

The Daily Sun

Entered at the Post Office at Gainesville, Fla. as second class mail matter.

H. H. McCLARY, Editor and Publisher

F. M. PREWITT, Supt. Composing Rooms

Office in Haymans Block, 85 W. Main Street, S. Telephone 219

The Daily Sun, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year...

Reading notice: All columns receive a line for first insertion, 2 cents for each additional insertion.

The Twice-a-Week Sun is an eight page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general...

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract.

District Attorney Jerome has announced that he will enter the field as an independent candidate for the position he has held for eight years.

In the hope of temporarily softening the new system of customs duties, France is to formally demand that she be treated on the same basis as "the most favored nation."

An idea of the magnitude of New York's wealth can be gained from the report of the Department of Taxes and Assessments, which places the assessed valuation of the real and personal property in the city at a little over \$7,250,500,000.

The suggestion has been made by The Tampa Tribune, and wisely, too, that some agency or city take the initiative in a movement to make Florida the gathering place of the aerial navigators the coming winter.

Judge Burdette, in the Charleston (W. Va.) Circuit Court, has granted an injunction restraining the State and county officials from enforcing the 2-cent fare law against the Norfolk & Western railroad.

Maj.-Gen. Robert J. Magill, commanding the Florida Division, U. C. V., has just been notified by the commander of Camp Joseph P. Finegan, at Live Oak, in which city the nineteenth annual re-union of the division is to be held.

The St. Augustine Record of Thursday says: "Ex-Governor Broward will be a candidate for United States Senator at the next primary. This question which has been discussed by the State press frequently of late is answered. Mr. Broward spent yesterday in the city and was interviewed by a Record representative."

"WOMAN AND OCCUPATIONS."

There has been a considerable amount of discussion of late in the press and in the magazines in regard to the number of women who are entering the trades and professions. Prof. Thomas—who is connected with the University of Chicago—has been writing a very remarkable, thought-provoking series of articles for The American Magazine and in the September issue of this periodical he devotes himself to a consideration of this subject. Part is as follows:

"It is idle, indeed, to speak of the exclusion of women from the occupations. They are entering them from the top and from the bottom. The ill-conditioned are being forced into them and the well-conditioned—those whom men have been educating while deploring the use of their education—are already entering them in considerable numbers at the top. And they are finding new and characteristic ways of giving to society that reserve of affection and nature which they have heretofore reserved for the child and the home."

"In the year 1900 there were more than 5,000,000 women gainfully employed in the United States (as against 23,753,836 men), the rate of increase between 1890 and 1900 of the number of women so employed was much greater than the corresponding increase for the employment of men (for women 32.8 per cent; for men 21.9 per cent), and the number of women gainfully employed increased more rapidly in the decade than the female population. So, whether we wish it or not, the old order is already changing rapidly. It is too late to theorize on this point. It means simply that the old idea that all women should live on the activities of men and should limit their own interests to the bearing and rearing of children has gone to pieces."

In a recent editorial The Pensacola Journal, with that broad judgment in regard to the welfare of the whole State which characterizes that enlightened newspaper, urged that Florida should possess a State board of trade such as has affected so much good for California. It sketched, cursorily, the good work that board has done for the Pacific Slope State. The Journal states what is, and has long been, one of the great needs of the State; one which will be needed even more in the future. It required a trip to that State to fully understand how California got the best out of the bounty of Nature to it in the matter of its citrus crops. The California State Board of Trade can be studied from the distance of Florida in its methods and their results. We believe and would suggest that Florida is better prepared today than it was some three years ago to organize a successful State board of trade. Such a board, we would suggest further, should be composed of men who have the leisure and the disposition to devote several days each year to the good of their fellow-citizens of the State. We believe at the time that the last attempt was made to organize such a board that the time was not yet ripe nor the circumstances propitious for the birth of a strong and vital movement of that character. It should not be attempted now without much study and thought on the part of its promoters.—Times-Union "Short Talks."

Sometimes it is easier to borrow \$50,000 than to get that amount of bail.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars to any man who can cure a case of deafness that cannot be cured by local applications, and who will send a certificate of the cure to the following address: Dr. J. C. Galt, 111 N. W. 1st St., St. Petersburg, Fla.

LEARNING FROM A NEGRO.

We ran across an old negro the other day who can neither read nor write, but who has kept his eyes open, and has reached some progressive conclusions that ought to make some of our white farmers rather ashamed of themselves, says The Raleigh (N. C.) Progressive Farmer.

When he hauled cotton to the market the other day, this negro got a better price per pound than our white farmers have been getting, because the buyer said it was about the best bale that he had seen this season. The old negro never lets a bale lie out in the weather, but keeps it housed, and when he gins his cotton he always instructs the ginner to put good bagging on it.

"I have always noticed," said the old darkey in talking to us, "that anything that looks nice and good, no matter what it is, fetches more money. The good bagging that I put on my cotton costs twenty cents a bale extra, and I believe I sometimes get \$2 a bale more on account of the neat-looking bagging, not to say anything of the better price I get on account of keeping the cotton dry and under shelter."

A dispatch from Beverley states that Mr. Taft will make no changes in the diplomatic service until after Congress has convened. Senator Nelson W. Aldrich arrived there Thursday to discuss with the President the report of the Monetary Commission. It is now hoped to have the report in its final form by the time Senator Aldrich returns from his four-weeks' trip to Europe.

No credence is given in Washington to the report that Justice McKenna of the Supreme Court will resign.

The Health of Your Horse will be best promoted—best preserved—if you are ready to give the proper remedy at the proper time. The proper remedy for all strains, sprains, or colic is Perry Davis' Pain-killer. The proper time to use it is when the trouble first shows itself. Be prompt and you'll not only save the horse suffering, but you'll spare yourself trouble and expense—maybe save a long time waiting. You ought to have a bottle ready. The new size bottle costs 35 cents; one larger, 50 cents. Be sure your druggist gives you Perry Davis'.
