Poultry Pointers.

Give geese a good pasture and pond and they will take care of themselves with little feeding.

Provide convenient nests and keep them clean. Soiled eggs usually find an unsatisfactory market.

Hens that lay soft shelled eggs may be helped by a little more vegetables or green food and oyster shell.

Young ducks should be ready for market at ten weeks old. There is no profit in feeding them after that.

Never change to a new breed simply because extravagant claims are given. It is better to try to improve the old ones.

Do not forget that the hens will need plenty of grit to help grind up the food. If plenty of grit is not available provide it for them.

Treatment for roup: One ounce permanganate of potash to three pints of water for submerging the head. For drinking purposes dilute one pint of the above mixture in three or four pints of water.

The dust bath is one of the most necessary things that go to make up a fowl's life to rid it of lice. If the hens get the dust bath outdoors in the summer and it is good for them, then we must provide it indoors in the winter.

Flavoring Tobacco.

Nearly all tobaccos are doctored in various ways in order to suit the tastes of different consumers. Each manufacturer—even in Havana—has his own secret methods, handed down from father to son, which are regarded as perfectly legitimate and necessary in the preparation of the soothing weed. Saltpeter is added to the tobacco to make it burn well, licorice, honey, molasses and maple sugar to give sweetness to it for the special benefit of chewers and rum to make it keep well and preserve its properties. Nearly every plant which will afford a perfume is used in the preparation of what are known as "fancy" tobaccos. But it is not true, as some suppose, that opium and deleterious drugs are employed, save in a few brands of imported Turkish and Egyptian cigarettes. Among the flavors used are coffee, tea, valerian, lemon, orange, geranium, sassafras, thyme, anise, mint and cinnamon. Gum and glycerin are occasionally employed to bind the tobacco particles so that they shall not crumble into dust. The various ingredients are made into a kind of sauce, into which the tobacco leaves are dipped or with which they are sprinkled.—London Answers.

The Thunderer.

It is not perhaps generally known under what circumstances the name of Thunderer was applied to the London Times, says a correspondent of the New York Herald. Two ladies of Kew were splashed with mud by an ill behaved horseman, and the Times, taking the matter up, in a leading article vigorously denounced the rudeness of the rider, alleged to be the Duke of Cumberland. On the allegation proving false another article appeared by way of apology, in which occurred the phrase "we thundered out." This grandiloquence caught the public fancy, and the name Thunderer followed as a matter of course.

Muslin Window For Cow Stable.

Cows should not stand facing a window unless the window be covered with muslin. By the way, the muslin window in a cow stable is better by far than glass. It gives a subdued light and furnishes ideal ventilation.

The Ignorance of Youth.

She—You said that I was necessary to your happiness. He—I was young then and very ignorant. I had no conception of relative values. She—What do you mean? He—I mean that I didn't know a necessity from an affliction.—Cleveland Plain Dealer.

Rural School Garden Suggestion.

In rural communities instead of conducting miniature vegetable or flower gardens it might be better to secure different varieties of grains or grasses for test upon home plats, encouraging the students to undertake small experiments which shall have for their chief end the development of the faculties of observation. Different methods of tillage and fundamental principles of this character will be involved in these experimental or demonstration areas the results of which will emphasize the importance of certain lines of work.

The Pleasure Was Mutual.

The friends of two American celebrities, one a stutterer and the other somewhat deaf, succeeded after much maneuvering in getting them to meet, and the event aroused considerable unholy glee.

Some time thereafter the stutterer was asked how the interview passed off.

"Oh, w-we g-g-got along f-f-finely," he stammered. "I c-c-couldn't t-t-t-talk, and s-s-she c-c-c-couldn't a-h-hear me."—Lippincott's.

By the Card.

"Will Brother Jones kindly lead?" was asked by the pastor at the beginning of the prayer service.

Waking with a start at the mention of his name, the deacon almost broke up the service by replying, "I led last time; it's your turn; what's trumps?"—Philadelphia Record.

Notice is hereby given that the preliminary Assessment roll for the year 1910 has been submitted to the town Council for approval. Any persons desiring change or correction of same will submit petition for change or appear in person before Council Feb 3, 1911 A. S. KING, Town Clerk.
