RAIN

The only thing that marred these days with an unlovely frequency is the rain. It has rained all this week. It is raining now. Fromm all appearances it will keep on raining for the next two or three months. We have decided that there is very little we can do about it. Anybody that has any suggestions please turn them in at once and we will see what we can do. Who wants the good points, but it is hard to see how such contributions are of any use. It reminds us of the little girl who had the pot that constantly filled with porridge. When she forgot the magic words to stop it, the pot boiled over and drowned all the house, yard etc. Somebody please tell us the magic words.

VISITORS

Last Saturday Captain Fitzand Mr. Dunn, from Fort Benning were here for a visit of inspection.

Monday two clrgymen of the Episcopalian church visited Camp. They were very much impressed with all they saw. We hope that they will visit us again soon.

Captain C Van Saun, Subdistrict Chaplain, arrived in camp Thursday. Thursday Evening he made his regular processing talk to the new men, and distributed Testaments to those who desired them. Friday evening he conducted services for the whole company. He showed slides and pictures, with singing. The meeting was enjoyed by all.

Friday morning Captain Koosa, District ess Officer arrived in Camp. Before he left Major Corby District edic l fficer also came in. Both Officers were on their regular tour of inspection

TRANSFERS

Word has come from District eadquarters that no more transfers will be approved before September 6, 1935.

BACK TO THE WOODS

Most of the new men went to the woods Monday. By the middle of the week, all of them were at work on the projects. So far no casualties

SIDE-S OF

He walks! He talks! He lives! Neither fish, nor flesh nor good red herring! In other words we have a miracle in our midst. man who eats ground glass, razor blades, old tin cans and what have you. Wednesday afternoon, this wonder of the universe, who works in the kitchen, proceeded to eat, masticate, devour, or in other words to chew up and swallow a full sized razor blade, for the edification and wonder of all who saw. We have been unable to learn the name of this person, or anything about him, save that he is one of the new men, and who works in the kitchen. If we had more like him this would indeede be a rugged organization.

CURRENT EVENTS

Tuesday evening at the regular time, the current events class was held in the reading room of the T Rec Hall. World peace, the Abyssinian Question, the Federal-State Apprentice program, and the huge new irrigation and power project on the Columbia River were discussed.

Also, at the end of the program, the eternal dance question was discussed. It Barrett signified his approval of having a dance, and invited the men to work out plans and prices etc., and confer with him.

There is nothing new under the sun! What Sun?

SPORTS

The soft ball team has played two hard fought games this week. On Monday our boys lost to the Radcliffe Whiskey House Team from Perry. It was a hard game to lose On Friday evening however they tied with the Perry Club, on their own grounds. During the first field [illegible] preliminary warming up, Co. 1410 yielded four runs to Perry in the first inning; they came back in the second with two counters. From then on the game was a ding-dong affair with

-plenty of swell plays on both sides. With couple of big innings our gang shoved over a flock of runs to put the total up to nine but the growing darkness caused couple misplays that allowed Perry to tie the score at nine all.

On the schedule for next week is a return game with Perry at home, Monday, to settle the tie. With several new men on the team the boys have plenty of pep, and expect to settle the tie in our favor, and give Madison a good fight Wednesday Evening, at Madison.

AMONG THE GIFF-WIFFS

TRAGEDY.

Early one morning Mack walked into the bath-house and saw a terrible spectacle. One of the new boys was leaning over the trough moaning and frothing at the mouth. Mack rushed and borrowed a shotgun from the Supply-room and eased the poorh hydrophobiacs pain.

Some of the boys rushed in at the sound of the shot, and it was discovered too late, that the poor lad had only been using some of this new fangled tooth-paste, and singing to himself.

MESS HALL MUD

ROBERTS: Rip, look at this piece of Chicken in my messkit. It's nothing but skin and bones!
RIP: Well, did you want some feathers too?

BLUE SPRINGS

Last Sunday the Truck went to to Blue Springswith a full crew They stayed until just barely time to get home for supper. On the way home the truck turned in into a steam engine, and they had to stop for repairs, which consisted of tying up loose-connections with G.I. shoe-strings

TAXIDERMY!

Lt. Wood, who is an amateur taxidermist, and fond of mounting birds and skins etc., tells us that if any of the members are interested in this fine old hobby, will meet him in the Reading-room of the Rec Hall, Monday at four O8clock, he will organize a course.

NOTES FROM THE SURVEYORS

Mr Baskin, a prominent member of the surveying crew almos suffered agrievous mishap this week, when he was attacked with an axe by some strange creature.

MORNING-AFTER?

A Drunk was noticed wabbling about a small lake, and peering intently down into the water. An officer came up and demanded to know what he was doing.
"Just looking at myself in the water, officer, [illegible]"
"Well you [illegible]"
"[illegible]"
[illegible], Silly!
