

FUTURE OF C.C.C. CAMP IN LAP OF GODS

ORDERS ISSUED FOR EVACUATION IF STORM HITS

All Precautions To Be Taken To Protect Life, Property

Plans of evacuation of Camp Sp-3 (Co. 453, CCC), in event of possible storms of severity to warrant the abandonment of the camp were promulgated in a "Standing Order," issued by Commanding Officer, L. P. Warren, Captain 349th Inf.

All available Government transportation will stand by, with necessary drivers and fuel, ready to move on instant notice. Personnel, except those on special detail, will be evacuated to local hotels or county court house, abandonment being made on orders of the camp commander or his duly authorized representative.

The following personnel will remain at the camp site and will protect the Government Property located therein: line officers, storekeeper, company clerk and four enrollees.

Every precaution is being made to assure the safety of all members and provide rations until the storm period is passed. Enrollees, included. (Continued on Page Two)

SAFETY PRACTICES DISCUSSED AT MEET

Every phase of the theme safety was given in talks at the mass meeting of the enrollees of the company Monday night held in the mess hall of the headquarters. W. W. Stephens won the prize of \$1.00 presented by Mr. Hicks. Selwyn Ives who was scheduled to speak on "Americanism and Citizenship," due to being called out of town at the last minute, was unable to appear before the boys.

Safety Director G. N. Hicks, in charge of the meeting, was introduced by Captain L. P. Warren. Prior to talks which were given by enrollees, Stephens, Fletcher and Barnes, Hicks asked for suggestions as to the procedure to be used in the meeting that will be held in the future.

Wayne Stephens, winner, discussed at length the safety rules that are used by the Using Service and Army. Safeguarding against accidents caused from sharp and pointed tools was the main point brought out.

Earl Fletcher, close runner-up for the prize, gave a talk stressing rules pertaining to the transportation of the boys and the practice of smoking each other's cigarettes.

Roy Barnes, took as his theme for his brief talk the routine and authentic information that is required by various officials when an accident takes place.

EDITORIAL

Time may change our conditions of living and the many phases of life which goes to make-up civilization, but it has not fettered the principles established by that immortal body of men that gave to the people of the United States the Declaration of Independence on July 4, 1776.

Incidents that transpired last week in the city of Philadelphia, help recall the happenings that took place in the same place, one hundred and sixty years ago, 1776. It was in this old and famous principality that the Declaration of Independence was signed—July 4th.

Yes! It was drawn up by the Continental Congress which was composed of such great and noble men as George Washington, Thomas Jefferson, Benjamin Franklin, Patrick Henry and many others whose names are familiar to all of us. They arrived for the convention by various modes of travel which were then considered excellent. Some arrived by stage coach, others by horseback, carriage, pony express or barge.

The bell (Liberty Bell) that rang ceaselessly for many hours cracked in several places under the strain, is located there. During a very colorful ceremony, when the Democrats were holding their National Convention in the historic city, it was tapped with a gavel by an outstanding party leader as others looked on.

Last week, thousands upon thousands arrived for another convention. This one, however, was a far cry and different in form from the one held during the Colonial Days. They arrived for the occasion by various modes of travel. Airplanes, dirigibles, trains, modern liners and automobiles were all employed transporting the delegates and visitors.

Our Nation has changed in many aspects. Its boundaries, population, industries, commerce, education are far different but fundamentally the thought of Freedom is the same as in 1776.

PROGRESS MADE BY STUDENTS IN EDUCATION PLAN

The Educational system of the camp has made tremendous progress during the past six months, from November of last year through May of this year. Adviser M. A. Boudet has formulated one of the best routines in district "F."

One of the outstanding achievements has been the fact that the Using Service personnel and the Army personnel have gotten behind the program and are boosting it to their utmost. Every foreman of the ECW teaches at least one class a week in camp.

Enrollees receiving instruction on the job (during work hours) last month were 48 or 25.3 per cent which is an increase of the entire total as there were none during the month of November. A total of 948 man-hours of systematic instruction on the job was given the men. Jobs such as truck trails construction, concrete lining, nurseries, moving trees; seed collecting, building walks, maps (topographic), survey of grade lines and mechanics were taken up.

Another advancement made in education is noted in the number of pupils attending classes, other than those held at camp. At the present there are nine receiving instruction. (Continued on Page Two)

A Timely Tip

Saturday is the Fourth of July. The bank, post office, city hall and courthouse will be closed. The stores, however, will remain open on the holiday.

SENIOR LEADER IS TRANSFERRED TO CAMP P-69

Former Senior Leader Fred G. Landrum left Sunday for Camp P-69, Chipley, Florida, where he will take his place upon the technical staff as assistant to the Junior Technician.

Landrum had served as Senior Leader for the Company since October, 1935 and showed ability and skill in executing his duties far superior to his predecessors. Prior to October, 1935, Mr. Landrum worked as a surveyor in the Park Service division of the camp here.

Preceding his enrollment in the Civilian Conservation Corps, Landrum resided in Lake City, Florida, and was transferred to Sebring, Florida from Olustee, Florida, where this company was previously stationed.

Landrum's place here is being taken by Arnold E. Eaton. Eaton was former Senior Leader for Co. 5410, P-82, Reidsville, Georgia.

Although Company SP-3 shall miss Landrum, we extend a most cordial welcome to our new Senior Leader Eaton.

PAPER IS PRAISED

M. A. Boudet, adviser to the Rogers-Post received a letter from Wayne D. Seaman, 1st Lieutenant, 925th C. A., Commander of Company 4467, Georgetown, S. C., requesting back copies of our paper. The Lt. writes, "We are looking for some new ideas. We understand yours is the best in District "F."

The staff was grateful for the acknowledgement, papers were sent immediately with best wishes to the camp commander and those associated with their sheet.

LEASE EXPIRES AND NEW SITE BEING SOUGHT

Removal Of Corps Would Be Blow To Arboretum Project

By R. E. BARNES

As the situation stands at the present, fate of Camp Florida company 453, CCC, is in the balance of time and fortune. For the past ten days officials connected with the Army using service, City of Sebring, and many public spirited citizens have been working ceaselessly in an effort to assure the continuation of the camp in the city and if possible at its present site.

Government lease on the building and property in which is housed the office, dining room, supply rooms, recreation hall and other facilities necessary for the army management expired June 30. Under the present arrangement the Army has until September 7 to vacate.

Captain L. P. Warren, commanding officer, received a telegram late Monday afternoon to the effect that the lease on the property and building had been signed. The continuation of the lease does not assure the camp remaining, as foreclosure (Continued on Page Four)

SALVATIONIST SPEAKS AT CHAPEL EXERCISES

Commodore George Jaeger, retired officer of the Salvation Army, who is residing in Sebring, was guest speaker at the regular Sunday morning service held in the recreation hall. Speaking informally and in an impromptu manner, the Commodore related some very interesting and outstanding incidents that he had experienced during his long service in the Salvation Army.

Mr. Jaeger, it is understood, composed a poem of the CCC Camp upon its arrival in the city a few years ago. Efforts are being made to secure and publish it in the Rogers-Post in the near future.

'CURLEY' BELL HUMANITARIAN

On the night of the election, June 23rd John Henry "Curley" Bell was, for the lack of something to do, wandering around the City of Sebring, gathering returns of the day's election.

Suddenly he noticed a small bird, apparently wounded fluttering around on the street. Then the humane side of "Curley's" life showed itself and caused aforementioned humanitarian to pick up the small fowl and carry it to the protecting haven of the camp. The next morning a small metal band was noticed fastened around the bird's leg. Upon it was the inscription: Notify Biological Survey, Washington, D. C., and a number A-102943. A letter was immediately written to the organization and an answer is expected within a few days.

THE ROGERS-POST

Semi-monthly publication of Co. 453, Fla. SP-3
CCC District "F," Sebring, Fla.

Sponsor and Adviser.....M. A. BOUDET
Editor.....W. L. CHESHIRE
Ass't Editor and Editorialist.....R. E. BARNES
Business Manager.....G. G. McRAE
Sports Editor.....L. R. KAZAR

REPORTERS: Britt, Butts, Whidden, Farr, Rannou,
Hemrick, Hutto, McLarty

Captain L. P. Warren, Commanding
A. C. Altvater, Project Superintendent

The first edition of the weekly publication published by members of Company 453, later to be known as the "Rogers-Post," was started on September 11, 1935. Although the first edition was one without a name a contest was begun immediately to select a name for it with a prize to be awarded to the enrollee suggesting the most appropriate title for the publication. It so happened that at this same time, the world was mourning the loss of two of our country's most distinguished and beloved citizens; Will Rogers, humorist, and Wiley Post, famous aviator, so in honor of these two Americans Enrollee L. F. Singleton suggested the winning name, "The Rogers-Post," and was awarded the prize.

The initial journalistic effort of the staff was a six-page affair printed on a very poor grade of yellow paper.

The staff of the first issue was as follows: Adviser, M. A. Boudet, associate; Cheshire, Spillman, Morgan, Rannou, Janowski, McBride, Singleton, Casey, McDowell.

The first eight-page "Rogers-Post" appeared on December 4 and from then on never came under that number of pages during any publication.

At first the art work was done by Red Rannou and then taken over very capably by Mrs. Boudet, wife of the Educational Adviser.

As time went on "The Rogers-Post" continued to thrive and before long was recognized week after week in the "Happy Days," national weekly publication of the Civilian Conservation Corps. The Happy Days system of rating is: 1 star, below average; 2

stars, good; 3 stars, very good; 4 stars, extraordinary and "The Rogers-Post" was within the 2-star or 3-star class every week, a record of which we may well be proud.

The publishing of our periodical, as is true in any other undertaking required funds, therefore the advertisements of leading business establishments in Sebring and Avon Park were solicited with much success. In this way, our paper was different from numerous camp papers as it is strictly self supporting.

And now like any other young and growing enterprise, "The Rogers-Post" has decided to expand, and with this expansion will come a regular printed newspaper type publication printed every two weeks and with nationally known products advertised.

This type of paper will give our friends everywhere a better knowledge of what is going on in Company 453.

With the help of the enrollees and merchants it is hoped that our new journalistic venture will be a success in every respect.

Topic around camp for the past few days has been — will the camp remain in Sebring or is it to be moved?

Everyone welcomes the new Sergeant and wishes him the best of luck. It is believed that if more time had been available the position could have been filled from the company's rank. We have a few "natural born" leaders.

The average percentage of participation in the Educational program for enrollees for the month of May was 94. A mark that is fast showing the worth of the educational program in the camp.

Captain Warren's evacuation plan is excellent.

It is expected that our contestants entered in the Life Saving Course, to be held in Olustee, will bring home the bacon.

An unforgettable impression: the ovation given President Roosevelt by the massed humanity, 115,000 strong.

services. I was the officer chosen for this work and the results have been more gratifying as attendance is not compulsory.

To me, because of my intimate knowledge of our Camp and its workings, I believe that the CCC Camps have been one of the most practical and successful projects of the New Deal, and that in the near future our country is going to be better, safer and more loyal to the high standards that made it what it is, because of the confidence of this great movement.

I have sincerely appreciated the cooperation of the Commanding officers and the personnel. In closing I again say—"I congratulate you."

A crew under supervision of Geo. Hicks is completing the grass planting around the record house and the road shoulders located on the grounds.

PROGRESS MADE BY STUDENTS IN EDUCATION PLAN

(Continued from Page One)

struction in various subjects at a PWA school in Sebring.

The committee of Commanding Officer, Camp Superintendent and Educational Adviser, formed as an outcome from the recent district meeting held at Ocala, is functioning splendidly.

There are three distinct phases in the Educational Program of Company 453. There are as follows: education during leisure hours, systematic instruction on the job and informal education during leisure hours.

Mr. Boudet recently stated that informal education during leisure hours is the direct means by which many of the boys become interested in the class work. This phase of the program is recreational. Pleasure trips, baseball, diamondball, first aid, safety, life saving, glee club and dancing classes constitute this end of the system.

Correspondence courses are being pursued by three of the young men, two taking bookkeeping and the other air conditioning.

The number of instructors have increased, there being nine in November and now there are 13.

Educational data, comparing the months of November and May are furnished by Adviser Boudet. November: elementary courses, 5; high school, 5; vocational, 4; informal classes, 4; with a grand total of 18. Enrollment was 192 and the percentage of enrollees attending was 59 per cent. May: elementary courses, 2; high school, 5; vocational, 15; informal classes, 6; with the total being 28. Company strength last month was 190 and with the excellent record of 94 per cent for enrollees attending classes.

MRS. KELLEY PRAISES CCC CAMP AND STAFF OF THE ROGERS-POST

(EDITOR'S NOTE: Mrs.

Kelley, Sebring booster, has been one of the best supporters that the CCC Camp has had since its arrival in the city. She is beloved and cherished by every boy in the camp. It is with profound pleasure that the Rogers-Post presents this article by her).

It is with a great deal of pride and personal pleasure that I extend my congratulations to our Camp and the Editorial Staff of the Rogers-Post.

Your paper has always been interesting, well set up and a credit to the Company. You are now stepping up another notch and I can only say,—well done and God Bless you.

From the first day of a CCC Camp in Sebring, I have been intensely interested in its welfare, aims, growth and achievements. It has been my privilege to mingle and work with the boys in the camp, and I can only speak in the highest terms of them as I have known them. I have seen them come in as "bookies," developing physically, mentally, morally and spiritually and after months in the camps, passing off into the regular stream of life better equipped to face the odds they all must meet.

With very few exceptions, I believe that the boys who enroll in CCC Camps appreciate the opportunities offered them. The interest and attendance at the classes speak for the desire they have to equip themselves for the future. Early in the history of the Camp, the Salvation Army was asked to be responsible for services being held at the camp, using all denominations and holding non-sectarian

Co. 453 Wins Sub-District Ball Title

PARK SERVICE TOPS IN SEBRING LEAGUE

The Army diamondball team managed by Mr. Boudet is slowly rounding into form. To date its one scheduled game was called off on account of wet grounds.

The team seems to be stronger than on first appearance. Niles will probably carry the brunt of the pitching assignment, while Quilling is slated to catch. The infield will find Bell on first, Britt on second, Massey on short and Strobel on third. Mr. Boudet will probably be the reserve infielder. The outer garden will be patrolled by Padgett, Bulger, Hudson and Thompson.

How they stand:

	W	L	.Pct
Park Service (CCC)	2	0	.1.000
Army (CCC)	0	0	.000
Juniors	0	1	.000
Seniors	0	1	.000

To Meet Winners Of Ocala League For Championship

Early last week word was received from district headquarters that the baseball team of Co. 453 had been adjudged the winners of the sub-district and that they were to play the winners of the Ocala league in a series of three games. One game will be played on each home field and if necessary one on a neutral field. To date no official word has reached this camp as to the winners of the Ocala league but it has come through grape vine communications that Co. 1401 of Ocala has triumphed over its other rivals.

Practice sessions, called off for the last three or four weeks, were immediately put back into effect. In spite of the long lay off and of the absence of the regular short stop, Paul Mihalko, the team looked extremely well. Quilling, pitcher for the team has been transferred to the vacant spot on short, and Fowler, new transfer, seems to have the inside track on the pitching assignment. A merry battle is being waged between Leighton and Kazar for the second base job, no matter which one gets it the other will probably be used in the outfield.

Efforts are being made to play all three games in Tampa and thereby eliminating the long tiresome journey to Ocala. Both teams could stay at the Sulphur Springs camp over the weekend.

To date the company team has had a hard time in scheduling games. Four games were played, three with Lake Placid and one with the Sebring Firemen. In these four games the company split even winning two from Lake Placid and losing one to Lake Placid and one to the Sebring Firemen. Both games that were lost were lost by one run. A game scheduled with Mulberry CCC team might also be added to the won column as that team failed to show up as per schedule.

TWO ENROLLEES TO GO TO LIFE-SAVING SCHOOL

Two enrollees from each camp in the sub-district of District "F" will be sent to Company 451, Olustee, Fla., for a course in Life Saving to be held during the week of July 5 through the 10th.

Clyde Smart and Emmett Barrett, two outstanding swimmers will represent this camp. Smart who has taken part of a life saving course in the Coast Guard in Key West, and Barrett, an excellent swimmer, should walk away with high honors.

Accompanied by two boys from the Miami camp, who will come by train this far, the contestants from this company will leave Saturday morning at 7 a. m. in an Army truck, dispatched from the camp and will proceed to Olustee picking up enrollees at the different camps in Florida.

Present arrangements call for the boys' return on Saturday July 11th.

PARK BOYS DEFEAT JUNIOR NIGHT CLUB

Friday night saw the Park Service Diamondball team defeat the Sebring Juniors, 10-7, in a loosely played game, both teams making four errors. In the absence of Mr. Norris, Kazar acted as temporary captain.

Although the CCC team was out-hit 13 to 11, they fought hard, never giving up and finally emerging on the long end of the count. This was the first game of the Sebring Diamondball league and brought forth a very good crowd. It seems that diamondball is really on its way now, and if rain doesn't interfere too much, a successful season may be anticipated.

Johns was the big gun in the Park Service attack and set off the fireworks with a home run, two triples and a walk. Curl and Crawford led the town team at bat with three hits a piece.

Hood, pitching in his first game, showed up well. Most of the damage done by the Juniors occurring in the latter innings.

This game put the Park Service on top of the league as last week they won from the Seniors by a forfeit.

The batteries were as follows: CCC (Park Service) Hood and Leighton.

Juniors—Surrency and Lynn.

LISTEN!!

By R. G. FARR

We bet that several boys will be sorry that Fred Landrum left. Work is good for you boys.

What is this we hear about a certain little incident in North Carolina, Gore? If we had to "rob the cradle" to do that, we'd quit.

We hear that "Specks" Messer has been giving those pretty little Fox girls the Eagle eye. Stick in there with them "Specks."

It is rumored that "Ladies' Man," "Baby Face" Taylor doesn't rate quite so high in Avon Park any more. We wonder why?

McBride's lady friend won the local beauty contest. Have you noticed Mac the last few days???

"Chubby" Brantley still has the record for being the first in the mess hall.

Earl J. Kelley was operated upon Friday. This "Goldbricking" will sure get you down. Sorry to hear of your misfortune, boy!

LEASE EXPIRES AND NEW SITE IS BEING SOUGHT

(Continued from Page One)

on the land will take place within a short time by a party who is interested in obtaining the site for a home.

There is no reason for enrollees to be disturbed over the matter as they would be transferred to other camps in the event such a thing did take place.

C. R. Vinten, regional inspector for the National Park Service, in a statement to The Rogers-Post, Monday afternoon, stated he did not have official information on the matter, but it was his personal opinion that the camp would not be "snatched" out, and that he did not see any reason to be upset.

The first and paramount issue, that concerns the citizens in Sebring, Highlands county, as well as others throughout Florida is the fact that work on the Florida Botanical Garden and Arboretum would be stopped if the camp were moved. The project is of vital interest and importance to the state at large as the enterprise will be a great benefactor to it.

Merchants of Sebring and Avon Park would lose between \$5,000.00 and \$6,000.00 a month if Co. 453 was disbanded. The forenamed amount is approximately the money that is turned loose from salaries of the enrollees, ECW and Army personnels and bills for supplies used by the services.

PARK JOTTINGS

The survey crew, recently undertook the job of moving an irrigation system from the hammock entrance to Tiger Branch bridge. The system which consists of a pump, power unit and pipe line, is for the purpose of watering the newly planted vegetation.

After two days of work the men were called off the job due to rainfall that was sufficient to care for the shrubs. The project will be continued and made permanent within the next few days.

A letter was just received from "Polly" Weybrecht, who recently left the CCC to assume his duties as As-

The staff of the Rogers-Post wishes to thank the firms and individuals for the aid and backing given in publishing this paper. Without each of you this publication would have been impossible. We hope that you will remain with us throughout all of the coming issues.

Sincerely yours,

THE STAFF

TWISTED COMPARISONS

By J. R. BUTTS

The Tribune and Times, papers of Tampa, have an uncommon likeness to the Columbia Broadcasting System and National Broadcasting Company, respectively.

Dinner in camp on work days is mindful of the end of a long, hard famine.

Max Schmeling with his powerful right hand compared well with Daniel and his sling in olden days.

The brilliant displays of salesmanship witnessed in camp about the middle of the month are indeed a work of art. The future world should be filled with auctioneers.

All the week one yearns for those straight-up eggs on Sunday morning.

An uncomparable feeling—

To awaken and find you have slumbered through dinner.

A definition of a Miracle—a CCC boy who keeps all his promises.

The day of reckoning—pay day.

Casanova was a piker compared with some of the fellows who have been promenading lately.

Have you noticed? The majority of fellows know of or have been in much better camps than this one.

Astounding! What joy and cheerfulness overspread camp when the weather becomes gloomy and it starts to rain. Such optimism.

A solemn event—Inspection on Saturday morning.

If "woofing" was to go out of style what a quiet place this would be.

A place of dread around the end of the week—The Bulletin Board.

Hope, and in the future you are a great man. Without hope, all is lost.

Another comparison — Money from home and the end of this column.

Assistant to the Junior Technician at Chipley, Fla. According to his letter, the trip was O. K., the camp is fine, the eats are good and plentiful, and hello to everyone.

W. H. "Senator" Norris, foreman in the Park returned Monday morning from a week's business trip. He visited various parts of the state.
