Mr. Rockefeller says it is so nice to be missed by your friends.

The only person who needs to fear the law is the common thief. When a man appropriates $130,000 he laughs at the law.

There is no need of having armored automobiles. The ones that are used the "every-day wear" are sufficiently destructive.

The coal strike comes too late to affect the people of Florida. But there is a demand for it in the North for at least six weeks more.

A Tampa man named Hazen got disgusted with his telephone, because he could not get good service and smashed it with an ax.

When we get our battleship that is to cost $8,000,000, exclusive of armor and ornament, in full running order, guess some of those other fellows will hug the shore pretty closely.

The friends of the schools of Florida will want to know how some of the fellows running for office stand on the Buckman school law. A man who is opposed to education is opposed to the State.

The tree snail is said to be the enemy of the white fly, but it would seem as though we needed something livelier than a snail to get after these pests. But we can give the snail a chance.

That boomerang sent out by the two Jacksonville dailies accusing Governor Broward of jumping onto the State press with both feet, is now on the return trip, and the editors of The Times-Union and Metropolis are ducking.

There are some bicycle riders who insist on using the sidewalks when the streets are just as good. In many instances we have seen pedestrians step out into the street, so that the bicycle rider might have the sidewalk to himself.

Garrett P. Serviss, the New York astronomer, is predicting a hot summer. Dr. Samuel Phelps Leland, who lectured here at the Chautauqua last month, said we would have a cool summer. The facts in the matter will be better determined by the last of next October.

The matter of quarantine should be looked into with great caution and everything done to prevent the return of yellow jack to any portion of the South. The people of New Orleans do not wish to have a return of the plague that caused them so much annoyance last year.

While the press of the land is looking around for available timber for the Presidency, it would be a grand idea to cast about for a few good men for the Senate and House. A President may be ever so good, but when he is tied hand and foot by a Congressional majority that don't care a fig for the administration of the affairs of the country, he would be in a very disagreeable position. We want men to represent the people, and not the agents of corporations, to frame our laws.

INDEPENDENT RAILROAD

The railroad now contemplated from Tampa to Jacksonville and which we are now assured will be an independent line, free from any [illegible] from other lines, is a consummation [illegible] to be wished. The line is said to be an extension of the [illegible] & Gulf Railway and will also take connection with the Georgia Southern & Florida, making it a short cut from the two cities after which it is named—the Tampa & Jacksonville Railroad.

The company was organized at Tampa a few days ago with a capital of $[illegible], and will commence business as soon as the charter is granted by the State. The company is officered as follows: Jno. N. [illegible], president; A. P. [illegible], vice-president; J. P. [illegible], secretary, and F. M. [illegible], treasurer.

The road will not have much trouble in getting through, as much of the right of way is over lines already secured, the line from Fairfield to Sampson City being in good condition and the intervening space being easy to obtain and no serious obstacles to overcome from bridging or grading.

An independent road will mean much to the section of country through which it passes, as seaport cities will be at each end, and there are also independent steamship lines carrying on traffic at both of these terminals, so that merchandise from New York and New Orleans can be obtained at freight rates that will not prohibit the inland merchant from selling in competition with the dealers on the seaboard.

The new road, after leaving Tampa, will run through Pasco, Hernando, Citrus and Marion counties, opening up a new section of trade to Tampa. It will also pass through Alachua county, [illegible] and pass through Bradford and Clay counties to Jacksonville in Duval county. It is easy to see that it opens up a fertile section that has been hampered for the want of good transportation facilities, and will have no trouble in negotiating connections North, East and West.

The line will no doubt be the opening wedge to an extension South in a short time, and the farmers and truckers along the new route will feel as though it were a God-send to them, as they can congratulate themselves that they have at last got out of the wilderness.

A POPULAR LAW.

The two or three papers of the State which have tried to stir up a better feeling against the Buckman school law have accomplished very little. The press of the State favors the Buckman law, because it is as good as any State has in the Union.

In speaking on this subject The Tampa Tribune says: "A number of papers throughout the State are unanimous in their opinion that the Buckman bill will be the leading issue in the approaching campaign. The Tribune trusts that this will not be a fact. Florida needs good schools and its educational interests demand that the Buckman bill be tried for a few years before the politicians jeopardize the interests of education. So far as Hillsboro is concerned, the rest of the State may rest assured that no effort will be made in this county to make the Buckman bill an issue. The people are satisfied to let well enough alone."

The Live Oak Daily Democrat, one of the papers of the State that is not very easily alarmed, says: "There are no signs on the horizon that the Buckman law will be an issue in State politics during the coming campaign. The change in our system of higher education meets with disapproval only in spots few and far between."

Jacksonville is to have a soap factory. It perhaps was brought about by the revival meetings being held there.

HONORS TO GENERAL JOE

[illegible] Wheeler Memorial meeting [illegible] Tuesday [illegible] Tanner [illegible] paid a high tribute to the memory of the late General Joseph Wheeler.

"He was your Joe Wheeler in the old days, my Johnnie Reb," said Commander Tanner. "Then he was ours and the nation's at San Juan Hill and in the Philippines, and he is ours in the halls of memory for all time.

"May the foundation securely that we may [illegible] as the [illegible] of time and the elements are [illegible] against it. Build it as high as you please, for from no [illegible] grave of any of our boys who went to death under his [illegible] a single [illegible] finger point in accusation against the soldierly conduct and knightly honor."

The applause which followed the address of Commander Tanner has only been equaled by the greeting to Henry Grady, Georgia's noble son, whose utterances were so earnest when he [illegible] a nation into peace."

We hardly think there was ever a man more loved in both North and South than our Joe Wheeler.
