An Alligator Story—He Attacks a Boat

Something that has not happened in the Caloosahatchee river for many years took place last Monday. While my wife and her brother and myself were returning home from Fort Myers in our boat a huge alligator attacked the boat near Billies Creek. When I discovered him he was coming full speed for the boat, with his mouth wide open, and when I gave the alarm my wife nearly fainted. As luck would have it, I had my guns in the boat, so I picked up a 22-rifle and shot him, but this made him come on all the faster, so I reached down and got my large rifle and let him have a shot, which made him crimp his toes. Monday morning as I was going to town I saw him near Walter Langford's house, with a big pied dog in his mouth. The gator measured 13 feet in length and weighed 450 pounds.—J. H. ALBRITTON, in Fort Myers Press.

Got Off Cheap.

He may well think he has got off cheap, who, after having contracted constipation or indigestion, is still able to perfectly restore his health. Nothing will do this but Dr. King's New Lite Pills. A quick, pleasant, and certain cure for headache, constipation, etc. 25c at Tydings & Co. Guaranteed.

Our special correspondent at Portland, Ore., says that eastern visitors to the Lewis and Clark Exposition continue to arrive in increasing numbers.

Attendance of approximately 40,000 during the first two months will be far surpassed by August and September, and it is confidently expected that the number of people from across the mountains who have come to this great fair will have exceeded 100,000 when the gates are sprung to for the last time on Oct. 15.

More than a dollar of value for every dollar's worth of goods is our effort. The Fair.

## Southern Timber Lands.

The timber forests of the Northwest have been practically denuded and the lumbermen of that section are seeking new fields of supply in the South. The yellow pine and hardwood forests of South Mississippi, long neglected, because of the lack of facilities for transportation of the logs or the lumber, have attracted the attention of the lumbermen of the North and the forests are being penetrated by railroads and punctuated with sawmills.

The development consequent upon the invasion of those forests by the millmen have been very marked, and it is said that land which could have been purchased as low as \$1 an acre now commands from ten to twenty-five times that much, and some of it has been sold for agricultural purposes, after being stripped of the timber, at a price many times greater than was paid for it with the timber standing.

## The Eclipse in Florida.

The sun will rise in all portions of Florida partially eclipsed. As a matter of fact, the eclipse will first be seen about 300 miles off the Florida coast and at 5 o'clock, when the sun rises here, about two-fifths of the sun's surface will be in shadow. The observation of the sun's diameter will vary for different sections; for instance, along the East Coast it will be less than .20 in the extreme south portion, varying thence northward to .28 in the vicinity of Jacksonville and St. Augustine. The maximum obscuration will be reached after sunrise; at Jacksonville it will be .40, decreasing down the coast to .22. The sun will rise along the whole East Coast of Florida at practically 5 o'clock, local time.—St. Augustine Record.

Munroe & Chambliss, and plans were put on foot to have Marion represented at the fair. The premium list is printed and is altogether attractive. The live stock exhibit now becomes a part of the county exhibit and this will give Marion cards and spades in the game towards capturing the first prize. It is going to be a big fair.

## Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. For sale by all druggists.

Clyatt, and both hastened out to be with him. Mr. Brooks is one of the best men in the county and has been a friend of ours of many years standing.

## Lonnie Davis Bound Over.

Lonnie Davis, colored, was taken before Justice Clarence C. Priest at Kendrick several days ago on a charge of assault with intent to kill. Information has been obtained which points strongly toward him as the assailant of his wife some months ago. She was assaulted near her home at Kendrick and after being badly cut in a number of places over her body, was evidently left for dead. She is now convalescing and it is thought will live.

Davis waived preliminary examination and was bound over to await the action of the grand jury at the circuit court in December. Justice Priest fixed his bond at \$1000, and as he was unable to furnish it he is now confined in the county jail.

Sistrunk, clerk of the court, Judge Joseph Bell, Justice Bullock, or Collector E. L. Carney.

Belva Lockwood declares that Roosevelt is making a great president, and Belva is not alone in her declaration. Roosevelt may be lacking in the courtesy, dignity and suavity in modo of some former presidents, but he has shown that a man may be lacking in these things and still can make a great president.
