June is Men's Health Month. Many health concerns exist in men due to higher testosterone levels typically found in men. Sailors, Marines and DoD civilians may contact the Health Promotion team in the Fleet Recreation building or make an appointment with their Primary Care Manager for more information.

## I.C.E. COMMENT

Interactive Customer Evaluation (I.C.E.) allows DOD customers to rate products and services provided by DOD offices and facilities worldwide. Your comments and input are used to improve the products and services available to you.

### Comment:

It would be great if you could replace some of the water fountains with bottle filling stations or combo water fountain/bottle filling stations at Purdy Fitness Center and the Fleet Recreation Center gyms. The majority of people I see using the water fountains are trying to fill their water bottles. They often spill water on the floor because the fountains are not designed to fill bottles. Additionally,

can we ask the staff to turn down the volume on the radio in the morning? It is distracting. Most people seem to have headphones on so it probably doesn't bother them, but the morning show hosts are a little much when you're trying to work out.

### Response:

Thank you for your feedback on the Quality of Life programs here in Yokosuka. Requests have been approved to purchase Elkay Water Refilling Stations to

equip both Fleet Recreation Center and Purdy Fitness Center gyms. Our goal is to have these fountains installed as soon as possible. Additionally, your concerns about the radio volume will be addressed by our gym staff who are trained to ensure volume and content of the radio are not distracting to our customers. Thanks again for your feedback and we appreciate your continued patronage.
