The great trouble in Russia is that when the bombs are being passed around the men they are intended for are not at home.

If General Taft could only convert the dynamic friction in the canal commission on to motive power for steam shovels, how the dirt would fly.

Another cave has been found in Kentucky, near Glasgow Junction, said to equal the famous Mammoth Cave. No mountain dew was found anywhere.

The Secretary of the Treasury, Mr. Shaw, is perhaps premature with his presidential boomlet. There will be some very slippery political weather before 1908.

General Gilchrist is going to give away several thousand recipes for cooking okra to visitors at the Tampa Fair. Now we know he's a candidate.—Pensacola Journal.

Poor Russia may cry "Peace! Peace!" but there is no peace. Scarcely was peace consummated at Portsmouth ere the turmoil of civil war broke out in St. Petersburg, Moscow, Warsaw and many other cities.

Ambassador Reid's butler is said to be the son of an earl. Mr. Reid is too large and cosmopolitan a man to be prejudiced against a Vere de Vere and is doubtless giving him a chance to live his title down.

The body of a beautiful Vassar college girl was found in a lake near that fashionable school a few days ago. It is supposed she committed suicide in a fit of melancholia. But no one would have ever supposed a Vassar girl was ever thus afflicted.

It is thought that Senator Lodge's chronic insomnia will disappear when he gets back into the soporific atmosphere of the Senate chamber and under the influence of one of Senator Morgan's speeches on the Panama Canal.

The first issue of The Live Oak Daily Democrat made its appearance on Tuesday, November 7th, with John O. LaFontisee as editor, Sherwood & Pound, publishers. The Democrat is a seven column folio, well filled with telegraphic and local news, and shows a very liberal advertising patronage by the enterprising merchants of Live Oak. The people of our sister city have got what they have long sought and it is up to them to give it the patronage it deserves. The Sun wishes The Democrat abundant success.

EDITORS ARE HUMAN.

Some people are of the opinion that editors are nothing but a machine that grinds out good, bad and indifferent stuff with which to fill the paper each day or each week, as the case may be; but such is not the fact.

The editor of a paper is always interested in the progress of the city in which his paper is printed, and if the growth can be aided by anything that can be used as reading matter it goes into the columns free of charge. The paper every week prints many articles that are copied in other localities and credited, which also helps to bring the city and county before the people, and when anyone desires to locate in a new city they generally will at least go and look over that place they have seen so much about in the papers.

The publisher of The Sun works as much for the interest of Gainesville as he does for himself—not wholly because he prefers to divide the proceeds of his labors on such a basis, but because of the fact that the efforts of the local paper helps the city as much as it does him. His efforts are often criticised and seldom praised. When he defends the city from the attacks of others who would injure its good name, it is too often considered by some that he is not doing half enough, yet such defense does not bring him in one cent of revenue and not a cheerful word of praise.

But there are some people, Heaven bless them, who will speak their feelings, as did the lady who called up The Sun by 'phone on Tuesday morning and said that she had never before called up a newspaper to either compliment or criticise, but she must do so now, and expressed the opinion that the editorial, "Help the Teacher," was the best thing she had seen in any paper and that it hit the mark exactly.

The Sun will always labor for the best interests of the public schools—the bulwark of our free institutions, and as good schools make good citizens, and good citizens make a good city, we hope to be a sharer in the honor of seeing Gainesville become one of the best cities in Florida, through the efforts of a combination of earnest endeavor.

At no previous time in the history of the United States has there been so much uncertainty preceding a Congressional session with reference to the legislative proceedings. Party lines appear to zigzag in every direction. Mason and Dixon's line appears to be in a state of oscillation. A Republican administration will have strong Democratic support in the House and in the Senate. Some Republicans in both Houses will oppose the President if they dare to do so. On the tariff question, on reciprocity, on railroad rate legislation and on almost every national question, the administration will have support from sections of the country that have heretofore been unfriendly. All signs indicate that party lines will be to a great extent disregarded. Why should there continue to be party lines if results of greater benefit to the entire country can be attained without them? Those who think alike, whether they reside east or west of the Ohio river, or north or south of the Mason and Dixon line, should vote together. The atmosphere of partisanship is always refractive and misleading. Judgment cannot sit in the lurid smoke of conflict. Is is certain that not since the days of the first President have party lines been so indistinct. The condition is fraught with beneficent possibilities.

The Tampa high school boy is figuring on which costs him the most worry—the things he ought to do, or what he ought not to do, says The Times. What he ought to do is to not do what he ought not to do.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

Starving women in England appeal to Premier Balfour to live among them a few months. But as Balfour is married it would make talk. There is a large number of men out of work.

$5,000

Reward will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform in any form in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with in any way.

Dr. Miles' remedies cure by their soothing, nourishing, strengthening and invigorating effects upon the nervous system, and not by paralyzing and weakening the nerves as would be the case if these drugs were used.

For this reason Dr. Miles' Anti-Pain Pills are universally considered the best pain remedy.

"I have suffered for 25 years with severe pains in my head, heart and back, and have tried everything I could get and could not find any relief until I got a box of Dr. Miles' Anti-Pain Pills. I suffered as long as 12 hours at a time with such severe pains that I feared I would lose my mind. The Anti-Pain Pills gave me relief in from 10 to 20 minutes. I do not have to use Morphine any more. I wish you would publish this so that other sufferers may find relief."
