

GOVERNOR BROWARD SCORED

The Democratic Executive Committee Adopt Soothing Resolutions—County Judgeship Appointment Denounced.

It was not until 2 o'clock yesterday afternoon that the county democratic executive committee was called to order by Chairman Baskin. A larger attendance was present than was expected and there was a certain amount of previous caucusing.

The object of the meeting was stated as being to consider the action of the governor in appointing of a county judge without awaiting the action of the executive committee. On roll call eighteen members were present in person or by proxy.

Those present were Messrs. E. W. Davis, L. S. Light, J. K. Mixon, J. L. B. Hudgens, W. L. Jordan, J. L. Grantham, by proxy; J. T. Lewis, W. T. Henderson, W. S. Forbes, F. M. Townsend, J. F. Barrett, G. J. Proctor, by proxy; T. E. Pritchett, Walter Luffman, C. E. Lucius, W. E. Nix, W. A. Yonge and the chairman.

Mr. Davis desired information as to whether the governor had ever been officially notified of any action of this committee. The secretary replied in the negative.

Mr. Walter Luffman, of Sparr, No. 26, read two resolutions, both along similar lines only varying in strength and both condemnatory of the governor. A motion was made to adopt the latter. On this motion Secretary Graham spoke in opposition and claimed that in many cases the governor was justifiable and offered a substitute resolution. Mr. Davis rose to a point of order and claimed that the secretary was not a member and had no right to offer a resolution or substitute. The chairman ruled the point well taken. Mr. Davis then moved that as a courtesy the substitute resolution be read and introduced. Mr. Davis then spoke strongly in favor of the Luffman resolution, which, upon a viva-voce vote was adopted with but few dissenting votes, the substitute not having received a second and therefore not put. The resolution is as follows:

THE RESOLUTION ADOPTED.

Be it resolved at this, a regular called meeting of the Marion County Democratic Executive Committee, called for the express purpose of taking action in regard to the recent appointment of county judge by Governor Broward.

1. That it is with regrets that we find it necessary as representatives of the democratic masses of Marion county, to censure the governor of Florida, whom we only a short time ago elected as a democrat to hold the high and honorable position that he now occupies, for exercising undemocratic prerogatives.

2. As executive committeemen from the great county of Marion, we feel that we would be recreant to the trust reposed in us by our democratic constituents were we to fail to take notice of and resent the unjustifiable and undemocratic action of Governor Broward in forcing a county judge upon us against our will and very much against us as a party organization.

3. As one of the largest counties of the state, with an element that might be used against the democratic party in the future we feel that our organized democracy should be upheld and strengthened, rather than weakened and made the laughing stock of by independents and republicans, as is now the case, caused by Governor Broward's unwarranted action in his recent appointment in our county.

4. That we believe that Marion county democrats know whom they would have to serve them as county officials better than any man outside of the county, though this man may be the governor of our great state.

5. That we know that the constitution permits the governor to fill certain official vacancies by appointments, yet when he does so, as in our case, under considerations refusing to let the democracy be heard from, throttling the voice of the people, he ignores democratic precedents and tramples upon the foundation of all true democratic principles—the voice of the people. And though we cannot change his recent appointment, we can and do raise our voices to resent the insult and sting given to every loyal democrat in our county and state—the stab in the back by one from whom we should have least expected this stroke in favor of "independentism."

6. That these resolutions be given publicity through our county papers.

Mr. Barrett then advocated the censure of any man who would accept an office without the committee endorsement. A resolution to this effect, however, was not offered.

Dr. Baskin then tendered his resignation as chairman of the committee. There were a good many protests

and on unanimous motion the resignation was withdrawn.

On motion by Mr. Davis, hereafter ten members in person or by proxy shall constitute a quorum to transact business at any regular or called meeting.

The committee then adjourned.

MR. GRAHAM'S SUBSTITUTE.

Whereas, Governor N. B. Broward has made appointment of county judge of Marion county without awaiting the action of the Democratic Executive Committee of said county, which action of the governor is not in accord with one of the most beautiful and time-honored customs and principles of the organized democratic party, and

Whereas, it is the sense of this committee—the head of the democratic party in Marion county—that such course of the governor, if persisted in would work detriment to the party organization and party principles, as well as the rights of the people. Therefore, be it

Resolved, That this committee, feeling painfully grieved at the action of the governor, respectfully request him in future, whenever practicable, to give heed to the advice and recommendations of the Democratic Executive Committees, both state and county, and out of respect to the democratic electors individually.

Be it further resolved, That a copy of this resolution be spread on the minutes of the committee, a copy forwarded to the governor and a copy furnished each of the newspapers of the county for publication.

A Warning to Mothers.

To much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct in any disorder of the bowels. Do not use any substitute but give the old-fashioned castor oil, and see that it is fresh, as rancid oil, nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by All Druggists. m

A Great Revivalist Coming.

The Rev. Charles M. Alexander, the world's greatest evangelist, who with a single gospel song for his tower of strength, has sung and preached his way almost around the globe and won thousands of converts, has announced, so a dispatch from London says, that his campaign of three years in England and Wales, the greatest modern religious movement ever known there, will soon be brought to a close, and that Canada and the United States will then be his field for religious conquest.

The revival in the United States, with New York as its central point, is expected to continue three years or more, and to be greater in the effect and wider in scope than that just coming to a close across the sea. Mr. Alexander and his associate, the Rev. R. A. Torrey, both disciples of Dwight L. Moody, will conduct the principal services, but it is expected that preachers of all denominations will take up the work until a great tidal wave of religion shall have swept the country, bringing thousand to Christ.

Throughout England to-day the song "Glory," which, it is said, has effected a million souls, is being sung, whistled, played by bands and orchestras and street pianos. Mr. Alexander expects to hear it in churches, homes and upon streets throughout the United States when the revival to be begun here is well under way.

A Touching Story

is the saving from death of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's new discovery for consumptinn, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At Tydings & Co. 50c and \$1.00 guaranteed. Trial bottle free. m

Among the really fine books offered to our young people, and older ones, too, in recent years, we commend "The Investment of Influence," by Newel Dwight Hillis. It will prove enriching and ennobling to the life and character of every reader. The book will be found at the Epworth Reading rooms.

Danger of Drinking Water Straight.

A temperance lecturer, not in Ocala, but in a distant city, made an address recently in which he told of the pitfalls of the platform orator. Among other things he said: "One pitfall," Mr. Tuttle said, "is the unwise choice of examples and proofs."

"A temperance lecturer wished to prove to his audience the deadly power of whisky."

"Accordingly he caused a drop of water to be magnified and thrown upon a magic lantern screen. Worms bigger than pythons, crabs bigger than elephants, spiders the size of a ship, fought together in the drop of water like fiends in the infernal regions."

"The lecturer now caused a drop of whisky to be added to the water."

"'Watch, friends,'" he said, 'watch the whisky's effect.'

"The effect was marvelous. The liquor killed all those ferocious horrors instantly. Their vast claws and tentacles and feelers stiffened. All became peaceful and still."

"An old lady in the front row whispered hoarsely in her husband's ear:

"'Wal, Jabes, that settles me. I'll never drink water again 't'bout puttin' some whisky in it.'"

An Alligator With a History.

A dispatch from Cincinnati states that Ajax, the 18-foot alligator, and largest specimen ever seen in that part of the country, died at the Zoo. An autopsy revealed the fact that during the time when the animal sowed wild oats he had subjected his gastric organs to many extremes, as the following list of articles was found within him:

One fish hook, 3 1-2 inches long, supposed to be the remnant of a fish eaten in his native Florida bayou.

One meteor, weighing 2 1-2 ounces. Three teeth of an iron garden rake, held together by the original back brace of iron.

Seventeen toothbrushes, presumed to have been dropped, accidentally into his enclosure when on exhibition at Orlando, Fla., and at the Zoo.

Three pairs of spectacles, without the lenses.

Three dollars and eighteen cents in silver and pennies.

Nine rubber combs.

One door knob.

One pair of scissors.

One small iron bootjack.

Ajax had formerly been the property of an alligator dealer, a woman at Orlando, Fla., from whom he was purchased two years ago.

He was supposed to be about 200 years old.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne Co., Mo., writes: "I have little twins girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine."

White's Cream Vermifuge is good for children.

It not only destroys worms, it helps the child to perfect growth, wards off sickness. Sold by all druggists. m

Summer Thoughts.

There is a pleasure in the pathless woods,
There is a rapture on the lonely shore,
There is a society, where none intrudes,
By the deepsea, and music in its roar;
I love not man the less, but nature more,
From these our interviews, in which I steal
From all I may be, or have been before,
To mingle with the universe, and feel
What I can ne'er express, yet cannot all conceal.

BYRON.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular says: "There is nothing in the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists. m

Temperance Speaking Friday Night.

The first gun of the wet and dry election was fired Friday night.

Arrangements were made to have the speaking from the band stand; electric lights were fixed and seats were prepared, but unfortunately, about the time the speaking was to begin things went "wet," and an adjournment was made to the court house.

Mr. Carroll being absent, Rev. W. J. Carpenter was the principal speaker.

He spoke, perhaps, for two hours and is a clear, strong, forceful, good humored speaker, and his address was liberally punctuated with applause, laughter and amens.

Mr. Carpenter handled the subject principally from a business standpoint, and said that the fears and apprehensions that prevailed in Gainesville had all given away to blessings and that some of the strongest wet men are now the most pronounced and enthusiastic dry men in the county and that business of all kinds had multiplied many fold. He read a letter signed by more than thirty business men bearing him out in this statement. The bank accumulations were larger; more houses had been built, and even colored people who had hitherto never saved a dollar were now building respectable and comfortable homes.

Of course we are merely giving an outline of the speech.

Mr. Carpenter ranks among the best speakers in the Florida conference and finest and most forceful orators in Florida and was at his best last night.

He had a good audience, the court house being comfortably packed, and, notwithstanding the rain, there were quite a number of ladies in the audience.

We are sorry we can not give more space to the proceedings.

THREE SALESMEN WANTED.—Three salesmen for new County, Township and Railroad Survey of Florida. This survey is a splendid compilation of facts, figures and drawings and of wonderful value. Counties and towns fully indexed and population of each is given; railroads plainly shown and distances between all stations are shown; congressional districts outlined, numbered and population given. Other features too numerous to mention. A splendid opportunity for energetic men. Rand, McNally & Co., Chicago, Ill. 8 18 3t

The Mission of the Republic.

This republic should stand as the gentleman par excellence among nations—a gentleman scornng the role of the swashbuckler whose hip pockets bulge with loaded six-shooters and who flashes big diamonds on his fingers and shirt front; a gentleman modest in the consciousness of strength and carrying justice, forbearance and conciliation on his tongue and benevolence in his hand, rather than a chip on his shoulder. If this republic is to endure and be successful in its highest mission, it must put its trust rather in schools than in battleships.—Carl Schurz's Address at the University of Wisconsin.

The announcement is made by officers of the federal government that the harbor at Tobolopambo, Mex., is to be improved by the construction of jetties breakwater, etc., and that the total cost of the proposed public works will reach several million dollars. Government engineers are now employed in making preliminary surveys preparatory to letting the contract for the work. Practically all of the labor improvement works in Mexico have been constructed by American and English contractors and it is practically certain that the contract for the Tobolopambo improvements will likewise go to some foreign concern.—Navel Stores Journal.

Fleishid Suffering

is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bedell, of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve, for Ulcers, Sores and Cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at Tydings & Co. guaranteed. m

We have now about 50 bushels of good sound peas on hand and would be pleased to fill orders while they last, for we do not expect to have any more this season. Ocala Seed So e. x

Consulting and Analytical Chemist. Member of the Society of Chemical Industry, London, Eng. Member of the American Chemical Society.
P. O. Box 703.

OCALA, FLA., Oct. 22, 1904.

Messrs. Strauss & Co, Wholesale Whisky Merchants, Ocala, Fla,

Gentlemen.— In accordance with your instructions, I visited your warehouse on the 19th, instant, and personally selected from your stock a sample of

"Strauss' Royal Reserve"

whisky, the analysis of which shows it to contain:

Alcohol (by weight), per cent.....	36.66
Alcohol (by volume), per cent.....	43.61
Degree proof, per cent.....	87.10
Residue on evaporation, p cent.....	0.660
Ash, per cent.....	0.011
Reducing sugar, per cent.....	0.225
Volatile acids, per cent.....	0.027
Amyl alcohol (fusel oil), per cent....	0.073

The above results show the whisky to be a carefully blended brand of high grade and that it has been distilled from a clean, pure grain mash. The amount of fusel oil and of volatile acids is very low.

Respectfully,
F. T. SCHREIBER, Chemist.
