IN THE FIELD OF POLITICS.

A valued subscriber was in from the Heidtsville neighborhood yesterday and told us that Hon. W. K. Zewadski and Hon. C. M. Brown are "shelling the woods" in his neighborhood with 'political misiles' and as a result thereof Uncle Sam is growing rich in the sale of postage stamps if every other section of the country is looked after as sedulously as the region 'round about Heidtsville. He says that no voter has escaped.

Speaking of "senatorial possibilities" Tom Sawyer says of Hon. Frank Adams:

"He is 'fat, fair and forty,' and although not himself a lawyer he is as good as a lawyer. He would make Florida a respectable senator and would do other things besides drawing the salary."

Speaking of the supreme judge to be voted for in the primaries, the Tampa Herald says:

"A prominent Tampa politician who recently visited Tallahassee states that Justice Maury of the supreme court would not stand for re election this fall. It is believed that Judge Hocker, of Marion, will be a candidate for that place."

The Gainesville Sun is responsible for the statement that Hon. Bob McNamee, of St. Petersburg, is troubled with the "constant buzzing of the congressional bee," but the Sun says:

"It will take more than he will realize from that thirty thousand dollar judgment he has against John Denham to beat the Hon. Steve Sparkman for congress, should the latter decide to again 'shy his political castor' into the race."

It seems that the Tampa Tribune also credits Mr. McNamee with decided predilections in the same direction. Speaking of which Mr. Tom Sawyer says:

"Too bad! Too bad! And yet all lawyers have 'em sooner or later. If Mr. McNamee has ever done anything to entitle him to consideration when the people are casting about for some one to draw the salary which the Honorable Stephen now draws so well and so punctually it would be well for the world to know it. He is a man of some ability, and has a penchant for damage suits, but there is better material in Tampa for a congressman, and it is likely to be used. It may be however that the Tribune is slandering McNamee as it did the loquacious Zewadski."

The versatile Tom also draws State Superintendent Sheats into the pot of boiling politics in this complimentary fashion:

"I'll bet if W. N. Sheats were in the United States senate our state would be heard from. He would rise like a tall Florida pine above the dull level of stagnation. He has been the only advanced man in the state administration for a dozen years, except possibly the new comptroller, and yet if he should offer for the senate he would be crucified head downward.

I am about done now. I believe I have mentioned the A. & A. But I have an ace up my sleeve which I shall now throw ker-flap upon the table.

Not long ago one of our west coast statesmen, who has been thought of in connection with the legislature (by himself) inquired: "Will Mr. Flagler have any business with the next legislature? If so, I want to go."

Along the same trend of thought the Sanford Chronicle says:

"And now Mr. Flagler has increased his gift to the State Agricultural College from $10,000 to $50,000. Keep your weather optic on the king of the east coast, good people.

Well, the good people of Florida could go further and find a great many men who are in a position to do a great deal less for the material welfare of Florida in the United States senate than Henry M. Flagler.

Mr. Flagler is not, but—were he a candidate for United States senator—he could win hands down without spending so much as a nickel.

For his magnificent gifts to the state of Florida in all manner of ways the people would be all too glad to confer this honor upon him.

But "Barkis is not willin'."

Like a certain character who was once carried up on a high mountain to be tempted by the false allurements of the world, Mr. Flagler refuses to be taken from his loved work of building and beautifying by the unsatisfying lust and struggle for office.

He has done enough for Florida that least entitle him to that which he seeks—the enjoyment of seclusion and quiet.

"The two best papers ever published in the state are The Tallahasseean and the Ocala Banner," said "Old Nat" Walker while in the city Tuesday last on legal business. "Why, sir, it is a pleasure to read such a paper as The Tallahasseean. It is even better than the Banner, and that is saying a great deal." To be classed with such a versatile writer as Frank Harris is an honor duly appreciated by the humble scribes of The Tallahasseean, and to be told that they are even better well, it just makes them blush, even though they are getting accustomed to having complimentary things said about this paper.—The Tallahasseean.
