's within the rules."

The Bengals (1-0) hired defensive coordinator Teryl Austin in the offseason after Paul Guenther left for the Raiders. Austin has emphasized getting turnovers, and the defense won the game with one.

Luck was trying to lead the Colts to a winning touchdown when safety Clayton Fejedelem stripped tight end Jack Doyle of the ball near the Cincinnati 15-yard line and returned the fumble for a touchdown with 24 seconds left.

The defense had a few glaring shortcomings. Luck completed 39 of 53

passes for 319 yards with a pair of touchdowns and an interception, and the Colts had 380 yards overall.

The three penalties were the most glaring issues.

Williams' hit on Luck's head in the first quarter cost the Bengals their veteran safety and moved the Colts to the 9-yard line. They had to settle for a field goal.

Dunlap's first roughing-the-passer penalty with 27 seconds left in the first half moved the Colts in range for another field goal. His second roughing penalty resulted in a fumble being negated.

"The penalties were the disappointing thing," Austin said.

up to the next to fastest group of racers and landed a pair of wins in the FXS class.

Last year's champion Bruce Runyon finished third in both races behind Gandy and Sean Kennedy in the heat and Gandy and Mike Alcorn in the feature.

The fastest group, the FXT class, had an injection of new competition as newcomer Ben Blalock won both races over last year champion Matt Garner and former champion Wes Pyburn.

Garner finished fifth in the heat and third in the feature while Pyburn finished second in both.

Lawnmower racing will hold their second race of the season on Oct. 13 starting at 6 p.m. at the Avon Park Mower Plex.

IMSA

FROM PAGE 8A

to race fans, enabling them to walk among the cars and drivers on the racetrack minutes before the start of each race. It's a practice that is still a part of every IMSA WeatherTech SportsCar Championship and IMSA Continental Tire SportsCar Challenge race – and has been replicated by many racing organizations around the world.

In 2012, Panoz recognized that to truly achieve the type of success he envisioned for sports car racing in North America, a merger between the ALMS and the GRAND-AM Road Racing Association was needed. He joined forces with GRAND-AM Founder Jim France – and together with their respective CEOs, Scott Atherton with ALMS and Ed Bennett with GRAND-AM – and the historic merger was announced at Daytona International Speedway on Sept. 5, 2012.

"Don Panoz will be remembered as a one of the most important figures in the history of sports car racing," NASCAR Chairman and CEO and IMSA Chairman Jim France said. "Don was a true gentleman who deeply cared about our sport. That was obvious to all who are involved with sports car racing. He became a great friend and partner, and we shared the pride of combining GRAND-AM and the American Le Mans Series and re-establishing the IMSA brand, bringing sports car racing together again. Don was a true innovator whose work touched many lives."

With France as Chairman, Panoz became Vice Chairman of the new organization, which took on the International Motor Sports Association (IMSA) moniker. Panoz had acquired the rights to use the IMSA name years earlier for his own sanctioning body, extending the lineage of the highly respected organization founded in 1969 by Bill France Sr. and John and Peggy Bishop.

"It is difficult to find the right words to express my sadness with the news of Don's passing," said Atherton, who became president of the new

FILE PHOTO

Don Panoz bought the Sebring International Raceway and made many positive changes that are enjoyed by race fans.

IMSA. "He was a very special guy – the most visionary and creative person I have ever worked with. He was a serial entrepreneur of the highest order. Don was the consummate 'idea guy' – not all of them good mind you – but he came up with several that were truly brilliant that transformed entire industries.

"Many of us who make our living in motorsport owe him a debt of gratitude. He deserves full credit for putting professional sports car racing back on the map when it was at its lowest point. His acquisition of IMSA, Sebring International Raceway, Road Atlanta, Mosport and the creation of the American Le Mans Series are enduring monuments of his legacy."

Panoz's involvement in motorsport extended well beyond the ALMS and his racetracks, which all were part of his Panoz Motor Sports Group. His Panoz Esperante GTR-1, was the first successful front-engine prototype race car in more than 30 years. Following that, Panoz was a pioneer in the introduction of hybrid technology in sports car racing, bringing the car known as "sparky" into competition at the 1998 Petit Le Mans.

Another highlight was the Panoz Esperante GT LM, which won both the 24 Hours of Le Mans and Twelve Hours of Sebring in 2006, which also earned Panoz the coveted "Spirit of Le Mans" award from the Automobile Club de l'Ouest, organizers of the annual 24-hour race in France.

In the early 2010s, Panoz was instrumental in the development of the revolutionary DeltaWing

race car, which was half the weight and horsepower, but all the performance of other prototype race cars. The DeltaWing raced in the 24 Hours of Le Mans, the ALMS and the WeatherTech Championship until the end of the 2016 season.

Beyond sports cars, the Panoz Motor Sports Group also included Van Diemen, which built successful chassis used in open-wheel and prototype development series; Élan Technologies, which built engines and chassis for a variety of race cars; and G-Force, which built IndyCar chassis that would win the Indianapolis 500 in 1997, 1998, 2003 and 2004. The organization also built the well-respected DP01 chassis used in the final season of the Champ Car World Series before its merger with IndyCar in 2008.

Most recently, the Panoz Avezzano race car won the 2018 Pirelli World Challenge GTS class Sprint/Sprint-X Manufacturers' Championship.

"Don loved the challenge that top-level motorsport represented," Atherton said. "He loved to compete and was always looking to achieve success with game-changing innovation and by doing things differently. Putting the engine in the front of a modern LMP1 racecar, introducing hybrid engine technology at Le Mans long before it was embraced by mainstream manufacturers and, of course, the DeltaWing are but a few of many, many examples."

Panoz's racing endeavors were made possible by his entrepreneurial success in other ventures.

His career began in 1961 when he and friend Milan "Mike" Puskar, a fellow alum of West Virginia University who also served alongside Panoz in the Army, founded Milan Pharmaceuticals in White Sulphur Springs, West Virginia. Panoz was the youngest president of a pharmaceutical company in the United States.

Milan eventually became Mylan, which now sells an estimated 1,300 products in more than 140 countries and territories worldwide.

In the 1970s, Panoz created Élan Corp. in Ireland, which became a leader in drug delivery products and technology. Panoz led a research team that created time-release medication through a transdermal patch, commonly used today as a nicotine patch. Élan Corp. was the first Irish company to be publicly listed on the U.S. stock exchange, and Panoz retained more than 300 pharmaceutical industry patents.

Panoz founded Élan Technologies, which includes Élan Composites, Élan Power, Élan Precision and Élan Fabrication; and the Panoz Institute at Trinity College in Dublin, Ireland, which houses the School of Pharmacy and Pharmaceutical

Sciences. He also founded international resorts such as Chateau Élan in Georgia, The Vintage Golf Club in Australia, Diablo Grande Winery & Resort in California, and St. Andrews Bay Resort and Spa in Scotland.

Panoz earned several prestigious accolades throughout his life. He was the 29th inductee into the Entrepreneurship Hall of Fame in 2013, the Bob Russo Heritage Award recipient from the Motorsports Hall of Fame of America in 2014, the La Bella Machina award winner at the 2015 Concorso Italiano in Monterey, California, and the 2015 recipient of the Women In The Winner's Circle Leadership Award from racing pioneer Lyn St. James and the Women's Sports Foundation.

That award was presented at the 2015 Petit Le Mans at Road Atlanta. Panoz also is a member of the West Virginia University College of Business Hall of Fame.

"I had the honor and privilege of working side-by-side with Don for nearly 15 years – witnessing many of his landmark achievements in motorsports, hotels, golf resorts, residential real estate and much more, not just in America, but around the world," Atherton

concluded. "His drive, energy and work ethic were truly remarkable. Don ran on the rev limiter right to the end. But he was also a lot of fun to be around, always quick with a joke or a fascinating tale from his past. We have all lost a great man and many of us have lost a great friend and mentor."

Panoz leaves behind his wife of 63 years Nancy; sons Danny and Chris; daughters Donna, Dena, Lisa and Andrea, along with many grandchildren and great grandchildren, and numerous longtime friends and business associates from around the world.

with a score of plus two. Jack Carlton was close behind in second with a plus one.

Group F had Boots Callahan and Ed Chroscinski tied for the first two places in this group at a plus two. What a round today with four out of the six groups finishing with ties. Great round and see everyone next week!

For more information, call Joe Hyzny at 863-318-7960.

FOOTBALL

FROM PAGE 8A

The NFL has emphasized that it won't accept actions such as Williams hitting Luck in the head.

"I levelled my shoulder," Williams said. "The contact with his head was incidental. There's nothing I can do about that. I don't know what he's

going to do as a runner. I know he's going to try and get the first down and my job is to stop him."

Dunlap's first penalty was for going after Luck's legs, which also is a point of emphasis in protecting quarterbacks. The second one violated a new rule that says defenders can't land on the quarterback with their full weight as they tackle them.

Dunlap landed on top of Luck and caused a fumble that the Bengals recovered, but it was negated by the penalty.

Cornerback William Jackson also got an unnecessary roughness penalty while trying to prevent T.Y. Hilton's touchdown catch. Overall, Cincinnati was penalized eight times for 94 yards.

Dali, Magritte: A surreal pairing

SPECIAL TO HIGHLANDS NEWS-SUN

Opening at The Dali Museum in St. Petersburg on Dec. 15, Magritte and Dali is a first-of-its-kind special exhibition dedicated to the world's two most celebrated surrealists, Rene Magritte and Salvador Dali. The exhibit runs through May 19, 2019.

This first exhibition to examine the artists in a sole pairing provides an in-depth review of the common threads and creative divergences in their distinctive bodies of work from the late 1920s

to the 1940s. During this frenetic and productive period, the two artists displayed works in the same Surrealist exhibitions and passionately explored the techniques and aesthetic points of view which contributed to their respective reputations as monumental figures in art history. Together, their work proposes a stirring challenge to the world of appearances and hints at the deep mystery of life.

Shortly after arriving in Paris in 1929, a young Salvador Dali met fellow surrealist Rene Magritte. A few months later, Magritte joined surrealist

poet Paul Eluard and his wife Gala on a visit to Dali at his home in Cadaques. The sultry summer gathering proved auspicious in the parallel stories of Dali and the Avant-garde: Gala fell in love with Dali and remained with him in Cadaques, becoming his muse and chief promoter for the rest of her life.

From that moment on, Magritte and Dali would remain aware of each other's progress along the shared road toward building a new and disruptive art form, each firmly committed to implementing practices that generated fuller

freedom of imagination. Their works during this period also shared several visual themes, which are explored throughout the exhibit.

"Rene Magritte is a quintessential figure in the surrealist movement and is celebrated around the globe. We are proud to provide the first and only opportunity to see his and Dali's works displayed solely together in the U.S.," said Dr. Hank Hine, Executive Director of The Dali. "This special exhibition continues our dedication to providing our community and the world at large with the

DALI MUSEUM PHOTO

The Dali Museum.

essential visual works of our era."

Showcasing carefully curated, exemplary pieces from Magritte's and Dali's distinctive bodies of

work, Magritte and Dali pushes back the curtain to reveal what lies beyond the simple appearance of

UNIVERSAL PHOTOS

Inside Universal's 'Stranger Things' haunted house

Inside Universal's 'Stranger Things' haunted house.

SPECIAL TO HIGHLANDS NEWS-SUN

Universal Studios revealed first-look images from the "Stranger Things" haunted houses coming to Halloween Horror Nights 2018.

For the first time ever, Universal Orlando Resort, Universal Studios Hollywood and Universal Studios Singapore are partnering with Netflix to bring "Stranger Things" to life at their Halloween Horror Nights events. Each park will feature its very own maze that will give guests the chance to brave the Upside Down and encounter iconic scenes, characters and environments from season one of the critically-acclaimed series.

The images showcase some of the eerily-authentic environments guests will encounter at Halloween Horror Nights 2018 — including the Byers' living room adorned with an erratic display of flashing Christmas lights, Hawkins

Universal released images of the 'Stranger Things' haunted house.

A sneak peek at the 'Stranger Things' haunted house at Universal.

National Laboratory in the Upside Down, Will's makeshift fort called Castle Byers and more.

Universal Orlando Resort has added two event dates to Halloween Horror Nights 2018 due to

popular demand — giving guests more chances to brave the most intense event in history, featuring more haunted houses than ever before. The added dates — Wednesday, September 19 and Wednesday, September 26 — make this year's event the longest in history with a total of 36 nights.

The twisted minds of Universal Orlando's Entertainment team are bringing back a fan-favorite with a whole new twist in ScaryTales: Deadly Ever After. Guests will encounter The Wicked Witch of the West, who has seized control of the fairytale realm and is tormenting treasured storybook characters in hideous and cruel alternate storylines. As guests venture through this nightmarish bedtime story, they'll see familiar characters now turned evil including Hansel and Gretel salivating for human flesh, a splattered Humpty Dumpty and more.

Brevard's Boo at the Zoo

SPECIAL TO HIGHLANDS NEWS-SUN

Witches and warlocks planning to brew up something spooktacular at Brevard Zoo's annual Halloween event can get a head start by purchasing their all-inclusive tickets in advance.

Boo at the Zoo, presented by Renco Electronics, is "an opportunity for families to celebrate the holiday in a fun, safe environment," said Andrea Hill, director of marketing and communications at the Zoo.

The event will feature more than 30 treat stations, a candy-themed

"Boo Choo Train," nightly costume contests, ample photo opportunities, a haunted house and more.

The event will take place Oct. 12-14, Oct. 19-21 and Oct. 26-28 from 5:30 to 9 p.m. on Fridays and Saturdays and 5:30 to 8 p.m. on Sundays. Pricing varies each night; member discounts are available on October 12, 14, 19 and 21. Tickets are available

at www.brevardzoo.org/boo-at-the-zoo.

Treat station sponsorships are still available for local businesses or not-for-profit organizations. Interested parties should visit the link above or contact corporate relations and business development manager Chris Stagman at cstagman@brevardzoo.org or 321-254-9453, ext. 485 for more information.

Boo at the Zoo is sponsored by Biotest, Brevard County Firefighters, Disney Cruise Line, Doug Hambel's Plumbing, L3 Technologies, New Image Dentistry, Ruso Orthodontics, SeaDek

Marine Products, Slug-A-Bug and Uno Pizzeria & Grill.

Brevard Zoo is home to more than 900 animals representing 195 species from all over the world. As a not-for-profit organization, it is a leader in the fields of animal wellness, education and conservation. More information is available at www.brevardzoo.org.

Treetop Trek features five aerial obstacle courses that whisk guests above parts of the Zoo and through lush Florida landscapes. More information is available at www.treetoptrek.com.

Skillet to headline 'Rock the Universe'

SPECIAL TO
HIGHLANDS NEWS-SUN

Florida's biggest Christian music festival is coming back to Universal Studios Florida earlier than ever before. Rock the Universe will take place on Feb. 1 and 2, 2019, and feature the live music, worship and thrilling attractions that Christian music fans look forward to each year.

On Friday, Friday, Feb. 1, performers include Lecrae, Matthew West and Colton Dixon. The announced acts on Saturday, Feb. 2, include Skillet, Bethel Music and Crowder.

In between sets by these headliners, you can attend artist autograph sessions, or visit

the FanZone presented by Coca-Cola for live performances by up-and-coming Christian acts. Saturday night's candle-lighting ceremony and Sunday morning's service offer the ultimate worship experience for a faith-filled weekend.

Of course, your admission to Rock the Universe also includes access to some of Universal Studios Florida's most thrilling attractions.

It's never too early to start planning, especially if you love attending the event with a church group. Ticket offers and the full talent lineup will be released soon. But, for now, make sure you mark your calendars for Feb. 1 and 2, 2019.

GRAND OAKS RESORT PHOTO

Grand Oaks Resort offers plenty of equestrian activities.

Grand Oaks Resort worth a visit

By GARY MCKECHNIE
VISIT FLORIDA

If you were looking for the finest thing on wheels today, you might lean toward a Lamborghini or Ferrari. Turn back the clock 100 years or so and the most dazzling vehicle on the road was an Ambruster royal carriage, like the one used by Austria's Franz Joseph and now on display at the Grand Oaks Resort and Carriage Museum in Weirsdale.

You can read about these carriages and see pictures of them, but until you see one up close, fully restored and being pulled by a team of

horses – maybe through a carriage tour – you'll never really understand just how magnificent they are.

This alone is just one reason why I'd strongly recommend a visit to the Grand Oaks Resort, a full-fledged equine resort located near The Villages; about 20 minutes south of Ocala. A world-class museum with a world-class collection of more than 200 carriages displayed in four galleries, it's a wonderful and entertaining experience. I knew little about this culture, but I was astounded by the collection that ranged from Roman and Egyptian chariots to

DON'T MISS IT

You should go there for the museum — and for several other reasons as well. At this 400-acre resort you can see horse shows every other week and each Sunday they host a cowboy church service at the Morning Star chapel.

Even if you don't attend church you can still attend the Sunday Brunch (9-2, \$12.50, or \$25 for brunch and a carriage ride).

For me this was an unexpected find. When you travel off the beaten path, I hope you discover as much pleasure at the Grand Oaks Resort.

gypsy wagons and horse-drawn double-decker buses and a Wild West

stagecoach. Nearly every item here is authentic and each has been

meticulously restored.

You should go there for the museum — and for several other reasons as well. At this 400-acre resort you can see horse shows every other week and each Sunday they host a cowboy church service at the Morning Star chapel. Even if you don't attend church you can still attend the Sunday Brunch (9-2, \$12.50, or \$25 for brunch and a carriage ride).

Sue Kelly, the director of sales and marketing, shared that this is known around the world as one of the sport's premier training and competition centers, and it's also a popular destination for

special events such as the Cattle Baron's Ball of Lake/Sumter/Marion counties and the Special Olympics. Look around this graceful landscape and you'd guess it might be popular setting for weddings as well. And you would be right. Weddings are quite popular here, thanks to the tranquil and well-maintained grounds as well as the chance for the bride and groom to depart via a horse-drawn carriage.

For me this was an unexpected find. When you travel off the beaten path, I hope you discover as much pleasure at the Grand Oaks Resort.

US household incomes grew in 2017

By CHRISTOPHER RUGABER
AP ECONOMICS WRITER

WASHINGTON — The income of a median U.S. household rose for a third straight year in 2017 as solid economic growth helped put more people into full-time jobs. But income inequality also worsened as the wealthiest Americans enjoyed even larger pay increases.

Incomes for a typical U.S. household, adjusted for inflation, rose 1.8 percent, from \$60,309 in 2016 to \$61,372. The proportion of Americans living in poverty also dropped for the third straight year, to 12.3 percent from 12.7 percent.

The figures suggest that the nation's very low unemployment rate — 3.9 percent — is forcing businesses to convert more part-time workers to full-time status. And with the ranks of the unemployed dwindling, companies are hiring more people who previously weren't looking for work. During 2017, the unemployment rate averaged 4.4 percent, the lowest level in 17 years.

The number of people with jobs rose by 1.7 million in 2017, the Census report said. And the number of workers with full-time permanent jobs increased by 2.4 million.

"We're continuing to see that shift from part-time,

part-year work to year-round, full-time work," Trudi Renwick, an assistant division chief at the Census Bureau, said.

At the same time, the data underscores the lasting damage the Great Recession did to the majority of American families. U.S. households are still earning essentially the same that they did in 2007 just before the Great Recession. And their inflation-adjusted median income remains slightly below the record in 1999 of \$62,000, Census said.

"The income of a typical household today is about where it was 18 years ago," said Robert Greenstein,

president of the Center for Budget and Policy Priorities.

The median is the point at which half the households are below and half are above. It can be a more telling measure than the average, which is distorted by extremely high incomes among the wealthiest households.

Last year's median income increase was slower than gains of 5.1 percent in 2015 and 3.1 percent in 2016.

Some of that slowdown reflected sharply higher inflation, which was just 0.1 percent in 2015 and 1.3 percent the following year. It rose to 2.2 percent in 2017.

INCOMES | 8

McDonald's workers vote to strike over sex harassment

By DAVID CRARY
AP NATIONAL WRITER

NEW YORK — Emboldened by the #MeToo movement, McDonald's workers have voted to stage a one-day strike next week at restaurants in 10 cities in hopes of pressuring management to take stronger steps against on-the-job sexual harassment.

Organizers say it will be the first multistate strike in the U.S. specifically targeting sexual harassment.

Plans for the walkout — to start at lunchtime on Sept. 18 — have been approved in recent days by "women's committees" formed by employees at dozens of McDonald's restaurants across the U.S. Lead organizers include several women who filed complaints with the U.S. Equal Employment Opportunity Commission in May alleging pervasive harassment at some of McDonald's franchise restaurants.

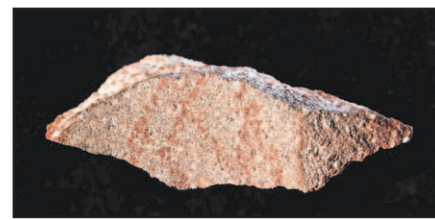

The strike comes as union-backed organizations have been putting pressure on McDonald's on several fronts for better working conditions, including \$15 an hour wages — at a burger chain that employs tens of thousands of people around the country, many of them at low pay.

Organizers said the strike would target multiple restaurants — but not every local McDonald's — in each of the 10 cities: Chicago; Durham, North Carolina; Kansas City, Missouri; Los Angeles; Miami; Milwaukee; New Orleans; Orlando, Florida; San Francisco and St. Louis.

They said they could not predict with precision how many workers would join the strike, but noted that hundreds of workers had participated in the committee meetings at which the strike was planned.

McDonald's, in an e-mail to The Associated Press, defended its anti-harassment efforts.

"We have policies, procedures and training in place that are specifically designed to prevent sexual harassment at our company and company-owned restaurants, and we firmly believe that our franchisees share this commitment," the company said.

AP PHOTO

This undated photo provided by Craig Foster in September 2018 shows a drawing made with ochre pigment on silcrete stone, found in the Blombos Cave east of Cape Town, South Africa.

#Ancient? Crisscrossed lines called world's oldest drawing

By MALCOLM RITTER
AP SCIENCE WRITER

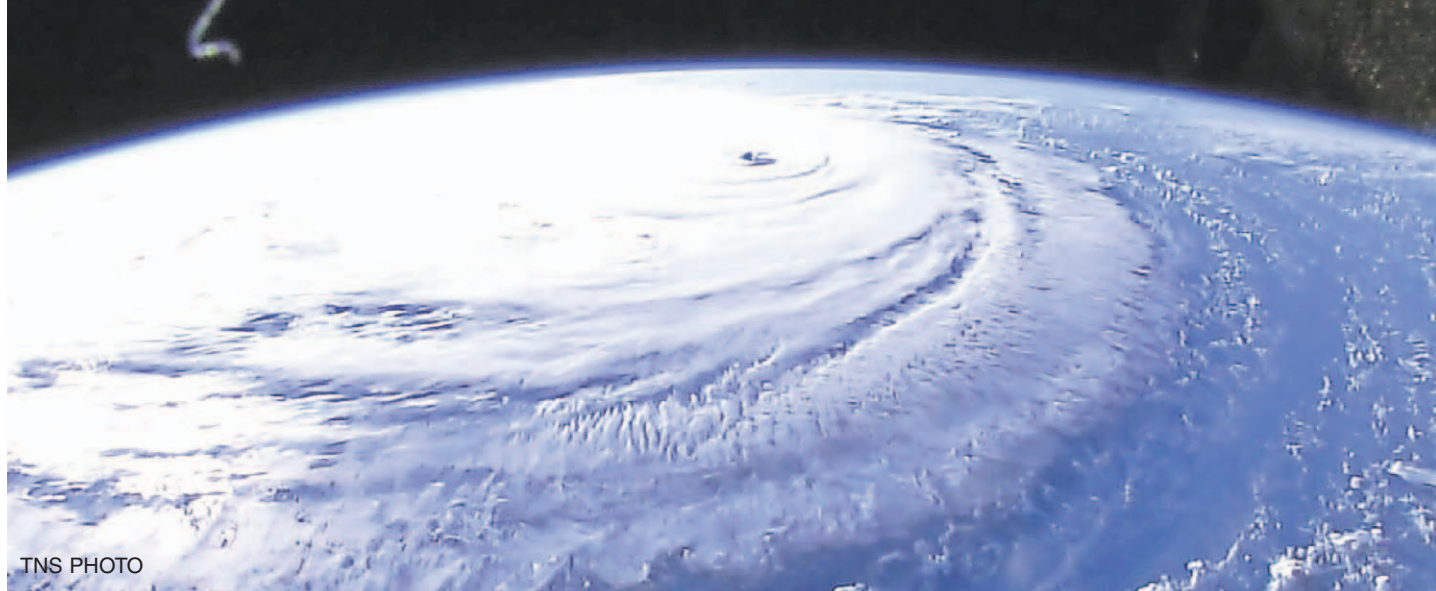

NEW YORK — It looks a bit like a hashtag, but it's 73,000 years old. And scientists say this tiny sketch found in a South African cave is the oldest known drawing.

It's not the earliest deliberate design; some abstract engravings are far older. But the drawing shows early humans in southern Africa could produce designs on various surfaces with different techniques.

The collection of crisscrossed lines was found in the Blombos Cave about 190 miles (300 kilometers) east of Cape Town. It is at least 30,000 years older than any other known drawing, researchers say in a report released Wednesday by the journal Nature.

'DISASTER IS AT THE DOORSTEP'

TNS PHOTO

Hurricane Florence's track sows fear; 10 million in crosshairs

By JENNY JARVIE
LOS ANGELES TIMES

CAROLINA BEACH, N.C. — "Y'all staying?"

Up and down the aisles of the Sea Merchants grocery store in the North Carolina seaside town of Carolina Beach, locals hustled to pick up last-minute supplies of Bud Light and batteries, dog food and Ritz crackers, honeybuns and boiled peanuts.

Ashley Parks, a tanned 33-year-old house cleaner in an aqua sundress, had been all set to leave her little yellow bungalow about a block from the beach — until her best friend, Jamie, called and asked if she and her pets could stay.

Parks made a snap decision: riding out the approaching Hurricane Florence might be easier than leaving with her three dogs and three cats in tow. They'd make it a party, she figured. Cook out on the grill.

But she admitted that on TV reports, the storm looked "kind of big and scary." Big and scary indeed. With what was shaping up as one of the most powerful storms in a generation due to make landfall Friday or early Saturday in the Carolinas, state and federal authorities

pleaded with residents to obey evacuation orders, secure homes and stock up on necessary supplies.

Florence is predicted to have devastating effects over a wide swath of territory, bringing howling winds and torrential downpours across an arc of southeastern states from Georgia to Virginia.

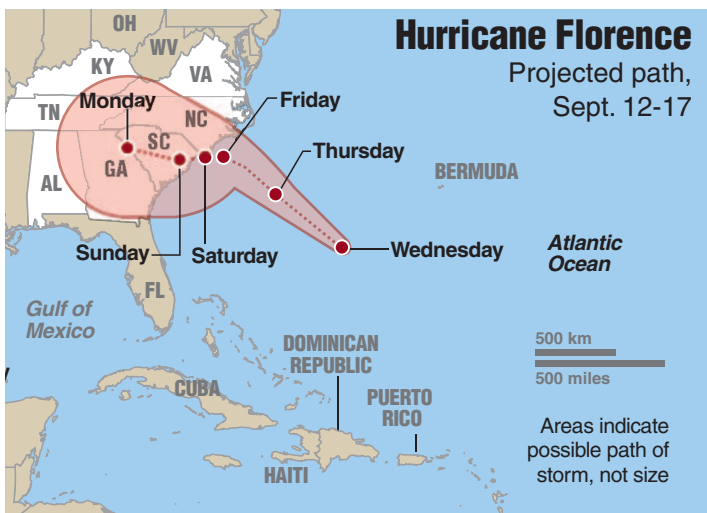

Carolina Beach lies on a sliver of barrier island a dozen miles south of Wilmington, nestled between the Atlantic and the Cape Fear River. The eastbound lane of Snow's Cut Bridge, the only point of entry to the island, was closing Wednesday evening at 8.

Once winds reach 45 mph, the entire bridge was to close. And authorities were sounding a stark warning: You'll be on your own.

From President Donald Trump on down, officials used drastic language to describe the storm's power. North Carolina's governor, Roy Cooper, implored coastal residents to flee while they still could.

"The time to prepare is almost over," he told a news conference Wednesday. "Disaster is at the doorstep."

In neighboring South Carolina, Gov. Henry

McMaster made a similar plea.

"The thing to do is get away from the storm — you gotta get away from what's coming," he said. "At some point, the rescuers will not be able to rescue you."

With train service and flights already curtailed, the exodus from a long stretch of coastline, extending through the Carolinas and into Virginia, clogged highways and filled motels and hotels further inland. Shoppers depleted store shelves of basics like bottled water, diapers and batteries, and motorists searched for available gas.

As the storm approached, the U.S. military sent ships out to sea and repositioned aircraft. Major military installations evacuated nonessential personnel and families, while also readying troops to assist as needed. North Carolina activated 2,800 members of its state National Guard.

Although the National Hurricane Center was warning of storm surges higher than many homes, some were simply trusting their luck.

"I'm praying for no surges; my house is just 4 feet off the

FLORENCE | 8

Moon rock hunter closes in on tracking down missing stones

SALT LAKE CITY (AP) — A strange thing happened after Neil Armstrong and the Apollo 11 crew returned from the moon with lunar rocks: Many of the mementos given to every U.S. state vanished. Now, after years of sleuthing, a former NASA investigator is closing in on his goal of locating the whereabouts of all 50.

In recent weeks, two of the rocks that disappeared after the 1969 mission were located in Louisiana and Utah, leaving only New York and Delaware with unaccounted-for souvenirs.

Attorney and moon rock hunter Joseph Gutheinz says it "blows his mind," that the rocks were not carefully chronicled and saved by some of the states that received them. But he is hopeful the last two can be located before the 50th anniversary of the Apollo 11 mission next summer.

"It's a tangible piece of history," he said. "Neil Armstrong's first mission ... was to reach down and grab some rocks

and dust in case they needed to make an emergency takeoff."

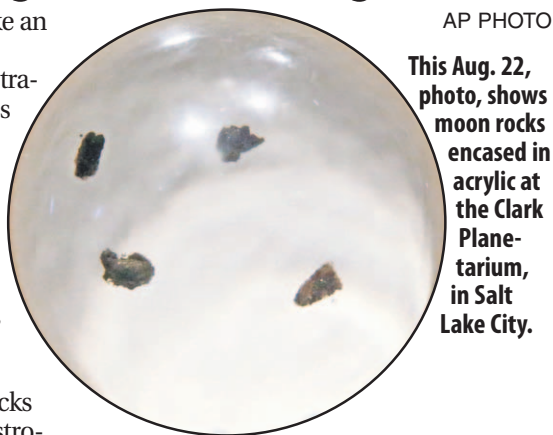

President Richard Nixon's administration presented the tiny lunar samples to all 50 states and 135 countries, but few were officially recorded and most disappeared, Gutheinz said.

Each state got a tiny sample encased in acrylic and mounted on a wooden plaque, along with the state flag. Some were placed in museums, while others went on display in state capitols.

But almost no state entered the rocks collected by Armstrong and fellow astronaut Buzz Aldrin into archival records, and Gutheinz said many lost track of them.

Of the Apollo 11 rocks given to other countries, about 70 percent remain unaccounted for, he said.

The U.S. government also sent out a second set of goodwill moon rocks to the states and other nations after the

AP PHOTO

This Aug. 22, photo, shows moon rocks encased in acrylic at the Clark Planetarium, in Salt Lake City.

Apollo 17 mission, and many of those are missing as well, he said.

NASA did not track their whereabouts after giving them to the Nixon administration for distribution, said chief historian Bill Barry, but added the space agency would be happy to see them located.

Florida uninsured rate increases, tops national average

By **CHRISTINE SEXTON**
NEWS SERVICE OF FLORIDA

TALLAHASSEE — More than 2.6 million people in Florida lacked health insurance at some point in 2017, according to data released Wednesday by the U.S. Census Bureau.

That means about 12.9 percent of the state's population last year was uninsured — up from 12.5 percent in 2016 — as Florida continued to be higher than the national average of 8.8 percent.

“Florida is going in the wrong direction, and Florida already had a high uninsured rate to begin with,” said Joan Alker,

executive director and research professor at the Center for Children and Families at the Georgetown University McCourt School of Public Policy.

Nationally, the data showed that about 1 in 4 uninsured people were 26 to 34 years old, and about 1 in 5 uninsured people were ages 34 to 44. Data also indicated that the uninsured tended to have lower incomes and were more likely to have high-school educations or less.

Florida had the fifth-highest rate of uninsured residents in the nation, with the higher states Texas (17.3 percent), Oklahoma (14.2 percent), Alaska

(13.7 percent) and Georgia (13.4 percent).

The release of the new numbers comes at a time when health care remains one of the top issues dividing Florida political leaders and as it has become a key issue during this year's elections.

Democrats have long called for expanding Medicaid eligibility under the federal Affordable Care Act to include uninsured childless adults with incomes at or below 138 percent of the federal poverty level. But the Republican-controlled Legislature has rejected the idea.

Before his 2014 re-election campaign, Republican

Gov. Rick Scott came out in favor of Medicaid expansion but later resumed his opposition to the idea. Scott is running for the U.S. Senate this year, trying to unseat longtime Democratic incumbent Bill Nelson.

Scott spokesman McKinley Lewis said the narrative that Medicaid expansion is a cure-all “just isn’t true” and that “19 states that expanded Medicaid have seen an increase in the number of uninsured.”

“Florida's Medicaid program is operating at an all-time high in efficiency and service to Florida families,” Lewis said. “The fact is, Gov. Scott has offered

significant proposals on how Washington can increase quality and access to health care.”

After President Donald Trump was elected, Scott called for Congress to repeal the federal health-care overhaul, which was pushed into law by former President Barack Obama and is commonly known as Obamacare. The effort ultimately failed, although Florida is now part of an ongoing lawsuit that could dismantle key portions of the law.

A closer look of the new data shows that in Florida, about 45 percent of people with insurance in 2017 obtained it through their

employers. Medicare, the government-run program for people 65 and older, and Medicaid, which covers the poor, elderly and disabled, account for 21.7 percent and 18.6 percent of the insured population respectively. Another 3 percent of Floridians with health insurance obtained it through the Veterans Administration, according to the data.

The remaining people obtained their insurance, according to the Census data, by directly purchasing policies. For many people, that meant buying policies on the federal health-care exchange, which was created through the Affordable Care Act.

NEWS FROM AROUND THE STATE

Record number of tourists heading to Florida

TALLAHASSEE, Fla. (AP) — Florida keeps setting records on the number of tourists headed to the Sunshine State.

Gov. Rick Scott announced Wednesday that an estimated 65.5 million tourists came to Florida during the first six months of the year. That's a 5.9 percent increase over the same time period in 2017.

State officials say that record increase was fueled by back-to-back record quarters during the first half of the year.

Most of those visiting Florida are coming from other states. The preliminary estimates report that 58 million people were domestic visitors, while 5.2 million came from overseas and 2.3 million came from Canada.

Car hits horse crossing highway

RUSKIN, Fla. (AP) — A vehicle hit a horse that had escaped from a farm near Tampa, causing a three-car crash and shutting down a highway for several hours.

Hillsborough County Sheriff's spokesman Danny Alvarez says two horses from Sun City Stables were crossing U.S. Highway 41 near Ruskin early Wednesday when a car struck and killed one

of the horses.

Alvarez says the horse was then hit by two other vehicles.

Man accused of stealing, reselling \$5.4M of postage stamps

JACKSONVILLE, Fla. (AP) — A Florida man is accused of using company checks from his employer to buy \$5.4 million worth of postage stamps that were then resold through another company.

The Florida Times-Union reported Monday that 64-year-old Duane Allen Sikes is indicted on charges of mail fraud and fund embezzlement. The indictment says Sikes worked in the mailroom at a Jacksonville credit union and carried out the scheme for more than 20 years.

It says the company provided weekly checks addressed to the “U.S. Postmaster” for Sikes to buy company postage. It says every other week Sikes instead bought stamps that were shipped to a New York-based stamp company that sold them at below market value. Sikes received stamp sale proceeds totaling \$3.6 million.

Motorcyclist crashes into school bus, dies

ST. PETERSBURG, Fla. (AP)

— Authorities say a motorcyclist has crashed into a Florida school

bus and died.

A Florida Highway Patrol report says 21-year-old Wanderley Rosales Echemen was riding his motorcycle Tuesday when the Pinellas County school bus made a left turn in front of him. It says the motorcycle crashed into the right side of bus, leaving Echemen dead at the scene.

It says no injuries were reported from bus riders.

Florida panther struck and killed by vehicle

NAPLES, Fla. (AP) — An endangered Florida panther has been struck and killed by a vehicle.

It's the 19th fatal collision this year, out of 21 total panther deaths.

The Florida Fish and Wildlife Conservation Commission says the remains of the 4-year-old female were collected Monday on a county road near Corkscrew Swamp Sanctuary in Collier County.

Inmate gets 8 years for bomb, anthrax threat to judge

PENSACOLA, Fla. (AP) — A Florida inmate has been sentenced to eight years in federal prison for threatening a judge who presided over his case.

Court records show 30-year-old Craig Pope was sentenced

Tuesday in Pensacola federal court. He pleaded guilty in June to mailing threatening communications and threatening use of a weapon of mass destruction.

Authorities say Pope was an inmate at the Santa Rosa Correctional Institution last spring when he sent two threatening letters to a Hillsborough County judge. The first letter said someone would die if Pope wasn't returned to court within 48 hours. The second letter contained a white powder and threatened that a bomb was set to go off. Testing determined the powder wasn't dangerous.

Pope also claimed a connection to the Islamic State terrorist group.

Teacher accused of recording students changing clothes

TAMPA, Fla. (AP) — Authorities in Florida have arrested a high school teacher who they say placed two camera phones in a changing room to secretly record female students undressing.

Hillsborough County Sheriff's spokeswoman Crystal Clark said in a news release that 49-year-old Bloomingdale Senior High School fashion design teacher Mark Ackett told deputies he put the cameras in a classroom where students were changing for a class assignment. He was

arrested Tuesday on one count of video voyeurism.

A 17-year-old student told investigators she was changing clothes when she noticed an electronic recording device. She says she immediately got dressed and reported the incident to school administrators. School officials began investigating and notified the sheriff's office.

Investigators say Ackett admitted he recorded students while they changed. A lawyer isn't listed on jail records.

Man gets traffic school for fatal crash

ISLAMORADA, Fla. (AP) — Investigators say a man accused of crashing into a rental car and killing four Spanish tourists won't be going to jail.

Instead officials in the Florida Keys have decided to send Carlos Manso Blanco to traffic school and suspend his driver's license for six months. Monroe County Assistant State Attorney Gail Connolly said on Tuesday that there wasn't enough evidence to show it was anything more than a tragic accident.

Investigators say blood alcohol tests show he was not under the influence of drugs or alcohol when the crash occurred on March 5. Also, there was no evidence that he was either texting while driving or swerving.

NEWS FROM AROUND THE WORLD

Notorious Russian cybercriminal pleads guilty to US charges

WASHINGTON (AP) — A Russian man considered to be one of the world's most notorious hackers pleaded guilty Wednesday to U.S. charges alleging he operated a network of devices used to steal computer credentials, distribute spam emails and install malicious software.

Peter Levashov, 36, pleaded guilty to conspiracy, wire fraud, identity theft and other charges during an appearance in federal court in Hartford, Connecticut.

Investigators linked Levashov, who also went by the names Pyotr Levashov and Peter Severa, to a series of powerful botnets, or networks hijacked computers capable of pumping out billions of spam emails.

Federal officials said Levashov had controlled the botnets — including one that infected at least 50,000 computers — to harvest email address, logins and passwords from infected computers and also distributed malware and other malicious software.

Prosecutors said Levashov had also moderated online forums used to sell and trade stolen identities and credit card numbers.

US warns Moscow over looming attack in Syrian city of Idlib

WASHINGTON (AP) — The Pentagon says Russia will bear responsibility for the resulting humanitarian crisis in Syria if the Moscow-backed Syrian military attacks the northern city of Idlib.

Eric Pahon, a Pentagon spokesman, says the U.S. and its allies are concerned about the deadly consequences if Syrian President Bashar Assad, with support from Russia and Iran, launches an offensive against Idlib, the last

major rebel stronghold in Syria. Government forces have been massing troops near the city, and Russia and Syria have launched airstrikes on Idlib for weeks.

Pahon says the U.S. questions the continued presence of more than a dozen Russian warships in the Mediterranean Sea near Syria.

Turkey has called for a ceasefire, but Russia and Iran rejected the plan.

Putin: Suspects in Britain poisoning are innocent civilians

MOSCOW (AP) — President Vladimir Putin said Wednesday that Russian authorities know the identities of the two men accused by Britain of carrying out a nerve agent attack on a former spy, but he added that they are civilians and there is “nothing criminal” about them.

The statement by Putin marked an abrupt shift from Russia's earlier position on the poisoning case that has damaged relations between Moscow and the West. Initially, Russian officials said they had no idea who the men were and questioned the authenticity of some of security-camera photos and video released by Scotland Yard showing them in London and Salisbury, where the poisoning took place.

Britain last week charged two men in absentia, identifying them as Alexander Petrov and Ruslan Boshirrov. Authorities alleged they were agents of Russia's military intelligence agency known as the GRU and accused them of poisoning former Russian spy Sergei Skripal and his daughter, Yulia, in Salisbury on March 4.

Britain blamed the Russian government for the attack, an allegation that Moscow has vehemently denied.

Putin on Wednesday insisted the men were innocent.

“We know who these people

are, we have found them,” Putin said in response to question at panel for an economic conference in Vladivostok in Russia's Far East. “There is nothing special or criminal about it, I can assure you.”

Philippines braces for powerful typhoon

MANILA, Philippines (AP) — The most powerful typhoon to threaten the Philippines this year roared toward the country's north on Wednesday, prompting officials to order precautionary evacuations and closures of schools and offices, and farmers to quickly harvest their crops to reduce damage.

Forecasters said Typhoon Mangkhut could hit northern Cagayan province on Saturday. It was 738 miles away in the Pacific with sustained winds of 127 miles per hour.

Its sustained winds could strengthen to 136 mph, or just below the super typhoon category, before making landfall, forecaster Meno Mendoza said.

With a massive rain band 560 miles wide, combined with seasonal monsoon rains, the storm could bring “heavy to intense” rains that could set off landslides and flash floods, Mendoza said.

After leaving the Philippines, the fast-moving storm is expected to blow toward southern China on Sunday if it maintains its course, forecasters said.

EU to give internet firms 1 hour to remove extremist content

BRUSSELS (AP) — European authorities are planning to slap internet companies like Google, Twitter and Facebook with big fines if they don't take down extremist content within one hour.

European Commission President Jean-Claude Juncker

AP PHOTO

In this Sept. 11, photo police inspect the remains of a passenger van along a ravine in Balbalan town in Kalinga province, northern Philippines. Philippine police say at least 14 people have died when the brakes of an overloaded passenger van failed while cruising a winding road, sending it down a ravine in a northern mountain province.

said in a speech Wednesday that the Commission is proposing the new rules as part of efforts to step up the bloc's security.

The EU's executive body said “propaganda that prepares, incites or glorifies acts of terrorism” must be taken offline. Content would be flagged up by national authorities, who would issue removal orders to the internet companies hosting it. Those companies would be given one hour to delete it.

Philippine passenger van falls off cliff

LA TRINIDAD, Philippines (AP) — At least 14 people, mostly elderly villagers, died when the brakes of an overloaded passenger van failed while traveling on a winding road, sending it down a ravine in a mountain province in the northern Philippines, police said Wednesday.

Twenty-four other passengers, including the driver, were injured in the accident Tuesday afternoon in Balbalan town in Kalinga province, said Police Chief Superintendent Rolando Nana. Most of the dead were retired villagers in their 60s and 70s returning home after collecting their government pension from a bank.

Thirteen passengers were pinned to death while another died on the way to a hospital after being retrieved from the 262-foot-deep ravine, police said.

Report: 3,677 sex abuse cases in German Catholic Church

BERLIN (AP) — A report on sexual abuse inside the Catholic Church in Germany says 3,677 people were abused by clergy between 1946 and 2014, two leading German media outlets said Wednesday.

Spiegel Online and Die Zeit said the report they obtained — commissioned by the German Bishops Conference and researched by three universities — concludes that more than half of the victims were 13 or younger and most were boys. Every sixth case involved rape and at least 1,670 clergy were involved, both weeklies reported. Die Zeit wrote that 969 abuse victims were altar boys.

The report also says that the actual number of victims was likely much higher, according to the research by experts from the Universities of Giessen, Heidelberg and Mannheim.

Planned Parenthood picks Chinese-born doctor as new leader

By DAVID CRARY
AP NATIONAL WRITER

NEW YORK (AP) — A Chinese immigrant who fled her native country when she was 8 was named Wednesday as Planned Parenthood's new president, the first doctor to hold the post in five decades.

Dr. Leana Wen will assume the role Nov. 12, six days after midterm elections in which Planned Parenthood's political wing plans to spend \$20 million on behalf of candidates who support abortion rights.

Wen, who has been Baltimore's health commissioner since 2015, will be Planned Parenthood's sixth president over a century of work providing millions of Americans with birth control, sex education and medical screenings.

The organization also is the largest provider of abortions in the U.S., making it a perennial target for anti-abortion activists. In recent years, its foes have been striving — thus far unsuccessfully — to halt the flow of federal funds that help Planned Parenthood provide some of its non-abortion services.

Wen succeeds Cecile Richards, who had been president since 2006 before resigning earlier this year.

Under Richards' leadership, Planned Parenthood has been at odds with congressional Republicans and President Donald Trump on numerous fronts, most recently joining the intense opposition to Trump's Supreme Court nominee, Brett Kavanaugh. Abortion-rights advocates fear that

AP FILE PHOTO

In this Aug. 14, 2012 photo, Dr. Leana Wen stands in the emergency department at Brigham and Women's Hospital in Boston, during her medical residency.

Kavanaugh will tilt the high court to the right, possibly opening the way for rulings that would reverse or weaken the 1973 Roe v. Wade decision that established a nationwide right for women to have abortions.

Wen and her family fled

from China just before her 8th birthday, were granted political asylum in the U.S. and became U.S. citizens in 2003.

Wen graduated summa cum laude from California State University, Los Angeles and earned her medical

degree from Washington University School of Medicine before becoming a Rhodes Scholar.

Early in her tenure as Baltimore's health commissioner, she provided strong leadership as the city was wracked by violent protests related to disputed police actions. She expanded trauma and mental health services, and secured funding for a program designed to treat gun violence as a contagious disease.

Wen said she was proud of her accomplishments in Baltimore — including reducing infant mortality to record lows and providing eyeglasses for all children who needed them. But she said she could not resist the new job offer.

"For more than 100 years, no organization has done more for women's

health than Planned Parenthood," Wen said. "As a doctor, I will ensure we continue to provide high-quality health care, including the full range of reproductive care and will fight with everything I have to protect the access of millions of patients who rely on Planned Parenthood."

Rep. Elijah Cummings, a Democratic congressman from Baltimore, praised the appointment, saying of Wen, "When it comes to protecting her patients, she doesn't back down from a fight."

With Wen's encouragement, Baltimore sued the Trump administration for cutting funds for teen pregnancy prevention. A federal judge subsequently ordered the restoration of \$5 million in grant funding to two Baltimore-based prevention programs.

This X-ray shows a meat skewer impaled in the skull of Xavier Cunningham after an accident at his home.

Boy survives after meat skewer pierces skull

HARRISONVILLE, Mo. (AP) — A 10-year-old Missouri boy is recovering after he was attacked by insects and tumbled from a tree, landing on a meat skewer that penetrated his skull from his face to the back of his head.

But miraculously, that's where Xavier Cunningham's bad luck ended. The skewer had completely missed Xavier's eye, brain, spinal cord and major blood vessels, The Kansas City Star reports.

Xavier's harrowing experience began Saturday afternoon when yellow jackets attacked him in a tree house at his home in Harrisonville. He fell to the ground and started to scream. His skull was pierced from front-to-back with half a foot of skewer still sticking out of his face.

Miller tried to reassure her son, who told her "I'm dying, Mom" as they rushed to the hospital. He eventually was transferred to the University of Kansas Hospital, where endovascular neurosurgery director Koji Ebersole evaluated the wound.

"You couldn't draw it up any better," Ebersole said. "It was one in a million for it to pass 5 or 6 inches through the front of the face to the back and not have hit these things."

There was no active bleeding, allowing the hospital time to get personnel in place for a removal surgery on Sunday morning that was complicated by the fact that the skewer wasn't round. Because it was square, with sharp edges, it would have to come out perfectly straight. Twisting it could cause additional severe injury.

"Miraculous" would be an appropriate word to describe what happened, Ebersole said.

7 escape from Louisiana jail, 3 caught

TALLULAH, La. (AP) — Seven inmates escaped from a jail in northeastern Louisiana, and three were caught quickly.

Louisiana State Police says its officers were helping local deputies to search for the other four got

out of the Madison Parish Correctional Center on Wednesday.

Those remaining at large are 24-year-old Joshua Lewis, 23-year-old Earl Hollins, 35-year-old Devario R. Turner and 24-year-old Leedarius Rogers.

N.M. sues mobile app makers over privacy concerns

ALBUQUERQUE, N.M. (AP) — New Mexico is suing Google, Twitter and several companies that develop and market mobile gaming apps for children, saying the apps violate state law by collecting personal information that could compromise privacy.

The lawsuit filed in federal court late Tuesday comes as data-sharing concerns persist among users and as social media giant Facebook just weeks ago pulled one of its own apps over possible privacy intrusions.

Google recently acknowledged that it tracks users who disable location history after an Associated Press investigation revealed that several Google apps and websites store user location even if users have turned off location history.

Heavy rains hit Maui as Olivia approaches Hawaii

HONOLULU (AP) — Maui was hit with heavy rain and powerful winds Wednesday as a gradually weakening tropical storm neared Hawaii, with forecasters predicting Tropical Storm Olivia could dump 5 to 10 inches of rain. Some places could get as much as 15 inches.

The downpours started before dawn on Maui and the northern part of the Big Island, said National Weather Service meteorologist Melissa Dye. No rainfall totals were yet available.

Maui Mayor Alan Arakawa urged residents to store drinking water and warned that they should plan for power outages, landslides, high surf, fallen trees and flooded roads.

The Central Pacific Hurricane Center said Olivia was about 25 miles east of Kahului on the island of Maui and packing 45 mph winds Wednesday morning. It was about 115 miles east of the state's capital city of Honolulu on Oahu.

The storm, which was a hurricane earlier in the week, has been slowly losing power as it nears the state.

FBI arrests Puerto Rico senator facing corruption charges

SAN JUAN, Puerto Rico (AP) — The FBI on

Wednesday arrested a Puerto Rico senator accused of defrauding his employees while serving as mayor of a small town in the island's southwest region.

Abel Nazario, who also is the vice president of the governor's New Progressive Party, faces charges including wire fraud and falsifying documents.

Authorities say that while he was mayor of Yauco, employees were required to work two voluntary hours a day. The Department of Labor identified this as a violation, and Nazario agreed to pay nearly \$590,000 in back wages to 177 employees.

However, authorities said they later learned that the municipality was withholding employees' wages, despite Nazario's pledge that he would not retaliate against workers.

AP FILE PHOTO

In this Sept. 12, 2017, photo, "60 Minutes" Executive Producer Jeff Fager poses in New York.

'60 Minutes' chief Fager out at CBS

NEW YORK (AP) — CBS News on Wednesday fired "60 Minutes" top executive Jeff Fager, who has been under investigation following reports that he groped women at parties and tolerated an abusive workplace.

The network news president, David Rhodes, said Fager's firing was "not directly related" to the allegations against him, but came because he violated company policy. Fager said it was because of a text message he sent to a CBS News reporter who was covering the story about him.

"My language was harsh and, despite the fact that journalists receive harsh demands for fairness all the time, CBS did not like it," Fager said.

He said he didn't think that one note would have resulted in a dismissal after 36 years at the network, "but it did." CBS had no immediate comment on his characterization.

The investigation into Fager by an outside law firm is not complete. Fager has denied charges made by former CBS employees in the New Yorker magazine of personal misbehavior at parties and not disciplining people under him who had

misconduct issues.

Some women have described the "60 Minutes" culture as a boy's club that's rough on women. "I really felt like this was one of the most sexist places I've ever worked," Sarah Johansen, who worked as an intern in the 1980s and alleged Fager groped her, told the New Yorker.

Muslim woman says TSA subjected her to inappropriate search

BOSTON (AP) — A Muslim woman has filed a complaint against the Transportation Security Administration alleging that a search she was subjected to at Boston's airport "bordered on sexual assault."

The complaint was filed with the TSA on Wednesday by the Massachusetts chapter of the Council on American-Islamic Relations.

The complaint says the 54-year-old woman who wears a traditional Muslim headscarf was told by a TSA employee at Logan International Airport in May that she needed to be patted down. The complaint says the female agent put a wand up her dress and shoved her hand or wand so high up her dress that it made contact with her body.

NYPD officers arrested in prostitution probe

NEW YORK (AP) — Seven members of the New York Police Department have been arrested in connection with a yearslong gambling and prostitution investigation.

Police say the probe was initiated by the Internal Affairs Bureau in 2015 following a tip from a fellow officer.

Dozens of civilians were also arrested in the case, which is being prosecuted by the Queens District Attorney's Office.

2 sentenced in ATV crash that killed softball player

ALTOONA, Pa. (AP) — Two men have been sentenced in an all-terrain vehicle crash that killed a Pennsylvania high school standout softball player last year.

The (Altoona) Mirror reports that 24-year-old Trenton Bilak was sentenced Tuesday to 8½ to 17 years on vehicular homicide and other counts.

Nineteen-year-old Jacob Helsel was sentenced to four to eight years on convictions of evidence tampering and accidents involving death or personal injury.

Both reached plea agreements with Blair County prosecutors in the April 2017 crash in Greenfield Township that killed 18-year-old Mikayla Focht.

She was a passenger on an ATV driven by Bilak that struck several deer, and another vehicle driven by Helsel ran over her.

Authorities say the men left the scene and never called for help. Focht was found later by a passing motorist.

3,000 NYC marijuana cases get tossed

NEW YORK (AP) — Over 3,000 low-level marijuana cases were thrown out Wednesday as Manhattan's top prosecutor furthered a shift away from arresting and prosecuting many people for small-time pot offenses in the nation's biggest city.

Misdemeanor and violation-level pot possession cases that had sat open for as long as 40 years were dismissed in a matter of minutes after Manhattan District Attorney Cyrus R. Vance Jr. asked a court to scrap 3,042 warrants for people who missed court dates and to toss out the cases themselves. He recently decided to stop prosecuting many minor pot possession cases and argued it made sense to spare people potential arrests in old ones.

"If anyone was brought in today on one of these warrants, my office would dismiss the case," the Democrat said. He called the mass dismissal "something that is off-script but actually serves the interests of justice enormously."

Ex-cop sentenced to 43 years for sexual assaults

DAYTON, Ohio (AP) — A former Ohio police officer has been sentenced to 43 years in prison for sexually assaulting four women while in uniform.

The Dayton Daily News reports the sentence handed down Wednesday in Dayton to 33-year-old Justin Sanderson, of Huber Heights, provides his first parole opportunity in 33 years.

Sanderson was a police officer in the tiny Montgomery County village of Phillipsburg. He was found guilty by a judge in August of rape, kidnapping and other charges.

Teen charged in suffocation deaths of his 2 siblings

VERSAILLES, Ind. (AP) — Prosecutors have charged a 14-year-old Indiana boy in the suffocation deaths

of his two young siblings last year, alleging in court documents that he told investigators he did it so they wouldn't "have to live in the hell he did."

Ripley County Prosecutor Richard Hertel said Wednesday the teen was arrested last week on juvenile charges of murder in the May 2017 killing of his 23-month-old half-sister, Desiree McCartney, and the killing two months later of his 11-month-old stepbrother, Nathaniel Ritz, at their home in Osgood, about 60 miles southeast of Indianapolis.

The teen was advised of the charges he faces at a Monday court hearing. Hertel says the judge said he'd rule on the teen's competency before deciding if he'll be tried as an adult.

Family arrivals surge at US-Mexico border in August

SAN DIEGO (AP) — A surge in people coming to the U.S. illegally as families has contributed to an increase of illegal crossings from Mexico.

The number of family arrivals reached nearly 16,000 in August, a sharp increase from July. Customs and Border Protection Commissioner Kevin McAleenan says the figure was one of the highest on record. Families accounted for about one-third of all the people stopped at the border.

Overall, people arrested or stopped at the border totaled nearly 47,000 in August, up 17 percent from July and up 52 percent from August 2017.

Judge refuses to release congressional candidate from jail

DALTON, Ga. (AP) — A judge in Georgia has refused to release a congressional candidate from jail while he appeals a drunken driving conviction.

The Dalton Daily Citizen reported that Whitfield County Superior Court Judge Cindy Morris on Tuesday refused to release Steve Foster on bond during an appeal.

Morris sentenced Foster last month to six months in jail and six months of probation for the conviction.

The judge said Foster could be a flight risk, given his history of humanitarian work in Central America.

Foster is the Democratic candidate for the 14th Congressional seat currently held by Republican Rep. Tom Graves of Ranger.

Because the conviction is a misdemeanor, Foster remains on the ballot. He has said he will not drop out of the race.

HOROSCOPE

ARIES (March 21-April 19). What happens in the world will influence you; however, it won't control you unless you let it. Maintaining power over your experience will require creativity and determination to see it your way, not their way.
TAURUS (April 20-May 20). There are good things about every state of being, even the ones you don't prefer. "It could be worse" isn't as powerful an approach as actually seeing what's good about it.
GEMINI (May 21-June 21). Sometimes you feel like you're a figment of your own imagination. You have, after all, taken an active part in creating this personality of yours. Today, you'll imagine a slightly different version to grow toward.
CANCER (June 22-July 22). The same lake is defined as "joyous," "ominous" "raging" and "quiet." It is not a wonder that a lake can be all of those things, so it should come as no surprise that people are as capable or more of such mood shifts.
LEO (July 23-Aug. 22). An exchange of energy, ideas and feelings makes this day run on an exhilarating mood that will

benefit and strengthen each individual, group and, indeed, the spirit of goodness at large.
VIRGO (Aug. 23-Sept. 22). There will be a focus on your potential as surmised by yourself and others, none of whom are qualified to make a guess, let alone a decision about it. And that includes you. So, to see what you can do, you'll have to just do it.
LIBRA (Sept. 23-Oct. 23). Part of you aspires to new heights of spiritual achievement and self-discovery. Another part of you wants to sit on the couch and watch a reality show. Consider that the two may not be mutually exclusive.
SCORPIO (Oct. 24-Nov. 21). The wolves circle. Matters of integrity and ethics are ignored by greedy people. You'll be in a position to heroically interrupt this. You may begin alone, but you won't end alone. You have allies.
SAGITTARIUS (Nov. 22-Dec. 21). Some days don't require you to think too far into the problem, and in fact you're better off for approaching without too much mental gusto. But today isn't one of those days. You'll need to be sharp. Prepare for that.

CAPRICORN (Dec. 22-Jan. 19). It is very rare that one gets to be the person of the hour, toasted and lauded. But what's not so rare, at least not for you, is to be quietly admired and respected behind your back. That's today's dynamic.
AQUARIUS (Jan. 20-Feb. 18). Solitude will fortify your spirit, clarify your mind and be a lot more fun than hanging around with the usual suspects. You need this. You'll be your own best company.
PISCES (Feb. 19-March 20). The concept of "potential" can be tricky in general, and today it may be a source of frustration. Forget about potential. What's happening now? Acknowledge and accept that.
TODAY'S BIRTHDAY (Sept. 13). All these years on the planet and you really have little idea of all you can do with this magnificent set of inner and outer powers and abilities you've been given. Optimism, mischief, play, experimentation, boldness... all qualities that will be employed during this solar return to surprising and often very pleasing results. Leo and Aries adore you. Your lucky numbers are: 40, 12, 33, 28 and 17.

The bidding:
 SOUTH WEST NORTH EAST
 INT 2♦* 4♦** Dbl
 4♥ All pass
 **Two-suited hand with one major and one minor
 **Texas Transfer to hearts

Opening lead: ?

Today's deal is from a recent match between a team from Sweden and a team from The Netherlands. At the other table, where four hearts was played by North, the contract made routinely after a club lead.

expected South to hold the king of spades for his one no trump opening. He wanted to get his partner on lead and get a spade led through declarer. East had doubled the four-diamond bid so Upmark decided to play East for the king of diamonds. He underled his ace of diamonds on opening lead! East covered dummy's queen with his king and was surprised to win the trick. East wasted no time shifting to the eight of spades. South's jack lost to West's queen and Upmark, with nothing better to do, continued with another spade. South ruffed in dummy, led a heart to his ace, and another heart toward the dummy. Upmark won with his king and persevered with a third round of spades. This assured East of a trump trick and the contract was defeated. A lovely defense!

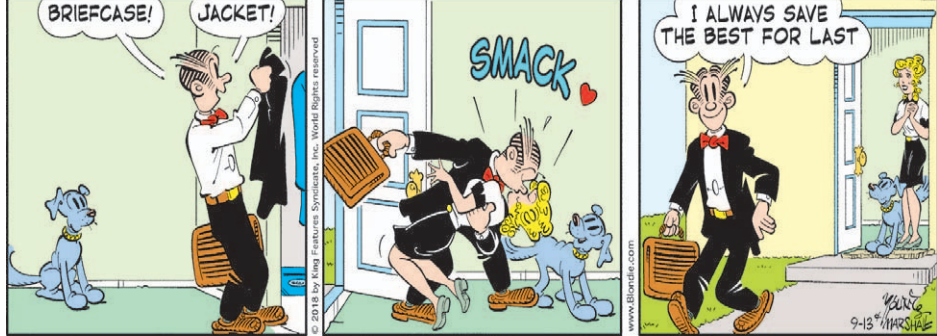

It was good for Upmark that dummy had the singleton queen of diamonds. Had South been able to play low from a doubleton queen in dummy, East might well have played the nine rather than the king and there would have been a different story to tell.

Gronk 'ready for anything' after Ramsey's comments

Jalen Ramsey sent ripples across the league last month when he was asked by "ESPN The Magazine" for his opinion of Patriots tight end Rob Gronkowski and said: "I don't think Gronk is as great as people think he is."

FOOTBALL: NFL

Ravens-Bengals could be significant in AFC North

By **BARRY WILNER**
AP PRO FOOTBALL WRITER

Considering what happened in the rain at Cleveland last Sunday, the rugged AFC North looks like it will be wide open.

So Thursday night's visit to Cincinnati by Baltimore takes on an extra bit of importance, even in mid-September, after the division-favorite Steelers stumbled and tumbled to a 21-21 tie against the Browns.

The Ravens were all over Buffalo from the start as Joe Flacco recaptured some of that 2012 championship form and

the defense destroyed the Bills. The Bengals fell in a big hole at Indianapolis and showed far more gumption than usual by climbing out of it to win.

Two teams many projected as also-rans for 2018 delivered some impressive opening performances.

"That game is behind us," Ravens safety Tony Jefferson says. "Although it's great to have momentum, it's over with. It's a new week. This is a division opponent; they know us very well and we know them very well."

Perhaps. But these Bengals

seem to have a resilience not seen often in recent seasons, though Cincinnati did show such moxie in the previous meeting with Baltimore.

The Ravens ended the season hosting the Bengals and fell 31-27 on Andy Dalton's 49-yard touchdown pass to Tyler Boyd with 44 seconds left. That eliminated Baltimore from the playoffs and sent Buffalo into the postseason.

The Ravens, ranked No. 9 in the AP Pro32, and No. 16 Bengals are pick-em at Paul Brown Stadium. It's hard to fathom that Pro Picks is

predicting Cincinnati will start the season 2-0. But that's where we'll go.

BENGALS, 21-20 KNOCKOUT POOL

We warned everyone last week that we aren't very saintly in these things, and New Orleans' flop proved that. We're obligated to keep trying and will go with the LA RAMS.

No. 28 Oakland (plus 6) at No. 14 Denver

Not exactly Orange Crush defense, but Broncos will put Mile High hit on Jon Gruden's Raiders.

BEST BET: BRONCOS, 23-13

No. 3 Minnesota (plus 1) at No. 6 Green Bay
No miracle finishes for A-Rod and Pack this time, though this isn't much of an ...

UPSET SPECIAL: VIKINGS, 27-20

No. 1 New England (minus 2) at No. 5 Jacksonville
AFC championship game rematch — and perhaps har-binger for January. No revenge for Jaguars.

PATRIOTS, 27-16
No. 7 Kansas City (plus 5 1-2) at No. 11 Pittsburgh

PREP: Volleyball

Manta Rays hold off ODA

By **CHUCK BALLARO**
SUN CORRESPONDENT

ENGLEWOOD – Before the Lemon Bay High School volleyball team took to the floor Wednesday, each player paid tribute to the teacher who's had the most impact on their lives.

But it was Out-of-Door Academy of Sarasota that taught the Manta Rays a valuable lesson in what could happen if you relax against an opponent.

Lesson learned. Lemon Bay shook off the setback in time to down the pesky Thunder 3-1 (25-11, 25-16, 18-25, 25-20) in a non-district match, the second of three-straight home games in three nights.

Hannah Krzysiak and Caroline Hill each had double-doubles for the Manta Rays as they overcame an amazing night from Shelby Fulton, who had 13 blocks for ODA.

"We were up against some really big blockers and we did really well covering against that.," Hill said, who

had 16 digs and 13 kills. "We've struggled closing out matches, but we've learned to overcome that. We regrouped after the third game, learned from our mistakes and took it from there."

After cruising past Cape Coral on Tuesday, it seemed as if the Manta Rays (5-3) were going to have another easy night against the young Thunder squad as they put together a 13-1 run in the first set for an easy win.

Lemon Bay led wire-to-wire in the second set, with Amanda Beaudoin serving up an 8-0 run to break things open and give the Manta Rays a 2-0 lead.

However, ODA (5-2) didn't quit as it changed its tactics and dominated the third game with the help of Sophie Fedder's serve to get back in the match, and hung for much of the fourth set, as Fulton continually stuffed potential kills back in Lemon Bay's faces before they finally put the match to bed.

RAYS | 7

Abigail Turner spikes the ball over the net to win the point for her Lady Mantas against Out of Door Academy on Wednesday.

Caroline Hill uses a nice touch shot at the net to place the winning point for the Lady Mantas.

Syracuse's Dino Babers: FSU offense 'ready to explode on somebody'

By **MATTHEW BAKER**
TAMPA BAY TIMES

Even though Florida State has struggled in the first two games of the Willie Taggart era, Syracuse coach Dino Babers is concerned about what he'll be facing Saturday.

"Obviously Willie is known for his offense," Babers said Wednesday on the ACC coaches' teleconference. "His offenses have always been good, and he's got outstanding personnel to work with at Florida State. I think these guys are ready to explode on

somebody, and I hope it's not us."

FSU's offense hasn't seemed explosive yet. The Seminoles are averaging 5.42 yards per play (No. 92 nationally) and only scored three points against Virginia Tech in Week 1.

Still, Taggart is optimistic that the offensive fireworks he was known for at USF could be coming soon.

"We are close," Taggart said. "We show signs of what we can be on the offensive side of the ball. We just haven't done it consistently enough..."

Tarpons look to get back on track vs. Bulldogs

By **BEN BAUGH**
STAFF WRITER

The Charlotte Tarpons have moved on from last week's 49-13 loss to Venice.

No matter whether it's a win or a loss the previous week, the Tarpons objective is always directed toward the following Friday, their goal to defeat their next opponent, and the Tarpons (2-1) are set to take on the Ida Baker Bulldogs (1-2) in a 6A-district 10 contest at 7:30 p.m. at Wallace Keller Stadium.

The Tarpons are looking to return to the win column, after authoritative victories against Dunbar 37-10 and Gibbs 28-0.

Ida Baker won their opener against non-conference Lakewood Ranch 21-14, but has dropped their past two games to North Port 14-7 and Estero 23-13.

This week's favorable weather has provided a

SUN PHOTO BY CHRIS BLAKE

The Tarpons are looking to return to the win column Friday night against Ida Baker.

tangible that can make a marked difference for the Tarpons as they've been able to conduct outdoor practices, something that's been limited the past three weeks because of the inclement weather. The offense should be sharp having had the opportunity to practice this week on a wide open field.

"Venice is a good football team," said

Binky Waldrop, Charlotte coach. "We had a few chances in the first half to stay in the game, and we didn't. And they put us away, which is what good football teams do. We're looking forward to going out Friday night against Ida Baker and putting our best foot forward. We're looking forward to the district games that we have coming ahead."

Mantas relish chance to restart season on Friday

By **Vinnie Portell**
SPORTS EDITOR

The Lemon Bay football team finds itself 0-2 through the first two games of the 2018 season, but that slow start can be reset this Friday night.

The Manta Rays goal since summer workouts has been to win a 5A District-11 championship, and they open this year's district play when DeSoto County comes to town on Friday night.

SUN FILE PHOTOS

The Lemon Bay defense was stout on Friday night at Port Charlotte, forcing several turnovers including this fumble recovered by Keegan Marinola.

"We've played two 6A football teams in a row that I would be shocked if they're not both in the playoffs at the end of the year," Southwell said of Golden Gate and Port Charlotte. "So the way I laid it out to the guys is that we certainly had our chances in those two games and we didn't get it done."

"Those are two learning experiences against two good football teams. Now we start our district. The way we're viewing things is that our season starts on Friday night."

One factor in Lemon Bay's early season losses has been the general lack of depth on the Mantas roster. Injuries have whittled the roster down to just 28 players for Lemon Bay, barely enough athletes to play both sides of the ball.

With players walking around practice with knee braces, arm slings and taped up feet, Lemon Bay's weekday practices have begun to resemble a hospital ward.

Along with losing kicker John Moore for the season after he blew out his knee warming up in Week 1, there were also several lineman who are battling a variety of bumps and bruises, Southwell said.

"It's tough. But we have a decision to make," he said on his team's injuries and low numbers. "We can see that reality and turn away from it, or we can just charge hell with a water pistol, and that's what we're trying to do."

The Mantas led Golden Gate 16-14 at halftime in Week 1 before succumbing to cramping and fatigue, and much of the same happened to Lemon Bay in Week 2 at Port Charlotte. Playing with even less kids than in Week 1, Lemon Bay trailed the Pirates 14-6 at halftime before falling out of contention once again.

Going forward, the Mantas coaching staff has placed a heavy emphasis on conditioning in an effort to curb the effects of their players' fatigue.

receiver Weston Wolff in the spring when the brothers transferred to Venice, and DeSoto also has a much different look on offense, according to Southwell.

"They're a lot better. They won 43-0 on Friday night, so we're going to have to play really well," Southwell said of DeSoto. "I think what they do offensively is just a little bit better of a fit for their players. I think they're taking better advantage of their athletes than they have in the past."

The Bulldogs (1-1) were dealt a 27-13 loss to Avon Park in Week 1 before responding with a 43-0 domination of Mulberry on Friday night. Last season, the Bulldogs finished 4-6 with wins over Lake Placid, North Port and Lakewood Ranch as well as a forfeit win over Southeast.

Though Lemon Bay will have to face the challenges of having a small roster once again on Friday night, the reward for a win would be the new life to the Mantas season.

Colby McCauley, one of the Mantas running backs, tries to find an opening in the Port Charlotte defense.

"Even after a tough loss to PC or Golden Gate, or even Bishop Verot, those were all games where we could have easily come out with the 'W,'" Roberson said. "I tell them boys, 'We still have the rest of our senior year, and for the underclassmen, they have a couple more years. So, just be optimistic.' After our first game, I said we can still go 9-1. After last week, we can still go 8-2. Hopefully that's the last time I'll have to say that."

■ PREP SWIMMING

Port Charlotte wins in second swim meet of the season

By **JACOB HOAG**
STAFF WRITER

There are a variety of ways to motivate swimmers. Between the splashing water and gasps of air, constant yelling fills their ears.

Port Charlotte swim coach J.R. Whaley doesn't think his team listens to his yelling during meets, but that doesn't stop him voicing whatever cheer or jeer he thinks will help.

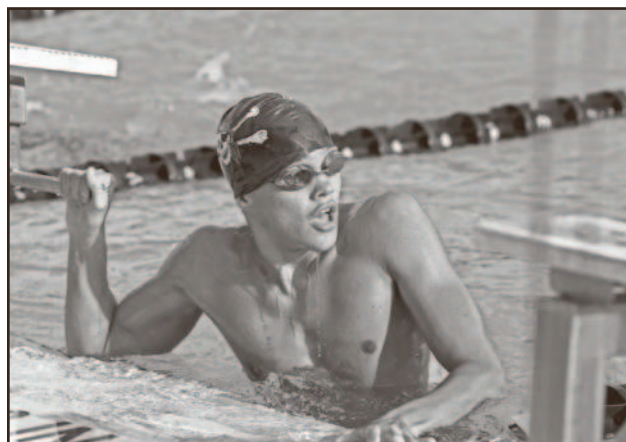

"I don't think they listen to me at all," Whaley joked. "But their teammates, especially with our numbers this year, absolutely. When they're yelling and screaming they feed off that, especially in a hard race. You hear that crowd, it motivates you."

Boasting strong numbers as usual, both Port Charlotte swim teams won handily at their packed home dual against North Port on Wednesday. The boys team won 181-73 with and the girls won 209-80.

PHOTOS BY TOM O'NEILL

Port Charlotte's Arianna Janson-Dugan competes in the 100-yard Butterfly against North Port during a swim meet Wednesday at Port Charlotte High School.

Port Charlotte's Oscar Marquardt finishes the 50-yard Freestyle during a swim meet against North Port Wednesday at Port Charlotte High School.

This was only the Pirates' second meet of the season with most of their events getting postponed due to weather.

Whaley was pleased overall with the team's showing and knows it will continue to progress as the season wears on.

"For our second meet, we're still getting our rookies kind of used to the meet," Whaley said. "We kind of changed it up tonight and gave everybody a chance to swim. We had some rookies stressed out beforehand

and they finished the race, so I'm very proud. They raced really well. At this point it's just about getting everyone experience and learning."

The standouts for the Pirates included Tanner Bloom (100 breaststroke, 200 IM) and Arianna Janson-Dugan (100 butterfly, 200 IM), who each had multiple event wins.

North Port had far fewer swimmers at the event with the boys team only racing five, but the few that were out there posted good results.

Michael Sickels was the standout for the Bobcats with two individual wins in the 100 butterfly (59:03) and the 100 backstroke (58:65). He also took first in the 200 freestyle relay with teammates Tavis Bell, Mackenzie Minchinton and Adam Prine with a time of 1:49.66.

"I've got two newbies that this was their first meet ever and they did great," North Port swim coach James Noonan said. "Then I have a second year that did

Lemon Bay's Trevor Hedges will look to lead the Manta Rays to their first win of 2018 on Friday night against DeSoto County.

ATHLETES OF THE WEEK

Every week the Sun Newspapers will be selecting a male and female high school Athlete of the Week based on their accomplishments from the week prior. Check our social media pages for chances to nominate athletes. The selections will run in Thursday's paper.

Karys Nelson

- Charlotte High School
- Swimmer
- Won the 50- and 100-yard freestyle against Port Charlotte.
- Coach quote: "She's just an athlete, and doesn't like to lose," said Jeff Cain, Charlotte Tarpons swimming coach.

Dylan Hacker

- Charlotte High School
- Swimmer
- Had wins in the 200-yard individual medley and the 100-yard breaststroke against Port Charlotte.
- Coach Quote: "He's very talented and steady," said Cain. "They're both racers who like to be on the pace."

Add DE Jason Pierre-Paul (knee) and WR DeSean (Jackson) to growing list of iffy players for Bucs

By RICK STROUD
TAMPA BAY TIMES

The hard hits keep coming for the Bucs. Having already placed CB Vernon Hargreaves on injured reserve with a season-ending shoulder injury, the Bucs could be missing several other starters Sunday against the Eagles. DE Jason Pierre Paul has a brace on his right knee after being injured in the first quarter of the

Bucs' 48-40 win at New Orleans. "My knee is jacked up," Pierre-Paul said. "Banged up. Ask me if I can play Sunday, I don't know." WR DeSean Jackson, who had five catches for 146 yards and two touchdowns Sunday, is in concussion protocol and did not practice Wednesday. He also has a shoulder injury. Also held out of practice was CB Brent Grimes (groin) and DT

Vita Ve'a (calf), the Bucs' first-round pick. The Bucs signed DE Will Clarke, who had 2.5 sacks in 15 games for the team last season. He spent the offseason with the Bucs until he was released on the final roster cut down day. Defensive coordinator Mike Smith says the defense has to be better across the board. "The other parts of the game that we've got to improve on were very

obvious," Smith said. "We did not cover well, we weren't consistent with our pass rush, we weren't consistent with our pass rush schemes. Those are all areas we can improve. I will state that I thought our young guys, for the situation they were put into, handled it pretty well." Saints quarterback Drew Brees went 37-of-45 passing for 439 yards and three touchdowns Sunday.

Bills will start rookie Josh Allen at QB against Chargers

By MARK LUDWICZAK
ASSOCIATED PRESS

ORCHARD PARK, N.Y. — Josh Allen has the big arm. He has the size. And, now, he has the opportunity to take over as Buffalo's starting quarterback. Bills coach Sean McDermott said Wednesday the rookie will make his first career start on Sunday against the Los Angeles Chargers. Allen replaces second-year pro Nathan Peterman, who struggled badly in a 47-3 blowout loss to the Baltimore Ravens in Week 1. Peterman threw for 24 yards and two interceptions before being replaced by Allen in the second half. McDermott declined to elaborate on his thought

process behind the decision, instead saying it was "the right move" for his team more than 10 times. "I don't feel the need, honestly, to elaborate," McDermott said. "We talk a lot in-house about decisions and things and what we've got to do and the right move at the right time, and right now, with all respect to your question, this is the right move for us." The move is a jarring and significant change for Buffalo, which planned on bringing along the strong-armed, raw passer at a calculated and methodical rate before inserting him into the lineup. Chosen seventh overall this spring, Allen has ideal physical tools but has been considered a developmental prospect

of this team and this offense, and just help this team in any way possible to win football games." "Obviously I'm super excited and thankful for the chance to be the starter of this team. This is something I've dreamed of for a long time. But now that it's here, come Sunday I'm just trying to do my job. I'm not trying to do too much. Trust in those around me and ultimately trying to be the quarterback that this team needs." Allen got a taste of regular-season action Sunday against Baltimore, entering the game when it was well out of reach in the third quarter. He showed some flashes while enduring his share of growing pains, completing 6 of 15 passes for 74 yards while being

sacked three times. McDermott saw some positives in that time, noting Allen wasn't overwhelmed by the circumstances. "I thought his command of the offense was there," McDermott said. "There were some things that he did well in getting us in and out of the huddle. Those are the things you don't take for granted when a young player's out there. And then after the snap, executed fairly well at times, and there were other times where we need to execute better." It's not just the quarterbacks who struggled against Baltimore, however, and the Bills will need a lot more from their other positions to have any chance of rebounding against the Chargers. The Bills were blown

out by Los Angeles last season, 54-24. That was Peterman's first career start, when the QB tossed five interceptions in one half. Now the Chargers will face Allen in his first career start. "The one thing I'm going to talk to the offense about, especially the skill guys, is that (the key) for a rookie quarterback to have a good game is to make it easy on them," McCoy said. "Catching the ball, giving him confidence, moving the chains ... everything to get that extra advantage is critical and big for a rookie's confidence." "If I had to draft a quarterback, I would draft a kid like him," McCoy added. "He's mobile, he's tall, he's strong. He's not afraid, he's smart and has a big arm."

Redskins' offensive line living up to Hogs 2.0 nickname

By STEPHEN WHYNO
AP SPORTS WRITER

ASHBURN, Va. — Long before Alex Smith and Adrian Peterson joining the Redskins was ever a possibility, Trent Williams made up Hogs 2.0 T-shirts for Washington's offensive linemen. The original "Hogs" offensive line paved the way for three Super Bowl titles, so this group has a long way to go before they can be compared to that group. But with Williams at left tackle, Shawn Lauvao at left guard, Chase Roullier at center, Brandon Scherff at right guard and Morgan Moses at right tackle, the Redskins have a group that could continue bulldozing the way to victories this season. "Their versatility is the key," coach Jay Gruden said. "They can run, they can pull, they're strong at the point of attack and

they're pretty athletic. You can have a lot of versatility there." Versatility helped the Williams-led line bully the Arizona Cardinals in run-blocking and pass-protection, something it'll try to do again Sunday in the home opener against the Indianapolis Colts. Smith put up 255 yards passing in Week 1 and Peterson, Chris Thompson and the rest of Washington's ground game rushed for 182 yards in the kind of balanced showing Williams always believed could happen as long as all five starters are healthy. "I've been saying the whole time that our biggest issue is just getting everybody on the field," Williams said. "I feel like when we have everybody on the field, we're more than confident that we can handle whatever job the coaches ask us to do. "Obviously having everybody out there, when we've

been out there in the past, we've done pretty good with a balanced offense, with running the ball and passing the ball." The Redskins ran the ball 42 times and attempted to pass 33 times at Arizona, a balance Gruden would love to keep up. The offensive line's equal proportion of being good in the run and pass games makes that possible. But no one's quite sure why the Redskins' line is almost equally good in each aspect. Offensive line coach Bill Callahan has linemen work a long time after practice, which gives them extra time to work together and improve any weakness. "That just allows us to get little things polished up here or there," Roullier said. "Any little extra work you can get on your little fundamental techniques and whatnot, that's going to help you every day while you're out there."

Patriots' Gronk 'ready for anything' after Ramsey's comments

By KYLE HIGHTOWER
AP SPORTS WRITER

FOXBOROUGH, Mass. — Jalen Ramsey has approached trash talking — both dishing it out and receiving it — with open arms for most of his football career. When initiating it he's been an equal opportunity offender, even when his words were aimed at possibly two of the best players to ever play their respective positions. Ramsey sent ripples across the league last month when he was asked by "ESPN The Magazine" for his opinion of Patriots tight end Rob Gronkowski and said: "I don't think Gronk is as great as people think he is." The comments came months after the Jaguars' 24-20 loss to the Patriots in last season's AFC championship game, in which Gronkowski caught only one pass before being knocked out of the game with a concussion in the first half. That same game also saw Ramsey briefly exchange words with reigning MVP Tom Brady during pregame warmups. It's all added extra fuel to the budding rivalry as New England prepares to visit Jacksonville on Sunday. "If that's how he feels, that's how he feels," Gronkowski said Wednesday. "It's a big game. ... I'm sure I'm gonna have opportunities go against him. And I'm sure he's gonna have opportunities to go against me."

For his part, Ramsey has never backed down from his comments. "I don't live my life with regrets, man. Things happen. I said what I said," Ramsey said after his comments went viral. "I love the competitiveness. I love the trash talking. I love the challenge. I love literally everything about the game, so I have no regrets. ... Hey, I'm me: Unapologetic." Ramsey's teammates said his often-biting words are what make Ramsey the player he is. Trash talking is, "part of his game," defensive lineman Calais Campbell said. "I tell him all the time 'Man, hey, whatever you do just make sure that we're gonna back you up... We're gonna be there for you,'" Campbell said. "But I have nothing but confidence in Jalen. He's a very smart guy ... Very passionate. So I won't ever try to contain somebody and not let him be himself." Ramsey was a first-team All-Pro in his second year in the league last season, but had a relatively quiet AFC title game against New England. He finished with just two tackles as Brady engineered late-game heroics to erase a 10-point fourth-quarter deficit. Ramsey said recently that he thinks the biggest reason for the Jaguars losing that game was that they became too conservative. Of the talent of Brady, who exploited that conservatism, Ramsey told

"GQ" magazine that he puts him in the category of quarterbacks who don't "suck." "I never want to suck," Brady said with a smile Wednesday. "So I never want to be in that category." Brady is expecting "an emotional environment" on Sunday against a defense that he considers one of the best in the AFC. He added that he thinks Ramsey is "a great young player." Brady said a little trash talk is part of the game. "I think it raises everybody's game, as long as it doesn't get to point where you do something stupid," Brady said. "I think emotion in football is critical." Jacksonville coach Doug Marrone said that any conversations he's had with Ramsey about his tendency to speak his mind would remain private. But Marrone was also quick to offer praise for both Gronkowski and Brady, whom he said were possibly the best to play the game at their positions. He said he isn't concerned about Ramsey's comments providing the Patriots bulletin board material. "I mean, it is what it is," Marrone said. "We're all men and we've got to stand by what we say and you've got to speak for yourself and be able to do that. We've just got to go out there and play." Said Gronkowski: "I feel like this game you gotta keep your head on a swivel and be ready for anything."

COLLEGE FOOTBALL

Schools are getting creative to attract football fans

By THE ASSOCIATED PRESS

With the national trend of falling attendance in college football, schools around the country are trying to do something about it. Here are a few ways programs are attempting to get fans back in stadiums:

Texas

New athletic director Chris Del Conte has helped create “Bevo Boulevard,” a fan zone carnival of sorts outside of the stadium with food trucks, cheap beer, live music, a DJ and a kid zone with bounce houses and games. Once inside the stadium, Del Conte has lowered concession prices to offer a selection of hot dogs, nachos, candy, fountain drinks and bottled water for \$4 or less.

The Longhorns snapped a string of three consecutive losing seasons with a 7-6 finish and Del Conte has made fan engagement a top priority since taking over the Texas program in January. Texas had its home opener against Tulsa last weekend and tens of thousands were packing into the fan zone more than three hours before kickoff to eat, drink and line the street to watch the “Bevo parade” as the Texas longhorn steer mascot got a police escort to the stadium.

And instead of driving right up to the stadium, the Longhorns team walked through the crowd to cheers from throngs of fans.

Season ticket holder Matthew Smith, 45, loved the new game-day atmosphere.

“It’s more family inclusive, so I get to bring the kids,” Smith said as music blared in the background and the aromas from the food trucks wafted through the crowd. “I’ve been coming to Texas games since the early ‘80s as a kid and it was nothing like this, not the environment, not the fanfare, nothing like this. This is a huge improvement.”

LSU

The newest addition at Tiger Stadium is called “The Chute,” which is open to 21-and-older fans

who have a game ticket. Tickets are \$20 per person and include two drinks. Available food includes alligator sausage po’boys, fried okra and pizza.

The school also has created concessions areas that include ‘grab and go’ items, including vegan options, acai bowls and other healthier fare not often seen in stadiums.

There’s also some new food for fans who want heartier food: There’s the new Tiger Tot Tower, which is tater tots covered with BBQ pork, hot cheddar cheese and green onions, and other things like a Spiral Pizza.

Syracuse

The school is trying to spice up Carrier Dome options, including pregame concessions discounts of 50 percent for all fans until 30 minutes before kickoff, though alcohol is not included. The school will also have pregame entertainment in the Quad starting three hours before kickoff.

Syracuse athletics director John Wildhack said the enhancements were in response to feedback from fans. He added the goal is to try to attract more students to games and get them in the seats earlier.

Auburn

The Tigers have tried to attract fans with the largest video board in college football, which measures about 190 feet wide and 57 feet high. The school has also tried to enhance ongoing traditions that include the pre-game eagle flight and the Tiger Walk to the stadium for teams and coaches.

Colorado

The Buffalos have relied on several flash sales throughout the summer, which are usually spread through social media or email and last around 24 hours. Among them: A Father’s Day sale included home opener tickets for \$17 since Father’s Day was June 17th. Also, there was a Boulder temperature promotion in July that sold club seats for the home opener for \$84 since it was 84 degrees that day. That was a 62 percent savings over the regular price.

WR Chris Finke takes on leadership role for No. 8 Notre Dame

By ALEXA COUBAL
ASSOCIATED PRESS

SOUTH BEND, Ind. — Chris Finke knows where the Notre Dame passing game needs to be. And it is nowhere close yet.

The Fighting Irish (2-0) have won both their games, scoring 24 points in each to beat Michigan and then Ball State. Notre Dame has 467 total receiving yards but just a single receiving touchdown — Finke’s startling grab against the Wolverines — and quarterback Brandon Wimbush has four interceptions.

“You can’t throw three interceptions and win games that are going to be vital to the team’s success,” Wimbush said. “So we’ve got to clean up on all parts.”

Finke is eager to help. The former preferred walk-on from Dayton,

Ohio, had zero scholarship offers coming out of high school. He established himself as a contributor, earning a scholarship his sophomore year and became the team’s punt returner and an option at receiver. Now in his senior season, Finke knows he can provide leadership and set an example for his younger teammates. He added 20 pounds to his 5-foot-10 frame in the offseason — and he built himself up mentally, too.

“Knowing that I was going to be one of the older guys in the receiver room I was just working on being able to hold myself accountable as a guy that younger guys could look up to and being someone who was reliable for the team knowing that I would have to step into a bigger role,” he said. “Just trying to solidify the mental

aspect of football and getting the football IQ better and just taking all the coaching points that were given to me.”

With five catches and 95 yards so far this season, Finke has almost surpassed last season’s totals (six catches, 102 yards). The catch against Michigan got a lot of attention because Finke essentially went over a defensive back to take the ball away in the end zone.

“If you go up for a ball with the thought in your head that I’m going to get, it’s going to happen more often than not,” he said.

Even with a solid start, Finke said he knows there are many things to improve if the Irish want to be College Football Playoff contenders.

“We can do a lot better in a lot of areas,” he said. “We have really big goals here to graduate from

the University of Notre Dame and win a national championship.”

Regardless of stats and who’s making the catches, Finke just wants to see the team get better each week. The Irish are home against Saturday against Vanderbilt (2-0). The Commodores have the nation’s 19th-ranked defense in the early going this season, allowing only 3.97 yards per play and 8.5 points per game.

“However many opportunities it is I get in a game I want to take advantage of them,” Finke said. “I’m not trying to be a selfish guy. Whoever the action is going to is who it’s going to. If it’s coming to me, great, if it’s going to Miles (Boykin) or Chase (Claypool) or if we’re running the ball really well one week then great. Whatever it takes to get the job done.”

‘Little Sisters’: TCU-Ohio State matchup came from 2010 remark

By STEPHEN HAWKINS
AP SPORTS WRITER

FORT WORTH, Texas — One of college football’s marquee matchups this weekend is for all of those “Little Sisters of the Poor” teams that Ohio State’s former president once said the Buckeyes didn’t play.

A lot has changed since Gordon Gee’s statement went viral nearly eight years ago, but there is no denying the role his comments made in ensuring Saturday night’s big game between No. 15 TCU and No. 4 Ohio State at the home stadium of the Dallas Cowboys.

TCU was deep into an undefeated 2010 season that was capped by a Rose Bowl victory and Boise State was still a few days away from its only loss when Gee, then at Ohio State, said the BCS-busting Horned Frogs and Broncos didn’t deserve to be in the Bowl Championship Series title game even if they wound up undefeated.

“I do know, having been both a Southeastern Conference president and a Big Ten president, that it’s like murderer’s row every week for these schools,” Gee declared. “We do not play the Little Sisters of the Poor. We play very fine

schools on any given day. So I think until a university runs through that gantlet that there’s some reason to believe that they not be the best teams to (be) in the big ballgame.”

This was before TCU became a Power Five team in the Big 12, where Gee is now president at West Virginia and chairman of the league’s board of directors. This was also before the BCS gave way to the four-team College Football Playoff, and before Ohio State jumped past Big 12 co-champions TCU and Baylor for the fourth and final spot in the inaugural CFP field in 2014 on the way to winning the national title.

Gone but not forgotten.

Not long after the Frogs beat Wisconsin and finished No. 2 in the final Top 25 for the 2010 season, some digital billboards in the Columbus area mysteriously displayed messages congratulating TCU for its BCS Rose Bowl victory and were signed, “Little Sisters of the Poor.”

“We’ve chuckled about it many times,” former TCU athletic director Chris Del Conte, now at Texas, said this week while also recalling Gee responded to him about those “funny, nice billboards” after the bowtie-wearing

president joined WVU in March 2014.

In early 2011, Del Conte and Ohio State AD Gene Smith found themselves together at the same meeting. They got to talking and, as TCU coach Gary Patterson puts it, “all of a sudden, you had a ballgame.”

“We were talking about the (Rose Bowl) game and the president and just all of the things that happened around the billboards, and somehow ... a conversation broke out about playing a home and home,” Del Conte said. “We said, ‘Yeah, we’d love to do that.’”

The Mountain West Conference champion Frogs were preparing for a move to the Big East, a league with BCS access, when that home-and-home series was agreed on with Ohio State. Later in 2011, TCU got an invitation to join the Big 12, a Power Five league with a nine-game conference schedule.

Ohio State was scheduled to play in Fort Worth this season, and the Horned Frogs were going to travel to the Horseshoe in 2019 before the two-game series was replaced by Saturday night’s game at AT&T Stadium. That is about 20 miles from the TCU campus and where the Buckeyes won the first CFP national championship game

four seasons ago.

Both schools are getting \$5 million for the game that goes back to what Gee said in November 2010.

“That was then, this is now. I think it says a lot about our program that you get a chance to play, that somebody wants to move a home and home to one ballgame,” Patterson said. “If you’re not a program that’s recognized, then they don’t want to move a program and pay X-amount dollars to each school.”

Current Ohio State players, many of them who were around 12 years old when Gee made his comment, said they are instead focused on one of their toughest opponents this season.

“The statement, I don’t think I remember hearing it at the time, but I do remember the controversy around it,” TCU senior safety Niko Small said.

More vivid to Small was what happened in 2014, when he was a high school senior and one-loss TCU dropped from third to sixth in the final CFP rankings a day after a 55-3 victory over Iowa State to secure a share of the Big 12 title.

“It broke my heart. I was a commit here at the time,” Small said. “I remember where I was and everything. ... I couldn’t believe it.”

RAYS

FROM PAGE 1

“When they went to the outside they threw us for a loop. ODA is a good team that plays well together and we went in and got the digs,” Auer said. “We got too comfortable in that third set and they put BreAnn Brown (five kills) outside and we let up.”

Krzysiak didn’t have the same service game as Tuesday, but ended up with 16 kills and 15 digs. Leanna Kelly had 14 digs. Chloe Browder and Hailey Brown had 21 and 17 assists, respectively.

Adelaide Mahler had nine kills and Mackenzie Condrack had 27 digs for the Thunder. Ansley White had 15 assists.

“We’ve been working on our urgency because we tend to start a little slow. We can’t be finally

Stewart, Storm surge past Mystics 98-82 for WNBA title

By BENJAMIN STANDIG ASSOCIATED PRESS

FAIRFAX, Va. — Breanna Stewart led the Seattle Storm to their WNBA title Wednesday night, scoring 30 points in a 98-82 victory over the Washington Mystics in Game 3 of the best-of-five series.

Stewart was the league MVP and was selected the Finals MVP after averaging 25.6 points in the three games. She scored 17 points in the first half as the Storm raced to a 47-30 lead.

Natasha Howard added career-high 29 points and 14 rebounds for the Storm and first-year coach Dan Hughes.

Sue Bird, also a member of a Seattle's championship teams in 2004 and 2010, had 10 points and 10 assists.

Elena Delle Donne scored 23 points for the Mystics. Kristi Toliver had 20 points.

TIP-INS

The location, George Mason University, marked the third arena Washington has called home this season and the second in the playoffs. ... Washington starting center LaToya Sanders sprained her left ankle diving for a loose ball in the third quarter. She was carried to the locker room and did not return. ... Among those in attendance were Washington Wizards guards John Wall and Bradley Beal, University of Connecticut coach Geno Auriemma, University of Maryland coach Brenda Frese and Washington Redskins running back Derrius Guice.

North Port's Michael Sickels competes in the 100-yard Butterfly during a swim meet against Port Charlotte Wednesday at Port Charlotte High School.

SWIM FROM PAGE 3

phenomenal today. I also have my two club swimmers (Minchinton and Sickels), they're kind of my anchors. This is a building year for us, but we have a few individuals that might go as far as states."

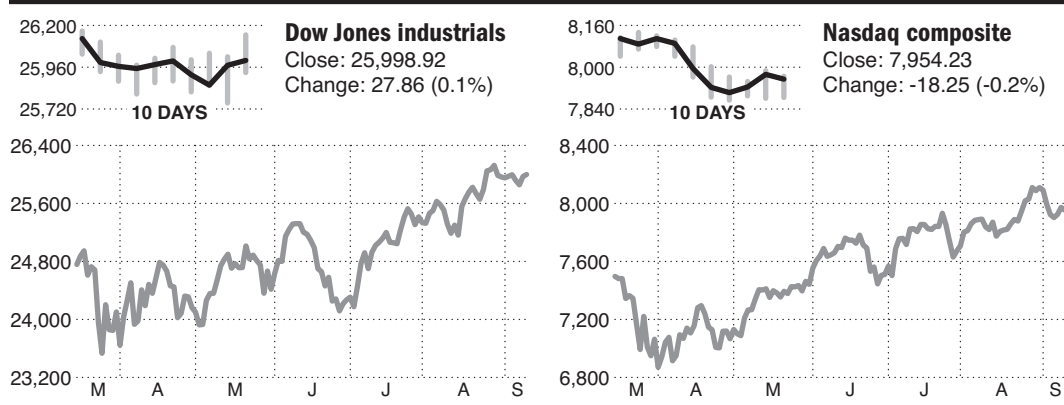

For the Lady Bobcats, their strongest event was the 50 freestyle where Taylor Hall, Jillian Shank, Kimberly Gautier and Veronica Franco placed in the top four. Jessica Muniz also got a win in the 100 breaststroke with a time of 1:24.63.

Toronto stocks

Table with columns: Name, Vol, High, Low, Last, Chg, Name, Vol, High, Low, Last, Chg, Name, Vol, High, Low, Last, Chg, Name, Vol, High, Low, Last, Chg. Lists Toronto stock market data.

Treasury bonds

Table with columns: Rate, Date, Bid, Ask, Chg, Yld, Rate, Date, Bid, Ask, Chg, Yld, Rate, Date, Bid, Ask, Chg, Yld, Rate, Date, Bid, Ask, Chg, Yld. Lists Treasury bond market data.

FOOTNOTE: Rate-The annual interest rate the Treasury bond provides to investors. Date-The month and year the bond will expire. Bid-The price investors will pay for the bond. Ask-The price at which investors will sell. A bond price is expressed as a percentage of its original purchase cost of \$1,000. The whole numbers and the decimals which represent 32nds of a point must be converted to dollars and cents; for example, 103.18 equals \$1,035.63. Chg-The change between the preceding day's final bid price and the final bid price from the day before. Yld-The annual percentage return to the investor, based on the bond's current price, if the bond is held until it matures. K-Taxes on interest will not be withheld from non-U.S. citizens. n-Treasury note. p-Treasury note; taxes on interest will not be withheld from non-U.S. citizens.

Mutual Funds

Table with columns: Name, Obj, NAV, 4-wk Rtn, YTD Rtn, 3-yr Rtn/Rk, Name, Obj, NAV, 4-wk Rtn, YTD Rtn, 3-yr Rtn/Rk. Lists mutual fund data.

How to Read the Mutual Fund Tables

Here are the 4,300 biggest mutual funds listed on Nasdaq. Tables show the fund name, sell price or net asset value (NAV), daily net change and weekly net change. Underlining highlights the funds ranked in the top 20% in each of the last 5 years:

Obj: The fund's objective group. Abbreviations listed below. NAV: Net asset value. Chg: Net change in price of NAV from previous day. Rtn: The fund's total return, or percent change in NAV for the time period shown, with dividends reinvested. If period longer than 1 year, return is annualized. Rank: Fund's letter grade compared with others in the same objective group; an A indicates fund performed in the top 20 percent; an E, in the bottom 20 percent. Footnotes: e - Ex capital gains distribution. f - Previous day's quotation. n - No front end load or contingent deferred sales load may apply. p - Fund assets are used to pay for distribution costs - 12(b)(1) plan. r - Redemption fee. n/a - not available. Fund Objectives: AL: Allocation - 70-85% Equity, AM: Multialternative, BL: Bank Loan, BM: Bear Market, CA: Allocation - 30-50% Equity, CC: Consumer Defense, CD: Consumer Cyclical, CH: China Region, CI: Intermediate-Term Bond, CL: Long-Term Bond, CR: Multi-Alternative, CS: Short-Term Bond, CV: Convertibles, DP: Diversified Pacific/Asia, EB: Emerging-Markets Bond, EE: Energy Equity, EI: India Equity, EM: Diversified Emerging Markets, ES: Europe Stock, FA: Foreign Small/Mid-Value, FB: Foreign Large-Blend, FF: Foreign Futures, FG: Foreign Large-Growth, FO: Foreign Small/Mid-Blend, FR: Foreign Small/Large-Blend, FF: Foreign Large-Value, FX: Foreign Currency, GI: Intermediate Government, GL: Long Government, GR: Global Real Estate, GS: Short Government, HM: High-Yield Muni, HY: High-Yield Bond, IB: World Bond, IC: Trading-Inverse Commodities, ID: Industrials, IE: Trading-Inverse Equity, IH: World Allocation, IP: Inflation-Protected Bond, IS: Trading-Miscellaneous, JS: Japan Stock, LB: Large Blend, LC: Trading-Leveraged Commodities, LE: Trading-Inverse Equity, LG: Large Growth, LO: Long-Short Equity, LP: Energy Limited Partnership, LS: Latin America Stock, LV: Large Value, MA: Allocation - 50-70% Equity, MB: Mid-Cap Blend, MG: Mid-Cap Growth, MI: Muni National Intermediate, ML: Muni National Long, MQ: Miscellaneous Region, MR: Miscellaneous Sector, MS: Muni National Short, MU: Multi-Sector Bond, MV: Mid-Cap Value, MY: Muni New York Long, ND: Trading-Inverse Debt, NE: Market Neutral, NT: Nontraditional Bond, PJP: Pacific/Asia ex-Japan Stock, RI: Target-Date Retirement, RR: Preferred Stock, SB: Small Blend, SC: Communications, SF: Financial, SG: Small Growth, SH: Health, SI: Muni Single State Intermediate, SL: Muni Single State Long, SN: Natural Resources, SP: Equity Precious Metals, SR: Real Estate, SS: Muni Single State Short, ST: Technology, SU: Utilities, SV: Small Value, TA: Target-Date 2000-2010, TD: Target-Date 2015, TE: Target-Date 2020, TG: Target-Date 2025, TH: Target-Date 2030, TI: Target-Date 2035, TJ: Target-Date 2040, TK: Target-Date 2045, TL: Target-Date 2055, TN: Target-Date 2050, TV: Corporate Bond, TV: Tactical Allocation, UB: Ultrashort Bond, VD: Trading-Leveraged Debt, VL: Stable Value, VO: Volatility, WS: World Stock, XM: Allocation - 85% Equity, XO: Infrastructure, XQ: Target-Date 2060+, XR: Option Writing, XS: Long-Short Credit, XP: Emerging-Markets Local-Currency Bond, XY: Allocation - 15-30% Equity.
