PUBLIC SAC MEETING TO VOTE ON NEW ACADEMIC POLICIES IS MAY 24

HOURLASS REPORT

Changes recommended to existing academic policies that would impact student transcripts and grade point averages (GPAs) will be put to vote during a special public meeting of the School Board Advisory Council meeting on May 24. Initial research to inform the policy change was presented in a SAC meeting May 17 by two research committees designated to study the issues of class ranking and credit earned and displayed on academic transcripts and the weighting of advanced courses.

The official school handbook does not currently indicate whether a student's class rank will or will not be placed on a transcript. The committee to explore class rank, led by Michelle Teigan, recommended Kwajalein Jr./Sr. High School not place rank on transcripts unless specifically requested on a form to be completed by parents and students. Currently the ranking is printed on all transcripts.

The committee to explore weighted grades, led by Gary Kohler, found that Kwajalein High School transcripts currently reflect a weighted 4.0 GPA system

awarding "quality points" for Advanced Placement (AP) courses. AP class grades are awarded 1.0 quality points for GPA calculations. Transcripts for all students enrolled as of the adoption of this existing policy reflect this weighting.

Should the recommended change be approved in the vote, it would mean that Kwajalein Jr./Sr. High School would award a weighted grade (quality point value) for incoming or current students who complete courses and take the requisite exams for AP and/or IB second year, higher level course credit. Weighted grades that are not in an AP or IB course such as an honors course or pre-AP course would be assigned the point-value of the letter grade based on Kwajalein Jr./Sr. High School's unweighted scale used in calculating the GPA.

Research of these issues is ongoing. Any students and members of the community who would like to learn more about the issues or voice an opinion should contact a SAC representative. The vote to finalize recommendations will take place in the Coconut Room, Room 29 of George Seitz Elementary School on Wednesday, May 24 at 7 p.m. Further

questions and concerns may be directed to Kwajalein Superintendent of Schools Chad Struhs at 52011.

For over 60 years, Armed Forces personnel, families and friends all over the world have enjoyed the Kwajalein Hourglass. Help us track Hourglass circulation by entering your location in an online survey at <https://www.surveymonkey.com/r/CC26TXQ>. Check back in an upcoming issue for a map to find out where the Hourglass is read.

-The Hourglass Editors

THE KWAJALEIN HOURGLASS

The Kwajalein Hourglass is named for the insignia of the U.S. Army 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944.

The Kwajalein Hourglass is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Garrison-Kwajalein Atoll. Contents of the Hourglass are not necessarily official views of, or endorsed by, the

U.S. Government, Department of Defense, Department of the Army or USAG-KA. It is published Saturdays in accordance with Army Regulation 360-1 and using a network printer by Kwajalein Range Services editorial staff.

KWAJ DJS PREP EDM DANCE NIGHT

FEATURE / JESSICA DAMBRUCH

U.S. Army photos by Jessica Dambruch

ABOVE: Steven Felicien (DJ Friendzone) and Brent Tumlin (DJ SOG) test lighting equipment at the Kwajalein Country Club, May 17.

Steven Felicien and Brent Tumlin stand in the paved heart of the Country Club courtyard surrounded by pools of nacreous light. They are testing electrical gear. Their DJ mixing boards, cables and lighting equipment are arranged around them on the bare slab they will transform into a dancefloor at the upcoming electronic dance music (EDM) event, "All of the Lights," May 28.

Together the DJs watch glowing patterns track and splash on the ceiling and floor.

"What about this?" asks Felicien. He cues a song with heavy bass to pump through his portable monitor speakers. Lighting sensors affixed to the pillars swivel and pick up the beat.

"Needs more lights," Tumlin says. He adjusts a speed setting on a black control panel. The walls shimmer and shift from pale purple to blue.

If you have ever enjoyed dancing at your local stateside or European club night, check out "All of the Lights." Felicien (DJ Friend Zone) and Tumlin (DJ SOG) have planned their EDM event to offer Kwajalein residents another fun way to enjoy the community.

A cash bar will open at 8 p.m. for a social hour before the DJs take the floor at 9 p.m. Glow gear is encouraged. Dancers should come prepared to dance the night away until 1 a.m. The courtyard dance area will be flanked by barside seating areas for dancers to rest between songs and take in

Kwaj by night with a cold beverage.

"The Country Club is such a great place," said Felicien in an interview May 6. "When you're there, you feel like you're far away, in a new place."

The DJs were inspired to take on their EDM initiative to share the music they enjoy with the Kwajalein community—and to actually see their friends.

"Kwajalein is such that your friends who work in different departments, may only be seen on the weekends. Everyone is very busy," said Felicien. Hence, the name for the DJ duo when they perform: The Weekend Friends.

Felicien and Tumlin emphasize that a friendly event atmosphere will be maintained throughout the evening. They welcome visitors to Kwajalein, TDY personnel, and anyone aged 21 and over to venture out to support "All of the Lights."

The DJs are already planning future themed dance night events and mixing a variety of music for the crowd on May 28. Dancers can expect to hear top 40 hits seamlessly blend into dance-style beats drawn from different genres, and favorite and new musical artists.

And fear not: both of the guys have different musical tastes. You're bound to hear music you like.

"I have a different, old school style," says Tumlin. His taste in music led him to adopt the name SOG, which stands for "Some Ol'Guy."

Felicien prefers a blend of current and popular dance hits. And the mystery behind the name DJ Friend Zone?

"I just want people to come out and enjoy the event. To be friends," Felicien grins.

"It's going to be a high-energy, friendly crowd. We're not particularly defining how you have to party on Kwaj, but this is something new. We want to do this to encourage people to be a part of the community," says Tumlin.

ABOVE: The Kwajalein Country Club transformed by light and color awaits the "All of the Lights" EDM dance party, May 28.

FEATURE / JORDAN VINSON

A lemonpeel angelfish is spotted among coral rubble in lagoon waters near North Point on Kwajalein.

Captured in the image above is a lemonpeel angelfish (*Centropyge flavissima*), a common reef fish found throughout the Marshall Islands and the greater Pacific Ocean.

The species takes its common name from its vibrant yellow exterior, which makes it easy to spot among the coral rubble, reef slopes and coral heads it inhabits. Another easy identifier for the species is the presence of sky-blue highlights encircling its eyes and running along the tips of its dorsal and caudal fins.

Staying typically within a depth range of 3-25 meters, the lemonpeel feeds primarily on filamentous algae. Its social structure is a harem-based model, with several females attending to one male, which can undergo a male-to-female sex change over the course of two-three months.

The International Union for the Conservation of Nature classifies the lemonpeel as a least-concern species, citing common and stable populations throughout the Pacific, especially Micronesia. It is targeted for collection in the aquarium trade, but harvest levels have not reached levels that represent a threat to the species' global population, the organization reports.

THUMBS UP

The American Legion Post # 44 at the Veterans Hall would like the community to know how much we appreciate the exceptionally hard work performed by all of our volunteers and Staff that made for our annual MoMgolian BBQ such a great success!

There is a rather large list of folks to thank for this. So without further ado, thank you to the volunteers: Jane Boyce, Jim Bramblett, Tim Gray, Scott Cottrell, Don Engen, Cindy Engen, Doug Hepler, Sean Connell, Barb Bicanich, Brittany Nichols, Kathy Reith, Dan Farnham, Tara & Kate Smith, Paul Morris, and the Boy Scouts! Thank you to Neil Dye and Gus Garcia for spinning great music! And Community Activities for tables, chairs and the tent!

I would also like to add a very special thanks to Jo Ann Hermon and the Surfway team for all that they do behind the scene helping us with procurement for this event and the things that they do at the store that most folks never see. Also, special thanks to Jan Abrams and the Hall Staff for staying away from home for the pittance we pay you.

Thank you all from the bottom of my heart for giving your time to make the community's time here on Kwajalein just a little bit better.

Mike Woundy
Commander, American Legion Post #44

HOW TO SUBMIT HOURLASS AND ROLLER ANNOUNCEMENTS

Here's how to put a community announcement in the Kwajalein Hourglass or on the AFN roller TV Channel:

- Obtain an Hourglass Publication Request form or an AFN Kwajalein Roller Announcement Request form on the USAG-KA-web intranet website.
- Click the "Community" tab at the top of the page and click on "Hourglass" in the dropdown menu. Each form is located in the "Libraries" submenu at left. Follow the form instructions, and send the form to the appropriate email address listed on the form.

NOTES: 1) Submit your Hourglass ad by Noon Wednesday for publication on Saturday. 2) The Roller Channel is updated twice each week, usually Wednesday and Saturday.

- Don't have access to the USAG-KA-web intranet site? Send an email to Media Services at usarmy.buchholz.311-sig-cmd.mbx.hourglass@mail.mil. A staff member will email you the form(s) directly.

NOTICES OF AVAILABILITY

NOTICE OF AVAILABILITY, Flight Experiment 1 (FE-1) Draft Environmental Assessment (EA)/Overseas Environmental Assessment (OEA) and Draft Finding of No Significant Impact (FONSI)

On behalf of the Office of the Under Secretary of Defense for Acquisition, Technology and Logistics, the Department of the Navy Strategic Systems Programs announces the availability of the FE-1 Draft EA/OEA and Draft FONSI. The Draft EA/OEA assesses the potential impacts associated with one experimental flight test from Kauai Test Facility, Pacific Missile Range Facility, Kauai, Hawaii, to the US Army Kwajalein Atoll (USAKA), Ronald Reagan Ballistic Missile Defense Test Site. The Navy developmental payload would impact at USAKA with three possible impact zone scenarios. The first possible impact zone would be in the deep water region southwest of Illeginni Islet. The second possible impact location would be a land impact on Illeginni Islet. The third possible impact zone would be within the Kwajalein Missile Impact Scoring System area southeast of Gagan Islet. The proposed flight test would occur within a year after signing the Final FONSI, if approved. Requests for a copy of the Draft EA/OEA and/or the Draft FONSI and mailed comments should be directed to:

Strategic Systems Program
ATTN: Mr. Fred Chamberlain
1250 10th Street, SE

Washington Navy Yard, DC
20374-5127

The Draft EA/OEA is available for public review from May 19, 2017 to June 19, 2017. Mailed comments need to be postmarked by June 19, 2017. Comments received on the Draft EA/OEA and responses will be provided in the Final EA/OEA. Interested parties can also review the draft FONSI and the draft EA/OEA and provide comments on the internet at https://tbe.com/Flight_Experiment_1_Documents_for_Public_Review or at the following locations:

WEEKLY WEATHER OUTLOOK

RTS WEATHER STATION STAFF

WEATHER DISCUSSION: Through mid-May we have received 2.11 inches of precipitation at the weather station, or 58 percent of normal. The latest climatological forecast from the National Weather Service's Pacific ENSO Applications Climate Center calls for average to below average precipitation for Kwajalein and Majuro from May through July.

Meanwhile, a strengthened sub-tropical high is sitting north of Kwaj in the vicinity of Wake Island, causing our trade wind speeds to increase to a range of 15-20 knots. The ITCZ will be active along 5-6 North latitude, gradually drifting northward by Monday and bringing in increasing showers after a pleasant Saturday-Sunday. The ITCZ will in the area into next week.

SATURDAY/SUNDAY/MONDAY FORECAST: Winds east-northeast at 15-20 kts on Saturday will decrease to 13-17 knots by Monday. Saturday is mostly dry with stray showers with shower coverage to widely scattered by Monday.

MID-WEEK FORECAST: Scattered showers Tuesday and Wednesday becoming widely scattered for Thursday and Friday. Winds will be east-northeast at 13-17 knots with stronger gusts near heavier showers.

A record crowd of nearly 700 devotees of prehistoric stuff stretched the boundaries of the Richardson Theater to their limits last Saturday night when the movie, "Jurassic Park," filled the silver screen with wonder and young minds with things of which nightmares are made

DynCorp receives Aviation Safety Award

On May 12 the DynCorp Aviation Services Department received an Aviation Accident Prevention Award of Excellence from LTG Donald Lionetti, Commanding General of the U.S. Army Space and Strategic Defense Command. The award recognized the completion of twelve years of accident free aviation operations. Included in the General's comments were recognition of the Aviation employees that were responsible for the transition from C-74 Caribou's to Shorts 3-30's then to DeHaviland Dash-7's, the consistent support provided to the large numbers of heavy military and civilian passenger aircraft that transit our Army International Airfield, the dependability of the helicopter operation, and a special notice of the mechanics that keep the aircraft airworthy so this impressive milestone could be reached

Chuck Eady accepts Aviation Accident Prevention Award of Excellence on behalf of the entire Aviation Department from General Lionetti. The award recognized Aviation Services yearly processing of 180,000 passengers, nearly 10 million pounds of air-cargo, and distribution of 705 million gallons of jet fuel for 7900 commercial and military aviation operations, two airfields, and eight heliports.

NOTICE OF AVAILABILITY, USAG-KA Draft Document of Environmental Protection Flight Experiment 1 (FE-1)

The U.S. Army Kwajalein Atoll (USAKA) Environmental Standards (UES) require that the operating parameters of US Army Garrison-Kwajalein Atoll (USAG-KA) activities with the potential to affect the public health and environment must be defined in a Document of Environmental Protection (DEP). The UES further provide that regulatory agencies and the public be allowed to review and comment on a Draft DEP.

The Draft DEP for Flight Experiment 1, April 2017, provides the proposed requirements and limitations for conducting a single flight test at USAKA by the U.S. Navy. The public is invited to review and comment on this Draft DEP. The Draft DEP is available for review at the Grace Sherwood Library, the Roi-Namur Library, the RMI Environmental Protection Authority (RMIEPA) offices on Ebeye and Majuro, and at https://tbe.com/Flight_Experiment_1_Documents_for_Public_Review. Questions regarding the Draft DEP can be directed to: Mr. Thomas M. Craven, U.S. Army Space and Missile Defense Command/Army Forces Strategic Command (USASMD/ARSTRAT). Written comments can be directed to:

Mr. Thomas M. Craven
USASMD/ARSTRAT
ATTN: SMDC-ENV
P.O. Box 1500
Huntsville, AL 35807-3801

A period of 30 days will be provided for public comment. Comments should be postmarked no later than June 19, 2017.

NAME THAT BOAT

USAG-KA wants your help in naming the ten new B-Boats arriving on Kwajalein and Roi-Namur throughout 2017. The names must be no more than 15 characters in length, including spaces, and no more than two words. All names must be appropriate and "family-friendly." Submit your B-Boat name ideas to usagkapao@gmail.com by June 1 with your full name and contact phone number. Finalists will be selected by Col. Mike Larsen and published in The Kwajalein Hourglass before the 'christening' of the vessels.

UNITED CHECK-IN TIMES

Monday, United 155—**3:30-4:45 p.m.**
Tuesday, United 154—**11-11:30 a.m.**
Wednesday, United 155—**2:30-3:45 p.m.**
Thursday, United 154—**11:30 a.m.-Noon.**
Friday, United 155—**3:30-4:45 p.m.**
Saturday, United 154—**11-11:30 a.m.**

ATI CHECK-IN TIMES

Early departures—**7:45-8:15 a.m.**
All other departures—**8-8:30 a.m.**
*Check with your ATI flight representative to confirm check-in and flight departure times.
