

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

She got herself a waist Of mousseline de soie; And, donning it, she chased A very handsome boie.

If justice is blind she ought to be blind in both eyes and not one. But as long as things continue as they are justice will not be altogether sightless.

Mr. Rockefeller has given away to date very nearly \$50,000,000. Whatever else he may be he seems to have no inclination to be a miser.

A belle who once flourished in Jolo herself bought a love of a polo: She wore it one day, When, it grieves us to say, Her swain cut her dead with his bolo.

The weather has espoused the "wet" side and like some people who have gone "wet" can not break off. Fair weather is getting almost to be a rarity.

The secession movement in Norway seems to have been complete. There were only one hundred and sixty-one votes cast against the movement.

In a speech to the Filipinos, Senator Long, of Kansas, promised them the inestimable boon of free trade. A boon to the Filipinos why not a boon to all the world?

McLauren is going to run against Tillman in South Carolina and Graves against Bacon in Georgia. If any one has an eye on Mallory's seat he has not yet let it be known.

The announcement from Panama that "active work on the canal has been stopped" will surprise those who did not know that active work on the canal had ever been begun.—Tallahassee Capital.

Governor Broward, upon the recommendation of Comptroller Croom, has increased the state tax, but for so doing these officials fix the blame on the legislature. They criticize the legislature and say it was extravagant.

The Georgia editors are in politics up to their ears. John Temple Graves wants to go to the United States senate and Editor Estill will soon butt in to the editorial race against Editor Clark Howell and ex-Editor Hoke Smith.

Rembrandt sold his wife's wedding garments and spent the money for strong drink. But Rembrandt aroused himself and afterwards came to himself and performed works that are immortal and which have made his name immortal.

Elbert Hubbard says that the Aztecs were made to grind dried corn in the kernel and had good teeth and dentists were not in demand until men began to feed on mush. There is enough of truth in this suggestion to build a sermon on.

William Stewart, the negro who got hilarious Saturday night and bit officer Robinson's fingers, was fined by the mayor and was afterwards tried before Judge Bell for carrying concealed weapons, or resisting an officer, and was sentenced to pay a fine of \$100 or work on the hard roads for a period of 90 days. The officers' fingers were giving him considerable pain yesterday.

HOPES BASED ON AN EARLY FROST

Fever Situation Under Control, Declare Officials.

FEVER SPREADS IN COUNTRY

Government Official Visits Other Stricken Communities, and Will Render All Aid Possible—Twelve Cases Discovered at Natchez.

New cases at noon, since 6 p. m., Sunday, at New Orleans—22.
Total to date—1,765.
Deaths—5.
Total to date—269.
The daily reports of New cases of yellow fever and of those under treatment continue to show a diminution in number in what has been the fever belt. With the sudden change to unseasonably cool weather, however, the season of high mortality may manifest itself.

New Orleans, August 29.—The fifth week of the fight against yellow fever began today with a continuance of favorable conditions and with reason for hope that the crisis has passed, the fact that there are only 199 cases under treatment and many of the lightest character being especially significant. In the 31 cases in the preceding four hours only five were Italians and there were only three cases reported from the originally infected Italian quarter. The authorities have felt that when the sickness is practically stamped out of this district it will be comparatively easy to control it elsewhere and there is encouragement to the Sunday report, the fatalities continuing largely among the foreign element.

Surgeon Guiteras went to Patterson today and Surgeon Corput started on a tour of the surrounding country. The marine hospital service has now a man in touch with every infected point outside of New Orleans, Surgeon Von Eadorf, having started for Leeville, from which the information continues to be vague owing to its isolation.

Today's reports bring advices of general quarantine against Natchez, all the Mississippi towns cutting off communication with that city, which has not been difficult in view of the fact that it is not on a main line of railroad.

Vidalia, La., which is on the opposite side of the river, has suspended ferry communication. Many Natchez people are anxious to leave, but they have no means of getting out of town.

Iberia parish, through which the Southern Pacific runs, has a fresh right, and has cut off all passenger communication with the rest of the state. The railroad is disposed to obey the regulation, assuming that as Iberia will suffer most, an early abrogation of it will be asked.

Alexandria is free of fever, and advices from there say all signs indicate an early frost. Tree leaves have been falling for several days, and the wild geese have been passing over the city bound south. Reports of low temperatures come from various points in the southwestern section of the state. The weather here was unseasonably cool this morning. While there has been no sickness at Jackson barracks, Dr. Ames, of the United States army, has had Levi H. Folk, a private of the 68th class, hospital corps, ordered here to be stationed at the barracks. Private Folk is one of the men who were used in the experiments of the Reed commission in Cuba, and is regarded as the best yellow fever nurse in the government service.

Fever Under Control.

President Kohnke, of the city board of health, today corrected the statement attributed to him in the press that there was no hope to crush out the fever before frost. Dr. Kohnke said what he had said was that the last case might not be reached before frost because of concealment or other similar reason, but that the fever is already controlled and the date of the last case was not of as great importance as the winning of the fight for control. Dr. Kohnke said that the great damage of yellow fever to New Orleans was not so much its death rate, for it had been shown this year that it was not the deadly disease of ancient times, but to the city's commerce, resulting from the panic of outside communities.

Situation in Mississippi.

Jackson, Miss., August 29.—Surgeon Wason, of the marine hospital service, left this afternoon for Natchez, to make a confirmatory diagnosis of the yellow fever cases reported from that city. The suspicious cases reported from Hattiesburg and Indianola turned out on diagnosis by experts not to be yellow fever. Surgeon Young and Superintendent Savage, of the Valley Road, left this morning to arrange for a train service on this road and to select the site for the relay station, as no train crews from Natchez will be allowed to enter Jackson.

Killed Over Land Dispute.

Nashville, August 29.—In a difficulty over land matters Roland Moore killed P. Murray at Morton's Gap, Ky. Both men were prominent farmers.

PRINTERS RAISE LARGE FUND.

To Carry on the War Against the Chicago Typothetae.

Chicago, August 29.—Having already planned to raise funds to carry a small army of men on strike indefinitely, officers of the Typographical union here today demanded signed agreements from members of the Typothetae guaranteeing the 8-hour day under threat of instant strike.

By aiming to have a general strike of job printers in all the big cities near Chicago, from Ohio to Missouri, and Minnesota, local unionists plan to halt the importation of nonunion compositors from St. Louis, Indianapolis, St. Paul, Minneapolis, Cincinnati, Cleveland and other cities, where the Chicago Typothetae had been advertising for men to work under 'open shop' rules. With these cities, members of the Typographical union No. 16 believe there will be no surplus of printers to be sent here. In addition to the six shops which posted open shop notices Saturday and came under the ban of the union, 27 other members of the Chicago Typothetae are threatened. Union officials expected that about ten of the remaining firms will declare for war.

MAN FELL FROM BALLOON.

Was Dashed to His Death 12,000 Feet Below.

St. Louis, August 29.—Releasing his grasp on a trapeze attached to a parachute as the latter, twelve hundred feet above the ground, John Williams, 38 years old, has been dashed to his death at Red House park, near Cahokia, Ill. Every bone in his body was broken as Williams struck the ground with fearful force. The tragedy is said to have been the result of the victim's intention to make balloon ascension.

As the aeronaut prepared to make the ascension Williams was said to have rushed forward and seized the trapeze bar, calling to his friends: "Goodbye." As he clasped the bar the balloon rose into space, carrying both the aeronaut and Williams. As the parachute commenced to fill in the wind and the rapid descent of the canvas was suddenly checked, Williams, whose strength was exhausted, was jerked loose from the bar and his body shot downward.

The aeronaut plunged and lit a few yards away from the scene where Williams met his death.

Fatal Fight at Picnic.

Meridian, Miss., August 29.—At a picnic at Union Springs, Kemper county, Frank and Manson Chisolm, first cousins, engaged in a difficulty, both being fatally wounded. During a personal altercation in the presence of a crowd of ladies, Manson Chisolm advanced on his cousin with a knife, inflicting mortal wounds, and attempting the third cut, but Frank Chisolm, while falling, pulled his pistol and shot twice, both bullets taking effect in the breast and stomach. Manson Chisolm died almost instantly, and Frank is reported dying.

Price of Cotton Goes Up.

New Orleans, August 29.—New high levels for cotton were marked in the trading up to the noon hour, October then being 17 points up at 11.03, December 16 points up at 11.15, and January 13 points up at 11.34. The continued drought in Texas scared Liverpool into a further advance than due, and the statistical reports, showing that for the first half of the year American cotton exports were three times greater than for the first half of last year, or amounting to 338,000,000 yards, compared with 129,000,000 last year.

Shortage at Dispensaries.

Charleston, S. C., August 29.—Inspector Floyd returns to Charleston this week to resume his investigation of the accounts and stock of the dispensaries, his trip last week having found one of the four places examined to be short nearly \$3,000. There are six whiskey and three beer dispensaries to be examined and reports of other shortages are expected. The alleged shortage has attracted attention on account of the important disclosures which have been made by the commission of the legislature which recently met at Spartanburg and then at Columbia.

Big Labor Parade for Gotham.

New York, August 29.—Plans were completed yesterday for a local labor parade for a labor day parade which they claim will eclipse in point of numbers and display anything of the kind ever attempted in the country. More than 50,000 union men will be in line. Every union to be reported in the parade will place every man on its membership roll in line of march or as nearly so as is possible.

Taft Party at Olongapo.

Manila, August 29.—A dispatch received here this morning reported the arrival of the transport Logan at Olongapo. The Logan was scheduled to arrive at this port this morning came in on time. Olongapo is a harbor in Sub g bay on the southeast coast of Luzon, within a short sail of Manila. It is the naval base of the American Philippine squadron.

HOLMES SURRENDERS TO THE AUTHORITIES

Former Statistician of Census Bureau Gives Himself Up.

IS CHARGED WITH CONSPIRACY

District Attorney Beach Charged Holmes' Attorney With Trying to Get Prisoner Out of This Country. Bond Fixed at \$10,000.

Washington, August 29.—Former Associate Statistician E. S. Holmes, Jr., of the department of agriculture and indicted with Peckham and Isaacs of New York, charged with conspiracy to defraud the government by prematurely divulging the department cotton crop reports, surrendered to the United States marshal today and later appeared before Justice Stafford and gave bond in the sum of \$10,000, the amount agreed upon last Saturday before his arrival in this city. He was taken to the marshal's office by his attorneys, Messrs. Lester and Price, who also appeared with him in the court room.

District Attorney Beach made an effort to increase the bond of \$10,000, but the effort was opposed by Mr. Lester, and did not succeed. In moving for an increase Mr. Beach made an affidavit reciting the failure of Holmes to appear Saturday as per the agreement between himself and Attorney Lester, and charged Mr. Lester with aiding Holmes in evading the execution of a writ for the latter's arrest Saturday. He also said that facts had come to light showing that Holmes had realized \$50,000 last December, that he had recently sold a mine in the state of Washington for \$73,000, and had large sums of cash in bank and safety vaults. He also said that the offense charged against Holmes is not extraditable and he urged that all these facts justified a large bond. In reply Mr. Lester characterized as "gratuitous" the statements that he had assisted his client in avoiding arrest and related in detail all the peripatations of Mr. Holmes since he fell under suspicion. He said that his client had at different times since then been near the Canadian border and could easily have escaped to another country if he had so desired.

He also repeated that Holmes' failure to present himself on Saturday was due to delay in getting a letter to Holmes. The fact was brought out that Holmes was in Wildwood, N. J., from Thursday to Saturday of last week.

Boycott Gradually Subsiding.

Washington, August 29.—Of particular importance to the southern cotton spinners and weavers is the announcement by Minister Rockhill today that the Chinese boycott on American piece goods is about to be lifted. Cabling from Peking, the minister says that this information is to the effect that the anti-American boycott as a whole is gradually subsiding. The Chinese merchants of Shanghai dealing in piece goods are strongly opposing the boycott and taking steps which Minister Rockhill believes are likely to break it, so far as piece goods are concerned.

Argentina Debt Expires.

New York, August 29.—The term for the conversion of the 6 per cent bonds of the internal debt expired yesterday, says a Herald dispatch from Buenos Ayres, Argentina. Out of a total of holders of \$63,000,000, those of \$48,000,000 adhered to the conversion plan, besides those of \$3,000,000 at Antwerp and of \$4,000,000 in Paris, London and other European cities, forming a total of \$55,000,000. There remain only \$8,000,000 under the old conditions.

New Officials for Brazil.

New York, August 29.—Nominations for vice president of the republic offers some difficulties in consequence says a Herald dispatch from Rio de Janeiro of the opposition of Pernambuco men to the nomination of Nilo Pacanha, governor of the state of Rio de Janeiro. As for the presidency the nomination of Alfonso Penna, at present vice president, has been definitely decided.

Negro Lynched in North State.

Newbern, N. C., August 29.—John Moore, a negro 29 years of age, was taken from Craven county jail, in this city, early Sunday and lynched by a mob of 100 masked men, armed with rifles and revolvers. With his hands tied behind him, the negro was led out to the draw of the Neuse river bridge, hanged to one of its braces and his body riddled with bullets.

Repeal Support to Booker's School.

Montgomery, Ala., August 28.—Rumors are current that at the next session of the Alabama legislature an effort will be made to repeal any section of the laws which tend to recognize the Tuskegee negro school, presided over by Booker T. Washington, by according either financial or moral support. This feeling is due to the recent Washington-Wanamaker incident.
