The Warming Closets Of a Range

THE Warming Closets on all Majestic Ranges have malleable iron doors and frames. The doors can be dropped down without fear of breakage, forming a perfect shelf, and holding the weight of an ordinary size man.

At a glance you would think the roll back door on other warming closets would better suit your purpose. Let us use a little reasoning: First, with the roll back door closet you have no shelf to set things on before you slide them into the closet, while on the drop door you have. Second, with the roll back door you have very little room in closet, the roll door taking up most of it. Third, if you are not careful you will break the dish in closet by back of roll door hitting it. The Majestic has good strong drop doors—you can't break them.

NEW COUNTY OFFICIALS

REINS OF SUWANNEE COUNTY GOVERNMENT IN NEW HANDS.

CHANGES MADE LAST TUESDAY

No Change in Officials for County Judge, Clerk Circuit Clerk, Treasurer, Sheriff and State Senator

On Tuesday the new county officials took charge of the positions and assumed the duties and responsibilities which they were elected to fill by the voters of the county. Several of the old officials were re-elected, but a majority of the official positions are filled by new men.

Those re-elected and whose new term of office commenced Tuesday are: J. N. Conner, county judge; J. H. Rickerson, sheriff; J. W. Bryson, clerk circuit court; G. B. Lord, treasurer. The re-electing of these faithful officials is an endorsement of their efficiency and is the best of proof that they are giving the people satisfactory service.

One of the new officials, Perry L. Hurst, elected to fill the responsible position of clerk of the criminal court of record, is a Suwannee county boy. A young man who has forced his way to the front by an open, honest effort. He received a very flattering vote—a vote any man in the county would have a right to feel proud of. Mr. Hurst will make a good, careful and honest official.

J. N. Meeks, who has for two terms so efficiently filled the position of county tax collector, was elected tax assessor. He got tired receiving tax money and the people recognized in him too good an official to turn loose, and by their votes have selected him to take charge of the tax assessment books for two years.

To fill the office of tax collector Joe McLeod was elected, and a better qualified man to fill that position would have been hard to find. Joe is a good man wherever you take him, and is as clever and accommodating as the best of them.

The office of superintendent of public instruction will be filled for a term of four years by Prof. J. W. O'Hara, a native of this county, and a gentleman who has been identified with the schools of the county as teacher for a number of years. He is qualified to fill to position in every particular, and knows personally almost every patron of the public schools in the county, and is therefore in touch with the wants and needs along educatical lines. The school matters of this county will be safe in his hands.

The new members of board of county commissioners and public instruction are some of our best known and most reliable men, and the affairs of Suwannee county will be carefully guarded by them. They are as follows: County commissioners, district 1, M. J. Cheshire; district 2, H. A. Thompson; district 3, A. M. Mosely; district 4, J. W. Carver; district 5, J. J. Dempsey.

Board public instruction, district 1, C. H. Brinson; district 2, W. H. Ogden: district 3, W. L. McInnis.

Col. J. B. Johnson, one of our best known and most able men in this county, will again represent us in the State Senate.

Col. L. E. Roberson, the able ex-State attorney for this judicial district, and a distinguished lawyer of this city, and Hon. Geo. E. Dempsey, of near Ellaville, a successful farmer and a gentleman of ability, will represent us in the legislature.

Suwannee county's new office holders are a fine lot of gentlemen and every man we believe is well fitted and qualified to fill the position for which he has been chosen.

New Board of County Commissioners.

The new board of county commissioners—M. J. Cheshire, H. A. Thompson, A. M. Mosely, J. W. Carver and J. J. Dempsey—met Tuesday and organized by electing A. M. Moseley, chairman.

The old board had their final meeting Tuesday, and closed up the business in such a manner as to leave little unfinished business. The old board administered the affairs of the county in a very wise and economical manner. They did the best they could under the then existing circumstances, and have turned the county business over to the new board who will continue to keep a close watch on the county expenditures and to see that the county's money is wisely expended.

The board is composed of good, solid citizens, and the affairs of this county could not be in safer or better hands.

In Memoriam.

Whereas, It pleased an Allwise God to remove from our Florida division our highly esteemed comrade, Col. Fred L. Robertson.

Therefore, be it resolved by Camp E. A. Perry, No. 1678 U. C. V.

First. That it is with heartfelt grief that we submit to the will of the Divine Creator, still realizing the irreparable loss our division has suffered in taking from us one who has spent a great part of his time since the close of the war trying with his pen and council to build up his State and correct the many mistakes in her history and also the abuses of same.

Resolved second. That two copies of these resolutions be sent, one the Florida Advocate and one to the Live Oak Suwannee Democrat.

L. M. SKELTON,
PAT CLEBURNE, Adjutant.
Camp U. C. V., Wauchula, Fla.

Contracts Awarded.

The board of county commissioners on Monday awarded the following contracts: For working the public roads district No. 1, J. J. Corbett; district No. 2, S. G. Helton; district No. 3, Charlie Hurst; district No. 4, A. N. Bonds; district No. 5, M. L. Leggett. S. A. Rawls & Co., were the highest and best bidders for the county convicts, their bid being $23.35 per month for each convict.

ITALY'S AWFUL DISASTER.

The Loss by Earthquake and Fire Placed at 200,000 Lives.

Paris, Jan. 2.—The Figaro today publishes the following dispatch from Rome:

"As each day goes by the disaster appears more horrible, terrifying and immense.

"It is without precedent in the history of the world. In my early dispatches I spoke of over 150,000 dead. This number doubtless will be exceeded, for now it is conservatively estimated that 200,000 perished miserably in this staggering disaster and the worst is not yet known. The scourge has not yet done its final work. The tremblings of the earth continue with sinister rumblings and at times jets of boiling water surge from the crevasses. The sources of the streams are poisoned with putrid matter.

"In spite of herculean efforts the succor still is insufficient. In the more remote regions the unhappy injured are dying for want of food and medical treatment. Dogs and swine, enraged by hunger spring upon the wounded and devour them. Insatiable fire and uncontrolled famine will inexorably claim their victims."

AID FOR ITALIAN SUFFERERS.

President Sends $300,000 Worth of Supplies to Earthquake District.

Washington, D. C., Jan. 2.—President Roosevelt tonight announced that he has sent two supply ships with $300,000 worth of supplies to Italy, that he will ask Congress for additional aid and that he has offered the use of the battleship fleet to Italy.

The announcement is made in a telegram, made public at the White House, which he sent to Patrick McGowan, chairman of the American-Italian General Relief Committee, New York city. The telegram follows:

"I earnestly wish success to the American-Italian General Relief Committee in its great mass meeting at Madison Square Garden. It is of course not possible for me to attend in person, I am doing everything that can be done to get aid to the suffering, and on account of the extreme urgency of the case, have sent two supply ships with $300,000 worth of food and provisions without awaiting for the authority of Congress, being confident that Congress will approve my action. I shall also ask Congress for additional aid and throughout the coming week will keep in the closest touch with Congress and through the State Department, with Italy, so that everything possible may be done.

Offers the Battleship Fleet.

"Furthermore, I have cabled the Italian government proffering the services of any or all of the battleship fleet if such can be of use in this crisis. (Signed) "THEODORE ROOSEVELT."

The sixteen battleships with crews aggregate over 15,000 men, are now headed for Port Said, on the eastern entrance of the Suez canal, and are expected there by tomorrow, and there the ships will wait instructions from Washington.

The two supply ships referred to by President Roosevelt in his telegram tonight are the Celtic and the Culgoa.

The Celtic sailed from the New York navy yard Thursday and will proceed as rapidly as possible to Messina, touching at Gibraltar.

Kodol for Dyspepsia, and Indigestion will digest any and all food at any and all food at any and all times. Kodol is guaranteed to give prompt relief. Sold by Live Oak Drug Co.

BLACKMAN'S Medicated Salt Brick

Is composed of the purest Dairy Salt, Sulphur, Saltpetre, Coperas and Nux Vomica, as prescribed by a graduate of the American Veterinary College, of New York City, for the ordinary diseases of animals for which it it intended.

What it Does

Aids digestion.
Purifies the blood.
Removes ticks and worms.
Cures skin diseases, kidney, stomach and bowel trouble.
Prevents colic, blind staggers, Texas fever, heaves, lampers, murrain and cholera.
Creates a healthy appetite, tones up the system, removes old coat of hair and brings out the new.

What it Don't Do

Don't get old and wormy.
Don't lose strength with age.
Don't get eaten up by rats and mice.
Don't have to be hunted up and dosed out at feeding time (often after dark) as do other remedies, for after being placed in feed box or holder it is always where stock can get it as they need it.

Better and Cheaper than Stock Powder

It costs no more per package than stock powders, yet weighs one pound more than the most popular 25c package of stock powders we have examined; besides our Medicated Brick contains no rice bran, cotton-seed hulls or other non-nutritious material. In fact, it contains absolutely nothing but Dairy Salt in which are mixed Sulphur for a Blood Purifier, Coperas for Worms and Bowels, Saltpetre for the Kidneys and Nux Vomica, which is one of the best known Tonics.

It is admittedly true that when stock most need medicine they are least inclined to take it, and though needing nourishment, have but little desire for it, and even this is often destroyed by medicine being placed in the feed.

It is also true that when stock feel badly they crave salt more than at other times, therefore our system of giving stock medicine in salt is not only the simplest and surest but is the very best way—the common sense way—of overcoming the disagreeable taste of the medicine so objectionable in other plans.
