Atlanta Editor Talked of as President for Jamestown Exposition.

Atlanta, May 18.—It is reported that Hon. John Temple Graves, editor of The Atlanta News, may be offered the position of president of the Jamestown exposition to succeed the late General Fitzhugh Lee.

The suggestion of Colonel Graves' name was made by W. E. Christian, assistant general passenger agent of the Seaboard Air Line in the Virginia club at Portsmouth last Saturday night.

When asked about the matter, Colonel Graves merely said such an honor would be a great one, and most highly appreciated by any man. Other than this he would not discuss it.

KILLED BY HER BROTHERS.

Troubles of a Texas Girl Result in Homicide.

Yoakum, Tex., May 18.—E. S. Mason, a prominent business man, was shot and killed by M. A. and P. A. Newman, brothers, who were concealed in the Lane hotel, and who used rifles.

Mason, it is said, feared trouble, but had adopted the policy of going about in his shirt sleeves, to show that he was unarmed.

Several days ago Miss Lillian Newman, about 28 years of age, died at Runge, and shortly thereafter Dr. J. M. Boyd, a highly respected physician, was bound over in \$5,000 bond to answer a charge of malpractice in connection with the young woman's death.

The brothers of the dead girl, one living at Alice and the other at Fort Worth, visited Yoakum, then left town, but returned last night, and the shooting followed.

They surrendered and have been taken to Hallettsville.

Colquitt, Ga., May 18.—While Dr. P. E. Wilkin and Miss Jennie Egerton were out horseback riding they met two four-horse wagons loaded with spirits of turpentine.

In attempting to pass the first wagon the horse Miss Egerton was riding became frightened and the mules became unmanageable, the result was that Miss Egerton fell under the wagon and was crushed to death.

The horse that Dr. Wilkin was riding was so mangled that it had to be killed. Dr. Wilkins was slightly hurt.

The limpets are a curious kind of shellfish. They resemble the abalones in their habits. The interior is made of the most brilliant colors, bronze and iridescent hues predominating.

They are ferocious animals and prey with great voracity on clams. The process seems slow, but the limpet always gets there. He gets his cover over the unsuspecting clam and puts his big foot on his shell, generally on a weak spot.
