

Parliament Lights.

The British Houses of Parliament are partly lighted by 40,000 electric lamps, which number is being constantly increased. Fifty experienced electricians are employed to keep the system in order.

A Long Look Ahead.

The politicians are even now beginning to weigh the possibilities involved in the next Presidential election. The papers are full of electioneering gossip, and venture predictions as to the future which are somewhat too confident. But it is safe to say that a systematic course of Hostetter's Stomach Bitters will renew health in the malariotic, bilious, rheumatic, costive or nervous.

It takes a smart accountant to account for the shortage in his accounts.

Blood is Life Pure Blood is Health

Without blood circulating through your veins you could not live. Without pure blood you cannot be well. The healthy action of every organ depends upon the purity and richness of the blood by which it is nourished and sustained. If you have salt rheum, scrofula sores, pimples, boils or any kind of humor, your blood is not pure. If you take Hood's Sarsaparilla it will make your blood pure and promptly relieve all these troubles. In the spring the blood is loaded with impurities. Hence, all those ugly eruptions, that languor and depression, and the danger of serious illness. Hood's Sarsaparilla is needed to purify, enrich and vitalize the blood and protect and fortify the system.

South American Wheat.

Mr. Buchanan, the late Minister to the Argentine Confederation under the Cleveland Administration, has just returned from that country, and reports that the Argentine wheat crop this year will be great enough to permit an export of from 40,000,000 to 50,000,000 bushels, an amount which will have not a little effect upon the price, as it will considerably augment the world's supply. The possibilities of South America as a wheat-producing country are almost limitless. A great area remains to be opened up in the Argentine, and when the railroad system is completed there it will develop a wheat belt almost as large as our own rich one in the far northwest. So, too, in Bolivia and Peru, at some time in the next century, there will be devoted to wheat cultivation an immense area which must bring South America seriously into competition with the United States for the wheat markets of the world.—Pittsburg Post.

AIDED BY MRS. PINKHAM.

Mrs. W. E. Paxton, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhoea badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.

"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I sent for two more. After using three bottles I felt as strong and well as any one.

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble."

Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.

The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have saved much suffering. Mrs. Pinkham's address is Lynn, Mass.

DYSPEPSIA

"For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and at times my stomach would not retain and digest even that. Last March I began taking CASCARETS and since then I have steadily improved, until I am as well as I ever was in my life."

ORDERS FROM WASHINGTON

Troops Will Begin to Hurry South at Once—Decision of War Department Created Excitement.

Decidedly the most warlike step taken by the war department in preparing for the possibility of an encounter with Spain was inaugurated Friday, when orders were issued for concentration at four points in the south of six regiments of cavalry, twenty-two regiments of infantry and the light batteries of five regiments of artillery.

At Chickamauga there will be six regiments of cavalry and the light batteries of five regiments of artillery; at New Orleans, eight regiments of infantry; at Tampa, seven regiments of infantry, and at Mobile, seven regiments of infantry. Since the civil war no such proportion of the army has been mobilized and the movement itself is the best evidence of the gravity of the situation as looked upon by the president and his advisers.

While the troops are to be scattered among the points designated, all orders will be issued from Atlanta, as in that city Major General Nelson A. Miles, who will have command of the army, will locate his headquarters. The determination to rendezvous the troops where they can be acclimated to the conditions of a more tropical climate has been under consideration by the president and his cabinet for some time. It was not until Friday, however, that the president, in view of the enormous expense which will be entailed, felt justified in taking this step.

When Secretary Alger returned from the cabinet meeting he at once called into conference General Miles and Adjutant General Corbin, and acquainted them with the result of the cabinet's deliberation. There were hurried consultations, in which the quartermaster general, who has charge of the transportation of troops; the commissary general, who looks after their subsistence, and representatives in Washington of various railroads running to the south, participated.

The heavy batteries of artillery in the five regiments will remain at their present posts.

The two regiments of artillery recently authorized by congress have not been recruited the full strength, and in addition are not well equipped with horses and other necessary requisites, and therefore are not included in Friday's orders.

The department has so distributed the twenty-two regiments of infantry at such convenient places on the gulf that they will be accessible for transportation to Cuba.

Instructions to the commanding officers of the regiments ordered to move were sent out late in the afternoon, with directions to be put into effect as soon as possible. It is the confident expectation of the officials that the movements in some places will begin at once. The railroad facilities, the officials say, are more than ample to meet the demands of the occasion, and no trouble will be experienced in mobilizing this large body of men at the places designated within a reasonably short space of time.

The command of the army will devolve upon General Miles, who is now at the head of the military branch of the government.

TOBACCO REVENUE RAISED.

Tax Will Be Collected From All Dealers in the Weed.

The prevailing opinion among manufacturers of cigars, tobacco, cigarettes and snuff and brewers that in the event of war there will be a marked increase in the internal revenue tax levied on their products, it is said at the treasury department, undoubtedly will be verified.

The law, it is stated, will contain a special provision which will result in the increase in tax being collected from all wholesale and retail dealers in whose hands these products may be found when the law goes into effect.

NAVAL DEMONSTRATION

May Be Made by the European Powers in Cuban Waters.

The Popolo Romano (Rome, Italy), says it understands the powers of Europe may intervene between the United States and Spain in favor of the latter country, and it adds, according to information gathered in well informed quarters, the intervention will take the form of a naval demonstration in which all powers will participate.

Inflammatory Rheumatism.

From St. Lawrence Plaster, Canton, N. Y. To suffer for years with a prevailing painful ailment, which baffled skillful medical treatment, yet which was cured by a simple household remedy, is the lot which befell Mrs. George L. Rogers, of West Main Street, Canton, N. Y.

"Thirteen years ago," said Mrs. Rogers to a reporter, "I was attacked with inflammatory rheumatism and a complication of diseases. You can judge somewhat of what I endured, when you look at these hands. They were distorted, twisted and swollen. My foot, too, is so much out of shape that the big toe lays across the others, the end touching the little toe."

Notwithstanding I am sixty-five years old, have a pleasant home and other comforts, life to me was far from enjoyable, for all other things pale into insignificance when you are without good health. I tried different doctors and many proprietary remedies, but was not benefited.

"Last March I tried Dr. Williams' Pink Pills for Pale People and before I had finished the first box I began to feel that they were doing me good. I continued using them and steadily grew better. I have used thirteen boxes of the pills and to-day feel better than for the past fifteen years. My appetite is good, I feel bright, cheerful and have a desire to live and enjoy society.

"I have been a member of the Methodist church for many years, but for six years was unable to attend. I am able now to attend the church services regularly and certainly appreciate that privilege. I consider Dr. Williams' Pink Pills for Pale People a wonderful medicine and am confident no other medicine could have effected the wonderful cure they have in my case." Dr. Williams' Pink Pills for Pale People are composed of vegetable remedies that exert a powerful influence in purifying and enriching the blood thus curing many diseases.

Roads to the Klondike.

The inrush to the Klondike promises to be something prodigious. It will be in order for the government to establish posts at proper intervals along the main highway to this region. There are plenty of troops available for this purpose, and they could find no better employment than in looking after and assisting those adventurous spirits who go to build up and people a new country.

It is suggested that a railroad be built, either wholly or in part in a tunnel, cut out of a hillside. When one studies the amazing work of the armies of old, the roads they built, the highways they prepared, the tunnels, channels and ditches they cut, it comes with a strange sense of inefficiency, the idea that we, with all our resources, cannot find a way to reach inclement localities when the elements are against us. In time, Alaska and all these extremely cold countries must be provided with transportation facilities that will be entirely independent of the weather. A road tunneled through a hillside and provided with trestle and bridge work, over chasms and valleys, might be built and run by the government. Such a road would be affected neither by cold nor storms, and coming and going would be easy and rapid. The enormous traffic of the next few years would go far toward covering the immense cost of such an enterprise. The labor of building such a road could be performed in part by the army, and would furnish employment which would bring great profit to the government. Private capitalists are already discussing the building of such roads, and it is scarcely too much to say that before many seasons have passed a winter trip to the Klondike can be made with safety, comfort and reasonable dispatch.—New York Ledger.

GERSTLE'S FEMALE PANACEA.

DOCTORS FAIL, BUT GERSTLE'S FEMALE PANACEA CURES

My wife was taken sick and I at once called our family physician, and he thought best to call in another physician for consultation. After using their medicines for two months I found she was very little better, so I then purchased a bottle of Gerstle's Female Panacea and commenced using it. Before she had finished taking the second bottle she was in better health than she had enjoyed in years previous. I then recommended the Panacea to three of my neighbors with good result. Remove all costiveness with mild doses of St. Joseph's Liver Regulator. If your case is complicated, write us and we will instruct you fully how to use these great remedies. Sold by all druggists. L.
