

WILL STAND TRIAL.

Savannahians Believe that Greene and Gaynor Will Return.

Savannah, Ga., Feb. 14.—Savannahians generally feel that they are yet to enjoy the sensation of which they were robbed by those who were to afford it. They believe that B. D. Greene and John F. Gaynor will be brought back to this city to stand trial for the conspiracy to defraud with which they are charged by the United States government.

All Savannah was naturally deeply interested in the trial of the supposed arch-conspirators. Developments in the celebrated case came so fast for a time after the flight of Greene and Gaynor to Quebec that the people scarce had a chance to collect their wits and realize the regret they felt that the sensational trial had not been held, according to program and the intention of Judge Emory Speer, the United States court officials and all the parties at interest save those most vitally concerned.

BELIEVE DEATH ACCIDENTAL.

Linton Williams is Thought to Have Dropped His Pistol.

Athens, Ga., Feb. 14.—The belief is now prevalent that Linton Williams, who met his death at his home near Hull, Ga., a few nights ago, was not a suicide, but that his death was the result of the accidental discharge of his pistol.

There were no signs of powder burns on his face, there was not a single hair on his head singed, and the pistol lay several feet away from his feet when the body was found. The course of the bullet was such as to indicate that the pistol must have been near the floor or on it, because the bullet went upward and lodged in the ceiling of the room. There was no cause for suicide, as he was not in debt and the very day of the death was at his father's home planting for the spring crops. It is now believed that he was handling the pistol and dropped it on the floor, when it was discharged.

BUREAU OF IMMIGRATION.

North Carolina Will Establish One in that State.

Raleigh, N. C., Feb. 14.—It is decided to have a bureau of immigration for North Carolina and one of the most powerful arguments made before the legislative committee in favor of this was that by Secretary J. S. Kuykendall, of the North Carolina Real Estate Dealers' association.

He stated, from figures obtained with great care, that during the past 10 years 98,000 of the rural population had been called into service by the factories in the state and that by reason of their departure from the country 19,600 farms had been vacated.

He stated that no one was taking the place of this great mass of agriculturists who were flocking in the cotton and furniture factories mainly, there being over 600 such factories. He further stated that the bureau of immigration could place on the vacant lands practical and hardworking farmers of selected class.

GUARD SHOT TO DEATH.

Quarrel of Men Who Guard Convicts End Fatally.

Waycross, Ga., Feb. 14.—L. E. McElroy, a convict guard, was shot and instantly killed by L. S. Rickettsan, also a convict guard. The killing occurred at W. M. Turner's convict camp at Astoria, Ga., near this city.

Saturday the men quarreled over some trivial matter, and Sunday, while Rickettsan was on duty guarding the convicts from a stockade mill tower, McElroy started up the steps to the tower with an open knife in his hand, according to witnesses.

Rickettsan warned McElroy to keep out of the tower, and as the latter kept advancing with the open knife, Rickettsan fired, the contents of a shotgun entering McElroy's body.
