SCHOOL BOARD DOINGS.

Anthony and Ebenezer Want Special Tax School Districts—Financial Report.

A full board attended the meeting of Marion county's school custodians last Monday.

Mrs. A. D. Winston, of Blue Springs, stated that the school wagon was not carrying her daughter to school. She was told that the school term was out so far as the county controlled and she would have to make her complaint before the Dunnellon local board of trustees.

Dr. G. B. Paramore was appointed supervisor of the Eureka school to fill the unexpired term of R. W. Holliday, who has moved to Ocala.

The tax payers of Anthony and Ebenezer petitioned the board to call an election creating said districts into sub school districts. The petitions were granted and the notice calling for an election will be found in the advertising columns of today's paper.

The secretary was instructed to issue a circular letter for the purpose of securing a corps of good teachers for the next term, and asking the cooperation of all concerned in the selection of same.

The board wants all recommendations to be before it by the first of May. If local boards and supervisors fail to make recommendations for teachers before the June meeting the county board will proceed to appoint teachers without such recommendation. The superintendent is also instructed to notify teachers contracting to teach for the full term and resigning before the expiration of the term would be regarded by the board as an act of bad faith.

The treasurer's report, which was approved, is as follows:

Tom Watson's Magazine. The first issue of Tom Watson's Magazine is out and it fully justifies public expectation. It is like a double-pointed, two-edged instrument—it is rather dangerous to run up against. The language is strong, robust and full-grown and the pages are fresh, crisp and sparkling. It takes no half way ground on any measure. It grapples with living issues; its reasoning is logical and well grounded and its aspirations are lofty. We have but one objection to it—it strains itself to belittle Bryan, which, however, shows that its gifted author, like everything human, has his weakness.

A Correction. To the Editor of the Ocala Banner: Your report of the postoffice case from Eastlake, tried before Judge Williams created a wrong impression. I think if you investigate you will find that W. E. Fosnot and his daughter, Della, with Mr. Steel were indicted for a conspiracy to interfere with the postmaster, Mr. Squires, in the discharge of his duties. The case was tried before Judge Williams W. E. Fosnot and his daughter, Della, were bound over in the sum of one hundred dollars each to appear for trial before the next United States court. X. X. Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

Several Central American Republics On Verge of Uprisings.

San Francisco, March 9.—According to a report brought from Central America by the steamer Acapulco, just arrived at this port, revolutions are threatened in Guatemala, and also in Nicaragua.

President Cabrera of Guatemala, and President Zelaya of Nicaragua are said to be very unpopular with the masses in their respective countries. Cabrera is trying to avoid trouble by opening up the new railroad to the Gulf coast, which is expected to stimulate trade. In Nicaragua the situation is said to be greatly strained over the new law compelling priests to appear in citizen's clothes instead of in Cassocks. The church party is very strong throughout the country, and the law dictating the style of garb for the church leaders has from the first met with strenuous opposition.

CONTEST BUCKET SHOP BILL.

Measure Will Be Fought—Divorce Law of North State Please May.

Raleigh, N. C., March 9.—The bucket shop bill, passed by the legislature, allows cotton mill men to deal in futures, this amendment having been secured by Senator Eller in the interest of the mill men.

The bucket shop people, as they are popularly known, say the new law is worthless, because it is class legislation and hence unconstitutional and say they will continue business and let a test case be made.

The divorce law which has been enacted by the legislature gives more satisfaction than anything in that line which has been done in a score of years, and it annuls a long string of special laws, enacted to cover particular cases in the interest of people who wished to take another husband or wife.

Ours is the original mail order whiskey business, after which many small dealers pattern in an attempt to duplicate our success.
