SMDC/ARSTRAT LT. GEN. JAMES DICKINSON AND ANGIE DICKINSON VISIT STUDENTS AT CARLOS PUBLIC ELEMENTARY SCHOOL.

MAJ. DAN LACARIA

DICKINSON VISITS USAG-KA

HOURLASS REPORT

SMDC/ARSTRAT/JFCC-IMD Commander Lt. Gen. James Dickinson visited Kwajalein and Majuro this week. This was his fourth visit to Kwajalein since taking command. He was accompanied by his wife Angie. Garrison and range staff sections took the opportunity to update Dickinson on operations and support to range activities. The general visited the ongoing shoreline clean-up project at the old Navy Dump on the western of the island, as well as former, current and planned housing areas at the northern end of the island.

RMI Secretary for the Ministry of Foreign Affairs Bruce Kijiner accompanied Dickinson on a visit to Ebeye. There they met with the acting mayor and other local officials. After meeting with the mayor, the group visited Ebeye's public elementary school and the mid-atoll housing area, where he was briefed on the local government's plans to build new housing units. These units would go to the residents relocated from the mid-atoll corridor islands to Ebeye during the Nike "X" missile testing beginning in the early 1960s.

The group also visited Carlos (Ennylabegan), meeting local residents and leaders. Dickinson also took the opportunity to donate school supplies on behalf of SMDC to the school officials and students.

Community Town Hall

Consistent with his previous visit, Dickinson took time to meet with residents of Kwajalein in an evening town hall Aug. 24 at the Kwajalein Jr.-Sr. High School MP Room. He briefed residents on past and current operations across the SMDC spectrum. Highlights included THAAD, Nimble Titan, JTAGS and MEHEL, a successful demonstration of a combat laser on the battlefield against unmanned aerial platforms. Dickinson commended

the First Space Battalion in Colorado and discussed the Kestrel Eye microsatellite.

Together Dickinson and Col. James DeOre, USAG-KA commander, described infrastructure improvements to take place around the garrison in the next 10 years. These include new housing, Echo Pier and runway repairs to Bucholz Army Air Field and Dyess Army Air Field. DeOre said he looks forward to the demolition of the North Point Army housing and the construction of new quarters on the garrison.

Shoreline Metals Clean-Up

The colonel also said he looked forward to the completion of the debris and shoreline metals removal project at the site of the old Navy Dump.

The project included the offloading and arrangement of 12,000 tons of rock from a barge at the south end of the island to armor the shoreline from the surf.

Prinz Eugen Oil Removal

"This is a great news story," said DeOre of the clean-up project.

The Prinz Eugen wreck has sat against the east reef Ennubuj for the past 70 years. The superstructure of the hull has deteriorated and U.S. Navy divers are now mapping, tapping and capping 174 separate fuel tanks inside the wreck. The salvage operation is facilitated by the USNS Salvor and tank vessel Humber. The project is expected to take at least 45 days.

Residential Communications

The garrison continues to work on a long-term solution for internet and phone services. Services will continue in their current format through at least Dec. 31.

"By Dec. 31, we have to have an on-island solution," said DeOre. "It's not solved yet, but we're working toward a solution."

THE KWAJALEIN HOURLASS

The Kwajalein Hourglass is named for the insignia of the U.S. Army 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944. The Kwajalein Hourglass is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Garrison-Kwajalein Atoll.

Contents of the Hourglass are not necessarily official views of, or endorsed by, the U.S. Government, Department of Defense, Department of the Army or USAG-KA. It is published Saturdays in accordance with Army Regulation 360-1. Phone: Defense Switching Network 254-3539. Local phone: 53539. Printed circulation: 730.

Kwajalein Hospital

Residents raised questions about the current status of the Kwajalein Hospital to include staff retention and the availability of supplies and equipment to provide proper first response in the case of emergencies and after-hours emergency calls.

DeOre thanked the residents for expressing these concerns and for allowing the command to address them.

The hospital is maintaining staffing levels, although some faces are changing, leaders said. Also, Kwajalein emergency services are in accordance with Army community standards, they said. Capt. Brian Stevens, Director of Emergency Services (DES), reiterated that time of response meets the community's requirements.

"The hospital is stocked with what we need for critical tests," DeOre said. The U.S. partnership with the RMI provides additional options between hospitals if necessary.

Chief Warrant Officer 2 Jarell Smith addressed questions related to the supply and restocking of food on the barge deliveries and the amount of discount items available near restocking dates on island.

DynCorp International Program Manager David Egge said the new point of sale system at Surfway went live earlier that day and includes a mechanism to provide data useful in food ordering and supply process on the garrison.

Vehicle Wear and Tear

A public works employee expressed concern for the dwindling fleet of work

U.S. Army photo by Maj. Dan Lalaria

vehicles, such as forklifts, that were not replaced after normal wear and tear. His question was directed to DI leadership for further information.

Garrison Communications

A Kwaj resident asked if the garrison might consider leveraging available channels of communication on island to reach out to the community regarding recent changes at the hospital, retail pricing and conditions that impact supply. The colonel said we are fortunate

here to have our own newspaper, TV channels and radio station, and he would explore additional means on future communications.

"Thank you for bringing the concerns you already have to us," said DeOre in closing.

Finally, as part of Dickinson's visit to the Marshalls, he and DeOre met with U.S. Ambassador to the Republic of the Marshall Islands Karen Stewart and RMI President Dr. Hilda Heine. The Dickinsons departed Kwajalein Aug. 28.

ENERGY CONSERVATION MEASURES BEGIN SEPT. 11

PUBLIC NOTICE

Johnson Controls Federal Systems (JCFS) contractors, with support from the Housing Services Department, will begin implementing Energy Conservation Measures in housing structures beginning Sept. 11.

This effort is part of the Energy Savings Performance Contract (ESPC) intended to im-

prove energy efficiency and improve tenant comfort.

Work durations should last only a few hours in each location. For areas where lighting will need to be accessed, please ensure access to fixtures is available in order to keep disruptions to a minimum.

If you require someone to be

present during this effort, have pets or other specific needs please contact Misty Jones at Misty.Jones-ext@jcifederal.com or 5-1927 for appointments within your scheduled time frame.

For additional information please contact Rob Hickman at Rob.Hickman-ext@jcifederal.com or 5-1927.

RTS RANGE DIRECTOR LOOKS BACK

FEATURE/JESSICA DAMBRUCH

Ronald Reagan Ballistic Missile Defense Test Site Range Director Lt. Col. Christopher Kennedy filled the RTS conference room with his laughter. It was nearly time to leave the island he'd first visited in 2012 as a Terminal High Altitude Area Defense (THAAD) mission logistics assistant program manager, and his spirits were high.

Before assuming directorship of the range, Kennedy worked behind the scenes as a technical expert on his first tours.

"I literally replicated the logistics behind THAAD," said Kennedy of his visits in 2012 and 2014. "When they have spare parts, non-replaceable units and components—if they're deployed in theater—they put in a request for those parts to stateside manufacturers. Then those parts come forward in the theater. Out here at the Reagan Test Site, they don't have that kind of logistics. I would go down to the airfield and pick up circuit cards and LRUs and parts, and take them to the catamaran to take them to Meck island."

By far, Kennedy said his favorite mission was just this past year on May 31, 2017. It was an operation that was important to national security, he said.

"Demonstrating to our adversaries our capability to intercept and neutralize any kind of intercontinental ballistic threat that is out there" added Kennedy.

For Kennedy, a successful mission is not just a beautiful light show: It's a safe and well-orchestrated logistical machine that brings together teams of top minds.

"There's all of the logistics support that the garrison supplies RTS," said Kennedy, of the activity leading up to a mission. "There is the movement of material, our data collection devices and people. For me, personally, success comes when we're sitting at console. At that point it's out of our hands. We can detonate a missile with our detonation safety system, but the most difficult part is all the logistics leading up to it. If we're at console, and [the mission] goes off safely with no injuries or loss of equipment—at that point, I'm happy."

Kennedy expressed admiration for how RTS subject matter experts at Kiernan Reentry Measurements Site (KREMS), RTS, Massachusetts Institute of Technology at Lincoln Laboratory (MIT LL) and the Missile Defense Agency (MDA) work with USAG-KA Command to meet operational

U.S. Army photo by Jessica Dambruch

RTS Site Range Director Lt. Col. Chris Kennedy at RTS Headquarters in preparation for the culmination of his tour on RTS in mid-August.

challenges for the range.

"MIT LL [accepts] Marshallese student interns that have an aptitude [for] networking—it's mostly networking and how to set up the network, all the way up to IP configurations," Kennedy said. "The project they have now goes back to the hospital on Ebeye. They're trying to set up a network for them to make the hospital a little more efficient. It's a cool program. I'm glad they have that kind of community outreach where they give back. It's really cool to see."

MIT LL, in particular, assists the range with community outreach programs and forward-thinking projects that Kennedy says are valuable to the future of research and development for defense technologies.

"Our KREMS operators are the ones who know how our telemetry devices, safety devices and all of our collection devices work—and they maintain them. [But] Lincoln Lab comes in as technical experts that push the envelope and try to improve, upgrade and modernize the instrumentation. The operators know the day-to-day. Our partners at MIT/LL push us into the future so the range is relevant to the world as we see it."

Kennedy's commitment to defending the nation began at an early age. He was inspired to join the U.S. Army by his father.

"My father is a retired Green Beret," said Kennedy. "He served in Vietnam and

retired in 1990 when I was 15 years old. Growing up, I never thought about joining the Army. Right after he retired, Desert Storm [and] Desert Shield occurred. I remember watching CNN and thinking about what it means to protect the nation. I think at that point I made a decision that I wanted to be in the Army. Shortly thereafter, on my 17th birthday I enlisted in the U.S. National Guard, and I was accepted to the U.S. Military Academy, at West Point. It's been a blast ever since."

Through it all, Kennedy's sense of humor has stayed intact. He admits that working with minds at the cutting edge of science and the Department of Defense has affected his enjoyment of action movies. "I become a critic," said Kennedy. "This [uniform] has actually ruined movies for me. I see things—people jumping out of planes and doing crazy stuff and I just know it's so unrealistic. Now, I stick to comedies."

As he heads to a new command, Kennedy advises future Soldiers of the U.S. Army Space and Missile Defense Command/Army Forces Strategic Command to dig in and enjoy the unique challenges of their work.

"I like to joke and say no kid grows up saying they want to play Navy; they want to play Army," he said. "Being in SMDC might not be the most glamorous thing, but the role SMDC plays in the bigger structure of our U.S. armed forces is vi-

tally important. My advice is for someone assigned to SMDC is find out what your job is and be the best at that you can be. Don't let anyone stand in your way. Be relentless in your pursuit of doing your job the best you can."

Kennedy looks forward to returning home to spend time with the ones he's missed most during his tour: his family.

"My two daughters are competitive swimmers," he said. "I missed a lot of swim meets this year. My 10-year-old took second and third place in two events this year. I would have loved to have been there. There's a phone app that displays scores from swim meets. I'd get an alarm at 2 a.m., and check it out and see how they were doing."

As Kennedy prepares to turn over command of the range to Lt. Col. Jake Wamsley, he will think back on the part of the mission he's enjoyed most of all: the people he's come to know and the lifelong friendships that started on Kwajalein Atoll.

"It's amazing to see. Some of the work we do is so difficult. Everyone here is a part of this mission—the person working at Surfway, stocking at AAFES, the kids going to school—everyone who sets foot on this island is part of this mission. To see it all come together makes me proud....This place, as everyone knows, is completely different and unique. There is no other place like that in the world."

USAG-KA Command Staff, U.S. and RMI officials meet at the 2018 Joint Committee Meeting in Honolulu Aug. 17.

U.S., RMI OFFICIALS MEET AT JCM

HOURLASS REPORT

The annual Joint Committee Meeting, mandated by the Compact of Free Association, between the U.S. and the RMI was held in Honolulu on Aug. 17.

The U.S. delegation was led by U.S. Ambassador to the Republic of the Marshall Islands Karen Stewart. Other key stakeholders included USAG-KA Commander Col. James DeOre; PACOM J53, Capt. Robert Ogden; and the Department of State's FAS desk officer, Meghan Kleinsteinber. Other participants included representatives from SMDC, PACOM, USAG-KA, Honolulu MEPS, PACFLT and USCG District 14.

The RMI delegation was led by Minister of Foreign Affairs and Trade John Silk. Other key stakeholders included Minister-in-Assistance David Paul, Ambassador Gerald Zackios, and Consul General

Neijon Edwards. Other participants included representatives from MO-FAT, MINTA, RMI EPA and the Maritime Authority.

The U.S. delegation presented issues of mutual interest, to include security challenges in the Indo-Pacific region and U.S. Coast Guard activities in the RMI. Discussion related to USAG-KA included the Prinz Eugen oil offload project, shoreline debris removal from the old Navy Dump and energy reduction efforts. Additional topics included PACFLT's initial concept for RMI's inclusion in "Pacific Partnership 2019" with stops in Kwajalein and Majuro.

The RMI's discussion topics centered on the effects of climate change and sea level rise on the RMI, equal benefits legislation for the RMI, BOMI banking services for USAG-KA's Marshallese employees and the RMI's hosting of the 2022 Micronesian games.

Kwajalein Schools Early Release Reminder

School is back in session. Kwajalein schools students will be released at 2:15 p.m. every Wednesday during the 2018-19 academic year. After school enrichment programming is available for Child and Youth Services School Age Care and youth programs, and begins at 2:30 p.m. on Wednesdays. For more information about these opportunities, please call 5-2158.

A palm tree uprooted by strong winds Aug. 25 lies near Lagoon Road on U.S. Army Garrison-Kwajalein Atoll.

SUMMER STORM HITS KWAJALEIN

HOURLASS REPORT

In the early morning of Aug. 25, U.S. Army Garrison-Kwajalein Atoll residents woke up to strong winds and heavy rainfall. The inclement weather event continued into the late morning and flooded many areas of the garrison. According to a note from RTS Meteorologist Tyler Bodnar, several factors contributed to last week's the weather event. Described as an invest, it was an event to watch for potential tropical storm development.

"Showers are driven primarily by two different mechanisms on Kwajalein: low level convergence and upper level divergence," wrote Bodnar earlier this week.

"Saturday's event was a combination of the two along with westerly winds within a monsoon trough that created the circulation that could be seen on radar and satellite imagery," he added. "Low level convergence created upward moving air that condensed and formed showers with the upper level divergence enhancing this mechanism."

The enhancement generated show-

ers and high winds. The RTS Weather station tracked the Invest and shared statistics with the Kwajalein Hourglass. Wind gusts of up to 41 knots (47 miles per hour) were recorded on Kwajalein Saturday morning. Paired with the prior night's rainfall, Kwajalein had all the makings for an exciting morning storm.

"Friday afternoon and Friday night's showers dropped 4.05 inches of rain," Bodnar wrote. "Saturday's event dropped 5.89 inches of rain. Approximately 10 inches of rain occurred in roughly a 16-hour window."

If you thought the storm was exceptional, think again. Bodnar recalls the invest from April 3 that dropped 10.97 inches of rain. Unlike the August event, winds on April 3 were weaker.

"The circulation that caused Saturday's event is currently Typhoon Jebi," added Bodnar. "It's currently located northeast to east-northeast of the Northern Mariana Islands."

Keep weather watching, Kwajalein. For more information about the invest, contact the RTS Weather Station meteorology team at 5-3347.

USAG-KA HOUSING INSPECTION NOTICE

PUBLIC NOTICE

Beginning Sept. 5, 2018, the U.S. Army Garrison Kwajalein Atoll Housing Office will conduct the annual 100 percent Army Housing Inspection for all Family Housing.

If you wish to make an appointment to have this inspection take place at a specific time, please call the housing office at 5-3450 or email daniel.r.forsgren.ctr@mail.mil. We will start making appointments for Sept. 5 to Sept. 8.

The houses that are not on an appointment schedule prior to Sept. 8 will fall into the general schedule below. If you are present at the start time of the scheduled day for your area, please come outside to the front of your house and look for the Housing Office Team. We will inspect your house first if we know you are waiting.

Sept. 11

8: 30 a.m. – Noon: 490-495, 402, 404, 406, 408, 410, 412, 414, 415, and 418

1: 30 p.m. – Completion: 413, 415, 417, 419, 420, 405, 407, 409, 411, 427, 496, and 497

Sept. 12

8: 30 a.m. – Noon: 241, 104, 102, 227, 225, 226, 224, 222, 216, 204, 206, 208, 210, 212, 214

1: 30 p.m. – Completion: 229, 209, 213, 223, 106, 203, 226, 207, 211, 103, 105, 205, 217, 219

Sept. 13

8: 30 a.m. – Noon: Dome 166-191

1: 30 p.m. – Completion: New Family Housing 134-139 and 125, 126, 120, and 122

Sept. 14

8: 30 a.m. – Noon: 457, 459, 460-466, and 468

1: 30 p.m. – Completion: 479, 481, 483, and 485-489

Sept. 15

8: 30 a.m. – Noon: 421, 423-426, and 436-440

1: 30 p.m. – Completion: 449-456, and 458

Sept. 18

8: 30 a.m. – Noon: 428-435, 442, 444, 446, and 448

1: 30 p.m. – Completion: 441, 443, 445, 447, 470-472, 476, 486, and 487

A notice will be posted on each family housing front door approximately 72 hours prior to the inspection time. Please complete the information beforehand and have it available for the inspectors.

If you are unable to be present, please leave the completed form inside your quarters for collection. To help the inspection go quickly, please ensure the white tags on your furniture are visible or easily accessible. Thank you for your cooperation and assistance in this process.

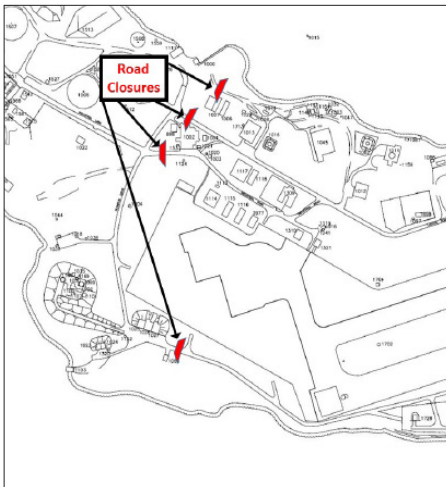

USAG-KA FMWR EVENTS IS ON FACEBOOK!

Follow U.S. Army Garrison-Kwajalein Atoll FMWR on Facebook to receive the latest updates on class schedules, community athletics, rentals, registration, events and fun activities. www.facebook.com/usagkafmwr.

WEST END ROAD CLOSURE

The west end is closed to all non-work related activities during duty hours (7 a.m.-4 p.m.) Tuesday through Saturday, until further notice. This means the west end of the road circling the runway will not be available for training/exercise or leisure during the duty day. The AFN Roller channel will also have area maps for your reference. Please contact Mr. Trace Salmon, USAG-KA Safety Manager at 5-1959 if you have any questions or concerns.

PRINZ EUGEN OIL REMOVAL PROHIBITED AREA

A 2000-foot prohibited area surrounds the Prinz Eugen wreck and is required to ensure public and exercise safety. This safety area will remain in effect until Oct. 20. For questions, please contact Chief Warrant Officer 3 Jamey Norton at 5-3421.

Jikin Jerbal eo ilo PRINZ EUGEN nan bok oil eo ie. Jerbal in bok oil jen wa in ej koman lok non 20 October. 2,000 nee ibelokkin wa eo PRINZ EUGEN emo ke bake. Nan karon wot jukjukinbed eo ke jikin jermal in e kauwatata. Ne elon am kajitok, call e CW3 Jamey Norton ilo 5-3421.

DUE TO SAFETY REASONS, UNTIL FURTHER NOTICE, USE OF BRANDON FIELD (SPORTS FIELD AT THE INTERSECTION OF 9TH STREET AND LAGOON ROAD) IS PROHIBITED. PLEASE MAKE USE OF KWAJALEIN'S OTHER GREEN SPACES FOR PRACTICE AND PLAY. WE APPRECIATE YOUR PATIENCE. FOR INFORMATION REGARDING THESE REPAIRS, PLEASE CONTACT FMWR AT 5-3331.

SCUBA DIVE SAFETY TIPS

Always dive with a buddy. Never dive alone.

Wait at least 12 hours before flying after doing a single dive.

Wait 18-24 hours after doing multiple dives.

Divers Alert Network (DAN) recommends refraining from strenuous work at least 24 hours before AND after diving.

Keep your gear up-to-date and serviced regularly. DAN recommends that regulators get overhauled at least once a year.

Each diver should have their own computer.

On any given dive, both divers in the buddy pair should follow the most conservative computer.

Do not ascend greater than 60 feet per minute.

Even if not required, always make a safety stop at 15 feet for at least three minutes.

Start the dive day with the deepest dive first.

Avoid making multiple deep dives on the same day.

VISIT USAG-KA ONLINE.

For community updates and episodes of the Kwaj Current, please visit the official USAG-KA Facebook page and YouTube channel. For command information questions, please contact USAG-KA Public Affairs at 5-4848.

COMMUNITY CLASSIFIEDS

HELP WANTED

MIND THE STOP SIGNS!

Always avoid the caution areas surrounding the ends of the runways on both Kwajalein and Roi-Namur when aircraft are approaching or taking off. Pedestrians, cyclists and drivers must always make a full stop at the stop signs posted near the ends of the runways.

WEEKLY WEATHER OUTLOOK

RTS WEATHER STATION STAFF

WEATHER DISCUSSION: Upcoming week will feature more sunshine with and light wind. It's going to be hot. The best chance of rain are showers, possibly thunderstorms Sunday/Monday. Some indications west winds may develop midweek with monsoon trough redeveloping in the region. This may result in possible stormier conditions by end of the week.

August ends with 18.81 inches of rainfall, or 177 percent of normal. Year-to-date precipitation for 2018 is 218 percent above normal and remains the wettest year on record.

SATURDAY/SUNDAY/MONDAY FORECAST: Widely scattered showers Sunday/Monday. Winds S-SE at 3-7 knots Sunday/Monday. Winds light and variable to WSW-WNW at 3-7 knots on Monday.

MID-WEEK FORECAST: Isolated to widely scattered showers early week, shower strength trend increasing for later in the week. Winds variable to WSW-NW at 5-10 knots.

 -Describe what you saw or heard
 -Provide pictures if you took any

REVEILLE
REMINDER

All U.S. Army Garrison-Kwajalein Atoll residents are reminded that the soundings of the 6:30 a.m. "Reveille" and the 5 p.m. "Retreat" and "To the Color" are to be observed with respect.

—**Military service members in uniform** are to turn toward the American flag (or into the direction from which the music originates) and salute.

—**Military service members not in uniform** are to face the flag or music and place their right hands over their hearts. Hats must be removed.

—**Civilians** are encouraged to participate by facing the flag or music and placing their right hands over their hearts. Hats should be removed.
