

are not graded said company may lay and maintain its tracks so as to conform to the surface of such streets, and when the city shall grade such street, or parts thereof, the said company shall grade the space between the rails and tracks, and for two feet on each side thereof, on such street or part of street, and shall move or adjust its tracks to conform to said grade with as little inconvenience and hindrance to the use of such street as possible, and in no event shall said city be liable to said company for any damage on account of such change. When said company shall lay or repair its tracks on said streets or portions of streets at the time paved, it shall, at its own expense, relay the paving on the space between the rails and tracks and for at least two feet on each side thereof, so as to conform to the established grade, making the needed repairs with like material used in said paving. Whenever and wherever the city or the owners of the abutting property on any street shall have paved, or shall pave or cause to be paved any street, or part of street, on which said company now has or shall have its said tracks, or any part thereof, the said company shall, at the same time, or upon notice given by the Board of Public Works, and under its supervision and direction, pave the space between its rails and tracks, and at least two feet on each side thereof, in the same manner and with the same material as is used in paving the remainder of said street, and shall maintain the same in good order and condition, to the satisfaction of the Board of Public Works; and the said company shall within sixty days after its acceptance hereof, on notice given by the Board of Public Works, pave the space between its tracks and for at least two feet on each side thereof, on any and all streets and parts of streets where its tracks are now laid and where such street is paved. Said paving shall be of the same material and laid in like manner as said paving of the remainder of such street or part of street. At all crossings on unpaved streets the said company shall, under the supervision and direction of the Board of Public Works, cover the space between its tracks and between the rails of its tracks, and even therewith, for at least twenty feet wide, and the approaches thereto on each side, with good and substantial plank, and shall maintain the same in good repair and condition, to the satisfaction of the Board of Public Works.

SEC. 1255. The laying of said tracks, crossings and approaches at crossings and the location of wires and poles within the city limits and maintaining the same shall be under the supervision of the Board of Public Works, and shall be done in accordance with its instructions.
