

feet or part thereof that the said buildings are over one hundred and five feet in depth.

SEC. 499. One-Story Brick Buildings.—One-story structures Ib., Sec. 27. not exceeding a height of sixteen feet may be built with eight-inch walls, when the bearing walls are not more than nineteen feet apart, and the length of the eight-inch bearing walls does not exceed fifty feet, if the walls are laid in cement mortar. One-story and basement extensions may be built with eight-inch walls when not over twenty feet wide, twenty feet deep, and twenty feet high to dwellings.

SEC. 500. Enclosure Walls for Skeleton Structures.—Walls for Ib., Sec. 28. the type of building known as "skeleton structures" are to be built on approved plans submitted to the Commissioner of Buildings.

SEC. 501. Curtain Walls.—Curtain walls built in between Ib., Sec. 29. piers or iron or steel columns, and not supported on steel or iron girders, shall not be less than twelve inches thick for fifty feet of the uppermost height thereof, or nearest tier of beams to that height, and increased four inches for every additional section of sixty feet or nearest tier of beams to that height.

SEC. 502. Lining Existing Walls.—In case it is desired to Ib., Sec. 30. increase the height of existing party or independent walls which are less in thickness than required under this ordinance, the same shall be done by a lining of brick work to form a combined thickness with the old wall of not less than four inches more than the thickness required for a new wall corresponding with the total height of the wall when so increased in height. The said linings shall be supported on proper foundations and carried up to such height as the Commissioner of Buildings having jurisdiction may require. No lining shall be less than eight inches in thickness, and all linings shall be laid up in cement mortar and thoroughly anchored to the old brick walls with suitable wrought iron anchors placed two feet apart and properly fastened or driven into the old walls in rows alternating vertically and horizontally with each other, the old walls being first cleaned of plaster or other coatings where any lining is to be built against the same. No rubble wall shall be lined except after inspection and approval by the Commissioner of Buildings,

SEC. 503. Walls of Unfinished Buildings.—Any building, the Ib., Sec. 31. erection of which was commenced in accordance with the specifications and plans submitted to and approved by the Inspector of Buildings prior to the passage of this ordinance, if properly constructed and in safe condition, may be completed or built upon in accordance with the requirements of law as to thickness
