

THE OCALA BANNER.

THE NEWSPAPER—"WHAT IS IT BUT A MAP OF BUSY LIFE: ITS FLUCTUATIONS AND VAST CONCERNS."—COWPER.

VOLUME 44, NUMBER 8.

OCALA, FLORIDA, FRIDAY, AUGUST 21, 1908.

ONE DOLLAR A YEAR

Local and Personal

Capt. Stuart, so well known by our people, is visiting us again.

Is it chills or fever? Plank's Chill Tonic is guaranteed to cure. 25c. x

Mr. George Chambers is now night clerk at the Ocala House.

Mrs. Alice Cline is now furnishing music for the Air Dome.

TENTS—For sale or rent. Ocala Furniture Co. 7-24-tfw.

Mr. Will Goin is now bookkeeper for Messrs. Lang, Spencer and Company.

Policeman Frank Hall has his hands full—several members of his family are sick.

Mr. J. D. Pope of Wildwood, who is extensively engaged in the turpentine business, was a visitor Friday.

And Hon. Thos. E. Watson will not be in Ocala during the session of the populist state convention.

Mr. and Mrs. J. B. Griggs of Moss Bluff were shopping in Ocala Saturday.

Miss Laura Hodge has returned to Miami after a pleasant visit to relatives here.

Mr. Allan Bridges is back from a visit to Lynchburg, Va. He had a royal good time.

For fine photo views or post cards call on T. H. Mills, 54 North Magnolia street, Ocala, Fla. 8-14-tfw.

Capt. J. B. Martin, the genial and affable turpentine operator of Oklawaha station, represented his section in Ocala Friday.

Mr. A. P. Gilmore is back after a week's absence on a pleasant outing. He is the efficient money order clerk at the Ocala postoffice.

Col. Malloy, the Anthony trucker, says that a strong political sentiment is now setting in for the great Nebraskan.

Mr. Hat Barnett was in Ocala Saturday and kept a score of his friends entertained in his well told reminiscences.

T. H. Mills can make your picture on post cards and finish them while you wait. 54 North Magnolia street, Ocala, Fla. 8-14-tfw.

"Women couldn't run the fire department, anyhow."
"Not muscular enough, hey?"
"I was thinking they'd insist on the dropstitch hose."

The Star has learned of the death of Wilbur Miller, son of the late Hon. H. E. Miller and nephew of Mr. D. A. Miller. He died at Holder some days ago.

Mrs. Sandford Jewett and the baby are back from a month's stay at St. Petersburg and Clearwater. The baby was wonderfully benefited by the trip.

It is now Justice J. W. Lyles. Mr. Lyles will make an excellent official. He is methodical, thoroughly educated, and what is more, an honest man. He is a member of the Confederate camp of veterans.

Mr. Charles Rheinauer is moving the old Tyler house to the southwest corner of his lot on South Third and Watala streets for the purpose of making room in the center of the lot for another dwelling.

Judge Joe Bell is tearing down the negro houses on his lot on South Second and Watala streets, and will erect some handsome cottages in their places. Ocala continues to move along apace.

We will sell you a first class razor for \$2.50, and guarantee it to be first class. Use it for thirty days, and if you are not satisfied, return it and get your money back. The Corner Drug Store. 7-24-tfw.

An enthusiastic admirer of Sanford and its surrounding frame of golden celery, writes to the Ocala Banner and "irrigation, irrigation" is in part the burden of his song. And it is gratifying to know that the wisdom of providing water in a dry season to thirsty plants that contain the germ of profit and prosperity is being better understood every day.—Tampa Tribune.

CURE FOR LOCKJAW DISCOVERED

In the issue of the Ocala Banner of August 6th, there was re-printed a special from Pittsburg to the New York World, which read as follows:

"The Magee Annex, also known as the Pasteur Institute, attached to the Mercy hospital of Pittsburg, tonight came to the fore with what it claims is the first real cure for tetanus, or lockjaw. Magnesium sulphate injected into the spinal column is said to have effected the cure.

"This evening Harry Gilbert, fourteen years of age, was discharged from the Pasteur Annex as well. His was one of the most severe cases to come under the notice of local physicians, and the new cure was watched with great interest.

"The boy was hurt with a toy pistol on July 4, and on July 13 was carried to the hospital in convulsions. Injections of 5 per cent. solution of magnesium sulphate was started and gradually increased to 15 per cent. By degrees the body of the boy, which had become rigid, resting only on the back of his head and his heels, began to relax. Anti-toxin, too, was used in good quantities to assist in the work of relaxing the muscles. All the hospital physicians assert that there was no hope of anti-toxin saving the boy's life, so far had the disease progressed before he was treated. The treatment lasted twelve days before the muscles of the body became once more pliant, and the last nine days have been spent by physicians in examining the boy to see that his condition is what it was claimed by the Mercy hospital physicians.

"Bellevue hospital, New York, has been greatly interested in the case of young Gilbert. It is said by the Mercy hospital people tonight that for some days there has been one of the Bellevue staff here watching the case. Bellevue, it is said, has lost three cases of tetanus similar to that of young Gilbert since July 4."

The State Medical Society of Florida met in Ocala on April 15, 1908, and one of the most interesting papers read before it was one giving the details of the treatment and cure of a case of lockjaw by Dr. W. H. Powers of this city.

The treatment of the case was identical to the same as the one reported from Pittsburg several months later. Indeed, the case treated by Dr. Powers was in December, 1907, and as his paper was read before the Florida Medical association in April, was re-printed in the Chicago Medical Journal and other periodicals devoted to the science of medicine some time during the month of May, it must have been seen by this Pittsburg physician, as the treatment was identically similar, and as it is a cure for this dreaded and almost universally fatal disease along entirely original lines, the credit belongs to Dr. Powers, and his brother physicians in Florida should see that he is not robbed of the honors that are justly due him.

TOM WATSON TO BE IN OCALA

Tom Watson, the populist candidate for president, is to be in Ocala August 27th. Why can't he be induced to come to Lake City? It would bring a great many people here.—Lake City Index.

The Gainesville Elevator is authority for saying that Mr. Watson will not be in Ocala on the 27th. The Elevator says that in a private letter to a friend in Gainesville Mr. Watson says: "It is a mistake about my having any appointment at Ocala. I don't like to be put in the attitude of breaking my engagement, a thing I never do unless I am too sick to crawl." That ought to settle it.

EXAMINATION OF TEACHERS

The regular uniform state examination for teachers will be held in Ocala commencing on Tuesday at 9 o'clock, on September 8, 1908.

All white applicants will meet in the Ocala High School building and colored applicants will meet in Howard Academy building.

Each teacher will supply his or herself with pen, ink and either legal or foolscap paper.

One dollar will be charged, according to law, each applicant, to defray the expenses of the examination.

W. D. CARN,
Supt. Pub. Instruction.

Mr. E. P. Thagard is in receipt of a pair of sleeve buttons made of pure gold, which was picked up by his brother who is in Alaska. They are large nuggets, and were made into buttons without being fashioned by the jeweler in that section. The gold is just as it has laid in its hiding place since perhaps the creation of the world. Mr. Thagard prizes the gift very highly.

WILL INQUIRE INTO THE DEATH OF CHARLEY CECIL

Rev. C. C. Cecil, the Methodist evangelist of Parish, was in the city yesterday. He came here with the intention of going on to Dunnellon to inquire into the sudden death of his son, Charley Cecil, but was deterred from so doing when he found that another of his sons had gone there to make arrangements for bringing the body of the young man to Parish for burial. This was done, and the remains were interred there this morning.

It seems that Charley, who was a printer, employed on the Dunnellon Advocate, complained of feeling very ill early yesterday morning, and went to his room to take a dose of medicine. Later in the morning some one went to the room to arouse him and found him unconscious. He died shortly afterwards.

Whether the boy took the wrong medicine or whether he died from some illness of which he had been complaining is not known. So far as could be learned no post mortem examination could be made. The boy was well known in Tampa, having formerly resided in this city.—Tampa Times.

DOES IT PAY TO ADVERTISE?

As an illustration of what a little money invested in printer's ink sometimes accomplishes, we would call attention to the big crowds that thronged the Air Dome on Thursday evening.

The proprietors had an extra good attraction and told the public about it through the press, which resulted in a crowd in their nicely appointed open air theater from 7:30 till after 11 o'clock.

If you've got anything that has the merit, and will let the public know that it is for sale, you'll certainly be able to dispose of it. The Air Dome people have a good show, and they know it, but it is up to them to let the public know it. This they do by a judicious use of printer's ink. Moral: Advertise.

DEATH OF CHARLES SUMMERLIN

Mr. Charles Summerlin was brought to Ocala some weeks ago from one of the near-by places quite sick. He gradually grew worse and died Thursday night. He was buried yesterday afternoon in the old cemetery beside his parents. Undertaker E. C. Smith had charge of the remains, and Rev. C. C. Carroll conducted the funeral services.

Mr. Summerlin was about thirty-five years old, and until recently lived in Ocala. He leaves a sister and two brothers and a number of friends to mourn his death.

WHY JAMES LEE GOT WELL

Everybody in Zanesville, O., knows Mrs. Mary Lee, of rural route 8. She writes: "My husband, James Lee, firmly believes he owes his life to the use of Dr. King's New Discovery. His lungs were so severely affected that consumption seemed inevitable, when a friend recommended New Discovery. We tried it, and its use has restored him to perfect health." Dr. King's New Discovery is the king of throat and lung remedies. For coughs and colds it has no equal. The first dose gives relief. Sold under guarantee at Tydings & Co. drug store. 50c. and \$1. Trial bottle free. m

Mr. M. Atkinson of Fellowship, was in Ocala Saturday. He was at one time the populist nominee for congress from this district, but is now an enthusiastic Bryanite. He says that the Nebraskan is spotless and will win this time with hands down. He says that he will carry nearly all the populist votes, most of the Hearst independence league votes, a large number of dissatisfied republican votes and nearly all the labor votes. His election is in the very air we breathe.

SHE LIKES GOOD THINGS

Mrs. Chas. E. Smith of West Franklin, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at Tydings & Co. drug store. 25c. m

The pressed brick has arrived for the primary school building, and active work on the building has been revived. The first story has already been completed. It will be an elegant looking building and will be in every way creditable to the county and school boards. That is our idea of things. A thing worth doing at all is worth doing well.

A NEWSPAPER FROM THE FIJI ISLANDS

We have on our desk a copy of the Western Pacific Herald, a newspaper printed at Suva, Fiji Islands, June 23, 1908. It was given to Mr. Chas. H. Lloyd by Mr. Alfred Ewing of Suva, Fiji, who is making a tour of the world studying the phosphate industry. Mr. Ewing has discovered phosphates in the Fijis, and is collecting data for his own information. He says there are large quantities of it in the Fiji Islands. The Pacific Herald is an eight-page newspaper, and is well filled with advertisements. It is printed in the English language. It seems as if people live over there about like they do on this side of the globe. Here is the way one of the advertisements reads: "The Fiji livery and bait stables." Bait means feed. There are all kinds of advertisements in the paper—hotels, boarding houses, doctors, lawyers, dentists, stores, etc.

MR. HOLDER'S NEW AUTOMOBILE SMASHED

Mr. Holder's new automobile happened to quite a serious accident Friday. It was being driven by Mr. Ed Tucker, when in some manner he lost control of it and ran it on to the car of granite blocks that was being unloaded in the rear of Keating & Co.

There was no one in the car with Mr. Tucker at the time of the accident and he escaped unhurt, but the body of the handsome machine was completely wrecked.

It was taken to the Ocala Wagon Works, and it was said that it would take several weeks to put it in shape again.

We think Mr. Holder intends to send for a new body and top by express.

In this "horseless age," says the New York Times, the sprinkling of streets with water is going out of fashion. Thirty-three miles of Boston's thoroughfares are now either under oil, calcium chloride, or "tarve," a mixture much used on suburban highways. In New York top dressings of oil have been tried successfully in the parks. To the automobile's propensity of stripping the highway of its surface covering we shall owe the abolition of street dust altogether. Ocala should take a hint and "catch on." The expenditure of a few dollars would keep down her dust at least around the public square and business section of the city.

CHRONIC DIARRHOEA RELIEVED

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes: "Our general superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack of an old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley for four years in the 23rd Ohio regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by all druggists. m

Mr. Patrick Todd Randall of Connor was a Friday visitor. He says that there is not much doing in the boat line on the river at the present time, and that his own boat is lying at anchor. He says, however, that the orange trees are looking fine and promise an abundant yield of fruit this season, and the quality of fruit promises good also. He agrees with Mr. Roach that the fruit will be bright and juicy and that it ought to sell well.

DIARRHOEA CURED

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, with out avail," writes John H. Zirkle of Phillipi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philadelphia Republican, and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by all druggists. m

Mr. J. H. Strunk, ticket agent of the Florida East Coast Railway here, leaves tonight on a two weeks' vacation, which will be spent with Mrs. Strunk and children at Ocala, where they have been all summer. Many friends here will be glad to learn that Mrs. Strunk has almost completely regained her health, which was very poor previous to going to Ocala. She will not return until late fall.—Miami Metropolis.

THE OCALA ATHLETIC ASSOCIATION

The apparatus and furniture for the Ocala Athletic Association have arrived and the same will soon be placed in position. The apparatus includes everything necessary for the development of one's muscles and at the same time is calculated to interest him in many ways, and cause him to spend many a pleasant evening.

The association has secured quarters over the new building just erected by Mr. W. W. Clyatt, opposite the Ocala Banner office.

The books are open for the reception of new members. Consult the secretary, Mr. Royal Cole, and register your name as a member. Every young man in Ocala should become a member of it and many of the older ones besides.

OCALA WELL REPRESENTED IN TAMPA

This week was enlivened for a crowd of the society set yesterday by the picnic given by Mr. and Mrs. B. S. Weathers for the former's sisters, Misses Esther and Janet Weathers, of Ocala. The evening was spent at Sulphur Springs, making the largest and most delightful social affair that has been given since the beginning of the summer season. Dancing, the roller coasters and the swimming pool all contributed their share to the evening's round of pleasure. Another plan that has been made for the entertainment of the Misses Weathers is a cruise down the bay. Mr. and Mrs. Weathers, their two guests, Mr. W. H. Beckwith and Mr. Beeman Beckwith will leave tomorrow on the Wahhita to spend a few days cruising.—Tampa Tribune.

Mr. R. D. Stokes of the Withlacoochee river section, was among the Ocala visitors Wednesday. He says the new steel bridge across the river near his place is a beauty, but that it will not be fully completed for several weeks. Colonel Venable, he says, will have the new dirt road across the prairie completed in about a week. It is being built for the purpose of eventually being made into a hard road, and meeting the hard roads which are being built in the direction of Inverness and Brooksville. While in the city Mr. Stokes did not forget to have his favorite paper continued to him for another year.

EXCELLENT HEALTH ADVICE

Mrs. M. M. Davison of No. 379 Gifford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from those afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at Tydings & Co. drug store. 50c.

Colonel Venable was in town Saturday and says that he has finished the road across one of the prairies going from here to Stokes Ferry, and is now in the second and last prairie. When it is completed and McAdamized and is connected with the road to Dunnellon we will have a continuation of hard roads to the county line in two directions; will be met with other roads across the line in Citrus, and will have a long stretch of good roads.

FOR SORE FEET

"I have found Bucklen's Arnica Salve to be the proper thing to use for sore feet, as well as for healing burns, sores, cuts and all manner of abrasions," writes Mr. W. Stone of East Poland, Maine. "It is the proper thing, too, for piles." Try it! Sold under guarantee at Tydings & Co. drug store. 25c. m

Mrs. George Wilder of Weatherford, Texas, sister of Hon. D. L. Keenan of Seymour, Texas, was recently the victim of a kerosene explosion. Mrs. Wilder, her husband and her brother were former residents of Quincy, in this state, and were school mates of the editor of this paper.

Newton Slaughter, the young man who forged a check on M. Fishel & Son, and whom Sheriff Gordon shot in the leg in attempting to arrest him, waived a preliminary examination and was held to await the action of the grand jury.

Mr. Will T. Gary, instead of taking the trip to Washington City, went to the Suwannee Springs, as he has been having an attack of fever. After staying at the springs for a while he will then prolong his trip to the seashore for a week or ten days.

MAN-A-LIN
THE IDEAL LAXATIVE
MADE FROM
CORRECTIVES AND PURGANTS
Copyright 1906, by The Man-A-Lin Co.
Excellent Remedy for

Colds and Headaches
Requiring a
LAXATIVE
To Dispel Them. It Has a Gentle Action on the
KIDNEYS, LIVER and BOWELS.
Those who prefer can obtain Man-a-lin in tablet form.
THE MAN-A-LIN CO.,
COLUMBUS, OHIO, U. S. A.

THE AGE OF THE HORSE

Following is a list of the ages of some famous horses, and the time record of their achievements on the turf:

Horse	Age
Harry Wilkes, 2:13 1-2	32
Nelson, 2:09	26
Sally Burton, 2:17 1-2	28
Nancy Hanks, 2:04	28
Bush, 2:09 1-2	22
Baron Wilkes, 2:18	26
Cherries, 2:30 3-4	24
Edward, 2:19	36
J. I. See, 2:10	30
Mauzanita, 2:16	26
Zunol, 2:08 1-4	22
Allerton, 2:09 1-4	22
Kremlin, 2:07 3-4	21
Grambetta Wilkes, 2:19 1-4	27
Rysdyk's Maid, 2:24 1-4	36

We have a horse her in Ocala that is old enough to belong to the Confederate veterans. He is a gray, and is still as gay and game as the most youthful.

A FAITHFUL FRIEND

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols, of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value, and is competent to speak for it. For sale by all druggists. m

Mrs. Rhodes of Thomasville, Ga., brother of Mr. George W. Puckett, who has been in jail in Ocala for some time, is here endeavoring to secure bail for him and have him released. Mr. Puckett is charged with alienating the affections of another man's wife.

GRANULATED SORE EYES CURED

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all druggists. m

Mr. J. W. Luffman and two little boys were in from Sparr Friday. Mr. Luffman says that there is nothing particularly stirring in his section. He says, however, that the nomination of Mr. Karl L. Harter for the legislature by the socialists is a bit of news that will cause his neighbors something to gossip about.
