## FORT MCCOY.

Special Correspondence Ocala Banner:

The many friends and old neighbors of Prof. J. H. Brinson are pleased to note his appointment, or election, as principal of the business department of Rollins college. "Dee" is a home product, having made himself what he is by perseverance and close attention to work. His father, a very worthy man, fought four years in the civil war, came home penniless, carrying an ounce ball in his body, and was not able to give his son but little assistance in getting an education. But all these hindrances never stopped the boy, who had determined to be a man. We are all proud of "Dee," and only wish that all boys would strive more to follow his noble example instead of smoking cigarettes and wearing baseball stockings.

Capt. Jack O'Hara made his monthly visit to his two large turpentine farms here last week. On being asked how things were going he said he had no kick coming with spirits turpentine at 79 cents per gallon and first grade rosin at \$5 per barrel. He only regretted that the shipping facilities were such that he could not get the stuff off fast enough, Captain Howard having to stop to repair the steamer William Howard, and the river was so low that the steamer made slow time. It now seems that if Captain Howard expects to carry all the business up and down the Ocklawaha he will have to put on another steamer. This goes to show the necessity of some company building a railroad through this section, which would cause thousands of acres of the flatwoods to be planted to vegetables.

Foreman H. A. Atwater is progressing fine in putting up the new camp at Eaton Creek for the Wilson Cypress company. He has already put down several hundred yards of track and built some shanties. They will not get through piling here until August, when the dummy will be sent to the new place.

Supt. A. A. Thompson will soon commence to put a telephone line from Dexter to Citra, a distance of ten miles. This will give this section advantages heretofore not enjoyed.

Rumor has it that there is another big land deal on by parties of this place and on the east side of the river. Something is liable to drop any day, but we are not at liberty to use names yet.

By consulting the proceedings of the last meeting of the grand lodge of Masons we learn that there are 153 active working lodges in the state with a membership of 6,011 up to December 27, 1904, a net gain of 590 for that year; 367 Masons died in that year. Past Grand Master Samuel Pasco's picture graces the front page. He is well and favorably known throughout the state as an ex-United States senator.

Miss Stella Martin has returned to DeFuniak, where she has been attending school for the past two years. Mr. George Harper, the efficient bookkeeper for Hodges & O'Hara, at Dexter, has been quite ill the past week. But Dr. Eaton Lindner will soon have him on his feet again.

Mr. M. B. Waldron, one of the leading stock men of this section, will begin this week to deliver about \$5000 worth of stock cattle to parties living near Orlando. This trade was made ten days ago.

Sixty days of law-making and repealing laws. How do you like it? Sixty-five or seventy thousand dollars cost. Why not change this business some, and have the legislature meet every four years and save half this cost and apply it to good roads? That would give the people time to study the laws instead of making new ones before they can understand the old ones.

## Good Times at Moss Bluff.

Special Correspondence Ocala Banner.

All of Moss Bluff and the surrounding country met at the Grove near White's Ferry last Saturday and indulged in an old-time fish-fry, and the day proved a pleasant one to all. There was plenty of fish for all and fish to spare. There was also a barrel of lemonade and ice cream was plentiful and free. A very large graphophone furnished by Mr. T. H. Tillis entertained the crowd with delightful music, and the day was very pleasantly spent by all.

We are going to have another one soon, and ye editors must all come and join us.

Harrison Martin killed a rattlesnake near the picnic grounds eight feet long with eighteen rattles. He was a monster of a snake and fought manfully for his life.

We are all glad that our representatives, Wartmann and Sistrunk got their bill through allowing Mrs. Gen. J. J. Dickerson \$25 for pension. It is nothing but right and deserving. All praise to our representatives for it! L. T. J.

## Dying of Famme

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to the victim and friends. "When I had consumption in its first stage," writes Wm. Myers, of Cearfoss, Md., "after trying different medicines and a good doctor in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at Tydings & Co.'s drug store, price 50c. and \$1.00 a bottle. Trial bottle free. m

## Pleased With Ocala.

A letter from Dr. John M. Thompson says:

I came here about three months ago, partly for my health and partly professionally. Mr. Ed L. Ditto, E. C. railroad agent at this place, an old acquaintance and a son of our old Captain Ditto, had two children very sick and there being no doctor here—none nearer than Palm Beach, 17 miles distant—made it very inconvenient, besides expensive, so he wrote me to come down and attend them.

Having a curiosity to see the east coast, I came, and have been thoroughly restored to health and am glad to say that I have had work to do ever since I have been here, and these people always pay their bills at the conclusion of the case.

This is the greatest pineapple and truck country that I ever saw, and as soon as one crop is through with they have another on hand, and being paid cash for their "stuff" they always have money to pay their bills. In a practice of 33 years I have fewer accounts on my books, made at this place, than at any place I ever worked before.

Mrs. T. came here a few nights ago to visit me, on her way to South Carolina to see her sisters. She was just from Jacksonville, where she had visited our son, Dr. Thos. C. Thompson, who is doing a fine practice there.

Mr. Charles R. Carter, formerly a conductor on the A. C. L. railway between High Springs and Citra, and who was very popular among those who knew him, has about decided to again accept a position with that road, after having spent some time in the grocery business in Ocala. Mr. Carter has been engaged in railroad-ing for so long a time that his friends would venture he is fit for nothing else—but he is a good man at "his job," and everybody will be glad to welcome him back to the ranks again.—Gainesville Sun.

## DAISY

Mr. M. B. Waldron, the cattle king of this section, has sold his entire stock to Mr. McCullough, of Orlando. Messrs. Hodges & O'Hara have employed Mr. O. E. Hill to cook over some syrup that was under guard to keep in the barrels on account of not being properly manufactured. Our syrup makers should be more careful with their sweet product.

Mr. A. B. Albritton visited Ocala Monday.

Miss Lula Cason, one of our fairest, was out shopping today. Mr. Willie Cason was in town last week visiting his parents, Mr. and Mrs. W. H. Cason.

## A Little Admonition.

Before his retirement from business, Mr. J. R. Tyssen quit farming and became a commission merchant. In a printed communication he said:

"I am furnishing Florida merchants with sugar raised in Germany, France and the West Indies, although we have whole counties of the best sugar lands in the world. I procure them carloads of canned fish from Alaska and Oregon, although our waters teem with equally as good fish which, when canned, can hardly be told from their salmon. I sell them thousands of pounds of salted and canned meats from Chicago and Kansas City, although we have hundreds of miles of the finest grazing lands in the world; and hogs will get hog-fat on the pine masts in the woods. I get them thousands of cases of tomatoes, canned in Maryland, although tons and tons of them rot on the vines in Florida. They pay me for hundreds of oysters and clams canned in Baltimore, although our bays and estuaries are full of them of most excellent flavor. I even supply them with pineapples canned in the Bermudas. As for hay and grain, I do declare I have made money enough out of them to pay for that old farm I was beguiled into experimenting with ten times over. Why do they not raise their own fodder? A thrifty colored man at Orange Park keeps mine and several other families supplied with nice fresh butter, yet I sell thousands of tubs yearly, bought in New York and Illinois, and often wonder why they don't make their own butter as easily as that colored man does."

Gen. Bullock, thinking that he was strong enough ventured out driving over his fields Tuesday afternoon but it was too much for him and he soon became exhausted and when he reached his home he could scarcely get to the house from the buggy and while he is not at all in a dangerous condition he is still quite sick and his physician feels that he will need very careful attention.

Mr. J. B. Booth, who lives in the Linadale neighborhood, was in to see us Tuesday and says that the orange groves in his neighborhood are looking decidedly propitious and the people in that part of the county are feeling extremely hopeful again. He says the orange trees have now reached such a size that they will resist anything except an extraordinary freeze. The trees are extremely healthy and are not afflicted with white fly or any other injurious insects.
