DREAM LED TO RECOVERY OF LOST RING.

The valuable ring lost one day recently by G. H. Ludwig, and found by him the following day, has in its recovery a strange feature in the nature of a dream by which its hiding place was made known.

Mr. Ludwig, although at first absolutely positive that he had placed the ring upon his dresser when retiring, now believes that he must have put it in his pocket before washing his hands and later, in taking the keys of his tool house from that pocket had also drawn out the ring, which fell to the ground unnoticed.

During the night he dreamed that by raking in a certain place in his yard he would find the ring. So vivid was his dream in the morning that he went to the spot but could see nothing of the ring, but later he used a rake and within a few moments had recovered it from the sand in which it was buried.
