Coast Restoration Moving Forward

30 projects in Florida totaling more than \$100 million

Governor's Press Office

Governor Rick Scott announced the funding of the third and largest set of early restoration projects, as approved by the Deepwater Horizon oil spill Natural Resource Damage Assessment Trustees. Nearly \$88 million represents 28 projects, which will take place throughout many communities along the Panhandle. Additionally, two U.S. Department of the Interior projects will take place at Gulf Islands National Seashore in Escambia County and total approximately \$15 million.

Governor Scott said, "Today's announcement of more than \$100 million in funding is great news for families in the

Panhandle. We must protect our state's natural treasures so future generations of Floridians will be able to enjoy our state's great natural treasures."

Across the five Gulf States, \$627 million will be allocated to implement 44 projects that will continue restoration of the natural resources and associated lost recreational services, which were affected by the spill. This third phase of early restoration includes many proposals suggested by Florida citizens, such as oyster and scallop

MH Winner of Athletic Program of the Year

Moore Haven High School

The Florida Athletic Coaches Association "Athletic Program of the Year" was presented to Moore Haven Jr.-Sr. High school in classification 3A/2A Public. This achievement is the highest degree of success in athletics for any school during the 2013/14 school year. Evaluation in each sport (boys and girls) is based on a predetermined point system. Moore Haven received the most points and received the Carey E. McDonald Award.

the State Champion, you are to score only the highest level of achievement. In other words, if you were the District Champion and the State Champion in Football, you would only score yourself 30 points in the box under State Champs. For all the teams that were not as competitive, they put two points down for each sport you offer at your school and six points for each sport

Q. If someone is thinking about starting a small business, what is the first step that they should take?

A. The first thing that an individual starting a small business should do is research. There is a great deal of behind the scenes work that goes into starting a small business. They need to understand exactly what they are getting into. I enjoy helping people bring their vision to fruition financially and logistically. RESTORATION

Continued From Page 1

restoration, seagrass restoration, artificial reefs, living shorelines, recreational beach restoration and state park improvements. Public comment was essential to the development of the final plan and projects.

On April 20, 2011, BP agreed to provide \$1 billion in early restoration funds to the Natural Resource Damage Assessment Trustees for early restoration projects. The Department of Environmental Protection and the Florida Fish and Wildlife Conservation Commission have trustee representatives for the state of Florida. With the third phase of early restoration, Florida's portion, \$100 million, will be completely funded; however, state officials will continue to participate in developing projects for the federal agencies to propose for implementation in Florida.

Senate President Don Gaetz said, "My hope – and that of all Northwest Floridians—is that these projects selected by local leaders will produce a true return-on-investment and be managed with careful stewardship."

Representative Clay Ingram said, "I am excited that six projects have been approved for Escambia County, and I applaud Governor Scott and FDEP Secretary Vinyard for their continued work to restore Florida's

Gulf Coast, which was so badly damaged as a result of the Deepwater Horizon oil spill."

"I am proud of the work that is being done to restore Florida's Gulf Coast," said DEP Secretary Herschel T. Vinyard Jr. "We will continue to work with the local communities on implementing these projects

in a manner said, "I am excited the Trustees have approved the Walton County projects as well as other regional projects benefiting our county, which will allow visitors and residents to make the most of our beautiful natural resources."

"We are very pleased the third set of early restoration projects have been approved," said FWC Executive Director Nick Wiley. "These projects will enhance important fisheries and help Florida retain its prominence as the Fishing Capital of the World."

Early restoration represents an initial step in recovery. In the first two phases of early restoration, the state of Florida proposed a dune restoration project, four boat ramp enhancements in Escambia County and two coastal conservation projects that are taking place across many Panhandle counties. There has already been much accomplished by these projects and it is expected that the third phase will bring further successful restoration to the Gulf Coast communities. Assessment of injuries to our Gulf's natural resources is still ongoing and ultimately, the responsible parties are obligated to compensate the public for the full scope of natural resource injuries caused by the spill.

For more information on the Natural Resource Damage Assessment process, specific project information and to review the projects that have already been implemented visit www.deepwaterhorizonflorida.com.

"THESE PROJECTS WILL ENHANCE IMPORTANT FISHERIES AND HELP FLORIDA RETAIN ITS PROMINENCE AS THE FISHING CAPITAL OF THE WORLD."

- FWC EXECUTIVE DIRECTOR, NICK WILEY

and look forward to future restoration."

"I have been impressed with the coordination of both DEP and FWC on creating a suite of projects that will positively impact the Panhandle," said Escambia County Commissioner and President of the Florida Association of Counties Grover Robinson. "One of the boat ramps in the first phase of early restoration projects, Mahogany Mill, took an adverse legacy and turned it into an environmental asset for our county. I look forward to many more significant improvements for our Gulf Coast communities."

Santa Rosa County Commissioner Lane Lynchard said, "The Santa Rosa projects approved today demonstrate an additional step forward in our long term recovery from the oil spill. These projects, as well as others to come, will have a lasting, positive impact on our environment."

October is Breast Cancer Awareness Month

“...one of the leading causes of cancer death among women of all races...”

BY PAT DOBBINS
Florida Department Of Health

October is recognized as Breast Cancer Awareness Month. Other than skin cancer, breast cancer is the most common cancer among women in the United States. It is also one of the leading causes of cancer death among women of all races. According to the Centers for Disease Control and Prevention (CDC), more than 200,000 new cases of breast cancer are reported nationwide each year and more than 40,000 women died from the disease. About 11 percent of all new cases of breast cancer in the U.S. are found in women that are younger than 45 years of age.

It is estimated that one of every eight adult women will get breast cancer in her lifetime. When breast cancer starts out, it is too small to feel and does not cause signs and symptoms. As it grows, however, breast cancer can cause changes in how the breast looks or feels. Symptoms may include:

- New lump in the breast or underarm (armpit).
- Thickening or swelling of part of the breast.
- Irritation or dimpling of breast skin.
- Redness or flaky skin in the nipple area or the breast.

- Pulling in of the nipple or pain in the nipple area.
- Nipple discharge other than breast milk, including blood.
- Any change in the size or the shape of the breast.
- Pain in any area of the breast.

Breast cancer can be preventable with early detection. It is recommended that all women from the ages 50 to 74 should have a mammogram every two years, and women between the ages of 40 and 50 years should talk with their health care provider about when to start screening. It may be necessary for you to have earlier screening or more frequent screening if you have a family history of breast cancer. Please get to know your family health history. If a close family member (such as your mother, father, grandmother, sister, or aunt) has had breast cancer, the risk for other family members getting breast cancer may be higher. If you think you may be at increased risk, talk to your health care provider. It may be decided that you should be tested earlier or more frequently than the standard recommendations. Are you worried about the cost? CDC offers free or low-cost mammograms. For more information about breast cancer and low-cost mammograms, go to www.cdc.gov/cancer/breast.

The Belle Glade Culture

BY BUTCH WILSON
Clewiston Museum

The calloused fingers of the carver moved across the cypress dugout with the finesse of a maestro pianist, stroking and tapping the smooth, polished sides for tones or flaws that would indicate hull weaknesses. Finding no defects in his craftsmanship, the carver now gazed at the high, protruding bow that arched downward, forming two, long, perpendicular sides that met at the stern. Its high bow and lean, graceful sides were birthed for seaworthiness and speed on an inland sea called Lake Okeechobee.

Who were these ancient people that once traveled on liquid highways in a watery world now called the Everglades? Spanish explorers, who met these people centuries ago in the vast everglades, documented their encounters. However, the sparse information that later scholars gleaned from these too few Spanish journals sometimes created more questions than answers. Only in recent years, have archaeologists started filling in some of the missing links on

these mysterious people that time forgot.

Come join us at the Clewiston Museum as archeologist Katie Smith shares discoveries from the ongoing research she is conducting on the skeletal biology of the Belle Glade Culture. Her findings are based on the Belle Glade skeletal collections held at the Smithsonian Institution. Miss Smith's interest in archaeology started at the age of 12, with Classical/Biblical Archaeology and particularly ancient languages. She later pursued a career in archaeology through undergraduate coursework in Palestinian, Greco-Roman, Ancient Hebrew, Greek and Latin archaeology. Miss Smith is currently pursuing her second Master's degree as a graduate student at Florida Atlantic University.

This free and informative program is made possible by a grant from the Florida Humanities Council. Refreshments will be served after the program, so come join us at the Clewiston Museum for a relaxing and entertaining evening on Thursday, Oct. 16 at 7 p.m. Please contact the Clewiston Museum at 863-983-2870 or email us at clewistonmuseum@embarqmail.com for questions regarding this event.

IT IS VERY IMPORTANT TO GENERATE A GOOD ATTITUDE, A GOOD HEART, AS MUCH AS POSSIBLE. FROM THIS, HAPPINESS IN BOTH THE SHORT TERM AND THE LONG TERM FOR BOTH YOURSELF AND OTHERS WILL COME.

Honored at the Golden Baby Shoe Awards

FLORIDA DEPARTMENT OF HEALTH

The Florida Department of Health (FDOH) in Hendry County is proud to have two staff members recognized by the Healthy Start Coalition of Southwest Florida at the fifth annual Golden Baby Shoe Awards on Saturday, Aug. 23 at The Club at Grandezza in Estero. This event celebrates the outstanding contributions of individuals who help give babies a healthy start in life.

Judy Paskvan, who is recently retired from FDOH-Hendry's Healthy Families Program and a member of the LaBelle Kiwanis Club, received the "Lifetime Achievement Award." Ms. Pask-

van was very moved by the award and stated, "I enjoyed being a part of a team working toward positive change for young families and their infants."

Robert Bobo, HIV/AIDS/STI program manager for FDOH-Hendry, received the "Golden Baby Shoe Award."

Robert Bobo stated, "I am thankful for this recognition, however, the Florida Department of Health in Hendry County deserves the recognition. Thank you to my colleagues Dr. Jeffrey Beal; Maribel Gonzalez, ARNP; Debbie Goebel, LPN; Tony Miracle, RN; Pat Thicklin; Sadi Sanchez; Brenda Lastinger; Peggy Baxter, RN; and Gracie

Urias, RN; as well as the Administrator/Health Officer Patricia Dobbins for her leadership and allowing silos to dissolve so the real work of public health can happen on a daily basis."

Each year, awards are given to individuals who meet the following criteria: is a doctor, nurse, mid-wife, social worker or other health care/social service provider involved in the direct care of mothers and babies; has made a positive impact on improving the health of mothers and babies; has demonstrated an enthusiasm and dedication for their work; is well-respected by colleagues and clients; and has provided services in Collier, Glades, Hendry, or Lee counties.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

PBC System 11

Tests Showed the Presence of Coliform Bacteria

Our water system recently violated a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened, what you should do and what we did to correct this situation.

System 11 routinely monitors for the presence of drinking water contaminants. During September 2014, we took a total of 43 distribution samples to test for the presence of coliform bacteria. 6.98 percent of these samples tested positive for coliform bacteria.

The standard is that no more than 5 percent of our samples may test positive.

What should I do?

You do not need to boil your water or take other corrective actions.

However, if you have specific health concerns, consult your doctor.

If you have a severely compromised immune system, have an infant, are pregnant, or are elderly, you may be at increased risk and should seek advice from your health care providers about drinking this water. General guidelines on ways to lessen the risk of infection by microbes are available from EPA's Safe Drinking Water Hotline at 1-800-426-4791.

What does this mean?

This is not an emergency. If it had been, you would have been notified within 24 hours. Total coliform bacteria are generally not harmful themselves.

Coliforms are bacteria which are naturally present in the environment and are used as an indicator that other, potentially-harmful, bacteria may be present. Coliforms were found in more samples than allowed and this was a warning of potential problems.

Usually, coliforms are a sign that there could be a problem with our treatment or distribution system (pipes). Whenever we detect coliform bacteria in any sample, we do follow-up testing to see if other bacteria of greater concern, such as fecal coliform or E. coli, are present. **We did not find any of these bacteria in our subsequent testing. If we had, we would have notified you immediately.**

What happened? What was done?

System lines were flushed, proper sampling taps were installed and samples were collected and tested. Further testing shows that this problem has been resolved.

For more information, please contact Palm Beach County Water Utilities Communications section at 561-740-4600 and select option #1, or write to PBCWUD Regulatory Compliance Division, 8100 Forest Hill Blvd, West Palm Beach, FL 33413.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This Notice is being sent to you by the Palm Beach County Water Utilities Department PWS ID # 4505005

Glades County 4-H Cattle Club held the club's second meeting on Oct. 6 at the Doyle Conner Building.

Wyatt Staford, Gabby Muryphy, Alyssa Walpole and Hayden Davis opened the meeting up with the pledge of Allegiance and the 4-H Pledge.

Mrs. Wiggins joined the group and did a wonderful presentation on the Repo Track. This was definitely a hands on project.

The Glades County Cattle Club will have a Barbecue Chicken dinner fundraiser on Oct. 24 at the Doyle Conner Building from 11 a.m. to 1 p.m. You can purchase a ticket from any club member for \$10.

United Way of Hendry and Glades Kick Off Campaign

United Way of Lee, Hendry, Glades and Okeechobee

The United Way Hendry and Glades 2014-2015 Campaign officially kicked off the campaign at Hope Connections with over 40 people in attendance. The goal for this year's campaign is \$247,400 that will help fund the network of 36 United Way Partner Agencies and 67 programs that assist people in Hendry and Glades counties. Tommy Perry, of Johnson-Prewitt and Associates and chair of the United Way of Hendry and Glades 2014-2015 Campaign, announced that early running companies have helped the organization get to the 30 percent mark.

Perry went on to say, "Considering the huge need in our community, it is critical that we reach the \$247,400 goal so we can fully fund the entire network of 36 United Way agencies that help so many people in our community. We are reaching more who are in great need through our partnership efforts, but to continue to serve more children, families and individuals, we need everyone's help."

Cliff Smith, president of the United Way, commented, "This is a generous community, and we know we can do it. Every gift is important because added together they can make a real impact and change people's lives." A local network of 35 agencies and programs will receive funds from the 2014-2015 United Way of Hendry and Glades fundraising campaign. These agencies include: Abuse Counseling and Treatment (ACT), The Salvation Army, Harry Chapin Food Bank, Children's Advocacy Center, Child Care of Southwest Florida, Healthy Families

and many others.

The network of United Way agencies helped over 20,000 people in Hendry and Glades Counties last year.

Over the last 14 years, United Way Hendry and Glades has raised and distributed over \$2.25 million that has changed the lives of countless numbers of people in our community. In addition to raising funds for human service organizations in our community, the United Way promotes partnerships and collaborations among agencies, helping them to work together focusing on issues and solutions that continue to improve lives.

RELIGION NEWS AND INFORMATION

Dawkins, Tweets, and Downs Syndrome

BY DR. TODD BUCK
First Baptist Church of Clewiston

The atheist Richard Dawkins is in the news again. It seems he cannot keep his fingers from the twitter machine. This time "The God Delusion" author immersed himself in hot water for stating (by tweet) that it would be immoral to not abort a baby if the mother knew that her unborn child had Downs Syndrome. He wrote: "Abort it and try again. It would be immoral to bring it into the world if you have the choice." This week, he apologized, saying that of course he respected other people's wishes.

One wonders -- given the worldview that Dawkins represents -- that if evolution really is true, as he suggests, and the universe is a cosmic accident, then his own brain (and not Downs Syndrome) is proof positive that evolution makes mistakes. Given enough time, non-conscious material is capable of evolving into a pompous, hateful and stubborn crackpot who should have retired from public pronouncements while he still had the chance to avoid embarrassing himself.

Dawkins, in 2014, has become a figure of mockery, a man so convinced that he possesses God-like powers of omniscience that he can't understand why everyone's getting angry at him for pointing out the "obvious." Why won't we all just learn how to think!? Thinking is all it takes! Especially, if we just surrender and think like him!

Dawkins has become a man so convinced of his intellectual superiority that he believes the

one domain in which he happens to be an expert -- science -- is the only legitimate way of acquiring knowledge. All of his outbursts in recent years follow from this belief: he understands the scientific method as a universally applicable way of understanding not just the physical world but literally everything else, as well. Hence, his constant complaint that those appalled by his bigoted and hate-filled ramblings must be religionists of the Dark Ages.

In his review of "The God Delusion," Terry Eagleton remarked: "Imagine someone holding forth on biology whose only knowledge of the subject is the Book of British Birds, and you have a rough idea of what it feels like to read Richard Dawkins on theology."

But it is not just theology that Dawkins dismisses as inferior to his own scientific mind, but also art, history, philosophy and human logic. To him, all of the humanities are expendable window-dressings, and even the emotions of fellow human beings are byproducts of natural selection that seem a nuisance. If Dawkins can't see it, then it doesn't exist, and anyone trying to describe it to him is delusional and possibly dangerous.

One might hope that as he gets older and crankier, that the process will end with a breakthrough and a glorious deathbed conversion. But if there's one thing Dawkins has tried to impress upon us, it's that miracles don't exist. So perhaps we should do him the courtesy of not holding our breath.

If readers would like to comment on an article or suggest an idea for one, feel free to email Dr. Buck at: toddbucks@gmail.com.

Celebrating Terrier Spirit: 'A Walk on the Wild Side'

Moore Haven High School

The 2014 homecoming week at Moore Haven High School will be taking place the week of Oct. 13 to 18. This year, we will be celebrating our Terrier Spirit with "A Walk on the Wild Side." On Tuesday Oct. 14, the music department will sponsor the Womanless beauty pageant starting at 7 p.m. in the Richie Building. The pageant will consist of two students from each grade (seccen through 12). The cost to attend is \$3. The Powder Puff Football game will take place on Thursday, Oct. 16 at 7 p.m. on Terrier Field. The cost to attend is \$2.

Come watch the girls in a gridiron battle where the Senior/Sophomore team will take on the Junior/Freshmen team. The juniors will be selling food and drinks at the game, so please stop by and show your support.

Immediately following the Powder Puff game there will be a bonfire and car smash. The bonfire and car smash will

be held at the empty field located across from the football field. The Moore Haven High School parade will be Friday, Oct. 17, starting at 1:30 p.m. The route will take the parade in front of the elementary school, high school and court house. This is your chance to see the class floats, band, football team and cheerleaders.

The parade will also include the 2014 Homecoming Queen Court. This year's Homecoming Queen Court consists of Kathleen Barfield, Darlah Cypress, Sydney Garrett, Paula Pena and Melany Williams. The Homecoming King court consists of Bronson Bass, Rickey Curry, Markeis Hallback, Darren McPherson and Demetrius Scruggs. The pre-game will start at 6:15 p.m. and will end at 6:45 p.m., which will then be followed by the varsity football game. The Terriers will take on Doral Academy of Miami starting at 7 p.m. During halftime, we will crown the 2014 Homecoming Queen and King. Please come out and support the Terriers!

If you followed Moore Haven sports last year, you will remember they earned a football playoff spot. Not to be outdone, the Lady Terriers, coached by Vincent Lewis, were district runner-ups in girls basketball. The spring sports also helped the Terriers solidify their award. Coach Petti and his track teams always do well and Coach Navarro's State Runner-up Softball team made for a spectacular year in sports.

Homecoming Cornhole Tournament

MHHS Junior Class is sponsoring a Homecoming Cornhole Tournament on Oct. 18. Registration begins at 9 a.m., \$20 per team. The tournament will take place near the wooden pavilion at Tom Perry Park. Prizes will be awarded. Come out and support the Junior Class as they raise money for prom!

School Music Department

On Nov. 12 and 13, the Moore Haven Jr-Sr High School Music Department will be holding pre-audition rehearsals for the upcoming musical "Annie" from 3 p.m. to 4:30 p.m. in the MHHS Music Room. All students in grades three through 12 are invited to attend and audition for a role in the cast. During this rehearsal, students will learn their audition material, which will include a song with choreography and discuss their one-minute monologue required, as well. Auditions will be held in

the Music Room on Dec. 2, with call back auditions on Dec. 4.

Musical Theatre is a great opportunity for students to gain confidence, learn the many aspects of musical theatre, gain vocal knowledge and to take their talents to the next level. More information can be found on our website www.MooreHaven-Music.com under the "Musical Production Spring 2015." "Annie" will be presented to the public on May 1 and 2 at the cost of \$5 per ticket. This will be the first production held in the newly constructed Moore Haven Auditorium.

If anyone would like to financially support this production, please contact Mrs. Watts at 863-946-0811. Also, if you know of anyone who is looking to get rid of some tools from their workshop, we are looking for tools and any spare building materials to build sets and props. If you have any further questions please contact the school or email Mr. Browning.

There will be additional regulatory and enforcement activities associated with the production and sale of medical marijuana. Fees will offset at least a portion of the regulatory costs. While sales tax may apply to purchases, changes in revenue cannot reasonably be determined since the extent to which medical marijuana will be exempt from taxation is unclear without legislative or state administrative action.		NO. 3 CONSTITUTIONAL AMENDMENT ARTICLE V, SECTIONS 10, 11 Prospective Appointment of Certain Judicial Vacancies Proposing an amendment to the State Constitution requiring the Governor to prospectively fill vacancies in a judicial office to which election for re-election results from the justice's or judge's reaching the mandatory retirement age or failure to qualify for a retention election, and allowing prospective appointments if a justice or judge is not retained at an election. Currently, the Governor may not fill an expected vacancy until the current justice's or judge's term expires.

Para ello se dedica el 33% de los ingresos netos obtenidos del impuesto especial existente sobre documentos durante 20 años. Esta enmienda no incrementa ni reduce los ingresos estatales. El ingreso estatal limitado para los propósitos especificados en la enmienda es estimado en \$648 millones para el año fiscal 2015-16 y aumenta a \$1,268 mil millones hacia el duodécimo año. Si eso traerá como consecuencia gastos estatales adicionales depende de futuras acciones legislativas y no puede determinarse. De la misma manera, tampoco puede determinarse el impacto sobre los ingresos de gobiernos locales, si los hubiera. No se prevén costos de gobiernos locales.		NO. 2 ENMIENDA CONSTITUCIONAL ARTICULO X, SECCION 29 Uso de marihuana para algunas enfermedades. Permite el uso médico de la marihuana a las personas con enfermedades debilitantes, según lo determine un médico autorizado por el Estado de Florida. Permite a los cuidadores asistir a los pacientes en el uso médico de marihuana. El Departamento de Salud deberá inscribir y regular los centros que producen y distribuyen marihuana con fines médicos y deberán extender tarjetas de identificación únicamente a las leyes del Estado de Florida. No autoriza violaciones de la ley federal ni ningún uso, posesión o producción de marihuana con fines que no sean médicos. El aumento de costos generado por esta enmienda para el gobierno estatal y los gobiernos locales no puede determinarse. Habrá actividades adicionales de regulación y venta de marihuana con fines médicos asociadas al menos en parte los costos de regulación, si los hubiera. Los cambios fiscales no pueden determinarse de manera razonable, dado que, si no existe una acción legislativa o administrativa estatal, no está claro en qué medida la marihuana con fines médicos estará exenta de impuestos. NOTICE

Independent Newspapers will never accept any advertisement that is illegal or considered fraudulent. In all cases of questionable value, such as promises of guaranteed income from work-at-home programs - if it sounds too good to be true, chances are that it is. If you have questions or doubts about any ad on these pages, we advise that before responding or sending money ahead of time, you check with the Better Business Bureau at 772-878-2010 for previous complaints.

Some 800 and 900 telephone numbers may require an extra charge, as well as long distance toll costs. We will do our best to alert our reader of these charges in the ads, but occasionally we may not be aware of the charges. Therefore, if you call a number out of your area, use caution.

Building a Healthier Glades County

Are you interested in helping continue Glades County's momentum toward a healthy community where we live, work, attend school and play? Does your interest include working with a dynamic partnership to create a tobacco-free Glades County? If yes, then Glades Tobacco-Free Partnership wants you!

Glades Tobacco-Free Partnership is a community collaborative of health care providers, health advocates, youth leaders, business leaders, civic groups and citizens who support a tobacco-free Glades County. The partnership seeks to reduce tobacco-related death, disease and disability in the community, and the acceptability of tobacco use through a combination of community education, youth advocacy and changes in local tobacco policies.

Presently, 88 Floridians lose their lives

each day to the diseases caused by tobacco use. Moreover, health care costs for those feeling the effects of tobacco-related illnesses account for \$96 billion per year in the United States. The tobacco industry solicits and recruits new users in deceitful and harmful ways and particularly targets our youth.

The Glades Tobacco-Free Partnership is seeking energetic community members, organizations, local businesses and any other persons or groups to get involved, spread the mission and set the tone for our community's take on tobacco!

For more information or to become involved, please join us at our quarterly advertised partnership meetings or contact Teresa Coco, health educator consultant, at 863-946-0707. Together, we can help create a healthier community!

Invitation to Hope Connections

Buckhead Ridge seniors are invited to Hope Connections.

There is a wonderful service offered in Buckhead Ridge for seniors 60 and over. Hope Connections, 30082 East S.R. 78, serves a no-cost lunch every day, Monday through Friday to senior Glades County residents. The center is open from 9 a.m. until 2 p.m. every weekday, except holidays.

The center is located in the same building as the Glades County Tax Collector, where you pay your taxes or purchase your auto tag, next to the fire department.

Hope Connections also provides a place to socialize with other seniors, do puzzles or play cards and games. Gather together some of your Buckhead Ridge friends and meet at the center.

Only Glades County residents are eligible to receive a no-cost meal. Come by in the morning or after lunch and take advantage of the center. You do not need to stay all day or to come every day. Drop in when you need a little social time.

Hope Connections can help if you care for a loved one, by allowing you time to run errands and rejuvenate yourself.

Need help with household chores, like stripping or making the bed, dusting, vacuuming or doing dishes? Hope Connections can help. They can help you maintain your independence.

There are some cases where Hope Connections can provide special medical equipment and supplies at no cost. Some examples are: crutches, walkers, potty chairs, pads and Depends. If you are homebound or disabled, or perhaps no longer able to drive and cannot get to the center, it is possible that a meal could be delivered to you at no cost.

If you are interested in learning more about this fine service, go by Hope Connections and ask for Bonnie Shop, our site coordinator. Or call Bonnie at 863-763-2404.

Attention Hunters

The Florida Fish and Wildlife Commission would like to announce that they will be issuing permits for two wild hog control hunts on Fisheating Creek Wildlife Manage-

ment Area, west of US 27 to residents of Glades and Hendry counties.

The two hog control hunts will be held Nov. 1 and 2 and again on Nov. 8 and 9. 25 permits will be issued for each hunt. Permits will be available on a first-come, first-served basis to individuals 16 years of age or older.

Permit distribution will take place at the Fisheating Creek WMA check-station at the FEC Campground in Palmdale on Saturday, Oct. 18 beginning at 10 a.m. Individuals must be present to receive a permit. You cannot pick up permits for other people.

Permittees will be allowed to take wild hogs with no size or bag limit.

The use of dogs is prohibited. Firearms

will be limited to a shotgun with #1 buckshot or larger.

For additional information, you may contact the Fisheating Creek WMA office at 863-946-1194.

U.S. Sugar's 84th Sugar Cane Harvest Starts After Rain Delay

Company hopes for good crop

SUBMITTED PHOTO

U.S. Sugar Corporation

U.S. Sugar's 84th annual sugarcane harvest, scheduled to begin Tuesday evening, was delayed until mid-afternoon Wednesday, October 1st and got off to an extremely slow and soggy start due to excessive rainfall.

"More than a week of rain dumped nearly eight inches across the farming area, with standing water in many of our fields, said Judy Sanchez, senior director, corporate communications and public affairs. "The wet conditions will slow and hamper harvest activities until the weather clears up."

Harvest began Wednesday shortly after 2 p.m. on a limited basis in Palm Beach County, with no harvest activities in Hendry or Glades counties due to wet conditions. The Clewiston Sugar Factory began processing the first railcars of sugarcane at 6:36 p.m. Wednesday evening.

Both harvesting and processing operations will run 24 hours a day, seven days a week during the 2014-15 harvest season. The harvest season is expected to run until early April 2015.

"We've had good weather for most of this growing season and are expecting a good crop," said Judy Sanchez. "Unfortunately, sugar prices have been severely depressed for the last few years due to a surge of unneeded, subsidized Mexican sugar into our marketplace. Over two million tons of subsidized Mexican sugar has flooded the U.S. markets, a significant portion

of it produced at Mexican government-owned facilities."

Sanchez said that U.S. Sugar had sold all of its 2014-15 sugar at lower prices caused by the flood of subsidized Mexican imports and would have to rely on volume and efficiencies during the harvesting, milling and refining process to retain profitability during this crop.

U.S. Sugar and its independent growers are projected to produce approximately 7.23 million tons of sugarcane with approximately 6.5 million tons of sugarcane to be processed at the Clewiston Sugar Factory that is projected to produce approximately 743,403 tons of raw sugar. Through the acquisitions of Duda in 2012 and, more recently, Knight Management, U.S. Sugar also will be sending sugarcane to all three of the other sugar factories in the Glades this year.

Sanchez noted that U.S. Sugar's 2013-2014 sugarcane crop produced 759,378 tons of sugar, nearly 40 million gallons of molasses and 192,563 MW-hrs of electricity.

"While Florida sugar farmers are busy gearing up for the harvest season, we are also continuing our partnership in Everglades restoration by cleaning the water on the farms every single day," Sanchez said.

"Our on-farm clean up measures, called Best Management Practices (BMPs), have reduced the phosphorus in water leaving the farms by 63% this year. That's more than twice the 25% requirement, and farmers have averaged a 55% reduction for nearly 20 years," said Sanchez.

Gas Price Update

Average retail gasoline prices in Florida have risen 3.9 cents per gallon in the past week, averaging \$3.31/g Sunday, according to GasBuddy's daily survey of 8,237 gas outlets in Florida. This compares with the national average that has fallen 2.5 cents per gallon in the last week to \$3.30/g, according to gasoline price website GasBuddy.com.

Including the change in gas prices in Florida during the past week, prices yesterday were unchanged compared to the same day one year ago and are 3.8 cents per gallon lower than a month ago. The national average has decreased 13.8 cents per gallon during the last month and

stands 5.8 cents per gallon lower than this day one year ago.

"We've begun to see retail prices eroding at a much faster rate in the last few days across a good portion of the country," said GasBuddy.com Senior Petroleum Analyst Patrick DeHaan. "48 out of 50 states saw average prices decline in the last week, with some of the largest declines in the Midwest, where more and more stations are slipping under the \$3/gallon barrier. Motorists should be seeing continued drops in gas prices across much of the United States in the week ahead as gas prices catch up to the recent decrease in crude oil prices."

portant community forum on Tuesday, Oct. 14 from 6:30 p.m. to 8 p.m. at the Harborside Convention Center.

This forum is designed to educate and engage citizens on how wetland loss -- and the loss of the natural cleansing and storage as a result -- is an often overlooked factor as to why downstream waters like the Caloosahatchee are in such poor condition.

The Harborside Convention Center has been booked and EPA officials confirmed who will be flying in for this event, but we need your help to make a strong showing of support that this community cares about clean water!
