

### Throat Coughs

A tickling in the throat; hoarseness at times; a deep breath irritates it;—these are features of a throat cough. They're very deceptive and a cough mixture won't cure them. You want something that will heal the inflamed membranes, enrich the blood and tone up the system . . . . .

### Scott's Emulsion

is just such a remedy. It has wonderful healing and nourishing power. Removes the cause of the cough and the whole system is given new strength and vigor . . . .

### Hernando County the Egypt of Florida.

That Hernando county is the land of plenty, the Egypt of Florida, has again been proven, this time by an energetic farmer of Alabama in his first year of Florida experience in farming.

Mr. W. O. Ward, who moved here last fall or winter, is the gentleman referred to. Last week he gathered from six and a half acres two hundred and forty bushels of corn. The rows were seven feet apart. The land received only ordinary cultivation and attention. We have not heard that there was any fertilizer used.

He has twenty more acres in corn just as good, which he cannot harvest because velvet beans were planted with the corn, the former completely wrapping up the latter. The beans would yield as much in cash as the corn. He will put hogs in the field to harvest the corn and cows to gather the beans, and thereby increase his profits fifty per cent. The farmers who can't make a living on the hammock lands of Hernando county, cannot do farming anywhere on the face of the earth.—Brooksville Argus.

### Fire at Candler.

Wednesday morning, September 13, the handsome home of Mrs. M. F. Wallace at Candler, was entirely destroyed by fire.

The origin of the fire is unknown. Mrs. Wallace has been in Jacksonville for some time and was away at the time of the fire. The house was valued at \$5,000 and the furniture, the greater part of which was destroyed, was valued at several thousand dollars.

Mr. William Sinclair stayed at the place but at the time of the fire was away at his work.

Mrs. Wallace has the sympathy of the entire community in her great loss.

Mr. Kennedy is one of Sarasota's most prosperous young men and is the Seaboard agent at that place. Mrs. Kennedy formerly lived in Ocala and has a host of friends and well wishers in this city.

We extend our best good wishes to the happy couple.

A New Orleans chemist has just discovered a new calcide which will be used hereafter in fumigation, as it has been adopted by the health authorities there. It is composed of equal parts of crystal carbolic acid and gum camphor. Just in what respect this compound is superior to ordinary sulphur is not made public, but Dr. White recommends it very highly, though he counsels against its use by the public generally on account of some danger in handling it.—Pensacola News.

The marine medical board should study the map of Florida. It recently refused to let a young midshipman visit Ocala because of the outbreak of yellow fever at Pensacola, yet permitted him to visit Troy, Ala., more than two hundred and fifty miles nearer the place of infection. The stupidity exhibited by some officials is amazing.

An example of the beauties of reform is the treaty which seems to have been made by Governor Folk with "Gumshoe Bill," now Senator Stone, to prevent the return of Cockrell to the senate. Cockrell is worth a whole brigade of men like Folk and Stone.—Pensacola News.

Mr. W. E. Oldfield makes his headquarters in Ocala and some weeks ago was married to Miss Ethel Sinclair and is not the "Barney Oldfield" of auto fame.

Mr. Bryan is now off for a two year's tour of the world. Now, we hope some people will breathe easier.

### To Prevent Lightning Stroke.

The Scientific American gives the following simple remedy to safeguard one's self from damage by lightning: Simply put on your gum shoes or rubbers and then stand up so your clothes will not touch anything. Whether you are in doors or out of doors you are perfectly safe, for rubber is a non-conductor and you are perfectly insulated.

Mr. A. K. Taylor, the famous Jacksonville cartoonist, was a visitor to Ocala last week and made us a very delightful visit. It will be illustrated and cartoons of passing political events will be one of its features. The paper will start out sixteen pages and will increase in size as it grows older. But isn't it remarkable that Russia should apparently regard as a victory a treaty of peace by which it surrenders everything that it was fighting for?—Pensacola News.

It is well to turn defeat into victory. Indeed, Russia could have not been happy and done anything else.

The Live Oak Crescent says that Governor Broward vetoed a mighty good bill when he refused his signature to "an act to require the trustees of the internal improvement fund to pay into the state treasury all moneys now in their possession or which may hereafter come into their possession."

Mr. W. E. Sinclair, of Mobile, Ala., who was here on a visit to his parents, has gone on for a business visit to Cuba. Mr. Sinclair says that just as soon as Mobile learned of the outbreak of yellow fever she procured many gallons of oil and began using it freely in every pool, pond, lagoon and bayou and as a million and a half dollars had just been used in draining the city, no apprehension is felt there of the outbreak of the disease. He says Mobile is as clean as a new minted silver dollar.
