

CAMP 453 TEAM WINS BASEBALL TITLE

DUDLEY LOOKS OVER NEW SITE FOR COMPANY

Camp and Paper Get Rating of Excellent From Heads

The new proposed camp site for Company 453, CCC, was inspected by Captain Hugh B. Dudley, sub-district inspector for this district and Captain L. P. Warren, Company Commander, last week while Captain Dudley was here on his regular inspection tour. After returning to camp, neither of the officials made any statement as to their attitude toward the moving the company.

In an interview with a representative of the Rogers-Post, Captain Dudley stated that there were no new developments concerning the removal of Camp Florida. Your paper has all the facts that are available at the present time, he continued.

Major Wallander, the new commanding officer of district "F," with headquarters at Fort Screven, Georgia, made an official inspection tour of the camp last week pronouncing everything in excellent order.

It was rumored around camp for a few days that the government had decided to fight foreclosure proceedings on the property which the camp is located on at the present time.

Inspector Dudley, before leaving camp, gave it a rating of excellent. A mark of the same degree was given the camp paper. Upon doing so, he made the statement that "The Rogers-Post" was the best paper that he had seen in the district.

Citizens of Sebring and Avon Park are continually inquiring of enrollees as to the possibilities of the company being removed from Highlands County.

From an anonymous source, comes the report that a building will be built on the new site for the purpose of housing the office and other facilities necessary to carry on the army supervision. The cost of the project, it is said, will be \$8,000.00. Huts which are used by the boys for living quarters will be transported and set up on the contemplated site.

Government lease on the building and property that is now being used by Company 453, has expired and the company must vacate by September.

SUPERINTENDENT BACK

Superintendent A. C. Altwater, of Highlands Camp, SP-3, returned to his duties this morning after an absence of one day from his duties at the office of the National Park Service which is located in the Florida Botanical Garden and Arboretum. He was forced to remain at his home for the short period due to a cold contracted when he was caught out in a recent rain. The forced rest was greatly needed, as it has been necessary for him to spend many hours of over-time work.

Florida CCC Camp Commanders Meet At Conference Held At Mulberry

July 11, 1936, saw all the commanding officers and all the educational advisers of the sub-district meeting for a conference in Mulberry. The following companies were represented: 1420 and 1401 from Ocala, 1418 Sulphur Springs, 1421 Miami, 5468 Brooksville, 5430 Sarasota, 2415 Mulberry, and 453 Sebring.

The conference was held for the purpose of discussing plans to improve the efficiency of the CCC program in the sub-district. Business was attended to Saturday morning and immediately afterwards the recreational part of the conference got in stride.

A good old pistol shoot started the ball rolling. After more than an

hour of shooting, Capt. Bennett of the Miami camp was adjudged the winner and it is believed that he received the prize.

During the pistol shoot, Capt. Dudley, sub-district inspector, had on exhibition the pictures of the fish he caught the previous week. It was a mighty fish. The Captain also had the presence of mind to have a witness present.

In the afternoon the baseball aggregation from Co. 1420, Ocala, and 453, Sebring, tangled in a hotly contested battle. Sebring emerged on the long end of 6 to 2 count.

Members of the Co. 453 team spent Saturday evening in Lakeland viewing the big city lights once more.

VINTEN TO SPEAK AT CCC CAMP MASS MEET

C. R. Vinten, Regional Inspector National Park Service, for the state of Florida will be the principal speaker at the mass meeting of enrollees on July 27. Talks will be made by five CCC members, on various phases of safety, for which purpose the meeting is held.

All foremen, leaders, assistant leaders and truck drivers have been requested by G. N. Hicks, safety director, to give a safety rule upon answering the roll call.

Mr. Vinten is a former project superintendent of Highlands Camp, being assigned at the time of its creation, May 1934.

Severing his connections with the camp in December of the same year, he became connected with the National Park Service, serving in the capacity of regional inspector.

Regulations on safety are being adhered to by enrollees stricter at the present time than ever before. The monthly mass meeting and the weekly one have impressed the necessity of safety so clearly that it is part of the member routine.

Having been connected with the Emergency Conservation Program almost from beginning Mr. Vinten is well qualified to speak on the policies of the organization.

Forest Heads Meet To Set Up Budget

Mrs. Linwood Jeffreys, Park member of the Florida Board of Forestry, Harry Lee Baker, State Forester, and C. H. Schaeffer, Procurement Officer State ECW, met with the executive committee and trust fund committee of Highlands Hammock for the purposes of setting up the annual budget and shaping the policies of the organization.

Prior to committee meetings, the officials made an inspection trip of Highlands Hammock State Park and the Florida Botanical Garden and Arboretum. A. C. Altwater, project superintendent of Highlands Camp, conducted them on the tour through the hammock and garden.

WAR DEPARTMENT TO SUPPLY MAGAZINES

Magazines will again be supplied the camp, according to word received from district headquarters. The War Department has placed an order for periodicals to be furnished all CCC companies for the year starting July 1, 1936.

The list includes two subscriptions per company to Colliers, Saturday Evening Post, Liberty and Today Magazines and one subscription per company to Adventure, American Forests, American Magazine, Argosy, Aviation, Baseball, Blue Book, Current History, Detective Story Magazine, Field and Stream, Film Fun, Cosmopolitan, Home Craft, Hygia, Judge, Leisure, Life, Literary Digest, Midweek Pictorial, Modern Craftsman, Motion Picture, National Geographic, Nature, News-Week, Outdoor Life, Photoplay, Physical Culture, Popular Science, Reader's Digest, Red Book, School Life, Short Stories, Sports Story, Sports Afield, Time, Teacher's Bulletin, True Detective Mystery, Uncle Sam's Diary, Popular Mechanics, Radio News, West and Western Story.

Lights Installed On Hammock Sign Board

Highlands Hammock is in lights! After many delays and interruptions, lights have been installed on the Highlands Hammock sign board, located on federal highway between Sebring and Avon Park.

Last minute details were checked by Project Superintendent A. C. Altwater and R. A. construction engineer, Tuesday evening before the current was turned on. A time clock regulates the lights turning them on at 7:30 in the evening and off at 5 in the morning.

Lights are to be installed on the other sign within the near future. It is located on the same highway between Sebring and Lake Placid.

To Play Georgians For Championship Of District Four

Quilling, Bell Pitch Locals To Straight Wins Over Ocala

Last weekend saw the baseball aggregation from Co. 453 traveling to Mulberry for the beginning of a three game series with Co. 1420 from Ocala. The winning team to be declared the sub-district champions. Plans were changed at the outset and both teams decided to remain over and play a second game on Sunday morning. Co. 453 won a hard fought game Saturday afternoon by a 6-2 score, then came back the following morning to take an easy 8 to 1 win. Both these wins by Co. 453 eliminating the necessity of playing a third game.

Fowler started on the mound for 453 Saturday, and after a shaky start in which he allowed 1420 to score two runs in the first inning settled down in the second, only to sprain his ankle and have to be carried off the field. Quilling, who also plays for the Sebring Foremen, then took over the hurling duties and let the Ocala team down to four hits and no runs during the rest of the game.

Bell and Leighton of the Sebring team led the hitting, each getting two blows, but the most damaging hit as far as 1420 was concerned was Bulger's line single with the bases loaded in the second.

Gravett and Kirk formed the battery for the Ocala team and with a little better support might have fared better. Dewhurst starred in the field and at bat for the losers.

With Quilling and Fowler both used up the first day, Coach Boudet pulled a surprise move and started Bell in the second game. Bell came through in fine style allowing only five hits and no earned runs. The only run scored by Co. 1420 came across in the first inning after three successive errors by Co. 453.

The game started out as though it would be a pitcher's battle, Co. 453 going into the fifth still behind, 1 to 0. At this stage Bulger reached first on an error, stole second, was sacrificed to third, and then brought in by a perfect bunt by Strobel. Two hits and two more bunts followed scoring five runs in all. This clinched the game and assured Co. 453 of the trip to the district championships to be held soon.

Britt and Strobel led the batters (Continued on Page Three)

DAILY RECORDS NOW KEPT

Daily records of the educational program are now being kept by the educational adviser. This is a new policy instituted by district headquarters and so far has worked out most satisfactorily.

Previous to this, weekly and monthly reports had been kept. With this new addition the ground will be well covered and records up to date at all times.

THE ROGERS-POST

Hemrick, Hutto, McLarty

Captain L. P. Warren, Commanding
A. C. Altwater, Project Superintendent

Rookies, you have had the opportunity of enrolling in the three C's. Show the Government and your parents that you are grateful for it. By personal conduct, let it be known that the privilege is appreciated by giving a good day's service for every day that you spend in the organization.

The CCC has a two-fold purpose. First, to provide healthful employment for the largest possible number of idle young men and at the same time to make it useful employment and not a charity or a dole. Something that will be of present value and of increasing value as years go by.

The second measure in this two-fold program is to train and equip young men, so upon leaving the service they can take their place in the fields of industry, commerce, agriculture and social life.

One of the best and important ways in which you can equip yourself for your respective place in life, is to take advantage of the excellent Education Program offered in all camps. See the Educational Adviser at your earliest convenience. While enrolled in the CCC will be the best opportunity to study and obtain an education.

A few weeks ago this paper carried an editorial concerning the urgent need of a larger and more adequate recreational hall. Since that time certain things have developed which make the matter of a hall impossible at this time. During the same period, the company has come into possession of some money of which a part could be used very nicely for the purpose of purchasing some games as well as other recreational devices for the entertainment of the boys. Subscriptions to a few leading newspapers would be a good thing. Newspapers will help to give the enrollees a wider range of reading material, thus giving them information on the happenings of the world at large.

"The best paper that I have seen in the district," was the opinion advanced by Captain Hugh B. Dudley, sub-district inspector, when he was asked to comment on The Rogers-Post. Members of the staff are proud the paper has this distinction, being the best in the district. It is very gratifying to know that the first issue of the regular newspaper publication has met with such overwhelming success. Praise has been voiced by all who have come in contact with a copy.

Sickness is a very unfortunate circumstance to encounter, but those who have met with this misfortune, in the camp, have the assurance of being in the best of care. Dr. McDaniel and his first aide, James Cocker, give the boys every consideration and attention possible.

Fourth of July Dance was the biggest that has been held in camp and was a success in every respect. Everyone wishes to thank Lieutenant Morrow, and all others, taking part in making it an event to be long remembered.

UNDER THE SHADE TREE

And it came to pass that "Shorty" Dotson finally attended a class. Of course he did not get into the class room under his own power, but then, who wouldn't go when pursued by McLarty and Rivenbark.

Lieut. Morrow: Well Reddish, I guess I'll have a cheese omelette this morning.

Reddish: Will you have some eggs in your omelette.

Incidentally. Who threw Lt. Morrow's fishing pole in the lake and why?

Who was the young lady desiring information on the return of Cheshire?

The kitchen force would like to know why McRae gets ice water every morning?

The golf bug is still sweeping the camp. If Cheshire doesn't get back soon his other two clubs might also be broken.

Slave Driver Fletcher has lost his reputation. It seems that Curley Bell is driving his rookies to such an extent that there were threats of going over the hill.

THE GLORY OF LOVE

You've got to give a little, take a little

And let your poor heart break a little

That's the story of that's the glory of love.

You've got to laugh a little, cry a little

Before the clouds roll by a little

That's the story of that's the glory of love.

As long as there's the two of us
We've got the world and its charms
And when the world is through with us

We've got each other's arms.

You've got to win a little lose a little

And always have the blues a little
That's the story of that's the glory of love.

Another thing we'd like to know: Where did Strobel go when he went to town to get a three-cent stamp and why was Leighton on needles for two days thereafter.

Girl: I enjoyed the dance Raymond, but I don't see why you didn't dance more with me.

Ray: I'm sorry, too, but I had quite a lot of intermission work to do.

Travis: I'll give him week end KP for that.

Ray: I'll see you on the wood pile, Travis.

It came to us that Charley Long was a very speedy young man. In fact, if we are to believe the story, he was too fast to control himself and ended on his nice clean white shirt on someone's front porch.

Quilling finally put in his hours of extra duty. Of course "Barney" was always willing, but something always seemed to turn up to prevent his working.

And in conclusion—won't someone please get Farr a drum?

TWISTED COMPARISONS

This quotation might well be the cause of so much goldbricking: "The dreamer lives forever, while the toiler dies in a day."

Rookies, Rookies, everywhere and the camp looks fine again.

There is nothing like a snappy half-hour of drill to wake one up.

A fine song title: "Pop, goes the quill!"

The longest hour, I've been told, is the one between eleven thirty and twelve-thirty on Fridays when the school kids have gone to camp.

A veteran really feels his importance when rookies arrive.

A severe shock—when you pause with your foot resting on the shovel, and your mind wanders to a life of ease and a damsel fair, then some one is sure to say: "All right, a little more on the handle!"

How true! Today is the tomorrow I worried about yesterday.

Who does not gurgle with glee when he is fortunate enough to miss a "show down" inspection?

Good sport—Fighting for your place when the command "squads right" is given.

Oh, oh, there's a swell argument in hut twenty-four. Let's go get in it.

A Parting shot—

Could anyone tell me anything about this "striped paint" or whether the key to the water tank was found or not?

PARK SERVICE CLUB DROPS NIGHT GAMES

Last week saw the highly touted Park Service team of Co. 453 take it on the chin in two contests which knocked them out of first place. The first game was lost to the army team of Co. 453 by the score of 3-2 in an exciting battle while the Junior team of Sebring took their measure in the second encounter to the tune of 12 to 6.

The game between the Army team and Park Service team left nothing to be desired as far as airtight ball was concerned, both teams performing very notably. Niles, Army pitcher, hurled shutout ball until the ninth frame when Strobel, third sacker let one slip through his legs and permitted two runs to come in. Every game between the two camp aggregations promises to be one of great excitement and interest as a strong feeling of rivalry exists between them.

Again Friday night in a game with the Juniors of Sebring the Park Service team drank deeply of the dregs of defeat. Both teams played loose ball and each contributed its share of errors but it seems as though it was the Juniors' night to win so win they did, the final score being 12 to 6.

Batteries for the Army-Park Service game were Niles and Quilling for the winners; Hood and Leighton for the losers.

R. Surrency and J. Freeland formed the battery for the Juniors Friday night while Beatty and Watson hurled and caught for the losers.

CHAMPIONSHIP TEAM TO TRAVEL

The baseball team of Co. 453 is soon to travel in quest of the district title. Having won the sub-district championship in Mulberry last week end, the team feels confident that it will make a good showing at the district tournament.

It is not yet known where the district tournament will take place, but it is understood that it may be either in Olustee or in Ocala. The leading team of that part of the district at present is the strong Fargo, Ga., outfit. Homerville, last year's champions, seems to have been eliminated.

CAMP 453 TEAM WINS BASEBALL TITLE

(Continued from Page One)

In this game with two hits apiece. Hogan pitched a good game for the Co. 1420 team but again the Ocala support cracked.

BALL BEARINGS

The most sensational catch of the season was made by Leighton in the second game—a running diving catch of a foul fly.

Much credit for the splendid showing of the team in the second game should go to "Trainer Sweet-heart" McLarty for keeping the ball chasers from the bright lights.

The bunting game finally clicked in Saturday's game. One run behind going into the fifth, the company aggregation managed to squeeze in five runs through the medium of three bunts and two hits.

Strobel got into the hit column Saturday by banging out two hits, one of them being a lusty double to right center.

The team suffered a blow in the first game when Fowler had to be taken out after the second inning with a severely wrenched right ankle.

Bulger was robbed of a double when his fair drive into right field was called foul.

The only run scored off Bell was unearned and entirely due to errors.

Hogan, spunky Ocala infielder and pitcher, suffered from scratches and bruises about the face when he collided with a stake while chasing a fly ball.

The Ocala team proved itself to be one of the most sportsmanlike outfits encountered by 453 this season. Nice going, boys.

MOTOR TO RUN AGAIN

The mechanics class, with the aid of a hand full of borrowed tools, has been struggling for the past two weeks with an old motor. It won't be long before it's running again.

COMPLETE COURSE IN LIFE - SAVING

Clyde Smart and Emmett Barrett have just returned from Co. 451, Olustee, Fla., where, together with representatives from the other camps throughout the state, they attended a life saving school which lasted for one week. With Smart and Barrett completing the course in fine style, Co. 453 can now boast of four members possessing life saving certificates, which fact leaves the camp pretty well supplied as far as life guards are concerned. Most of the enrollees are pretty fair swimmers but for those who are inexperienced there will be a guard on duty.

balls—By Gravett, 1. Hit by pitched ball—Strobel (2) and Beatty by Gravett; McCullough by Fowler. Winning pitcher—Fowler.

NEW CLASSES FOR CAMP ARE STARTED

Beginning this week two new classes are expected to get into operation. One in woodworking to be taught by Lieut. Morrow and one in typing to be taught by Roy Barnes.

The wood working class will only cost the members the price of the materials necessary for the work. The equipment expected to be ready for use in the near future consists of a jig saw, a lathe, an electric motor, and numerous hand wood-working tools. The shop is to be situated in the old dark room where The Rogers-Post was printed.

The typing class will cost all members desiring to take it 60c per month. This fee will take care of typewriter rental. So far four members have signified their intention of taking the course, all others wishing to sign up should see Mr. Boudet as soon as possible and make the necessary arrangements.

LISTEN!!

By R. G. FARR

This bunch of "rookies" are obliging about acquiring (or trying) such articles as "revalie oil", "box stretchers" and "keys to the water tank" for some of us. Keep it up!

Both Lamb's and Bulger's "Big Moments" will soon be back from up north. What a nice case for blackmail.

We hear that a local girl named Sue was giving Sweetheart McLarty the "eagle eye", one night at the ball game.

It seems that a preacher said a few words to "Pinky" Taylor on the Glorious Fourth and he has been treading on air ever since. I wonder what it was?

Two of the boys are trying to get into the navy. No more goldbricking for them.

The "fever blisters" on Ralph Page's lips are better. He must be staying in camp. In the right surroundings, the moon light will blister, my boy.

Leroy Skinner was taken to the station by his dad, when he left for the CCC. Having always lived a good ways out from town, Mr. Skinner asked: "How long have you signed up for, son?" Leroy: "For only six months." Mr. Skinner replied, "Well, I'll just wait at the post office till you get back, then you won't have to wait for me to come after you."

THE CCC CAMP

Roosevelt in his proclamation
With inspired revelation
Calls the boys throughout the Nation
To the CC camp.

In his plan of preservation
Helping in the restoration
Keeping rules and regulation
In the CC camp.

On his tour of visitation
Boys give him a great ovation
For his kind consideration
To the CC camp.

Our great and glorious Nation
In this work of cultivation
Gives the boys an education
Through the CC camp.

In the task of reclamation
Get good food and recreation
There's no ground for lamentation
In the CC camp.

Helpful is our remuneration
In work and play no limitation
Greater than the best vacation
Is the CC camp.

The Captain does the explanation
The Boys they do the observation
The Sergeant calls it civilization
Out in the CC camp.

A lovely spot and ideal location
Model home of sanitation
Plenty of pep and stimulation
In the CC camp.

Music and song some recitation
A morning prayer with meditation
Brings the army of salvation
To the CC camp.

Out of this youthful generation
A boy some day will lead this nation

In its joy or tribulation
Hurrah for the CC camp.

Commandant George Jaeger
Sebring, Florida.

NEW RECRUITS ARRIVE

Seventeen new recruits arrived in camp July 7 from the east coast and are going through the period of conditioning before being turned over to the using service. From all indications the boys are pleased with CCC life.

PARK JOTTINGS

By C. R. BRITT

Calvin Britt and Hollie Hatchell on a scouting trip for a Fire Lane in Charles Bowlegs Creek swamp, the other day found a "lovers' vine" which they both broke a piece off and threw over their shoulders to see if it would live.

The next day Hatchell was leading the crew back to the starting point of the day. He seemingly got lost, but was headed for the spot of the "lovers' vine," to see if it was living. (If the vine lives the girl loves you). So if Hatchell is absent from bed check or goes AWOL, you might guess where he is.

We wonder how (Sleeping Beauty) Quilling likes his newly acquired position. Stick in there with'm Sleeping Beauty.

The Park Service, SP-3, has a large GMC truck which they borrowed from the Forestry Department. It is so long that they measure the wheel-base in yards instead of inches. It seems that John Russell (Huckel Berry) Strobel, an ex-army truck driver has been appointed pilot for the monster. He plans on making the score even with the Avon Park law by going through the town sideways. (What a shame to demolish the town like that, Huckel Berry.)

Ollie Weaver, known to many of his friends by another name, was complimented the other night for the excellent scaffold that he built. It is rumored that the scaffold saved his life many times that day.

Have you noticed?

That Mr. Altvater is lost without his walking stick—it is unusual to see Mr. Mann without a stub of a cigarette in his mouth—Mr. Norris is capable of attracting an audience any time—Mr. Cornell's ability to turn out excellent and neat work in such a short time.
