

*Putnam County*—The low plateau that extends for 5 miles southwest of Palatka appears to have been a shoal in the Penholoway sea. It probably consists of a core of Pliocene Caloosahatchee marl veneered with sand of Penholoway age. The low mounds along the eastern edge have the appearance on the map of being sand dunes.

*Santa Rosa County*—The fringe of Penholoway terrace in Santa Rosa County is very narrow. It is fairly well developed in secs. 35 and 36, T. 1 S., R. 26 W., and in sec. 2, T. 2 S., R. 26 W.

*Sumter County*—A broad band of Penholoway terrace borders Withlacoochee River and extends eastward as far as Wildwood. The Penholoway formation in this region is probably very thin, for the Ocala limestone lies at the surface in some places.

*Suwannee County*—An estuary of the Penholoway sea apparently extended up Suwannee River at least as far as the mouth of the Withlacoochee, but its exact limits are unknown. Argillaceous yellow sand containing small pebbles unconformably overlies the Suwannee limestone to a thickness of about 15 feet at the Seaboard Railway bridge opposite Ellaville.

*Taylor County*—The Atlantic Coast Line Railway apparently runs along the Penholoway terrace from Perry southward, but the boundaries of the terrace have not been mapped.

*Wakulla County*—The shore line of the Penholoway sea extended from sec. 22, T. 2 S., R. 2 W., where it was fairly steep, southwestward almost to Ochlockonee River, where it terminated in a peninsula at the mouth of the Apalachicola estuary. Cow Swamp is on the terrace. New Light Church, sec. 19, T. 2 S., R. 1 W., stands on the outer edge of the terrace, which extends southward past Arran.

*Walton County*—The Penholoway extends as a well-defined terrace lying, for the most part, between the 70- and the 50-foot contour lines. It averages about 1 mile in width in the northeastern part of the Point Washington quadrangle. It is somewhat wider in secs. 2 and 11, T. 1 S., R. 20 W., on the De Funiak Springs quadrangle, but the shore line in that vicinity does not show conspicuously on the map.
