HAPPENINGS ABOUT TOWN.

Mr. Edw. Holder was among the Ocala House arrivals yesterday.

Mr. W. A. McQuaig, one of the pioneer settlers of Eureka, was among those who visited Ocala Tuesday.

Mr. C. H. Dame is back from the East Coast where he has been organizing lodges of the Woodmen of the World.

Dr. and Mrs. Reeves, of Levon, were in the city yesterday. They have just returned from a visit to Valdosta and Atlanta.

Little Miss Mary Edna Carroll, the pretty little daughter of Rev. and Mrs. C. C. Carroll, after a few days' illness, is out again.

On account of the Band of Mercy Pet Show Saturday the sewing society which was to have met at Mrs. Sexton's will be postponed.

Mr. T. C. Ellis, representing the Gainesville Fertilizer Works, is in Ocala today and speaks hopefully of the vegetable industry of this section.

Mrs. D. C. Edwards of the Ocala House, is still enjoying herself on the Pacific slope. She is now at Los Angeles, California.

Mr. I. N. Huyett, the well known contractor, is in the city after some months spent in the north. He is stopping at the Montezuma.

Mrs. W. D. Graham, before her departure for her new home at Asheville, N. C., is the guest for a few days of Mrs. W. J. Lohrig, of this city.

Yesterday was a fine day. The air was cool and bracing. Many, to receive its full benefit, rambled into the woods, while others enjoyed carriage and automobile drives.

The Ocala Manufacturing company has just installed a new hoop machine in their crate mill, and their capacity for making barrel material has been nearly doubled thereby.

Miss Carrie Lapham, after a visit of several weeks to her brother and sister, Mr. and Mrs. Harry Lapham, left yesterday for Miami, where she will be the guest of her father and mother.

Mr. W. L. Goodwyn, the capable and popular representative of the Richmond (Va.) Paper Manufacturing company, is in the city interviewing the printing trade. He is comfortably located at the Montezuma.

Judge David S. Williams, who has been spending a couple of months at Sycause, Flushing and New York City, returned home Tuesday. He is looking well and has had a delightful vacation.

Sam Small, the evangelist, is to deliver a lecture in Jacksonville next Sunday evening on "His Majesty, the Devil."

Mrs. M. M. Little and children, Mr. and Mrs. Albert Gerig, Mr. and Henry Lipham and Miss Lipham returned Friday from a ten days' visit to Lake Weir.

Messrs. W. C. Coleman and J. B. Pounds, of Jacksonville; J. M. McCoy, of Talbotton, Ga.; W. O. Luffman, of Sparr, and H. W. Long, of Martel, were numbered among the Montezuma arrivals Tuesday.

LOST OR STRAYED—On Thursday night, Oct. 19, from my home at Kendrick, a black mare, seven to eight years old; has saddle marks on both sides of her back. Information leading to her recovery will be suitably rewarded by W. E. Nix, Kendrick, Fla., 10-17tf

Mr. L. J. Brumby, census enumerator for this county, received a letter Tuesday from Commissioner McLin stating that his books had been received and were in perfect shape. This is a very high compliment and is appreciated by Mr. Brumby and his friends.

Mr. L. Hickson, of McIntosh, was among the visitors in the city Tuesday. He says the orange crop around Orange Lake this season is in splendid shape. Only a small quantity of fruit has gone to market, however, to date.

Mayor Edwards has returned from his outing and held a matinee yesterday morning and entered the usual fines for disorderly conduct, William Jones and Ransom Miller being the unfortunates.

Mr. John T. Lewis, the urbane postmaster, merchant and orange grower, of Moss Bluff, paid his respects to Ocala Tuesday. Mr. Lewis has succeeded in maturing a very fine crop of cane this year and is making preparations to convert it into syrup. He will grind his crop this season with the aid of steam, having just erected a large mill and evaporators for this purpose.

"The infection of yellow fever is carried by mosquitos, and by no other means is the infection spread. Persons take the disease by being bitten by mosquitos that have previously bitten a yellow fever patient. The mosquitos to become infected must bite a yellow-fever patient during the first three days of his attack. These first three days, therefore, is the most important time for preventing the access of mosquitos to a fever patient."—Surgeon General Wyman.

Frank Harris, jr., who attends the Donald Fraser school at Decatur, Ga., went to Atlanta to see President Roosevelt while he was in that city, and says he never before saw such crowds of people; that they were packed and jammed for miles and must have numbered two hundred thousand; that more than forty-five thousand entered the fair grounds to hear him speak, and that the city was a scene of enthusiasm and was beautifully decorated and bunting and flags streamed from every store and window.

Prospering in the Big City.

His friends in Florida will be glad to know that Mr. Charles W. White has been overtaken by a measure of success somewhat commensurate with his industry and activity. He occupies a suit of four or five rooms on the fifteenth floor of the Bowling Green building at the foot of Broadway. He took us on to the top of this building which is one of New York's famous sky scrapers. It commands a beautiful view of the city, the Hudson and East rivers, the harbor and shipping, Brooklyn bridge, the statue of liberty, Ellis island and all the outlying cities. The view is a wonderfully interesting one.

Mr. White has a number of clerks and typewriters and every moment of his time is occupied, but he was not too busy to take us through the cotton exchange, automobilizing over the city, to several plays at the best theatres with Mrs. H. and a party of friends, and dined us at the Hotel Astor. He aided in making our stay in the great metropolis one of exceeding interest and pleasure.

One of his clerks told us that Mr. White had a number of oil wells in Indian Territory that were beginning to pay very handsome dividends and that his gold investments in Alaska are developing into rich paying properties.

Though transferring his citizenship to New York City Mr. White has lost none of his love for Florida and Floridians.

Keeping Up Their Standard.

The enterprising proprietors of the Tea Pot Grocery have fifty-eight samples in their show windows of the H. J. Heinz Company's pure food products and three of the representatives of this firm are now engaged in distributing samples of these goods to the patrons of the Tea Pot Grocery, which, it is needless to say, were very highly appreciated.

Messrs. A. Brown & Brother are nothing if not enterprising and are in every way living up to the high standard that they have always maintained. In passing take a look at their windows, and be sure and sample some of these splendid products.

Mr. W. E. Nix, of Kendrick, had the misfortune to lose a fine horse several days ago. He has notified persons in different sections of the county of the fact, and since he has not heard from the animal he has come to the conclusion that some one stole it.

You are Invited

To inspect our new line of up-to-date
**Dress Goods, Ladies' and Children's Jackets
Sweaters, Etc.**

—Don't fail to see our line of—
LADIES' HATS.

**A Complete Line of Ladies' and Men's Shoes.
Children's Shoes a Specialty.**

All are new and the best possible values for your money. Come make our store your headquarters.

HELVENSTON - PASTEUR CO.

By Water to Leesburg.

The steamer Winona, Captain Allen Gibson, arrived at Leesburg dock from Silver Springs via the Ocklawaha river yesterday afternoon, thus demonstrating that the Ocklawaha river is navigable now its entire length to Lake Griffin and to Leesburg. Mayor L. E. Dozier, Messrs. R. F. E. Cooke and L. M. Johnson were members of the party who made the trip, and they report that the river is wider and deeper than it was when formerly the Hart and Bouknight lines of steamers made regular trips to the lakes twenty years ago.—Leesburg Commercial.

There were fifteen arrivals at the Ocala House yesterday.

A Serious Accident.

On Monday afternoon Mr. Sim Lummus, the Star's linotype operator, happened to a very painful accident. The gas engine had gotten out of fix and while he was engaged in examining it the electric spark ignited a charge of gas which had remained in the cylinder of the engine, the entire charge striking him full in the face, burning his eyes very badly.

He was taken home and a doctor immediately summoned. An examination of his eyes proved that they were painfully but not seriously injured and that he will probably be able to resume work in a few days.

Halloween Party.

The ladies of St. Catherine's Guild will give a Halloween entertainment, at the Episcopal Rectory, Ocklawaha avenue, Tuesday evening, October 31st, beginning at 6 o'clock.

There will be all kinds of amusements appropriate for the occasion. The spirit of Halloween will be visible everywhere. Everything will be done in true Halloween style. Delicious refreshments will be served, and there will be lots of fun for old and young at the Rectory, Halloween, October the thirty-first.

A New Firm.

Read the new advertisement of Carmichael & Hough in another column of today's paper. Their offer of valuable presents free with purchases made at their store should prove quite a drawing card for their business. These young men have just opened up their place of business in the building which was some time ago partly destroyed by fire while occupied by Carman & Company. Besides their line of specialties they carry a nice line of staple and fancy groceries, fruits, etc. We wish them success in their venture.

Hon. W. H. Harrison, mayor, and R. W. Holliday, chief of police of Citra, were visitors to the county site Tuesday. That both of these officials can leave Citra at the same time shows that it is a well governed city and that these officials are experts in their line and have their municipality thoroughly disciplined. They paid a pleasant call at this office and said that oranges are moving from the groves there quite briskly, and that a number of turpentine and timber men have been recent visitors to their city and some big deals may be expected.

MUNROE & CHAMBLISS,
BANKERS,

OCALA, FLORIDA.

LOANS CONSERVATISM **DEPOSITS ACCOMMODATION**

Appeal from the W. C. T. U.

The Women's Christian Temperance Union invite the ladies of Ocala who do not care to take the pledge and become permanent members of their Union, to meet with them and organize a Temperance Auxillary Band, and to aid, by their influence, the present movement for temperance.

In all moral questions there is but one right and one wrong side, and every womanly woman, whose best interest is enlisted in the home, should lend her influence on the right side of moral questions which so vitally effect the home and loved ones.

No woman can say that the saloon will never harm her—never rob her of the sweet peace and home happiness that her sphere in life naturally deserves. Only God knows that, and wives, mothers and young ladies should look to it that their influence and power is exerted for higher morality and the betterment of mankind.

In the hall of fame at Washington but one woman's figure has ever been permitted to stand in that array of grand manhood, which has been the pride of our country, and that woman—so honored by men—is no other than the exponent of the temperance work, Frances Willard.

Such is the homage done to the woman we follow. Will not the women of Ocala ally themselves with our work?

The first lesson our Lord thundered in the ears of Cain was: "Thou art thy brother's keeper."

The W. C. T. U. meet every Wednesday afternoon at three o'clock at the Armory.

The Pet Show.

Miss Emily Tatham is engaged in a most benevolent work in teaching kindness for our dumb animals among the children. She it was who organized the Band of Mercy here and is incessant in her efforts to promote its usefulness. She proposes to have a "Show of Pets" Saturday, October 28, in the Gary grove. All description of pets will be entered, horses, dogs, pigs, cats, birds, etc. Besides the Show, the literary program will be interesting. Miss Tatham's main object is to distill lessons of kindness.

She wishes to teach that—
Kind hearts are the gardens,
Kind thoughts are the roots,
Kind words are the blossoms,
Kind deeds are the fruits.

Mothers.

Who would keep their children in good health, should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. All druggists.

Still Boring for Oil.

From Wednesday's Daily. Mr. John W. Pearson, manager of the Florida Oil and Gas Company, was in Ocala yesterday and said that all the machinery of his company had been moved from Sumter county to what is known as Red Level in Citrus county and all arrangements have been made to begin another effort to get oil. A thirteen inch well was started Monday. The company has engaged an oil expert and the sinking of the well will continue as long as there are any indications of success. If there is any oil in Florida this company is determined to find it.

The mysterious Mr. Raffles, of the New York American, has been caught. It was a clever advertising dodge.

Governor Broward Up Against It Again.

A special from Jacksonville says: An interesting situation developed here today when lawyers discovered that M. A. Brown, recently appointed to the office of sheriff of Duval county, is not eligible because of a provision contained in Section 9, Chapter 4328, Laws of Florida, which provides that the Supervisor of Registration shall not be eligible for any other office until six months after ceasing to be such supervisor.

Brown has held the office of sheriff here, by appointment of the governor, despite the fact that he was Registration Officer up to June 15th of this year, when he resigned to accept the position of Secretary to the Governor.

Everybody should lend Miss Tatham a "helping hand" and make her "Pet Show" a success. The lessons she is inculcating will bear fruit perpetually.

Professional.
